<p>They are also motivated by panic. They believe that Congress is ready to repeal the 1966 Cuban Adjustment Act, which gives Cubans a unique privilege – automatic residency one year and a day after their arrival in the country. Attempts at a repeal have so far been unsuccessful, but anti-immigrant sentiment in Washington makes it a possibility, especially because Cubans are now viewed here as economic, rather than political, migrants.</p>	<p>另一个原因是恐慌。他们认为，美国国会打算撤销 1966 年的《古巴难民调 整法案》(Cuban Adjustment Act)，这项法案赋予古巴人一项特权——他们 到达美国一年零一天后自动拥有居住权。到目前为止，撤销这项法案的多次 尝试都没有成功，但华盛顿的反移民情绪让撤销成为可能，尤其是考虑到古 巴人现在被视为经济移民，而非政治移民。</p>
<p>Coast Guard officials said Cubans had become more aggressive in trying to evade capture. They at times jump in the sea or refuse to board the Coast Guard cutters. On Friday, 19 Cubans scrambled off their boat as the Coast Guard approached and swam to a lighthouse five miles off the Florida Keys; they eventually climbed down and will most likely be taken right back to Cuba. Two months ago, six Cubans on a boat had gunshot wounds and said they had been attacked in the Florida Straits. Doctor's Stake in Tribune Is to Preserve 'Public Trust'	世界最富华裔医生在洛杉矶的财富版图
LOS ANGELES — Dr. Patrick Soon-Shiong, the new vice chairman and second-largest investor in Tribune Publishing, is believed to be the wealthiest physician in the world and the richest person in this city, surpassing all the Hollywood moguls.	洛杉矶——黄馨祥博士(Patrick Soon-Shiong)成为论坛出版公司(Tribune Publishing)的新副主席和第二大投资者。他被认为是世界上最富有的医生和洛杉矶首富，超过所有的好莱坞巨头。
Much of that fortune, valued at \$11.9 billion by Forbes, came from selling generic drugs and from developing one new type of drug to treat cancer.	据《福布斯》(Forbes)估算，他的资产总额为119亿美元。大部分来自销售非专利药以及一种新型抗癌药的研发。
But his meteoric rise has not been without controversy, either, as he has developed a reputation for exaggerating his prospects and accomplishments.	不过，他的迅速崛起并非没有引起争议，因为他以夸大自己的前景和成就闻名。
"He thinks big and sometimes his statements come off hyperbolic," said Dr. Eric Topol, professor of genomics at the Scripps Research Institute. India and Nepal in Not-Very-Enlightened Spat Over Buddha's Childhood Home	佛陀故乡在哪里？印度尼泊尔争执不休
TILRAKOT, Nepal — Standing at the edge of a six-foot trench, an archaeologist from Nepal's government peered down at a row of round holes — new evidence, he said, that below our feet lay a 2,500-year-old thatch-and-timber city where the Buddha lived until the age of 29.	尼泊尔梯罗拉柯提——一个尼泊尔政府的考古学家站在 6 英尺（约 1.8 米）宽的壕沟旁边，望着脚下的一排圆圆的大坑。他说，在我们脚下躺着一座拥有 2500 年历史、用茅草和木板搭建起来的的城市，新的证据表明，佛陀曾经生活在这里，直到他年满 29 岁。
The archaeologist said he was thinking about the future, when thousands of pilgrims would be climbing down from rows of buses every year to see the ruins in the Nepalese town of Tilaurakot. "We are trying to compel them to spend money here," he said.	这位考古学家说，他在想未来每年会有成千上万的朝圣者，坐着一辆辆的大巴，到梯罗拉柯提(Tilaurakot)这座尼泊尔小镇来参观这些废墟。“我们在想办法让他们在这里消费，”他说。
Similar enthusiasm could be detected about 17 miles away on the Indian side of the border, where India invites tourists to visit another site it claims are the ruins of the Buddha's childhood home. Asked about the Nepali site, an Indian archaeologist sniffed. "The question doesn't arise," he said.	在约 17 英里（约 27 公里）之外的地方，也就是边界线另一头的印度，也可以感受到同样的热情——印度也在邀请旅游者们前往，观看另一处废墟，据称那是佛陀小时候住的地方。被问及尼泊尔的那处遗址，一名印度考古学家嗤之以鼻。“这根本就不是问题，”他说。
Begun in the glory days of the British Raj, this archaeological tug of war has remained unresolved for more than a century, of concern to virtually nobody. Placards were erected, announcing that "it would have been on this roadway that Siddhartha traveled on toward the Eastern Gate before renouncing his princely life." A wooden walkway was also built so that pilgrims who prostrated themselves would not become covered in mud.</p>	<p>4月底，这座平原上的天气已经非常炎热，因为热季的关系，考察要暂时中止，工人们用独轮车运送泥土，把壕沟重新填上。场地外竖起了告示牌，宣布，“悉达多可能就是从这条路向东门走去，放弃了王子生活”。这里还修建了一条木头过道，让匍匐叩首的朝圣者们不必粘上泥巴。</p>
<p>It was a bit hard to imagine a crowd there; the forest was empty except for a young boy, who was amusing himself by throwing stones. But</p>	<p>很难想像大批人群会涌入这里；森林里空无一人，只有一个小男孩在扔石头取乐。但是尼泊尔考古局的拉姆·巴哈杜尔·孔瓦尔(Ram Bahadur Kunwar)</p>

<p>Others share his excitement. The Asian Development Bank is helping to finance a \$54 million upgrade of the international airport close to the Nepalese town of Lumbini, the Buddha's birthplace. The upgraded airport, when it is completed in 2030, will accommodate 760,000 passengers a year. Lumbini is about 16 miles from Tilaurakot.</p>	<p>其他人也和他一样兴奋。亚洲发展银行(Asian Development Bank)出资5400万美元，升级尼泊尔小镇、佛陀的诞生地蓝毗尼(Lumbini)附近的国际机场。升级后的机场将于2030年竣工，一年可以接待76万名乘客。蓝毗尼距离梯罗拉柯提有16英里(约26公里)。</p>
<p>It seems that many of those visitors are expected to come from China, which is experiencing a Buddhist revival: Tour guides are picking up Mandarin, new hotels are hiring Chinese chefs, and the local authorities are planning to erect a statue of the ninth-century Chinese Buddhist pilgrim whose travel journal established Nepal as the Buddha's birthplace. On a recent afternoon, a gaggle of women from Chengdu were clambering back onto a plane after meditating for five minutes under the branches of a tree near the Buddha's birthplace.</p>	<p>预计会有很多来自中国的游客，那里正在经历佛教的复兴：导游们说起了普通话、新酒店正找来中国大厨、当地政府正计划修建一座9世纪中国佛教朝圣者的塑像，正是他的旅行日记确定了佛陀的诞生地在尼泊尔。前不久的一个下午，一群来自成都的女人在佛陀诞生地附近的枝头下冥想了五分钟后，就坐飞机回去了。</p>
<p>Sunanda Sakyaputra, a Buddhist monk who had traveled to Tilaurakot to meditate, said the site of the ruined palace, a place where the Buddha "was not happy," gave him a profound sense of the futility of human suffering. Asked about the town on the Indian side, he snorted.</p>	<p>来梯罗拉柯提冥想的佛教僧人苏南达·萨蒂亚普特拉(Sunanda Sakyaputra)说，在这座毁坏的宫殿遗址之中，佛陀"并不快乐"，他在这里深刻地思考人类痛苦的无意义性。被问起印度那一侧的小镇，他嗤之以鼻。</p>

In Istanbul's Taxis, Buckling Up Is an Insult	在土耳其系安全带，你可能激怒的士司机
It can be hard to find a functioning seatbelt in an Istanbul taxicab, and when I do, I think twice about putting it on. Why? Because it always seems to outrage the driver — and sometimes leaves me having to defend my very identity as a Turk.	在伊斯坦布尔的出租车上，要找到一条没坏掉的安全带比较困难。当我找到时，在系上它之前也会考虑再三。为什么呢？因为此举似乎会激怒司机——有时导致我不得不捍卫自己的土耳其人身份。
Awkwardness with a cabby was the least of my concerns when a taxi I was in recently started lurching forward at 100 kilometers per hour (62 m.p.h.), more than triple the road's speed limit.	近日，我乘坐的一辆出租车超过道路限速两倍有余，开始以上百公里的时速狂奔。到了这时候，与司机之间是否气氛尴尬几乎不在我担心的事情之列。
When the driver heard the click of the buckle, he started uttering, "Op, op, op," a sound Turks use to get someone's attention. I met his offended gaze in the rearview mirror.	当司机听到安全带扣上的声音，他开始发出“噢噢、噢噢、噢噢”的声音——土耳其人用这个语气词来引起别人的注意。从后视镜里，我对上了他那不爽的目光。
"Why did you do that?" he demanded. "I can drive!"	"你为什么那么做？"他追问。"我会开车！"
Other times, drivers have brushed aside my grasp for safety. "The belt is just an accessory — it doesn't do anything," one insisted. Another fairly spat, "This is a car, not a helicopter!"	有些时候，司机会对我的安全之举不以为然。"安全带只是一个装饰——没有任何作用，"一名司机坚称。另一个说话很直接，"这是车，不是直升机！"
Turkish cabdrivers have this attitude despite being notorious for speeding, running red lights and recklessly jockeying from lane to lane on the highway without signaling. The younger ones will often watch YouTube videos or play games on their phones while stopped in Istanbul traffic. (TomTom's annual Traffic Index ranks the city among the world's most congested.)	土耳其出租车司机爱超速、爱闯红灯、爱在公路上不打信号就变道是出了名的。尽管如此，他们对安全带的态度还是这样。在伊斯坦布尔堵车时，年轻司机经常会在手机上看 YouTube 视频或打游戏（TomTom 导航公司的年度交通指数显示，伊斯坦布尔是世界上最拥堵的城市之一）。
A friend was in a taxi recently when the cabby pulled out a thermos and tried to mix a cup of Nescafé as he was driving. Result: fender bender.	一个朋友最近坐出租车时，司机一边开车，一边掏出保温瓶，想冲一杯雀巢咖啡。结果出了小车祸。
Passengers who reach for seatbelts are taken for tourists. For a completely nonscientific study of this phenomenon, I rode in 17 taxis in	系安全带的乘客会被看成是游客。我对这个现象做了一个完全不科学的研究，一天之内乘坐了 17 辆出租车。当我系安全带的时候，有九个司机问我

a single day, and when I buckled up, nine of the drivers asked me where I was from — including one who busted up laughing as I tried to force a broken clasp.	是哪里来的——在我努力扣上一个坏掉的安全带卡扣时，其中一个司机还爆发出了笑声。
"What's funny?" I asked in my native Turkish.	"有什么好笑的?"我用母语土耳其语问道。
"Where are you from?" he said.	"你是哪里来的?"他反问。
"I'm from the Black Sea region," I replied. "Why did you laugh?"	"黑海地区,"我回答。"你笑啥?"
"Only foreigners do that," he scoffed. "If you're really Turkish, then let go, and trust your people."	"只有外国人才那么做,"他嗤之以鼻。"如果你真是土耳其人,就不要系,相信自己的同胞。"

Freed After Terror Conviction, He Went On to Kill in France	法国男子涉恐获刑, 出狱后仍为 ISIS 杀人
PARIS — A 25-year-old Frenchman who fatally stabbed a police officer and his companion at their home in a suburb of Paris on Monday, an attack quickly claimed by the Islamic State, was detained from 2011 to 2013 for involvement in a terrorist network that aspired to be active in Afghanistan and Pakistan, authorities said Tuesday.	巴黎——当局在周二表示, 周一在巴黎郊区将一名警察及其伴侣在家中刺死的那名 25 岁法国男子, 在 2011 至 2013 年间曾被羁押, 原因是和一个寻求前往阿富汗和巴基斯坦行动的恐怖主义团伙有牵连。周一的事件发生后, 伊斯兰国(Islamic State)很快宣布对袭击负责。
At a news conference, the Paris prosecutor, François Molins, offered new details about the brutal killings.	在新闻发布会上, 巴黎检察官弗朗索瓦·莫兰(François Molins)提供了这起残忍的杀戮事件的更多细节。
The killings raised new concerns about radicalization, as the assailant in France, identified as Larossi Abballa, was a French citizen who had been convicted and sentenced for terrorism-related activities.	事件引起了有关激进化的一些新的担忧, 因为这个名叫拉罗西·阿巴拉(Larossi Abballa)的凶手是法国公民, 曾因参与恐怖主义相关活动而被定罪并判刑。
The assault began between 8 and 8:20 p.m. Monday, when Abballa fatally stabbed a police officer, 42, outside his home in Magnanville, a village about 35 miles west of Paris, according to Molins said.	据莫兰介绍, 袭击始于周一晚上 8 点至 8 点 20 之间, 地点在巴黎以西约 35 英里(约合 56 公里)的村庄马尼安维尔, 阿巴拉将那名现年 42 岁的警察在其住所外刺死。
Abballa then entered the house and held hostage the officer's companion, a 36-year-old woman who worked at a police station in	之后, 阿巴拉进入屋内, 将那名警察的伴侣和两人三岁的儿子劫为人质, 后又将那名警察的伴侣刺死。遇害女子 36 岁, 在芒特拉若利某警察局工作。

Mantes-la-Jolie, and the couple's 3-year-old son, before Abballa fatally stabbed her.	
A neighbor summoned authorities, who included members of an elite police unit. According to Molins, Abballa told police that he was a Muslim observing Ramadan; a supporter of the Islamic State and its leader, Abu Bakr al-Baghdadi; and that he was following an injunction by al-Baghdadi to "kill the infidels at home with their families."	一个邻居报了警，警方出动了包括特警在内的人员。据莫兰介绍，阿巴拉告诉警方自己是一名遵守斋戒的穆斯林，支持伊斯兰国及其领导人阿布·贝克尔·巴格达迪(Abu Bakr al-Baghdadi)，并表示自己是在执行巴格达迪的命令，“去那些异教徒的家里，杀死他们以及他们的家人。”
Members of the elite police unit, known as RAID, stormed the home around midnight, fatally wounding Abballa and rescuing the child, who Molins said was traumatized but physically unharmed.	名为 RAID 的特警部队成员在午夜前后对那所房屋发起突袭，打死阿巴拉并救出了那个孩子。莫兰称孩子遭受了精神创伤，但身体无恙。
Abballa was one of eight men convicted in Paris in 2013 of aiding a group that intended to commit terrorist acts and that had planned to go to Pakistan for training.	2013 年，包括阿巴拉在内的八名男子在巴黎被定罪，因为他们为一个打算制造恐怖活动并计划前往巴基斯坦接受训练的组织提协助。
He was given a three-year sentence on Sept. 30, 2013, including a six-month suspended sentence. His sentence was further reduced by the fact that he had been in detention since May 14, 2011.	2013 年 9 月 30 日，阿巴拉被判刑三年，缓刑六个月。因为从 2011 年 5 月 14 日起便被羁押这一事实，他的刑期进一步缩短。
Although Abballa was released immediately after his trial, he was under surveillance for an additional two years and two months, until Nov. 30, 2015, Molins said.	尽管审判结束后阿巴拉立即获释，但莫兰表示，他又被监视了两年零两个月，直到 2015 年 11 月 30 日。
"At the trial, Abballa seemed like someone who was not dangerous but was rather stupid," said Hervé Denis, a lawyer who represented Zohab Ifzar, one of the other defendants.	"庭审期间，阿巴拉看上去像是一个并不危险但相当愚蠢的人，"那起案件中的另一名被告佐哈布·伊夫扎尔(Zohab Ifzar)的代理律师埃尔韦·德尼(Hervé Denis)说。

Falluja Restaurant Is Reborn in Baghdad, Offering Nostalgia With Its Kebab	一家在反恐战火中重生的烤肉餐厅

<p>BAGHDAD — Long before Fallujah was known the world over for deadly jihadis, it was known all over Iraq for its kebab — fatty lamb, ground and mixed with onion, grilled on a skewer over an open fire and served with a pinch of sumac — at a joint called Haji Hussein.</p>	<p>巴格达——在费卢杰以杀人不眨眼的圣战者闻名于世很久之前，就以哈吉侯赛因(Haji Hussein)餐厅里的烤肉闻名伊拉克了——把肥美的羊肉切成小块，拌上洋葱，串成串儿后用明火烤，上桌时再撒点儿苏麻克。</p>
<p>Everyone, it seemed, ate at Haji Hussein: locals, soldiers, tourists and businessmen traveling the Baghdad-to-Amman highway that runs through the city. Starting in 2003, journalists covering the war ate there, and so did U.S. soldiers and the insurgents who fought them, perhaps even at the same time.</p>	<p>似乎人人都在哈吉侯赛因餐厅吃过东西：当地人、士兵、游客，以及经由穿城而过的高速公路往返于巴格拉和安曼之间的商人。战地记者们从2003年开始在那儿用餐；此外还有美国士兵，以及对抗美国士兵的叛军，两者甚至有可能同时在那儿吃饭。</p>
<p>The restaurant was damaged by bombs multiple times, and entirely flattened once by a U.S. airstrike. It was rebuilt, embraced as a symbol of Fallujah’s own rebirth after years of war, only to be abandoned when the city fell to the Islamic State more than two years ago.</p>	<p>该餐厅多次因遭到轰炸而受损，并在美军的一次空袭中被夷为平地。重建后，它被视为历经连年战乱的费卢杰获得新生的标志，直到那座城市在两年多以前落入伊斯兰国(Islamic State)之手，它才被废弃。</p>
<p>Now the much-loved kebab restaurant has been reborn again, this time in Baghdad, in a modern, three-story building in the upscale Mansour neighborhood.</p>	<p>现在，这家备受喜爱的烤肉餐厅已再度重生，这次是在巴格达的高档社区曼苏尔的一栋三层现代建筑里。</p>
<p>A new entrant on the capital’s thriving restaurant scene, it offers great kebab and a dose of nostalgia for a time when Baghdadis thought nothing of zipping off to Fallujah for lunch at Haji Hussein.</p>	<p>作为欣欣向荣的巴格达餐饮业的后来者，它既供应烤肉，又为人们提供怀恋往昔的场地——曾几何时，拔腿前往费卢杰，去哈吉侯赛因餐厅吃午饭，对巴格达人而言是稀松平常的事情。</p>
<p>“This was the craft of my grandfather,” said Mohammed Hussein, who runs the business that has been in his family since the 1930s, when Fallujah was a city of agriculture, smuggling and tribal traditions, not a jihadi haven.</p>	<p>“这门手艺是我祖父留下来的，”哈吉侯赛因餐厅的经营者穆罕默德·侯赛因(Mohammed Hussein)说。他的家族从1930年代开始经营该餐厅，当时的费卢杰还是一个以农业和走私为主，奉行部落传统的城市，而非圣战者的天堂。</p>
<p>The restaurant, shiny and well lit, is packed most nights, and patrons wait for tables — 15 to 20 minutes or so, something almost unheard-of</p>	<p>这家熠熠生辉、光线充足的餐厅，在大多数夜晚都挤满了人，食客们等上15到20分钟时间才能有空桌子，这种情况在伊拉克几乎闻所未闻。一楼的</p>

<p>in Iraq. There are two flat-screen televisions on the first floor, tuned to news channels reporting on the military campaign to retake Fallujah from the Islamic State.</p>	<p>两部平板电视被调到了新闻频道，正播放与旨在从伊斯兰国手中夺回费卢杰的战役有关的新闻。</p>
<p>"I can't bear to watch the news," Hussein said.</p>	<p>"我受不了这类报道，"侯赛因说。</p>
<p>There was one news flash recently that did not escape his notice: The Iraqi air force, like the Americans 12 years ago, announced that it had struck his restaurant site in Fallujah because leaders with the Islamic State, also known as ISIS or ISIL, were meeting there.</p>	<p>不久前的一条新闻消息没有逃过他的眼睛：像 12 年前的美国人一样，伊拉克空军宣布，袭击了他在费卢杰的餐厅，因为伊斯兰国（又称 ISIS 或 ISIL）的头目正在那里开会。</p>
<p>A statement from Iraq's Joint Operation Command appeared on the television: "Based on intelligence information about a meeting for ISIS leaders in Haji Hussein restaurant inside the center of Fallujah an airstrike was launched on the restaurant, which led to the killing of tens of ISIS terrorists."</p>	<p>伊拉克联合作战司令部(Iraq's Joint Operation Command)的一份声明出现在了电视上："依据关于 ISIS 的头目在费卢杰市中心的哈吉侯赛因餐厅开会的情报，对该餐厅发动空袭，击毙了数十名 ISIS 恐怖分子。"</p>
<p>But the restaurant, Hussein said, has been deserted for 2 1/2 years.</p>	<p>但侯赛因说，那家餐厅早在两年半以前就被废弃了。</p>
<p>When Iraqi forces recently made gains inside Fallujah, people almost immediately began talking about Haji Hussein. The federal police released a combat video saying they were fighting near the restaurant, and a glimpse of the rust-colored facade showed it damaged but not destroyed. On state television, commentators expressed hope that Haji Hussein might reopen soon in Fallujah.</p>	<p>伊拉克政府军最近在费卢杰取得了一些战果，与此同时，人们几乎立刻开始谈论哈吉侯赛因餐厅。联邦警察发布了一个作战视频，说他们正在该餐厅附近战斗，从视频中闪现的铁锈色外立面来看，餐厅虽然受损，但并未被摧毁。国家电视台的评论员表示，希望不久后哈吉侯赛因餐厅能在费卢杰重新开业。</p>
<p>In 2004, the Americans bombed the restaurant based on intelligence that insurgents loyal to Abu Musab Zarqawi, the founder of al-Qaida in Iraq, the forerunner of the Islamic State, were eating there.</p>	<p>美国人曾在 2004 年依据一份情报轰炸过该餐厅。那份情报称，忠于伊拉克基地组织(al-Qaida)创始人阿布·穆萨卜·扎卡维(Abu Musab Al-Zarqawi)的叛军正在那里吃饭。该组织是伊斯兰国的前身。</p>
<p>This being the holy month of Ramadan, the Baghdad restaurant has been busy lately serving iftar, the evening meal to break the day's fast.</p>	<p>时值斋月，巴格达的这家餐厅最近正忙于供应开斋饭，即打破当日斋戒的晚餐。停车场里颇为热闹：一名保安在检查汽车是否携带着炸弹；一个男人在</p>

<p>The parking lot is also a beehive of activity: a security guard checking cars for bombs; a man selling balloons to families; children begging.</p>	<p>兜售气球；一些孩子在乞讨。</p>
<p>As Hussein, 49, sat down to chat one recent evening, he was surrounded by bow-tied waiters — much of the staff from Fallujah now works in the new place — filling the tables with dishes of mezze, or appetizers, as diners waited to break their fast.</p>	<p>不久前的一个晚上，当 49 岁的侯赛因坐下来聊天的时候，周围满是系着领结的服务生——许多从费卢杰过来的员工目前在新餐厅工作。在食客等待开斋之际，他们把风味小吃端到桌上。</p>
<p>In addition to heaping platters of the famous kebab, there were dates coated with sesame paste, watermelon, hummus, cucumber and tomato salad, pickles and soup. There were some new items on the menu that were not served in Fallujah: grilled river carp, called masgoof; a Yemeni chicken-and-rice meal called mandi; and maklouba, a dish of chicken and eggplant and rice that is originally Palestinian.</p>	<p>除了一盘又一盘堆得满满的烤肉，还有裹着芝麻糊的海枣、西瓜、鹰嘴豆泥、黄瓜西红柿沙拉、腌菜和汤。菜单上有些新菜品是在费卢杰没有供应过的：烤鲤鱼，名为 Masgoof；一种以鸡肉和米饭烹制的也门风味佳肴，名为 Mandi；还有来自巴勒斯坦的以鸡肉、茄子和米饭做成的 Maklouba。</p>
<p>As customers streamed in, Hussein tried to recall how many times his restaurant in Fallujah had been damaged or destroyed by the war.</p>	<p>当客人涌进门的时候，侯赛因竭力回想费卢杰的餐厅在战火中总共受损或被摧毁了多少次。</p>
<p>“Too many to count,” he said.</p>	<p>“多到数不清，”他说。</p>
<p>At least inside his restaurant, Iraq does not seem hopelessly divided by sect. Sunnis and Shiites break their fast at slightly different times, and as sundown approached one of the televisions was tuned to a Sunni channel, the other to Iraqiya, the channel of the Shiite-led government.</p>	<p>至少在他的餐厅里，伊拉克似乎并未因为教派分歧而呈现令人绝望的割裂状态。逊尼派和什叶派开斋的时间略有不同。太阳即将落山时，一部电视机调到了逊尼派电视台，另一部则调到了什叶派主导的政府设立的伊拉克国家电视台 (Iraqiya)。</p>
<p>When the call to prayer — the signal that the day’s fast was over — went out on one, the Sunnis began eating. Fifteen minutes or so later, the Shiite customers began eating.</p>	<p>当召唤祈祷声——当日斋戒结束的信号——从一部电视机里传出来的时候，逊尼派开始用餐。过了 15 分左右，什叶派顾客开始用餐。</p>

<p>Elvis, Madonna and Mao: Exploring Identity in China</p>	<p>猫王、麦当娜和毛：“假照片”中的真实认同</p>
<p>In his earliest memories, Zhang Wei recalls his mother singing and dancing in a theatrical troupe, performing operatic versions of Chinese folk tales. Like magic, she transformed from one character into another as Mr. Zhang watched from the wings.</p>	<p>母亲在剧团里唱歌、跳舞，表演中国民间故事剧目，是张巍最早的记忆之一。他在舞台边上看到，母亲像变魔术一样，从一个角色转换到另一个角色。</p>
<p>As the Cultural Revolution ended and China opened to the West, however, the troupe’s performances changed, adding outside influences and modern references to attract new audiences. The characters in those dramas struck him as absurd – neither “really Chinese nor really Western.”</p>	<p>但是，随着文革结束，中国对西方开放国门，剧团的演出也发生了变化，开始把外界的影响和时新的关联添加进来，以便吸引新的观众。这种剧目中的人物让他感觉荒谬——“既不是真正的西方流行文化，又不是传统的中国戏曲。”</p>
<p>Rapid economic growth, urbanization and sporadic political liberalization over the following decades, Mr. Zhang said, changed the country to such an extent that the Chinese people faced an existential challenge. Their identity seemed to be always in transition, he explained, shifting as rapidly as his mother did from one role to another. “Someone who used to be dirt poor can suddenly become a millionaire,” he said. “Then next day be put into prison.”</p>	<p>张巍说，在随后的几十年里，经济快速增长、城市化，以及零星的政治自由化大大改变了中国，以至于中国人面临着一种存在的挑战。他们的身份似乎总是处在转型期，张巍解释说，就好像他母亲从一个角色转化到另一个角色。“今天是一个穷光蛋，明天可能就变成了百万富翁，”他说。“后天可能就进了监狱。”</p>
<p>Mr. Zhang set out in 2007 to capture the “21st century mind-set” of the average Chinese person and photographed hundreds of people in simple, direct portraits. He abandoned the project two years later after being unable to depict the ephemeral nature of life amid dizzying change.</p>	<p>张巍从2007年开始捕捉普通中国人的“21世纪的心态”，用简单直白的方式拍下数百人的肖像。两年后，他放弃了这个计划，觉得自己无法在令人目眩的变幻中描绘生命的短暂易逝。</p>

Self-worth is measured against that of entertainers, leaders and heroes promoted by</p>	<p>他意识到，在当今世界，人们的身份感是由大众传媒和广告塑造的，自我价值是通过和艺人、领袖和英雄相比较来衡量的，而宣扬这些艺人、领袖和英雄的，是一个消费驱动的社会。在努力展示这些外部因素如何影响自我定义</p>

<p>a consumer-driven society. In an effort to show how these external influences affect self-definition, he took elements of his earlier portraits of everyday Chinese people and combined them using Photoshop – and perhaps a touch of alchemy – to create virtual portraits of the personalities that, Mr. Zhang said, for better or worse, shaped today’s Chinese mind-set.</p>	<p>的时候，他把自己早期那些日常中国人肖像的元素引入其中，用 Photoshop——也许还有些炼金术的作用——将它们组合在一起，创作出名人的虚拟肖像。张巍说，无论算好事还是坏事，这些名人都塑造了当今中国人的心态。</p>

<p>Influenced by the Japanese computer game Artificial Girl 3, Mr. Zhang painstakingly combined an ear from one model, a wisp of mustache from another and a dimple from a third, often taking weeks at his computer to complete a single portrait. Thus the famous and the unknown “become a part of each other,” he said. At first glance the composite portraits seem real. But a double take reveals something slightly askew. He could create more precise images of his rich and famous subjects, but chose to “make them more absurd” by exaggerating a few characteristics.</p>	<p>受到日本电脑游戏《人工少女3》的影响，张巍精心地把一个模特的耳朵，和另一个的胡子，以及第三个的酒窝结合起来。用电脑完成一副肖像常常要花上几周的时间。名人和普通人就这样“成为了彼此的一部分”，他说。乍一看，复合画像显得很真实。但是仔细观察，就会发现一些部分略微有些别扭。他本来可以把富人和名人的肖像制作得更加精确，但是决定通过夸大一些面目特征来“让他们显得更荒谬”。</p>
<p>Mr. Zhang calls his project “Artificial Theater” because he sees his countrymen taking on a series of roles and discarding them as Chinese society changes. Indeed, everyone is like an actor, he said, “because to survive in this world sometimes you have to perform or act. Or even to be a hypocrite.”</p>	<p>张巍把这个计划称为《人工剧团》，因为他认为，随着中国社会的变迁，他的同胞扮演了一系列角色，然后又丢弃了他们。事实上，每个人都像是演员，他说，“因为大家要生存都得学会表演，都得学得很虚伪。”</p>
<p>The celebrities in his portraits are all easily recognizable to his Chinese audience. But the images do not celebrate fame. Instead, they</p>	<p>中国观众可以很容易地辨认出这些肖像画中的名人。但是，这些作品并不是在颂扬名流。相反，它们解构了对名人的崇拜。儿时的经历让张巍知道，潮</p>

<p>The rabbi, Haskel Lookstein, is one of the most respected Orthodox rabbis in New York, where he has for 58 years led Manhattan's Congregation Kehilath Jeshurun, after taking over the pulpit from his father. He recently received an honorary doctorate from Israel's Bar-Ilan University in recognition for what it called "the influential role he has played in deepening Jewish values and heritage among American Jewry."</p>	<p>哈斯科尔·卢克斯坦(Haskel Lookstein)是纽约最受尊敬的正统派拉比之一, 继承父亲的神职之后, 领导曼哈顿的 Kehilath Jeshurun 犹太会堂长达 58 年之久。前不久, 以色列的巴尔伊兰大学(Bar-Ilan University)为了表彰“他在深化美国犹太人的犹太价值观和传统方面发挥了有影响力的作用”, 授予他荣誉博士学位。</p>

<p>The Israeli rabbinate, which controls Jewish marriage and most Jewish burial sites in the country, does not recognize non-Orthodox streams of Judaism like Reform and Conservative, with which the majority of affiliated U.S. Jews identify. In rejecting Lookstein's conversion and those of others in similar positions, the rabbinical authorities now risk alienating Jews abroad who practice modern Orthodoxy according to Halakha, or Jewish law.</p>	<p>以色列拉比掌管犹太婚姻以及该国的大部分犹太墓地, 他们不认可非正统派犹太教分支, 比如改革派和保守派——美国的大部分犹太人都属于这些非正统派分支。以色列拉比拒绝承认卢克斯坦以及其他具有类似地位的拉比签发的皈依证书, 因此有可能疏远国外的那些按照犹太律法执行现代正统派教规的犹太人。</p>

He added, "I'd say this is unprecedented in Jewish history, that one group of rabbis rejects another."	他补充说：“我得说，这在犹太历史上是前所未有的——一个拉比团体否定另一个拉比团体。”
Itim handles up to 150 cases a year of modern-Orthodox converts from the United States who are struggling to get married in Israel or are experiencing other issues with the religious establishment. As Farber put it, "Almost everyone has problems nowadays."	Itim 每年处理多达 150 起类似案件——美国现代正统派犹太教皈依者在以色列争取婚姻权或经历其他与宗教权威相关的难题。按法伯的说法，“如今，几乎每个人都遇到问题。”
The U.S. convert, who is appealing her case to Israel's supreme rabbinical court, declined to be interviewed, and the rabbis discussed her situation on the condition that she not be identified in order to protect her privacy.	那名改信犹太教的美国女性正把自己的案件上诉至以色列最高拉比法庭。她拒绝接受采访。为了保护她的隐私，拉比们讨论她的情况时都避免暴露她的身份。
Her supporters said she converted just over a year ago, after about a year of study, and soon met the man who would become her fiancé in Petah Tikva, a bedroom community near Tel Aviv. The rabbinical court there first ruled in April that her conversion was invalid.	她的支持者称，她在一年前刚改信犹太教，之前学习了一年左右，然后很快在特拉维夫附近的城郊住宅区佩塔提克瓦遇见了后来成为她未婚夫的男人。今年 4 月，当地的拉比法庭首次判决她皈依无效。
After a preliminary hearing in the supreme rabbinical court in Jerusalem, Rabbi Itamar Tubul, the director of the chief rabbinate's department of personal status and conversion, wrote a letter to the Petah Tikva court saying that the conversion certificate signed by Lookstein was "approved by the chief rabbinate of Israel." (Two other Kehilath Jeshurun rabbis also signed the certificate.)	在耶路撒冷最高拉比法庭的初步听证会之后，大拉比的个人身份和皈依部主管伊塔马尔·图布勒拉比(Itamar Tubul)给佩塔提克瓦法院写信表示，卢克斯坦签发的皈依证书是“经过以色列大拉比批准的”(Kehilath Jeshurun 犹太会堂的另外两名拉比也在这份证书上签了字)。
But the Petah Tikva court issued a second ruling against the conversion June 8, saying it had found no mention of Lookstein on its lists of approved rabbis.	但在 6 月 8 日，佩塔提克瓦法院再次判决这一皈依无效，称它没有在自己的获准拉比名单上看到卢克斯坦的名字。

<p>Lookstein, 84, is now in an emeritus position at Kehilath Jeshurun, which has a membership of 1,100 families, and is considered one of the most established and mainstream Orthodox rabbis in America.</p>	<p>84 岁的卢克斯坦目前是 Kehilath Jeshurun 犹太会堂的荣退拉比, 他被认为是美国最权威、最主流的正统派拉比之一。该会堂的会众包括 1100 个家庭。</p>

<p>"The irony is that this woman is very meticulous about her religious observance," Lookstein said. "She is as Jewish as I am, and as Jewish as the rabbis signed on the certificate, except in the eyes of the Petah Tikva rabbinate."</p>	<p>"讽刺的是, 这位女士一丝不苟地遵守犹太教规," 卢克斯坦说, "从犹太教身份的角度讲, 她和我以及其他在证书上签字的拉比是一样的, 只有佩塔提克瓦的拉比不这么认为。"</p>
<p>"The bottom line," he added, "is that the rabbinate in Israel is not respecting and honoring the work of the Orthodox rabbinate in America on conversion."</p>	<p>"其实是," 他补充说, "以色列拉比不尊重和承认美国正统派拉比主持的皈依。"</p>
<p>Lookstein said he expected that the woman would ultimately win her appeal and be able to marry in Israel. "But the battle is taking so much out of this woman and causing such pain at a time when she should be happiest in her life," he lamented, adding that the Petah Tikva rabbis were perpetrating "a terrible sin" because "the Torah is very explicit that a convert should be treated with love and never afflicted."</p>	<p>卢克斯坦说, 他希望那位女士能最终赢得上诉, 可以在以色列结婚。"但是, 这场战斗耗费这位女士这么多精力, 给她一生中本该最快乐的时光带来巨大痛苦," 他叹息道。他还表示, 佩塔提克瓦的拉比正犯下"严重的罪孽", 因为"《托拉》(Torah)明确指出, 应该用爱对待皈依者, 永不折磨他们"。</p>

Mortal to Divine and Back: India's Transgender Goddesses	人与神的角色转换：印度跨性别女神的节日
DEVANAMPATTINAM, India — The transformation of transgender women into goddesses for an annual Hindu festival takes place in an atmosphere of reverent, somber concentration. Laugh lines vanish, replaced by an impassive mask. Skin becomes stone.	印度德发南巴蒂南——在这个印度教的年度节日中，从跨性别女性向女神的转变，是在虔诚而凝重的气氛中进行的。笑容消失了，代之以无表情的面具。皮肤变成了石头。
As they prepared to perform in the Mayana Kollai festival in a fishing village in the southern Indian state of Tamil Nadu, some of the dancers slipped into trances so deep it appeared they might have fainted. The photographs, taken over the past three years, are by Candace Feit.	在印度南部泰米尔纳德邦的一个小渔村，人们在准备“盗墓节”(Mayana Kollai)的表演，一些舞者进入重度的出神状态，以至于看上去像是晕厥了。这些照片是由坎德丝·费特(Candace Feit)在过去三年里拍摄的。
Indians who decide to live as kothis — also known as hijras, kinnars or aravani, depending on the region — are born male and typically have male lovers.	蔻蒂(kothi)在某些地区又称海吉拉(hijra)、金纳(kinnar)或阿拉瓦尼(aravani)，选择以这种方式生活的印度人的出生性别为男性，通常有男性情侣。
Unlike transgender people in the West, they leave a conservative mainstream culture for an equally conservative subculture. Some live in communes with a strict network of rules under the authority of leaders they refer to as “mothers” and “grandmothers.”	和西方的跨性别人士不同的是，她们脱离了保守的主流文化，加入了一种同样保守的亚文化。其中一些生活在有森严戒律的公社里，她们的领袖被称为“母亲”或“祖母”。
Others live with their parents or head heterosexual families. Many reveal their identities as teenagers and are met with years of taunts, beatings and forced sex.	还有一些跟父母住，或成为异性恋家庭的家长。有许多人在少年时期就表露了身份，并因此遭受多年的奚落、殴打和受迫性交。
But during the festival, which takes place in either February or March each year, these troubles are impossibly distant. Any trace of human expression is lifted, and the kothis begin to resemble the deities they worship. The ordinary is tethered to the divine. — ELLEN BARRY	但是，在每年2月或3月举行的节日期间，这些困扰会显得无比遥远。一切人类的表情都被消除，蔻蒂人开始变成她们膜拜的神灵的模样。凡人与神建立了连线。——ELLEN BARRY

For Babies in India, a 30-Foot Plunge for Good Luck	印度人如何为孩子祈福？把他们从房顶抛下
How far would you go to show your religious faith? Some families in rural India — both Hindus and Muslims — are willing to let their babies be tossed off the roof of a shrine, to be caught in a stretched bedsheet about 30 feet below.	为了展现对宗教信仰的虔诚，你会走多远？印度乡间的一些家庭——不论是印度教徒还是穆斯林——都乐于让他们的婴儿被人从一座神庙的屋顶抛下，再用一张摊开的床单在下方约 30 英尺（约合 9.1 米）处接住。
The ritual, long popular in Maharashtra and Karnataka States, dates back almost 700 years, to a time when infant mortality was high, medical knowledge was scant and families had few places to turn for help.	这种仪式在马哈拉施特拉邦和卡纳塔克邦流行已久，可以追溯到大约 700 年前。那时，婴儿的死亡率很高，医疗知识匮乏，人们求助无门。
Legend has it that a saint advised people whose babies were dying to build a shrine and drop the ailing infants from the roof to show their trust in the almighty. When they did so, the story goes, the babies were miraculously cradled to safety in a hammock-like sheet that appeared in midair.	相传有一位圣人建议家有濒死婴儿的人建一座神庙，再把病婴从屋顶抛下，用以展示他们对万能之神的信仰。据说当他们这样做的时候，半空中出现了一张吊床状的床单，奇迹般地把婴儿安全接住。
From then on, prayers for the birth of a healthy baby in the region have included a promise to toss the baby as an offering to the god who granted the prayers. Villagers believe that the ritual brings the child long life and good luck, and maintain that it does no harm.	从那时起，当地祈求生下健康宝宝的人便发愿，如果他们梦想成真，就把宝宝从屋顶抛下，作为对神的供奉。村民们认为这种仪式会给孩子带来长寿和好运，并且坚信它没有任何危害。
The practice came under fire in 2009, when a widely circulated video recorded at the Baba Umer Dargah, a shrine in Solapur, Maharashtra, prompted the National Commission for Protection of Child Rights to	这种做法在 2009 年遭到了抨击。当时，在马哈拉施特拉邦肖拉普尔一座名为巴巴乌默尔达加(Baba Umer Dargah)的神庙录制的一段视频广为流传，招致印度国家儿童权益保护委员会(National Commission for Protection

intervene. The commission investigated and ordered that the baby-tossing be stopped.	of Child Rights)的介入。该委员会展开了调查,并勒令不得再举办抛婴仪式。
"We do not support this superstitious practice," said G. Mohanty, a media adviser at the commission. "It is against the interest of the children. They may be really scared, and nobody knows how it affects their psyche."	"我们不支持这种迷信的做法,"该委员会媒体发言人 G·莫汉蒂(G. Mohanty)说。"它危害了相关儿童的利益。他们可能非常害怕,而且没人知道他们的心理会受到怎样的影响。"
Officials say the practice is illegal under India's children's rights law, and the local police authorities in Solapur say they have not received any reports of baby-tossing since 2010. Even so, witnesses say it continues on a small scale in some villages, including in Mangasuli, where the Lord Khandoba, an avatar of Shiva, is worshiped by Hindus as the deity of the family.	官员们说,根据印度的儿童权益法,这种做法是非法的;肖拉普尔当地警方表示,自从2010年起,他们就没再接到过关于抛婴的警情。尽管如此,仍有目击者称,一些村落里依然少量存在这种现象,其中包括曼阿苏里村,在那里,印度教徒把湿婆(Shiva)的化身勤都巴神(Lord Khandoba)当成家庭守护神来供奉。
"The practice continues throughout the year, and babies are tossed within two months of being born, come rain or shine — it's tradition," said Javed Fardin Akhtar, a resident of the nearby city of Sangli who said he witnessed the ritual in Mangasuli in April.	"这种仪式一年到头都在举行,婴儿出生不超过两个月便会被抛下屋顶,风雨无阻——这是一种传统,"曼阿苏里村附近城市桑格利的居民贾韦德·法尔汉·阿赫塔尔(Javed Fardin Akhtar)说。今年4月,他在曼阿苏里村亲眼目睹了抛婴仪式。
Mr. Akhtar said that the actual tossing was done not by the parents, but by experienced devotees of the shrine. After one bounce on the bedsheet, the babies are swiftly returned to the arms of parents waiting anxiously in the cheering crowd below.	阿赫塔尔说,把婴儿抛下屋顶的实际上并不是婴儿的双亲,而是神庙里经验丰富的虔诚信徒。落在床单上的婴儿被弹起来以后,会在人们的欢呼声中被迅速送回焦急等待的父母的怀抱。

Holy Water for Pilgrims, via the Mail	恒河朝圣太艰辛？瓶装圣水快递到你家
Every summer, hundreds of thousands of Indians, barefoot and draped in orange clothing, make a 100-mile pilgrimage on foot to fetch water from the sacred Ganges River that they then offer at their local temples	每年夏天都有数十万印度人光着脚、披着橘色的衣服，徒步跋涉100英里前往神圣的恒河取水，将它供奉给自己当地寺庙里的湿婆，也就是印度教中的毁灭之神。

<p>to Shiva, the Hindu god of destruction.</p>	
<p>This year, they have a less arduous option: The postal service is using its 155,000 offices across India to deliver holy water from the Ganges — for far less than \$1 a bottle. As one postal official put it, “If Muhammad cannot go to the mountain, the mountain comes to him.”</p>	<p>今年，他们有了一个不那么艰苦的选择：邮政部门利用自己遍布印度各地的15.5万个邮政点，以每瓶不超过1美元的价格，为民众运送恒河的圣水。就像一位邮政官员所说，“如果穆罕默德不能去圣山，圣山会来到他面前。”</p>

Corpses, Pythons, Sleep Deprivation: Meditation Rituals in Thailand Can Be Intense	与尸体或蟒蛇作伴，泰国僧侣的“极限”冥想
A decomposing body may not seem like an ideal meditation aid, but at some of Thailand's tens of thousands of Buddhist temples, it is common to find monks reflecting while seated before a rotting corpse.	一具腐烂的尸体或许不像是辅助冥想的理想之物，但在泰国的数万座佛寺中，有些寺里的僧人的确经常坐在腐烂的尸体前沉思。
The practice of corpse meditation, largely limited to Thailand today, is an ancient concept in Buddhism, sanctioned by the Buddha himself. There are centuries-old murals and manuscripts depicting scenes of meditation next to different types of cadavers, some infested with worms, others cut in two or being picked at by crows.	这种尸体冥想是佛教的一种古老观念，由佛陀本人准许，如今基本只在泰国境内存在。一些有数百年历史的壁画和手稿描绘了人们在尸体旁边冥想的景象，尸体多种多样，有的布满蛆虫，有的一分为二，还有的被乌鸦啄食。
The unpleasant sight and overpowering stench of flesh decaying in tropical heat can impart lessons about important Buddhist precepts, like nonattachment to one's body and the impermanence of everything, said Justin McDaniel, a professor of religious studies at the University of Pennsylvania.	这种令人不快的场面以及肉体在高温下腐烂的难闻臭味可以传达重要的佛教教义，诸如不要执着肉体，一切都是无常，宾夕法尼亚大学宗教学教授贾斯汀·麦克丹尼尔(Justin McDaniel)说。
The ritual is viewed as a powerful way to learn selflessness, Professor McDaniel said, "and the more selfless you are, the closer you are to nirvana."	这种仪式被视为一种学习无我的强大方式，麦克丹尼尔说，“你愈是无我，就愈接近涅槃。”
The corpse is often that of a child or young adult who has died unexpectedly. A family will donate the body to a temple, hoping something good can come from the tragedy.	尸体通常是意外死亡的孩子或年轻人的。家人把尸体捐到寺庙，希望这样的悲剧可以产生一些善果。

<p>The monks see the deceased young people as “representing the best of humanity,” Professor McDaniel said. “They’re innocent — not so selfish and greedy and ambitious. If something so beautiful can decay, why are you so proud and vain? You’re even uglier.”</p>	<p>僧侣们把这些早逝的年轻人视为“人性最美好一面的代表，”麦克丹尼尔教授说。“他们是纯洁的——并没有太多的我执、贪念和野心。如果这样美好的东西也会腐朽，为什么你还要如此骄傲自负呢，你更丑陋。”</p>
<p>The abbots who run Thailand’s temples, or wats, have tremendous leeway in adopting innovative approaches to meditation, and certain practices may be limited to a single sanctuary.</p>	<p>泰国寺院的住持有很大自由度，可以采用各种有创意的冥想方式，有些方式只限于在某一座寺庙进行。</p>
<p>At one temple in Nong Bua Lamphu Province, a monk meditates in what appears to be hot oil. At another temple, Wat Tham Mangkon Thong, nuns meditate while floating in a pool. At Wat Pai Civilsai, meditation has taken place in a box with pythons. Monks also meditate in caves and coffins, where the absolute darkness enhances concentration.</p>	<p>在廊磨喃蒲府(Nong Bua Lamphu Province)的一座寺院里，一个僧侣在似乎是热油的液体里冥想。在金龙洞寺(Wat Tham Mangkon Thong)，尼姑漂浮在池中冥想。在 Pai Civilsai 寺，僧侣们在装着蟒蛇的箱子里冥想。僧侣们还会在洞穴和棺材里冥想，里面绝对的黑暗有助于集中精神。</p>
<p>So-called forest monks who observe strict ascetic practices known as dhutanga are said to meditate while walking for weeks without ever lying down, even to sleep.</p>	<p>所谓的林中僧侣奉行一种严格的苦修，叫做头陀苦行。据说他们在冥想中会一连行走几个星期，不用躺下来休息，甚至不睡觉。</p>
<p>It is not only monks who meditate in ways that may seem extreme.</p>	<p>不仅仅是僧人会以看似极端的方式进行冥想。</p>
<p>Julia Cassaniti, an anthropology professor at Washington State University, was walking in the woods of a Thai monastery when she heard screams coming from a hut. The laypeople inside were using meditation to interact with their past lives, a struggle that adherents describe as painful.</p>	<p>华盛顿州立大学人类学教授茱莉亚·卡桑尼提(Julia Cassaniti)在泰国一座寺院的森林里行走时，听见一座小屋里传来阵阵尖叫声。屋里的俗家修行者正在使用冥想与自己的前世交流，根据信徒的描述，那是一种痛苦的挣扎。</p>

Medicinal Herb or Myth? Indian Official Proposes Hunt for Sanjivani of Lore	印度政府斥资千万探寻"起死回生"的神奇草药
Sanjivani is the stuff of myth: an herb that glows in the dark and has the power to revive the dying, wrenching them back from the fog of unconsciousness. In the Ramayana, a sacred Hindu epic, the herb is used to resuscitate both the god-hero Rama and his younger brother Lakshmana.	桑吉万尼(Sanjivani)是神话故事里的东西：一种在夜晚会发光的草药，具有起死回生的能力，可以让人从毫无知觉的迷雾中苏醒。在神圣的印度教史诗《罗摩衍那》(Ramayana)中，这种草药曾被用来救活神的化身、英雄人物罗摩，以及他的弟弟罗什曼那(Lakshmana)。
Could it really exist? A government minister in the Indian state of Uttarakhand wants to mount an expedition to find out.	这种东西真的存在吗？印度北安恰尔邦的一位部长想发起一次探索活动，查出其中的真相。
Surendra Singh Negi is the state's minister for alternative medicine, and he says he is worried that continued forest fires in the Himalayas may be wiping out rare and valuable plant life. You can tell that the hills of Uttarakhand are abundant in medicinal plants, he says, from the fragrant smoke that the fires give off.	苏伦德拉·辛格·内吉(Surendra Singh Negi)是该邦负责替代医学事务的部长，他表示对喜马拉雅山脉持续的森林火灾怀有忧虑，担心它们会将有价值的珍稀植物悉数毁掉。他表示，从大火散发出的烟雾的香味可以判断，北安恰尔邦的山上药用植物非常丰富。
Medicinal herbs are central to the traditional practice of ayurvedic medicine in India. But little has been done to scientifically study and preserve the medicinal herbs of the Himalayas, Mr. Negi says. So he has	草药是印度传统阿育吠陀疗法的核心。但内吉表示，在科学研究和保护喜马拉雅山脉的药材资源方面，工作做得太少。所以他提议拿出 2.5 亿卢比（约合 2500 万元人民币）的税收资金，派一支阿育吠陀医师队伍到山里去。

<p>proposed spending 250 million rupees (\$3.75 million) of tax money to send a team of ayurvedic practitioners into the mountains.</p>	
<p>Mayaram Uniyal, the state's ayurvedic adviser, says an herb that could be the real-life version of the legendary sanjivani has been seen growing on the slopes of Dunagiri, a mountain in northern Uttarakhand.</p>	<p>北安恰尔邦阿育吠陀顾问马亚拉姆·尤尼亚尔(Mayaram Uniyal)表示, 在该邦北部的杜纳吉里山的山坡上, 一直生长着一种植物, 可能就是传说中的桑吉万尼的现实版本。</p>
<p>"It has a special fragrant smell, with unmatched sheen, and lights up in the night," Mr. Uniyal said. "Both its flowers and milk are yellow. The herb is used extensively by the local shepherds when someone is unconscious, in pain or even under stress."</p>	<p>"它有一种特殊的香味, 有无与伦比的光泽, 在夜晚会发亮," 尤尼亚尔说。"它的花瓣和汁液是黄色的。这种草药当地的牧羊人用得很多, 在有人失去知觉、感觉疼痛, 甚至压力大的时候, 都会用到它。"</p>
<p>"We need to study its active ingredients with clinical trials, to come to know what exactly is in it that resuscitates an unconscious man," Mr. Uniyal said. He added that while hopes for the plant are high, no one expects it to have one ability that the Ramayana ascribes to sanjivani: resurrecting the dead.</p>	<p>"我们需要通过临床试验对它的活性成分进行研究, 以便知道到底是里面的什么成分让失去知觉的人重新苏醒," 尤尼亚尔说。他还表示, 尽管大家对这种植物寄予厚望, 但没人期待它能像《罗摩衍那》里描述的那么神奇: 起死回生。</p>
<p>"These are imaginative stories, as you might say," said Robert P. Goldman, a professor of Sanskrit at the University of California, Berkeley, and the principal translator of a critical edition of the Ramayana. "It's interesting how these things can come into modernity as traditions that people follow."</p>	<p>"你可能会说, 这些都是想象出来的故事," 加州大学伯克利分校(University of California, Berkeley)梵文教授、英文评述版《罗摩衍那》的主要译者罗伯特·P·戈德曼(Robert P. <p>A similar search for sanjivani was proposed in Uttarakhand in 2009, but it did not receive financing. This time around, "it should happen," Mr. Negi said.</p>	<p>在 2009 年, 北安恰尔邦就有人提出寻找桑吉万尼的类似建议, 但未获得资金。这一次, 内吉说, "应该成行。"</p>

Searching for Lady Kung Fu	寻找“功夫女王”(上): 传说中的明星
Read Part 2.	点击阅读《寻找“功夫女王”(下): 先锋人还是失意者? 》。
At the reception for an Asian film festival at Lincoln Center six years ago, excitement rippled through the crowd: Was it her? Lady Kung Fu? Was that Lady Whirlwind?	六年前, 林肯中心(Lincoln Center)举办了一个亚洲电影节。在电影节的招待会上, 一阵兴奋感在人群中散布开来: 那是她吗? 是功夫女王吗? 那是旋风女王吗?
Rumors long circulated that she had left movie stardom in Hong Kong for domestic life in New York City, but no one had heard much else about Angela Mao, possibly the most famous martial arts actress of her time, in more than 30 years.	长期有传言称她已离开香港电影界, 去纽约享受家庭生活了。但除此以外, 在 30 多年的时间里, 几乎没有有什么有关茅瑛的其他消息。她大概是她那个时代最著名的功夫女星。
Surprised fans were now greeted by a small 60-year-old woman wearing a floral silk dress. Her son helped her manage the crowd. One fan, Ric Meyers, approached her for a photo. Like others, he was curious to know what she had been up to. He got his answer.	但当时, 出现在惊讶不已的影迷前的她已经 60 岁了。她身材娇小, 穿着一件有花卉图案的丝质连衣裙, 儿子帮她控制人群。一个名叫里克·迈尔斯(Ric Meyers)的粉丝走到她跟前, 想要同她合影。和其他人一样, 他好奇地想知道她一直以来在做什么。他得到了答案。
"She told me and my friends she was running restaurants in Queens," Mr. Meyers said. "I told them, 'We all have to go.' But we all just got too busy and never went."	"她告诉我和我的朋友她在皇后区开着几家餐厅," 迈尔斯说。"我对他们说, '我们都要去。'但我们都太忙了, 从来没去过。"
"She gave off the impression," he added, "that she was a very private person."	"她给人的感觉是," 他接着说, "她是一个非常在乎个人隐私的人。"
On a warm afternoon this September, Ms. Mao, now 66, sat in one of those restaurants, keeping an eye on lunch service as she rubbed her baby granddaughter's belly.	今年 9 月一个温暖的下午, 现已 66 岁的茅瑛坐在其中一家餐厅里, 一边观察午餐服务情况, 一边揉着小孙女的肚子。

Martial arts fans have sought the address of this restaurant for some time — they wanted to know what happened to Angela Mao, the Queen of Kung Fu, who fought and flew through dozens of films in the 1970s but vanished within a decade.	一段时间以来，武术爱好者们一直在寻找这家餐厅的地址。他们想知道，功夫女王茅瑛身上发生了什么。她在70年代的数十部电影中拳打脚踢，飞檐走壁，但不到十年便销声匿迹。
A woman with a hearty laugh, Ms. Mao sometimes expressed confusion that people still had any interest in her.	茅瑛喜欢开怀大笑。她有时会对人们依然对她感兴趣表示困惑。
Over the course of three hours at the restaurant, she spoke in Mandarin, with her son and his wife translating into English. Ms. Mao, who usually declines interviews, reflected on her past without sentimentality.	在餐厅接受采访的三个小时里，她一直在用普通话，她的儿子和儿媳把她的话翻译成英语。经常拒绝接受采访的茅瑛回顾了自己的过去，没有一丝伤感。

Ms. Mao’s career was brief but bright, taking place in Hong Kong and Taiwan and including roles in more than 30 films over a decade. Studios promoted her as a female Bruce Lee. When she appeared as Mr. Lee’s	茅瑛的电影事业短暂却灿烂。在十年时间里，她在香港和台湾演了30多部电影。电影公司把她宣传成女版李小龙。当她出现在1973年的经典武打片《龙争虎斗》(Enter the Dragon)中，扮演李小龙在劫难逃的姐姐时，她在

A common climax in her films was her combating a villain twice her size.</p>	<p>她的打斗激烈而不失优雅，利用可踢断对手下巴的高踢腿横扫一群群敌人，在血腥搏斗中时不时地把辫子甩到一边。在她的电影中，常见的高潮是她和块头是她两倍的反派搏斗。</p>
<p>"She was the first female kung fu star — name above title," said J. Hoberman, a longtime movie critic who now writes about video for The New York Times. He has fond memories of seeing Ms. Mao's movies on triple bills at Times Square grindhouse theaters in the 1970s. "She basically had one act, which was going from an obedient character to a machine-like avenger," he added. "A lot of people saw her films as feminist statements the same way as Pam Grier films."</p>	<p>"她是第一位女性功夫明星——想当初，她可是相当大牌，"资深影评人、目前在为《纽约时报》(The New York Times)撰写 DVD 影评的 J·霍伯曼(J. <p>Ms. Mao's career coincided with the over-the-top, often impolitic exploitation era in film. In her 20s, she moved to Hong Kong, where a thriving film industry was based, but she was hardly romantic about it. “To be honest, the money was just better in movies,” she said. “I had to support my family. Most of the money I made I gave to them. This is the Chinese tradition.”	二十几岁的时候，她搬到了电影产业蓬勃发展的香港，但她对电影几乎没有任何浪漫幻想。“说实话，拍电影收入更高一些，”她说。“我必须养家。我把大部分收入都给了家里。这是中国人的传统。”
Leading female roles were rare in Hong Kong at the time. Mr. Meyers, the fan who met with Ms. Mao at Lincoln Center, is the author of “Films of Fury,” a comprehensive history of the kung fu movie genre. Ms. Mao, he said, was the first woman to star in her own action films without having to defer to a male star.	想当年在香港，女性主角还很罕见。在林肯中心见到了茅瑛本人的影迷迈尔斯，是《狂怒电影》(Films of Fury)一书的作者，该书全面记录了功夫类电影的发展史。他说，茅瑛是第一位身为动作片主演且在片中不必屈居男影星之后的女性。
“Men ran things,” he explained. “Hong Kong had lots of machismo then. Women were considered ‘jade vases.’ They didn’t speak on screen. They were considered decoration.”	“男性曾掌管一切，”他解释道。“当时的香港盛行大男子主义。女性被视为‘玉花瓶’。她们在电影里通常不出声，被当成摆设。”
When asked about this epithet, Ms. Mao snapped, “I was never anybody’s ‘jade vase.’” She shifted in her seat. Moments later, she dispatched her son to tend to a customer she noticed from the corner of her eye.	当被问及对这个词的看法时，茅瑛厉声说道，“我从来都不是任何人的‘玉花瓶’。”她在座位里挪动了一下身子。片刻过后，她打发儿子去招呼她用眼角余光瞥见的一位客人。

<p>"Everyone told him, 'No one wants to see a woman on the screen,'" Mr. Meyers said. "He said, 'That's not true: I do.' And Raymond Chow was right. <p>Her first prominent role was "Hapkido," or "Lady Kung Fu," in 1972. "That made me a star," she said. "I traveled the world to promote it. People knew my face. <p>In the early 1970s, she appeared in a string of films now considered martial arts classics: "Angry River," "Thunderbolt," "The Fate of Lee Khan," "When Taekwondo Strikes" and "The Tournament." mid-1990s. She promptly dealt him several kicks. He ran off. The episode made headlines.	上新闻头条。
Ms. Mao reflected: "A lot happened to me in a little bit of time."	茅瑛回忆说：“短短的时间里我遇到了太多事情。”
Aside from some cameos in the early 1990s, Ms. Mao said, she effectively concluded her film career in 1983, when her son was born. By this time, her husband had moved to New York to start a construction company. Ms. Mao and their son joined him in 1993. She opened her first restaurant, Mama King, on Roosevelt Avenue in Flushing three years later. She opened Nan Bei Ho in 1997. New Mei Hua, in Flushing, and Guo Ba Inc, in Bayside, would follow.	除了在 90 年初客串过一些角色，茅瑛说她实际上在 1983 年，即儿子出生那年便息影了。当时她丈夫已经移居纽约，去创办一家建筑公司。1993 年，茅瑛携子前往纽约与丈夫团聚。三年后，她在法拉盛的罗斯福大道开了自己的第一家餐厅 Mama King。南北和则于 1997 年开业。接下来是法拉盛的新美华(New Mei Hua)和贝赛德的 Guo Ba Inc。
"After I got married," she said, chuckling, "I had to keep a lower profile so my husband could be the leader. But in film? I was the king."	“结婚以后，”她笑道，“我必须保持低调，以便让我丈夫显出一家之主的威仪。但在电影里，我才是王者。”
Ms. Mao's lack of regard for stardom may have been apparent from the start. "It is evident that success has not spoiled Angela Mao, or that she is too simple to know the extent of her popularity," a 1974 profile in a martial arts magazine reads. "But, there is a small indication she is finding all the strings of kung fu movies a bit monotonous since she constantly repeats her plans after retirement. She still considers herself Mao Ching Ying, the Chinese opera actress and loves simple clothes."	茅瑛并不看重自己的明星地位，这一点从一开始似乎就很明显。“显然，成功没让茅瑛被宠坏，或者说她太过单纯，并不知道自己有多出名，”一本功夫片杂志刊于 1974 年的一篇人物特写这样写道。“但有蛛丝马迹表明，她觉得所有这些功夫片有点儿单调乏味，因为她一直反复提及自己对息影以后的规划。她依然认为自己是京剧演员茅复静，依然喜爱简单的衣着。”
The article ends: "Angela Mao gets up to leave. She runs her hands down the sides of her Levi's, crushes a last Silva Thin on an ashtray and picks up her purse.... She did not say goodbye."	这篇文章以此作结：“在茅瑛起身离开时，她用双手把身上的李维斯(Levi's)牛仔裤抚平，在烟灰缸中碾灭了最后一支席尔瓦细杆烟(Silva Thin)，拿起了自己的手袋.....她没有说再见。”
If Ms. Mao has tried to part ways with her past, she has never been able to fully shake it. The occasional customer recognizes her to this day, and sharp-eyed kung fu fans still stop her in the street.	如果茅瑛试图斩断和过去的联系，那么她其实从来都没能完全摆脱过去。直到今天，偶尔还是会有客人认出她来，眼尖的功夫片影迷还是会在街上拦住她。

<p>"It always happens," Ms. Mao said. She recalled the time years ago when, while she was sitting in Central Park, a man shouted "That's Angela Mao!" "He wanted to know what it was like working with Jackie Chan," she said. "I was so surprised."</p>	<p>"这样的事情时有发生，"茅瑛说。她还记得多年前，她坐在中央公园(Central Park)里，一个男人高喊"那是茅瑛！""他想要知道跟成龙一起工作是什么感觉，"她说。"我特别吃惊。"</p>
<p>Mr. Meyers considered her legacy. "She didn't have the ego of Bruce Lee," he said. "He didn't feel justified unless he was a star. She didn't need that. She left Hong Kong on her own terms. She was a pioneer unconcerned with her own stardom."</p>	<p>迈尔斯思考过她留下的精神遗产。"她没有李小龙的那种自负，"他说。"只有成为明星他才会觉得合情合理。而她不需要这个。她遵循自己的想法离开了香港。她是一位对自己的明星地位毫不关心的先锋者。"</p>
<p>May Joseph, a professor at Pratt Institute who wrote an essay about Ms. Mao as a feminist hero, encapsulated her influence this way: "She was a radical feminist cinematic presence before there was a language for that," she wrote in an email. "She is the Lauren Bacall of kung fu."</p>	<p>曾在一篇文章中把茅瑛描述为女性主义英雄的普瑞特艺术学院(Pratt Institute)教授梅·约瑟夫(May Joseph)，如此总结她的影响："她是一位带有激进女性主义色彩的影坛杰出人物，而当时人们甚至还不知道该怎么给这样的人归类，"她在一封电子邮件中写道。"她是功夫片界的劳伦·巴考尔(Lauren Bacall)。"</p>
<p>Ms. Mao, however, bristled at grandiose notions about her legacy; she was not interested in hearing that she had become the subject of feminist literature.</p>	<p>不过，关于其精神遗产的宏大说法让茅瑛有些震惊；她也没兴趣听人说起自己成了女性主义文学的主题。</p>
<p>"This is not a gender situation," she said with a baffled expression. "I just played myself. I am strong and I am powerful. That is how I became the most important female kung fu actress of my time."</p>	<p>"这无关性别状况，"她带着困惑的表情说道。"我只是在演我自己。我是强壮而又强大的。因此我才能在那个时代成为最重要的功夫片女演员。"</p>
<p>One story told in kung fu circles is that she was paid only \$100 for her role in "Enter the Dragon." The subject obviously fatigued her. "I'm more focused on the quality of the movie than how much money I got paid," she said. "I am very traditional. I don't want to argue for special things. I don't think much about male power and female power."</p>	<p>在功夫圈里流传的一个说法是，她出演《龙争虎斗》的报酬只有100美元。这个话题显然让她感到厌倦。"我更注重片子的品质，而非我赚了多少钱，"她说。"我非常传统，我不愿意为了特定的待遇去争执什么。我没太想过男权、女权的问题。"</p>
<p>Grady Hendrix, a founder of the film festival at Lincoln Center who</p>	<p>在林肯中心举办的那个电影节的创始人之一格雷迪·亨德里克斯(Grady</p>

"She's one of those martial arts 'What happened to?'" Mr. Hendrix said. "Lots of Hong Kong talent ends up in places like New York or Vancouver. One of the 'Five Deadly Venoms' had a kung fu academy in New York. For every Jackie Chan, there's ones that aren't."	"她是让人感慨于其遭遇的那些功夫明星之一,"亨德里克斯说。"香港的许多人才最后都到了纽约或者温哥华之类的地方。《五毒》(Five Deadly Venoms)里的一位演员曾在纽约开过一家武馆。不是人人都能成为成龙。"
"You get the sense it was all embarrassing to her," he added.	"你能感受得到, 这对她来说颇为尴尬,"他补充道。

Taiwan May Be First in Asia to Legalize Same-Sex Marriage	在台湾, 实现同性婚姻合法的目标不再遥远
TAIPEI, Taiwan — Sitting in the third row of a small chapel, Ms. Liou wiped away tears of joy as her sister exchanged wedding vows with her new husband. A few feet away, Ms. Liou's partner stood alone, maintaining their public charade of being just friends.	台湾台北——当自己的手足同胞和她的新婚丈夫互相许下婚姻誓言时, 在一座小教堂第三排的刘女士拭去了高兴的泪水。几步开外, 她的伴侣独自站着, 保持着她们在公共场合只是朋友的假象。
Ms. Liou — who asked that her full name not be disclosed because she had yet to come out as gay — said she would feel more comfortable holding her partner's hand or embracing her in a society that did not view their way of life as out of the ordinary.	因为还没出柜而要求不公开自己全名的刘女士说, 如果能生活在一个不认为她们的生活方式不正常的社会里, 她在牵着伴侣的手或是拥抱她时会更踏实。
"If we could realize marriage equality in Taiwan, people in our situation could lead fuller lives," she said.	"如果能在台湾实现婚姻平权, 处于我们这种情况的人的人生会更完整,"她说。
That day could be coming soon, although it is not assured. Bills that would legalize same-sex marriage are moving through Taiwan's legislative system, bringing the island closer to becoming the first place in Asia with marriage equality. Some predict it could happen early next year.	那一天或许很快便会到来, 但这也不是一件板上钉钉的事情。使同性婚姻合法化的议案已进入台湾的立法系统, 从而让该岛距离成为亚洲首个实现婚姻平等的地区更近了一步。一些人预测可能明年初便能实现婚姻平等。
The political climate in Taiwan has never been more favorable.	台湾的政治环境从来没像现在这么有利过。5月上台的总统蔡英文(Tsai

<p>Some cities are already extending symbolic recognition of same-sex relationships. In May, Kaohsiung became the first city in Taiwan to register same-sex couples. Shortly afterward, Taipei, the capital, followed suit.</p>	<p>一些城市已经在扩大对同性关系的象征性认可。5月，高雄成为台湾首个为同性伴侣登记的城市。不久后，首都台北亦效仿高雄。</p>
<p>This month, Kaohsiung issued its first same-sex “partnership cards” to gay couples, and the Taipei city government announced that it would soon do the same. The deputy director of the Kaohsiung civil affairs bureau, Chen Shu-fang, said the cards would make it easier to contact partners in emergencies and for hospitals to include partners in medical decisions.</p>	<p>本月，高雄向同性伴侣颁发首批同性“伴侣卡”，台北市政府则宣布很快便会加入高雄的行列。高雄民政局副局长陈淑芳表示，伴侣卡会降低在紧急情况下联系伴侣，以及医院在做出医疗决定时将伴侣考虑进来的难度。</p>
<p>In Asia, Taiwan is an island of relative acceptance for gays, lesbians and those of other sexual orientations. In some Asian countries, including Brunei, homosexual acts are illegal.</p>	<p>在亚洲，台湾是一个相对更接受男女同性恋和有其他性取向的人士的岛屿。在包括文莱在内的部分亚洲国家，同性恋行为是违法的。</p>
<p>The governing Democratic Progressive Party; the opposition Nationalist Party, or Kuomintang; and the smaller New Power Party have each proposed same-sex marriage bills. <p>Taiwan has considered marriage equality before. Hsiao Bi-khim, a legislator from the Democratic Progressive Party, submitted a same-sex marriage bill in 2005 that was blocked outright. <p>"We have a much better chance this time around," she said. If a bill comes to a vote in the Legislative Yuan, it will need the support of at least 57 of the body's 113 lawmakers for passage. <p>All of the bills would legalize same-sex marriage and permit gay couples to adopt, said Yu Mei-nu, a legislator who submitted the Democratic Progressive Party's proposal. <p>Public support for legalizing same-sex unions is robust, Ms. Yu said. She noted the large turnout last month for the 14th L.G.B.T. <p>Ms. Yu said legalization had a good chance of passing in Taiwan's next legislative session, from February through May. But if the proposal fails then, its chances in the sessions that follow — ahead of the legislative elections in November 2018 — could be lower, she said, as the issue remains controversial.</p>	<p>尤美女表示,同性婚姻合法化议案在台湾从 2 月一直持续到 5 月的下一次立法会议周期中获得通过的几率很大。但她说,如果议案未获通过,那么它在接下来的会议周期——在 2018 年 11 月的立委选举前——获得通过的几率会更低,因为这个问题依然有争议。</p>
<p>"This is a golden opportunity," Ms. Yu said. "But the opposition is strong."</p>	<p>"这是一个绝好的机会,"尤美女说。"但反对也很强烈。"</p>

<p>On Thursday, thousands of people protesting legalization, dressed in white, occupied the street outside the judiciary committee proceedings in Taipei, denouncing what they called a “black box” in which the bills were being considered. They chanted demands for the legislature to hold public hearings on the issue, and some called for a plebiscite. “I really do see a lot more potential for media to have an impact,” Mr. Lin said. “After the Queermosa Awards, TV producers and film producers actually came up to me and said, ‘O.K., what can we do to have more diversity on TV and in film?’”	“我真的认为媒体有更多发挥影响的潜力，”林志杰说。“酷摩沙奖颁奖典礼结束后，电视和电影制作人真的找到我说，‘好吧，为了在电视和电影上表现得更加多元，我们能做些什么？’”
For now, Mr. Lin said he was focused on “finding out who the allies are” to ensure that marriage equality became a reality.	目前，林志杰说他的重心在“找出谁是盟友”上，以确保婚姻平等成为现实。

In China, beauty — of a particular kind — can come from a swipe. A photo app called Meitu gives its users the power to create idealized versions of their real-world selves and share them with others. Its makers say: “Our mission is to make the world a more beautiful place.”	在中国，扫一扫手指就能变美——当然，是某种特定的美。一款名为美图秀秀的手机应用能让用户创造现实中自己的理想化版本，还能分享给别人。它的制作者们称：“我们的使命就是让这个世界变得更美。”

<p>Meitu and its related apps are hugely popular in China. The apps have 446 million users, and Meitu says more than half of the photos circulated on social media there in June were filtered using its editing app.</p>	<p>美图及其相关应用在中国很受欢迎。它们拥有 4.46 亿用户。美图称，今年 6 月，社交媒体上传播的照片中有一半多使用过它的编辑软件。</p>
<p>“Meitu makes everybody look more beautiful in an easy way,” says Du Sha, 26, a graduate student who uses it mainly to erase acne and to smooth and brighten her skin. “It’s a good technology for people to be more social or improve their self-confidence.”</p>	<p>“美图很容易就能让所有人看起来更漂亮，”26 岁的研究生杜沙说。她主要用它去除粉刺，让皮肤看起来更光滑、亮白。“这种技术很好，能让人们更愿意社交或增强自信。”</p>
<p>Meitu, the company, now hopes its app will have appeal elsewhere. This week it completed a \$629 million initial public offering in Hong Kong, long a gateway for Chinese companies seeking foreign money, and is exploring taking its selfie apps to other parts of the world. Its shares traded modestly lower on their first day on the market, valuing Meitu at \$4.6 billion.</p>	<p>现在，美图公司希望自己的应用能在其他地方产生吸引力。本周，它在香港完成了 6.29 亿美元的首次公开募股——那里一直以来都是中国公司寻求外资的一个途径——正努力把自己的自拍应用推广到世界上的其他地方。上市第一天它的股价略有下跌，市值为 46 亿美元。</p>
<p>The question is whether the world wants Meitu’s idea of beauty.</p>	<p>问题是这个世界是否想要美图的审美观。</p>
<p>Apps like Instagram and Snapchat have long allowed people to apply flattering filters and wash out their pores. Meitu goes several steps beyond. Cheeks can be stretched and pinched. Chins can be shaved off. Eyes can be contoured.</p>	<p>一直以来，Instagram 和 Snapchat 等应用也允许人们使用美化滤镜遮住毛孔。不过美图的功能更多。可以拉长、收窄脸颊，削尖下巴。还可以改变眼睛的轮廓。</p>
<p>In addition, its tools are tailored toward a standard of beauty — female beauty, mostly — that is particular to China and countries like South Korea and Japan: pale skin, elfin features, skinny limbs, eyes wide and guileless as a baby seal’s.</p>	<p>另外，它的工具都是为了实现同一种标准的美——主要是女性美——尤其是对中国以及韩国和日本这样的国家：白皮肤，小巧的五官，纤细的四肢，像小海豹一样纯真的大眼睛。</p>
<p>“I want to look cuter sometimes,” said Zha Nan, 23, an information technology researcher who has used the app for years. “Using Meitu to</p>	<p>“有时，我想让自己看起来更可爱一点，”23 岁的查楠（音）说。她是一名信息技术研究员，使用美图多年。“用美图修图后，我看着自己的脸会觉得更</p>

<p>fix these things, I feel more comfortable looking at my own face.”</p>	<p>舒服一些。”</p>
<p>Meitu says local teams in different markets are tailoring the software to other standards. But, more fundamentally, Meitu approaches the subject of looks in a manner that reflects common thinking in modern China — like money, education and a good job, beauty is something one can aspire to.</p>	<p>美图称，不同市场的当地团队正在让该软件适应其他标准。不过，最根本的是，美图对外貌的理解方式反映出现代中国的一种常见思维模式——和金钱、教育和好工作一样，美丽是人们可以向往的东西。</p>
<p>It’s a case of “I do it because I would like to have a beautiful photo in my C.V.,” said Wen Hua, a gender consultant for the United Nations Population Fund who wrote a book about cosmetic surgery in China called “Buying Beauty.” Beauty, she says, is seen as a step toward success in work and in society.</p>	<p>联合国人口基金会(United Nations Population Fund)性别平等顾问文华说，在美图这件事上，人们的想法可能是，“我这样做，是因为我想要一张好看的简历照片”。她写过一本关于中国整容手术的书，名叫《购买美丽》。她说，美貌被视为在工作和社会中获得成功的一个步骤。</p>
<p>“Eventually it may not work in that way,” she said, “but that’s people’s perception of it.”</p>	<p>“最终，你可能发现，它并不是那么有用，”她说，“但人们就这么想。”</p>
<p>China — which went from grinding poverty to economic powerhouse in the span of a generation — is an aspirational market. Companies like Apple, Starbucks and Audi have made fat profits selling high-priced gadgets, coffee and rides to Chinese consumers who want to show they have made it.</p>	<p>中国是一个生机勃勃的市场，在几十年的时间里从赤贫发展为经济强国。苹果(Apple)、星巴克(Starbucks)和奥迪(Audi)等公司面向希望彰显自己的成功的中国消费者，销售价格高昂的电子产品、咖啡和汽车，从中赚取了丰厚利润。</p>
<p>Still, wealth is concentrated in the hands of a small elite, and the average Chinese consumer has only a fraction of the money to spend as the average American does. Hundreds of millions of people still live in rural areas with few prospects for jobs. Competition to get into universities is fierce, and competition for good jobs after college can be fiercer.</p>	<p>不过，财富集中在少数精英手里，普通中国消费者可供支出的钱和普通美国人无法相提并论。数以亿计的人依然生活在农村地区，几乎没有工作机会。考大学的竞争非常激烈，大学毕业后找好工作的竞争可能更为激烈。</p>
<p>For women, the field can be even tougher. China’s anti-discrimination</p>	<p>这个领域对女性来说更为残酷。中国的反歧视法很少得以实施。招聘广告通</p>

<p>laws are rarely enforced. Help-wanted ads often specify whether the employer is looking for a man or a woman, and those looking for females often set height or appearance requirements.</p>	<p>常会说明是招男性还是女性，招女性的工作通常会设定身高或外貌要求。</p>
<p>The growth of China's service sector puts further pressure on appearance. China's manufacturing jobs in the past had such strong job security that they were sometimes called the "iron rice bowl." But the growth of the service sector has led to more jobs that focus on appearance, leading some women to aim for what Ms. Wen refers to as the "rice bowl of youth."</p>	<p>中国服务业的增长加大了在外貌方面的压力。过去，中国制造业的工作稳定性很强，甚至被称为“铁饭碗”。但是，服务业的增长促生了更多注重外貌的工作，导致有些女性把目标对准文华所说的“青春饭”。</p>
<p>Among those women, certain looks send certain messages. A slim figure and winsome look implies youth. Pale skin denotes a life spent indoors rather than outside working like a farmer.</p>	<p>在这些女性中，特定的外貌传递着特定的信息。纤细的身材和惹人喜爱的容貌意味着年轻。白皙的皮肤意味着，更多的是在室内工作，而不是像农民那样在户外工作。</p>
<p>That's far from the days of the Cultural Revolution, when makeup was seen as a trapping of bourgeois vanity. Sales of beauty and personal care products in China grew by more than half between 2010 and 2015, according to Euromonitor, a market data provider, and now total more than \$50 billion annually.</p>	<p>这跟“文革”时期截然不同，当时化妆被视为资产阶级虚荣的陷阱。据市场数据提供者欧睿信息咨询公司(Euromonitor)称，从2010年至2015年，美容和身体护理产品在中国的销量增长了一半多，年销售额逾500亿美元。</p>
<p>Cosmetic surgery has boomed — but in China, unlike other places, it is a market for the young. In China, people under 35 are the main customers for cosmetic surgery, while 80 percent of people getting plastic surgery in the United States are over 35, according to a report on the industry by HSBC. It cited, as one motivator, the prevalence of smartphone apps that expose people to beauty marketing and encourage them to scrutinize their photos.</p>	<p>整容业十分兴旺——但跟其他地方不同，在中国，它是年轻人的市场。据汇丰银行(HSBC)的一份行业报告称，在中国，整容业的主要客户在35岁以下，而在美国，80%的整容者超过35岁。该报告认为，智能手机应用的流行是一个促因，它让人们看到更多关于美容产品的宣传，鼓励人们审视自己的照片。</p>
<p>Liu Yu says she feels the pressure to look good. She even uses Meitu for</p>	<p>刘悦说，她觉得自己在压力之下必须让自己好看起来。她说她甚至在正式的</p>

<p>"Many women always feel like they have flaws," said Ms. Liu, 23, a graduate film student who uses Meitu to narrow her face, shrink her nose and remove dark circles from under her eyes. "They all wish that through some kind of method they can make themselves more beautiful. Meitu is the cheapest and most convenient way to do this."</p>	<p>"很多女人总是觉得自己有缺陷，"这位 23 岁的电影专业研究生说。她用美图把脸修窄，把鼻子变小，去掉眼睛下面的黑眼圈。"她们都希望通过某种方式把自己变得更美。美图是最便宜、便捷的方式。"</p>
<p>Meitu didn't create this phenomenon, of course, and it rejects the idea that its business model relies on people's insecurities or cultural pressures. Gary Ngan, its chief financial officer, says the company offers a variety of apps in part because users have a personal idea of what is beautiful.</p>	<p>当然，这种现象不是美图造成的。它不认为自己的商业模式基于人们的不安全感或文化压力。美图的首席财务官颜劲良称，该公司提供各种应用程序，一个原因是，用户们对美各有看法。</p>
<p>"We have to broaden the term beauty," he said. "It's not just about a set way of thinking about Asian beauty. It's about making you happy."</p>	<p>"我们必须扩展美的概念，"他说，"它不仅是对亚洲美女的那套看法。它是为了让你高兴。"</p>
<p>He said the company was, instead, helping its users to become more confident and helping them to "become more beautiful in real life."</p>	<p>他说，该公司是在帮助用户变得更自信，帮助他们"在现实生活中变得更美丽"。</p>
<p>"For example, when you slim your face and then eventually you say, 'Oh, I look nice,'" he said, "then you go on a diet, go to the gym and then you become the one" in the picture.</p>	<p>"比如，你把脸修得更瘦，你会说，'哦，这样看起来是很美，"他说，"然后你去节食，去健身房，然后你真的变成了照片中那个人。"</p>
<p>With features such as skin whitening, Meitu says it wants to be flexible and offer options only in markets where they make sense.</p>	<p>美图称，它想把美白皮肤等功能变得更灵活，仅在接受这种审美的市场提供这些选项。</p>
<p>"One of the fundamental beliefs of the company is that the use has to be extremely simple," said Kai-Fu Lee, a venture capitalist who owns a stake in Meitu. Skin tone, for example, is "fixed to each country," he said.</p>	<p>"这家公司的一个基本理念是，一定要用起来特别简单，"持有美图股份的风险投资人李开复说。比如肤色是"根据每个国家设定的。人们更喜欢晒黑的皮肤吗？有些是自动的，有些是用户可以自己控制的。"</p>

<p>"Is it preferable to have a tan? Some of that is automatic, some within the user's control."</p>	
<p>Meitu will rely on an algorithm to adapt as it moves into other markets. The company collects data on which functions are used the most. Then it uses that data to create or tweak tools to give users what they want, often in consultation with beauty experts, celebrities and local advisers. Some of Meitu's other apps, like one called MakeupPlus, start with the person's skin color and offer tools based on that.</p>	<p>美图在进入其他市场时，会根据算法做出相应的调整。该公司根据数据找出哪些功能最常用。然后用这些数据创造或调整工具，给用户他们想要的，通常是结合美容专家、名人和当地顾问的意见。美图的其他一些应用程序，比如美妆相机，以肤色为基础提供相应的工具。</p>
<p>Beauty, said Mr. Ngan, is "somewhat synonymous with happiness, in a way, because you generally feel more happy when you're more beautiful."</p>	<p>颜劲良说，美丽“从某种意义上讲，跟高兴是近义词，因为你更美丽时，通常更高兴”。</p>

<p>Talking to In-laws Can Be Hard. In Some Languages, It's Impossible.</p>	<p>不只中国人避名讳，看看这些国家的语言禁忌</p>
<p>In-laws may be universally intimidating, but in some cultures, the deference paid them rises to a whole new level, at least linguistically.</p>	<p>姻亲也许普遍令人胆怯，但在一些文化中，对他们的遵从上升到了一个全新的高度，至少在语言上是这样。</p>
<p>A geographically widespread practice known as avoidance speech, or "mother-in-law languages," imposes strict rules on how one speaks — or doesn't — to the parents of a spouse, with daughters-in-law typically bearing the brunt of such limits.</p>	<p>一种名为回避语言或“婆婆/岳母语言”的做法在地域上分布广泛。它严格规定了如何与配偶的父母说话，或不说话。在这类规则中，儿媳妇承受的限制往往最多。</p>
<p>In parts of Africa, Australia and India, some societies restrict the words a person can say after marriage. Some cultures have even barred all direct communication with parents-in-law.</p>	<p>在非洲、澳大利亚和印度的部分地区，一些社会限制人们在结婚后词语的使用。一些文化甚至完全禁止与公公婆婆或岳父岳母的直接交流。</p>
<p>Some married women who speak the Kambaata language of Ethiopia follow ballishsha, a rule that forbids them from using words that begin with the same syllable as the name of their father-in-law or</p>	<p>埃塞俄比亚一些说坎巴塔语的已婚女性会遵守一项名为巴里什沙的规定，这项规定禁止她们使用开头的音节与其公公或婆婆姓名相同的词语。</p>

<p>mother-in-law.</p>	
<p>This rule can complicate a conversation, but there are workarounds. Certain basic words in the vocabulary come in synonymous pairs. "One is the normal term, used by everybody; one is the term used by women who are not allowed to say that word," said Yvonne Treis, a linguist at a French research institute, Languages and Cultures of Sub-Saharan Africa.</p>	<p>这项规定可能会给交谈增加困难，但有变通的办法。某些基础词汇是以同义词的形式成对出现的。“一个是正常的词，大家都可以使用，另一个是不得用那个词的女性使用的词，”法国研究机构撒哈拉以南非洲语言与文化 (Languages and Cultures of Sub-Saharan Africa) 的语言学家伊冯娜·特雷伊斯(Yvonne Treis)说。</p>
<p>Euphemisms are another frequent solution: If the word "ox" is taboo for a wife to say, she may refer to "the one that plows" instead. The Kambaata language also has a word akin to "whatchamacallit" in English, useful in a pinch as either a noun or verb when no other alternative is available.</p>	<p>委婉语是另一个常见的解决办法：如果“公牛”是妻子不能说的禁忌词，她可能会说“犁地的那个东西”。坎巴塔语还有一个和英语中的“叫什么来着”(whatchamacallit)类似的词，可用作名词或动词，在没有其他选择的紧要关头颇为有用。</p>
<p>Avoidance speech is also practiced by speakers of some of the Bantu languages of southern Africa, including Xhosa and Zulu. Married women are forbidden from using their father-in-law's name, or any word that has the same root or similar sound.</p>	<p>非洲南部一些语言属于班图语的人也会使用回避语言，包括科萨人和祖鲁人。已婚女性被禁止使用公公的名字和词根相同或发音相似的词。</p>
<p>Bantu speakers often get around this restriction by borrowing synonyms from other languages spoken nearby. Some linguists think that is how click consonants found their way into Bantu speech: in words borrowed from Khoisan languages, which use clicks extensively.</p>	<p>说班图语的人常常通过从附近其他语言中借用同义词，来避开这种限制。一些语言学家认为，搭嘴音就是这样进入班图语的：通过从大量使用搭嘴音的科萨语中借用词语。</p>
<p>In parts of India, a daughter-in-law is not allowed to use words that begin with the same letters as her in-laws' names, requiring her to use a parallel vocabulary.</p>	<p>在印度的部分地区，儿媳妇不得使用开头的字母和公公婆婆名字相同的词，这要求她使用近义词。</p>
<p>Avoidance speech was a common feature of many aboriginal languages in Australia. The custom has largely faded in some areas, but</p>	<p>回避语言是澳大利亚很多土著语言的共同特征。这一习俗在部分地区基本上已经消失了，但据耶鲁大学的语言学教授克莱尔·鲍韦恩(Claire Bower)介</p>

<p>it is still widely practiced in the Western Desert region and Amhem Land, according to Claire Bowern, a professor of linguistics at Yale.</p>	<p>绍，在西部沙漠地区和阿纳姆地，该风俗仍广泛流传。</p>
<p>Avoidance speech can be more of a two-way street in Australia, with restrictions applying across genders and generations. There are aboriginal cultures where a man and his mother-in-law are forbidden to directly address each other.</p>	<p>在澳大利亚，回避语言可能更多是一条双向道，它涉及的限制内容适用范围跨越了性别和辈分。在一些土著文化中，男性和岳母不得直接交谈。</p>
<p>"In my experience, the taboos between a man and a mother-in-law are a lot stronger than between a woman and her mother-in-law," Professor Bowern said.</p>	<p>"以我的经验，男性和岳母之间的禁忌要比女性和婆婆之间的强很多，"鲍韦恩说。</p>
<p>As in Africa and India, there are a number of rules in Australian languages about which words one can say in the presence of "tabooed kin," Professor Bowern said. For example, in the Dyirbal language, spoken in northeast Queensland, water is "bana" in the everyday language but "jujama" in avoidance speech.</p>	<p>鲍韦恩还说，就像在非洲和印度一样，澳大利亚的语言中有很多规则，规定了人们在"禁忌亲戚"在场时能使用哪些词。比如，在昆士兰东北部的迪尔巴尔语中，日常用语中表示水的词是"bana"，回避语言中则是"jujama"。</p>
<p>Of course, there isn't a second word for everything, and one avoidance word often has to suffice for many related ordinary words. In the Guugu Yimithirr tongue, spoken in the far north of Queensland, the verb "bali-l," meaning to travel, is the all-purpose substitute for more specific words like walk, crawl, limp, paddle or float.</p>	<p>当然，并不是每一样东西都有两个说法，一个回避词通常不得不满足代替很多相关普通词语的需要。在昆士兰最北部的辜古依密舍语中，动词"bali-l"意为去旅行，可代替更具体的词，如走、爬、跛行、用桨划或漂浮，用途多样。</p>
<p>Why did the custom of avoidance speech arise? Some experts on its use in Africa and India see it as a way to reinforce the inferior status of daughters-in-law. In Australia, the prohibitions might have been intended to reduce the chance of sexual relations between in-laws.</p>	<p>为什么会出现回避语言？一些研究非洲和印度回避语言使用情况的专家认为，它是一种强化儿媳们劣势地位的方式。在澳大利亚，禁止使用某些词或许是为了降低姻亲乱伦的可能性。</p>

<p>Pomp and Pride at People's Congress in Beijing</p>	<p>浮华背后：图说人大会议</p>

<p>BEIJING — Big political gatherings are intended to inspire a combination of awe and national pride, and the annual full sessions of the National People’s Congress in Beijing are no exception. Guards wear their best uniforms; every button is polished to a shine. Long rows of red banners flap in the breeze on the roof of the Great Hall of the People, an imposing building on Tiananmen Square.</p>	<p>北京——大型政治集会往往旨在激发敬畏感和民族自豪感，全国人民代表大会在北京举行的一年一度的全体会议也不例外。警卫们穿着最好的制服，每颗纽扣都擦得锃亮。在天安门广场雄伟的人民大会堂，长排的红色旗帜在屋顶随微风摆动。</p>
<p>What happens inside the congress, which lasts for less than two weeks, has mostly been decided in advance by the Communist Party. The roughly 3,000 delegates are here to rubber-stamp major decisions and offer usually harmless suggestions about their pet causes.</p>	<p>开会时间不到两周，会上发生的事情大多是由共产党提前决定的。大约 3000 名代表在这里例行公事地批准重要决定，也会提出一些关于自己感兴趣项目的建议，但通常都是无害的。</p>
<p>The National People’s Congress draws representatives from all over China, including some nominally representing Taiwan, the self-governing island that Beijing has long claimed. Most of these legislators are Communist Party members and functionaries. But there is another contingent that is larger than even the biggest provincial delegation: the People’s Liberation Army.</p>	<p>全国人民代表大会吸引了来自中国各地的代表，包括一些名义上的台湾代表；北京一直声称这个自治的岛屿属于中国。人大立法者大多数是共产党员和公务员。但是有个代表团甚至比最大的省级代表团还要大，就是解放军代表。</p>
<p>Mao famously observed that power grows from the barrel of a gun, and that adage is reflected in the presence and visibility of the military at the heart of Beijing. While most delegates arrived in clumps on Sunday morning for the start of the congress, the generals arrived in a 200-strong phalanx, wearing crisply pressed uniforms and many of them carrying briefcases.</p>	<p>毛泽东有一句名言，枪杆子里出政权，这句话反映了军队在北京心目中的存在度和可见度。当大多数代表在周日上午三三两两地到达大会堂时，将军们排成了一个 200 多人的方队抵达，他们身穿熨烫妥帖的制服，其中许多人还拿着公文包。</p>

<p>the congress, the building's managers have resorted to stretchy tape and smartly dressed security officers to keep unwanted guests out of important meetings.</p>

One leftover custom: the highly synchronized young women who still use almost identical motions to pour hot tea into cups at the Great Hall.</p>	<p>大会堂的会议上，保持着一些来自中国过去极端纪律化时代的仪式。一个残留的做法是：在大会堂里，保持高度一致的年轻女性仍然使用几乎相同的动作将热茶倒入杯子。</p>
<p>The Great Auditorium of the Great Hall can seat about 10,000 people, but the most sought-after seats are those allocated to the Communist Party leadership on the stage at the front of the room. While China's ideology has been shifting toward a marriage of Chinese nationalism and socialism, the favored color scheme remains a vivid Communist red.</p>	<p>大会堂的大礼堂可容纳大约1万人，但最抢手的位置是在前面舞台上，分配给共产党领导人的席位。虽然中国的意识形态已经在朝着中国民族主义和社会主义的结合转向，但是最受青睐的配色仍然是鲜艳的共产主义红色。</p>

<p>The lawmaker, Vitaly V. Milonov, relied on news media reports and complaints from parents that the children's film includes a gay character who participates in a "sexually deviated scene," said his spokesman, Ilya Yevstigneyev. This is an apparent reference not to the concept of love between a human and a beast but to a seconds-long glimpse of a gay character near the end of the movie dancing with the object of his affections.</p>	<p>维塔列·V·米洛诺夫(Vitaly V. Milonov)议员的发言人伊利亚·叶夫斯季格涅耶夫(Ilya Yevstigneyev)表示, 米洛诺夫的依据是新闻媒体的报道和父母的抱怨, 说这部儿童影片中有一位同性恋角色, 而且出现在一个"性变态"的场景中。这针对的显然不是一个人类与一头野兽相爱的概念, 而是在影片即将结束时出现的、仅仅持续数秒钟的一个同性恋角色与爱慕对象跳舞的镜头。</p>
<p>"In this case, society cannot be silent about what film distributors are offering under the guise of a children's tale," Mr. Milonov said in a letter to the Russian Culture Ministry, which oversees the film market. "The obvious, blatant, shameless propaganda of sin, of perverted sexual relations."</p>	<p>"在这种情况下, 社会不能对电影发行商在童话故事掩盖下所传播的内容保持沉默了," 米洛诺夫在给监管电影市场的俄罗斯文化部(Russian Culture Ministry)的一封信中写道。"也就是对罪恶和变态性关系进行明显地、公然地和无耻地宣传。"</p>
<p>The release of the film coincides with the start of spring vacation for Russian schoolchildren, adding — for Mr. Milonov — a sense of urgency. "Our common task," he writes, "is to stop this music film from being shown on screens one way or another."</p>	<p>影片的上映时间恰逢俄罗斯学龄儿童春假开始, 这加重了米洛诺夫带的紧迫感。"我们的共同任务," 他写道, "是想方设法阻止这部音乐片出现在银幕上。"</p>

The Choose-Your-Own-News Adventure	新闻媒体也将迎来互动叙事时代?
AUSTIN, Tex. — A fascinating story emerged about Netflix last week.	德克萨斯州奥斯丁——上周,一个有关Netflix的引人入胜的故事浮出水面。
The Daily Mail reported that the streaming television service was developing new interactive technology allowing viewers to direct the plots of certain television shows, Choose-Your-Own-Adventure style.	据《每日邮报》(The Daily Mail)报道,这家流媒体电视服务公司正在开发一种新的互动技术,可以让观众决定某些电视节目的情节,就像“惊险岔路口”(Choose Your Own Adventure)那样。
The company later told me that the experiment was focused on children's programming, more as a developmental learning tool than as some new twist on the modern media sphere's rush to give you exactly what you want when you want it.	这家公司后来告诉我,这项实验着重于儿童节目,更多是作为一种开发中的学习工具,而非把现代媒体争相实现的目标——想要什么就给你什么——变出了点新花样。
No matter how far the experiment goes, Netflix is again in step with the national zeitgeist. After all, there are algorithms for streaming music services like Spotify, for Facebook's news feed and for Netflix's own	不管这项实验能发展到什么程度,Netflix都又一次跟上了时代的步伐。毕竟,Spotify等流媒体音乐服务、Facebook的新闻订阅服务,以及Netflix自己的节目单都有算法致力于提供准确符合你的喜好的东西,同时过滤掉任何可

So why not extend the idea to the plots of your favorite shows?</p>	<p>能会让你厌烦或想要离开的内容,也就是本周正在这里举行的西南偏南互动媒体节(South by Southwest Interactive Festival)上都在谈论的那种数据驱动的甜蜜陷阱。所以为什么不把这种自己决定情节的点子,也延伸到你最喜欢的电视节目中呢?</p>
<p>Allow me to direct you to the real-world, Choose-Your-Own-Adventure news media misadventure of the past week, which I'll call "POTUS45, Episode 6: The Presidential Wiretap That (A) Was, (B) Wasn't, (C) Was Because He's a Russian Agent and Oh, Sister, Is He in Trouble."</p>	<p>请允许我带领你看看真实世界的“惊险岔路口”式新闻媒体在上周的不幸遭遇,我称之为《45届总统》(POTUS45)第6集:总统窃听事件(A)是真的,(B)不是真的,(C)是真的,因为他是一名俄罗斯特工,哎呀,姐们,他可倒大霉了</p>
<p>It started with President Trump's Twitter posts accusing former President Barack Obama of having wiretapped his phones at Trump Tower. Game on.</p>	<p>这起事件始于特朗普总统发推文指控美国前总统贝拉克·奥巴马(Barack Obama)窃听了他在特朗普大厦的电话。游戏开始。</p>
<p>If you were inclined to believe that Mr. Obama did what Mr. Trump said he did — indeed, if you wanted to believe it — you probably would have tuned into "Fox & Friends" that Sunday morning for Adventure A.</p>	<p>如果你倾向于相信奥巴马做了特朗普所说的事——确切讲,如果你想相信是那么回事——你可能在那个周日上午收看过《福克斯和朋友们》(Fox & Friends)节目,即选项A。</p>
<p>There, you would have seen the radio host Mark Levin, whose show was credited with helping to spur Mr. Trump's accusations, laying out the case for Mr. Trump, declaring, "This is about the Obama administration's spying."</p>	<p>在那里,你会看到节目主持人马克·莱文(Mark Levin)——他的节目被认为是促使特朗普提出这项指控的原因之一——替特朗普阐明案情,宣称“这事关奥巴马政府的间谍行动”。</p>
<p>The proof, you would have heard him say, was already out there in the mainstream media — what with a report on the website Heat Street saying that the Federal Bureau of Investigation had secured a warrant to investigate ties between people in Mr. Trump's campaign and Russia, and articles in The New York Times, in The Washington Post and</p>	<p>你会听到他说,证据早就出现在主流媒体的报道里了——因为热街(Heat Street)网站上的一篇报道说联邦调查局(Federal Bureau of Investigation)获得了对特朗普竞选团队成员与俄罗斯的关系进行调查的授权,还有《纽约时报》、《华盛顿邮报》(The Washington Post)等媒体报道了将特朗普团队成员与俄罗斯之间建立关联的情报,有些是来自窃听。</p>

elsewhere about intelligence linking people in Mr. Trump's campaign to Russia, some of it from wiretaps.	
"These are police state tactics!" Mr. Levin would tell you.	"这些是警察国家的手段!"莱文会告诉你。
Sure, you would have picked up static from other sources that made some of this seem ridiculous. But that stuff is for the followers of Adventure B, relying on fact-based journalism from seasoned reporters with deep contacts and established (and, yes, sometimes imperfect) protocols for fact-checking — all of which the Adventure A people view with deep suspicion that the president is only too happy to stir.	当然,你已经从其他地方看到一些批评,让这些言论看起来十分可笑。但那些东西是给选B的人看的,他们信赖有深厚人脉、有成熟的事实核查程序(是的,有时候并不完美)、有丰富经验的记者所做的基于事实的新闻报道——选A的人对所有这些都深表怀疑,现任总统十分乐于激发这种情绪。
If you were among the Adventure B folk, maybe you saw James Clapper Jr., the former national security director, tell Chuck Todd on "Meet the Press" that Sunday that the F.B.I. had not secured a FISA warrant to spy on Mr. Trump's aides.	如果你是选B的人,或许已经看到美国前任国家情报总监小詹姆斯·R·克拉珀(James Clapper Jr.)周日在《会见媒体》(Meet the Press)节目上告诉查克·托德(Chuck Todd),联邦调查局并没有获得可以让他们监听特朗普助手的外国情报监听法(FISA)授权令。
You probably would have seen the news, first reported by The Times, that the F.B.I. director, James B. Comey, had asked the Justice Department to deny Mr. Trump's charge (to no avail), and the viral video of George Stephanopoulos of ABC News telling a presidential aide, "That's false," as she tried to reprise the Adventure A argument that mainstream news reports backed Mr. Trump's wiretap accusation.	你可能会看到时报率先报道的那则消息,即联邦调查局局长詹姆斯·B·科米(James B. Comey)要求司法部驳斥特朗普的指控(结果无济于事),会看到一段广为传播的视频显示,当总统的一名助手试图重复选项A中的观点——即主流新闻媒体的报道证实了特朗普的窃听指控,ABC新闻频道(ABC News)的乔治·斯蒂芬诺普洛斯(George Stephanopoulos)对她说,"那是假的。"
You would have seen PolitiFact's point-by-point rebuttal of the same argument — and, finally, a week later, reports about how evidence for Mr. Trump's charge still had yet to surface.	你会看到PolitiFact网站对那一论调逐字逐句的反驳,以及在一周之后,最终看到有关支持特朗普指控的证据依然没有出现的报道。
Or, lastly, were you an Adventure C kind of person? If so, you couldn't get enough about how Mr. Trump's wiretap allegation and the Russian connections could lead to his impeachment (MSNBC, The Independent,	最后一点,你是选择C那种人吗?如果是的话,你会喜欢看到有关特朗普的窃听指控和与俄罗斯的关联会如何导致他被弹劾(MSNBC频道、《独立报》(The Independent)、马克辛·沃特斯[Maxine Waters])的信息,你在

<p>As Mr. Stephanopoulos told me when we spoke by phone over the weekend, the trend may have been heading this way for a while — you don’t need an algorithmic feed to turn on Fox News or to catch Rush Limbaugh. But in the era of the curated digital news stream, the choose-your-news phenomenon has “ended up in a whole new place,” Mr. Stephanopoulos said.</p>	<p>就像斯特凡诺普洛斯上周末在电话中告诉我的，这种趋势已经持续了一段时间了——打开福克斯新闻频道或收听拉什·林博(Rush Limbaugh)的节目是不需要算法推荐的。但他表示，在数字信息流定制化的时代，“定制新闻”热潮“最终落入了意想不到的境地”。</p>
<p>It’s easy to overdo it, he noted, given that no specially tailored plotline can fully tune out the contradicting details of another one. “Filters do have to contend with each other in some way, too,” he said.</p>	<p>他认为这很容易做过头，因为没什么量身定制的情节主线能完全去除另一条情节线中与之矛盾的细节。“过滤器之间也会有某种冲突，”他说。</p>
<p>Really, arguments between adherents of the different adventure plots are the stuff of cable news programming, with each narrative vying for supremacy in debates that too often become arguments over established facts that should be indisputable.</p>	<p>确实，不同的探险情节的追随者之间的争论成了有线电视台节目的内容，每种叙事逻辑都在辩论中竭力争夺主导地位，使得这些辩论往往成为就本应该无可争议的既成事实展开的争论。</p>
<p>Because, after all, one of the plots we’re talking about here is of the sort that democracy depends on — that would be Adventure B, the one based on established facts that exist in the real world — and the others are of the sort that threatens to undermine any shared sense of truth while driving us into our corners.</p>	<p>因为，毕竟我们这里谈到的其中一条情节主线是民主制度赖以生存的——那应该是选项 B，也就是基于在真实世界存在的、确定的事实形成的版本——而其他的选项会破坏我们共同对真相的认知，促使我们躲在各自的角落不出来。</p>

<p>Make the Most of the Louvre</p>	<p>博物馆全攻略：法国卢浮宫</p>

<p>The Louvre, a former fortress and royal palace, is one of the world's most awe-inspiring museums, a trove of history from the seventh century B.C. to the mid-19th century. Antiquities from the East and West vie for attention with masterpieces by Leonardo and Vermeer; wander aimlessly through its maze of galleries and you're as likely to stumble into an imperial ballroom as a chamber containing a sphinx. It would take you about three full days to visit every room in this museum. (We know, because we did it.) But don't worry, we'll help you make your trip unforgettable, but also manageable.</p>	<p>之前曾为要塞和皇家宫殿的卢浮宫，现在是世界上最让人惊叹的博物馆之一，这里有着上至公元前七世纪、下至 19 世纪中期的历史宝藏。达·芬奇和弗美尔的名作，与来自东西方的文物争相吸引人们的眼光；随意地在迷宫般的展厅中闲逛，不是无意间走入了一座皇家宴会厅，就是迈入一个存放埃及狮身人面像的展厅。参观完博物馆内的所有展厅，需要花费整整三天时间（我们知道，因为我们这么做了）。但是不要担心，我们会帮你把这段旅程变得既容易又难忘。</p>
<p>The Five Must-Sees</p>	<p>不可错过的五大看点</p>
<p>It's wonderful, and easy, to just get lost in the Louvre, but you won't want to miss these particularly spectacular rooms.</p>	<p>在卢浮宫是很容易迷路的，闲逛的感觉也不错，但你不会想错过以下这些格外引人注目的展厅。</p>
<p>FRENCH HISTORY IN PICTURES</p>	<p>绘画中的法国历史</p>
<p>Denon Wing, First Floor French Romanticism and Neoclassicism, Rooms 75 to 77</p>	<p>德农馆(Denon Wing), 二层 法国浪漫主义与新古典主义, 75-77 展厅</p>
<p>Remember that the Louvre is, after all, a French museum, with collections selected by its monarchs. This Wing contains the the best examples of the country's masterworks.</p>	<p>要知道，卢浮宫毕竟是一座法国博物馆，其藏品是由法国历代君主选择的。这个展馆保存就是法国艺术杰作中最具代表性的作品。</p>
<p>Why It's Must See: French painting focuses on the epic sweep of the country's historical turning points, like the massive canvas of Jacques-Louis David's "The Coronation of Napoleon," (1806-7) which controversially depicts Josephine's coronation, Delacroix's "Liberty Leading the People" (1830) representing the 1830 revolt against King Charles X, a timeless allegory of popular resistance.</p>	<p>必看理由：法国绘画注重展示法国历史转折点中的史诗场面，比如雅克-路易·大卫(Jacques-Louis David)1806年7月创作的巨幅油画《拿破仑的加冕典礼》就以颇具争议的方式描绘了约瑟芬的加冕；德拉克罗瓦1830年创作的《自由引导人民》则呈现了1830年民众反抗国王查理十世的运动，由此成为民众抗争的永恒象征。</p>
<p>What to Look For: Don't miss Géricault's "The Raft of the Medusa,"</p>	<p>看点：不要错过热里科(Géricault)的《美杜莎之筏》(The Raft of the</p>

<p>which depicts a terrifying moment in French naval history, when a French frigate sank off the coast of Senegal in 1816, and only 10 people out of 150 survived after a two-week ordeal without food or water. The painting captures the precise moment when the survivors spy the boat that will save them on the horizon.</p>	<p>Medusa), 这幅画作描绘了法国航海史上一个令人恐惧的时刻, 那是在 1816 年, 一艘法国护卫舰在塞内加尔海岸沉没, 船上 150 人只有 10 人生还, 他们在没有食物和水的情况下熬了两周。画中描绘的恰好是幸存者看到远方前来营救他们的船只那一刻。</p>
<p>Nearby: When you enter the central hall that connects the two main chambers of the French Neoclassical and Romantic periods (where the gift shop is), don't forget to look up. The ceiling of this Salle des Sept-Cheminées, with its skylight surrounded by stucco figurines by the sculptor Francisque-Joseph Duret, is absolutely lovely.</p>	<p>周边: 当你进入连接法国古典主义和浪漫主义(礼品店所在的地方)两个主展厅的中央大厅时, 不要忘记抬头看。这个七壁炉厅的天花板绝对值得一看, 上面的天窗周围环绕的灰泥小雕塑是由雕塑家弗朗西斯科·约瑟夫·迪雷(Francisque-Joseph Duret)创作的。</p>
<p>HELLENISTIC HEROINES</p>	<p>希腊化时期的女英雄</p>
<p>Sully Wing, Ground Floor Rooms 16 and 17, and Daru Staircase</p>	<p>苏利馆(Sully Wing), 一层 16 和 17 号展厅, 以及达吕阶梯(Daru Staircase)</p>

<p>Why It's Must See: Two of the museum's great ladies, "Venus de Milo" and "Winged Victory of Samothrace," are Hellenistic masterpieces. These mysterious goddesses are about as entrancing as the womanly form ever gets. "Venus de Milo" was discovered on the Greek island of Melos (Milo in Greek) and although her arms were never recovered, by her sensual forms and suggestive nudity, scholars presume that she is the goddess of love, Aphrodite.</p>	<p>必看理由: 这座博物馆最伟大的两位女性《米洛的维纳斯》(Venus de Milo) 和《萨莫色雷斯的胜利女神》(Winged Victory of Samothrace) 是希腊化时期的杰作。可以说, 这两位神秘的女神有着女性所能拥有的最迷人的身躯。《米洛岛的维纳斯》发现于希腊的米洛岛, 尽管她的两支胳膊一直没能找到, 但学者们从性感的身躯和引人联想的裸体判断, 她就是爱神阿佛罗狄忒(Aphrodite)。</p>
<p>What to Look For: In Room 17, a short walk from Aphrodite, you'll find her equally seductive cousin, "Sleeping Hermaphroditos," an Italian marble sculpture that presents the very essence of femininity when seen from one side, and the surprise of masculinity on the other. Turn</p>	<p>看点: 在 17 号展厅内, 离阿佛罗狄忒几步之遥的地方, 就可以看到与她同样性感的《沉睡的赫尔马佛洛狄忒斯》(Sleeping Hermaphroditos), 那是一座意大利大理石雕塑, 从一边看显出极度的女性气质, 另一旁则是令人惊讶的男性气质。掉头沿达吕阶梯走到德农馆, 就能看到《萨莫色雷斯的胜利</p>

<p>Nearby: Also on the ground floor, but in the Denon Wing, Room 4, find the Roman sculptural masterpieces "Dying Slave" by Michelangelo, with his top rolled up to share his impressive abs, and Antonio Canova's ebulliently romantic "Psyche Revived by Cupid's Kiss."</p>	<p>周边：还是在一层，但是在德农馆的4号展厅，可以看到罗马雕塑的代表作，即由米开朗琪罗创作的《垂死的奴隶》(Dying Slave)和安东尼奥·卡诺瓦(Antonio Canova)创作的《被丘比特之吻拯救的普绪喀》(Psyche Revived by Cupid's Kiss)，前者的头朝后仰着，展示着十分可观的腹肌。</p>
<p>TREASURES OF THE ITALIAN RENAISSANCE</p>	<p>意大利文艺复兴珍品</p>
<p>Denon Wing, First Floor Italian Paintings, Rooms 1 to 8</p>	<p>德农馆，二层 意大利绘画，1-8号展厅</p>
<p>The Denon Wing of the Louvre is home to some of the world's most famous works of Western painting. If you have time for nothing else, spend at least an hour here.</p>	<p>卢浮宫的德农馆保存着一些世界上最著名的西方画作。就算你没时间看别的，至少也该在此逗留一个小时。</p>
<p>Why It's Must See: You can begin in rooms 1 through 3 and see two stunning Botticelli frescoes, continue through the jaw-dropping Grande Galerie, filled with Italian painting and arrive at the central room that contains the "Mona Lisa."</p>	<p>必看理由：你可以从1至3号展厅开始，欣赏波提切利的两幅绝美壁画，然后穿过令人叹为观止、满是意大利绘画的大画廊(Grande Galerie)，抵达居于中心位置、陈列着《蒙娜丽莎》的展厅。</p>
<p>What to Look For: Everyone will be taking selfies, clustered around Leonardo da Vinci's famous portrait of Lisa Gherardini, better known as the Mona Lisa, but you'll be richly rewarded if you turn your back on her and explore the surrounding rooms. As you enter the Grande Galerie (Room 5), look to the left, where you'll find five more Leonardo paintings, and Raphael's exquisite "Portrait of Baldassare Castiglione." Behind the "Mona Lisa," find four paintings by Titian, including the wonderful "The Pastoral Concert," the inspiration for Édouard Manet's</p>	<p>看点：每个人都会挤在莱昂纳多·达·芬奇为丽莎·盖拉尔迪尼(Lisa Gherardini)——人称蒙娜丽莎——画的那幅肖像周围自拍，但你如果抛开她，转而探索周遭的展厅，一定大有收获。当你进入大画廊(5号展厅)时，向左看，会发现达·芬奇的另外五幅画作以及拉斐尔精美的《巴尔达萨雷·卡斯蒂奥内内画像》(Baldassare Castiglione)。在《蒙娜丽莎》后边，有提香的四幅作品，其中包括美妙的《田园合奏》，它是爱德华·马奈后来创作《草地上的野餐》的灵感之源。</p>

later "The Luncheon on the Grass."

TRAVEL IN NILE	尼罗河之旅
Sully Wing, Egyptian Galleries Ground floor, Rooms 1 to 14	苏利馆，埃及馆 一层，1 至 14 号展厅
Thanks to I.M. Pei's beautiful pyramid entryway to the Louvre, which opened in 1989, it's impossible to forget that one of the beloved highlights of the museum is its massive Egyptian antiquities collection, made up of more than 66,000 artifacts, with almost 7,000 of them on display across 35 rooms in the Sully Wing.	得益于贝聿铭设计、于 1989 年开放的金字塔形美丽入口，到访者不可能忘记：这家博物馆最珍贵的馆藏之一，就是由 6.6 万件艺术品构成的庞大埃及文物收藏，其中将近 7000 件都在苏利馆的 35 个展厅里展出。
Why It's Must See: You'll never see so many sarcophagi in one place anywhere else.	必看理由：在其他任何地方，你都不可能一次性见到这么多石棺。
What to Look For: Enter the Egyptian Wing through the lower downstairs level of the Pavillon de L'Horloge and you'll first encounter the 12-ton Great Sphinx of Tanis, with a lion's body and a human head, sculpted sometime between 2,600 and 1,900 B.C. Continue through the downstairs chambers, where you'll see wonderful model ships (Room 3), a colossal statue of Rameses II (Room 12) and end up in the amazing sarcophagus room (Room 14) where you'll find a large glass vitrine filled with upright mummy cases.	看点：经由钟阁(Pavillon de l'Horloge)那矮矮的楼梯进入埃及馆，你首先会看到重达 12 吨、在公元前 2600 年至公元前 1900 年之间雕刻而成的《狮身人面像》(Great Sphinx of Tanis)。接着穿过楼下的房间——在那些地方你会看到美妙的模型船(3 号展厅)，以及一件拉美西斯二世(Rameses II)的巨大雕像(12 号展厅)——最终来到令人惊叹的石棺房(14 号展厅)，发现一个巨大的玻璃柜，那里满是直立的人形棺。
Nearby: When you leave the museum, walk through the Tuileries Garden to Place de la Concorde, where you'll find the Luxor Obelisk, a gift to King Charles X from Mehmet Ali Pasha of Egypt. It once stood at the entrance to the Luxor Temple.	周边：离开博物馆的时候，穿过杜乐丽花园抵达协和广场，你会看到卢克索方尖碑，一件由埃及的穆罕默德·阿里帕夏(Mehmet Ali Pasha)送给国王查理十世的礼物。它曾伫立在卢克索神庙入口处。
REMBRANDT'S MOST SYMPATHETIC PORTRAIT	最令人动容的伦勃朗肖像

<p>Richelieu Wing, Second Floor Northern European paintings, Rooms 30 to 39</p>	<p>黎塞留馆(Richelieu Wing), 三层 北欧绘画, 30 至 39 号展厅</p>
<p>The Dutch Golden Age is dominated by two towering figures of art history: Rembrandt and Vermeer. Here you find key masterpieces by both artists, including Vermeer's "The Astronomer" (1668) and "The Lacemaker" (1669-70), as well as four Rembrandt self-portraits and works by many other old masters.</p>	<p>主导荷兰黄金时代的是艺术史上的两个顶级人物: 伦勃朗和弗美尔。在此你能看到这两位艺术家至关重要的杰作, 其中包括弗美尔的《天文学家》(1668) 和伦勃朗的四幅自画像, 还能看到其他很多早期大师的作品。</p>
<p>Why It's Must See: Rembrandt's paintings capture the depths of the drama of the human soul, and his work "Bathsheba at Her Bath" (1654) is a prime example of this. Rembrandt specialized in portraits made on commission, but his favorite work was biblical scenes. In this painting, he combines the two genres in his most naturalist nude, for which his lover, Hendrickje Stoffels, served as a model. Bathsheba has just received a letter in which the king has summoned her to seduce her. If she goes, she will betray her husband. If she doesn't, she will disobey the king.</p>	<p>必看理由: 伦勃朗的绘画捕捉到了人类灵魂深处的戏剧性, 其作品《沐浴的拔士巴》(1654)便是很好的例证。伦勃朗专门接受委托为人绘制肖像, 但他很喜欢描绘圣经场景。在这幅作品中, 他把两者融入了自己笔下最具自然主义色彩的裸体中, 充当模特的是他的情人亨德里克耶·斯托菲尔斯 (Hendrickje Stoffels)。画中的拔士巴刚刚收到国王为了勾引她而召她觐见的信函, 如果去了, 她就要背叛自己的丈夫。如果不去, 她就要违抗国王的旨意。</p>
<p>What to Look For: When you gaze upon "Bathsheba at Her Bath," take some time to look at her face, which perfectly captures the terrible, and impossible, choice she must make.</p>	<p>看点: 当你驻足欣赏《沐浴的拔士巴》时, 不妨花时间研究一下她脸上的表情, 作者用它完美地诠释出她必须做出一个多么糟糕、多么难以忍受的选择。</p>
<p>Nearby: Find other Dutch and Flemish old masters, like Peter Paul Rubens, Frans Hals and Jan Steen, in surrounding rooms on the second floor of the Richelieu Wing.</p>	<p>周边: 在黎塞留馆三层周遭的展厅里, 还能找到彼得·保罗·鲁本斯、佛兰斯·哈尔斯、扬·斯蒂恩等其他荷兰和佛兰芒早期大师的作品。</p>
<p>Off the Beaten Path</p>	<p>打破常规</p>
<p>Looking for hidden treasures? These four galleries contain historical gems in quieter spaces.</p>	<p>要寻觅隐藏的宝藏? 以下四个展馆在相对静谧之处保存着历史瑰宝。</p>

Medieval Louvre Pavillon de l'Horloge	中世纪卢浮宫 时钟馆(Pavillon de l'Horloge)
Once open only to select visitors, the underground chambers of the Louvre were recently renovated with widened walkways and exhibition spaces that allow the public to see the foundations of the original fortress. Named the Pavillon de l'Horloge (the Clock Pavilion), this section makes you feel as if you're in the underground castle – in fact, you're walking through what was once the watery moat.	卢浮宫的这些展厅一度只是有限开放的，最近经过翻建后，通道和展览空间得到拓宽，这里的原城堡地基由此可以向公众开放。这个名为时钟馆的区域，会让你有置身地下城堡之感——事实上，你正穿行其中的地方，原本是有水的护城河。
Room of Ingres Paintings, Sully Wing Room 60	安格尔绘画作品室，苏利馆 60 号展厅
A side trip to the French galleries on the first floor is rewarding. You'll find a room full of Neoclassical works by Jean-Auguste- Dominique Ingres, the 19th-century French painter who was fascinated by the female form. These include "The Valpinçon Bather" (1808) and "The Turkish Bath" (1862), evocative and sumptuous, and a great departure from the saccharine Romantic works in the hallways of the French Wing.	顺道去一趟二层的法国馆是值得的。你会发现一个展厅里满是痴迷于女性外表的 19 世纪法国画家让·奥古斯特·多米尼克·安格尔(Jean-Auguste Dominique Ingres)的新古典主义作品。其中包括《瓦平松的浴女》(The Valpinçon Bather, 1808) 和《土耳其浴》(The Turkish Bath, 1862), 瑰丽而又引人遐思，与法国馆走廊中那些甜美的浪漫主义作品大相径庭。
Early Northern European Masterpieces, Richelieu Wing Second floor, Rooms 6 to 12	北欧早期名作，黎塞留馆 三层，6 至 12 号展厅
Hieronymus Bosch, an early Dutch painter, is known for his fantastic scenes of heaven and damnation, filled with bizarre little demons. Find one of his most famous works, "Ship of Fools" in this section. Nearby are other Flemish works of the late middle ages and early Renaissance, like a portrait of Erasmus by Hans Holbein the Younger and a rare self-portrait by Albrecht Dürer. (Be aware: These rooms are being renovated and will be closed until the end of 2017.)	荷兰早期画家耶罗尼米斯·波希(Hieronymus Bosch)以其笔下关于天堂和诅咒、满是古怪小恶魔的奇幻场景闻名。在这里能找到他最著名的作品之一《愚人船》(Ship of Fools)。旁边还有中世纪晚期和文艺复兴早期的其他佛兰芒作品，比如小汉斯·霍尔拜因(Hans Holbein the Younger)为伊拉斯谟画的肖像，以及一幅稀有的阿尔布雷特·丢勒自画像。(注意：这些展厅目前正在翻修，会一直关闭到 2017 年底。)
Chardin Still Lifes, Sully Wing Second floor, Rooms 38 & 39	夏尔丹的静物，苏利馆 三层，38 和 39 号展厅

<p>There's a divine cluster of still-life paintings by Jean-Baptiste-Siméon Chardin in Rooms 38 and 39. "The Ray" (1725-26), his strangely anthropomorphized image of a dead stingray, has long fascinated visitors, but an even more interesting collection is in a glass-covered wall of Room 39. The French Impressionists were known to visit these rooms to sketch, and it's easy to see how they were influenced by the muted tones and loose brush strokes.</p>	<p>在 38 和 39 号展厅，陈列着让·巴蒂斯特·西梅翁·夏尔丹 (Jean-Baptiste-Siméon Chardin) 的一批以静物为主题的佳作。在《鳐鱼》(The Ray, 1725-1726 年) 中，他对一条死鳐鱼做了诡异的人格化描绘。这幅画一直让参观者们颇为着迷，但在 39 号展厅覆有玻璃的墙壁上陈列着一个更有意思的作品系列。人们知道法国印象派画家们曾来这两个展厅画速写，很容易就能看出这柔和的色调和松弛的笔触对他们有多大影响。</p>
<p>Amazing Spaces</p>	<p>绝妙空间</p>
<p>While admiring thousands of paintings and sculptures, don't forget to see the Louvre itself.</p>	<p>在赞叹成千上万件画作和雕塑的同时，别忘欣赏卢浮宫自身的美。</p>
<p>APOLLO GALLERY, DENON WING FIRST FLOOR, ROOM 66</p>	<p>阿波罗画廊(Apollo Gallery)，德农馆 二层 66 号展厅</p>
<p>The high arches and frescoed walls of this single chamber are jaw-droppingly ornate, like nothing you will ever experience in ordinary life, and worth a prolonged gander. The room seems to be dripping with gold, worked into every doorknob and wall moulding, and holding up the glass tables and vitrines in the center of the gallery, which contain the royal crowns. The gallery was started as the Galerie des rois (Gallery of Kings) in 1661 and painted by Charles Le Brun, who left it incomplete when he went to work on his commissions at Versailles instead. It was completed by the French Romantic artist Eugène Delacroix in 1851.</p>	<p>这个宫室高高的拱顶和绘满壁画的墙壁华丽至极，令人瞠目结舌，日常生活中可见不到这样的东西，值得久久驻足观看。整个展厅似乎布满黄金，门上的每个球形把手与每个墙砖造型都是金质的。还有画廊中央的玻璃桌和盛放皇冠的展柜，它们的腿也是黄金制成。这座画廊于 1661 年开始兴建，原名国王画廊(Gallery of Kings)，壁画由夏尔·勒·布朗(Charles Le Brun)绘制，但他没有画完就去做凡尔赛宫的工作，最后由法国浪漫主义画家欧仁·德拉克洛瓦(Eugène Delacroix)于 1851 年完成。</p>

<p>The former chambers of Napoleon III span several rooms of the Richelieu Wing, built by architects Louis Visconti and Hector LeFeul in the 1850s. It's still extraordinary to observe the high style of living to which this emperor was accustomed, especially in Room 87, the spectacular Grand Salon, with its red velvet chairs, frescoed ceiling and gilded mouldings, and the rococo state dining room, with its table that seats nearly 100 people.</p>	<p>拿破仑三世以前住的房间跨越了黎塞留馆的几个展厅，它由建筑师路易·维斯孔蒂(Louis Visconti)和埃克多尔·勒弗(Hector LeFeul)于 1850 年代建造。这个皇帝日常习惯的高端生活方式现在看来依然令人惊叹，特别是 87 号展厅壮观的大沙龙，里面有红色天鹅绒椅子、绘着壁画的天花板和镀金墙线，以及洛可可风格的国宴厅，里面的大桌能供将近 100 人用餐。</p>

GROUND FLOOR, ROOMS 22 TO 28	一层 22 至 28 展厅
Look up when you enter the section of the Denon Wing that houses the Greek, Roman and Etruscan antiquities, because the exquisite gilded décor of these six rooms is all in the breathtaking ceilings. King Louis XIV had this part of the museum built for his mother's summer apartments in 1655, commissioning the Italian Baroque painter Giovanni Francesco Romanelli to create the vividly colored paintings, set between the fantastically embellished stucco, by Michel Anguier and Pietro Sasso. The juxtaposition of the white sculptural works from antiquity works wonders against all the wild rococo ornamentation.	德农馆的这一部分是用来收藏希腊、罗马和伊特鲁里亚文物的，进来时别忘了抬头看，因为这六个房间里的精美镀金装饰都在令人惊叹的天花板上。博物馆的这个部分是路易十四国王于 1655 年为母亲建造的，作为她的夏季套房，他委托意大利巴洛克画家米凯隆·弗朗西斯科·罗马内利(Michelon Francesco Romanelli)创作了色彩鲜明的壁画，它们位于米歇尔·安吉尔(Michel Anguier)和彼特罗·萨索(Pietro Sasso)悉心打造的精美灰泥装饰之间。展厅内一座座来自古代的白色雕塑仿佛在惊奇地打量着周围极尽华丽的洛可可式装潢。
Going With Kids?	带孩子一起去?
There's no need to leave the kids home to enjoy the Louvre.	要逛卢浮宫，不必把孩子留在家。
Unlike many modern museums, the Louvre doesn't have dedicated play areas or activity centers for children, but that doesn't mean they aren't welcome here. There's plenty for them to see and to explore, and most of the museum offers experiences that will be memorable for a lifetime. Depending on the age of the child, plan your trip to last one to two hours. You don't need to worry about the expense: Admission is free for visitors under 18.	与许多现代博物馆不同，卢浮宫没有专门的儿童游乐区或活动中心，但这并不意味着他们不受欢迎。这里有许多东西可供他们观赏和探索，博物馆中的大部分区域都可以提供终身难忘的经历。根据孩子的年龄，你可以把参观时间设计为一两个小时之内。不必担心费用：18 岁以下的游客可免费入场。
Tip: Strollers and baby carriers are available free of charge at the visitor assistance area.	小贴士：参观者帮助区免费提供婴儿车和婴儿背带。
MAKE YOUR TRIP INTO A GAME	让参观变成游戏
The museum's audio guide includes a Nintendo game program in English designed to help children enjoy the Egyptian Wing, which is a lot of fun for visitors over 5. If you are traveling with younger children,	博物馆的音频向导中包括一个英语的任天堂游戏程序，用来帮助孩子们享受埃及馆，它对于 5 岁以上的游客来说是非常有趣的。如果是和更小的孩子一起参观，可以鼓励他们寻找动物——它们处处可见，从埃及馆著名的蓝色

encourage them to spot animals – which can be found everywhere, from the famous little blue hippo in the Egyptian ing to the dogs in “The Wedding Feast at Cana” (1563).	小河马到油画《迦拿的婚礼》(The Wedding Feast at Cana, 1563)中的狗。
HELP THEM FIND THE DETAILS	帮助他们找到细节
The foundations of the old castle in the new Pavillon de l’Horloge is a terrific space for kids to explore. Encourage them to look at the stones to find the markings left by the stonemasons who built the castle in medieval times – like hearts and crosses.	新的时钟馆(Pavillon de l’Horloge)里的老城堡地基是孩子们探索的绝佳空间。鼓励他们观察那些石头，找到在中世纪建造城堡的石匠们留下的痕迹——比如心形和十字架。
GET OUTSIDE	到户外去
End your museum visit with a trip to the Tuileries Garden, just outside, where kids can steer little multicolored sailing boats around the pond, jump on trampolines near the Terrasse des Feuillants or ride the carousel.	不妨以探访就在外边的杜乐丽花园结束你的卢浮宫之旅。孩子们可以在花园内的水池里驾驶多彩的小帆船，在斐扬平台(Terrasse des Feuillants)附近的蹦床上跳跃，还可以骑旋转木马。
Tips for Visiting the Louvre	卢浮宫参观小贴士
GETTING IN	进馆
The best times to go: Opening time, 9 a.m. every day except Tuesday (when the museum is closed). The museum is mobbed just after lunch, around 1 p.m. If you visit in the afternoon, wait until about 3 p.m. On Friday evenings, the museum stays open until 9:45 p.m. and makes a fun night out, and admission is free after 6 p.m. for anyone under 26 years old.	最佳进馆时间：每天上午9点这个开馆时间，除了周二（闭馆日）。午餐时间刚过，也就是下午1点左右，这座博物馆会人满为患。如果要在下午参观，你可以等到3点左右。周五晚间，博物馆会开至9点45分，不妨在这里度过一个有趣的夜晚，而且周五晚6点过后，任何年龄小于26岁的人都可以免票进入。
Getting there: Take the Métro to the Palais Royal - Musée du Louvre stop on the No. 1 or No. 7 line.	如何抵达：乘地铁1号线或7号线到卢浮宫博物馆站。
Avoid long lines: Purchase your tickets online and use the Passage Richelieu entrance. An escalator takes you directly into the entry hall.	避免排长队：在网上买好票，并使用黎塞留通道入口。一部电梯会把你直接带到门厅处。

<p>PLAN YOUR DAY</p>	<p>做好一天的规划</p>
<p>There are useful, introductory guided tours in English every day at 11 a.m. and 2 p.m. These "Welcome to the Louvre" tours will take you to the Louvre's great ladies: "Mona Lisa," "Winged Victory of Samothrace" and "Venus de Milo," as well as to a selection of other masterpieces that can vary depending on the guide. Tickets can only be arranged once you're at the museum and cost 12 euros, about \$13, (or €9 if you are under 26, and €5 for job seekers, people on income support, and visitors with disabilities and their aides).</p>	<p>每天上午 11 点和下午 2 点, 会有说英语的导游带队参观, 其讲解很有用处和指导性。这些“欢迎菜鸟游”会带你去见卢浮宫的几位女神——《蒙娜丽莎》、《萨莫色雷斯的胜利女神》(Winged Victory of Samothrace)和《米洛斯的维纳斯》(Venus de Milo), 还会带你去参观其他一系列精选出来的杰作, 具体是哪些则因向导的不同而各异。只有在馆中, 才能购买听讲解的票, 票价为 12 欧元, 约合 13 美元, (如果你的年纪小于 26 岁, 票价为 9 欧元, 针对失业者、领取低收入补贴者还有残疾人及其照看者的票价为 5 欧元)。</p>
<p>We don't particularly recommend the audio guide, which has rather dull information and can be frustrating to use, especially if you want to orient yourself or build your own walking tour through the museum. However, it does have a Nintendo feature that is fun for kids (see above). Try downloading the Louvre app (available on the App Store and Google Play); it works on Wi-Fi and can be used on a limited basis for free, but there is a charge if you want additional information (up to €4.99). Be sure not to download any unofficial Louvre app, which could contain inaccurate information, like incorrect locations for artworks.</p>	<p>我们不太建议你使用语音导览, 因为里面的信息比较枯燥无味, 用起来也很费事, 尤其是你在你想给自己定位, 或自己设计参观路线的情况下。不过, 它的确有一种任天堂游戏功能, 对小孩来说会比较有趣(详见上文)。可以下载卢浮宫的 app (App Store 和 Google Play 商店都有提供); 它需要在有 Wi-Fi 的环境下使用, 有些功能是免费的, 但如果你想要更多的信息, 就需要付费(最高 4.99 欧元)。一定不要下载任何非官方的卢浮宫软件, 里面可能会包含不准确的信息, 比如把艺术品所在的位置搞错。</p>
<p>The Wi-Fi works pretty well throughout the museum, except in the underground floors. There is no place to recharge your devices inside the museum, so bring a portable charger if you plan to stay awhile.</p>	<p>除了地下楼层, 整个博物馆内的 Wi-Fi 信号都很通畅。馆内没有给电子设备充电的地方, 所以如果你准备待的时间比较长, 记得带上便携充电器。</p>
<p>You'll find a lot of cafes throughout the museum in different departments, all of them offering simple sandwiches, paninis, drinks and treats. These can be enough to keep you going without needing to exit the galleries (which will cost you 20 minutes in any direction). We</p>	<p>你会发现博物馆内有许多咖啡馆, 他们分布在各个部分, 提供简单的三明治、意式帕尼尼三明治、饮品和零食, 足以解决你的饮食需求, 这样你就能一直逛下去, 不用到博物馆外去吃饭(不管从哪个方向出去, 都要花费 20 分钟)。我们向你推荐保罗咖啡馆的迷你乳蛋饼, 位置就在玻璃金字塔下方的中间场</p>

recommend the mini-quiches at Paul, the cafe in the central pavilion under the Pyramid.	馆内。
ON YOUR WAY OUT	出馆后的建议
For a splurge, and an excellent one indeed, exit the museum by the Richelieu Wing escalator and dine at the Le Café Marly, with an elegant terrace overlooking the glass pyramid. Lunch for two will easily set you back €100. (The salade niçoise is one of the best in the world). Or you can just do as the Parisians do and drop in after your visit for one of their famous hot chocolates with whipped cream. (They're nice for kids and adults alike).	奢侈一点的话——实际上是很棒的选择——可以乘黎塞留馆的自动扶梯出博物馆，在玛莉咖啡馆(Le Café Marly)用餐，那里有一座优雅的露台，可以眺望卢浮宫的玻璃金字塔。两人午餐，至少会花费 100 欧元（那里的尼斯沙拉是世界最好吃的之一）。或者，你也可以像巴黎人一样，在参观完博物馆之后顺路去点一杯那里有名的鲜奶油热巧克力（不管是对孩子还是成人来说，都很不错）。

Stephon Marbury Stars as Himself in Chinese Hoops Biopic	篮球明星马布里大银幕上扮演自己
The trailer begins with a basketball player in an empty locker room, head bowed in concentration. Portentous trailer music swells. That's followed by exciting basketball footage, including an on-court scuffle. The star is shown to run the gamut of emotions, his face at times contorted.	预告片的开头，一名篮球运动员待在空荡荡的更衣室里，专心致志地低着头。宏大的预告片配乐响起。随后是一串刺激的篮球比赛镜头，其中包括一次场上冲突。球星的种种情绪都被呈现出来，他的脸不时扭曲。
A mentor touches his chest and tells him, "You've got to believe in what's here."	一名教练触碰他的胸膛，告诉他，“你必须相信自己的心。”
It could be any Hollywood basketball movie. But it's "My Other Home," the Stephon Marbury story. And it stars Stephon Marbury as Stephon Marbury.	这可以是任何一部好莱坞篮球电影。但它是《我是马布里》(My Other Home)，斯蒂芬·马布里(Stephon Marbury)的故事。饰演斯蒂芬·马布里的是斯蒂芬·马布里本人。
"It was pretty interesting," said Marbury, the actor, by telephone from Shanghai. "It's something completely different, when the person's playing that person. When people look at me acting, they don't see	“非常有意思，”身在上海的演员马布里通过电话表示。“一个人饰演他本人，是某种完全不同的体验。人们看我表演时不觉得我是在扮演一个角色。他们不明白演这个角色是很复杂的事情。我其实不是在演自己，我是在演一个角

<p>someone playing a part. They don't understand that playing this role, it was complicated. I wasn't playing myself. I was playing a role."</p>	<p>色。”</p>
<p>Marbury, 40, has been a popular star in the Chinese basketball world since signing there in 2010. His American career had its ups and downs, often stalled by feuds and controversy. After stints with the Timberwolves, the Nets, the Suns, the Knicks and the Celtics, he rejuvenated his career in China with the Shanxi Zhongyu Brave Dragons and later the Beijing Ducks. He has also embraced Chinese culture. "It's just something about the serenity and peace of the country," he said not long after his arrival. "I can't really explain it; you've got to experience it."</p>	<p>马布里今年40岁，自从2010年与中国球队签约以来，他已经成为中国篮球界一个广受欢迎的明星。此前，他在美国的职业生涯起起落落，常常充满纠纷和争议。在为灰狼队(Timberwolves)、网队(Nets)、太阳队(Suns)、尼克斯队(Knicks)和凯尔特人队(Celtics)效力之后，他到中国重新开启了自己的职业生涯，先是加盟山西中宇猛龙队，然后是北京首钢队。他还张开双臂拥抱中国文化。“这个国家有种宁静平和的东西，”他抵达中国不久后表示。“我解释不清；你得自己去体验。”</p>
<p>His career soon expanded beyond the court. He wrote a column for China Daily. In 2014, he appeared in a musical, "I Am Stephon Marbury," that played in Beijing for 13 performances in front of 1,500 theatergoers a night.</p>	<p>他的职业生涯很快就拓展到球场之外。他为《中国日报》(China Daily)写过专栏。2014年，他出现在音乐剧《我是马布里》中，该剧在北京上演了13场，每场有1500名观众。</p>
<p>Now it's the silver screen. "My Other Home," directed by Larry Yang, was shown at the Shanghai Film Festival earlier this week.</p>	<p>现在他又登上了大银幕。由杨子导演的《我是马布里》于本周早些时候在上海电影节展映。</p>
<p>In English and Chinese, it tells the story of Marbury, focusing on his years in China. And it mostly sticks to the facts, Marbury said.</p>	<p>该片以中英两种语言讲述马布里的故事，重点描绘了他在中国这些年的经历。马布里说，它基本符合事实。</p>

<p>While Marbury modestly awards his own acting skills a “four or five,” he said: “Baron was like an eight or nine. He’s really good.”</p>	<p>马布里谦虚地给自己的演技打了“四或五分”, 但他表示: “拜伦有八或九分。他演得非常好。”</p>
<p>Looking to appeal to every demographic, the film also features Jessica Jung, a former member of the K-pop group Girls’ Generation, as Marbury’s manager.</p>	<p>为了尽可能地吸引各种受众群体, 片中马布里的经理人一角由韩国流行音乐天团少女时代(Girls’ Generation)前成员郑秀妍(Jessica Jung)扮演。</p>
<p>“The people loved the movie,” Marbury said after the festival. “This will give people an understanding about what happened. It’s inspirational. When you hear about a black guy with a statue in Beijing, they wonder how a foreigner comes to a country and receives all these high honors.”</p>	<p>“人们喜欢这部电影,” 马布里在参加电影节后表示。“它会让人们明白发生了什么。它很励志。当人们听说一个黑人在北京有了一座雕塑的时候, 他们会好奇一个外国人怎么就到了一个国家, 并获得了所有这些殊荣。”</p>
<p>There is indeed a statue of Marbury in Beijing. “People say it doesn’t look like me,” Marbury said. “But I know it does, because I know the face I made when they made the statue.”</p>	<p>在北京的确有一座马布里的雕塑。“人们说它看上去不像我,” 马布里说。“但我觉得挺像的, 因为我认出了他们制作雕塑时我做的表情。”</p>
<p>Athletes have appeared as themselves in movies before. Gary Cooper played Lou Gehrig in “Pride of the Yankees” but Babe Ruth played himself. Jackie Robinson starred in “The Jackie Robinson Story,” and the decathlete Bob Mathias in “The Bob Mathias Story.” At the very least, casting an athlete gives the sports action sequences verisimilitude.</p>	<p>运动员在电影中扮演其本人并非没有先例。《洋基之光》(The Pride of the Yankees)里, 鲁·贾里格(Lou Gehrig)由加里·库珀(Gary Cooper)饰演, 但饰演贝比·鲁斯(Babe Ruth)的是他本人。杰基·罗宾逊(Jackie Robinson)主演了《杰基·罗宾逊的故事》(The Jackie Robinson Story), 十项全能选手鲍勃·马蒂亚斯(Bob Mathias)则主演了《鲍勃·马蒂亚斯的故事》(The Bob Mathias Story)。至少, 运动员进入演员阵容会让片中的体育运动场景更为真实。</p>
<p>Marbury said there were differences between the N.B.A. and the Chinese Basketball Association beyond mere quality of play.</p>	<p>马布里说, 除了比赛质量, NBA 和 CBA 之间还有一些差异。</p>
<p>“It’s pretty simple.” he said. “The N.B.A. is man to man. In China, you can</p>	<p>“很简单,” 他说。“NBA 比赛是人盯人。在中国, 你可以进行 1-4 区域联防,</p>

play box and one, triangle. The defense is harder. You've got to know how to score. If guys can't score but are great shot blockers, they can make it in the N.B.A. In China, you've got to put it in the hole." And Marbury can certainly do that, averaging 21.4 points a game last season.	可以采取三角战术。防守更坚固。你得知道如何得分。无法得分但却擅长盖帽的球员在 NBA 可以获得成功。但在中国，你得把球送进篮筐。”而马布里当然能做到，上一赛季他平均每场得分 21.4 分。
Marbury and the Ducks have parted ways, and his plans next season are uncertain. But as for acting, the future is clearer.	马布里已经和北京首钢队分道扬镳，下一赛季的计划尚未确定。不过他在表演方面的未来则更为明朗。
"They're doing a sequel," he said. "I'm down for it."	"他们要拍续集，"他说。"我会加入。"

Chester Bennington, Linkin Park Singer, Is Dead at 41	摇滚乐队林肯公园主唱去世，疑似自杀
Chester Bennington, the ferocious lead singer for the platinum-selling hard rock band Linkin Park, has died. He was 41.	白金销量硬摇滚乐队林肯公园(Linkin Park)激情的主唱查斯特·本宁顿(Chester Bennington)去世，享年 41 岁。
Brian Elias, chief of operations for the Los Angeles County coroner's office, confirmed the death and said it was being investigated as a possible suicide. Elias said that law enforcement authorities responded to a call on Thursday shortly after 9 a.m. Pacific Time and were investigating a death in Palos Verdes Estates in Los Angeles County.	洛杉矶县验尸官办公室主任布莱恩·埃利亚斯(Brian Elias)证实了他的死亡消息，表示正在对此案以可能的自杀案件进行调查。埃利亚斯说，执法部门在太平洋时间周四晚上 9 点多一点接到报案电话后，前往洛杉矶县帕洛斯弗迪斯庄园市(Palos Verdes Estates)调查这起死亡事件。
Bennington, who was known for his piercing scream and free-flowing anguish, released seven albums with Linkin Park. The band's most recent record, "One More Light" arrived in May and debuted at No. 1 on the Billboard album chart. The band was scheduled to start a tour with a concert on July 27 in Mansfield, Massachusetts.	本宁顿以穿透性的尖叫和畅快表达痛苦情绪而闻名，他和林肯公园的成员发行了七张专辑。今年 5 月，该乐队新专辑《再多一点光》(One More Light)甫一发行，就成为公告牌专辑榜的冠军。该乐队还计划 7 月 27 日在马萨诸塞州曼斯菲尔德举行演唱会。

<p>In May, he responded to the suicide by hanging of his friend singer Chris Cornell in a note he shared on social media. “I can’t imagine a world without you in it,” he wrote. “I pray you find peace in the next life.” (Bennington also performed Leonard Cohen’s “Hallelujah” at the funeral; Cornell would have turned 53 Thursday.)</p>	<p>今年5月,他的朋友、歌手克里斯·康奈尔(Chris Cornell)上吊自杀后,他在社交媒体上写了一段话。“我无法想像没有你的世界,”他写道。“我祈祷你在来生中找到安宁。”(本宁顿还在葬礼上表演了伦纳德·科恩[Leonard Cohen]的《哈利路亚》[Hallelujah],本周四是康奈尔53岁冥寿。)</p>
<p>A week later, he posted a series of positive tweets. In one, he shared a photo of his daughter graduating from the University of San Diego. <p>Another Look at Princess Diana, With a Notable Difference</p>	<p>戴妃逝世 20 年, 威廉哈里王子拍纪录片追忆母亲</p>
<p>LONDON — Since the world awoke, on Aug. 31, 1997, to the news that Princess Diana had died at 36, after a paparazzi-fueled car crash in Paris, there have been hundreds of films, documentaries, biographies and tell-all memoirs about the shy young woman who became a global celebrity after marrying the heir to the British throne.</p>	<p>伦敦——自从 1997 年 8 月 31 日这一天, 世界惊悉戴安娜王妃为了躲避狗仔队在巴黎出车祸去世、享年 36 岁之后, 有关这个原本腼腆却在嫁给英国王位继承人后成为全球名人的年轻女子的电影、纪录片、传记和全盘揭秘的回忆录就数以百计。</p>
<p>On Monday, a new ITV documentary about Diana arrives on HBO, with one significant difference. Called "Diana, Our Mother: Her Life and Legacy," it is the first to feature Diana's two sons with Prince Charles, William and Harry, speaking about their mother as they look through family photographs, reminisce about their childhood and revisit the scenes of her charitable activities.</p>	<p>周一, 独立电视台(ITV)制作的一部有关戴安娜的新纪录片登陆 HBO。这部名为《我们的母亲戴安娜: 她的生平和影响》(Diana, Our Mother: Her Life and Legacy)的纪录片与其他作品有着显著的不同, 它是首部以戴安娜与查尔斯王子(Prince Charles)的两个儿子威廉(William)和哈里(Harry)为主角的纪录片。他们一边翻看家庭照、回忆童年生活并重温戴安娜参加慈善活动时的情景, 一边聊他们的母亲。</p>
<p>It's a coup for the producer Nicolas Kent and the director Ashley Gething, the team that made the documentary "Our Queen at 90" in</p>	<p>对制片人尼古拉斯·肯特(Nicolas Kent)和导演阿什利·格辛(Ashley Gething)来说, 这是一次重大胜利。他们两人团队的作品包括 2016 年的《我们 90</p>

<p>2016 (and previously collaborated with the historian Simon Schama on "Obama's America" and "Simon Schama's Shakespeare"). Although the princes, notably Harry, have been more open about their personal lives to the press than any royal figure since Diana herself, they have been reserved on the topic of their mother. "We've never spoken in depth about her in this way before, and we do not plan to do so again in the future," William said in his introduction to the film at a screening at Kensington Palace this month.</p>	<p>岁的女王》(Our Queen at 90) (之前还与历史学家西蒙·沙马[Simon Schama]合作过《奥巴马的美国》[Obama's America]和《西蒙·沙马的莎士比亚》[Simon Schama's Shakespeare])。尽管两位王子,尤其是哈里,已经比自戴安娜之后的其他任何王室成员都更愿意谈论个人生活,但在母亲这个话题上,两人一直保持缄默。“我们以前从来没有这样深入谈论过她,将来也不打算再这么做了,”威廉本月在肯辛顿宫(Kensington Palace)的放映活动上介绍这部纪录片时说。</p>
<p>The seeds of "Diana, Our Mother," were sown while filming "Our Queen at 90," Mr. Kent said in an interview with both him and Mr. Gething at his offices here. Having established good relationships with both William and Harry, they approached the palace about making a film centered on the two men. "We didn't know exactly what it would be," Mr. Gething said. "But through the course of various conversations on the earlier film, it became clear that they were picking up where their mother had left off with a number of charities. With the 20th anniversary of Diana's death approaching, we felt this would be timely."</p>	<p>肯特在他的办公室和格辛一起接受采访时说,《我们的母亲戴安娜》的种子,是在拍摄《我们90岁的女王》时种下的。在同威廉和哈里都建立起了良好的关系后,他们前往肯辛顿宫,提出拍摄一部以两位王子为主角的纪录片。“我们根本不知道片子会是什么样子,”格辛说。“但通过影片初期所做的各种交流,情况变得明朗起来,他们正在继续他们的母亲留下的大量慈善活动。随着戴安娜去世20周年纪念日的临近,我们觉得这个时机很合适。”</p>
<p>The princes agreed, and offered to show photographs from recently discovered albums created for them by Diana. The documentary opens with William, 35, and Harry, 32, looking at a photograph of a pregnant Diana holding her very small first son. "Believe it or not, you and I are both in this picture," William tells Harry. Then the camera cuts to Harry. "Arguably, probably a little bit too raw up until this point. It's still raw," he says.</p>	<p>两位王子同意了,并主动拿出最近发现的一些影集里的照片,那些影集都是戴安娜给他们做的。影片一开始,35岁的威廉和32岁的哈里盯着一张照片。照片上,已有身孕的戴安娜抱着当时还非常小的大儿子。“不管你信不信,我和你都在这张照片里,”威廉对哈里说。然后,镜头切到哈里。“可以说,可能直到这一刻还有些心痛。依然心痛,”他说。</p>
<p>It's a poignant moment that reveals the differences between the two</p>	<p>这是酸楚的一刻,揭示出两人之间的不同。威廉尽管对记忆开诚布公,但举</p>

<p>men. William, although candid about memories, is polished and circumspect, as he has presumably learned to be in his more exposed role as second in line to the throne. Harry is less guarded, more revealing. (Recently, he has publicly expressed his regret at waiting until the age of 28 to seek counseling to help deal with the trauma of losing his mother.)</p>	<p>止优雅谨慎，这大概是因为作为王位的第二顺位继承人，他曝光更多，所以学会了这样。哈里没有那么谨慎，更容易暴露自己的情绪（最近，他公开表示很后悔到 28 岁才寻求辅导，帮助治疗丧母造成的心理创伤）。</p>
<p>"It's really a film about love and memory, which makes it unusual as a royal film, which are often more about respect," Mr. Gething said. "It's about sadness and joy and loss. On the one hand it's very personal, but it's also universal; you can relate to the things they remember and talk about."</p>	<p>"其实这是一部关于爱和记忆的影片，这让它成了一部与众不同的王室影片，后者往往更多是关于尊敬，"格辛说。"它是关于悲伤、喜悦和失去的影片。一方面，它非常私人，但也很普遍；观众能理解、同情他们记起和说起的事情。"</p>
<p>Mr. Kent said that there were no topics deemed off-limits, nor was editorial approval demanded by the palace. (The princes' well-honed training in discretion, and the way Diana is lovingly shown through their eyes, probably made that unnecessary anyway.) The film moves in and out of the interview with the princes as it loosely sketches Diana's life. We see home movies of her as a child, the youngest daughter of the venerable aristocratic Spencer family, and photographs of a pretty, shy teenager, as friends from her early years recount their memories. "We wanted it to feel like a story from the inside, so deliberately didn't interview some of the people you might expect," Mr. Kent said.</p>	<p>肯特说，没有预设禁忌话题，肯辛顿宫也没有提出审片要求（好吧，可能是两位王子在谨言慎行方面的丰富训练和戴安娜在他们眼中爱意满满的形象，或许根本无需审片）。在大致勾勒戴安娜的一生期间，影片不断切入对两位王子的采访。在和戴安娜早年相识的友人述说各自的记忆时，我们能看到她作为德高望重的贵族斯潘塞家最小的女儿还是个孩子时的家庭影片，以及她出落成一个腼腆、漂亮的小姑娘后的照片。“我们想让影片给人一种幕后故事的感觉，所以故意避开了观众可能以为会出现的人，”肯特说。</p>
<p>Mr. Gething added: "There were not going to be biographers, prime ministers and royalty experts. Just the people who knew her and loved her best."</p>	<p>格辛接着说：“不会出现传记作者、首相和王室专家。只有最了解她，最爱她的人。”</p>
<p>The film largely ignores the scandal, media frenzy and speculation over</p>	<p>影片基本上忽略了有关戴安娜的丑闻、媒体炒作和猜测，以及查尔斯的婚外</p>

<p>Diana and Charles's infidelities, televised confessional interviews and subsequent divorce, although the princes offer stoic, sad memories of too much time spent in cars driving between their parents, and never seeing enough of either. The most moving part of the documentary has the princes discussing their memories of their last phone call with their mother, speaking from Paris, where she would die in a midnight car chase, as her driver tried to escape a horde of photographers following the car. "It's like an earthquake just run through the house and through your life and everything," Prince William said about learning of her death.</p>	<p>恋、在电视上接受采访时的坦白和后来的离婚，尽管两位王子隐忍地回忆了他们花大量时间乘车往返父亲和母亲的住所，并且从来没和两人中的任何一方长期相处的伤心经历。影片最感人的部分，是他们回忆母亲从巴黎打来的最后一通电话；因为司机试图摆脱一大群紧追不舍的摄影师，戴安娜在午夜的飞车追逐中去世。“就像一场地震，震动了整栋房屋、整个生活和一切，”威廉王子描绘得知母亲去世的感觉时说。</p>
<p>Mr. Gething and Mr. Kent said that given how many documentaries have been made about Diana, they didn't feel any obligation to be comprehensive or definitive. (These are as varied as the relatively sober "Diana: Queen of Hearts" and the more out-there "Conspiracy.") "A reference point for all our decisions was the idea that we were making a film that in years to come, the princes could show their children," Mr. Kent said.</p>	<p>格辛和肯特说，考虑到有关戴安娜的纪录片已经有很多了，他们觉得不必做到全面或权威（这些纪录片各不相同，从相对严肃的《黛安娜：我们心中的女王》[Diana: Queen of Hearts]到更加不同寻常的《阴谋》[Conspiracy]）。"我们所有决定的参照点都是，我们是在制作一部多年后，两位王子可能会放给他们的孩子看的影片，"肯特说。</p>
<p>The final section of the film focuses on Diana's charity work for the homeless, AIDS patients and land mine victims. It also shows the princes' sustained efforts to continue in her path, as they visit homeless shelters, comfort the bereaved and meet two Bosnian men who lost limbs in explosions, both of whom Diana visited a few weeks before she died, when they were teenagers.</p>	<p>影片的最后一部分聚焦戴安娜为无家可归者、艾滋病患者和地雷受害者所做的慈善工作。影片还介绍了两位王子为继续母亲的慈善事业所做的持续努力。他们走访流浪人员收容所、安慰逝者的亲人，并同两名在爆炸中失去四肢的波斯尼亚男子会面，戴安娜曾在去世前几周还探访过他们。那时，他们才十几岁。</p>
<p>What the documentary also shows is Diana's other important legacy: what Tina Brown describes in her 2007 biography, "The Diana</p>	<p>这部纪录片还介绍了戴安娜的另一个重要影响：蒂娜·布朗(Tina Brown)在她2007年的传记《戴安娜编年史》[The Diana Chronicles]中所写的“明白包</p>

Chronicles," as "the understanding of the power of the inclusive gesture." The new generation of royals clearly realizes that the remote, private world of their grandparents is a thing of the past in a new media age.	容姿态的力量”。新一代王室成员显然意识到，在新媒体时代，他们的祖母所处的那个遥远、私密的世界已经过去了。
It is uncanny, Mr. Gething said, to see how much like their mother they are when meeting people. "There is an informality, a personal touch, a sense of humor," he said. "It would be difficult to imagine in a pre-Diana age."	格辛说，发现他们在与人相处时多么像他们的母亲这一点令人感到不可思议。“有一种轻松的氛围、一种个人色彩和一种幽默感，”他说。“这在前戴安娜时代是难以想像的。”

Affirmative Action Battle Has a New Focus: Asian-Americans	哈佛被诉招生歧视亚裔，偏袒其他少数族裔
By most standards, Austin Jia holds an enviable position. A rising sophomore at Duke, Jia attends one of the top universities in the country, setting him up for success.	按照大多数标准，奥斯汀·贾(Austin Jia)的条件都很令人羡慕。他进入了美国顶尖大学之一杜克大学(Duke)，马上就要升入大二，这为他的未来成功打下了基础。
But with his high GPA, nearly perfect SAT score, and activities — debate team, tennis captain and state orchestra — Jia believes he should have had a fair shot at Harvard, Princeton, Columbia and the University of Pennsylvania. Those Ivy League colleges rejected him after he applied in the fall of 2015.	但是，凭借他的GPA（成绩平均绩点）高分，几乎完美的SAT（大学入学考试）成绩，以及在各种课外活动中的表现——辩论队成员、网球队长和州级乐团团员——贾认为，他有很大的机会进入哈佛、普林斯顿、哥伦比亚和宾夕法尼亚大学。他在2015年的秋季申请过这些常春藤盟校，但是没有被录取。
It was particularly disturbing, Jia said, when classmates with lower scores than his — but who were not Asian-American, like him — were admitted to those Ivy League institutions.	贾说，特别令人不安的是，成绩比他差的同班同学——但不是他这样的亚裔美国人——却被常春藤盟校录取了。
"My gut reaction was that I was super disillusioned by how the whole system was set up," Jia, 19, said.	"我的本能反应是，我对这整个体制非常失望，"19岁的贾说。
Students like Jia are now the subject of a lawsuit accusing Harvard of	像贾这样的学生，现在成为了一起诉讼的中心。起诉书指控哈佛大学在录取

<p>discriminating against Asian-Americans in admissions by imposing a penalty for their high achievement and giving preferences to other racial minorities.</p>	<p>学生时歧视亚裔美国人，对他们的优秀成绩施加惩罚，偏袒其他少数族裔。</p>
<p>The case, which is clearly aimed for the Supreme Court, puts Asian-Americans front and center in the latest stage of the affirmative action debate. The issue is whether there has been discrimination against Asian-Americans in the name of creating a diverse student body.</p>	<p>这个案子明显是要打到最高法院，它把亚裔美国人摆在了平权行动辩论最新阶段的重要位置。问题在于，是否存在这种现象——以打造多元化学生群体的名义，对亚裔美国人进行歧视。</p>
<p>The Justice Department, which has signaled that it is looking to investigate “intentional race-based discrimination in college and university admissions,” may well focus on Harvard.</p>	<p>司法部已经释放出信号，将对“高校录取工作中基于国际种族的歧视”展开调查，重点可能会放在哈佛大学。</p>
<p>The Harvard case asserts that the university’s admissions process amounts to an illegal quota system, in which roughly the same percentage of African-Americans, Hispanics, whites and Asian-Americans have been admitted year after year, despite fluctuations in application rates and qualifications.</p>	<p>哈佛这个案子的诉讼书称，该校的录取过程相当于一个不合法的配额制度，每年录取非裔美国人、西语裔美国人、白人和亚裔美国人比例大致相当，尽管申请率和生源质量有变化。</p>
<p>“It falls afoul of our most basic civil rights principles, and those principles are that your race and your ethnicity should not be something to be used to harm you in life nor help you in life,” said Edward Blum, the president of Students for Fair Admissions, the organization that is suing Harvard.</p>	<p>“这违背了我们最基本的民权原则，这些原则就是，你的族裔不应该被用来伤害你，也不应该被用来帮助你，”起诉哈佛的“大学生公平录取”(Students for Fair Admissions)组织总裁爱德华·布鲁姆(Edward Blum)说。</p>
<p>His group, a conservative-leaning nonprofit based in Virginia, has filed similar suits against the University of North Carolina at Chapel Hill and the University of Texas at Austin, asserting that white students are at a disadvantage at those colleges because of their admissions policies.</p>	<p>“大学生公平录取”是位于弗吉尼亚州的一个偏保守的非营利组织，曾对北卡罗来纳大学教堂山分校(University of North Carolina at Chapel Hill)和德克萨斯大学奥斯汀分校(University of Texas at Austin)提起过类似的诉讼，声称白人学生因录取政策而处于不利地位。</p>

<p>Melodie Jackson, a spokeswoman for Harvard, said that the university's admissions policy was fair; that it looked at each applicant "as a whole person," consistent with standards established by the Supreme Court; and that it promoted "the ability to work with people from different backgrounds, life experiences and perspectives."</p>	<p>哈佛发言人麦乐迪·杰克逊(Melodie Jackson)表示, 该校的录取政策是公平的; 它将每个申请者"视为一个整体", 遵循了最高法院确定的标准; 该校提倡"与不同背景、生活经历和观点的人合作的能力"。</p>
<p>Harvard's class of 2021 is 14.6 percent African-American, 22.2 percent Asian-American, 11.6 percent Hispanic, and 2.5 percent Native American or Pacific Islander, according to data on the university's website.</p>	<p>该校网站上的数据显示, 哈佛大学 2021 届学生中有 14.6%的非洲裔美国人, 22.2%的亚裔美国人, 11.6%的西语裔美国人, 以及 2.5%的美洲土著居民或太平洋岛民。</p>
<p>For the Harvard case, initially filed in 2014, Blum said, the federal court in Boston has allowed the plaintiffs to demand records from four highly competitive high schools with large numbers of Asian-American students: Stuyvesant High School in New York; Monta Vista High School in the Silicon Valley city of Cupertino, California; Thomas Jefferson High School for Science and Technology in Alexandria, Virginia; and the Boston Latin School.</p>	<p>哈佛一案最初是在 2014 年提交的, 布鲁姆表示, 波士顿联邦法院允许该原告到四所竞争激烈、拥有大量亚裔美国学生的高中提取数据。这四所高中分别是纽约斯泰弗森特高级中学(Stuyvesant High School)、加利福尼亚州硅谷库比蒂诺的蒙特维斯塔高中(Monta Vista High School)、弗吉尼亚州亚历山大的托马斯·杰斐逊科学技术高中(Thomas Jefferson High School for Science and Technology), 以及波士顿拉丁学校(Boston Latin School)。</p>
<p>The goal is to look at whether students with comparable qualifications have different odds of admission that could be correlated with race and how stereotypes influence the process. A Princeton study found that students who identify as Asian need to score 140 points higher on the SAT than whites to have the same chance of admission to private colleges, a difference some have called "the Asian tax."</p>	<p>提取资料的目的, 是要看看资格差不多的学生是否因为种族而导致在录取机会上的差异, 看看刻板印象如何影响录取过程。普林斯顿大学的一项研究发现, 亚裔学生的 SAT 成绩需要比白人高出 140 分, 才会获得同样进入私立院校的机会, 一些人称其为"亚裔税"。</p>
<p>The lawsuit also cites Harvard's Asian-American enrollment at 18 percent in 2013, and notes very similar numbers ranging from 14 to 18 percent at other Ivy League colleges, like Brown, Columbia, Cornell,</p>	<p>诉讼书还指出, 在 2013 年, 哈佛的亚裔美国人占学生总数的 18%, 而其他常春藤盟校, 如布朗、哥伦比亚、康奈尔、普林斯顿和耶鲁, 情况也非常相似, 这个比例在 14%至 18%之间。</p>

Princeton and Yale.	
<p>In contrast, it says, in the same year, Asian-Americans made up 34.8 percent of the student body at the University of California, Los Angeles, 32.4 percent at UC Berkeley and 42.5 percent at the California Institute of Technology. It attributes the higher numbers in the state university system to the fact that California banned racial preferences by popular referendum in 1996, though California also has a large number of Asian-Americans.</p>	<p>该组织说，在同一年份，亚裔美国人在加州大学洛杉矶分校(University of California, Los Angeles)的学生中占了 34.8%，在加州大学伯克利分校(UC Berkeley)占了 32.4%，在加利福尼亚理工学院(California Institute of Technology)占了 42.5%。该组织将该州大学系统中亚裔的高占比归结为加利福尼亚在 1996 年的全民投票中禁止种族偏好的做法，不过该州的亚裔美国人本来也多。</p>
<p>The data, experts say, suggests that if Harvard were forbidden to use race as a factor in admissions, the Asian-American admissions rate would rise, and the percentage of white, black and Hispanic students would fall.</p>	<p>专家说，数据表明，如果禁止哈佛把族裔作为录取的考量因素，该校亚裔美国学生的比例就会上升，而白人、黑人和西语裔学生的比例会下降。</p>

<p>Rachael Ubiera, a 25-year-old in Kissimmee, Fla., considers herself "one of the relaxed moms." But the first time she saw her 5-month-old daughter, Zoe, carefully dropped underwater in a pool for infant survival swim training, it was nerve-racking. "She looked surprised," Ubiera says. "Like, 'What are you doing to me?'" Zoe was being introduced to "self-rescue," in which babies are taught to hold their breath underwater, kick their feet, turn over to float on their backs and rest until help arrives. The technique, photographed here by Seth Casteel, who is working on a related book that will come out next spring, was pioneered in the late '60s by Harvey Barnett, who at 18 became determined to teach infants to swim after the drowning of a neighbor's child. His methods have spread around the world – taught in clinics and imitated widely. "It gives the baby the best possible chance," he says. Tracking Axact's Websites	Axact 旗下疑似虚假教育网站列表
Axact's immensely profitable empire is centered on its network of hundreds of websites. The stars are the sites for fictitious high schools and universities – some have names and details evoking the appearance of American or British schools, others of Persian Gulf-region institutions.	聚敛了大量利润的 Axact 帝国的核心, 是它旗下由数百家网站组成的网络。其中的摇钱树是一些虚构的高中和大学的网站——有些学校的名称和详细信息让人联想起美国或英国的学府, 还有一些则像是波斯湾地区的研究机构。
Critical support for the scheme comes from a host of dedicated Internet search portals, and a smaller list of dummy accreditation bodies meant to put potential customers at ease by giving Axact's fake schools a more credible appearance.	这个骗局获得的最关键的支持, 来自大量致力于此事的互联网搜索门户网站, 以及少量的虚假鉴定机构。后者会让 Axact 的假学校看起来更加可信, 从而打消潜在客户的疑虑。

Some of the details came from interviews with former employees of Axact, who identified roughly 50 sites, along with servers used by the company and blocks of custom website coding it developed.	以下是《纽约时报》分析过的部分网站的列表。时报认定, 它们很可能与 Axact 在巴基斯坦卡拉奇的业务有关。一些细节信息来自对 Axact 前雇员的采访。他们提供了大约 50 个网站的名单、这家公司使用的服务器, 以及它所开发的大量定制网站编码。

Apple Names New China Head as Its Sales Fall	销售萎缩之际, 苹果任命大中华区主管
SHANGHAI — Apple has just created what is likely to be one of the toughest jobs in tech: managing director of greater China.	上海——苹果公司刚刚设立了可能是技术行业中最棘手的职位之一: 大中华区主管。
The company said in a statement on Tuesday that a longtime manager, Isabel Ge Mahe, would step into the newly established position based in Shanghai.	公司周二在一份声明中表示, 长期担任经理的葛越(Isabel Ge Mahe)将出任这个设在上海的新职位。
Ms. Ge Mahe, a Mandarin speaker born in China with an extensive background in engineering, will have her work cut out for her.	葛越在中国出生, 会说普通话, 有广泛的工程背景, 她对这项工作将需要一个适应过程。
She takes the helm of the China operations as Apple's dominance in one of its most important markets has become increasingly uncertain. In recent quarters, its sales in the country have struggled — for the	葛越担任苹果公司中国业务负责人之时, 正值该公司最重要的市场之一的主导地位已变得越来越不确定之际。苹果在中国的销售业务最近几个季度一直比较艰难, 在 4 月 1 日截止的季度里下滑了 14%, 部分原因是来自一系列国

<p>Apple's huge successes in China have also left it more vulnerable to new rules that Beijing has set up to push back against foreign companies. Apple said this month that it would cooperate with a local company to build its own data center in the country, in part to satisfy the requirements of a new cybersecurity law. And experts say the law is just the beginning of further restrictions on foreign companies like Apple.</p>	<p>苹果在中国的巨大成功也使得公司在北京的新法规面前显得更为脆弱，这些新法规的目的就是挤压外国企业。苹果在本月表示，它将与一家本地公司合作，在中国建立自己的数据中心，这部分是为了满足新《网络安全法》的要求。专家们表示，该法仅仅是进一步限制苹果这样的外国公司的开端。</p>

<p>W.H.O. Promises Reform After Criticism Over Ebola Response</p>	<p>世卫组织承诺将提高应对大规模疫情能力</p>
<p>After criticism that it was slow and ineffective in the crucial early months of the Ebola crisis, the World Health Organization said Monday that it would overhaul the way it deals with epidemics.</p>	<p>外界曾批评世界卫生组织(World Health Organization)在埃博拉危机爆发的最初几个月行动缓慢, 没有在那段关键时期发挥作用。该组织在周一表示, 他们将会改变应对流行病的方式。</p>
<p>"The world, including W.H.O., is ill prepared for a large and sustained disease outbreak," the organization said in a statement by Dr. Margaret Chan, its director general, and by its deputy director and regional directors.</p>	<p>世卫组织总干事陈冯富珍博士(Margaret Chan)、副总干事和各区域主任发表声明称, "包括世卫组织在内, 全世界对处理一场大规模持久疾病疫情准备不足。"</p>

<p>"We commit to expanding our core staff working on diseases with outbreak potential and health emergencies, so we will have skilled staff always available," the statement said. <p>The statement said the health organization would also try to build up more expertise in community engagement, "informed by anthropology</p>	<p>声明称, 该卫生组织还会努力在社区参与方面积累专业知识, "去参考人类学和其它社会科学"。</p>

and other social sciences.”	
More than 10,000 people in Sierra Leone, Guinea and Liberia have died of Ebola in the current outbreak, which has infected more than 25,000 people since December 2013, according to the agency. Critics have said the W.H.O. was slow to mobilize, had difficulty with coordination and ran into significant problems with public mistrust in the affected countries.	据该组织透露，在利比里亚、塞拉利昂和几内亚肆虐的埃博拉疫情已经造成至少 1 万人死亡，自 2013 年 12 月以来，已有逾 2.5 万人感染埃博拉病毒。批评人士称，世卫组织迟迟没有开展动员，协调方面存在问题，而且在受影响的国家遭遇了重大的公众信任问题。
The statement said the organization favored stronger international health regulations that would require member countries to prepare for outbreaks, and a new system to independently verify whether countries were in compliance.	声明称，该组织将强化国际卫生法规，会要求成员国为应对疫情爆发做好准备，建立新机制，以独立核实各个成员国是否遵守条例。
Though it was made public on Monday, the statement was dated April 16. A spokesman for the organization said it had emerged from a regular meeting of its top policy makers.	虽然这份声明是在周一公布的，但声明发表时间是 4 月 16 日。世卫组织发言人表示，声明是在高层决策者举行例会期间发表的。
Experts said that although the statement recognized a need for change at the highest level of the organization, drafting concrete plans was harder and had only just begun.	专家们表示，虽然该声明认识到世卫组织高层需要进行改革，但制定具体计划会比较困难，一切只是刚刚开始。
The organization’s executive board, made up of representatives of 34 member states, issued a unanimous resolution in January calling on the W.H.O. to improve its capacity to detect, and respond effectively to, outbreaks and other health emergencies. In March, Dr. Chan named a panel of outside experts to review the organization’s response to Ebola. That panel is still at work.	由 34 个成员国组成的世卫组织执行委员会在今年 1 月一致通过并发布了一项决议，呼吁世卫组织提升发觉能力，有效应对疫情爆发和各种突发卫生事件。今年 3 月，陈冯富珍指定了一个外部专家小组，去评估该组织在应对埃博拉疫情方面的表现。
The top decision-making body at the agency, the assembly of representatives of its 194 member countries, is scheduled to meet next	该组织的最高决策机构——由 194 个成员国的代表组成的世界卫生大会——将于下个月举行年度会议，会议将最终批准该组织的预算方案。

month in an annual session that includes final approval of the agency's proposed budget.	
Since the Ebola outbreak revealed weaknesses at the agency, proposals have been circulated to set up a new body to take over parts of its core mission, including crisis response. The first version of the statement released to reporters on Monday included a response to those proposals. "Some have said the world needs a new organization to be created," it said. "We agree, and we want W.H.O. to be that organization."	由于埃博拉疫情的爆发揭露了该组织的弱点，有人建议成立新机构来接管包括危机应对在内的部分核心任务。该组织周一发给记者的第一版声明还包括对这些建议的回应。“有人说需要创立一个新组织，”声明称。“我们同意，我们希望这个组织就是世卫组织。”
An hour later, though, that version was replaced with a "correct" version that omitted those sentences, without explanation.	但一个小时后，世卫组织在没有给出解释的情况下，发布“修正版本”代替第一版声明，新版声明删除了上述表述。
Also missing from the final version was perhaps the most acute recognition of the W.H.O.'s failings: "We have learned lessons of humility," the earlier draft had said.	最终声明还删除了可能是对承认世卫组织的缺陷的最明确表述，第一版声明称，“我们认识到，应该慎重对待。”

Changes Coming for Health Care in China and Cuba	医疗制度变革中的中国和古巴
Two countries that are models of effective public health intervention, China and Cuba, have recently embarked on important policy changes, leaving some experts wondering whether citizens will be left worse off.	中国和古巴是有效实施公共卫生干预措施的模范国家，但最近它们开始进行一些重大的政策调整。一些专家想知道，这是否会给两国的公众带来不利影响。
In September, Cuba and the Obama administration began moving closer to normalized relations, which may expose Cuba's vaunted medical system to powerful new market pressures. In October, China renounced its one-child policy, under which most families were forbidden to have more than a single child.	今年9月，古巴和奥巴马政府开始向关系正常化迈进，而这可能给古巴引以为豪的医疗制度带来巨大的市场压力。而在10月，中国取消了禁止大多数家庭拥有多个孩子的独生子女政策。
Both countries enshrine health care as a fundamental right.	这两个国家均把医疗奉为一项基本权利。

<p>Cuba is a well-known anomaly: so poor that it is barely able to feed its people, yet able to equal or beat the United States in two important health indicators — life expectancy and child mortality.</p>	<p>古巴是一个众所周知的反常例子：该国非常贫困，只能勉强让公众糊口，但却仍然在两个重要的健康指标上击败了美国——预期寿命和婴幼儿死亡率。</p>
<p>The nation has 30,000 family doctors and 500 local clinics, and every Cuban sees a doctor at least once a year. Former Senator Bill Frist of Tennessee, a doctor, visited last year and praised aspects of Cuba’s primary care system, saying it “harkens back to the days of family physicians making house calls armed only with their deep personal patient knowledge and their stethoscope.”</p>	<p>古巴拥有 3 万名家庭医生和 500 间地方诊所，每个古巴人每年至少看一次医生。来自田纳西州的前联邦参议员比尔·弗里斯特(Bill Frist)是一名医生，去年访问古巴时，他对该国初级医疗系统的一些方面赞赏有加，说它“让人回想起当年，家庭医生在出诊的时候，依靠的只有听诊器和自己对病人的深入了解。”</p>
<p>In the last decade, Cuba has sent thousands of doctors on overseas aid missions. They have treated 3.5 million patients. During last year’s Ebola outbreak in West Africa, one American-built hospital was staffed by Cubans.</p>	<p>在过去的十年里，古巴派出数以千计的医生参加海外援助任务。他们治疗的病患达 350 万人。去年的埃博拉疫情在西非肆虐的时候，美国援建的一家医院里的工作人员就是古巴人。</p>
<p>China, too, has made enormous strides. As the nation turned itself into the world’s factory town, the megacities intended to house millions of workers were built with water and sewer pipes, screened windows, air-conditioning and nearby hospitals — amenities mostly missing in the farm villages the workers came from.</p>	<p>中国也取得了巨大的进步。随着中国把自己打造成世界工厂，特大城市容纳了数以百万计的工人。那里建有供水和排污管道，安装了纱窗、空调，而且附近就有医院——而在工人的农村老家地区，很多都没有这样的设施。</p>
<p>Clean water reduces deaths from cholera, dysentery and a dozen other intestinal pathogens. Stopping mosquitoes and flies reduces deaths and disability from malaria, yellow fever, trachoma, leishmaniasis and more.</p>	<p>有了清洁饮水，霍乱、痢疾等十多种肠道病原体导致的死亡案例减少了。蚊蝇的消灭，也降低了疟疾、黄热病、沙眼、利什曼等病的死亡率和致残率。</p>
<p>Whenever epidemiologists talk about how much the world has improved in the last 20 years — millions fewer children dying, being stunted by worm disease or living without running water — they usually have to add: “Of course, most of that progress was in China.”</p>	<p>每当流行病学家谈到全球在过去 20 年中取得的进步时——因肠虫病或生活在没有自来水的地方而死亡或发育不良的儿童人数减少了成百上千万——他们通常不得不上：“当然，这样的进步主要发生在中国。”</p>

Chinese researchers now routinely publish work in top medical journals. In 2003, China crushed its exploding SARS outbreak and in 2009 largely held off the swine flu pandemic while scientists brewed a vaccine.	中国的科研人员现在经常在顶级医学杂志发表成果。2003年，中国抑制了非典疫情的爆发，2009年，中国又在科学家忙于研制猪流感疫苗的时候在很大程度上阻止了这种疾病的大规模流行。
Yet public health interventions in both countries have often had a coercive edge.	然而，这两个国家的公共卫生干预措施往往带有强制色彩。
When Mao decreed a campaign to wipe out rural worm diseases, authorities mixed deworming drugs into salt. Health teams arrived in Chinese villages with soldiers and ordered families to bring their salt to the public square. It was washed away with fire hoses and replaced.	当年毛泽东发起一场运动，要消灭农村的肠虫病，于是当局把驱虫药物混在盐中。卫生队与军人一起去往中国各地的乡村，命令各家各户把食盐带到广场上。然后他们用消防水管冲走那些食盐，再把混了药的盐分给大家。
To stem its SARS outbreak, China closed every school and most large venues in Beijing. To keep the swine flu at bay, it escorted all foreign visitors with fevers off planes into quarantine.	为了抑制非典疫情，中国关闭了北京的所有学校和大多数大型场馆。为了控制猪流感，所有乘机抵达中国的外国游客如有发热症状，一概被送入隔离区。
Cuba relied on harsh methods, too, to suppress its AIDS epidemic — and with great success.	古巴也是依靠严厉的手段抑制了艾滋病的流行——并取得了巨大成功。
Until 1993, H.I.V.-positive Cubans were forced to live in bungalow colonies. Even now, at mandatory annual checkups, patients find it hard to avoid tests for sexually transmitted diseases if the doctor thinks they are warranted.	在1993年之前，艾滋病毒检测呈阳性的古巴人会被迫住在专门的平房区。即便是现在，在强制进行的年度体检中，如果医生认为有必要做性传播疾病检测，患者也很难逃避。
Experts are just beginning to debate the effects of changing policies on public health in these two countries.	对于这两个国家的政策变化将给公共卫生带来怎样的影响，专家们的辩论才刚刚开始。
China has almost a fifth of the world's population. The one-child policy, in place since 1980, has averted an estimated 400 million births.	中国人口占全世界的近五分之一。从1980年开始实施的独生子女政策避免了大约4亿人口的降生。
It also lowered child mortality. One infant doted on by parents and grandparents is far more likely to survive than one of five children — to	这也导致了婴幼儿死亡率的降低。受到父母和祖父母悉心照料的独生子女，如果患上肺炎之类的疾病，被送去看医生而存活下来的可能性，要远远高于

be taken to a doctor for pneumonia, for instance.	五个孩子的家庭。
Even after ending the one-child policy, China is very likely to hold onto its gains in public health, said Dr. Christopher J.L. Murray, director of the Institute for Health Metrics and Evaluation at the University of Washington.	克里斯托弗·J·L·默里(Christopher J.L. Murray)是华盛顿大学健康指标和评估研究所(Institute for Health Metrics and Evaluation)的所长。他认为,即使在取消独生子女政策之后,中国在公共卫生方面已经获得的改善也很有可能保持下去。
China's "blistering rate of decline" in child mortality resulted more from new wealth than from low birthrates, Dr. Murray said.	默里博士表示,相比于低出生率,中国婴幼儿死亡率"迅猛下降"更多是因为有了新的财富。
Over the last 25 years, according to a study by the institute and China's Center for Disease Control and Prevention, the gross domestic product went from \$60 per capita to \$6,800. Health improved most in the wealthiest cities, despite drawbacks like the air pollution that has plagued Beijing.	该研究所和中国疾病预防控制中心共同进行的一项研究显示,过去25年,中国人均国内生产总值从60美元增长到6800美元。在最富裕的那些城市,健康状况改善最为明显,尽管这类地方也存在一些弊端,诸如困扰北京的大气污染。
Also, because of exceptions for ethnic groups and rural families, the real birthrate was never just one child per woman, but closer to 1.7. While there may be some pent-up demand for more children, fertility "is almost a one-way street," Dr. Murray said. Once countries prosper, fallen birthrates rarely rise again.	而且,因为少数民族和农村家庭不受独生子女的限制,真实的出生率从来不是平均每个女性生育一个子女,而是更接近平均1.7个。虽然存在一些受到压抑的多胎需求未来可能会释放,但默里称,生育率的变化"几乎可以说是一条单行道"。一旦国家繁荣起来,已经下降的出生率很少会再度上升。
Cuba's path is a little harder to predict.	古巴的未来则更加难以预测。
The island protects children so well that it could improve only in neonatal intensive care, Dr. Murray said. An end to the United States' economic embargo could help Cuba's hospitals receive the advanced equipment they desperately need, along with new drugs for cancer and other illnesses.	默里博士表示,这个岛国对儿童的保护非常之好,在这方面只剩下新生儿重症监护可以进一步提高。美国的贸易禁令解除后,或将有助于古巴医院获得他们急需的先进医疗设备,还有治疗癌症等疾病的新药。
Cuba also has medical products to sell, including meningitis vaccines, a drug for diabetic foot ulcers and a lung cancer treatment, said Gail	在古巴一家医学杂志担任编辑的美国人、古巴医学教育合作项目(Medical Education Cooperation With Cuba)创始人盖尔·里德(Gail Reed)表示,古巴

Reed, the American founder of Medical Education Cooperation With Cuba and editor of a medical journal there.	也有医疗产品可以对外销售，包括脑膜炎疫苗、一种用于治疗糖尿病足部溃疡的药物和一种肺癌的疗法。
But ending the embargo also poses serious risks.	但解除贸易禁令也会带来重大风险。
The primary care doctors Cuba's system depends on are poorly paid, even though salaries tripled recently. Earlier this month, the Cuban government reinstated a requirement that doctors traveling outside the country receive a special permit. The nation has lost thousands of doctors since 2013, the government said.	尽管最近已经涨了两倍，但古巴的医疗系统依赖的初级保健医师的薪水依然很低。本月早些时候，政府重新要求古巴医生在去往海外时要获得特别批准。政府表示，自 2013 年起，古巴已经流失数千名医生。
And prosperity itself brings risks. In Mexico, obesity, diabetes and heart disease soared as incomes rose; Cuba could face the same fate. The nation's doctors do not manage blood pressure or cholesterol aggressively, and its cancer death rates are about equal to those in the United States.	繁荣本身也会带来风险。在墨西哥，随着人们收入增加，肥胖症、糖尿病和心脏病患病人数也激增；古巴可能也会面临同样的命运。古巴的医生不太注意控制血压和胆固醇，该国癌症死亡率也很快会和美国持平。
"Cuba's whole system has historically focused on top-quality outcomes for kids and mothers," Dr. Murray said. "There's not much emphasis on managing chronic disease in adults."	"在过去，古巴整套医疗系统集中于给孩子和母亲提供最高品质的医疗成果，"默里说。"他们不太重视控制成人的慢性疾病。"

New Weapon to Fight Zika: The Mosquito	对抗兹卡病毒的新武器：以蚊攻蚊
Every weekday at 7 a.m., a van drives slowly through the southeastern Brazilian city of Piracicaba carrying a precious cargo – mosquitoes. More than 100,000 of them are dumped from plastic containers out the van's window, and they fly off to find mates.	每个工作日的早晨 7 点，一辆载有宝贵货物的货车会从巴西东南部城市皮拉西卡巴缓缓驶过，里面装满了蚊子。塑料容器中的逾 10 万只蚊子会被从货车窗户放出。它们会飞走，去寻找配偶。
But these are not ordinary mosquitoes. They have been genetically engineered to pass a lethal gene to their offspring, which die before they can reach adulthood. In small tests, this approach has lowered	但这些不是普通的蚊子。它们经过遗传工程处理，会将一种致死基因传给后代，如此一来，这些蚊子还没成年就会死亡。在小型试验中，这种方式将蚊子数量减少了 80% 或更多。

mosquito populations by 80 percent or more.	
The biotech bugs could become one of the newest weapons in the perennial battle between humans and mosquitoes, which kill hundreds of thousands of people a year by transmitting malaria, dengue fever and other devastating diseases and have been called the deadliest animal in the world.	这种生物科技细菌可能会成为人类与蚊子之间的持续斗争中的最新武器。通过传播疟疾、登革热及其他恶劣疾病，蚊子每年杀死数以十万计的人类，因此被称为世界上最致命的动物。
"When it comes to killing humans, no other animal even comes close," Bill Gates, whose foundation fights disease globally, has written.	"论及杀人，没有什么动物能与蚊子相提并论，"比尔·盖茨(Bill Gates)曾写道。盖茨的基金会在全球开展抵抗疾病的项目。
The battle has abruptly become more pressing by what the World Health Organization has called the "explosive" spread of the mosquito-borne Zika virus through Brazil and other parts of Latin America. Experts say that new methods are needed because the standard practices — using insecticides and removing the standing water where mosquitoes breed — have not proved sufficient.	世界卫生组织(World Health Organization)称蚊媒传播的兹卡病毒在巴西及拉丁美洲的其他地方出现"爆炸式"传播，从而使这场斗争突然变得更加紧迫。专家们表示，需要新方法，因为事实证明，使用杀虫剂及清除蚊子赖以繁衍的积水等常用作法不够有效。
"After 30 years of this kind of fight, we had more than two million cases of dengue last year in Brazil," said Dr. Artur Timerman, an infectious disease expert in São Paulo. "New approaches are critically necessary."	"在经过30年的斗争后，巴西去年还出现200万例登革热病例，"圣保罗传染病专家阿图尔·蒂莫尔曼(Artur Timerman)说。"新方法是极其必要的。"
But the new efforts have yet to be proved, and it would take some years to scale them up to a meaningful level. An alternative to mosquito control, a vaccine against Zika, is not expected to be available soon.	但新举措的效果还有待证明，尚需要几年的时间将这些措施扩展至能产生切实作用的水平。相对于控制蚊虫的方式，另一个选择就是预防兹卡病毒的疫苗，但那不会很快面世。
So for now, experts say, the best modes of prevention are to intensify use of the older methods of mosquito control and to lower the risk of being bitten using repellents and by wearing long sleeves.	专家们表示，迄今为止，最好的预防方式就是加强使用传统的蚊虫控制方式，通过喷洒防虫剂、穿长袖衣服，降低被蚊子叮咬的风险。
Women are being advised to not get pregnant and to avoid infested areas if pregnant, since the virus is strongly suspected of causing babies	相关人员建议女性不要怀孕，如果怀孕就要避开蚊子活动的区域，因为人们强烈怀疑这种病毒导致婴儿出生时头部小得不正常，大脑受损。

<p>to be born with abnormally small heads and damaged brains.</p>	
<p>One old method that is not getting serious attention would be to use DDT, a powerful pesticide that is banned in many countries because of the ecological damage documented in the 1962 book "Silent Spring." Still, it is being mentioned a bit, and some experts defend its use for disease control.</p>	<p>滴滴涕(DDT)是一个没有得到重视的旧方法，这种强效杀虫剂在很多国家遭禁，因为 1962 年出版的《寂静的春天》(Silent Spring)记录了这种杀虫剂导致的生态破坏情况。但这种方法多少被提到了，一些专家为利用这种杀虫剂控制疾病的做法进行了辩解。</p>
<p>"That concern about DDT has to be reconsidered in the public health context," said Dr. Lyle R. Petersen, director of the division of vector-borne diseases at the Centers for Disease Control and Prevention. He said the damage to fish and wildlife stemmed from widespread outdoor use of DDT in agriculture, not the use of small amounts on walls inside homes to kill mosquitoes.</p>	<p>"从公共卫生方面来看，对滴滴涕的这一担忧需要重新考虑，"美国疾病控制与预防中心（Centers for Disease Control and Prevention，简称 CDC）媒介疾病部主任莱尔·R·彼得森博士(Lyle R. Petersen)说。他表示，有害于鱼类和野生动物的是农业领域在室外广泛使用滴滴涕的做法，而不是向室内墙壁喷洒少量滴滴涕来消灭蚊子的行为。</p>
<p>Other experts say the old methods can work if applied diligently.</p>	<p>其他一些专家表示，如果坚持使用，老办法可以产生效果。</p>
<p>"We've had great success using old methods for the last 50, 60 years," said Dr. Peter J. Hotez, dean of the National School of Tropical Medicine at the Baylor College of Medicine. "We just need to be very aggressive and exercise political will."</p>	<p>"我们在过去五六十年中使用老方法取得了巨大成功，"美国贝勒医学院国家热带疾病学院(National School of Tropical Medicine the Baylor College of Medicine)院长彼得·J·霍特兹博士(Peter J. Hotez)说。"我们只需要非常积极地行动，践行政治意愿。"</p>
<p>The main mosquito that transmits Zika virus — and also dengue, chikungunya and yellow fever — is Aedes aegypti, a particularly wily foe.</p>	<p>传播兹卡病毒——及登革热、基孔肯雅热和黄热病——的主要蚊子是埃及伊蚊。这是一种特别狡猾的对手。</p>
<p>It prefers urban areas and bites mainly people, making it very efficient at spreading disease. It bites in the day, so bed nets, a common way to protect people against the night-biting malaria mosquitoes, have little effect. It breeds in small containers of water, such as flower pots, cans and tires that collect rainwater.</p>	<p>埃及伊蚊喜欢城市地区，主要叮咬人类，因此可以十分有效地传播疾病。这种蚊子在白天叮咬，所以蚊帐这种预防夜间遭到疟蚊叮咬的常用方式几乎没什么效果。埃及伊蚊在小容器的水中就能繁殖，比如花盆、饮料罐和积了雨水的轮胎。</p>

<p>"I've seen Aedes aegypti merrily breeding in discarded soda caps," said Joseph M. Conlon, technical adviser to the American Mosquito Control Association.</p>	<p>美国控蚊协会(American Mosquito Control Association)技术顾问约瑟夫·M·康伦(Joseph M. Conlon)说, "我看到埃及伊蚊可以欢快地在汽水瓶盖里繁殖。"</p>
<p>Aedes aegypti is found in the southern part of the United States, so public health authorities say there will be some local transmission of Zika in this country, though it will be far less serious than in Latin America. Dr. Petersen of the C.D.C. said he envisioned "almost a SWAT team approach" in which resources would be rapidly deployed to areas of local transmission to control mosquitoes using conventional methods.</p>	<p>埃及伊蚊在美国南部有分布, 因此公共卫生部门表示, 兹卡病毒会在美国进行局部传播, 但远没有拉丁美洲严重。CDC 的彼得森博士表示, 他设想的是"一种几乎与特警部队差不多的方法", 将资源迅速部署至局部传播的地区, 利用传统方式控制蚊虫。</p>
<p>The genetically engineered Aedes aegypti mosquitoes were developed by Oxitec, a British company, to fight dengue, but would also work to curtail the spread of Zika.</p>	<p>通过遗传工程处理埃及伊蚊的技术由英国的 Oxitec 公司研发, 目的是对抗登革热, 但也可以用来遏制兹卡病毒的传播。</p>
<p>Since last April, the mosquitoes have been released in one neighborhood of Piracicaba populated by about 5,000 people. By the end of 2015, there was a reduction in wild mosquito larvae — as opposed to larvae inheriting the lethal gene — of 82 percent, the company said.</p>	<p>自去年 4 月以来, 技术人员在皮拉西卡巴的一个大约有 5000 人口的社区释放这种蚊子。该公司表示, 到 2015 年底, 野生子嗣——相对于遗传了致死基因的子嗣——减少了 82%。</p>
<p>But critics worry about the long-term effects of releasing genetically modified organisms. Oxitec has run into public opposition to a proposed test in the Florida Keys.</p>	<p>不过, 批评人士担心释放转基因生物体可能带来长期影响。Oxitec 提议在佛罗里达群岛开展试验, 但遭到公众反对。</p>
<p>A Brazilian commission that oversees genetically engineered organisms declared the Oxitec mosquitoes safe to release into the environment in 2014. But Oxitec still does not have a license from Brazil's health regulators that would allow it to actively market its approach to</p>	<p>巴西的一个负责监管基因工程生物体的委员会在 2014 年宣告, Oxitec 的蚊子可以安全地释放到环境中。但公司仍未获得巴西卫生监管部门授予的许可证, 有了该许可证, 它才可以积极向巴西各大城市推销这种方式。</p>

Brazilian cities.	
Still, said Hadyn Parry, the company's chief executive, with the outbreak of Zika, "We've had a huge amount more interest from different municipalities."	然而，随着兹卡疫情的爆发，公司首席执行官哈迪恩·帕里(Hadyn Parry)表示，“一些市政当局对此兴趣猛增。”
Another approach, being tested in one Rio de Janeiro neighborhood, is to infect the mosquitoes with Wolbachia, a bacterium that does not infect them naturally. Once infected, the mosquitoes do not pick up and transmit viruses as easily.	里约热内卢的一个地区正在试验另一种方式，即向蚊子体内注入沃尔巴克氏菌。蚊子并不会自然感染这种细菌，不过一旦感染上，它们就不会轻易携带并传播病毒了。
The bacteria can be passed to the next generation through eggs, so they spread through the mosquito population.	这种细菌可以通过卵传给下一代，因此能够在蚊子种群中传播。
"The beauty of it is it is a sustainable method — once you put it out it sustains itself in the environment and gives ongoing protection," said Scott O'Neill, dean of science at Monash University in Australia. He is the leader of Eliminate Dengue, a Wolbachia project supported by the Bill & Melinda Gates Foundation and others.	“这种方法好就好在它的可持续性，一旦释放，就可以在环境中延续下去，不断给予保护，”澳大利亚莫纳什大学(Monash University)科学院院长斯科特·奥尼尔(Scott O'Neill)说。他是“消除登革热”(Eliminate Dengue)项目的带头人。该项目利用沃尔巴克氏菌，获得了比尔及梅琳达·盖茨基金会(Bill and Melinda Gates Foundation)等机构的支持。
Tests are now underway in Indonesia and Vietnam to see if the technique can reduce the number of people getting dengue fever.	印度尼西亚和越南正在开展试验，看看这种技术能否减少登革热患病人数。
Dr. Paulo Gadelha, president of the Oswaldo Cruz Foundation, a scientific institute under the Brazilian Ministry of Health, said initial results in his country were good and there were plans to try it on a larger scale, in Niterói, a municipality across Guanabara Bay from Rio.	巴西卫生部旗下科研机构奥斯瓦尔多·克鲁兹基金会(Oswaldo Cruz Foundation)的主席保罗·贾德勒哈博士(Paulo Gadelha)表示，在他们国家开展的试验的初步结果较好，有在尼泰罗伊进行更大规模试验的计划。这座自治市与里约隔着瓜纳巴拉湾相望。
"We are planning to scale this up," he said. "The mayor has already agreed."	“我们计划扩大规模，”他说。“市长已经同意了。”
A new and even more powerful tool may be gene drives, which are genetic mechanisms that rapidly propagate a trait through a wild	一种新的乃至更加强大的工具或许是基因驱动技术。这种遗传机制可以在野生种群中迅速传播一种性状。就在过去几个月中，科学家们在实验室中进行

population. Just in the last few months, scientists have made gene drives that work in mosquitoes in the laboratory.	了作用于蚊子的基因驱动。
Anthony A. James, a professor at the University of California, Irvine, said it would be straightforward to use a gene drive to spread something like a sterility trait through the Aedes aegypti population to kill them off.	加州大学欧文分校(University of California, Irvine)教授安东尼·A·詹姆斯(Anthony A. James)表示,通过基因驱动在埃及伊蚊群体中传播不育性状以消灭蚊子的做法直截了当。
"We have all the blueprints and have demonstrated proofs of principle," he said. "It's just public will to do this."	"我们掌握了蓝图,也展示了相关原理的证据,"他说。"就看公众愿不愿意这么做了。"
The public might not be ready to deploy gene drives outside the laboratory because once a new trait is let loose to spread through the population, it would be difficult to reverse it if something went wrong.	公众可能还没准备好在实验室外进行基因驱动,因为一旦新性状得以在生物种群中传播,如果出了问题,就很难逆转。
Dr. Petersen of the C.D.C. said of all the new approaches, "We don't know about the efficacy of any of them on a wide enough scale." He added, "For now, we've got to deal with what we have."	提到这些新方法时,CDC的彼得森博士说,"我们并不知道大规模使用其中任何一种方法的功效。"他还表示,"目前,我们需要用手头的方法来加以应对。"

Zika May Increase Risk of Mental Illness, Researchers Say	兹卡病毒或可增加精神疾病风险
A baby with a shrunken, misshapen head is surely a heartbreaking sight. But reproductive health experts are warning that microcephaly may be only the most obvious consequence of the spread of the Zika virus.	生出一个头部萎缩、畸形的婴儿肯定是让人伤心的情景。但生育卫生专家警告称,小头畸形症可能只是兹卡(Zika)病毒蔓延最为明显的一个后果。
Even infants who appear normal at birth may be at higher risk for mental illnesses later in life if their mothers were infected during pregnancy, many researchers fear.	许多研究人员担心,即使是出生时看来正常的婴儿,如果他们的母亲在妊娠期间感染了兹卡病毒,他们一生中患上精神疾病的风险也更高。
The Zika virus, they say, closely resembles some infectious agents that have been linked to the development of autism, bipolar disorder and schizophrenia.	他们表示,兹卡病毒与一些经研究与自闭症、双相情感障碍、精神分裂症的发展有关的致病因子,存在紧密的相似性。
Schizophrenia and other debilitating mental illnesses have no single	专家在采访中强调,精神分裂症及其他严重影响生活的精神疾病,并非只有

The conditions are thought to arise from a combination of factors, including genetic predisposition and traumas later in life, such as sexual or physical abuse, abandonment or heavy drug use.</p>	<p>单一的原因。这些病情被认为是由一系列因素引发的，包括遗传特质和生活 中的创伤，例如性虐待、生理虐待、遭到遗弃或大量用药。</p>
<p>But illnesses in utero, including viral infections, are thought to be a trigger.</p>	<p>但子宫中的疾病，包括病毒感染，被认为是一个触发条件。</p>
<p>“The consequences of this go way beyond microcephaly,” said Dr. W. Ian Lipkin, who directs The Center for Infection and Immunity at Columbia University.</p>	<p>“它的后果远远超出了小头畸形，”哥伦比亚大学感染与免疫研究中心主任 W·伊恩·李普金(W. Ian Lipkin)说。</p>
<p>Among children in Latin America and the Caribbean, “I wouldn’t be surprised if we saw a big upswing in A.D.H.D., autism, epilepsy and schizophrenia,” he added. “We’re looking at a large group of individuals who may not be able to function in the world.”</p>	<p>在拉丁美洲和加勒比地区的儿童中，“如果看到注意力缺陷多动障碍 (ADHD)、自闭症、癫痫和精神分裂症大幅增多，我不会感到惊讶的，”他补充道。“我们谈的是一大群可能在世界上无法正常生活工作的个人。”</p>
<p>Researchers in Brazil are investigating thousands of reports of microcephalic births. While there is no solid proof that Zika virus is the cause, virologists studying the outbreak strongly suspect it.</p>	<p>巴西的研究人员正在研究数千份小头畸形新生儿的报告。尽管还没有确凿的证据，但是研究疫情的病毒专家强烈怀疑起因就是兹卡病毒。</p>
<p>Although the virus was discovered in 1947, there has been no research into its long-term consequences. Scientists are left to draw inferences from what is known of similar infections.</p>	<p>尽管这种病毒是在 1947 年发现的，但其长期后果并没有得到过研究。科学家只能借助其他相似传染病的已知情况进行推论。</p>
<p>In interviews, psychiatric researchers specializing in fetal development agreed with Dr. Lipkin’s pessimistic prognosis.</p>	<p>在采访中，专门研究胎儿发育的精神病学研究人员认同了李普金的悲观预测。</p>
<p>A viral attack early in pregnancy can kill a fetus or stunt the growing brain, producing microcephaly, they explained. An infection later in the fetus’s development, when the brain is nearly fully formed, can do damage that is less obvious but still significant.</p>	<p>他们解释道，妊娠早期受到病毒感染，可能会扼杀胚胎或抑制生长中的大脑，从而导致小头畸形。如果在胚胎发育后期，大脑几乎完全形成时感染，可能会造成没那么明显但仍然很严重的损害。</p>

<p>"It is pretty scary," said Dr. Urs Meyer, a behavioral neurobiologist at the Swiss Federal Institute of Technology in Zurich who studies the consequences of fetal infections in lab animals. "These problems are on a continuous scale, and whether you end up with autism or schizophrenia is complex — and we really can't predict it."</p>	<p>"挺吓人的，"瑞士苏黎世联邦工学院(Swiss Federal Institute of Technology in Zurich)行为神经生物学家于尔·梅耶(Urs Meyer)说。“这些问题在一个连续的量表上，你最终是不是会患上自闭症或精神分裂症是很复杂的问题——我们实际上也并不能预测。”梅耶研究的是实验室动物胚胎感染的后果。</p>
<p>Evidence has increased for years that mental illnesses may be linked to exposure during pregnancy to viruses like rubella, herpes and influenza, and to parasites like Toxoplasma gondii.</p>	<p>多年来，有越来越多的证据显示，精神疾病或许与妊娠期间暴露于风疹、疱疹、流感等病毒，以及弓形虫等寄生虫有关。</p>

<p>In the 1964-65 rubella epidemic, about 20,000 newborns suffered consequences, including 11,000 born deaf, 3,500 born blind — and at least 1,800 in whom mental problems were later diagnosed.</p>	<p>在1964年至1965年风疹疫情爆发期间，大约有2万名新生儿承受了后果，其中包括1.1万个婴儿出生时即耳聋，3500个出生时即眼盲，他们当中至少有1800人后来被诊断出精神问题。</p>
<p>That epidemic infected an estimated 12 million Americans. More than 500 million people live in the countries of Latin America and the Caribbean to which the World Health Organization has predicted that Zika will spread.</p>	<p>那次的疫情大约影响了1200万美国人。世界卫生组织预计兹卡病毒将会在拉美和加勒比海国家传播，那里的总人口超过5亿。</p>
<p>Pathologists in Ljubljana, Slovenia, who dissected a microcephalic fetus aborted at 32 weeks by a European woman who had become pregnant in Brazil reported last week that they found "severe fetal brain injury associated with ZIKV infection with vertical transmission" — meaning the Zika virus had come from the mother's infection.</p>	<p>斯洛文尼亚卢布尔雅那的病理学家解剖了一名欧洲妇女在妊娠32周时堕胎的胎儿遗体。这名妇女是在巴西怀孕的。专家们报告，他们发现了“与垂直传播的ZIKV感染相关的严重胎儿脑损伤”，这意味着兹卡病毒是由于母亲感染而传给胎儿的。</p>
<p>But a pathogen may not even have to reach the fetus to cause damage.</p>	<p>但即使病原体不接触到胎儿，也能造成损害。</p>

<p>The girls had spent the year since their birth facing each other like mirror images they could not escape. Identical twins joined at the belly, each had two arms and two legs, individual hearts and digestive tracts, but they shared a liver. Blood pumping through one also flowed through the other.</p>	<p>在这对孪生姐妹诞生后一年的时间里，她们只能面对着面，好像在照镜子。她们是腹部连体的同卵双胞胎，各有两只胳膊和两条腿，有各自的心脏和消化道，但共用一个肝脏。一个女孩体内流过的血液，也流过另一个女孩的身体。</p>
<p>They could stand with their mother's help, sometimes posing cheek-to-cheek, other times draping their arms around each other's neck as if slow dancing. Now, shortly after their first birthday, they had traveled from their poor town in Pakistan to oil-rich Saudi Arabia for a rare and risky separation surgery that would radically change their lives.</p>	<p>在母亲的帮助下，她们可以站起来，有时会脸颊贴脸颊，有时候会把手臂绕过对方的脖子，如同跳慢舞的姿势。现在，在她们第一个生日之后不久，这对孪生姐妹从巴基斯坦的贫穷小镇来到盛产石油的沙特阿拉伯，进行罕见而危险的分离手术，这将彻底改变她们的生活。</p>

<p>"I still have doubts, and I am scared," said their father, Nisar Ghani, 45, as the doctors wheeled the girls, Fatima and Mishal, toward the operating room. "In the end, it is all up to God."</p>	<p>"我仍然有些怀疑，感到很害怕，"当医生将法蒂玛(Fatima)和米沙勒(Mishal)姐妹推进手术室的时候，她们的父亲、45岁的尼萨尔·加尼(Nisar Ghani)表示。"终归得由神来决定。"</p>
<p>The operation, on March 26, was part of a long-running Saudi program to separate conjoined twins who come from poor families around the world. Dr. Abdullah Al-Rabeeah, the surgeon who leads the program, said that since 1990 it had performed 40 procedures for families from 20 countries – on three continents – who could not otherwise afford the costly operations. That included 34 separations like Fatima and Mishal's; two "sacrifice" operations, as Dr. Rabeeah described them, in which an ailing twin was removed so the other could live; and four that excised extra body parts from individual children.</p>	<p>手术是在3月26日进行的。沙特在开展一个长期计划，为世界各地的贫困家庭分离连体双胞胎，这个手术就是计划的一部分。主管这个计划的外科医生阿卜杜拉·拉比耶(Abdullah Al-Rabeeah)表示，自1990年以来，他们已完成了40台手术，患者来自三个洲的20个国家，都是无力承担昂贵手术费用的家庭。其中包括34台类似于法蒂玛和米沙勒这样的分离手术；有两台是拉巴哈所说的"牺牲式"手术，即牺牲双胞胎中的其中一个，以便让另一个活下来；还有四台手术，是切除孩子多余的身体部位。</p>
<p>The program has not widely reported its work in scientific journals; Dr. Rabeeah said 70 of its 74 patients were still alive.</p>	<p>该计划尚未在科学期刊中获得广泛报道；拉比耶表示，总共74名患者中有70人目前依然在世。</p>
<p>Dr. James O'Neill, a professor of pediatric surgery at Vanderbilt University Medical Center who has also separated large numbers of conjoined twins, said he did not know much about the Saudi program. "On a surface level, it sounds quite valid," he said.</p>	<p>范德比尔特大学医学中心(Vanderbilt University Medical Center)的小儿外科教授、医生詹姆斯·奥尼尔(James O'Neill)也实施过不少连体婴分离手术，他表示自己不太了解沙特阿拉伯的这个项目。但经过一番探究之后，他表示这个项目似乎是世界上规模最大的此类项目之一。"从表面看，它似乎是相当有效的，"他说。</p>
<p>Success, he noted, should be measured not only by survival rates, but also by the causes of death for patients who did not make it, and the quality of life for those who did.</p>	<p>他指出，这种手术的成功不应该只以存活率衡量，还应考虑没能活下来的病人的死因，以及存活下来的病人的生存质量。</p>

<p>"It is a unique, rare anomaly that draws the attention of society and of anyone who wants to help, and I have become enormously attached to it," said Dr. Rabeeah, 66, a grandfatherly Canadian-trained surgeon who has become something of a national hero.</p>	<p>"它是一种非常独特和罕见的异常现象，会吸引社会 and 所有想施以援手的人注意，我对此倾注了许多的热情，"66岁的拉比耶说道，这位在加拿大接受过医学训练的医生面容慈祥，已经成了某种民族英雄般的人物。</p>

<p>For the Ghani family, from the Swat Valley in Pakistan, the twins' birth had been a mix of joy and trauma. Mr. Ghani said that he had left school in eighth grade to help his father farm, then came to Saudi Arabia to work, while his wife, Leena, stayed in Pakistan with their first three daughters, now 9, 7 and 4.</p>	<p>对来自巴基斯坦斯瓦特山谷(Swat Valley)的加尼一家来说，双胞胎的出生既带来了欢乐，也带来了打击。尼萨尔称自己在上八年级时辍学，在父亲的农场帮忙，后来又来沙特阿拉伯工作，妻子莱纳(Leena)则留在巴基斯坦照顾他们的前三个女儿。这三个孩子现在分别为9岁、7岁和4岁。</p>

<p>The couple were overjoyed when Ms. Ghani became pregnant with twins because they thought it gave them a better chance of having a son, Mr. Ghani said. <p>Mr. Ghani returned from Saudi Arabia to search for a solution to a condition some of his neighbors saw as divine punishment.</p>	<p>一些邻居认为这是上天的惩罚。为了寻求解决办法，尼萨尔从沙特阿拉伯回到家中。</p>
<p>"Me and my family were worried that the people around us would not know how to react," he said.</p>	<p>"我和家人担心周围的人不知道会作何反应，"他说。</p>
<p>The family eventually found a hospital in Islamabad that could care for but not separate the girls, who were becoming harder to manage as they grew. <p>"Sometimes they fight and sometimes they embrace," Ms. Ghani said.</p>	<p>"有时候会打架，有时候又会互相拥抱，"莱纳说。</p>
<p>Eventually, a Pakistani doctor wrote to Dr. Rabeeah. The family flew to Riyadh early last month.</p>	<p>最后，巴基斯坦的一名医生给拉比耶写了一封信。于是，加尼一家于上月初飞赴利雅得。</p>

The nurses burst into applause.	护士们爆发出了热烈的掌声。
Then, for the first time in their lives, the girls were placed on separate beds. The team sewed them up, and plastic surgeons gave each one a belly button. Dying Infants and No Medicine: Inside Venezuela's Failing Hospitals	委内瑞拉医院危机：缺水断电中的绝望与死亡
BARCELONA, Venezuela — By morning, three newborns were already dead.	委内瑞拉，巴塞罗那——上午时分，已经有三个新生儿死去了。

China and India Burdened by Untreated Mental Disorders	调查发现中国和印度急需心理健康服务
The growing burden of untreated mental disorders in the world's two most populous countries, India and China, cannot be adequately addressed without changes to their health care systems and by training folk healers to become collaborators, a new report has found.	一项新报告发现, 世界上人口最多的两个国家, 印度和中国, 面临越来越严重的精神疾患得不到治疗的问题。如果两国不改进医疗卫生体系, 不培训民间治疗师协助治疗, 那么这个问题将无法得到充分解决。
The analysis, published as a part of a series in the journals The Lancet and The Lancet Psychiatry, draws on years of medical surveys in those countries. It represents the latest effort by an international coalition of researchers to put mental health care at the center of the global health agenda; last month, the World Bank and the World Health Organization convened hundreds of public officials, doctors and other specialists in a	这项分析基于对这两国的多年医学调查, 是发表在《柳叶刀》(The Lancet)和《柳叶刀精神病学》(The Lancet Psychiatry)上的一系列论文的一部分。它代表着一个国际研究者联合行动的最新努力, 想把心理卫生推向全球医疗服务日程的核心位置。上个月, 世界银行(World Bank)和世界卫生组织(World Health Organization)召集数百名官员、医生和其他专家在华盛顿举行了一次具有重要意义的会议, 集中讨论全球精神健康问题。

<p>landmark meeting in Washington to focus attention on global mental health.</p>	
<p>The new research, presented in three papers, found that less than 10 percent of people in India and China with a mental disorder received effective treatment, and that the resulting burden of disability from those two countries was higher than in all Western countries combined.</p>	<p>这项最新调查以三篇论文呈现,它发现印度和中国的精神疾病患者中只有不到10%接受过有效治疗,导致这两国的残障负担高于所有西方国家的总和。</p>
<p>“India and China together represent more than a third of world’s population, and both countries are at a remarkable stage of epidemiologic and demographic transition,” said a co-author of one of the papers, Dr. Vikram Patel, a professor of international mental health and co-founder of a community-based mental health center, Sangath, in Goa State in India, in a recorded interview accompanying the articles.</p>	<p>“印度和中国的人口总和超过世界人口的三分之一,而且这两个国家都处于流行病学和人口结构的重要转型期,”其中一篇论文的联合作者维克拉姆·帕特尔博士(Vikram Patel)在与这些论文同时发布的采访录音中说。他是一名国际精神健康教授,也是印度果阿邦社区精神健康中心 Sangath 的联合创始人。</p>
<p>One lesson, experts not involved in the research said, is that investment is still lagging well behind spending on other medical conditions. Both countries spend less than 1 percent of their total medical budget on mental health.</p>	<p>没有参与这项调查的专家们说,其中一个原因是在这方面的投资仍远远落后于针对其他疾患的投资。这两个国家在精神健康方面的花费只占医疗总预算的不到1%。</p>
<p>“I think politicians and service planners will find this research valuable,” said Dr. Alex Cohen, the course director of the global mental health program at the London School of Hygiene & Tropical Medicine. “But if you don’t have the resources to treat more than 2 percent of the people who need it,” then the overall burden can seem overwhelming.</p>	<p>伦敦卫生与热带医学院(London School of Hygiene & Tropical Medicine)的全球精神健康科目课程主管亚历克斯·科恩博士(Alex Cohen)说,“我认为,政治家和公共服务规划者会发现这项调查很有价值。但是,如果不动调足够的资源去治疗超过2%的需要治疗的人”,那么总体负担就可能显得难以应付。</p>
<p>In the past decade, both India and China have taken steps to expand access to mental health care. In China, a government program started in 2004 reportedly has trained 10,000 psychiatrists and built hundreds</p>	<p>过去10年,印度和中国都采取措施普及精神健康服务。据报道,中国政府2004年启动了一个项目,培训了1万名精神科医生,建立了上千个社区精神健康中心,有些人认为这是改善精神病治疗方面的一项历史性投资。印度</p>

An Indian government program to increase care in communities has effectively reduced hospital costs, in some areas, though implementation has been spotty at best, experts said.</p>	<p>政府的一个旨在增加社区医疗服务的项目在一些地区有效降低了去医院的成本，尽管专家们说项目执行水平最多只能说是参差不齐。</p>
<p>But particularly in rural areas, the majority of people in both countries still have little means or access to psychiatrists or therapists.</p>	<p>但是，两国的多数人口依然几乎没有接受精神病医生或心理治疗师服务的能力或途径，尤其是农村地区。</p>
<p>“Very few Chinese with common mental illnesses such as depression and anxiety ever seek treatment,” Dr. Michael Phillips, of Shanghai Jiao Tong University and Emory University, said in a statement. “ And the country as a whole is ill prepared for the coming epidemic of dementia as the population ages rapidly.”</p>	<p>“患有抑郁症或焦虑症等常见精神疾病的中国人极少寻求治疗，”上海交通大学和埃默里大学(Emory University)的迈克尔·菲利普斯博士(Michael Phillips)在一份声明中说，“随着人口快速老化，这个国家总体来说没有准备好迎接即将到来的认知障碍症大面积发作问题。”</p>
<p>One group of practitioners that is very accessible — and one the researchers said policy makers should consider potential allies — include traditional healers, herbalists and spiritual guides. In China, many doctors get some training in traditional healing arts, like herbal treatments, acupuncture and qigong. In India, likewise, many doctors incorporate yoga, and Ayurveda medicine.</p>	<p>有一群行医者普通人很容易接触到的，包括传统治疗师、草药医生和性灵导师。研究者称，政策制定者应该考虑与这群人合作。在中国，很多医生接受过一些传统治疗方法的培训，比如草药治疗、针灸和内功。印度也是这样，很多医生把瑜伽和阿育吠陀医学融入治疗。</p>
<p>A collaboration makes good sense for another reason, the researchers wrote: “In view of the popularity of traditional, complementary and alternative medicine, it is likely that even if sufficient biomedical mental health services were available, people would continue to access other therapeutic systems.”</p>	<p>研究者们写道，需要协作的另一个原因是：“考虑到传统的、补充性的、替代性的医学的受欢迎程度，即便提供足够的生物医学精神健康服务，人们依然很可能会继续从其他治疗体系中寻求帮助。”</p>
<p>Yet the evidence that medical doctors and folk healers can work together to provide effective mental health care is scarce, experts said.</p>	<p>但是专家们说，西方医师和民间治疗师携手合作有效治疗精神疾病的案例很少。前不久，尼日利亚伊巴丹大学(University of Ibadan)的奥耶·居雷耶博士</p>

<p>A recent review of the role of traditional healing for mental disorders, led by Dr. Oye Gureje of the University of Ibadan in Nigeria, found that healers “have more readily adopted conventional psychiatric diagnoses such as depression or anxiety” than disorders like schizophrenia or bipolar disorder, which are thought to be spiritual in nature by the healers. And in some developing countries, traditional healers routinely use shackles, isolation and fasting – methods that “might fail to meet widespread understandings of human rights and humane care,” the paper concluded.</p>	<p>(Oye Gureje)领导了一项研究，评估传统疗法对精神疾病治疗的作用。研究发现，治疗师们“更容易接受抑郁症或焦虑症之类的传统的精神病诊断”，而不容易接受精神分裂症或躁郁症，他们认为这些疾病从本质上讲是有关性灵的。论文还指出，在有些发展中国家，传统治疗师经常使用手铐脚镣、隔离和禁食等方法，这些方法“可能违背人们对人权和人道关怀的普遍理解”。</p>
<p>The growing burden detailed in the new papers was due largely to aging and population growth. Some diagnoses, like attention deficit disorder in China, declined between 1990 and 2013; others, like dementia and abuse of drugs and alcohol have risen. For reasons no one understands, suicide rates have fallen sharply in China in that time, and risen steadily in India.</p>	<p>新论文中详细描述的不断增大的负担主要是由于人口老化和人口增长。从1990年到2013年，一些病症的诊断（比如注意力缺失症）在中国减少；也有些症状增多了，比如认知障碍症以及滥用药物和酗酒。这一时期，中国的自杀率大幅降低，而在印度却稳步上升，原因不得而知。</p>

<p>The images tell a heartbreaking story: Zika’s calamitous attack on the brains of babies – as seen from the inside.</p>	<p>这些图片讲述了一个令人心碎的故事：从大脑内部观察兹卡病毒对婴儿大脑的灾难性损害。</p>
<p>With a macabre catalog of brain scans and ultrasound pictures, a new study details the devastation done to 45 Brazilian babies whose mothers were infected with Zika during pregnancy. The study, published Tuesday in the journal Radiology, is the most comprehensive collection of such images so far, and it reveals a virus that can launch assaults beyond microcephaly, the condition of unusually small heads</p>	<p>通过一系列令人毛骨悚然的脑部扫描和超声波影像，一项新的研究详细展示了45名巴西婴儿的大脑遭遇的损伤。她们的母亲在怀孕期间曾感染兹卡病毒。周二发表于《放射学》(Radiology)杂志的这项研究，是此类影像收集中最全面的，揭示了一种可以在引发小头畸形之外造成其他损伤的病毒。小头畸形是头异常小的一种症状，已经成为受兹卡病毒侵害的典型特征。</p>

<p>that has become the sinister signature of Zika.</p>	
<p>Most of the babies in the study were born with microcephaly, but many of them also suffered other impairments, including damage to important parts of the brain: the corpus callosum, which connects the two hemispheres of the brain; the cerebellum, which plays a significant role in movement, balance and speech; the basal ganglia, which are involved in thinking and emotion.</p>	<p>这项研究中的婴儿出生时大多都有小头畸形症, 不过他们中有不少也遭受了其他损伤, 包括大脑重要部分的损伤: 连接两个大脑半球的脑胼胝体; 对运动、平衡和速度至关重要的小脑; 以及与思维和情绪有关的基底神经节。</p>
<p>"It's not just the small brain, it's that there's a lot more damage," said Dr. Deborah Levine, an author of the study and a professor of radiology at Harvard Medical School in Boston. "The abnormalities that we see in the brain suggest a very early disruption of the brain development process."</p>	<p>"不只是脑袋小, 还有许多其他损伤, "这项研究的作者之一、位于波士顿的哈佛医学院(Harvard Medical School)放射学教授黛博拉·莱文(Deborah Levine)博士说。"我们在大脑中看到的异常表明对大脑发育的阻碍出现得非常早。"</p>
<p>The findings also raised worrisome concerns about whether babies born without such obvious impairments could develop brain damage as they grow. For example, almost all the babies in the study had problems in the cortex, including clumps of calcium and neurons that did not reach the right location in the brain. Because the cortex keeps developing after birth, Levine said, "we're concerned that there might be mild cases that we haven't seen yet, and we should keep monitoring the babies after birth to see if they have cortical abnormalities."</p>	<p>这项发现引发了这样的担忧, 即出生时没有此类明显损伤的婴儿, 是否会随着生长出现脑损伤。比如, 参与研究的婴儿的脑皮层几乎都存在问题, 包括无法到达大脑正确方位的钙和神经元出现聚集。莱文表示, 因为脑皮层在出生后会持续生长, "我们担心可能存在我们还没有发现的轻度损伤, 我们应该在这些婴儿出生后对他们进行持续的监测, 以判断他们是否存在脑皮层异常。"</p>

<p>Running for Adventure on Hong Kong's MacLehose Trail</p>	<p>奔跑吧，兄弟，在香港奇幻冒险的山道上！</p>
<p>We had a long way to go, so I began with a jog. My brother Neil fell in place one stride behind me. The path ahead wound its way around the foot of the mountains. To our right, one of Hong Kong's most beautiful bays, Long Ke Wan, lapped against the orange clay banks. We ran easily, talking about what we always do when we go for runs — college and friends, backpacking trips, the run ahead and the runs we'll go on in the future.</p>	<p>我们前面的路还很长，所以我以小跑开始。我的兄弟尼尔(Neil)在身后一步远的地方紧跟着我。前边的小道在山脚下迂回盘绕。我们的右边是香港最美的海湾之一浪茄湾，那里的海水不断拍打着橙色粘土的海岸。我们轻松地跑着，谈着我们跑步时总在谈论的话题——大学和朋友、背包旅行、前面要跑的路，以及将来要去跑步的地方。</p>
<p>The air carried that fresh, morning quiet that is present in Hong Kong only during the winter, when the skies are clear and the temperature crisp and pleasant. By summertime, humidity will climb to 99 percent, and the cicadas will be a pulsing roar. As we ran through the stillness Neil echoed my thoughts: "Save the music for later."</p>	<p>空气中那种清新的、早晨的安静，只是在香港的冬天才有，这里的冬天天空清澈，温度清爽宜人。夏天，这里的湿度能高达 99%，一阵阵的蝉声震耳欲聋。我们在宁静中前行，尼尔和我产生了同样的想法：“把音乐留到以后听。”</p>
<p>The MacLehose Trail is 100 kilometers through the mountains along the northern border of Hong Kong. It's divided into 10 stages, beginning with a concrete path leading to spectacular seaside cliffs and white beaches. The trail carves through jungle, and cuts up and over mountain peaks with shrubbery reminiscent of that found in dry regions of Southern Italy. The MacLehose has been named one of the best hikes in the world by National Geographic, and every October, hundreds of ultramarathon runners converge here and compete to</p>	<p>麦理浩径在香港北部边界地区的山脉中穿行，全长 100 公里，分为 10 段，刚开始是水泥小道，最终通往壮观的海边悬崖和白色海滩。这条步道穿越丛林、翻山越岭，山上的灌木丛令人联想起意大利南部干旱地区经常看到的那些。《国家地理》杂志曾把麦理浩径评为世界最佳步道之一，每年 10 月，数百名超级马拉松选手聚集这里举行比赛，希望在 48 小时内完成整个赛程。</p>

<p>finish the entire course in 48 hours.</p>	
<p>It was winter break, and my brother and I were home from our first semester of college in the United States. We grew up in Hong Kong, and had never been so far from home for so long. In a week, we'd make the 16-hour return trip to school. "Let's do something memorable," I said. "We should run the MacLehose Trail."</p>	<p>这是放寒假的时候，我和兄弟在美国大学念完了第一个学期，刚回到家里。我们在香港长大，从未在离家那么远的地方住那么长的时间。一周后，我们将踏上 16 小时的行程返回学校。“让我们做点难忘的事情吧，”我说。“我们应该去麦理浩径跑步。”</p>
<p>There are actually three of us. I have two brothers — Neil and Russell — and we are triplets, born one minute apart. Natural triplets occur in about one of 8,000 births. But as fraternal triplets, we are no more similar to each other than siblings of separate births. My brothers have black hair, mine is brown. I'm 5-foot-4 and Neil is 6-foot-1.</p>	<p>我们其实是三个人。我有两个兄弟——尼尔和罗素(Russell)——我们是三胞胎，以一分钟的间隔出生。自然受孕三胞胎的发生概率是 8000 分之一。然而，作为从三个不同卵子发育出来的三胞胎，我们的相似之处，与不同胎出生的兄弟姐妹没有什么不同。我兄弟的头发是黑色的，我的头发是棕色的。我身高 1 米 63，尼尔身高 1 米 85。</p>
<p>And although we shared the same womb, we have completely different interests. Russell taught himself computer science and has a black belt in taekwondo. Neil does physics research and grew up playing baseball. I love biology and creative writing.</p>	<p>我们虽然曾同胎，却有着完全不同的兴趣。罗素自学了计算机科学，跆拳道打到黑带水平。尼尔研究物理，是打棒球长大的。我则喜欢生物学和创意写作。</p>
<p>But Neil and I share a love of running. Throughout middle school and high school, I ran track and cross country, competing in Beijing, Shanghai and Guangzhou. For fun, I would run along the reservoir hiking trails outside our home. When baseball season was over, Neil would join me.</p>	<p>不过，我和尼尔都爱跑步。我在整个初中和高中阶段参加田径和长跑运动，曾在北京、上海和广州比赛。为了开心，我会沿着我们家门外水库边的小道跑步。棒球季结束后，尼尔会跟我一起跑。</p>
<p>Soon, I came to love running the most when I was running with Neil. Our runs were more like adventures. Once we found an opening off the main path that led to a hidden sandy enclave off the banks of the reservoir. We called our discovery "The Beach." We would end our runs there, plunging into the crystalline waters to cool off. More often than</p>	<p>很快我发现，当我和尼尔一起跑时，我跑步的兴致最高。我们跑步更像是冒险。有一次，我们在环绕水库的小道上发现了通向一个附近不为人知的沙滩的岔口。我们把自己的发现命名为《海滩》。我们会在那里结束跑步，然后跳入清澈透明的水中冷身。我们往往无所顾忌，有一次，我们游到了对岸，还攀爬了一个小瀑布后的岩石。还有一次，我们把水库大坝当作大桥，从上</p>

not, we were reckless — one day we swam to the opposite shore and climbed the rock face of a small waterfall. Another time we went bridge jumping off the reservoir dam.	面跳下。
The MacLehose Trail was our latest reckless adventure. The night before, we only half-prepared for the run, filling a small backpack with a liter of water and a few snacks.	麦理浩径是我们最新的鲁莽冒险。在头天晚上,我们只对跑步做了部分准备,在一个小背包里装了一升水和一点零食。
We breezed through the first stage, marveling at the cliffs that jutted up from churning surf. The trail was interspersed with steep stairs winding up and down the precipices and long stretches of sand. We were alone — our only company was the wild cattle that grazed along the edges of the beaches.	我们的第一段跑得很轻松,边跑边对翻滚海水中突立的悬崖表示惊叹。沿途不时有一些陡峭的阶梯,沿着峭壁一会儿把人带到下边长长的沙滩上,一会儿又把人带到上边。除了我们没有别人,唯一的陪伴是在沙滩边缘吃草的野牛。
As we neared the second stage, the open ocean trail forked into dense jungle. We had been running for a solid two hours.	当我们接近第二阶段时,这条海边小道出现分岔,伸入密集的丛林。这时我们已经跑了两个小时。
"O.K., the map says this way," said Neil, pointing at the narrow path that disappeared suddenly into a tangle of branches.	"哦,地图说走这边,"尼尔指着一条戛然没入树枝丛中的窄路说道。
"You first," he grinned.	"你先,"他笑了起来。
We ran until the dense underbrush forced us to slow to a walk. The path was now just visible under layers of black, rotting leaves. I crawled between a fallen tree and a web of creepers, and found that I could no longer straighten up. The vines were matted in a close weave above my head. I could just make out an abandoned concrete bunker, probably from World War II, in front of us. It seemed ominous in the dappled light.	我们跑着前进,直到茂密的灌木丛让我们不得不慢慢地把跑变成走。道路掩盖在一层层黑色腐烂的树叶下面,只能勉强可见。我在一棵倒下的树木和无数爬行动物之间爬行,发现没有挺直腰板的空間。头顶上是密集缠绕的藤蔓。这时我看到面前有一个废弃的"二战"混凝土碉堡。斑驳的光影下,气氛感觉很是不祥。
"Neil, are you sure this is the trail?"	"尼尔,你确定是这条路吗?"
He was straddling the trunk of the tree, simultaneously squinting at the	他跨坐在那棵树的树干上,查看手机上的地图,同时把短裤从一根流氓蔓藤

<p>map on his phone and untangling his shorts from the thorns of a rogue vine. "It says we're on the trail... O.K., wait..."</p>	<p>的刺上解开。“地图显示我们是在这条路上……哦，等等……”</p>
<p>We soon learned we were using an old map and had veered off the trail. Crawling allowed for only so much progress. Twenty minutes later, it felt like we had moved only about 50 meters. The trees encased us in all directions and the air was still, heavy. I sank to my knees. "We're lost in the jungle."</p>	<p>很快，我们发现自己用的是一张旧地图，已经偏离了小道。爬行速度太慢了。20分钟后我们好像才移动了大约50米。四面八方都是树，空气凝固而沉重。我跪倒在地。“我们在丛林里迷路了。”</p>
<p>We were silent for a moment. Then, Neil began to laugh. I glanced at him, bewildered, as he pointed to something through the vines. I followed his gaze and squinted.</p>	<p>我们沉默了一会儿，然后，尼尔开始大笑起来。我不解地瞥了他一眼，他指了指藤蔓植物后面的什么东西。我眯着眼，顺着他的方向看过去。</p>
<p>It was a cow. A sleepy, black cow with lolling eyes, chewing cud in the middle of the jungle. I couldn't help it — I began to chuckle as well. Soon, the two of us were sitting on the forest floor, roaring with laughter. I imagined what we would look like to a rescue helicopter — not that anyone could make us out through the canopy of trees. The two of us, covered in scratches, sitting on an abandoned World War II trail, with nothing but a cow for company.</p>	<p>是一头母牛，一头昏昏欲睡的黑色母牛，正牵拉着眼睛在丛林中央反刍。我忍不住也开始咯咯笑起来。很快，我俩都坐在地上，大笑起来。我想的是从救援的直升机上看，我们是什么形象，而不是在那遮天蔽日的树林里，谁能看到我们。满身划伤的我们坐在一条废弃的“二战”小道上，陪伴我们的除了一头母牛外别无一物。</p>
<p>These are the moments I live for. When Neil and I run, we make memories. We find hidden oases, jump off bridges and get lost in the jungle together.</p>	<p>这些正是我盼望的时刻。我和尼尔跑步时，我们是在创造回忆。我们一起寻找隐秘的绿洲、从桥上跳下、在树林里迷路。</p>
<p>When we run, we share more than adventure. Our runs are both an escape from real life and a plunge into the center of it. As we run, we talk. We sort each other out. When I'm with Neil, I let out a breath. Our runs are a time where I can be completely myself. Between us, there are no secrets. He knows my struggles, heartbreaks and triumphs, and I</p>	<p>跑步时，我们一起经历的不仅仅是冒险。我们跑步既是逃离现实生活，又是纵身跃入生活的中心。我们会边跑边交谈，帮对方理清思路。和尼尔在一起时，我会松一口气。我们一起跑步时，我可以完全做我自己。我们之间没有秘密。他知道我的困难、痛苦和成功，我也知道他的。</p>

know his.	
The jungle detour cost us an hour. The feeling when we finally burst into the sunlight, I can only describe as bliss. In the silent trees, we had agreed that we would save music to play at this moment. Now, our speaker blasted the "La La Land" soundtrack. As the trumpets sang and the drums pounded, I looked at Neil, whose face was lit up by a huge grin.	绕进丛林这段插曲花了我们一个小时。当我们终于重见阳光时，那一刹那的感觉，我只能用幸福来描述。在寂静的树林里，我们一致同意把音乐留在这个时刻。现在，我们的扬声器传出了《爱乐之城》(La La Land)的配乐。当小号 and 鼓声响起，我看着尼尔。他的脸上露出了一个大大的笑容。
"I don't want to leave this again," I said. We had started to run, this time with Neil in the front.	"我不想再离开这些了，"我说。这时，我们已经开始跑了，这次是尼尔在前面。
"Leave what?"	"离开什么？"
"All of this." I meant the trail, the familiar mountains, "The Beach," and our childhood home by the ocean. I meant the time our family had together, the week we had before we left Hong Kong for another half year. "Don't you think about this when we're away?"	"所有这一切。"我指的是这条小道、熟悉的山峰、《海滩》和童年时我们在海边的家。我指的是我们一家人在一起的时光，和我们再次离开香港半年之前的这一周。"我们不在的时候，你不会想起这些吗？"
"Yeah, but not like that." He was nonchalant. "There's so much work to do, I just do what's in front of me."	"会啊，但不是这样。"他语气听来漠不关心。"有这么多工作要做，我只做眼前的。"
To anyone else, what Neil said was not profound. But something about the way he said it spoke to me. For that moment, I was happy to exist in this shared space with my brother, with the path before us and miles of trail ahead, under a blue sky in a place I call home.	在其他任何人看来，尼尔说的话都不深奥。但他说这句话的方式打动了我。在那一刻，我为能和亲兄弟在一个我称之为家的地方的蓝天下，一起走过前方的路、在还有数英里长的小道上奔跑而感到高兴。

How Should Hillary Clinton Choose a Running Mate? Start With Chemistry	希拉里物色副总统人选：像结一场不能离的婚
In a college gymnasium this month in Newark, New Jersey, Sen. Cory A. Booker introduced Hillary Clinton to the crowd.	在新泽西州纽瓦克的一座大学体育馆内，参议员科里·A·布克(Cory A. Booker)把希拉里·克林顿(Hillary Clinton)介绍给了在场的观众。

<p>It took him nearly 13 minutes. He piled praise on her and bashed her Republican rival, quoting Thomas Jefferson, Maya Angelou, Abraham Lincoln and even a 1980s song by Jon Bon Jovi, a New Jersey native.</p>	<p>他花了 13 分钟时间，对克林顿大加赞扬，猛烈抨击她的共和党对手，引用了托马斯·杰斐逊(Thomas Jefferson)、玛雅·安杰卢(Maya Angelou)和亚伯拉罕·林肯(Abraham Lincoln)的话，甚至提到出生于新泽西的乔恩·邦·乔维(Jon Bon Jovi)在 80 年代的一首歌。</p>
<p>"I hate to contradict Bon Jovi," Booker said. "But dear God, Hillary Clinton, you give love a good name."</p>	<p>"我真不喜欢和邦·乔维唱反调，"布克说。"但是天啊，希拉里·克林顿，你让爱美名远扬。"(邦·乔维的一首歌名为《你让爱声名狼藉》——译注)</p>
<p>Clinton waved her arms in the air, as if marking the end of a tent revival that lasted a touch too long. She patted Booker on the back, a much less effusive embrace than the one she had given to Bon Jovi, who was standing nearby.</p>	<p>克林顿朝空中挥舞手臂，似乎代表着一场持续时间过久的帐篷复兴仪式的结束。她拥抱了布克，还拍拍他的后背，但远没有她给站在旁边的邦·乔维的拥抱那么热情。</p>
<p>Ambitious Democrats like Booker have started to audition as their presumptive presidential nominee considers who should join her on the national ticket. There is much for Clinton to consider, including competence, agreement on policy and geography.</p>	<p>随着稳获民主党总统候选人提名的克林顿开始考虑自己的副总统人选，像布克这样有抱负的民主党人开始进入面试状态。克林顿需要考虑的因素非常多，包括能力、在政策上的意见一致性，以及地理因素。</p>
<p>Yet Clinton's advisers and those who have gone through the process emphasize an equally important, if more elusive, quality: chemistry.</p>	<p>不过，克林顿的顾问和那些经历了这一过程的人都强调了一种同样重要的品质，那就是默契，而这可能更加难以把握。</p>
<p>Clinton needs a No. 2 who can ease into the insular and often distrusting Clinton orbit. And a running mate whose company Clinton genuinely enjoys could help present a joyful picture to voters, after a primary season that was sometimes dreary.</p>	<p>克林顿需要的 2 号人物应该能轻松地进入有些铁板一块且往往猜疑心颇重的克林顿的小圈子。经过了有时显得枯燥乏味的初选季之后，一个克林顿真心享受对方陪伴的竞选伙伴将有助于向选民呈现一个欢乐的画面。</p>
<p>"When the chemistry works, it communicates enthusiasm and a team and the likelihood of success and progress," said Michael Feldman, who was an aide to former Vice President Al Gore. "But it can't be an arranged marriage with someone she meshes well with on paper," he added. "It very much has to be real."</p>	<p>"如果这种化学反应生效，就可以向外界传达热情和团队感，以及成功和进步的可能，"迈克尔·费尔德曼(Michael Feldman)说。他曾担任前副总统阿尔·戈尔(Al Gore)的助手。"但这不能是把她与一个在理论上非常相配的人撮合在一起的婚姻，"他接着说道。"它在很大程度上必须是实际层面的。"</p>

<p>Clinton's aides began collecting information last week on as many as 10 candidates. James Hamilton, a Washington lawyer who is overseeing the vetting, will begin meeting with candidates as early as this week.</p>	<p>上周，克林顿的助手开始收集多达 10 位候选人的信息。负责这一审查过程的华盛顿律师詹姆斯·汉密尔顿(James Hamilton)最早将于本周开始和候选人会面。</p>
<p>Senior Democrats, thinking about both the fall election and a potential re-election in four years, said the right choice would stir up enthusiasm on the campaign trail, enhancing Clinton's strengths while not outshining her or overtaking events.</p>	<p>考虑到秋季的大选和四年后有可能出现的连任竞选，资深民主党人表示，正确的人选将为这场竞选之旅注入热情，将增强克林顿的优势，而非让她相形见绌，或越俎代庖。</p>
<p>Clinton is warm and personable one on one, the Democrats said, which creates an easy camaraderie when she teams up with people she likes.</p>	<p>民主党人表示，在一对一的交往中，克林顿是一个亲切、平易的人，所以在与她喜欢的人组队合作时，比较容易形成一种同事友谊。</p>
<p>In San Antonio, Clinton seemed to light up in the presence of Julián Castro, the city's former mayor and now the secretary of Housing and Urban Development in the Obama administration. She grabbed his hand and thrust it skyward at an outdoor rally, and the two glided naturally on the rope line, snapping selfies.</p>	<p>在圣安东尼奥，克林顿似乎就因胡利安·卡斯特罗(Julián Castro)的存在而喜形于色。后者之前曾担任该市市长，如今是奥巴马政府的住房和城市发展部(Housing and Urban Development)部长。在一场露天集会活动中，她抓住卡斯特罗的手，一起伸向天空，两人在和普通与会者交流时搭配得非常顺畅，还会进行自拍。</p>
<p>The photos from the event, with Clinton, 68, beaming next to Castro, 41, turned out so well that the campaign now provides the images to cable networks to show on the screen when Clinton calls in for phone interviews.</p>	<p>在来自这场活动的照片中，现年 68 岁的克林顿站在 41 岁的卡斯特罗旁边，面带微笑。它们的效果如此之好，以致现在克林顿在电视上做电话采访时，竞选团队就提供这些照片做画面。</p>
<p>Last month, at a stop at the Court Street Diner in Athens, Ohio, Clinton warmly embraced Sen. Sherrod Brown, whose policy expertise Clinton has said she admires.</p>	<p>上个月，在俄亥俄州阿森斯的法院街餐厅(Court Street Diner)停留时，克林顿热情地拥抱了谢罗德·布朗(Sherrod Brown)议员。克林顿已经表示过，她很欣赏布朗在政策制定上的专长。</p>
<p>They made their way, practically arm in arm, through the narrow 1950s-themed diner, talking to voters and meeting a developmentally disabled man, Noah, whom Brown introduced to Clinton as "my friend."</p>	<p>他们基本上是挽着胳膊穿过了这间狭窄的 50 年代主题餐厅，与选民们交谈，并与一位名为的诺厄(Noah)发育性残障人士会面。布朗向克林顿介绍说他是“我的朋友”。</p>
<p>"How can you not love Athens?" Clinton said. Brown nodded.</p>	<p>"一个人怎么能不喜欢阿森斯?"克林顿说。布朗点点头。</p>

<p>Dr. Lillian Glass, a body language expert, was struck by Clinton's ease with Brown. "Her body is leaning into his, and she never leans into anybody. She adores that guy," she said in a telephone interview. "And you can tell that he knows his place. You don't see him trying to take over."</p>	<p>肢体语言专家莉莲·格拉斯(Lillian Glass)博士对克林顿和布朗在一起时的自在状态印象深刻。“她的身体向他那边靠近，她从来没有过这样的举动。她非常喜欢那个家伙，”她在接受电话采访时说。“而且你看得出他知道自己的位置。看得出他没有试图僭越。”</p>
<p>In many ways, Clinton's search mirrors that of George H.W. Bush, who had deep relationships with major players in Washington by the time he captured the Republican nomination in 1988, Dan Quayle, his running mate, said in an interview.</p>	<p>从许多方面讲，克林顿对竞选搭档的筛选都与乔治·H·W·布什(George H.W. Bush)的情况有些类似。后者当时的竞选搭档丹·奎尔(Dan Quayle)在接受采访时表示，1998年取得共和党总统提名资格时，布什与华盛顿的一些重要角色已经建立了深厚的关系。</p>
<p>The contenders most frequently mentioned by her advisers and senior Democrats close to the campaign include Sen. Michael Bennet, from the key state of Colorado; Thomas E. Perez, President Barack Obama's secretary of labor and a Hispanic civil rights lawyer; Rep. Xavier Becerra of California; and Sens. Tim Kaine and Mark Warner, both former governors from Virginia. Sen. Elizabeth Warren of Massachusetts is a favorite of liberal Democrats, though an all-female ticket is unlikely. All of these candidates have relationships with Clinton, and several have appeared with her at campaign events.</p>	<p>克林顿的顾问和与其竞选团队关系密切的资深民主党人最常提到的候选人，包括来自关键州科罗拉多的参议员迈克尔·贝内特(Michael Bennet); 贝拉克·奥巴马总统的劳工部长、西语裔人权律师托马斯·E·佩雷斯(Thomas E. Perez); 加州众议员哈维尔·贝塞拉(Xavier Becerra); 参议员蒂姆·凯恩(Tim Kaine)和马克·沃纳(Mark Warner)，两位都曾担任弗吉尼亚州州长。马萨诸塞州参议员伊丽莎白·沃伦(Elizabeth Warren)是自由派民主党人的最爱之一，只是不太会出现两位都是女性的竞选搭档组合。所有这些候选人都和克林顿打过交道，有些还曾与她一起出席过竞选活动。</p>
<p>"This isn't a consensus-type thing," Quayle said in a phone interview. "It's much more the feeling of the two principals, and someone she's going to feel comfortable with every day."</p>	<p>“这不是有多大共识的问题，”奎尔在接受电话采访时说。“它更多地和两位主角的感觉有关，得是她日常相处起来感觉比较舒服的人。”</p>
<p>Still, a connection can take hold between two candidates on a presidential ticket who are just getting to know each other.</p>	<p>不过，刚刚认识的两个人也有可能结成竞选搭档。</p>

Party was emerging. The two men and their young families proved an electric combination on the campaign trail.	程中，这两位搭档和他们年轻的家人的组合的确非常令人兴奋。
In a telephone interview, Walter Mondale recalled when he and his wife, Joan, first met with Jimmy and Rosalynn Carter in Georgia in 1976. "Joan said, 'He's going to pick you,'" Mondale said. "I said, 'Why?' and she said, 'Because we all get along perfectly.' And we still do today."	在接受电话采访时，前副总统沃尔特·F·蒙代尔(Walter Mondale)回忆了1976年他和妻子琼(Joan)第一次在乔治亚州见到吉米(Jimmy)和罗丝琳·卡特(Rosalynn Carter)发生的事。“琼说，‘他会选你，’”蒙代尔回忆道。“我问‘为什么？’她说，‘因为我们几个相处得非常好。’到今天我们还是如此。”
Barack Obama and Joe Biden did not know each other well when the Obama campaign decided the first African-American nominee of a major party needed a scrappy and experienced running mate who could appeal to white working-class voters.	结成搭档之前，贝拉克·奥巴马和乔·拜登(Joe Biden)并不太熟。当时，奥巴马竞选团队做出决定，一个重要政党的首位非裔总统提名人需要一位斗志旺盛且富有经验的竞选搭档，这个人还要能够吸引白人工薪阶层的选票。
Clinton has made clear she wants a partner who shares her granular knowledge of policy and who she will enjoy working closely with in the West Wing.	克林顿明确表示，她想找一个和自己一样熟知政策细节的人，而且得是她乐意与之在白宫西配楼进行密切合作的人。
Although she is at ease with younger hopefuls like Castro, Clinton has also relished policy conversations with Perez, a favorite of labor unions, her advisers said. (Sen. Harry Reid, D-Nev., has expressed concern that selecting Brown would leave a vacancy in the Senate that a Republican would probably be appointed to fill.)	克林顿的顾问表示，尽管她与卡斯特罗等更年轻的候选人相处愉快，但她也喜欢与工会的最爱佩雷斯进行政策对话。(内华达州民主党参议员哈里·里德[Harry Reid]表达了一种担忧，即选择布朗会让参议院出现一个空缺，这个空缺有可能会被一名共和党人填补。)
Clinton may be forced to ignore such factors, Democrats said, and think about whom she most prefers to spend the next four to eight years working with. "It's like getting married without any divorce proceedings possible," Mondale said.	民主党人士表示，克林顿可能会被迫忽略此类因素，而去考虑谁是她从接下来的一小时至以后八年内最愿意与之共事的人。“这就像是结一场没有离婚可能的婚，”蒙代尔说。

<p>As president, Obama has spoken openly and repeatedly about the void his father left in his life. Barack Obama Sr. went home to Kenya in 1964, when Obama was 3 years old, and returned to visit his son only once, for a month, when Obama was 10. In an interview with The New York Times last month, the president said his father's absence had left him struggling as a teenager to figure out "what it meant to be a man."</p>	<p>奥巴马当上总统后曾多次公开谈起父亲在自己生活中的缺位。1964年，奥巴马3岁的时候，老贝拉克·奥巴马返回肯尼亚，只在奥巴马10岁的时候来看望过儿子一次，停留了一个月。上月接受《纽约时报》采访时，总统说起自己十几岁的时候，父亲的缺席令他必须努力弄清“身为男人究竟意味着什么”。</p>

<p>President Obama often describes his life as an only-in-America saga, the improbable rise of the son of a white woman from Kansas and a black man from Kenya to the American presidency. On Aug. 4, 1959, he boarded Flight 162 of British Overseas Airways Corp. and flew from Nairobi to Rome, records show. From there, he flew to Paris and then on to New York. A bus carried him to Los Angeles, where he caught a plane to Hawaii. A year later, he would meet Dunham, President Obama's mother.	记录表明，1959年8月4日，他登上英国海外航空公司的162号航班，从内罗毕飞往罗马。他从罗马飞往巴黎，之后又飞到纽约。一辆巴士载着他来到洛杉矶，之后他又搭乘飞机来到夏威夷。一年后，他在那里遇到了奥巴马总统的母亲邓纳姆。
Most people on campus had no idea that the star student had married a second wife during his sophomore year or that he was the father of a baby boy. By 1962, when he headed to Harvard to pursue a graduate degree, his American family had already fallen apart.	学校里的大多数人都不知道，这位优秀学生在大二期间娶了自己的第二个妻子，成了一个小男孩的爸爸。到1962年，他来到哈佛攻读研究生学位时，他的美国家庭已经解体了。
He ended up with a master's degree in economics from Harvard — not the doctorate he had hoped for — and headed home to Kenya without his little boy. Christine McKay, the archivist who discovered the letters, said she could not help but think about that son as she pored over the pages.	最后，他在哈佛获得了经济学硕士学位，而不是他希望中的博士学位。他回到了肯尼亚，没有带上年幼的儿子。发现这些信件的档案管理员克里斯蒂娜·麦凯(Christine McKay)说，浏览这些文件的时候，她不由得想到那个儿子。

So for now, the records reside in Box 214 of the Phelps Stokes Fund collection in the Schomburg's temperature-controlled, off-site storage facility. Whenever Obama is ready, the center's director said, his father's file will be waiting.	如今，这些文件被放在保存菲尔·普斯·斯托克斯基金会(Phelps Stokes Fund)藏品的214号箱中，储存在朔姆伯格中心外面的一个恒温库房里。中心主任说，只要奥巴马做好了准备，这些文件随时静候。

Venezuelans Ransack Stores as Hunger Grips the Nation	骚乱频发，委内瑞拉在饥饿中失控

The New Panama Canal: A Risky Bet	新巴拿马运河的豪赌（下）：更多考验在后面
Read the first chapter: The New Panama Canal: A Risky Bet (Chapter 1)	阅读《新巴拿马运河的豪赌（上）：问题重重的大项目》
A Suspect Design	设计存疑
The canal authority made one fact abundantly clear: The new canal would operate very differently from the old one.	运河管理局非常清楚地展现出了一个事实：新运河的运行方式将与旧运河大相径庭。
This weighed on de la Guardia, the stocky chief of the tugboat captains' union, as he sat in a Panama City cafe one afternoon in December 2015. "We don't think it is going to work," he said.	这让拖轮船长工会的主管德拉瓜迪亚承受了不小的压力。在 2015 年 12 月的一天下午，这个敦实的男人坐在巴拿马城的一家餐吧里接受采访。"我们觉得这不会成功，"他说。
His opinion carries weight. A native Panamanian who graduated from the U.S. Merchant Marine Academy, de la Guardia has spent 20 years running tugboats in the canal. "We think it's going to be a real mess," he said. "I think something awful is going to happen."	他的观点举足轻重。德拉瓜迪亚是土生土长的巴拿马人，毕业于美国商船学院(U.S. Merchant Marine Academy)，拥有 20 年的在巴拿马运河上运行拖船的经验。"我们认为会乱成一团，"他说。"我觉得情况会变得很糟。"
His concern stems from the canal authority's decision to abandon locomotives to guide the ships. Tugboats will now push and pull vessels	他的担心源于运河管理局的一个决定：放弃使用火车头牵引船只通过运河的做法。现在要仅靠拖轮来推拉船只通过，而这些船上可能会搭载多达 1.3 万

<p>stacked with up to 13,000 containers, nearly three times as much as the old, smaller ships.</p>	<p>个集装箱，是过去较小船只的近三倍。</p>
<p>The locks' size is the captains' biggest concern. The new locks are 1,400 feet long and 180 feet wide. Big container ships are 1,200 feet long and 160 feet wide. Tugboats fore and aft measure nearly 100 feet each. Do the math, they say.</p>	<p>水闸的尺寸是这些拖轮船长最大的忧虑。新运河的水闸为 1400 英尺（约合 427 米）长、180 英尺宽。大型集装箱货轮为 1200 英尺长、160 英尺宽。前后拖轮分别近 100 英尺长。不妨掐算一下。</p>
<p>In fact, a feasibility study done by the canal authority in 2003 concluded that "for the tugboat system to work safely and efficiently in the locks," the locks needed to be 328 feet longer and 40 feet wider than the big ships passing through. By that standard, the new locks should have been 1,528 feet long and 200 feet wide.</p>	<p>实际上，运河管理局 2003 年进行的一项可行性报告得出的结论是，“为了让拖轮系统在水闸中安全有效地运行”，水闸需要比通过的大型船只长 328 英尺、宽 40 英尺。按照这样的标准，新水闸应当为 1528 英尺长、200 英尺宽。</p>
<p>Quijano said the captains had received proper training, including classes and simulations. He added that the locks could be made longer by using a backup gate; that would not, however, increase their width.</p>	<p>基哈诺表示，拖轮船长们受到了正规的训练，包括听课和模拟。他还称，用上一个备用闸门的话，水闸可以变长。然而，这对宽度无能为力。</p>
<p>To assess the safety and efficacy of the canal authority's plan, the International Transport Workers' Federation hired experts to conduct simulations involving neo-Panamax ships. The study, released this year, concluded that the ships could pass through the locks under perfect, windless conditions, but would have trouble on windier days.</p>	<p>为了评估运河管理局计划的安全性和功效，国际运输工人联合会 (International Transport Workers' Federation) 聘请专家进行了关于新巴拿马型船只的模拟。研究报告于今年公布，得出的结论是，在完美的无风状况下，船只可以通过水闸，但在风大的日子里会遭遇困难。</p>
<p>Cracks in the Concrete</p>	<p>混凝土上的缝隙</p>
<p>By the middle of last year, the end was in sight.</p>	<p>到了去年年中，终于可以看到工程完工的势头了。</p>
<p>Then, suddenly, during water tests in the canal, a public relations disaster: photographs and video showing water gushing from concrete in one of the Pacific locks — the same locks near the earthquake faults.</p>	<p>可是突然之间，在运河进行注水测试期间，冒出了一个公关灾难：图片与视频显示，一个太平洋水闸的混凝土构造中喷出了水——这恰好是靠近地震断层的那侧水闸。</p>
<p>The problem had remained a secret for more than a week. But the</p>	<p>本来问题隐瞒了逾一周的时间。但是一位匿名的运河员工在 8 月 23 号的时</p>

<p>images, posted anonymously on Aug. 23 by a canal worker, seemed to confirm everyone's worst fears. This was no small leak. Water spurted from cracks extending across nearly the entire width of the lock, according to Ilya Espino de Marotta, executive vice president for engineering at the canal authority.</p>	<p>候将图像放到了网上，而这些画面似乎印证了所有人最大的担忧。这可不是什么小漏洞。运河管理局负责工程事务的执行副总裁伊利亚·埃斯皮诺·德马罗塔(Ilya Espino de Marotta)表示，水从几乎覆盖水闸整个宽度的缝隙里喷涌了出来。</p>
<p>Some days later, a consensus emerged: The design, not the concrete, was at fault. Marotta said in an interview that the leak had occurred only because the concrete was subjected to extreme pressure when one chamber was empty and the next was full. During normal operations, both chambers would contain water.</p>	<p>过了些日子，大家达成了共识：有问题的是设计，而非混凝土本身。德马罗塔接受采访时表示，之所以会漏水，只是因为一个闸室注满了水，而另一个是空的，这使混凝土承受了巨大的压力。在正常操作中，两个闸室都会有水。</p>
<p>To fix the problem, the authority had two options: Tear down the concrete and rebuild it, an expensive remedy that would cause further delays, or drill holes and insert steel reinforcement bars. The decision was made to reinforce.</p>	<p>为了解决这个问题，摆在运河管理局面前的有两个选择：要么拆除混凝土结构进行重建，而这一补救措施会进一步拖延完工时间，而且成本高昂；要么在其中钻孔插入钢筋。最终的决定是进行加固。</p>
<p>Canal officials said all the problems had been properly repaired. "We are confident the concrete will last 100 years," Quijano said.</p>	<p>运河官员称，所有问题都得到了妥善修复。“我们有信心，混凝土结构可以经受100年的考验，”基哈诺说。</p>
<p>Epilogue</p>	<p>后记</p>
<p>On the morning of June 9, the training wheels came off as the first neo-Panamax ship, the Baroque Valletta, entered the first of three locks on the Atlantic side. With the official opening just two weeks away, canal officials wanted to be sure their locks worked as planned.</p>	<p>在6月9日的上午，第一艘新巴拿马型的“巴洛克·瓦莱塔”号(Baroque Valletta)驶入了大西洋一侧三道闸门的第一道，标志着新运河的首次通航。正式揭幕只剩两周时间，运河管理方希望保障水闸能按计划运行。</p>
<p>Under a mostly sunny sky, history was made, as the Baroque passed through all three locks before anchoring in Gatun Lake. Leading the way was a familiar tugboat, the Cerro Santiago. A second Spanish tug was in the rear. The applause on shore was acknowledged with blasts</p>	<p>在基本晴朗的天空之下，“巴洛克”号通过了全部三道闸门，开进加通湖下锚，历史就此书写。在它前面的是人们熟悉的拖轮“塞罗·圣迭哥”号(Cerro Santiago)，后面则是另一艘西班牙拖轮。岸上掌声响起，船上则汽笛声大作，以示回应。</p>

from the ship's horn.	
The degree of difficulty for Baroque's passage was actually quite low. The ship fit easily in the 1,400-foot lock because it is only 836 feet long, roughly two-thirds the length of the larger vessels. And it presented a small profile in the wind because it had no stacked containers.	“巴洛克”号通过运河的难度其实相当低。这艘船仅有 836 英尺长，大概是巨型船只的三分之二，能够轻易地装入 1400 英尺长的水闸。而且它并未载有层层叠叠的集装箱，在风中行驶的难度较小。
The canal authority's plan to move about 12 neo-Panamax ships a day now appears unrealistic — at least for the time being, according to shippers, given that many East Coast ports are still preparing the infrastructure to accommodate the big ships.	运河管理局原本计划每天通过 12 艘新巴拿马型船只，如今看起来这并不现实。按照船运公司的说法，至少目前做不到，理由是东海岸的港口还没准备好相应的基础设施来容纳巨轮。
The authority now says that, during the rollout period, it expects the new locks to handle no more than three ships a day.	运河管理局现在表示，在运行初期，新水闸每天处理的船将不超过三艘。
There are other loose ends, including assessing the project's final cost.	工程还存在其他一些问题，包括如何评估项目的最终成本。

Having Won, Some 'Brexit' Campaigners Begin Backpedaling	公投获胜后，英国脱欧派政客纷纷变卦
LONDON — Freed from the shackles of the European Union, Britain's economy would prosper and its security would increase. Britain would “take back control” of immigration, reducing the number of arrivals. And it would be able to spend about 350 million pounds, or about \$470 million, a week more on health care instead of sending the money to Brussels.	伦敦——摆脱欧盟的束缚后，英国经济会蓬勃发展，其安全程度也会有所提升。英国将“拿回”移民问题的“控制权”，减少移民涌入量。此外，它每周都可以往医疗保健领域多投入 3.5 亿英镑（约合 4.7 亿美元），而不必再把那些钱交给布鲁塞尔。
Before Thursday's referendum on the country's membership in the 28-nation bloc, campaigners for British withdrawal, known as Brexit, tossed out promises of a better future while dismissing concerns raised by a host of scholars and experts as “Project Fear.”	英国于上周四就其是否留在共有 28 个成员国的欧盟进行公投前，脱欧推动者抛出了关乎更美好未来的种种承诺，并把一大堆专家学者发出的警告所引发的担忧斥为“恐吓计划”。
But that was before they won.	但那是在他们获胜前。

<p>With financial markets in turmoil, a big drop in the pound and the prospect of further chaos, some supporters of Brexit are backpedaling on bold pronouncements they made just a few days earlier. "A lot of things were said in advance of this referendum that we might want to think about again," Liam Fox, a former cabinet minister, told the BBC, including when and how Article 50 — the formal process for leaving the European Union — should be invoked.</p>	<p>在金融市场动荡、英镑大幅贬值、混乱有可能进一步加剧之际，一些刚刚于数日前抛出大胆论断的脱欧支持者开始改变口风。“对公投前说过的许多事情，我们或许都要重新思考，”前内阁大臣利亚姆·福克斯(Liam Fox)告诉 BBC，其中包括里斯本条约第 50 条——也就是脱欧的正式程序——应在何时以何种方式启动。</p>
<p>Perhaps no promise was more audacious — and mendacious, critics say — than the £350-million-a-week claim. Boris Johnson, the former mayor of London who was the frontman of the Brexit campaign, toured Britain in a bus emblazoned with the slogan: "We send the E.U. £350 million a week, let's fund our N.H.S. instead," a reference to the country's widely revered National Health Service.</p>	<p>批评人士称，没有哪项承诺比每周 3.5 亿英镑这个数字更大胆——也更虚妄。脱欧运动领导者、伦敦市前市长鲍里斯·约翰逊(Boris Johnson)曾乘坐一辆巴士巡游英国，巴士上印着这样一句口号：“我们每周给欧盟送去 3.5 亿英镑，还是把这些钱投向我们的 NHS 吧。”NHS 指的是英国广受尊崇的国家医疗服务体系。</p>
<p>Hours after proclaiming "independence day" for Britain, Nigel Farage, the leader of the fiercely anti-European U.K. Independence Party, conceded that the £350 million figure was a "mistake." Asked by the BBC on Sunday about the spending pledge, Iain Duncan Smith, a former Conservative Party leader who campaigned for Brexit, said the Leave side had merely promised "to spend the lion's share of that money" on the health service.</p>	<p>持激进反欧立场的政党——英国独立党(U.K. Independence Party)的领袖奈杰尔·法拉吉(Nigel Farage)在宣布英国迎来“独立日”数小时后承认，3.5 亿英镑这个数字是个“错误”。当被 BBC 问及关于医疗保健开支的承诺时，脱欧推动者、保守党(Conservative Party)前党魁伊恩·邓肯·史密斯(Iain Duncan Smith)说，脱欧派只承诺“把那笔钱中的最大一部分花在”国家医疗服务上。</p>
<p>The shift was perhaps unsurprising, since the £350 million "independence dividend" never stood up to scrutiny. It excluded money returned to Britain through rebates and money that Britain spent to subsidize its farmers and poorer regions, according to the respected Institute for Fiscal Studies. The institute put the true figure at about</p>	<p>上述转变或许没有什么好奇怪的，因为这 3.5 亿英镑从来没有经受过质疑。颇有威望的财政研究所(Institute for Fiscal Studies)称，该数字没把以回扣形式返回英国的资金，以及英国用来补贴本国农民和较贫困地区的资金计算在内。该研究所估计，真实的数字约为 1.5 亿英镑。</p>

<p>£150 million.</p>	
<p>Supporters of the “Remain” side have angrily attributed the victory for “Leave” to a campaign of misinformation and even deception. In Cornwall, in the southwest corner of England, where a majority voted to leave, the leader of the county council, John Pollard, demanded that the government provide “investment equal to that provided by the E.U. program.” (The county has gotten about \$1.3 billion in European Union assistance over the past 15 years, and was counting on about \$550 million more by 2020.)</p>	<p>留欧派愤怒地宣称，脱欧派依靠信息误导乃至欺骗手段取得了胜利。在英国西南部的康沃尔郡，大多数人都投票赞成脱欧，郡议会负责人约翰·波拉德(John Pollard)提出，政府应该进行“规模与欧盟投资项目相当的投资”。(过去15年间，该郡通过欧盟扶助项目获得了13亿英镑的投资，原本预计到2020年会再获得5.5亿英镑。)</p>
<p>A Financial Times chart showing that the Leave vote was strongest in the parts of Britain that are the most economically dependent on the European Union was widely circulated online.</p>	<p>在网上得到广泛传播的一张《金融时报》(Financial Times)的图表显示，在英国某些对欧盟的经济依赖最严重的地区，投票支持脱欧的选民比例最大。</p>
<p>Promises to quickly reduce immigration levels are also being played down. Migration was the cornerstone of the Leave campaign, which objected to the European Union’s insistence on the free movement of labor, capital, goods and services. Since 2004, when 10 more countries joined the European Union, large numbers of eastern and southern Europeans have moved to Britain for work.</p>	<p>迅速减少移民涌入规模的承诺也在被淡化。脱欧运动以移民问题为基石，反对欧盟在劳动力、资本、商品和服务自由流动方面的坚持。自从10个新成员国在2004年加入欧盟以来，已经有大量东欧和南欧人涌入英国找工作。</p>
<p>Mr. Johnson argued that it was impossible for the government to reduce immigration while in the European Union. His ally Michael Gove, the justice secretary, said a leave vote would “bring down the numbers” by 2020. Experts have long said that would be very hard to pull off. The European Union has demanded from nonmember states — Norway, for example — free movement of workers in exchange for access to the bloc’s single market.</p>	<p>约翰逊声称，只要英国还留在欧盟，政府就无法减少移民涌入。他的盟友、司法大臣迈克尔·戈夫(Michael Gove)说，为脱欧投票会“让移民涌入数量”在2020年之前“出现下降”。一些专家早就表示，这一目标极为难以达成。欧盟已经要求挪威等非成员国以工人的自由流动换取进入欧盟单一市场的通行证。</p>

<p>On Friday, the day after the referendum, Daniel Hannan, a member of the European Parliament and one of the most knowledgeable advocates of Brexit, stunned some viewers of the BBC by saying: "Frankly, if people watching think that they have voted and there is now going to be zero immigration from the E.U., they are going to be disappointed."</p>	<p>欧洲议会议员丹尼尔·汉南(Daniel Hannan)是见识最广博的脱欧倡导者之一。上周五，也就是公投后的第一天，汉南的一番言论让 BBC 的一些观众颇为震惊：“坦白说，如果观众们以为他们已经投了票，现在再也不会来自欧盟的移民了，那他们会失望的。”</p>
<p>Mr. Hannan wrote on Twitter, "I was for more control, not for minimal immigration." Facing a backlash, he observed that a lot of Remain voters "are now raging at me because I *don't* want to cut immigration sharply," adding, "There really is no pleasing some people." He then announced that he would "take a month off Twitter."</p>	<p>汉南在 Twitter 上写道，“我赞成进行更有力的控制，而不是把移民涌入量降到最低。”面对网民的激烈反应，汉南指出，许多留欧派选民“现在因为我*不*想要大幅减少移民涌入人数而火冒三丈”；还表示，“有些人你真的没法让他们满意。”他随后宣布将“暂别 Twitter 一个月”。</p>
<p>Mr. Farage took the most hard-line position on immigration, unveiling a poster depicting a long stream of refugees under the headline "Breaking Point" and raising the prospect of Turkey's joining the European Union (even though any of the 28 member states has veto power over accepting new members).</p>	<p>在移民问题上，法拉吉的立场最为强硬。他以“断裂点”为题发布了一款海报，上边是一眼望不到头的难民队伍，旨在告诫人们土耳其加入欧盟后的场面。（尽管在接收新成员的问题上，欧盟 28 个成员国都拥有一票否决权。）</p>
<p>Many Brexit campaigners expected to lose — even Mr. Farage said on the night of the referendum that he did not think his side had won — and for some the fight was as much about internal Conservative Party politics as the future of the country.</p>	<p>许多脱欧倡导者原本都觉得脱欧派会以失败收场——就连法拉吉也在公投那天晚上表示，他没想到自己的阵营取得了胜利——对一些人而言，这场斗争既关乎英国的未来，又关乎保守党的党内政治。</p>

<p>Economic Fears Rising, Britain Hopes to Stay in E.U. Market</p>	<p>脱欧的英国仍想留在欧洲单一市场</p>
<p>LONDON — Four days after a decisive vote to leave the European Union, Britain was consumed on Monday with questions of when and how the country's departure from the bloc will happen — and increasingly, of whether it will happen at all.</p>	<p>伦敦——在决定性的脱欧公投结束四天后，本周一，英国纠缠在一些问题上：何时以及如何离开欧盟——还有越来越多的人发问，是否真的会退出欧盟。</p>
<p>The immediate outcome of Thursday's referendum was not the promised clarity but an epic political muddle and a policy vacuum that invited more confusion and turmoil throughout the day in Britain, on the Continent and in the financial markets.</p>	<p>上周四公投的直接结果并没有带来预想的清晰度，而是造成了巨大的政治混乱和政策真空，使得当天英国、欧洲大陆及金融市场出现了更多的困惑和震荡。</p>
<p>Leaders on both sides of the Channel said there was no viable option but to move gradually toward the withdrawal process. Yet the day's developments did little to dispel the possibility that the crisis could drag on for a long time, possibly generating enough economic and political damage to encourage negotiation of a new arrangement between Europe and Britain that would sidestep the need for a formal withdrawal or at least minimize its effects.</p>	<p>英吉利海峡两岸的领导人均表示，没有其他可行的选择，只能逐渐朝着脱离欧盟的进程前进。然而，当天的事态发展也没有打消这场危机可能会拖上很长一段时间的 possibility。这或许会造成巨大的经济和政治危害，促使欧洲和英国谈判出一种新的安排，从而让英国不再需要正式脱欧，或者至少是减少其影响。</p>

<p>Prime Minister David Cameron and leaders of the campaign to leave the bloc stuck to their positions that they would not move quickly to trigger formal talks on withdrawal, even as European leaders turned up the pressure on Britain to get on with it.</p>	<p>尽管欧盟领导人开始对英国施压,想让他们行动起来,但英国首相戴维·卡梅伦(David Cameron)和脱欧运动的领导人都坚持自己的立场,宣称他们不会迅速采取行动,触发正式的脱欧会谈。</p>
<p>Chancellor Angela Merkel of Germany met in Berlin late Monday with her French and Italian counterparts. She signaled that any decision on how to negotiate a withdrawal would have to await a meeting of all 28 EU countries on Tuesday and Wednesday in Brussels.</p>	<p>周一晚间,德国总理安格拉·默克尔(Angela Merkel)在柏林与法国和意大利同行会面。她表示,关于英国脱欧谈判的任何决定,都要等到欧盟全部28个成员国于周二和周三在布鲁塞尔召开会议时做出。</p>
<p>The financial markets continued to pummel stocks and the value of the British pound, at one point sending the currency to its lowest level against the dollar in more than three decades. And Standard & Poor's, the ratings agency, downgraded Britain's credit rating, reflecting concern about the economic implications of the so-called Brexit vote.</p>	<p>在金融市场上,股票和英镑继续下挫,一度跌到30年来英镑对美元汇率的最低水平。评级机构标准普尔(Standard & Poor's)也下调了英国的信用评级,显示了对脱欧公投结果带来的经济影响的担心。</p>
<p>Cameron has announced that he will step down, and both his governing Conservative Party and the opposition Labour Party were consumed by internal warfare on Monday, leaving the country lacking strong leadership as it confronted new demands for a referendum on independence for Scotland.</p>	<p>卡梅伦宣布他将辞职。他所在的执政党保守党(Conservative Party)和反对党工党(Labour Party)周一都陷入了内部争论,导致该国在面临苏格兰再次要求独立公投的时候,缺乏强有力的领导力。</p>
<p>Leaders of the Leave campaign, including Boris Johnson, the former London mayor who is now a leading candidate to succeed Cameron, notably modulated their tone and some of their positions on Europe, leaving unclear exactly what issues they want to address through a withdrawal.</p>	<p>脱欧运动的领导者,包括伦敦前市长、呼声最高的卡梅伦继任候选人之一鲍里斯·约翰逊(Boris Johnson)在内,明显调整了他们的语气和对欧洲的部分立场,导致大家不清楚他们到底想通过脱欧来解决什么问题。</p>
<p>In the first meeting of Parliament since the referendum, Cameron said he considered the vote binding, though he reiterated that he would</p>	<p>在公投后举行的第一次议会会议上,卡梅伦表示,他认为这次投票有约束力,但他重申,他将让继任者来决定如何触发正式的脱欧进程。“这个决定必须</p>

<p>About three-quarters of lawmakers had supported remaining in the EU. A senior Conservative lawmaker, Kenneth Clarke, suggested that Parliament could override the referendum – which is not, in the end, legally binding on the government – while a Labour legislator, David Lammy, called for a second referendum.</p>	<p>大约四分之三的议员支持留在欧盟。资深保守党议员肯尼斯·克拉克 (Kenneth Clarke)认为议会可以推翻公投结果——终究来说，公投对政府不具有法律约束力——而工党议员戴维·拉米(David Lammy)呼吁进行第二次公决。</p>
<p>Cameron brushed such ideas aside, but he also made it clear that he would not be the one in charge of Britain’s messy divorce from Europe.</p>	<p>卡梅伦没有理会这样的想法，但他也明确表示，自己不会负责英国脱欧这个烂摊子。</p>
<p>The man who might be, Johnson, sought to calm nerves and markets with his first extensive remarks on the way forward, setting out a position that seemed to de-emphasize elements of what the Leave campaign had promised.</p>	<p>这个负责人可能会是约翰逊。他首次发表了关于未来前景的详尽演讲，试图平息人们的情绪，安抚市场。他在讲话中所持的立场，似乎已经不再强调脱欧运动曾经许诺要办到的那些事情。</p>
<p>He suggested that Britain should take its time before entering separation proceedings with Brussels, and he gave no details about when he would want to start the process. And the vision he sketched out – of a Britain that is still in a trading bloc with Europe – seemed at best difficult to achieve, since the price of membership in the single market has always been the two things the Leave movement explicitly campaigned against: free movement of European citizens across borders and contributions to the bloc’s operating budget.</p>	<p>约翰逊指出，英国在启动脱离欧盟程序前应该慢慢来；他并未详细说明自己想要在何时启动该程序。而他勾勒的英国依然留在欧洲贸易联盟中这一前景，即便往好里说也是难以实现的。因为进入欧洲单一市场一向都要付出代价：允许欧洲公民进行跨越国境的自由迁徙，并负担一部分欧盟运营成本。而这两样都是脱欧运动明确反对的。</p>
<p>Cameron also suggested that the best outcome for Britain now would be a deal in which it retained access to the single market.</p>	<p>卡梅伦也指出，现在对英国来说，最好的结局是达成一项允许其保留进入欧洲单一市场权利的协议。</p>

<p>But there were no signs that European leaders would let Britain off the hook so easily. Although Merkel has signaled a desire not to rush the process of negotiating British withdrawal, most European governments are eager to take a tough line, wanting to make clear to any other nation that might contemplate leaving that there is considerable cost to doing so.</p>	<p>但尚无迹象表明欧洲领导人会让英国如此轻易地脱离困境。尽管默克尔已经暗示，不必急于启动与英国脱欧有关的谈判，但大多数欧洲国家的政府都迫切地想要采取强硬立场，以便让其他任何可能考虑脱欧的国家明白，这样做需要付出相当大的代价。</p>
<p>The few countries that have been given access to the European free-trade zone without joining the EU – notably, Iceland, Norway and Switzerland – all contribute to the blocs budget and accept the its bedrock principle of free movement of workers, the very issues that angered so many of the Britons who voted to leave.</p>	<p>已经获得欧洲自由贸易区准入资格，但并未加入欧盟的几个国家——尤其是挪威、瑞士和冰岛——都要负担欧盟的一部分运营成本，并认可其关于劳工自由流动的基本原则，而许多英国人恰恰是因为这些问题才怒火中烧，投票赞同脱欧的。</p>
<p>Meeting in Berlin, Merkel, President François Hollande of France and Prime Minister Matteo Renzi of Italy said there would be no discussions, formal or informal, over Britain’s withdrawal until it formally invokes Article 50, the provision in the bloc’s governing treaty that sets out the process for a withdrawal.</p>	<p>在柏林会面时，默克尔、法国总统弗朗索瓦·奥朗德(François Hollande)和意大利总理马泰奥·伦齐(Matteo Renzi)表示，不会就英国的退出进行正式或非正式的讨论，除非英国正式启用规范欧盟事务的条约中的第 50 条。该条款规定了退出欧盟的程序。</p>
<p>European leaders are troubled by the prospect of a drawn-out exit inducing deeper financial and economic turmoil, a concern increasingly prevalent in London as well. On Monday morning, George Osborne, the chancellor of the Exchequer, tried to calm the markets, citing Britain’s underlying economic strengths, the greater resilience of its financial system after the 2007-08 crisis, and the readiness of the Bank of England to step in.</p>	<p>欧洲领导人担心，漫长的退出过程可能会引发更深层次的金融和经济动荡。在伦敦，对这个问题的担忧也日益普遍。周一上午，英国财政大臣乔治·奥斯本(George Osborne)试图稳定市场情绪，提到了英国内在的经济实力，称英国金融体系在经历 2007 至 2008 年的危机时相对坚韧，并且英格兰银行(Bank of England)已准备好介入。</p>

<p>Cameron summoned his Cabinet and announced the creation of a policy unit of the "best and brightest" civil servants – overseen by Oliver Letwin, a Conservative lawmaker – to orchestrate the withdrawal process. He also said he had met with Prime Minister Enda Kenny of Ireland to ensure that a British departure from the EU, of which Ireland is a member, would not endanger the fragile peace in Northern Ireland.</p>	<p>卡梅伦召开内阁会议,宣布成立了一个由“最优秀和最明智”的公职人员组成的政策小组——由保守党议员奥利弗·莱特文(Oliver Letwin)担任组长——安排退出进程。他还表示自己已同欧盟成员国爱尔兰的总理恩达·肯尼(Enda Kenny)举行了会晤,确保英国退出欧盟不会危及北爱尔兰脆弱的和平。</p>
<p>A committee of rank-and-file Conservative lawmakers met on Monday and proposed a timetable to select two candidates for party leader. <p>'Brexit' Is Locking In the Forces That Already Haunt the Global Economy</p>	<p>英国脱欧将如何拖累全球经济</p>

market swings and long-lasting economic ripples. The Sept. 11 terrorist attacks were an example, as was the 2011 Japanese nuclear disaster.	“9·11”恐怖袭击是一例，2011年日本核泄露灾难也是一例。
But the so-called Brexit is different.	但英国退出欧盟并不一样。
The immediate financial downturn after Britain voted Thursday to leave the European Union resembles the fallout from those disasters. But the other events were largely disconnected from the broader economic currents of their time. They were one-off events, at least in terms of their economic ramifications.	英国于上周四投票决定脱欧后，金融市场立即出现滑坡，与上述灾难性事件的后果颇为类似。但上述其他事件基本与当时更大范围内的经济动态无关。它们是孤立事件，至少就其经济影响而言是这样。
What makes Brexit so concerning is that it accentuates and deepens global forces that have been building for years. So far, governments have been unable to limit any of it. And those forces have self-reinforcing, vicious-cycle dimensions that make it a particularly perilous time for the global economy, even though the type of full-scale panic that followed the collapse of Lehman Brothers in 2008 looks unlikely.	英国脱欧之所以如此令人担忧，是因为它让多年来一直在集聚的全球性力量得到了突显和增强。到目前为止，各国政府还无法遏制这些力量。而且它们具有自我强化、恶性循环的特点，让全球经济面临着极度危险的时刻，尽管2008年雷曼兄弟(Lehman Brothers)破产引发的那种全面恐慌似乎不太可能出现。
Britain accounts for less than 4 percent of world G.D.P. Most people on Earth don't really have a rooting interest in the exact details of the nation's trade relationship with the rest of Europe. But its decision to leave the European Union is making more powerful six interrelated forces that already weigh on the global economy:	英国的GDP占世界经济总量的4%。它和欧洲其他国家之间的贸易关系的具体细节，并不会影响世界上大多数人的根本利益。但它脱离欧盟的决定，会让已经在拖累全球经济的六股相关力量变得更加强大。
Low inflation There is a glut of global commodities, particularly oil. There is a glut of labor, with elevated unemployment in much of the world. Inflation has been persistently below the 2 percent mark that major central banks aim for, and shows little sign of rising.	低通胀率 大宗商品，尤其是石油，在全球范围内存在供过于求的情况。由于世界上很多地方的失业率居高不下，劳动力也存在供过于求的情况。通胀率持续徘徊在各主要央行设定的2%的目标以下，几乎没有回升的迹象。
And since the Brexit decision, markets are signaling that those forces	而且自从英国决定脱欧后，市场正在发出这些力量已经变得愈发活跃的信

have become even more energized.	号。
The price of oil fell 7.5 percent from Thursday to Monday's close, despite little reason to think that the British referendum will cause any major changes in, for example, the supply of oil from oil reserves that the nation controls.	截至周一收市，石油价格较上周四下跌了 7.5%，尽管没理由认为英国的这场公投会让石油市场发生任何重大变化，譬如影响由英国控制的石油储备的供应量。
And bond markets are priced at levels that imply the years ahead will have lower inflation that was priced in before the Brexit news. While high inflation is often seen as the greater threat, in the last few years economists have viewed too-low inflation — which can discourage spending and investment and make debts more onerous — as the more pressing concern. In the United States, bond market prices imply that investors now expect annual inflation of 1.37 percent a year through 2026, down from 1.55 percent on Thursday before the vote's results, a drop of 0.18 of a percentage point; in Germany, the drop was 0.13 of a point and in Japan 0.10 of a point. (The one exception: Britain itself, which will almost certainly see much higher inflation in the coming years because of a drop in its currency.	另外，债券市场的价格水平表明，与英国脱欧的消息传出前相比，对未来几年的通胀预期变得更低了。虽然高通胀率常常被视为更大的威胁，但过去数年间，经济学家一直把过低的通胀率——会妨碍消费和投资，并让债务负担变得愈发沉重——看作更加紧迫的问题。在美国，债券市场价格显示，投资者目前预计，截至 2026 年的年均通胀率为 1.37%，与周四公投结果出炉前的 1.55% 相比，下滑了 0.18 个百分点；德国的相应数字下滑了 0.13 个百分点，日本的数字则下滑了 0.1 个百分点。（英国本身是唯一的例外，由于英镑贬值，其通胀率在未来几年里几乎肯定会大幅上升。）
Strong dollar The United States dollar has been on a tear. The dollar index, measuring its value against six other major currencies, is up more than 20 percent in the last two years.	强势美元 美元一直在升值。用以衡量其相对于另外六种主要货币的价值的美元指数在过去两年里涨了 20% 以上。
Some of this reflects good health: The United States economy is reasonably strong, with steady growth since 2009 and a 4.7 percent unemployment rate. That has led the Federal Reserve to raise interest rates once and contemplate further moves.	一方面，这在某种程度上是美国大好局面的反映：美国经济相当强劲，自 2009 年以来稳步增长，失业率仅为 4.7%。基于这种态势，美联储(Federal Reserve)已经加了一次息，而且还在考虑进一步加息。
Some of the dollar rally reflects a more negative global outlook. The	另一方面，美元的反弹折射出更加悲观的全球经济前景。欧洲、日本以及很

<p>economies of Europe, Japan and many emerging markets have remained exceptionally weak, making the United States look comparatively fantastic. Factor in the United States' traditional role as the beacon of stability in turbulent times, and American assets look more attractive than their underlying economics would suggest.</p>	<p>多新兴市场的经济仍然异常疲弱，相比之下，美国取得的成绩相当惊人。美国在动荡时期一向发挥着一种稳定信心的作用，因此美国资产比其经济基本面所暗示的更有吸引力。</p>
<p>Most worrisome is that there are some feedback loops between the strong dollar and economic weakness abroad. Many international companies, especially in China and emerging markets, owe debt in dollars, so a stronger dollar makes their debts more onerous and creates spillover economic weakness. And the stronger dollar is undermining American exporters, slowing growth in the United States.</p>	<p>最令人担忧的是，强势美元和疲软的海外经济之间存在某种反馈环。许多跨国公司，尤其是中国和新兴市场上的跨国公司，都以美元举债。当美元变得愈发强势时，它们的债务负担就变得愈发沉重，从而造成经济疲软的溢出效应。此外，较为强势的美元正在损害美国出口商的利益，并导致美国经济增长放缓。</p>
<p>Brexit is only accentuating this. The dollar index is up 3 percent since Thursday, most significantly because of the collapse in value of the British pound, but it is also up against the euro and the yen.</p>	<p>英国脱欧只会让这种状况更加突出。自从上周四以来，美元指数已经上涨了3%，最主要的原因是英镑暴跌，但美元兑欧元和日元的汇率也有所上涨。</p>
<p>Impotent Monetary policy The world's central banks are well aware of these forces, of course, and are trying to combat them. The European Central Bank and the Bank of Japan are in the middle of huge programs to try to pump money into their financial systems by buying assets. The Federal Reserve and the Bank of England have been delaying interest rate increases in hopes of achieving higher inflation and more solid growth.</p>	<p>无力的货币政策 各国央行当然对这些力量非常清楚，正竭力对抗它们。欧洲中央银行(European Central Bank)和日本央行(The Bank of Japan)都在推进大规模的计划，试图以购买资产的方式为自己的金融体系注入资金。美联储和英格兰银行(Bank of England)已经推迟了加息日程，希望看到更高的通胀率和更稳健的经济增长。</p>
<p>So far it hasn't been enough to get inflation persistently up to 2 percent or achieve sustained strong growth. And it is an open question if more of the same will change anything, particularly given that the economic challenges emanating from Britain are more because of existential</p>	<p>迄今为止，这些举措还不足以让通胀率稳定在2%，或者带来持续的强劲增长。目前尚不清楚，更多同类举措的出炉，能否让局面发生变化，尤其是考虑到以英国为源头的经济挑战主要是源于国民身份的存在问题，而非普通的商业放缓。</p>

<p>questions of national identity than because of a garden-variety business slowdown.</p>	
<p>Nonetheless, in the aftermath of Brexit, analysts and financial markets are now pricing in even slower interest rate increases for the Fed and the Bank of England, and a real possibility of yet more easing programs by the E.C.B. and the Bank of Japan.</p>	<p>不过，分析人士和金融市场预计，英国脱欧之后，美联储和英格兰银行会进一步放慢加息步伐，欧洲中央银行和日本央行则极有可能推出更多宽松计划。</p>
<p>Low interest rates Remember back in December when the Federal Reserve raised interest rates? That day, 10-year Treasury bonds were yielding 2.3 percent. Those bonds had fallen to 1.74 percent by Thursday (the Fed controls short-term interest rates directly, but longer-term rates are set in the open market).</p>	<p>低利率 还记得吗，美联储在去年12月加了一次息。当天，10年期国债收益率为2.3%。截至上周四，该国债品种的收益率跌到了1.74%（美联储直接控制短期利率，但长期利率是在公开市场上确定的。）</p>
<p>In the two trading days since the Brexit vote, that rate has fallen to 1.44 percent. Other bond markets, including across Europe and in Britain itself, have also experienced falling longer-term rates. Germany, Switzerland and several other European countries even have negative long-term interest rates, meaning a person who buys a bond and holds on to it will lose money.</p>	<p>在英国举行脱欧公投后的两个交易日里，10年期国债利率已经跌至1.44%。在其他债券市场上——包括欧洲各国和英国自身的市场——长期利率同样遭遇了下挫。德国、瑞士和其他几个欧洲国家的长期利率甚至是负数，这意味着买入并持有债券的人会赔钱。</p>
<p>That's very much related to the decline in investors' expectations for lower inflation and more central bank activism. But it may also reflect a "fear premium" as investors throw money into anything that seems safe — even if it means they are guaranteed to lose money.</p>	<p>这和投资者预计通胀率会变得更低，央行会推出更多积极的货币政策举措有很大关系。但或许也表明了“恐惧溢价”的存在，投资者会把资金投向任何看似安全的资产，即便肯定要亏钱也在所不惜。</p>
<p>Weak growth This is the underlying story behind all of these other market currents. Europe is only now returning to its 2007 level of economic output; Japan's growth is so low it is constantly bouncing in and out of recession status. In developing markets, Brazil is in recession</p>	<p>增长疲弱 这是隐藏在前述所有市场动态背后的基本情况。欧洲的经济总量目前已经回到了2007年的水平；日本的增长极其缓慢，以至于一直挣扎在衰退边缘。再看发展中国家，巴西已经步入衰退，中国的增长也在放缓。英国和美国的情况好一些，但只是以在21世纪有所降低的全球标准来衡量。</p>

<p>and China is slowing. Britain and the United States are doing better, but only by the diminished global standards of the 21st century.</p>	
<p>You can have endless debates about the underlying causes. Is this the inevitable result of a lull in productivity growth, a result of bad policy or bad luck, or some mix? Either way, the reality is that the global economy seems locked into lower growth than had been the norm in the decades before 2007.</p>	<p>至于其根本原因，可以引发无穷无尽的讨论。这是生产力增长势头停滞带来的必然结果吗，还是因为政策糟糕或者运气不佳，抑或各种原因兼而有之？不管怎样，当前的现实是，全球经济增速似乎只能低于2007年之前10年的常规速度。</p>
<p>Britain's E.U. vote raises the risk of further dragging down that growth rate, particularly if there is a prolonged period of uncertainty around the country's fate or a permanent breakdown in the trade ties that make an economy richer.</p>	<p>英国的脱欧投票有可能进一步拖累全球经济增长，如果英国的命运长期悬而不决，或者可以让经济体变得更加富裕的经贸关系遭到永久破坏，那么这种可能性就会大大上升。</p>
<p>Political instability All of this is creating a toxic political environment in much of the advanced world, driving greater polarization and the flocking of voters to candidates outside the mainstream.</p>	<p>政治不稳定 所有这些都导致许多发达国家政治环境的恶化，造成更为严重的两极分化，并让选民纷纷拥戴非主流的候选人。</p>
<p>Brexit is the most recent example, supported as it was by Nigel Farage and Boris Johnson. The rise of right-wing nationalist parties in Continental Europe is another prime example, as are the popularity of Donald J. Trump and Bernie Sanders in the United States; Jeremy Corbyn in Britain; and the far-left Podemos party in Spain.</p>	<p>英国脱欧就是最新的例子，奈杰尔·法拉奇(Nigel Farage)和鲍里斯·约翰逊(Boris Johnson)都是脱欧运动的支持者。另一个例子是右翼民族主义政党在欧洲大陆的崛起，就像唐纳德·J·特朗普(Donald J. Trump)和伯尼·桑德斯(Bernie Sanders)在美国崛起一样。此外还有杰里米·科尔宾(Jeremy Corbyn)在英国的崛起；极左翼政党“我们可以党”(Podemos)在西班牙的崛起。</p>
<p>Of course, less conventional politicians could turn out to succeed at generating stronger economic conditions where parties of the center have failed. But if nothing else, the widening of the ideological spectrum creates a wider range of possible outcomes — including some that would surely be very negative for financial markets and the global</p>	<p>当然了，不那么传统的政客最终或许可以做到主流政客未能做到的事情，让经济形势出现好转。但意识形态谱系的扩展至少会导致更多的可能后果——其中一些肯定会对金融市场和全球经济造成极为负面的影响。</p>

After ‘Brexit’ Vote, Europeans Jockey for London’s Business	脱欧公投后，欧洲城市争夺伦敦商业地位
Within hours of Britain’s vote to leave the European Union, it started.	在英国投票脱欧不久后，事情就开始了。
A Lithuanian lawmaker wrote to the chief executive of HSBC, trying to court the bank. A website promoting Frankfurt, Germany as an attractive location to invest went live. A Berlin startup published an online how-to guide for anyone looking to move to the German capital.	一位来自立陶宛的欧盟议员写信给汇丰银行(HSBC)的首席执行官，向该银行示好。一个把德国法兰克福作为诱人的投资目的地进行推广的网站宣告上线。一家柏林初创企业面向有意移居德国首都的人发布了线上指南。
Britons had only just begun to digest the results of their referendum when cities and companies across Europe leapt into action, all of them jockeying to lure businesses, entrepreneurs and investment from London, the region’s economic behemoth.	英国人才开始试着理解他们公投的后果，全欧洲的城市和公司已经迅速行动起来，竞相抛出诱饵，想要把企业、创业者以及投资从身为欧洲经济巨擘的伦敦吸引过去。
Much remains up in the air, as the country embarks on a yearslong process to leave the 28-nation bloc. Britain has not even officially filed to leave, and there will be painful negotiations on matters including trade and whether people from European Union nations will have the freedom to work in Britain, as they do now.	英国要花费数年时间，才能脱离由28个成员国组成的欧盟。当它踏上这漫漫征程的时候，许多事情都悬而未决。英国甚至尚未正式提交脱欧申请，而且要就一些事情——比如贸易，再比如来自欧盟成员国的人们是否还能像现在这样拥有在英国工作的自由——进行艰苦的谈判。
Despite the high levels of uncertainty, others in Europe are, in effect, looking to gain from Britain’s pain.	尽管存在太多不确定性，但欧洲其他国家其实正期待从英国的痛苦中获益。
Across the Continent, officials are already vocally trying to entice financial services firms, technology startups and others to forgo the	欧洲大陆各地的官员已经纷纷发声，竭力怂恿金融服务公司、科技初创企业以及其他机构抛弃英国首都伦敦，前往巴黎、卢森堡、法兰克福，甚至是相

Along with those large cities, smaller financial centers — in Belgium, Luxembourg and the Netherlands — are also getting involved. Even Lithuania, a country not typically noted as a hub for business in Europe, much less high finance, is involved.	除了这些大城市，比利时、卢森堡以及荷兰的一些较小的金融中心也正加入战团。就连通常不会被视为欧洲商业中心，更别说是金融中心的立陶宛也加入了进来。
On the day the referendum results were announced, Antanas Guoga, a Lithuanian member of the European Parliament, wrote to several financial institutions with large London staffs, suggesting they move some of their European operations to Vilnius, Lithuania’s capital, with a population of just over 500,000.	公投结果宣布当天，欧洲议会(European Parliament)立陶宛议员安塔纳斯·古欧加(Antanas Guoga)致信若干在伦敦有大批员工的金融机构，建议它们将一些欧洲分支机构迁移到维尔纽斯。维尔纽斯是立陶宛的首都，人口只有50万多一点。
Guoga, a former professional poker player and chief investment officer for Vilnius, noted in his letter that the British bank Barclays, the Danish lender Danske Bank and the stock market operator Nasdaq all had operations in the city.	古欧加曾是一名职业扑克玩家，目前是维尔纽斯的首席投资官。他在信中指出，英国的巴克莱银行(Barclays)、丹麦的丹斯克银行(Danske Bank)以及股市运营商纳斯达克(Nasdaq)都在该市设有分支机构。
“It’s an opportunity now to let everyone know about our success stories,” he said.	“这是一个让所有人了解我们的成功的机会，”他说。
Despite the overtures from elsewhere, officials in London still believe they will retain most of the business and finance that is currently based there.	尽管其他地方纷纷抛出橄榄枝，但伦敦的官员仍然相信，自己可以留住大多数总部设在伦敦的商业和金融企业。
“There will be no mass exit of banks and financial institutions from the Square Mile,” Mark Boleat, policy chairman of the City of London Corp., said in a statement, referring to the British capital’s financial center.	“不会出现银行和金融机构大规模撤离‘方里’的情况，”伦敦金融城政府政策委员会主席包墨凯(Mark Boleat)在一份声明中表示。“方里”(Square Mile)指的是伦敦的金融中心。
“The City of London has thrived as a financial and trading center for more than 1,000 years,” he said, “and will continue to do so.”	“伦敦作为一个金融和贸易中心已经繁荣了1000多年，”他说，“必将继续繁荣下去。”

While cities are fiercely competing to steal companies from London, others are hoping to profit by helping companies sort through their options.	当一些城市为了挖走伦敦的公司而激烈竞争的时候, 另外一些人希望通过帮助公司梳理面前的选择来获利。
Major law firms in the British capital are gearing up for a surge in business: A spokesman for Allen & Overy said that before the results of the referendum, 500 clients registered to take part in a conference call discussing the fallout from the so-called Brexit. After the results, 1,200 more signed up.	伦敦各大律所正开足马力, 应对业务的猛增: 安理国际律师事务所(Allen & Overy)的发言人表示, 公投结果出炉前, 有 500 个客户报名参加一场讨论英国脱欧影响的电话会议。结果出炉后, 又有 1200 个客户报名。
Real estate agents in major cities across the Continent, including Stockholm and Frankfurt, are also reporting increased interest from banks and technology companies casting their eyes away from London.	斯德哥尔摩、法兰克福等欧洲大陆各大城市的房地产经纪机构也纷纷表示, 银行和科技公司现在更愿意把目光从伦敦转向其他地方。
All of this has been a long time coming. The referendum was officially announced in February, but has been in the cards for more than a year, and those hoping to profit from a Brexit have been planning extensively.	所有这些由来已久。英国于今年 2 月正式宣布了将要举行公投的消息, 但早在一年多以前人们就知道很可能迎来公投。那些希望从英国脱欧中获利的人已经做了大量准备。

Refugees Encounter a Foreign Word: Welcome	加拿大志愿者向叙利亚难民敞开怀抱
TORONTO — One frigid day in February, Kerry McLorg drove to an airport hotel here to pick up a family of Syrian refugees. She was cautious by nature, with a job poring over insurance data, but she had never even spoken to the people who were about to move into her basement.	多伦多——今年 2 月一个寒冷的日子里, 凯莉·麦克隆格(Kerry McLorg)开车去某机场酒店接一家叙利亚难民。从事保险数据研究的她生性谨慎, 但此前, 她并未和即将搬进她家地下室的这家人说过话。
"I don't know if they even know we exist," she said.	"我甚至不知道他们是否知道我们的存在," 她说。

<p>At the hotel, Abdullah Mohammad's room phone rang, and an interpreter told him to go downstairs. His children's only belongings were in pink plastic bags, and the family's documents lay in a white paper bag printed with a Canadian flag. His sponsors had come, he was told. He had no idea what that meant.</p>	<p>在酒店，阿卜杜拉·穆罕默德(Abdullah Mohammad)房间里的电话铃响了起来，一个翻译告诉他可以下楼了。他的孩子们行李不多，都放在粉色塑料袋里，全家人的文件则放在一个印着加拿大国旗的白色纸袋里。他接到通知，说他的赞助者们来了。他不知道这是什么意思。</p>
<p>Across Canada, ordinary citizens, distressed by news reports of drowning children and the shunning of desperate migrants, are intervening in one of the world's most pressing problems. Their country allows them a rare power and responsibility: They can band together in small groups and personally resettle — essentially adopt — a refugee family. In Toronto alone, hockey moms, dog-walking friends, book club members, poker buddies and lawyers have formed circles to take in Syrian families. The Canadian government says sponsors officially number in the thousands, but the groups have many more extended members.</p>	<p>在加拿大各地，有许多普通民众为溺亡儿童和背井离乡的绝望难民感到悲伤，纷纷参与到这项世界上最紧迫的问题中来。他们的国家赋予他们一项罕有的权力与责任：他们可以结成小群体，以个人身份重新安置（实质上等于收养）一个难民家庭。仅在多伦多，因孩子打冰球而结识的妈妈们、遛狗认识的朋友、读书俱乐部的成员、打扑克的牌友和律师们纷纷组成小群体，接纳叙利亚家庭。加拿大政府说，官方确认的赞助者已达数千人，但是这些小组还有更多外围成员。</p>
<p>When McLorg walked into the hotel lobby to meet Mohammad and his wife, Eman, she had a letter to explain how sponsorship worked: For one year, McLorg and her group would provide financial and practical support, from subsidizing food and rent to supplying clothes to helping them learn English and find work. She and her partners had already raised more than 40,000 Canadian dollars (about \$30,700), selected an apartment, talked to the local school and found a nearby mosque.</p>	<p>麦克朗格走进酒店大厅，去迎接默罕默德和他的妻子艾曼(Eman)，她带着一封信，里面对这项赞助活动做出了解释：一年内，麦克朗格和她的小组会提供经济的以及各种实质性的援助——从食物、房租补助到衣服，甚至帮助他们学英语、找工作。她和搭档们已经筹集了4万加元（约合人民币20.6万元），选好了一处公寓，同当地学校谈好入学问题，还在附近找好了清真寺。</p>
<p>McLorg, the mother of two teenagers, made her way through the crowded lobby, a kind of purgatory for newly arrived Syrians. Another member of the group clutched a welcome sign she had written in</p>	<p>麦克朗格是两个十几岁孩子的妈妈，她走过拥挤的大厅，这样的地方对于新来的叙利亚人不啻为一种折磨。小组的另一个成员手里拿着一块标识，上面用阿拉伯语写着表示欢迎的字样，但她发现自己其实也拿不准这块牌子有没</p>

<p>Arabic but then realized she could not tell if the words faced up or down. When the Mohammads appeared, McLorg asked their permission to shake hands and took in the people standing before her, no longer just names on a form. Abdullah Mohammad looked older than his 35 years. His wife was unreadable, wearing a flowing niqab that obscured her face except for a narrow slot for her eyes. Their four children, all under 10, wore donated parkas with the tags still on.</p>	<p>有拿倒。穆罕默德一家出现了，麦克朗格征求对方同意后与他们握了手；他们终于站在了她的面前，不再只是表格上的名字。阿卜杜拉·穆罕默德 35 岁，但看上去比实际年龄要老，他的妻子则说不清年龄，松垂的面纱遮住了她的面孔，只有一条窄缝露出眼睛。他们有四个孩子，都不到 10 岁，穿着捐助的冲锋衣，标牌还没有撕去。</p>
<p>For the Mohammads, who had been in Canada less than 48 hours, the signals were even harder to read. In Syria, Abdullah had worked in his family's grocery stores and Eman had been a nurse, but after three years of barely hanging on in Jordan, they were not used to being wanted or welcomed. "You mean we're leaving the hotel?" Abdullah asked. To himself, he was wondering, "What do these people want in return?"</p>	<p>对于来到加拿大还不到 48 小时的穆罕默德一家来说，眼前的种种信号更加捉摸不透。在叙利亚，阿卜杜拉在自家的杂货铺里工作，艾曼曾是护士。但是在约旦逗留三年后，他们已经习惯了遭人厌恶遭人嫌这件事。“你是说我们要离开酒店了？”阿卜杜拉问。他想知道，“这些人要什么回报呢？”</p>
<p>Much of the world is reacting to the refugee crisis — 21 million displaced from their countries, nearly 5 million of them Syrian — with hesitation or hostility. Greece shipped desperate migrants back to Turkey; Denmark confiscated their valuables; and even Germany, which has accepted more than half a million refugees, is struggling with growing resistance to them. Broader anxiety about immigration and borders helped motivate Britons to take the extraordinary step last week of voting to leave the European Union.</p>	<p>在这场难民危机中，有 2100 万难民逃出自己的国家，其中近 500 万是叙利亚人，世界上的大多数地方对于这场危机的回应是犹豫，甚至是敌意。希腊把绝望的难民用船送回土耳其；丹麦没收了他们的财产；就连接纳了 50 多万难民的德国，对他们的抗拒也在日益增加。对移民与边境日渐增多的焦虑，使得英国人在上个星期采取极端措施，投票脱离欧盟。</p>
<p>In the United States, even before the Orlando massacre spawned new dread about "lone wolf" terrorism, a majority of American governors said they wanted to block Syrian refugees because some could be</p>	<p>在美国，就连在奥兰多大屠杀制造出对“独狼”恐怖主义日渐蔓延的新恐惧之前，有大半的美国州长表示，他们不希望接受叙利亚难民，因为其中一些人可能是危险分子。稳获共和党总统提名的唐纳德·特朗普(Donald Trump)呼</p>

Donald Trump, the presumptive Republican presidential nominee, has called for temporary bans on all Muslims from entering the country and recently warned that Syrian refugees would cause “big problems in the future.” The Obama administration promised to take in 10,000 Syrians by Sept. 30 but has so far admitted about half that many.</p>	<p>吁，要临时禁止所有的穆斯林进入这个国家，近来又警告说，叙利亚难民可能“在未来造成重大问题”。奥巴马政府承诺到9月30日接受1万名叙利亚难民，但到现在为止仅接受了一半不到。</p>
<p>Just across the border, however, the Canadian government can barely keep up with the demand to welcome them. Many volunteers felt called to action by the photograph of Alan Kurdi, the Syrian toddler whose body washed up last fall on a Turkish beach. He had only a slight connection to Canada — his aunt lived near Vancouver — but his death caused recrimination so strong it helped elect an idealistic, refugee-friendly prime minister, Justin Trudeau.</p>	<p>然而，在边境对面，加拿大政府却忙于满足人们对他们的欢迎。去年秋天，很多志愿者看了尸体被冲到土耳其海滩上的叙利亚孩子阿兰·库尔蒂(Alan Kurdi)的照片后，觉得有义务采取行动。他和加拿大只有一点点关系——他的阿姨生活在温哥华附近——但他的死引发了强烈的反应，以至于加拿大人投票选举了理想主义的、对难民友善的贾斯廷·特鲁多(Justin Trudeau)担任总理。</p>
<p>Impatient would-be sponsors — “an angry mob of do-gooders,” The Star called them — have been seeking more families. The new government committed to taking in 25,000 Syrian refugees and then raised the total by tens of thousands.</p>	<p>想成为赞助者的民众迫不及待地寻找更多家庭——《星报》(The Star)称他们是“一群愤怒的热心人”。新政府承诺接纳2.5万名叙利亚难民，后来又把总数提高到了数万人。</p>

<p>Advocates for sponsorship believe that private citizens can achieve more than the government alone, raising the number of refugees admitted, guiding newcomers more effectively and potentially helping solve the puzzle of how best to resettle Muslims in Western countries. The fear is that all of this effort could end badly, with the Canadians looking naive in more ways than one.</p>	<p>赞助工作的支持者们相信，与仅靠政府的力量相比，普通公民可以做得更多，同时增加接受移民的数量，并更有效地引导新来者，甚至还有助于解决如何在西方国家重新安置穆斯林这个难题。但也有人担心，加拿大人在很多方面看起来都太天真，这些努力有可能换来糟糕的结局。</p>

<p>The Syrians are screened, and many sponsors and refugees take offense at the notion that they could be dangerous, saying they are often victims of terrorism themselves. But U.S. officials point out that it is very difficult to track activity in the chaotic, multifaceted Syrian war. Several Islamic State members involved in the 2015 Paris attacks arrived on Europe's shores from Syria posing as refugees.</p>	<p>叙利亚人经过了筛查，很多赞助者和难民都觉得，把难民视为危险人物是一种侮辱，他们说，难民也往往是恐怖主义的受害者。但是美国官员指出，在混乱复杂的叙利亚战争中，很难追溯一个人的行为。有几个卷入2015年巴黎恐怖袭击事件的伊斯兰国成员都是伪装成难民，从叙利亚来到欧洲。</p>
<p>Some of the refugees in Canada have middle- and upper-class backgrounds. But many more face steep paths to integration, with no money of their own, uncertain employment prospects and huge cultural gaps. Some had never heard of Canada until shortly before coming here.</p>	<p>一些来到加拿大的难民有中产或上层阶级背景。但是更多难民需要面对艰难的融合之路，他们没有钱、就业前景不明，还面临巨大的文化差异，有些人甚至到来前不久，才听说加拿大这个地方。</p>
<p>And volunteers cannot fully anticipate what they may confront — clashing expectations of whether Syrian women should work, tensions over how money is spent, families that are still dependent when the year is up, disagreements within sponsor groups.</p>	<p>志愿者们也不能完全预料到自己可能面对的情况：对叙利亚女性是否应该工作的预期存在冲突；金钱的用途可能导致的紧张；一年过后，这些家庭有可能仍然无法独立；赞助小组内部也会产生分歧。</p>
<p>Still, by mid-April, only eight weeks after their first encounter with McLorg, the Mohammads had a downtown apartment with a pristine kitchen, bikes for the children to zip around the courtyard, and a Canadian flag taped to their window.</p>	<p>然而，到4月中旬，距离见过麦克朗格第一面仅八周之后，穆罕默德一家已经在闹市拥有了一套带有全新厨房的公寓，孩子们可以在院子里骑自行车，他们的窗户上贴着一面加拿大国旗。</p>
<p>Abdullah Mohammad searched for the right words to describe what the sponsors had done for him. "It's like I've been on fire, and now I'm safe in the water," he said.</p>	<p>阿卜杜拉·穆罕默德寻找着合适的字眼来描述赞助者们为他所做的好事。“就好像我本来着火了，现在我安全地呆在水里了，”他说。</p>
<p>There still was some culture shock. When Abdullah Mohammad took the children to a community pool, he encountered a woman in a string bikini. "I ran away," he said later. "I've never seen that before in my life."</p>	<p>文化冲击还是存在。阿卜杜拉·穆罕默德带孩子们到社区泳池，遇到一个穿吊带比基尼的女人。“我跑开了，”他后来说，“我这辈子从未见过这样的情景。”</p>

<p>In mid-May, at the end of a routine meeting with the sponsors and the Mohammads, McLorg shared news of her own: She had breast cancer. Now that she was facing surgery, she was the one who was vulnerable, and the Syrians were the ones who were checking on her.</p>	<p>5月中旬,在赞助者与穆罕默德一家的例会上,麦克朗格说了一件自己的事:她患了乳腺癌。她要做手术了,现在她成了脆弱的一方,那家叙利亚人变成了关照她的人。</p>
<p>They brought flowers and chocolates; the other sponsors, now practiced in the logistics of caring, offered meal deliveries and other assistance. "I had no intention of building my own support group, but I have one now," McLorg said.</p>	<p>他们为她带来鲜花和巧克力;其他的赞助人现在负责照顾她,为她送餐,提供其他帮助。“我从来没想到建立自己的支援小组,但是现在我有了一个,”麦克朗格说。</p>
<p>Bayan and Batoul, the two oldest Mohammad children, made get-well cards using the same set of watercolors the sponsors had used to make greeting signs that first day at the airport hotel. The morning after McLorg's operation, when she made her way down to her living room, the cards were the first things she saw.</p>	<p>穆罕默德家的老大和老二——巴扬(Bayan)和巴图尔(Batoul)用各位赞助人第一天在机场绘制欢迎标识的那套水彩颜料制作了慰问卡。麦克朗格手术翌日早上,当她回到自家客厅,那些卡片是她看到的第一样东西。</p>

Bombing at Bangladesh's Largest Eid Gathering Kills at Least 3	孟加拉国开斋节聚会发生爆炸案
DHAKA, Bangladesh — A bombing at Bangladesh's largest gathering for the Eid al-Fitr holiday killed two police officers and a civilian on Thursday, police officials said, a day after the Islamic State warned that more attacks would follow the militants' bloody siege in the capital last week.	孟加拉国达卡——警方官员表示，周四在孟加拉国最大的开斋节聚会上发生的爆炸，已导致两名警察和一名平民丧生。这次事件发生的前一天，伊斯兰国曾警告说，武装分子上周在孟加拉国首都制造了血腥人质事件后，还会发动更多的袭击。
The attack on Thursday occurred at Sholakia Eidgah, a prayer ground in the Kishoreganj district, about 60 miles northeast of Dhaka, the capital. More than 100,000 people were estimated to have gathered there for Eid al-Fitr, the holiday that concludes the Muslim holy month of Ramadan.	周四的袭击事件发生在首都达卡东北部约 100 公里的吉绍尔甘杰县的秀拉奇亚·埃德戈(Sholakia Eidgah)祈祷地。据估计，有 10 多万人聚集在那里，以庆祝标志着穆斯林斋月结束的开斋节。

Prime Minister Sheikh Hasina issued a statement deploring the attack and the killers who had carried it out. "What kind of Islamic virtues do they hold as they go to kill people instead of offering their prayers at prayers time, carry out a suicidal bomb attack," she said.	孟加拉国总理谢赫·哈西娜(Sheikh Hasina)发表声明谴责了袭击以及制造袭击者。她说,“他们在该祈祷的时候不作祈祷,而是去杀人,制造自杀式炸弹袭击,这些人哪还有什么伊斯兰美德?”
In the aftermath of a bloody weekend attack carried out by young men, several from prosperous families, the prime minister renewed official entreaties to parents and school administrators to inform the authorities about unexplained and prolonged absences by young men.	上周末,几名年轻男子制造了血腥的袭击,他们中的有些来自富裕家庭。孟加拉国总理此次再次恳求家长和学校管理者,如果年轻男子原因不明地长时间消失,请告知当局。
"I urge the guardians to take steps to bring back their missing sons home," she said. "We will give them all cooperation to find their missing boys and for their treatment, if necessary."	"我敦促监护人采取措施,把他们下落不明的儿子找回家,"她说。"我们将给予他们全面的合作,帮助他们找到失踪的男孩,如果有必要的话,也为这些男孩提供治疗。"
More details emerged about the attack on the religious gathering on Thursday.	周四宗教集会袭击案的更多细节逐渐浮出。
About half an hour before morning prayers were to begin, a group of men approached a police checkpoint at a high school near the prayer ground and set off a bomb, said Tofazzel Hossain, an assistant superintendent of the Kishoreganj police. "They attacked the police out of nowhere," said Mr. Hossain, who added that some of the attackers had been carrying guns and bladed weapons.	吉绍尔甘杰助理警司托法泽尔·侯赛因(Tofazzel Hossain)说,晨祷开始大约半个小时前,一群男子前往设在祈祷场所附近一所高中的警察检查站,引爆了一枚炸弹。"他们突然出现,袭击了检查站,"侯赛因说,一些袭击者携带着枪支和刀具。
Six other officers were seriously wounded, said a police inspector, Mueid Chowdhury, but they were expected to survive. Several civilians were also hurt.	督察穆伊德·乔杜里(Mueid Chowdhury)说,有六名警察受了重伤,但他们应该没有生命危险。还有几名平民受伤。
The police killed one of the attackers and arrested two others, Mr. Hossain said. A search was underway for the other assailants.	侯赛因说,警察击毙了一名袭击者,逮捕了两名。目前他们正在搜索其他袭击者。

<p>There was no immediate claim of responsibility for the attack on Thursday. But the imam of the Sholakia Eidgah mosque, Maulana Fariduddin Masud, had taken a public stance against violence committed in the name of Islam. <p>In Death, Qandeel Baloch, Pakistani Social Media Star, Is Celebrated as a Feminist Hero</p>	<p>巴基斯坦网红遭弟弟“荣誉处决”</p>

<p>Ms. Baloch had attracted a huge following, and no shortage of controversy, on social media with provocative photos and videos. Rafia Zakaria, a columnist for the newspaper Dawn and the author of "The Upstairs Wife," a book about the place of women in Pakistani culture, said that in a young and increasingly urban society, Ms. Baloch had represented a generation of women who were increasingly independent and who used technology to express themselves.	《黎明》报的专栏作家、写有讲述妇女在巴基斯坦文化中地位的《楼上的妻子》(The Upstairs Wife)一书的作者拉菲娅·扎卡里亚(Rafia Zakaria)说，在一个年轻的、日益城市化的社会里，俾路支代表着新一代更加独立、会运用科技手段表达自己的女性。
"This is a new weapon in the hands of Pakistani women," she said in a phone interview on Monday.	"这是巴基斯坦女性手中的新武器，"周一她在接受电话采访时说。
Reem Wasay wrote of Ms. Baloch in Dawn: "She had questionable taste and she openly mocked our outrage, but she made a lot of us root for her because she was so unbelievable we almost thought she was invincible."	里姆·维西(Reem Wasay)在《黎明》报上谈论俾路支时写道："她的品味值得怀疑，她公开嘲笑我们的愤怒，不过她能让我们很多人支持她，因为她太不可思议了，我们几乎认为她是不可战胜的。"
As of Tuesday morning, more than 3,000 people had signed an online petition, posted by a feminist collective, that condemned Ms. Baloch's death, called her "a rebel, an artist, and a gutsy feminist provocateur," and mourned her, along with victims of domestic violence in the United States and elsewhere.	周二上午，一个女权主义团体在网上发布的请愿书获得3000多人签名支持，表达对俾路支之死的愤慨和哀悼，称她是"反抗者、艺术家、勇敢的女权主义挑战者"，同时也向美国等地的家暴受害者表示哀悼。
But while many people lauded Ms. Baloch, others celebrated her death on social media.	不过，虽然很多人称赞俾路支，也有人在社交媒体上庆祝她的死亡。
There are hundreds of "honor killings" in Pakistan each year, and the assailants often go free because a legal loophole in the country allows the authorities not to prosecute a murder case if the victim's family forgives the killer.	巴基斯坦每年发生数百起"荣誉处决"，袭击者往往都能逃脱惩罚，因为该国法律有个漏洞：如果受害者的家人原谅凶手，当局可以不予起诉。

<p>The authorities also said they were investigating a high-ranking cleric, Mufti Abdul Qavi, who had appeared with Ms. Baloch in selfies taken in a hotel room last month. <p>In remarks to GeoTV, Ms. Baloch's mother accused Mr. Qavi of provoking Mr. Azeem into killing her daughter. <p>Born Fauzia Azeem into a poor family in a small town in Punjab Province, Ms. Baloch said she was forced into marriage at age 17. <p>The opening ceremony for the Rio Games is scheduled for Aug. 5.</p>	<p>里约奥运会的开幕式定于8月5日举行。</p>
<p>Among the issues with housing units at the village are "blocked toilets, leaking pipes and exposed wiring," said Kitty Chiller, a former Olympic pentathlete whose title is chef de mission in Rio de Janeiro for the Australian Olympic Committee. There is also bad lighting in many stairwells and "dirty floors in need of a massive clean," she said in a written statement.</p>	<p>曾是奥运五项全能运动员的姬蒂·奇列尔(Kitty Chiller)说,奥运村的房屋存在的问题包括“厕所堵塞、管道漏水和线路裸露在外”。她现在的头衔是澳大利亚奥林匹克委员会(Australian Olympic Committee)赴里约热内卢代表团的团长。她还在书面声明中表示,很多楼梯井灯光昏暗,“地板肮脏,需要大规模清扫”。</p>

<p>Rio de Janeiro won the bid to host the 2016 Summer Games seven years ago, when few obstacles were apparent. <p>The United States expects to have 500 athletes and staff members staying in the Olympic Village. “As is the case with every Games, we’re working with the local organizers to address minor issues and make sure the Village is ready for Team USA athletes,” said Patrick Sandusky, a spokesman for the United States Olympic Committee.</p>	<p>美国计划有 500 名运动员和工作人员入住奥运村。“和每一届奥运会一样，我们正与当地组织者一起应对一些小问题，从而确保奥运村为美国奥运代表团的入住做好准备，”美国奥委会发言人帕特里克·桑达斯基(Patrick Sandusky)说。</p>

Russian Military Helicopter Is Shot Down in Syria, Killing 5	俄罗斯军机在叙利亚被击落，5人遇难
MOSCOW — A Russian military transport helicopter was shot down Monday in the Syrian province of Idlib, killing the three crew members and two officers on board in the deadliest episode for the Russian military since it intervened in the country, Russian officials said.	莫斯科——俄罗斯官员称，周一，一架俄罗斯军用运输直升机在叙利亚的伊德利卜省被击落，机上三名机组成员和两名官员遇难，这是俄罗斯军方介入叙利亚战事以来遭到的最重大伤亡。
The Mi-8 helicopter was hit by ground fire as it returned to the Hemeimeem air base from a mission to the embattled city of Aleppo, according to the Russian Defense Ministry.	俄罗斯国防部称，这架米-8直升机奉命前往战火纷飞的城市阿勒颇执行任务，在返回哈迈尼姆空军基地途中被地面火力击落。
Video footage, posted on Facebook by anti-government activists shortly before the Russian Defense Ministry confirmed the attack, showed two burned bodies on the sand about 300 feet from what appeared to be a helicopter in flames.	俄罗斯国防部确认发生袭击事件不久前，反政府活动人士在 Facebook 发布的一段视频显示，沙滩上有两具烧焦的尸体，距尸体约 300 英尺处有一架在燃烧的直升机。
In the video, a number of men, some of them armed, cheered around the bodies, shouting "Allahu akbar," God is great in Arabic. One of them jumped on a body, joyfully.	视频上，许多男人——有些持有武器——围着尸体欢呼，用阿拉伯语高喊“真主至大”。其中一个人兴高采烈地跳上了一具尸体。
A set of images, also released online, showed two Russian drivers' licenses — one belonging to a young woman, another to a young man — and a laminated Orthodox icon of God. It was not possible to establish the names of the people pictured on the licenses.	同样被发布在网上的一系列图片显示了两份俄罗斯驾照——一份属于一名年轻女子，另一份属于一名年轻男子——以及一张有覆膜的东正教圣像。驾照照片中的人的姓名难以确认。

The Syrian Observatory for Human Rights, which opposes the Syrian government and tracks the conflict from Britain through contacts in Syria, said the helicopter crashed near the village of Saraqib in Idlib province.	总部设在英国，通过叙利亚境内的联系人对坠机事件进行了追踪的反政府组织叙利亚人权观察(Syrian Observatory for Human Rights)称，直升机是在伊德利卜省萨拉齐布村附近坠毁的。
The aircraft had recently delivered aid to two Shiite villages nearby that have long been surrounded by Sunni rebels, the group said.	该组织称，这架飞机最近给附近两个被逊尼派叛军长期包围的什叶派村庄运送过救援物资。
None of Syria's many rebel groups immediately claimed responsibility for shooting down the helicopter. But at a news briefing Monday, Lt. Gen. Sergei F. Rudskoi, a senior member of the Russian general staff, said it had been shot down over territory controlled by the Nusra Front and "the so-called moderate opposition."	事件发生后没有任何一个叙利亚反叛组织声称对击落直升机一事负责。但俄罗斯总参谋部高级成员谢尔盖·F·鲁茨科伊中将(Lt. Gen. Sergei F. Rudskoi)在周一的新闻发布会上表示，飞机是在努斯拉阵线(Nusra Front)和“所谓的温和反对派”控制的领地上空被击落的。
Last week, Russia said it had established several humanitarian passages in Aleppo to let civilians and insurgents leave the area. So far, 324 civilians and 82 militants have left the city through them, Rudskoi said. (Opposition groups in Syria have disputed these claims.)	俄罗斯称，上周它在阿勒颇设立了几个人道主义通道，让平民和叛军离开该地区。鲁茨科伊说，截至目前，已有324名平民和82名武装分子经由这些通道离开。(叙利亚反对派组织对这些说法进行了驳斥。)

"And they always said they wanted to have something that is occurring in the same time: They want to have loads of attacks at the same time in England and Germany and France."</p>	<p>那个戴面具的男人解释说，尽管该组织在一些欧洲国家已经根基稳固，但特别是在德国和英国，他们还需要更多袭击者。"他们说，'你们愿不愿意回到德国，因为这才是我们此刻最需要的，"萨弗回忆。"他们总是说，他们希望搞同时行动：他们希望在英国、德国和法国有很多起袭击同时发生。"</p>
<p>The operatives belonged to an intelligence unit of the Islamic State known in Arabic as the Emni, which has become a combination of an internal police force and an external operations branch, dedicated to exporting terror abroad, according to thousands of pages of French, Belgian, German and Austrian intelligence and interrogation documents obtained by The Times.</p>	<p>时报获取了法国、比利时、德国和奥地利的数千份情报和审讯材料，这些材料显示，这些特工属于伊斯兰国的一个情报组织，阿拉伯语名为 Emni。它成了内部警察力量与境外活动机构的合体，致力于向海外输出恐怖。</p>

Now, Sarfo's account, along with those of other</p>	<p>11月13日，伊斯兰国对巴黎的袭击引发了全球对该组织境外恐怖网络的关注，它从两年前就开始向海外派遣战士。如今，萨弗以及其他被捕的伊斯兰国新成员的供述进一步揭示了该组织向境外传播暴力的机制。</p>

<p>captured recruits, has further pulled back the curtain on the group's machinery for projecting violence beyond its borders.</p>	
<p>What they describe is a multilevel secret service under the overall command of the Islamic State's most senior Syrian operative, spokesman and propaganda chief, Abu Muhammad al-Adnani. Below him is a tier of lieutenants empowered to plan attacks in different regions of the world, including a "secret service for European affairs," a "secret service for Asian affairs" and a "secret service for Arab affairs," according to Sarfo.</p>	<p>他们描述的是一个多层秘密特工网络，接受伊斯兰国资格最老的叙利亚干事、发言人与宣传主管阿布·穆罕默德·阿里-阿德纳尼(Abu Muhammad al-Adnani)的总体指挥。在他下面，是一批副手，被授权在世界各地策划袭击。根据萨弗的说法，他们有一个“欧洲事务特工处”，一个“亚洲事务特工处”，还有一个“阿拉伯事务特工处”。</p>
<p>Reinforcing the idea that the Emni is a core part of the Islamic State's operations, the interviews and documents indicate that the unit has carte blanche to recruit and reroute operatives from all parts of the organization — from new arrivals to seasoned battlefield fighters, and from the group's special forces and its elite commando units. Taken together, the interrogation records show that operatives are selected by nationality and grouped by language into small, discrete units whose members sometimes only meet one another on the eve of their departure abroad.</p>	<p>这些采访和文件进一步印证了一点：Emni 是伊斯兰国活动的核心组织；并表明，这个机构有全权从组织的任何部分招募和重新派遣人员——从新人到老兵，也从该组织的特殊武装部队和精英突击队招募。把这些审讯记录汇总起来，可以看出，那些行动人员是按照国别选择的，并且根据语言分成了不相关联的小组，其成员有时只在出国前夕才会碰头。</p>
<p>And through the coordinating role played by al-Adnani, terror planning has gone hand-in-hand with the group's extensive propaganda operations — including, Sarfo claimed, monthly meetings in which al-Adnani chose which grisly videos to promote based on battlefield events.</p>	<p>通过阿里-阿德纳尼的统筹协调，恐怖行动的策划和该组织广泛的宣传行动密切配合。萨弗说，他们每月都要开会，阿里-阿德纳尼会根据战场情况选择对外传播哪些恐怖视频。</p>
<p>Based on the accounts of operatives arrested so far, the Emni has become the crucial cog in the group's terrorism machinery, and its</p>	<p>根据已经抓获的特工人员的供词，Emni 已经成为伊斯兰国恐怖主义机器中的一个关键零件。主导巴黎袭击事件，以及制造布鲁塞尔机场航站楼和地铁</p>

<p>With European officials stretched by a string of assaults by seemingly unconnected attackers who pledged allegiance to the Islamic State, also known as ISIS or ISIL, Sarfo suggested that there may be more of a link than the authorities yet know. He said he was told that undercover operatives in Europe used new converts as go-betweens, or “clean men,” who help link up people interested in carrying out attacks with operatives who can pass on instructions on everything from how to make a suicide vest to how to credit their violence to the Islamic State.</p>	<p>欧洲领导人被一连串看似毫无联系，但都宣誓效忠伊斯兰国的袭击者弄得疲于奔命。萨弗说，这些袭击者之间的联系可能比官方目前所掌握的要多。他说，自己被告知，欧洲有许多秘密特工使用新加入的成员作为联络人，或被称为“干净人”。他们负责让有意执行恐怖袭击的人和传达指示的人搭上线。指示包罗万象，从如何制作自杀背心，到如何表明他们的暴力活动是伊斯兰国所为。</p>
<p>The group has sent “hundreds of operatives” back to the European Union, with “hundreds more in Turkey alone,” according to a senior U.S. intelligence official and a senior U.S. defense official, both of whom spoke on the condition of anonymity to discuss intelligence.</p>	<p>这个组织派遣了“数百名特工”回到欧盟各国，“土耳其一国就还有好几百”，一位美国高级情报官员和一位美国高级国防官员说。两人都因谈话内容涉及情报而要求匿名。</p>
<p>Sarfo, who was recently moved out of solitary confinement at his German prison because he is no longer considered violent, agrees with that assessment. “Many of them have returned,” he said. “Hundreds, definitely.”</p>	<p>被关押在德国的萨弗最近被解除了单独囚禁，因为他被认为已经没有暴力倾向。他认同两位官员的估计。“很多人都回去了，”他说。“肯定有好几百。”</p>
<p>The first port of call for new arrivals to the Islamic State is a network of dormitories in Syria, just across the border from Turkey. There, recruits are interviewed and inventoried.</p>	<p>受感召的新人来到伊斯兰国，第一站就是叙利亚境内的一片宿舍，靠近土耳其边境。他们在这里接受面试，并被录入名单。</p>
<p>Sarfo checked all the necessary boxes, and on the third day after his arrival, the members of the Emni came to ask for him. He wanted to</p>	<p>萨弗走完了所有程序。第三天，Emni 的成员来找他。他希望在叙利亚和伊拉克参加战斗，但蒙面的特工解释说，他们有一个棘手的问题。</p>

<p>fight in Syria and Iraq, but the masked operatives explained that they had a vexing problem.</p>	
<p>"They told me that there aren't many people in Germany who are willing to do the job," Sarfo said soon after his arrest last year, according to the transcript of his interrogation by German officials, which runs more than 500 pages. "They said they had some in the beginning. But one after another, you could say, they chickened out, because they got scared — cold feet. Same in England."</p>	<p>"他们告诉我，在德国没有多少人愿意做这项工作，"萨弗说。德国官方对他的审讯记录显示，这是他去年被捕后不久所做的供述。记录长达500多页。"他们说，他们一开始有些人。但是一个个的，可以说，都退缩了，因为他们害怕了——临阵退却了。在英格兰也是如此。"</p>
<p>By contrast, the group had more than enough volunteers for France. "My friend asked them about France," Sarfo said. "And they started laughing. But really serious laughing, with tears in their eyes. They said, 'Don't worry about France.' 'Mafi mushkilah' — in Arabic, it means 'no problem.'" That conversation took place in April 2015, seven months before the coordinated killings in Paris in November, the worst terrorist attack in Europe in over a decade.</p>	<p>相比之下，这个组织在法国却有足够的志愿者。"我的朋友问他们关于法国的情况，"萨弗说。"他们笑了起来。但的确是非常严肃的笑，眼睛里还含着泪。他们说，'别操心法国'。'Mafi mushkilah'——就是阿拉伯语'没问题'的意思。"这番对话发生在2015年4月，七个月之后，也就是11月，巴黎发生了协同屠杀惨案，这是10多年来欧洲所遭受的最严重的恐怖袭击。</p>
<p>While some details of Sarfo's account cannot be verified, his statements track with what other recruits related in their interrogations. And both prison officials and the German intelligence agents who debriefed Sarfo after his arrest said they found him credible.</p>	<p>萨弗的供述里有一些细节未能证实，但他的陈述同其他伊斯兰国新兵的供词是吻合的。监狱官员和他被捕后讯问过他的德国情报人员都认为他可信。</p>
<p>Since the rise of the Islamic State over two years ago, intelligence agencies have been collecting nuggets on the Emni. Originally, the unit was tasked with policing the Islamic State's members, including conducting interrogations and ferreting out spies, according to interrogation records and analysts. But French members arrested in 2014 and 2015 explained that the Emni had taken on a new portfolio:</p>	<p>自从伊斯兰国在两年多以前崛起后，情报机构便开始搜集关于Emni的零星情报。根据审讯记录和分析师的说法，起先，这个组织的职责是监督伊斯兰国内部成员，包括进行审讯和揪出间谍。但是2014和2015年被捕的法国伊斯兰国成员们说，Emni已经有了新任务：向海外输出恐怖。</p>

<p>projecting terror abroad.</p>	
<p>"It's the Emni that ensures the internal security inside Dawla" — the Arabic word for state — "and oversees external security by sending abroad people they recruited, or else sending individuals to carry out violent acts, like what happened in Tunisia inside the museum in Tunis, or else the aborted plot in Belgium," said Nicolas Moreau, 32, a French citizen who was arrested last year after leaving the Islamic State in Syria, according to his statement to France's domestic intelligence agency.</p>	<p>"Emni 确保 Dawla 的内部安全" (dawla 是阿拉伯语"国家") "并把他们招募的人送往海外, 或者派遣人员, 执行暴力行动, 比如突尼斯博物馆内的事件, 或者在比利时临时取消的行动计划, 通过这些手段保障外部安全, "32 岁的法国公民尼古拉斯·莫罗(Nicolas Moreau)说。这是他对法国国内情报部门所做的供述。他在离开叙利亚伊斯兰国组织后, 于去年被捕。</p>
<p>Moreau explained that he had run a restaurant in Raqqqa, Syria, the de facto capital of the group's territory, where he had served meals to key members of the Emni — including Abdelhamid Abaaoud, the on-the-ground commander of the Paris attacks, who was killed in a standoff with the police days later.</p>	<p>莫罗说, 他曾在叙利亚的拉卡经营一家餐馆。拉卡是该组织控制的疆域的事实上的首都。莫罗的餐馆接待过 Emni 的一些重要成员, 包括巴黎袭击的现场指挥阿卜德勒哈米德·阿巴奥德(Abelhamid Abaaoud), 此人数日后在与警察的对峙中被击毙。</p>
<p>Other interrogations, as well as Sarfo's account, have led investigators to conclude that the Emni also trained and dispatched the gunman who opened fire on a beach in Sousse, Tunisia, in June, and the man who prepared the Brussels airport bombs.</p>	<p>不仅是萨弗的叙述, 其他审讯记录也让调查者推断, 6 月份在突尼斯苏塞海滩开枪的枪手以及准备布鲁塞尔机场炸弹的人也是 Emni 培训和派遣的。</p>
<p>Records from French, Austrian and Belgian intelligence agencies show that at least 28 operatives recruited by the Emni succeeded in deploying to countries outside of the Islamic State's core territory, mounting both successful attacks and plots that were foiled. Officials say that dozens of other operatives have slipped through and formed sleeper cells.</p>	<p>法国、奥地利和比利时情报机构的记录显示, Emni 招募的至少 28 名特工被成功部署到伊斯兰国核心区域外的国家, 他们进行了一些成功的袭击, 也有些计划被挫败。官员们称, 另有数十名特工混进目标国家, 并建立起潜伏组织。</p>
<p>In his own interactions with the Emni, Sarfo realized that they were preparing a global portfolio of terrorists and looking to fill holes in their</p>	<p>萨弗说, 在与 Emni 的交往中, 他发现, 他们在筹建一个全球性恐怖分子网络, 并努力填补网络中的漏洞。</p>

international network, he said.	
In his briefings with the German authorities, and again in the interview this week, Sarfo raised the possibility that some of the recent attackers in Europe who pledged allegiance to the Islamic State's leader during their assaults might have a more direct link to the group than officials believe.	在向德国官方交代情况以及在本周的采访中，萨弗提出了一种可能性：欧洲近期的恐袭制造者和伊斯兰国之间的关联可能比官员之前认为的更直接。这些袭击者都在行动中宣称效忠伊斯兰国领袖。
Sarfo explained that the Emni keeps many of its operatives underground in Europe. They act as nodes that can remotely activate potential suicide attackers who have been drawn in by propaganda. Linking them are what Sarfo called "clean men," new converts to Islam with no established ties to radical groups.	萨弗说，Emni 在欧洲安插的很多特工都是地下的。他们就像节点，能远程激活被宣传洗脑的自杀式袭击者。把他们联系起来的，是萨弗所说的“干净人”，也就是刚皈依伊斯兰教、与激进组织没有历史联系的人。
"These people are not in direct contact with these guys who are doing the attacks, because they know if these people start talking, they will get caught," he said of the underground operatives.	"这些人与将要发动袭击的人没有直接接触，因为他们知道，如果这些人嘴不紧，他们就会被捕，"他指的是这些地下特工。
The intelligence documents and Sarfo agree that the Islamic State has made the most of its recruits' nationalities by sending them back to plot attacks at home. Yet one important region where the Emni is not thought to have succeeded in sending trained attackers is North America, Sarfo said, recalling what the members of the branch told him.	情报文件和萨弗的供述都显示，伊斯兰国充分利用新成员的国籍，派他们回国策划袭击。但萨弗回忆说，Emni 成员曾对他说，Emni 在一个重要地区未能成功派遣受过培训的袭击者，那就是北美。
Though dozens of Americans have become members of the Islamic State, and some have been recruited into the external operations wing, "they know it's hard for them to get Americans into America" once they have traveled to Syria, he said.	萨弗说，虽然已有数十名美国人成为伊斯兰国成员，有些还被招募进入境外活动组，但"他们知道"，美国人一旦去过叙利亚，就"很难再回到美国"。
"For America and Canada, it's much easier for them to get them over the social network, because they say the Americans are dumb — they	"在美国和加拿大，通过社交网络争取信徒要容易得多，因为他们说美国人很傻——他们有开放的枪支政策，"他说。"他们说，我们很容易就可以让他

<p>have open gun policies," he said. "They say we can radicalize them easily, and if they have no prior record, they can buy guns, so we don't need to have no contact man who has to provide guns for them."</p>	<p>们变得激进，如果他们之前没有犯罪记录，就能买到枪支，所以我们不需要单线联系人给他们提供枪支。”</p>
<p>During his time in Syria, Sarfo was contacted by other German fighters who wanted him to be an actor in a propaganda film aimed at German speakers. They drove to Palmyra, and Sarfo was told to hold the group's black flag and to walk again and again in front of the camera as they filmed repeated takes. Syrian captives were forced to kneel, and the other German fighters shot them, showing an interest only in the cinematic effect.</p>	<p>萨弗在叙利亚期间，其他德国籍的战士和他联系，想让他在面向德语观众的宣传影片中出镜。他们开车到巴尔米拉，让萨弗拿着该组织的黑色旗帜，在镜头前不停地走，他们一遍一遍地拍摄。叙利亚俘虏被逼下跪，其他德国士兵射杀他们，他们的兴趣好像只在影片效果上。</p>
<p>One turned to Sarfo immediately after killing a victim and asked: "How did I look like? Did I look good, the way I executed?"</p>	<p>其中一名士兵在射杀一名受害者之后很快转头问萨弗：“我刚才看起来怎么样？我处决的方式帅吗？”</p>
<p>Sarfo said he had started doubting his allegiance to ISIS during his training, after seeing how cruelly they treated those who could not keep up. Making the propaganda video provided his final disillusionment when he saw how many times they recorded each scene in the 5-minute film. Back in Germany, when he had been inspired by similar videos, he had always assumed they were real, not staged.</p>	<p>萨弗说，他在训练中看到他们对待落后士兵的残酷方式后，开始怀疑自己对伊斯兰国的忠诚。拍摄宣传视频时，他看到他们为了5分钟的视频无数次拍摄每一个画面时，他最终感到幻灭。他在德国被类似的视频鼓舞时，还以为它们是真实的，不是演出来的。</p>
<p>He began plotting his escape, which took weeks and involved sprinting and crawling in a field of mud before crossing into Turkey. He was arrested at Bremen Airport, where he landed on July 20, 2015, and he voluntarily confessed. He is now serving a three-year term on terrorism charges.</p>	<p>他开始计划逃跑。他用了好几个星期才逃脱，有时需要狂奔，有时在泥地里爬行。最后他到达了土耳其。2015年7月20日，他在不来梅机场落地后被捕。他自愿认罪。他因恐怖主义罪被判处三年监禁，目前正在服刑。</p>

Flocking to Robben Island: Tourists by Day, Poachers by Night	曾关押曼德拉的罗本岛，成了偷猎鲍鱼的乐园
Robben Island in South Africa is getting to be notorious again — and this time it's not for racial oppression.	南非罗本岛的名声再次开始变得越来越坏，但这次不是因为种族压迫。
The apartheid-era prison on the island is now a tourist attraction, where visitors from around the world pause with reverence outside the cell where Nelson Mandela was kept. The ferry ride back to the mainland merely deepens the sense of isolation that the inmates must have felt.	种族隔离时代岛上的一个监狱现在是一个旅游景点，来自世界各地的游客们怀着崇敬的心情在曾经关押曼德拉的狱室前短暂停留。从岛上返回大陆乘坐的轮渡，只会加深犯人一定会感受到的与世隔绝的氛围。
But the waters surrounding Robben Island, just off the coast near Cape Town, also happen to be among the richest in the world for delicious shellfish — especially abalone, which is highly prized in Asia. That has made the island a hot spot for shellfish poaching.	但是，离开普敦海岸不远的罗本岛周围的水域，也正好是世界上最盛产美味贝类的地方，尤其是亚洲认为非常珍贵的鲍鱼。这使罗本岛成为一个贝类偷猎的热点。
At night, when the island is closed to tourists, poachers in inflatable boats known as rubber ducks often make their way toward its rocky coastline and dive illegally in the shallows in search of the mollusks.	每天晚上，当罗本岛对游客关门之后，偷猎者往往乘着被称为橡皮鸭的充气艇，来到该岛岩石嶙峋的海岸线，在那里非法潜入不很深的水中，搜索软体动物。
One night in May, the authorities were tipped off to a poaching excursion and went on watch. Around 4 a.m., a boat was spotted pulling into a harbor with its lights turned off — a dead giveaway. Officials from a special police task force and the Department of Agriculture, Forestry and Fisheries stood ready.	今年5月的一个晚上，当局得到有人要去偷猎的报案，派了人前去查看。大约凌晨4点时，一艘船向港口开来，但没有打灯，这让该船的目的暴露无疑。来自一个处理特殊案件组的警察、以及来自农林渔业部门的官员已严阵以待。
But the poachers saw the law enforcement boats and sped off, eventually abandoning their vessel and vanishing on shore. The authorities seized 2,858 pieces of abalone worth \$68,400.	但是，偷猎者看到了执法船只后便飞驰而去，这些人最终放弃自己的船，消失在海岸上。当局查获了价值6.84万美元的2858个鲍鱼。
Abalone can be found along much of South Africa's coast, but their numbers have been declining rapidly because of overfishing and poaching. Commercial catches are now severely restricted, and	鲍鱼在南非沿海许多地方都有，但是由于过度捕捞和偷猎，它们的数量在急剧下降。目前，商业捕捞量已受到严格的限制，以休闲为目的的鲍鱼打捞也已被禁止了十多年。但是，来自亚洲的需求持续走强，导致非法捕捞激增。

recreational fishing for abalone has been banned for more than a decade. But demand from Asia remains strong, fueling the illegal harvest.	
Abalone grow slowly, taking seven years to reach sexual maturity and one or two more to reach the minimum size to be taken legally. That way, they ought to get at least a little time to reproduce and replace themselves. (Left alone, abalone can live 30 years or more.)	鲍鱼生长缓慢，需要七年时间才能达到性成熟，之后还要一两年的时间才能长到满足合法捕捞的最小尺寸。这种情况下，它们至少应该有一点点时间来自我繁殖和替代。（如果没人捕捞，鲍鱼可以活 30 年，甚至更长时间。）
But the poachers pay little heed to sustainability. The fisheries department says that two-thirds of the abalone it confiscates from poachers are younger and smaller than the legal minimum, and that the waters around Robben Island have been particularly hard hit.	但偷猎者几乎不关心可持续性。渔业部门称，从偷猎者那里没收的鲍鱼有三分之二年龄和尺寸小于合法捕捞的最小标准，而罗本岛周边水域受到的影响尤为严重。

Egypt Suspends 8 Female TV Anchors, Saying They Are Overweight	埃及 8 名女主播因“超重”被停职
CAIRO — Most Egyptian journalists have had to watch their tongues and tone down their reporting over the past three years to keep their jobs under a military-dominated government. Now, the state is ordering some women working as television anchors to practice a similar restraint with their weight.	开罗——过去三年里，在以军方为主导的政府领导下，大部分埃及记者为了保住饭碗，不得不谨言慎行，避免发出过于尖锐的报道。现在，这个国家正要求电视台的一些女主播以同样的克制态度面对自己的体重问题。
Earlier this week, Safaa Hegazy, the director of state-run Egyptian radio and television, barred eight anchorwomen from appearing on the air for a month, saying they were overweight, the state-owned Al-Ahram news website confirmed. Ms. Hegazy ordered the women to go on a diet during their suspensions, Al-Ahram said.	经官方报纸《金字塔报》(Al Ahram)的网站证实，本周早些时候，国有性质的埃及广播电视联盟负责人萨法·赫加齐(Safaa Hegazy)禁止八名女主播在未来一个月内出现在荧屏上，说她们超重了。《金字塔报》称，赫加齐勒令这些女性在停职期间节食减肥。
Khadija Khatab, one of the eight anchorwomen, said that she had not yet been formally notified of Ms. Hegazy's order, but added that she	八位女主播之一的哈蒂嘉·哈塔布(Khadija Khatab)接受了一家私人电视台的采访，称自己尚未正式收到与赫加齐的命令有关的通知，但她补充说，自己

<p>Ms. Khatab said she was offended that coverage of her ordeal included words like “fat” and similar terms she called “unfair” and “insulting.” She also said that the pictures of her that had been circulating and mocked on the internet and social media sites were old and that she had lost weight since they were taken.</p>	<p>哈塔布说，媒体对其困境的报道中夹杂着“肥胖”等她称之为“不公平的”、“带有侮辱性的”的字眼，让她受到了冒犯。她还表示，互联网和社交网站上流传的她那些备受嘲弄的照片是很久以前拍摄的，她的体重自那时已经有所下降。</p>
<p>“I believe I am an ordinary Egyptian woman who looks normal, and I don’t wear too much makeup,” Ms. Khatab said, challenging people to contradict her.</p>	<p>“我认为我是一名外表正常的普通埃及女性，而且我的妆并非过浓，”哈塔布说她愿意听听反驳的声音。</p>
<p>Many did.</p>	<p>许多人都做出了反驳。</p>

<p>Fatma al-Sharawi, another Al-Ahram writer, welcomed the move as a way to improve the abysmal ratings of the state channels. “Is a ban for eight enough?” she asked.</p>	<p>《金字塔报》的另一名作者法特玛·沙拉维(Fatma al-Sharawi)认为这是一项很好的举措，有助于提振国家电视台糟糕的收视率。“停八个人的职够吗？”她问。</p>

<p>“They don’t understand that people don’t watch them because they have no credibility, skills or quality,” said Mostafa Shawky, a free-press advocate with the Association for Freedom of Thought and Expression.</p>	<p>“他们不明白，人们不看他们的节目是因为他们没有信誉、才能或品质，”自由思想与表达协会(Association for Freedom of Thought and Expression)的媒体自由倡导者穆斯塔法·肖凯(Mostafa Shawky)说。“这跟外表无关。但</p>

<p>"It has nothing to do with looks. But it goes to show that actual skill is not something they care about."</p>	<p>此事表明，他们并不关心真正的才能。”</p>

<p>Maybe it was his haircut, long and floppy up top; or his rumpled T-shirt showing the Nickelodeon cartoon character CatDog; or his tentative, confused movements in a widely circulated video — gestures familiar to anyone who has loved a child. Or the instant and inescapable question of whether a parent was left alive to give him a hug.</p>	<p>或许是因为他有些长又乱蓬蓬的头发；抑或是他皱巴巴的T恤，上面还印着尼克洛迪恩儿童频道的卡通角色“猫狗”；又或者是因为他在这个广为流传的视频里那些充满犹豫和困惑的动作——对于喜欢孩子的人来说，他的姿势再熟悉不过。又或者是因为那个紧急而又无可回避的问题：他的父母是否生还，是否还能再来拥抱他？</p>
<p>In any event, by Thursday morning, Omran’s image had been broadcast and published around the world, and Syrians were sharing mock-ups of his photograph in memes that both cried for help and darkly mocked the futile repetitiveness of such pleas.</p>	<p>不管怎样，星期四的早晨，全世界都播放或登载了奥姆兰的形象，叙利亚人纷纷分享这张照片的仿作，它们既呼吁帮助，亦悲观地嘲讽这种一再重复的请求是多么无用。</p>
<p>One, riffing on Omran’s officelike chair, showed him at a desk as if representing his country to the world.</p>	<p>其中一张图片拿奥姆兰坐着的、看起来像办公用椅的椅子做文章，在他面前放了一张桌子，仿佛向世人代表着他的国家。</p>
<p>Another pasted him like a silent accusation between President Obama and his Russian counterpart, President Vladimir V. Putin.</p>	<p>另一张图片让他置身于奥巴马总统(President Obama)和俄国总统弗拉基米尔·V·普京(Vladimir V. Putin)中间，仿佛是一种无声的控诉。</p>
<p>The drafting of Omran as an emblem of despair is not new; images of dead and injured children from Syria are shared daily on social media, many of them indescribably more harrowing. Pieces of children’s bodies being pulled from rubble are photographed with appalling regularity in a war of indiscriminate attacks, most often from government airstrikes and shelling but also from rebel mortars.</p>	<p>奥姆兰的形象成为绝望的象征，这绝非什么新鲜事；叙利亚伤亡儿童的形象每天都在社交网络上传播，其中有很多悲惨到无法用语言表达的程度。在一场无差别攻击的战争中，儿童尸体碎片从废墟中挖出来的照片如此常见，到了惊人的地步，这样的攻击不仅来自政府的空袭和轰炸，也来自反对派武装的炮火。</p>
<p>But while the mind revolts against looking too long at those pictures, and many news media shun them as too gruesome, it may be the</p>	<p>尽管这样的照片看久了会让人觉得反感，很多新闻媒体也因为太过残酷而避免发表这样的照片，但奥姆兰痛苦的样子，看上去仍然相对来说让人感觉熟</p>

<p>relatively familiar look of Omran's distress that allows a broader public to relate to it.</p>	<p>悉，引发了公众更广泛的共鸣。</p>
<p>In the case of Alan, the Syrian toddler who washed up on a beach last year, after his family tried to reach Europe on a smuggler's boat, the child was dead. But his body was intact, lying in the sand as if sleeping, and dressed neatly with evident parental love for his big journey.</p>	<p>在去年那个尸体被冲上岸的孩子阿兰的事件里，他全家乘坐偷渡船去欧洲，这个孩子死了。但他的尸体却完好无损，躺在沙滩上，仿佛熟睡一般，他衣着整洁，证明漫长的旅途中，他一直有父母的爱相伴。</p>
<p>Omran, as he is carried from a damaged building in the dark, could be Everychild. He looks around in confusion, his chubby forearm draped trustingly across the reflective stripe on his rescuer's back, before he is plopped into the chair at the back of ambulance, lit blindingly white.</p>	<p>奥姆兰在黑暗中从遭到破坏的建筑里被拖出来，他可能和任何孩子没什么两样。他困惑地打量四周，胖乎乎的小胳膊信任地垂在救护人员背上的反光条纹上，后来他被放在灯光白得刺眼的救护车后部的椅子上。</p>
<p>He settles into a thousand-yard stare, apparently too stunned to cry. Then he puts a hand to his bloody brow, looks at his palm in surprise, and tries to wipe it on the chair. Then he glances around, as if trying to understand where he is.</p>	<p>他茫然地凝视着远方，震惊到忘了哭泣。后来他伸手去摸流血的额头，吃惊地看着自己的手掌，想把血抹在椅子上。然后他又四下打量，好像想弄清自己到底在哪儿。</p>
<p>Omran's picture and video were distributed by the Aleppo Media Center, a longstanding group of antigovernment activists and citizen journalists who document the conflict. They were also shared with journalists by doctors from the hospital where he was treated, which is supported by the Syrian American Medical Society.</p>	<p>奥姆兰的照片和视频由阿勒颇医疗中心提供，这个存在多时的组织由反政府活动分子和记录这场冲突的公民记者所组成。这家医院由叙利亚-美国医疗社团(Syrian American Medical Society)赞助，医院的医生们也向记者们提供了若干他接受治疗的照片和视频。</p>
<p>The video shows two more small children brought to the ambulance, and then two adults, one person on a stretcher, one man covered in dust and agitated but able to walk.</p>	<p>在视频上，两个更小的孩子被带上救护车，跟着是两个大人，其中一个人躺在担架上，另一个男人浑身都是灰土，显得非常焦躁，不过还能走路。</p>

body.	
"The boy was traumatized," Mr. Ahmad said. "He wasn't speaking when he arrived. A few minutes later, he started crying from pain."	"这个孩子受了精神创伤，"艾哈迈德说。"他进来的时候什么话也不说。几分钟后，他开始因为疼痛而哭起来。"
Mr. Ahmad cleaned Omran's face and bandaged his head, as images shared by the hospital's medical staff showed. Doctors said they found no apparent signs of brain injury.	如医院的医务人员分享的图像所示，艾哈迈德洗干净奥姆兰的脸，给他的头部做了包扎。医生们说他们没有发现脑损伤的明显迹象。
In the chaos, the hospital workers, who communicated via online messages, could not immediately say which of the boy's adult relatives were alive and whether they were with him.	在一片混乱中，医院通过网络对外联系的工作人员无法立刻说出这个孩子的成人亲属是否还活着，是不是和他在一起。
That is not unusual, medical workers say, in a city where some dead and injured children cannot even be identified because they are brought in alone. Bombings bring so many patients at once that doctors treat them on the floor, and hospitals and medical workers have been systematically targeted in the war.	医务人员说，这种情况并不罕见，在这个城市里，很多死去和受伤的孩子甚至无法识别身份，因为他们是独自被送来的。轰炸一下子就带来太多伤员，医生们得在地上治疗他们，同时医院和医务人员也是战争中遭受系统打击的对象。
Later, doctors at the hospital said they had verified that Omran's parents had survived, though their home had been destroyed. Relatives declined to speak, saying they were afraid of government reprisals. The doctors said the family may have relatives living in government-controlled territory.	后来，医院的医生们说，他们已经证实奥姆兰的父母还活着，不过他们的家被摧毁了。相关人士害怕遭到政府的报复，因此拒绝发言。医生们说，这家人可能有亲戚生活在政府控制的区域内。
Mahmoud Raslan, who had taken some of the video and photographs of Omran, said in an interview that the boy lived with his mother, father and three siblings, and that they were all injured.	为奥姆兰拍摄了若干视频和照片的马哈茂德·拉斯兰(Mahmoud Raslan)在接受采访时说，这个男孩和父母以及三个兄弟姐妹住在一起，他们都受了伤。
Cases like Omran's are a daily sight in eastern Aleppo, several doctors said, adding that he was lucky in that he made it to a hospital that was still open.	几个医生说，奥姆兰这样的事情在东阿勒颇每天都会发生，并说他很幸运，被送到一家仍然开着的医院。

Mr. Ahmad, the nurse, said three other children had been hospitalized with Omran, along with a 22-year-old man who had been stuck under rubble for eight hours. He said that at least three people had died in the strike.	护士艾哈迈德说，还有三个孩子和奥姆兰一起被送进医院，以及一个在废墟下被埋了八个小时的22岁男子。他说，至少有三人在这次空袭中丧生。
"But Omran took all the attention," he said.	"但是奥姆兰得到了所有人的关注，"他说。
Mr. Raslan, the photographer, was surprised that the images of this one boy drew so much news coverage when, he said, he photographs similar events every day.	一个孩子的影像得到了那么多新闻报道，令摄影师拉斯兰感到惊讶，他说，他每天都在拍下类似的事件。
On Thursday morning, journalists from around the world were clamoring in an online chat group for more information about Omran and his family. But the doctors had moved on.	星期四上午，世界各地的记者在网上的各个聊天群组里喧哗不休，要求得到关于奥姆兰和其家人的更多信息，但是医生们已经向前看了。
They were handling yet another influx from a bombing in the morning, later posting new images. A boy lay on the floor, his legs missing. A woman in black put her hand to her mouth in anguish.	他们在忙着处理另一批当天早上遭受轰炸的伤员，后来又贴出了新的影像。一个男孩躺在地上，没有了双腿。一个穿黑衣的女人痛苦地捂着嘴。
Another boy lay on a gurney, soaked in blood, as a clinician worked on him. A few minutes later came another text message: The boy had died. His name was Ibrahim Hadiri, and there was a new photograph of his face, eyes closed. It is not likely to go viral.	另一个男孩躺在运送病人的轮床上，浑身是血，医生在他身边忙碌。几分钟后传来一则文字信息：这个男孩死了。他的名字是易卜拉欣·哈迪里(Ibrahim Hadir)，还有一张他的新照片，他的双眼已经合上。这张照片不太可能在网上得到大肆传播。

Omran, the Face of Aleppo's Suffering, Is Just One of Syria's Young Victims	触目惊心，那些在叙利亚战火中受难的儿童
Omran Daqneesh, a small Syrian boy from the embattled rebel-held section of Aleppo, somehow snapped to attention millions of people around the world, who watched and shared the arresting video of him as he wiped dried blood and thick soot from his face.	叙利亚阿勒颇(Aleppo)是一个遭围困的反对派控制区，来自那里的小男孩奥姆兰·达克尼什(Omran Daqneesh)，突然之间引起全世界成百上千万人关注，他们观看并转发了他擦去脸上的干血和厚尘土的惊人视频。

<p>The widespread interest in 5-year-old Omran surprised the doctors who treated him, the photographer who shot the video and many Syrians who wondered whether the world had only just discovered how children have suffered every day in a war that has raged for more than five years.</p>	<p>5岁的奥姆兰所引起的广泛关注令他的医生、拍摄这段视频的摄影师以及很多叙利亚人感到意外，他们想知道世人是否刚知道，在过去五年多肆虐的战火中，孩子们每天都在遭受痛苦。</p>
<p>On Saturday, Omran's 10-year-old brother, Ali, died of wounds he suffered during the same attack, medical workers said. Ali's death, which did not draw the same instant social media outpouring as Omran's suffering, only underscored how many Syrian children are dying under the radar of the wider world.</p>	<p>医护人员称，周六，奥姆兰10岁的哥哥阿里(Ali)因在同一场袭击中受伤过重去世。阿里之死并没有像奥姆兰的遭遇那样在社交媒体上立即引发轰动。不过这更突显出，无数叙利亚儿童正在广大世界不知情的情况下默默死去。</p>
<p>Omran was injured on Wednesday by either a Syrian or a Russian airstrike — Russia has denied involvement — that destroyed the building where his family lived in eastern Aleppo. On Thursday, a pro-government website published a photograph of a young girl that it said was hurt — around the same time as Omran — by rebel mortar attacks on the government-held western side of the city.</p>	<p>周三，奥姆兰在空袭中受伤，该空袭可能由叙利亚发起，也可能是俄罗斯——俄罗斯已否认与自己有关，空袭摧毁了他家在阿勒颇东部居住的房子。周四，一个亲政府的网站公布了一个据说受伤的小女孩的照片。她几乎是和奥姆兰同时受伤的，不过是在政府控制的城市西部，因反对派的迫击炮袭击而受伤。</p>
<p>The rebels have no air power, and the devastation in Aleppo has been greater on the rebel-held side. One monitoring group, the Syrian Observatory for Human Rights, said that 100 children had died on the city's eastern side this month alone, and 49 on the western side. For each family, the loss is immeasurable. And there are children constantly caught up in battles in other places, on all sides, across war-torn Syria.</p>	<p>反对派没有空中部队，所以他们在阿勒颇的控制区遭到的破坏更严重。叙利亚人权观察组织(Syrian Observatory for Human Rights)称，单是本月在该市东部就有100名儿童死去，西部则有49名儿童死去。对每个家庭来说，损失都是不可估量的。在被战火撕裂的叙利亚，在各方控制的其他区域，不断有儿童被卷入战火。</p>
<p>Omran's picture has resonated for reasons obvious and unknowable. Here are images of seven of the many other children treated in the past week at hospitals in the same region. They are taken from among</p>	<p>奥姆兰的照片引起共鸣的原因有些很明显，有些不得而知。过去一周，同一地区的各医院有多名儿童接受治疗，下面是其中七名儿童的照片。它们选自阿勒颇的医生和其他居民在WhatsApp的一个记者群里发布的照片。</p>

several that were posted by doctors and other residents of Aleppo on a WhatsApp group for journalists.	
Ahmad Tadifi, 2	艾哈迈德·塔迪菲, 2岁
Doctors did not know who this child was when he arrived at the same hospital that treated Omran. On Wednesday, Ahmad had been separated from his family – as happens to many children in the chaotic aftermath of an attack – in the Mashhad neighborhood of Aleppo.	这个孩子被送到医治奥姆兰的同一家医院时, 医生们不知道他是谁。周三, 艾哈迈德(Ahmad)在阿勒颇的马什哈德(Mashhad)与家人失散——在袭击后的混乱中, 很多孩子都遇到过这种情况。
He underwent surgery for serious injuries to his head, groin and right arm and leg. Later identified, Ahmad was kept in the intensive care unit of the hospital along with his father.	他因为头部、腹股沟、右臂和右腿受重伤而接受手术治疗。后来艾哈迈德的身份确定后, 他和父亲一起住进了该院的重症监护室。
Late on Friday, he died from his injuries.	周五晚些时候, 他因伤势过重去世。
Rouwaida, 5, and Rana Hanoun, 7 months	卢万达·哈农, 5岁; 拉娜·哈农, 7个月
The Hanoun sisters were wounded on Wednesday in the same airstrike that injured Omran. They were among 12 children under 15 who were treated at the same hospital in Aleppo. Both of the girls had suffered shrapnel wounds, but were treated and then released on Thursday morning. Doctors shared their picture with the WhatsApp group around the same time they shared the photograph of Omran.	周三, 在导致奥姆兰受伤的同一场空袭中, 哈农(Hanoun)姐妹也受伤了。在这家医院, 接受治疗的15岁以下儿童共有12名。两姐妹都是因榴霰弹受伤, 不过在接受治疗后已于周四早上出院。几乎是在那个WhatsApp群里发布奥姆兰照片的同时, 医生们也发了她们的照片。
Aisel Hajar, 2	埃塞尔·哈杰尔, 2岁
Aisel suffered wounds to her head and to one of her legs on Tuesday, and was treated at Al Quds hospital. On Saturday, the severity of her injuries could not be confirmed because doctors were busy treating new cases. But activists have nicknamed her “Syria’s Cinderella” because of a picture that one took of her shoes – Mary Janes, worn with white socks.	周二, 埃塞尔(Aisel)的头部和一条腿受伤, 在圣城医院(Al Quds)接受治疗。周六, 依旧无法确认她的伤势, 因为医生们在忙于治疗新病人。不过, 活动人士称她为“叙利亚的灰姑娘”, 因为有一张照片拍到她穿着玛丽珍鞋(Mary Janes)和白色短袜。

Amal, 4, and Hikmat Hayouk, 6	阿迈勒·哈欧克, 4岁; 希克马特·哈欧克, 6岁
The Hayouk siblings suffered cuts and bruises when an aircraft opened fire on Wednesday over the Sakhour neighborhood, and they were treated around the same time and at the same hospital as Omran. The children's wounds were relatively minor, but an adult relative suffered a critical neck wound.	周三, 一架飞机在萨胡尔(Sakhour)社区上空开火, 哈欧克(Hayouk)兄妹身上有多处划伤和瘀伤。他们几乎是和奥姆兰在同一时间、同一家医院接受治疗。这两个孩子的伤势相对较轻, 不过他们的一名成年亲戚颈部受到重伤。
An unidentified boy	一个身分不明的男孩
Efforts to identify this boy, below, were unsuccessful. He was treated on Tuesday night at the Omar Hospital and released, said Baraa al-Halabi, a citizen journalist who photographed him. None of the medical workers who could be reached remembered the boy, which is not unusual in the overwhelmed hospitals.	确认下面这名男孩身份的努力没有成功。给他拍照的公民记者巴拉·艾尔·哈拉比(Baraa al-Halabi)称, 周二晚上, 这名男孩在奥马尔医院(Omar Hospital)接受治疗, 后来出院。能联系上的医护人员都不记得这个男孩——在忙碌的医院, 这种情况并不少见。
At 3 a.m. Saturday, a barrel bomb landed on a house in the Jalloum quarter of Aleppo's old city, destroying the house and killing seven members of one family — including all four children — said Abdelkafi al-Hamdo, a friend of the father's. The children were Aisha, 12; Mohammad, 11; Obaida, 7; and Afraa, 6. There is no picture of their injuries to show because they were pulled dead from the rubble. Their father, Ali Abu Joud, recorded this video of three of his children's bodies wrapped in shrouds. His voice can be heard breaking as he tells them goodbye, calling them "habibati" — my darlings — "birds of heaven, gone to the one who is better, gone to God."	周六凌晨3点, 阿勒颇旧城贾鲁姆区(Jalloum)的一所房子毁于油桶炸弹, 造成七名家庭成员殒命, 据孩子父亲的朋友阿卜德尔卡菲·艾尔·哈姆多(Abelkafi al-Hamdo)说, 死者包括全家四个孩子。他们分别是12岁的艾莎(Aisha)、11岁的穆罕默德(Mohammad)、7岁的奥巴达(Obaida)和6岁的阿夫拉(Afraa)。没有他们受伤的照片, 因为他们从碎石中拉出来时已经死去。他们的父亲阿里·阿布·朱德(Ali Abu Joud)拍摄了三个孩子的尸体裹在裹尸布里的视频。他们告别时, 你能听见他哽咽地呼唤他们"habibati"——意思是"我亲爱的"——"天堂的小鸟, 去更好的地方吧, 去真主那里吧"。

Syria's Horrors Visit Turkey Again as Bomber Attacks Kurdish Wedding	土耳其"血色婚礼"51人亡, 袭击者不足14岁
ISTANBUL — The wedding on Saturday night was winding down, and	伊斯坦布尔——在周六晚上举行的这场婚礼正进入尾声, 有些宾客已经离开。

<p>some guests had already left. But the music was still playing and people were still dancing in the narrow streets of Gaziantep, a city not far from the Syrian border.</p>	<p>但是在距离叙利亚边境不远的加济安泰普市几条狭窄的街道上，音乐依然在响，人们还在跳舞。</p>
<p>Just then a child — no more than 14 years old, Turkey’s president said later — meandered into the gathering and detonated a vest of explosives.</p>	<p>就在此时，一个孩子——土耳其总统后来称其最多只有 14 岁——若无其事地走进人群，引爆了身上装满炸药的背心。</p>
<p>Suddenly, the most joyous of occasions became a scene of blood and gore, with body parts scattered all around. Once again, the horrors of Syria’s civil war had visited Turkey.</p>	<p>突然之间，这场欢腾的喜事变成了血淋淋的惨剧，遍地是人体残肢。叙利亚内战的恐怖再一次到访土耳其。</p>
<p>The devastating bombing of the Kurdish wedding in Gaziantep killed at least 51 people and wounded 69. President Recep Tayyip Erdogan blamed the Islamic State, the terrorist group that controls a swath of land straddling the frontier between Iraq and Syria.</p>	<p>在加济安泰普这场库尔德婚礼上发生的爆炸惨案，至少导致 51 人死亡，69 人受伤。土耳其总统雷杰普·塔伊普·埃尔多安(Recep Tayyip Erdogan)将之归咎于伊斯兰国。该恐怖组织控制着伊拉克和叙利亚边境之间的一片狭长区域。</p>
<p>“In this area, we live in a ring of fire,” said Hilmi Karaca, a Kurdish activist who witnessed the explosion. “We live in a place where mothers are weeping for their dead children just hours after crying tears of joy at a wedding.”</p>	<p>“我们过着水深火热的生活，”目击了这场爆炸的库尔德活动人士希勒米·卡拉贾(Hilmi Karaca)说。“在这里，一个母亲刚刚在婚礼上流下快乐的眼泪，几个小时之后就开始了为死去的孩子哭泣。”</p>
<p>The attack was the deadliest in a string of terrorist bombings that have struck Turkey this year, as it grapples with the spiraling chaos of spillover from the war in Syria.</p>	<p>在土耳其今年遭遇的一系列由恐怖分子制造的爆炸事件中，这一次的伤亡是最惨重的。源自叙利亚战场的混乱日渐波及该国，令他们疲于应付。</p>

<p>The runner, Feyisa Lilesa, will not fly back to Ethiopia on Tuesday with the rest of his team, his agent said, choosing instead to remain in Brazil with his immigration status unclear.</p>	<p>该选手名为费伊萨·利莱萨(Feyisa Lilesa)，他的经纪人表示，他不会在周二同队里的其他人一起，搭乘飞机返回埃塞俄比亚，而是选择在移民身份尚不确定的情况下留在巴西。</p>
<p>"He didn't plan at all for this," said Mr. Lilesa's agent, Federico Rosa, speaking by telephone from Brescia, Italy. "He doesn't want to go to Ethiopia, he wants to go to another country. The U.S. would be very good but right now we just don't know where he's going to go. He was very happy after winning but also a bit confused."</p>	<p>“这根本不是他计划好的，”利莱萨的经纪人费德里科·罗萨(Federico Rosa)在意大利布雷西亚接受电话采访时说。“他不想回埃塞俄比亚，想去其他国家。美国会是非常好的选择，但现在我们根本不知道他会去哪里。比赛赢了以后他非常高兴，但也有点困惑。”</p>
<p>By raising his arms and crossing them in an X in front of his face as he crossed the finish line Sunday, Mr. Lilesa, 26, has crossed the Ethiopian government, one of the most repressive in Africa.</p>	<p>上周日冲向终点线时，现年26岁的利莱萨举起双臂，并在眼前交叉呈X状。这个举动触怒了埃塞俄比亚政府，后者是非洲最专制的政府之一。</p>

This unusual burst of protests has erupted across Ethiopia, especially in Oromia, the region from which Mr. Lilesa hails, and where the gesture of raised arms crossed in front of one's face has become a sign of defiance.</p>	<p>最近几个月日渐高涨的反政府抗议浪潮中，这个动作已经成为一种标志。在埃塞俄比亚全境，抗议呈现出不同寻常的爆发之势，特别是在利莱萨的家乡奥罗米亚地区。在那里，举起双臂并在眼前交叉成了一个表示反抗的姿势。</p>
<p>Tens of thousands of protesters have been jailed and hundreds have been killed, according to Human Rights Watch. Mr. Lilesa said in interviews after his race that he believed that if he were to return home, he, too, would be punished. The Ethiopian government has said he has nothing to worry about and that he would be treated like a hero upon his return.</p>	<p>据人权观察组织(Human Rights Watch)称，埃塞俄比亚国内数以万计的抗议者被关押，数以百计的人们被杀。利莱萨在比赛结束后的多场采访中认为，如果回国的话，他也会受到惩罚。埃塞俄比亚政府则称他没什么可担心的，并表示他一回去便会受到英雄般的待遇。</p>
<p>Mr. Rosa said that Mr. Lilesa was a serious young man who "doesn't like to play games."</p>	<p>罗萨称利莱萨是一个严肃的年轻人，“不喜欢玩游戏”。</p>
<p>Some sports analysts have speculated that Mr. Lilesa, who finished the Olympic marathon in 2:09:54, and has one of the 50 fastest times in history, might chose to run for another country, such as Bahrain or Qatar. <p>Mr. Rosa said that Mr. Lilesa, who won the Tokyo marathon this year and has a contract with Nike, did not make his protest in an effort to cash in.</p>	<p>罗萨表示，利莱萨抗议不是为了钱。利莱萨曾在今年的东京马拉松上夺冠，并和耐克(Nike)签了一份合同。</p>

And you don't do something like this for money. He did this to defend his country."</p>	<p>"他之前根本没打算去其他国家，"罗萨说。"我甚至都不知道他是什么时候决定这么做的。他没和我透露过有关此事的任何消息。我也大吃一惊。人们不会为了钱做这种事情。他这么做是为了保卫自己的国家。"</p>

<p>If Mr. Lilesa wants to apply for asylum in the United States, it would be difficult to do that while in Brazil. He might first have to get asylum in Brazil and then apply to the American authorities for so-called humanitarian parole. Under that program, which is used sparingly, often for people in danger, Mr. Lilesa would be allowed to travel to the United States and stay temporarily. Once on American soil, he could apply for political asylum.</p>	<p>如果利莱萨想申请在美国避难，在巴西申请会比较困难。他首先可能得获准在巴西避难，然后再向美国当局申请所谓的人道主义特许入境。该计划很少启用，通常是针对处境危险的人。通过该计划，利莱萨将能够前往美国并暂时居留。一旦踏上美国的领土，他便可申请政治避难。</p>
<p>Mr. Lilesa has become a sensation on social media. As of Tuesday night, nearly \$100,000 had been raised for him via a crowdsourcing website. <p>Colombia and FARC Announce Deal to End the Americas' Longest War</p>	<p>哥伦比亚与叛军达成协议，结束 52 年内战</p>
<p>Colombia's government and the largest rebel group in the country have reached a deal to end more than 50 years of conflict, the two sides announced Wednesday, paving the way for an end to the longest running war in the Americas.</p>	<p>哥伦比亚政府与该国的最大反叛团体周三宣布，双方达成了旨在终结逾 50 年冲突的协议，为美洲持续时间最长的战争走向尽头开辟了道路。</p>

Time and again, they have emerged from the negotiating table to assure a weary public that another impasse had been eliminated, another hurdle cleared.</p>	<p>四年来，哥伦比亚政府与反叛者陷在终结冲突的谈判泥潭中。一次又一次地，他们离开谈判桌的时候向倦怠的公众保证，又一个僵局打破了，又一道障碍移除了。</p>

<p>This time, the two sides declared that a final deal had been clinched.</p>	<p>这一次，双方宣布敲定了最终协议。</p>
<p>The agreement effectively marks the end of the last major guerrilla struggle in Latin America.</p>	<p>这项协议实际上标志着拉丁美洲最后一场大型游击战的终结。</p>
<p>It outlines a timetable in which the rebels, known as the Revolutionary Armed Forces of Colombia, or FARC, will abandon their arms. It also sets out a pathway in which former fighters will enter civilian life again.</p>	<p>协议中列出了名为哥伦比亚革命武装力量(Revolutionary Armed Forces of Colombia, 简称 FARC) 的反叛团体放下武器的时间表，还为曾经的游击队员重返平民生活开辟了途径。</p>
<p>But to most Colombians, the deal is simply a promise that the war, which has lasted 52 years, claimed some 220,000 lives and displaced more than 5 million people, is at last coming to an end.</p>	<p>然而，对多数哥伦比亚人而言，这项协议不过是做出了战争终于即将结束的承诺。这场战争持续了 52 年，导致大约 22 万人丧生、逾 500 万人流离失所。</p>
<p>Peace in Colombia now looks more likely than ever, but a big hurdle still needs to be cleared before the deal is ratified. President Juan Manuel Santos, who has staked his legacy on peace, must now sell the agreement to his people.</p>	<p>哥伦比亚看起来比以往任何时候都更可能实现和平，但协议正式生效前还需克服一个重大障碍。现任总统胡安·曼努埃尔·桑托斯(Juan Manuel Santos) 将自己的政治遗产维系于和平进程上，眼下他必须向民众推销这项协议。</p>
<p>Rallying against that approval stands Santos' predecessor, former President Álvaro Uribe, whose term ended in 2010 with the FARC diminished.</p>	<p>反对批准协议的人聚集在前任总统阿尔瓦罗·乌里韦(Álvaro Uribe)周围。当他 2010 年卸任时，FARC 已遭削弱。</p>

But he is now leading a growing campaign against the deal, saying it amounts to an unjust amnesty for the rebels.</p>	<p>因为在军事上取得优势，乌里韦获得了广泛称赞，而且正是这种优势迫使反叛者来到谈判桌前。可是，他如今带头进行声势渐长的运动，反对这一协议，称其相当于对反叛者的大赦，并不公正。</p>

"This deal breaks the rule of law."</p>	<p>"他们不会在监狱里待上哪怕一天，他们还会获得政治代表权的嘉奖，"来自乌里韦领导的民主中间党(Democratic Center)的参议员帕洛马·巴伦西亚(Paloma Valencia)这样评论反叛者。"这项协议违反了法治原则。"</p>
<p>Still, others hailed the deal as a major step forward for a country of 50 million people whose growing economy has long been hampered by the simple fact that the state does not control all of its territory.</p>	<p>尽管如此，其他一些人称赞该协议是哥伦比亚的一大进步。该国拥有 5000 万人口，由于国家政权未能控制所有领土，其正在日渐增长的经济长期受到了抑制。</p>

<p>ISTANBUL — Turkey mounted its largest military effort yet in the Syrian conflict on Wednesday, sending tanks, warplanes and special operations forces over the border in a U.S.-backed drive to capture an Islamic State stronghold in Syria.</p>	<p>伊斯坦布尔——周三，土耳其发起了该国迄今在叙利亚冲突中规模最大的军事行动，派遣坦克、战机和特种作战部队越过边境，参与一项得到美国支持的行动，意图夺取伊斯兰国(Islamic State)在叙利亚的一个据点。</p>
<p>The joint offensive on the city of Jarabulus, one of the last border strongholds of the Islamic State, began hours before Vice President Joe Biden was to meet with President Recep Tayyip Erdogan in Ankara, the Turkish capital. The timing seemed aimed at easing tensions between the two countries raised by the failed coup in Turkey last month.</p>	<p>此次联合进攻以伊斯兰国最后的边境据点之一贾拉布洛斯(Jarabulus)为目标。行动开始几小时后，美国副总统乔·拜登(Joe Biden)在土耳其首都安卡拉会见了该国总统雷杰普·塔伊普·埃尔多安(Recep Tayyip Erdogan)。选择这一时机似乎旨在缓和因土耳其上月发生的未遂政变而变得紧张的两国关系。</p>
<p>The operation, clearing the way for a force of about 500 Syrian rebels to take the border town, represented a significant escalation of Turkey's role in the fight against the Islamic State, also known as ISIS and ISIL. Senior ISIS Strategist and Spokesman Is Reported Killed in Syria	ISIS 外部恐怖行动负责人遇袭身亡
BEIRUT, Lebanon — The Islamic State’s spokesman and overseer of external terrorist operations, Abu Muhammad al-Adnani, was killed in the Syrian province of Aleppo, the group’s news outlet reported on Tuesday.	黎巴嫩贝鲁特——伊斯兰国(Islamic State)的新闻机构周二报道，该组织的发言人兼外部恐怖行动负责人阿布·穆罕默德·阿德纳尼(Abu Muhammad al-Adnani)在叙利亚阿勒颇省遇袭身亡。
A founding member of the group, Mr. Adnani, a 39-year-old Syrian, was its chief propagandist, running an operation that put out slickly produced videos of beheadings and massacres that shocked the world and sent a rush of recruits running to join the group in Syria.	时年39岁的叙利亚人阿德纳尼是伊斯兰国的创始成员，负责该组织的宣传事务。就是他领导的团队公布了那些制作考究的斩首和大屠杀视频。这些视频震惊世界，并吸引了一众新成员为加入该组织而涌入叙利亚。
Accounts from arrested members of the Islamic State confirmed Mr. Adnani’s role as an operational leader as well. He oversaw the group’s external operations division, responsible for recruiting operatives around the world and instigating or organizing them to carry out	被俘虏的伊斯兰国成员的供述证实，阿德纳尼还是一名行动负责人。他领导着该组织的外部行动部门，负责在全世界招募实施人员，并煽动或组织他们制造袭击，包括巴黎、布鲁塞尔和孟加拉国达卡的袭击。

attacks that have included Paris, Brussels and Dhaka, Bangladesh.	
The Islamic State's news outlet, Amaq, said Mr. Adnani had been killed while checking up on the group's military operations in Aleppo Province.	伊斯兰国的新闻机构“阿玛克新闻社”(Amaq)称，阿德纳尼是在检视该组织在阿勒颇省的军事行动时遇袭身亡的。
It was unclear what force might have been behind his death, however. In the northern part of Aleppo Province, near the Turkish border, the Islamic State is currently under attack by long list of antagonists: directly by Turkish, American and Russian airstrikes, by American- and Turkish-backed Syrian rebels, and by American-backed Kurdish rebels and their Arab allies.	不过，尚不清楚造成阿德纳尼之死的背后可能是什么力量。在靠近土耳其边境的阿勒颇省北部，伊斯兰国目前遇到了多股力量的攻击：土耳其、美国和俄罗斯直接发动的空袭，美国和土耳其支持的叙利亚反对派，以及美国支持的库尔德反对派及其阿拉伯盟友。
It was Mr. Adnani who, in September 2014, released an audio statement calling on Muslims living in the West to strike out wherever and however they could.	在2014年9月，正是阿德纳尼发布了一份音频声明，号召生活在西方的穆斯林以可能的任何方式在可能的任何地方发动袭击。
"If you can kill a disbelieving American or European — especially the spiteful and filthy French — or an Australian, or a Canadian, or any other disbeliever from the disbelievers waging war, including the citizens of the countries that entered into a coalition against the Islamic State, then rely upon Allah, and kill him in any manner or way however it may be," Mr. Adnani said in the recording.	"如果能杀死一个不信安拉的美国人、欧洲人——特别是心怀叵测、卑鄙无耻的法国人——澳大利亚人、加拿大人或是这场由怀疑安拉的人发动的战争中其他任何一个不信安拉的人，包括结盟反对伊斯兰国的国家的公民，那么就依靠安拉，以任何可能的方式或方法杀死他，不管这种方式方法是什么，"阿德纳尼在录音中说。
He warned Americans and Europeans that they would come to suffer for fighting the Islamic State.	他警告美国和欧洲民众，他们要出来承担打击伊斯兰国的后果。
"You will pay the price when your economies collapse," he declared. "You will pay the price when your sons are sent to wage war against us, and they return to you as disabled amputees, or inside coffins, or mentally ill. You will pay the price as you are afraid of traveling to any	"当你们的经济崩溃，便是你们付出代价的时候，"他说。"当你们的爱子被派来与我们作战，却以截肢残疾人或是精神病人的身份，或是躺在棺材里回到你们身边，便是你们付出代价的时候。当你们害怕去任何国家，便是你们付出代价的时候。当你们走在自己门前的街道上，右转和左转时却害怕遇到穆

<p>Even as the Islamic State has lost territory on the battlefields in Iraq and Syria, it has continued to press its terror attacks abroad seemingly unabated. In May, Mr. Adnani declared: “Do you think, America, that defeat is by the loss of towns or territory? Were we defeated when we lost the cities in Iraq and retreated to the desert without a city or a land?” He offered an answer: “No, true defeat is losing the will and desire to fight.”</p>	<p>尽管在伊拉克和叙利亚的战场上损失了地盘，但伊斯兰国在国外发动恐怖袭击的势头似乎依然没有减弱。在5月，阿德纳尼宣称：“美国，你以为失败是用失去城池或领土来衡量的吗？我们失去伊拉克的城市，不占领城镇或土地而退回到沙漠就是失败了吗？”他自问自答：“不是，真正的失败是失去战斗的意志和欲望。”</p>

<p>Safety Tip for Visitors From India’s Culture Minister: ‘Don’t Wear Skirts’</p>	<p>去印度旅游，女性最好别穿裙子？</p>
<p>Mahesh Sharma, India’s culture minister, said this week that foreign women should not wear skirts while visiting the country, drawing broad criticism in a nation trying to assure female tourists they did not need to fear sexual assault.</p>	<p>印度旅游和文化部长马赫什·夏尔马 (Mahesh Sharma) 本周说，外国女性来这个国家的旅游时不应该穿裙子，结果在这个努力确保女性游客不必担心性侵犯的国家里引发了广泛批评。</p>
<p>“The tourists, when they arrive at the airport, they are being given a welcome kit,” Mr. Sharma told reporters on Sunday in televised remarks. “There is a card with it. Dos and don’ts. What to do and what not to do. Like small things. We tell them that: Do not venture out alone in small towns during the night, don’t wear skirts.”</p>	<p>“游客到达机场时，他们都会得到一套迎客纪念品，夏尔马周日在接受电视节目采访时告诉记者说。“还会附上一张卡片，上面写着该做什么和不该做什么。比如一些小事。我们告诉他们：夜间在小城镇不要冒险单独出门，不要穿裙子。”</p>
<p>“For their own safety, women foreign tourists should not wear short dresses and skirts,” he added, according to The Guardian.</p>	<p>据《卫报》(The Guardian)报道，“为了她们自身的安全考虑，外国女游客不应该穿短的连衣裙和半身裙，”他补充说。</p>
<p>He later said he meant it as “an advisory when going to religious places,” comparing it to removing shoes when going into a temple.</p>	<p>他后来说，自己说的是“针对宗教地区的建议”，类似于进入寺庙之前要脱鞋子。</p>

<p>"I am a father of daughters," Mr. Sharma said. "I have not said what one person should wear or not wear, neither it is desired nor I am authorized to say so. I have only said this as an advice when they visit to religious place."</p>	<p>"我自己也有女儿，"夏尔马说。"我并不是说一个人应该穿什么，不应该穿什么，我没有意愿也没有权力这样说。我只是提出建议，希望她们参观宗教场所时这样做。"</p>
<p>Officials, including the chief minister of Delhi, Arvind Kejriwal, and other critics on social media denounced Mr. Sharma's suggestion.</p>	<p>包括德里首席部长阿尔温德·凯杰里沃(Arvind Kejriwal)在内的官员和社交媒体上的其他评论者纷纷谴责夏尔马的说法。</p>
<p>India has intensely debated how it responds to and prevents sexual assault since a woman was brutally gang-raped on a New Delhi bus in 2012 and died from her injuries. Though the country now imposes stricter penalties, it has continued to reckon with high-profile cases of attacks on tourists. Five men were sentenced in June to life in prison for a 2014 gang rape of a Danish woman who was abducted at knife point in New Delhi, and in July the police accused two men of raping an Israeli woman in Manali.</p>	<p>2012年，一个女子在新德里一辆公共汽车上遭受残忍轮奸后因伤去世，从而在印度引发了如何应对和防止性侵犯的激烈争论。尽管这个国家现在施加了更严格的惩罚，但它仍然一直需要应付对旅游者的侵犯这类获得高度关注的案子。6月，五名男子因为2014年在新德里用刀子挟持一名丹麦女性并实施轮奸，被判处终身监禁；7月，警方起诉两名男子在马拉里强奸了一名以色列女人。</p>
<p>India reported 36,375 rapes against women in 2014, the most recent year statistics were available from the government. Delhi had an average of six rapes and 15 molestations per day in 2015, the highest rate in 15 years, according to The Indian Express.</p>	<p>根据能够从政府获得的最近的统计数据，2014年，印度发生了36375起强奸妇女的案件。根据《印度快报》(The Indian Express)，2015年，德里平均每天发生6起强奸案，15起性骚扰案，达到15年来最高的犯罪率。</p>
<p>Mr. Sharma's comments do not veer too far from advice from the United States State Department, which cautions that women should not travel alone in India and says visitors, especially women, are "advised to respect local dress and customs." With the exception of some resorts and neighborhoods in New Delhi and Mumbai, women in India tend to dress with "clothing that covers their legs and shoulders," the guidelines say.</p>	<p>夏尔马的建议和美国国务院的建议相差不多，它警告女性在印度不要单独出行，旅游者，尤其是女性，"应当尊重当地的着装和习俗"。除了在新德里和孟买的某些名胜和街区，印度女性一般穿的都是"遮盖住双腿和双肩的服装"，这份指南写道。</p>

<p>"Although most victims have been local residents, recent sexual attacks against female visitors in tourist areas across India underline the fact that foreign women are at risk and should exercise vigilance," say the guidelines, last updated in 2015.</p>	<p>"尽管绝大多数的受害者都是本地居民，近期在印度各地旅游景区针对女性游客的性侵犯案件表明，外国女性在该国有危险，应该谨慎行事，"这份更新于 2015 年的指南说。</p>
<p>Sachi Maclachlan, 27, a filmmaker from Brooklyn, has been to India four times and said she always recommended to her American friends that they dress traditionally as "a way of survival." But she struggles with how that suggestion conflicts with her feminist philosophies, she said, including the idea that victimization is not the woman's fault.</p>	<p>27 岁的萨奇·麦克拉克伦(Sachi Maclachlan)是布鲁克林的一位制片人，曾经去过印度四次，她说自己经常向美国朋友们推荐，按照传统方式穿着是一种"保命之道"。但是她说，她努力不让这些建议和自己的女权主义观点相冲突，女权主义认为，成为受害者并不是女人的错。</p>
<p>On several occasions, she has been harassed and touched in the streets while wearing traditional Indian clothing, she said. It suggests to her that the problems run deeper than the clothes women wear.</p>	<p>在某些场合下，她即便是穿着传统印度服装，也会在街头遭到骚扰和触碰。因此她明白，还有比女性的服装更加深刻的问题存在。</p>
<p>"I could have just been wearing shorts and been super comfortable and still been touched, so does it matter?" she said.</p>	<p>"我本可以舒舒服服地穿着短裤，但最后还是被人摸了，所以穿什么有关系吗？"她说。</p>
<p>Jessica Ault, 31, a program and records manager for a nonprofit in Washington, said she packed modest clothes for her trip to India in January, but was motivated more by respecting local culture than safety. She said Mr. Sharma's comments struck her as victim blaming, suggesting that a woman would invite sexual assault based on what she was wearing.</p>	<p>31 岁的杰西卡·奥尔特(Jessica Ault)是华盛顿一个非营利组织的方案与记录管理员，她说自己在今年一月份去印度时穿了保守的衣着，但目的是为了尊重本土文化，而不是为了安全。她说夏尔马的建议让她觉得是在指责受害者，暗示是女性的穿着为自己招来性侵犯。</p>

<p>Emerging Climate Accord Could Push A/C Out of Sweltering India's Reach</p>	<p>给地球降温，却要印度人放弃空调？</p>

<p>DELHI, India — A thrill goes down Lane 12, C Block, Kamalpur, every time another working-class family brings home its first air-conditioner. Switched on for a few hours, usually to cool a room where the whole family sleeps, it transforms life in this suffocating concrete labyrinth where the heat reached 117 degrees in May.</p>	<p>印度德里——每当又有一个工薪家庭买回家里第一部空调，就会在卡马尔普尔 12 巷 C 座引发兴奋之情。5 月时，这座迷宫般的混凝土建筑内的温度一度高达 47.2 摄氏度，热到令人窒息。空调开上几个小时，就可以让一个通常是全家人都睡在里边的房间凉快下来，改变人们的生活。</p>
<p>“You wake up totally fresh,” exulted Kaushilya Devi, a housewife, whose husband bought a unit in May. “I wouldn’t say we are middle class,” she said. “But we are closer.”</p>	<p>“醒来时会觉得精神抖擞，”考希利亚·德维(Kaushilya Devi)兴高采烈地说道。她是一名家庭主妇，她丈夫在 5 月份买了一部空调。“我不会说我们是中产阶级，”她表示。“但我们又朝那个方向迈进了一步。”</p>
<p>But 3,700 miles away, in Kigali, Rwanda, negotiators from more than 170 countries gathered this week to complete an accord that would phase out the use of heat-trapping hydrofluorocarbons, or HFCs, worldwide, and with them the cheapest air-conditioners that are just coming within reach of people like Devi.</p>	<p>不过，在 3700 英里开外的卢旺达基加利，来自逾 170 个国家的谈判代表于本周汇聚一堂，想要达成一项协议，在全球范围内逐步停止使用具有吸热效力的氢氟烃（hydrofluorocarbons, 简称 HFC），以及德维等人买得起的那种会用到 HFC 的最便宜的空调。</p>
<p>Millions of Indians might mark the transition from poverty with the purchase of their first air-conditioner, but as those purchases ease suffering in one of the planet’s hottest countries, they are contributing profoundly to the heating of the planet.</p>	<p>购买自家的首部空调，或许是数以百万计的印度人脱贫的标志。印度是世界最热的国家之一，人们购买空调后可以生活得舒适一些，但他们的购买行为对全球变暖问题有着深刻的影响。</p>
<p>HFCs function as a sort of supergreenhouse gas, with 1,000 times the heat-trapping potency of carbon dioxide. While they account for just a small percentage of greenhouse gases in the atmosphere, scientists say a surge in the use of HFC-fueled air-conditioners would alone contribute to nearly a full degree Fahrenheit of atmospheric warming over the coming century. That is a lot in an environment where just 3 degrees of warming could be enough to tip the planet into an irreversible future of rising sea levels, more powerful storms and</p>	<p>作为一种超级温室气体，HFC 的吸热效力是二氧化碳的 1000 倍。它占大气中温室气体的比例很小，但一些科学家称，在接下来的一个世纪中，单是以 HFC 为冷媒的空调使用量激增，就会让全球气温上升将近 1 华氏度。这是一个很大的数值，因为气温只要再升高 3 华氏度，就有可能把地球送进一个不可逆转的未来：海平面不断升高，风暴和洪水更加猛烈，极其恶劣的旱灾，食物短缺，以及其他灾难性后果。</p>

deluges, extreme drought, food shortages and other devastating effects.	
The emerging HFC ban, nearly seven years in the making, has not drawn the same kind of attention as last year's Paris agreement on climate change. And the Kigali talks are focused on a narrow slice of the economy — just the HFCs in air-conditioners and refrigerators.	这道 HFC 禁令的制定工作耗费了将近七年时间，如今终于有了眉目，但它并未像去年的巴黎气候变化协议一样获得极大关注。此外，基加利会谈聚焦的是一个狭窄的经济领域——仅限于空调和冰箱使用的 HFC。
But the deal, which could be completed this weekend, could have as much or more of an effect on climate change. Unlike the Paris accord, the emerging Kigali agreement will have the force of international law, a legal requirement that rich countries give poor countries money to help them comply, and trade and economic sanctions against countries that do not.	不过，可能在本周末达成的这项协议，或许会对气候变化产生同样大甚至更大的影响。和巴黎协议不同，即将浮出水面的基加利协议将具有国际法的效力，包含让富国为穷国提供资金、帮助其遵守协议的法律要求，并列明违反协议的国家会受到的贸易和经济制裁。
Between 6 and 9 percent of Indian households use air-conditioning, and the purchase of a first unit — not a second or a third — is driving growth, said Ajay Mathur, the director-general of the Energy and Resources Institute in New Delhi. Every time government salaries are raised, he said, air-conditioner purchases surge, as civil servants gain confidence that they will be able to pay higher electric bills.	新德里能源与资源研究所(Energy and Resources Institute)所长阿杰·马瑟(Ajay Mathur)说，在印度，有 6%至 9%的家庭在使用空调，首部空调购买行为——不是第二部或第三部——正在推动增长。他说，每当政府机构加薪，空调销量都会猛增，因为公务员会变得更自信，觉得可以付得起金额更高的电费账单。
"It is me of 10 years ago. It is many of my younger colleagues," Mathur said. "It is my driver, who after 20 years working for me, bought his first air-conditioner. It is a marker of social mobility."	"十年前的我是这样。我的许多年轻同事是这样，"马瑟说。"我的司机是这样，他在为我工作了 20 年之后终于给家里买了第一部空调。这是社会阶层流动的标志。"
But a new global deal committing the world to a rapid phaseout of HFCs, Mathur said, would mean that many Indians would never "be able to get the benefits that go with air-conditioning."	但马瑟表示，一项让世界各国承诺快速淘汰 HFC 的全球性协议的出炉，将意味着许多印度人永远"无法享有空调的好处"。
A fast phaseout comes with big wins for the United States, since many of the replacement chemicals are manufactured by U.S. chemical	快速淘汰 HFC 会给美国带来巨大收益，因为许多替代性化学品都是由陶氏(Dow)、霍尼韦尔(Honeywell)等美国化学品公司生产的。不过这些生产商

companies like Dow and Honeywell. But those manufacturers concede that they are more expensive than HFCs.	承认，替代品的价格比 HFC 要高。
"The replacements are more flammable and toxic," said Stephen Yurek, the president of the Air-Conditioning, Heating and Refrigeration Institute, an advocacy organization. "So there is a need to make sure the equipment is better designed and maintained, a need to make sure that when it is installed, it is done correctly and safely. You need better-trained people to do all that, and that will be more expensive."	"这些替代品更易燃，毒性也更大，"倡导组织美国空调供热制冷协会(Air-Conditioning, Heating and Refrigeration Institute)的会长斯蒂芬·尤列克(Stephen Yurek)说。"因此有必要确保设备的设计更加精良、维护更加到位，有必要确保正确、安全地安装设备。要做到这些，你得对相关人员进行更好的培训，因此价格会更加高昂。"
But a compromise solution is not just a matter of meeting in the middle. Experts say that it is crucial to ban HFCs before the Indian air-conditioning boom begins.	但制定折衷方案并不是各退一步那么简单。专家称，在印度空调市场被引爆之前禁用 HFC 是至关重要的。
"It's the iPhone moment, when a product that wasn't widely available is suddenly ubiquitous," said Nihar Shah, an engineer at the Energy Department's Lawrence Berkeley National Laboratory.	"现在是处于 iPhone 时刻，原本很少见的产品转瞬间就有可能变得无所不在，"美国能源部(Energy Department)劳伦斯伯克利国家实验室(Lawrence Berkeley National Laboratory)的工程师尼哈尔·沙阿(Nihar Shah)说。
During the 1990s, 5 percent of urban residents in China owned air-conditioners. A decade later, it was nearly 100 percent.	在上世纪 90 年代，中国城市居民中只有 5%拥有空调。十年后，这一数字上升到了将近 100%。
"The idea is to get the best air-conditioner technology in place before this happens," he said. "Otherwise, you'll have these HFC air-conditioners locked in place for another decade."	"在这种事情发生前，就应该让最好的空调技术就位，"她说。"否则，你就得让这些以 HFC 为制冷剂的空调在另一个十年里大行其道。"
In Burari, the Delhi neighborhood where Devi lives, and which Kamalpur is a section of, air-conditioning signifies both arrival and investment in the future. Ecuador Cuts Internet of Julian Assange, WikiLeaks' Founder	厄瓜多尔不让阿桑奇上网,避免干涉美国大选
LONDON — Ecuador announced Tuesday that it had cut off Julian Assange's access to the internet in his exile in the country's embassy in London, making it clear that it feared the tiny country was being sucked into an effort to “interfere in electoral processes” in the United States by the activities of the founder of WikiLeaks.	伦敦——周二,厄瓜多尔宣布,它已切断在该国伦敦大使馆流亡的朱利安·阿桑奇(Julian Assange)的互联网接入,表明这个小国担心自己正被卷入维基解密(WikiLeaks)创始人“干涉”美国大选的活动。

<p>The announcement came a day after WikiLeaks said that Assange's connection to the internet had been severed shortly after the organization published speeches that Hillary Clinton gave to Goldman Sachs, the global investment firm. The transcripts, the latest in a series of disclosures, appear to have come from the hacked email account of John Podesta, the chairman of her campaign and a White House chief of staff when Clinton's husband served as president.</p>	<p>这项声明宣布前一天，维基解密称，希拉里·克林顿(Hillary Clinton)在全球投资公司高盛(Goldman Sachs)的多次讲话内容被该组织公布后不久，阿桑奇的互联网连接已被切断。这些对话实录是一系列披露信息的最新一批，似乎来自约翰·波德斯塔(John Podesta)被黑客攻击的电子邮件账户。波德斯塔是希拉里·克林顿竞选团队的主席，也是她丈夫任总统期间的一位白宫幕僚长。</p>
<p>The statement clearly sought to separate Ecuador from the decision by WikiLeaks to publish Podesta's emails and, before those, emails hacked from the Democratic National Committee and other organizations.</p>	<p>这项声明显然旨在把厄瓜多尔与维基解密的决定撇开关系，包括公布波德斯塔的邮件以及之前窃自民主党全国委员会(Democratic National Committee)等组织的邮件。</p>
<p>Only hours before the Ecuador's announcement, WikiLeaks had charged that Secretary of State John Kerry had quietly urged the Ecuadorean government, in a meeting late last month, to stop Assange from publishing the emails or interfering in the election. The State Department issued a statement declaring that the reports were "simply untrue. Period."</p>	<p>就在厄瓜多尔发布声明几小时前，维基解密指责国务卿约翰·克里(John Kerry)在上月月底的一次会晤上暗中敦促厄瓜多尔政府，要其阻止阿桑奇公布这些电子邮件或插手这次选举。国务院发布了一个声明，表示这份报告“完全不实”。</p>
<p>Ecuador said that it was not evicting Assange from its embassy, where he sought asylum in 2012. It said that its "temporary restriction" of internet services to Assange "does not prevent the WikiLeaks organization from carrying out its journalistic activities."</p>	<p>厄瓜多尔称，该国不会驱逐 2012 年来到该国使馆寻求庇护的阿桑奇。该国还称，目前对阿桑奇使用互联网服务所采取的“临时限制”，“并没有阻止维基解密组织开展新闻活动。”</p>
<p>But it was clearly intended to keep the Ecuadorean Embassy from being the control center for that leaking operation.</p>	<p>但是厄瓜多尔显然希望避免该国使馆成为维基解密组织的指挥中心。</p>
<p>"The government of Ecuador respects the principle of nonintervention in the affairs of other countries," it said, "and it does not interfere in the electoral processes in support of any candidate in particular."</p>	<p>"厄瓜多尔政府尊重不干涉他国事务原则，"声明说，"政府并未介入选举进程并支持某位候选人。"</p>

None of this action, experts inside and outside the U.S. government say, is likely to slow the flow of leaked emails. Those emails are routed through servers around the globe.	美国政府内外的专家们都认为，这一行动丝毫无助于延缓邮件泄露的速度。这些邮件是从世界各地的服务器上发送的。
Assange is the subject of an arrest warrant in Sweden, which wanted to question him about allegations of rape and sexual abuse dating to 2010.	瑞典曾对阿桑奇发布逮捕令，以便就 2010 年的强暴与性侵指控对他进行问讯。

A Remote Job Comes With Free Land and a Sense of Community. 50,000 Apply.	加拿大“美丽小岛需要人”：来工作，就送地
WHYCOCOMAGH, Nova Scotia – When a land-rich family in sparsely populated Cape Breton wanted to attract workers for its understaffed country store, it offered free land to anyone who would come and work for five years.	新斯科舍省怀科马——人烟稀少的布雷顿角岛(Cape Breton)上有一户人家拥有大量土地，为了吸引工人来自己缺少人手的乡村商店，他们向任何来这里工作五年的人免费赠送土地。
They expected a few dozen responses; more than 50,000 poured in – and the calls keep coming.	他们原本以为会收到几十条回复，结果却有五万多人打来电话，而且还有电话不断打来。
“I expected a response, just not one as huge as this,” said Sandee MacLean, a woman with multiple tattoos and copper red hair, who came up with the idea with her sister.	“我料到能得到回应，只是没想到反响这么大，”珊迪·麦克林(Sandee MacLean)说。她有一头铜红色头发，身上有多处纹身，她和姐妹一起想出了这个主意。
Of course, Canada has a lot of land, but not a lot of people, and economically sleepy regions like Cape Breton in Nova Scotia have steadily leaked population. The island, a scenic 4,000-square-mile patch of rolling forest and farmland jutting into the northern Atlantic Ocean, has only about 130,000 residents and has been losing well over 1,000 people a year for the last two decades.	加拿大当然不缺土地，但人口稀少。在新斯科舍布雷顿角岛这种经济不活跃的地区，人口在不断流失。这个小岛风景优美，面积 4000 平方英里，有着起伏的森林和农田，延伸至北大西洋。但它只有约 13 万居民，在过去 20 年里，每年流失 1000 多人。
As Cape Bretoners become increasingly frantic about stemming the tide of outward migration, giving away land just might be a solution.	布雷顿角岛人越来越疯狂地想要阻止人口外流，赠送土地也许是一个解决办法。

<p>"It is validation that land is an attraction," said Chris van den Heuvel, president of the Nova Scotia Federation of Agriculture. He hopes the strong response to the giveaway will help his group's effort to create a land bank that would make farmland affordable and bring newcomers to the province.</p>	<p>"土地肯定具有吸引力，"新斯科舍农业联合会(Nova Scotia Federation of Agriculture)主席克里斯·范登赫费尔(Chris van den Heuvel)说。他希望土地赠送引发的强烈反响能对他的组织创立地产银行带来帮助——地产银行将让人们买得起田地，吸引更多人来这个省。</p>
<p>Several economically depressed communities in the United States have tried the same idea in recent years, including towns in Iowa, Kansas and Minnesota.</p>	<p>近些年，美国几个经济低迷的社区也尝试过同样的方法，包括艾奥瓦州、堪萨斯州和明尼苏达州的一些小城市。</p>
<p>There is a long history of giving land away. European powers that wanted to populate their New World possessions, as well as Canada and the United States in their youth, gave land to anyone who would settle on it and make improvements.</p>	<p>土地赠送历史悠久。当年欧洲强国为了吸引人们移民到它们在新世界占领的土地——包括早期的加拿大和美国——向所有愿意在那些土地上定居并作出改进的人赠送土地。</p>
<p>But in Nova Scotia, the overwhelming response is also a measure of how many people, unmoored by the global economy, are hungry for a sense of community. To many, the proposal seemed to present a connection to a famously rich regional culture full of Scottish fiddling, community suppers and square dancing.</p>	<p>但是，新斯科舍引发的强烈反应也说明，很多人因全球经济衰退而流离失所，渴望获得社区归属感。对很多人来说，这项提议似乎意味着，他们可以与一个非常丰富的地方文化产生联系，它包括苏格兰小提琴演奏、社区晚餐和四方舞。</p>
<p>All of that was far from mind when Jim and Ferne Austin decided to turn their store over to their daughters this year. For the two women, Ms. MacLean and Heather Austin Coulombe, the most immediate concern was where to find employees.</p>	<p>今年，吉姆和费恩·奥斯汀夫妇(Jim and Ferne Austin)决定把商店交付给两个女儿打理。现在发生的一切完全出乎他们的意料。对麦克林和希瑟·奥斯汀·库隆布(Heather Austin Coulombe)这两个女人来说，最迫切的问题是去哪里找雇员。</p>
<p>"We were in a panic, we were so short staffed," Ms. Coulombe said.</p>	<p>"当时我们很恐慌，因为我们急需人手，"库隆布说。</p>

<p>Mr. Austin's father, also a dairy farmer, had amassed more than 600 acres; after sell-offs, about 200 acres remain. The land that is left is mostly mountain woodland – pretty to see, but not of much value unless it were logged. No one in the family wants to shave the hillsides for that.</p>	<p>吉姆·奥斯汀的父亲也是奶农，曾经积累了 600 多英亩土地，卖了一些后还剩下约 200 英亩，大部分是山间林地。它们看起来很美，但是如果不把树砍掉就没有什么价值。家里没人想为此砍掉山坡上的树。</p>
<p>By the end of this summer, the country market was down by three full-time workers, making it difficult to meet a local grocery chain's demand for baked goods from the Farmer's Daughter. The baking business helps the operation stay afloat in the bleak winter months.</p>	<p>今年夏天快结束时，这个乡村市场只剩下三名全职工人，所以“农夫女儿”商店很难满足当地连锁杂货店对烘焙食品的需求。烘焙生意帮助他们在寒冷的冬季维持生计。</p>
<p>Ms. MacLean and Ms. Coulombe tried hiring locally, but said capable and dependable hands were not available. The visa process for foreign workers was too cumbersome, too.</p>	<p>麦克林和库隆布试过在当地进行招聘，但她们说，找不到能干又可靠的人。招聘外国工人的签证手续又太繁琐。</p>
<p>That is when they came up with the idea of giving away land.</p>	<p>这时她们想出了赠送土地的办法。</p>

<p>At around 10 p.m. one Sunday in late August, the sisters posted a gentle appeal on the market's Facebook page under the title, "Beautiful Island Needs People."</p>	<p>今年八月一个星期天的晚上，10 点左右，姐妹俩在该市场的 Facebook 主页上发了一条温和的恳求贴，名叫“美丽的小岛需要人”(Beautiful Island Needs People)。</p>

system.	
By morning, the appeal had been shared 200 times. By afternoon, a local radio station had called for an interview. Soon national radio and television stations were calling and the land offer was the top trending news story on the Canadian Broadcasting Corporation's website. When the report was picked up around the world, the floodgates opened.	到第二天早上，她们的帖子已被转发 200 次。到了下午，当地一家电台打来电话，要求进行采访。很快，全国电台和电视台也打来电话，土地赠送成了加拿大广播公司(Canadian Broadcasting Corporation)网站上最热门的新闻故事。这则报道在全世界流传开来后，一发不可收拾。
The sisters had already zeroed in on several candidates well before their appeal went viral. Within a week of the original post they had interviewed the people they eventually hired.	早在姐妹俩的帖子被疯狂转发之前，她们已锁定了几位候选人。在原贴发出一周内，他们已经面试了最终招聘的人。
The newcomers consist of three families: the Andersons, the Walkinses and the Taits, who arrived in time for Canada's Thanksgiving on Oct. 10. The Austins, the parents of the sisters who are taking over the store, invited them all to their home for a traditional feast, the biggest Thanksgiving dinner they had ever put on, they said.	新来者包括三个家庭：安德森一家(Anderson)、瓦尔金斯一家(Walkins)和泰特一家(Tait)。他们来的时候正好赶上加拿大 10 月 10 日的感恩节。接管这个商店的两姐妹的父母奥斯汀夫妇邀请所有人到家里享用了一顿传统晚宴，她们说这是他们准备过的最盛大的感恩节晚宴。
Over plates of turkey and turnips and local condiments like the Farmer's Daughter Cape Breton chow (a relish made with green tomatoes), the families appeared to blend effortlessly.	面对一盘盘火鸡、芜菁和当地调味品，比如“农夫女儿布雷顿角美味”(一种用绿番茄做成的调味品)，这几家人似乎轻松融入进来。
All three families said that it was the promise of community in a simpler, beautiful place that was the biggest attraction. Each parcel of land is worth only a few thousand Canadian dollars, and Cape Breton has plenty of land for sale.	这三家人都说，最吸引他们的是在一个更单纯而又美丽的地方融入社区的承诺。每块地只值几千加元，布雷顿角岛有大量土地出售。
"I never even asked about the land," said Sonja Anderson, a former mortgage banker who drove nine days across the country from Vancouver, British Columbia, with her 10-year-old daughter and two dogs.	"我甚至从未问过地的事儿，"索尼娅·安德森(Sonja Anderson)说。她曾是一名抵押贷款银行业者。她带着十岁的女儿和两条狗从不列颠哥伦比亚省温哥华市开了九天车，穿过整个国家来到这里。

October Surprises Don't Necessarily Sway Elections, or Occur in October	美国大选历史上的“十月拍案惊奇”
In a breathless month with a decade's worth of political bombshells, the phrase "October surprise" has become a regular part of the news lexicon.	过去一个月里发生的爆炸性政治事件简直相当于十年里发生的那么多，真是惊心动魄。“十月惊奇”(October surprise)这个词成了新闻报道中的常客。
By the strictest definition, an October surprise is news specifically (and cynically) timed by one side or another to sway an election, with evidence that it changed voters' minds and moved the polls. More loosely, the term is applied to any big, late development, deliberate or not, perhaps even ones that show no sign of altering the outcome.	根据严格的定义，“十月惊奇”就是那种参选一方特意（而且是利己地）安排好时间爆出的新闻，提供能改变投票者想法、影响民意调查的证据，以此影响选举结果。如果按照稍微不那么严格的定义，这个词可以适用于任何竞选末期的事态重大进展，不管它是不是故意被爆出的，或许连那些没有显示出改变选举结果的事情也可以算进来。
Some reference sources say the phrase was first used in the 1972 presidential election, while others trace it to the 1980 campaign (the first time it was used by The New York Times). The concept, of course, predates the wording.	若干参考资料表明，这个术语最早出现在 1972 年的总统选举上，还有一些资料认为它来自 1980 年竞选（《纽约时报》在这一年第一次使用这个词）。当然，这种做法的产生要早于这个术语。
Here are some examples of what could be considered October surprises.	下面是一些可以被视为“十月惊奇”的例子。
Oct. 31, 1968: President Lyndon Baines Johnson announced a halt to bombing of North Vietnam, based on his claim that peace talks had "entered a new and a very much more hopeful phase," and he invited	1968 年 10 月 31 日：林顿·贝恩斯·约翰逊(Lyndon Baines Johnson)宣布停止轰炸北越，理由是他声称和平谈判已经“进入一个全新的，更为大有希望的阶段”，他还邀请南越政府与越共(Viet Cong)加入到谈判中来。这一声明

<p>the government of South Vietnam and the Viet Cong to take part in negotiations. Raising hopes that the war might end soon, the announcement appeared to bolster the standing in the polls of Vice President Hubert H. Humphrey, the Democratic presidential nominee, but Humphrey still fell short in the election against former Vice President Richard M. Nixon, the Republican.</p>	<p>增加了战争可能很快结束的希望，似乎在民意调查中为民主党总统提名人，副总统休伯特·H·汉弗莱(Hubert H. Humphrey)增加了支持率，但是汉弗莱依然在选举中败给了前副总统，共和党提名人理查德·M·尼克松(Richard M. Nixon)。</p>
<p>Oct. 26, 1972: Declaring “we believe that peace is at hand,” Henry Kissinger, President Nixon’s national security adviser, announced the draft of an agreement to end the Vietnam War. This is often cited as the original October surprise, though the term did not enter common usage for several years. The news had little effect on the polls because Nixon was already cruising to a crushing defeat of Senator George McGovern. Mr. Kissinger’s announcement was a bit premature — the South Vietnamese government had not been consulted, treaty talks broke down in December and the United States resumed bombing North Vietnam — but a peace accord was signed in January 1973.</p>	<p>1972年10月26日：尼克松总统的国家安全顾问亨利·基辛格(Henry Kissinger)宣布：“我们相信和平即将来临”，并公布了草拟的越南战争停战协议。这件事通常被视为最早的“十月惊奇”，尽管之后几年里这个词并没有普及。这个消息对选举影响甚微，因为面对对手，参议员乔治·麦戈文(George McGovern)，尼克松已经稳操胜券。基辛格的声明来得稍微早了一点——草案没有征求南越政府的意见，12月，协议谈判破裂，美国政府恢复了对北越的轰炸——不过和平协议最终还是在1973年1月得到签署。</p>
<p>October 1980: The Republican nominee, Ronald Reagan, and his aides repeatedly warned that President Jimmy Carter, a Democrat, would try an October surprise, probably in the form of winning the release of American hostages held for more than a year in Iran. The Reagan campaign’s frequent use of the term helped popularize it. Some people have since charged that Reagan aides actually tried to prevent a hostage release before the election, through back-channel communications with Iran, a claim that has been widely refuted. The hostages were freed in January 1981 — on the day Reagan was</p>	<p>1980年10月：共和党提名人罗纳德·里根(Ronald Reagan)和他的助手们不住警告，民主党人，吉米·卡特(Jimmy Carter)可能会抛出一个“十月惊奇”，可能是有关帮助一年多以前被伊朗扣押的多名美国人质获释的消息。里根在竞选活动里经常用这个词，从而普及了它。此后，有些人指责里根一方通过非正规渠道和伊朗接触，力图阻止人质在大选前被释放，这一指责受到了大量批驳。人质于1981年1月得到释放——就在里根宣誓就职的当天。</p>

<p>inaugurated.</p>	
<p>Oct. 1, 1992: Eleven weeks after dropping out of the presidential contest, the independent Ross Perot dropped back in. Over the summer, Bill Clinton, the Democratic governor of Arkansas, had built a big lead in the polls over President George Bush, a Republican. Mr. Perot's support swelled after his re-entry — he would eventually get 19 percent of the popular vote — while Mr. Clinton's shrank steadily. But the change was not enough to keep Mr. Clinton from winning.</p>	<p>1992年10月1日：退出总统竞选11个星期后，独立候选人罗斯·佩罗(Ross Perot)又回来了。整个夏天，民主党人，阿肯色州州长比尔·克林顿(Bill Clinton)在民意调查中遥遥领先于竞争对手，共和党人乔治·布什(George Bush)总统。佩罗回归后支持率大大增长——最终在普选中获得19%的选票——而克林顿的支持率开始渐渐下降。不过这个变化并没能阻止克林顿成功当选。</p>
<p>October 1996: In the last weeks of the race, the news was filled with revelations about Democratic fund-raisers, some with close ties to the Clinton White House, who illegally raised money from Asian donors. Some fund-raisers were later convicted of campaign finance violations. President Clinton's wide lead in the polls over Bob Dole, the Republican nominee, shrank markedly, but he still won re-election by a comfortable margin.</p>	<p>1996年10月：在竞选的最后两周时间里，新闻中充斥了对民主党募捐者的揭露报道，一些募捐者和克林顿政府关系密切，他们从亚洲捐赠者那里非法募集了资金。有些募捐者后来被证明违反过竞选的财务规定。当时克林顿总统在民意调查中遥遥领先竞争者共和党提名人鲍勃·多尔(Bob Dole)，此事之后，他的支持率显著下滑，但是仍然以较大的优势赢得了连任选举。</p>
<p>Nov. 2, 2000: News broke that George W. Bush, the Texas governor running for president, had been arrested in 1976 and charged with driving while drunk, which Mr. Bush, a Republican, acknowledged the next day. (O.K., it was November, but it still counts as an October surprise.) By then, it was common knowledge that Mr. Bush had been a heavy drinker but had quit in the 1980s. The news did not appear to affect the state of play. His race with Vice President Al Gore, a Democrat, remained where it had been: too close to call.</p>	<p>2000年11月2日：消息传出，正在竞选总统的德克萨斯州州长乔治·W·布什(George W Bush)曾在1976年因醉驾罪名遭到逮捕，共和党人布什于翌日承认了此事（好吧，这是发生在11月的事，但它仍然可以算是“十月惊奇”）。当时，人们都知道布什一度酗酒，但在80年代已经戒酒成功了。这则新闻似乎未能影响大局。他和民主党人、副总统阿尔·戈尔(Al Gore)之间的较量仍然和之前一样，呈现不相上下的局面。</p>

U.S. Foreign Investor Program Funding More Luxury Projects	中国富人资金流向豪华地产, EB-5 项目前途未卜
A federal program meant to encourage investment in the United States from wealthy foreigners is increasingly supporting large luxury real estate projects, not the development in the rural and downtrodden districts that some say were the original targets of the program.	目前, 一个旨在鼓励富有的外国人在美国投资的联邦项目愈来愈倾向于支持大型豪华房地产项目, 而不是用于乡村和穷困地区的发展, 虽然在一些人口中, 后者才是该项目的初衷。
With billions of dollars flowing in, mostly from wealthy Chinese, the program faces an uncertain future. In September, Congress reset the expiration date on parts of the so-called EB-5 program to Dec. 9.	数以十亿美元计的资金已通过该项目流入美国, 大多是来自富裕的中国人, 但如今它面临着不确定的未来。9 月, 国会将这个名为 EB-5 的项目的部分截止日期重新设为 12 月 9 日。
The program grants permanent residency in the United States to those who are willing to immigrate and invest \$500,000 in a business that	该项目向愿意移民的投资者提供美国的永久居留权, 此人需要向一个至少创造 10 个工作机会的企业投资 50 万美元。尽管也有投资流向特许学校、医

<p>creates at least 10 jobs. Many of the projects that have received money have been in real estate, though investments have also gone to charter schools, medical centers and manufacturing plants. Some \$15 billion of investments have been made through the program since 2005, according to the EB-5 Coalition, an industry group in Washington.</p>	<p>疗中心和制造厂，但许多获得该项目投资的都是房地产。根据华盛顿行业组织 EB-5 联盟(EB-5 Coalition)的说法，从 2005 年以来，该项目大约吸引了 150 亿美元的投资。</p>
<p>Critics have derided the program as essentially a legal way for immigrants to buy their way into the country.</p>	<p>批评者嘲笑该项目本质上是为移民提供购买美国身份的合法途径。</p>
<p>Donald J. Trump's election adds a new wrinkle. He campaigned heavily on immigration reform, pledging to build a wall on the Mexican border and increase the deportation of criminal noncitizens. He also said he wanted to reduce legal immigration and ensure jobs are offered to Americans first.</p>	<p>唐纳德·J·特朗普(Donald J. Trump)的当选增加了一个新的变数。他竞选时大力主张移民改革，承诺在墨西哥边境上修建围墙，并将更多犯罪的无公民身份者驱逐出境。他还说他想减少合法移民，保证优先向美国人提供工作。</p>
<p>"Whether President-elect Trump will actually follow through on these pledges remains to be seen," said Stephen W. Yale-Loehr, a law professor at Cornell University and an immigration lawyer. "It is always difficult for Congress to enact significant immigration changes because immigration is so complex and controversial."</p>	<p>"候任总统是否会真正恪守这些承诺，还有待观察，"康奈尔大学法律教授与移民律师史蒂芬·W·耶尔-勒尔(Stephen W. Yale-Loehr)说："在移民方面，国会总是很难实行重大的变化，因为移民问题太复杂，太有争议。"</p>
<p>The United States is not alone in offering residence for investment. Germany, Australia and Canada have versions of the program, as do several small countries. Competition among Caribbean nations is rising for their citizenship-by-investment programs, with St. Lucia being the most recent to revamp its program.</p>	<p>美国不是唯一一个为投资者提供居留权的国家。德国、澳大利亚、加拿大及一些小国都有类似的项目。目前，加勒比国家正在竞相实施投资移民计划，圣卢西亚是最新修订类似项目的国家。</p>
<p>Foreign interest is growing. According to an analysis by professors at New York University, investments in the program are increasingly financing large-scale, luxury or entertainment-oriented real estate</p>	<p>来自外国的关注在增长。根据纽约大学的教授们分析，该项目吸引的投资愈来愈多地用于大型、豪华或娱乐型房地产开发项目融资。举例来说，去年，来自 2000 名投资者的近 10 亿美元被用于在拉斯维加斯兴建一座中式风格</p>

<p>developments. Among them: nearly \$1 billion gathered in the last year from 2,000 investors to build a Chinese-style casino in Las Vegas, \$600 million from 1,200 investors for New York's mixed-use Hudson Yards project and \$150 million from 300 investors to construct the Beverly Hills Waldorf Astoria.</p>	<p>的赌场；来自 1200 名投资者的 6 亿美元被用于在纽约兴建多用途的哈德逊广场(Hudson Yards)；来自 300 个投资者的 1.5 亿美元被用于建造比佛利山华尔道夫-阿斯托里亚酒店。</p>
<p>The program was intended to reward people for putting money into the United States. Projects that raised more than \$1 billion were practically nonexistent in the program before 2010, Prof. Jeanne Calderon of New York University's Stern School of Business wrote in a March report on the program. But when banks turned off the credit spigot around the 2008 financial crisis, developers started getting more creative in finding alternative financing.</p>	<p>该项目旨在奖励那些把资金投入美国的人。纽约大学斯特恩商学院教授让娜·卡尔德隆(Jeanne Calderon)在 3 月发表了关于该计划的报告,其中写道,在 2010 年之前,几乎没有什么建设计划通过该项目筹集到超过 10 亿美元的资金。但是,银行在 2008 年金融危机时期关闭信贷渠道后,开发商便开始寻找更有创意的替代融资方案。</p>
<p>N.Y.U. tracks 27 projects across the United States that have raised more than \$5.6 billion from foreign investors.</p>	<p>纽约大学跟踪调查了美国境内 27 个项目,它们从外国投资者那里募集了超过 56 亿美元。</p>
<p>Many of these projects are run by large commercial developers who could proceed without any foreign investment but are reaching out to foreign investors for cheaper financing than they would receive from banks.</p>	<p>它们当中有许多是由大型商业开发商经营,就算没有任何外国投资也可以运作下去,但开发商们寻觅外国投资者是为了获得比银行更便宜的融资。</p>
<p>Reformers from both political parties are calling for a much tighter definition of the areas eligible for investment through the program to remove the tracts in prosperous urban areas and get money to underserved ones. They are also looking at raising the investment minimum to \$800,000.</p>	<p>来自两党的改革者们都呼吁对有资格获得该项目投资的地区做出更加严格的定义,让这些资金不再用于繁华都市地带的大片土地,而是用于欠发达地区。他们还考虑将投资最低限额提高到 80 万美元。</p>
<p>In addition, they hope to make the projects more accountable by requiring better disclosures to protect potentially vulnerable</p>	<p>此外,他们希望该项目具备更好的透明度,保护可能处于弱势地位的移民免受欺诈性计划之害,令该项目更加负责。联邦证券监管机构已经针对近年来</p>

<p>immigrants from fraudulent schemes. Federal securities regulators have filed several enforcement actions against people committing fraud through the program in recent years.</p>	<p>通过该项目实施欺诈的一些人采取了若干执法行动。</p>
<p>The issue has friends and foes on either side of the political aisle. Senators from rural parts of the country want more development dollars coming to their districts, while those from large cities want to maintain the status quo. As for the immigrants themselves, they are entering the program mostly in an effort to gain permanent residency in the United States, which gives project developers more power.</p>	<p>这个问题在政界的左右两方都有朋友和敌人。来自农村地区的参议员希望更多的发展资金进入自己的选区，而来自大城市的议员想保持现状。至于移民们自己，他们参与该项目主要是为了在美国获得永久居留权，因此会令开发商拥有更多的权力。</p>
<p>The Wanda Group, which is the largest commercial developer in China and is owned by the nation's richest man, is said to be seeking foreign investment program financing for its Wanda Vista Hotel in Chicago. <p>Divorce, India Style: It's All Up to the Judge</p>	<p>印度式离婚：一切都是法官说了算</p>

<p>The country's legal code offers a notably narrow selection of divorce-worthy faults, among them cruelty, incurable leprosy and renunciation of the world by entering religious orders. Many applicants plead "mental cruelty," but defining mental cruelty is a murky affair, often coming down to a judge's discretion.</p>	<p>该国法律仅列出少数几项允许离婚的情况，包括虐待，不可治愈的麻风病，以及因加入宗教派别而永久脱离俗世等。很多人以“精神虐待”为由申请离婚，但精神虐待的界定非常模糊，往往是由法官自行裁决。</p>

Build the modern-day equivalent of the Golden Gate Bridge, the Hoover Dam, the Lincoln Tunnel or the Timberline Lodge. Or even, given Mr. Trump's passion for the sport, another Bethpage State Park Black Course — the first public golf course to host the prestigious United States Open.	建造当代的金门大桥(Golden Gate Bridge)、胡佛水坝(Hoover Dam)、林肯隧道(Lincoln Tunnel)或林木木屋(Timberline Lodge)。又或者, 鉴于特朗普对体育的热情, 建造另一座贝斯佩奇州立公园黑球场(Bethpage State Park Black Course)——第一座承办享有盛誉的美国公开赛(United States Open)的公共高尔夫球场。
All of these are Depression-era New Deal public works projects started under President Franklin D. Roosevelt that are still in use.	所有这些公共工程项目, 都属于应对大萧条的罗斯福新政的一部分, 始建于富兰克林·D·罗斯福(Franklin D. Roosevelt)总统治下, 目前仍在使用之中。
Can anyone name even one infrastructure project from President Obama's \$800 billion American Recovery and Reinvestment Act? I didn't think so.	有谁能从奥巴马总统价值 8000 亿美元的《美国复苏与再投资法案》(American Recovery and Reinvestment Act)找出哪怕一个基建项目吗? 我不这么认为。
In fairness to Mr. Obama, Republicans in Congress bitterly opposed his public works spending plans, and he lamented there were too few "shovel ready" projects.	替奥巴马说句公道话, 共和党议员曾强烈反对其公共工程支出计划, 而且他曾感叹几乎没有什么“可以动工的”项目。
That didn't stop F.D.R. His Public Works Administration and Works Progress Administration, using combinations of public and private money, solicited proposals from states and cities, hired millions of workers and eventually built 78,000 bridges, 650,000 miles of roads, 700 miles of airport runways, 13,000 playgrounds and 125,000 military and civilian buildings, including more than 40,000 schools — in most cases to high standards of quality and design.	但这没能阻挡住罗斯福。他的公共工程管理局(Public Works Administration)和工程振兴管理局(Works Progress Administration)动用了公共以及私人资金, 向各个州和城市征询了意见, 雇用了数以百万计的工人, 最终建成了 7.8 万座桥梁、65 万英里长的道路、700 英里长的飞机跑道、1.3 万座游乐场以及 12.5 万座军用和民用建筑, 包括逾 4000 所学校——其质量和设计标准在大多数情况下都很高。

<p>Repealing Obamacare, lowering taxes for businesses and mostly wealthy people, overhauling the immigration system and privatizing Medicare — what congressional Republicans have cited as their top legislative priorities — would be divisive in a nation bitterly split along partisan and geographic lines. <p>"Our airports are like from a third-world country," Mr. Trump said at Hofstra University during the first presidential debate. <p>Mr. Trump has pledged \$1 trillion over 10 years, but no one I spoke to thought that was enough. Doubling that would be more realistic, Mr. McNichol said. And Mr. Trump's campaign proposal was limited to infrastructure projects that could pay for themselves out of user fees, which seems like a shortsighted approach. Most economists say the best way to finance a big public works program, particularly given today's low interest rates, would be for the government to borrow most</p>	<p>特朗普承诺在 10 年时间里投资 1 万亿美元, 但和我交谈过的所有人都觉得不够。麦克尼科尔说, 翻一番更实际。此外, 特朗普竞选时提出的方案仅限于可通过收费实现自负盈亏的基础设施项目。这看上去似乎是一种目光短浅的做法。大部分经济学家表示, 为大型公共工程筹集资金的最佳方式是, 资金大头由政府向投资者举债, 尤其是考虑到眼下利率水平低。</p>

<p>of the money from investors.</p>	
<p>Pulling off something on the scale of the Depression-era public works programs would be no small feat. Recent federal infrastructure efforts, including reconstruction after Hurricanes Katrina and Sandy, as well as the Obama stimulus program, hardly inspire confidence.</p>	<p>在规模堪比大萧条时期的公共工程上取得成功绝非易事。最近的联邦基础设施项目，包括飓风“卡特里娜”和“桑迪”后的重建，以及奥巴马的刺激计划，都让人感到心里没底。</p>
<p>Alan Brinkley, a professor of history at Columbia, said he doubted Mr. Trump could replicate Roosevelt's achievements. "Roosevelt had a coherent mission, if not always a consistent way to address the Depression and the economic crisis," Mr. Brinkley said. "He was eclectic in his approach because he was pragmatic."</p>	<p>哥伦比亚大学历史教授阿兰·布林克利(Alan Brinkley)怀疑特朗普无法复制罗斯福的成就。“罗斯福担负的使命始终如一，尽管他应对大萧条和经济危机的方式并非总是一致，”布林克利说。“他在方法上的多样是源于他的务实。”</p>
<p>Even more important, "Roosevelt was informed, surrounded himself with informed people, and was prepared on Day 1 to begin. I'm not sure that Trump's policies go beyond his electioneering slogans," Mr. Brinkley said. "I'm afraid a new P.W.A.," he added, referring to the Public Works Administration, "will stand for Promises Without Actions."</p>	<p>更重要的是，“罗斯福见多识广，身边也都是见多识广之人，上任第一天他就准备开始了。我不确定特朗普的政策会不会超越竞选时打出的口号，”布林克利说。“我担心新的PWA，”他接着说，这里指的是公共工程管理局(Public Works Administration)，“会变成‘只许诺不行动’(Promises Without Actions)。”</p>
<p>But in the spirit of magnanimity, let's give Mr. Trump the benefit of the doubt, as Mr. Obama has suggested. He'll need his own versions of Harold L. Ickes, Roosevelt's interior secretary, who ran the P.W.A., and his close adviser Harry L. Hopkins, who ran the W.P.A.</p>	<p>但是，正如奥巴马所建议的，本着宽宏的精神，我们权且相信特朗普。他将需要找到自己的哈罗德·伊克斯(Harold L. <p>Mr. Trump will also need to be hands-on. Roosevelt asked states and cities for proposals, but he made nearly all the final decisions himself. "F.D.R. was a fanatic about infrastructure, roads, planning," Mr. McNichol said. "As a commissioner in New York, he helped lay out the Taconic Parkway. He even helped design the picnic tables."</p>	<p>特朗普还需要亲力亲为。罗斯福让各州各市提交方案，但几乎所有最终决定都是他自己拍板的。“FDR非常喜欢基础设施、公路和规划，”麦克尼科尔说。“在纽约当警察局长时，他就参与设计了塔科尼克公园大道(Taconic Parkway)。他甚至还参与设计过野餐桌。”</p>

Schneiderman)发了一封只有一段文字的信函，表示这项和解协议的资金不会来自“任何慈善基金会或其他慈善机构”。</p>
<p>A copy of the letter, from Alan Garten, executive vice president and general counsel for the Trump Organization, was reviewed by The New York Times. Mr. Garten did not respond to a request for comment.</p>	<p>这封信出自特朗普集团(Trump Organization)执行副总裁兼法律总顾问阿兰·加腾(Alan Garten)之手，《纽约时报》查看了该信件的一个副本。加兰没有回应时报的置评请求。</p>
<p>In the past, Mr. Trump has used money from his charitable foundation, the Donald J. Trump Foundation, to settle lawsuits arising from his business and personal activities. Last month, in the heat of the presidential campaign, The Washington Post reported that more than a quarter of a million dollars from Mr. Trump’s charity had been used to settle legal disputes.</p>	<p>过去，特朗普曾使用他的慈善基金会唐纳德·J·特朗普基金会(Donald J. Trump Foundation)的资金解决生意和个人活动引发的诉讼。上个月，在总统竞选处在胶着状态时，《华盛顿邮报》报道了特朗普慈善基金会有超过 25 万美元的资金被用于解决法律纠纷。</p>

<p>"Given Mr. Trump's reported history of using his charity's money to fund his and his businesses' legal settlements, we demanded written assurance that the Trump University settlement would not be paid for by any charitable entity," said Amy Spitalnick, a spokeswoman for the state attorney general.</p>	<p>"考虑到外界称特朗普有利用慈善资金解决个人及生意上的法律纠纷的历史，我们要求提供书面保证，确保特朗普大学的和解资金不会来自任何慈善机构，"总检察长的发言人艾米·斯皮塔尔尼克(Amy Spitalnick)说。</p>
<p>Mr. Schneiderman sued Trump University in 2013, and his office helped negotiate the settlement, which also resolved two class-action lawsuits filed in federal court in San Diego. One of those suits was scheduled to go to trial in a few days. The settlement foreclosed the possibility of a potentially embarrassing situation for Mr. Trump as he moves forward in putting together his administration.</p>	<p>斯皮塔尔尼克在 2013 年对特朗普大学提起了诉讼，他的办公室协助达成了这项和解协议，该协议同时解决了两项在圣迭戈联邦法院提起的集体诉讼。其中一起诉讼原本会在几天后开审。和解协议令正在组建政府的特朗普得以避免陷入一个十分尴尬的境地。</p>
<p>During the presidential campaign, Mr. Trump said he did not like settling lawsuits and insisted that students found Trump University to be "wonderful" and "beautiful." He took to Twitter early Saturday to say: "The only bad thing about winning the presidency is that I did not have the time to go through a long but winning trial on Trump U. Too bad!"</p>	<p>在竞选期间，特朗普曾表示他不喜欢和解官司，坚称学生们觉得特朗普大学“很棒”、“漂亮”。上周六早，他在 Twitter 上表示：“赢得总统选举唯一的坏处就是，我没时间就特朗普大学的诉讼经历长时间的庭审然后胜诉。真遗憾！”</p>
<p>The lawsuits said that Trump University, which was in business from 2004 to 2010, cheated students out of thousands of dollars in tuition through high-pressure sales tactics and deceptive claims about the program. About 7,000 students will be eligible to recoup some of the money they spent on tuition. The settlement still requires the court's approval.</p>	<p>诉讼显示，在 2004 年至 2010 年运营的特朗普大学曾通过高压销售策略和有关该课程的虚假宣传，骗取学生数千美元学费。有大约 7000 名学生有资格拿回他们支付的一部分学费。这项协议还需要获得法院的批准。</p>
<p>Some Trump University students paid as much as \$35,000 in tuition. One of them, Jeffrey Tufenkian told The New York Times in 2011 that his experience at Trump University "was almost completely worthless."</p>	<p>特朗普大学的一些学生支付了高达 3.5 万美元的学费。其中的杰夫里·图芬吉安(Jeffrey Tufenkian)曾在 2011 年告诉《纽约时报》，他在特朗普大学的经历“几乎完全没价值”。他表示，这个课程用掉了他和妻子的大部分积蓄。</p>

He said the program had wiped out much of his and his wife's savings.	
It was not known whether an insurance policy taken out by Trump University would cover any part of the settlement.	目前还不清楚特朗普大学提取的一份保单能否覆盖部分和解资金。
Customarily, settlements can be taken as a tax deduction by a business, and that appears to be the case in this situation. However, a \$1 million penalty for violating state education laws in New York, which is part of the settlement package, may not qualify for a deduction.	和解资金通常可以被企业当税额减免，在本案中似乎也是如此。不过，因违反纽约州教育法而被处罚的 100 万美元罚金——和解协议的一部分——可能无法抵税。

Two Children, One Rich, One Poor, Gasping for Air in Delhi's Smog	穷孩子富孩子，印度雾霾面前同呼吸共命运
NEW DELHI — In the dense smog that engulfed India's capital early this month, a baby named Vaishnavi gasped through the night.	新德里——本月初，在印度首都弥漫的浓雾中，一个名叫瓦什纳维(Vaishnavi)的婴儿彻夜难以呼吸。
Inside the concrete room that her father and mother rent for \$20 a month, they took turns staying up, laying a hand on her rib cage, feeling it move up and down. Her coughing fits became so violent that she vomited, milk mixed with ropes of sputum. Three times they thought she would not survive until morning.	她的父母在以每月 20 美元的租金租住的混凝土房间里轮流熬夜，把手放在她的胸口，感受它的起伏。她咳得太厉害，结果吐了起来，可以看到奶里混着痰丝。有三次他们以为她活不到早上。
Twenty miles away, inside an elegant, high-ceilinged house in an elite neighborhood, a 4-year-old boy named Mehtab was also struggling to fill his lungs with air.	20 英里外，在一个精英社区一所天花板很高、看起来讲究的房子里，一个名叫梅赫塔布(Mehtab)的 4 岁男孩也在努力往肺里吸入空气。
His mother, heavily pregnant, sat beside him, administering corticosteroids through a nebulizer mask once an hour. But once an hour wasn't enough. Mehtab's father fought waves of panic as they waited for the sun to rise. The boy looked, to him, like a fish suffocating in the air.	他身怀六甲的妈妈坐在身边，每 1 小时让他用雾化面罩吸入一次皮质类固醇。但 1 小时 1 次还不够。在等待太阳出来的这段时间里，梅赫塔布的父亲努力遏制心底的阵阵恐慌。他觉得这孩子像一条在空气中窒息的鱼。

<p>For seven days at the beginning of this month, a thick cloud settled over this metropolis of 20 million people. Held in place by a weather system known as an anticyclone, the pollution was pulled inward and down, trapping the people of this city in concentrations of hazardous micro-particles never before recorded here.</p>	<p>在本月的前七天里，浓雾始终笼罩着这座有 2000 万人口的大都市。一种名为反气旋的天气系统控制了这里，污染物聚拢下沉，把城里的人困在破纪录的高浓度有害微粒中。</p>
<p>The rich, who are buffered from so many of Delhi's dangers, bunkered themselves inside, filtering out particles in their own air through expensive, high-tech purifiers. But the nature of air pollution is that it is pervasive. Researchers in China have found that exposure rates for the rich and the poor are virtually indistinguishable.</p>	<p>德里的很多危险，富人都是不用担心的。他们躲在室内，用昂贵的高科技净化器过滤空气中的颗粒物。但空气污染是无所不在的。中国的研究者发现，富人和穷人对空气污染的暴露程度实际上没有太大差别。</p>
<p>As average daytime levels of PM 2.5, the most dangerous particles, passed 700 micrograms per cubic meter, 28 times the concentration the World Health Organization considers safe, authorities in Delhi took the unprecedented step of shutting schools for three days. Protesters marched in surgical masks, carrying posters likening the city to a gas chamber.</p>	<p>白天，危害最大的 PM2.5 微粒的平均浓度超过每立方米 700 微克，是世界卫生组织(World Health Organization)认定的安全浓度的 28 倍。德里当局采取前所未有的措施，下令学校停课三天。抗议者戴着外科手术口罩游行，标语牌上把这座城市比作一间毒气室。</p>
<p>Eventually, the wind picked up, bringing the city's pollution level down to its usual, atrocious winter level. But the air quality in north India will remain dangerous for months, as poor people fight the dropping temperature by burning things — leaves, plastic, anything — to stay warm.</p>	<p>最后终于起风了，污染水平降到了通常极差的冬季水平。但是，印度北部的空气质量依然将在数月内保持危险水平，因为那里的穷人为了对抗下降的温度，燃烧各种东西取暖——树叶、塑料等等。</p>
<p>There is a clear body of evidence that death rates, emergency room visits, heart attacks and strokes all rise when particulate concentrations are high. Recent data from the WHO's Global Burden of Disease project indicates that the number of premature deaths related to air pollution in</p>	<p>有明确证据显示，当空气中的颗粒浓度走高时，死亡率、急诊数量、心脏病发作和中风病例都会随之上升。世界卫生组织全球疾病负担研究项目(Global Burden of Disease)的最新数据表明，在印度，与空气污染相关的过早死亡人数已经赶上并且正在超越中国。</p>

<p>India has caught up with the number in China, and is now surpassing it.</p>	
<p>The worst-hit will be the very old, who are susceptible to heart disease and stroke, and the very young, whose lungs are so taxed by polluted air that they cannot develop normally. Children are more vulnerable because they are smaller, with shallower breaths and higher heart rates; they breathe more air.</p>	<p>最受影响的将是年龄很大的人——他们容易出现心脏病或中风——以及年龄很小的人，他们的肺部因空气污染严重受损，无法正常发育。孩子们更易受到伤害，因为他们个头更小，呼吸更浅，心率更快，吸入的空气更多。</p>
<p>In the very different homes of Vaishnavi and Mehtab, four parents are waiting to see what the rest of this winter will do to their children.</p>	<p>在瓦什纳维和梅赫塔布迥然不同的家里，四位家长在观望孩子们能否平安度过剩下的冬季。</p>
<p>Vaishnavi's father, Ravi, who, like many in India do not use a last name, remembers that October day because he woke up and smelled something burning. The rubber casing of an electrical wire is burning, that was his first thought. He splashed his eyes with water to stop the stinging.</p>	<p>瓦什纳维的父亲拉维(Ravi)——和很多印度人一样，是不用姓氏的——还记得10月的一天，他醒来时，闻到一股某种东西烧着的味道。他首先想到的是电线的胶皮烧着了。因为眼睛刺痛，他还往眼上拍了点水。</p>
<p>On the ride into central Delhi, where he sells trinkets on a street corner, he passed columns of smoke: gray-blue wisps from piles of trash, and black pillars from fields where farmers were burning the straw left over from their rice harvests.</p>	<p>在去往德里市中心的路上——他在那里的一个街角卖不值钱的小玩意——他看到了很多烟柱：一堆堆垃圾燃烧散发的蓝灰色烟雾，以及农田里农民收完稻子后燃烧秸秆产生的黑色浓烟。</p>
<p>Scientists had been tracking the progress of a mass of smoke via NASA satellite images, as it rose off farmers' fields in the nearby states of Punjab and Haryana and floated across the plains toward the city, a two-day drift. In Delhi, it merged with emissions from cars, coal-fired power plants, open-air burning of trash, and dust from construction.</p>	<p>科学家们通过 NASA 卫星图像追踪一团烟雾的进展，它从附近旁遮普邦和哈里亚纳邦(Haryana)的农田升起，在平原上空飘了两天，来到了德里。在这里，它与汽车、煤电厂和露天垃圾燃烧产生的废气以及施工扬尘混到了一起。</p>
<p>This year, the crop-burning emissions happened to arrive on the eve of Diwali, the Hindu festival of lights, when smoke from millions of celebratory fireworks typically send concentrations of the harmful PM</p>	<p>今年，燃烧秸秆正好发生在印度教排灯节(Diwali)前夕——大量节庆烟火产生的烟雾通常会导致有害的 PM2.5 颗粒物的浓度暴涨。拉维从小就在那个街角做生意，之前他妈妈也曾在那里卖东西。他从未见过这么浓的雾霾，连香</p>

<p>2.5 particles skyrocketing. Ravi has worked on the same corner since he was a child, and his mother worked there before him. He had never seen a smog so thick that it obscured the Shangri-La Hotel. He knew something was not right: He felt dizzy, as if he had been sniffing glue.</p>	<p>格里拉酒店(Shangri-La Hotel)都看不见了。他知道情况不对劲：觉得头晕，跟吸闻了胶水似的。</p>
<p>What worried him more was his only child Vaishnavi, just 18 months old, whose spasmodic nighttime cough no longer quieted with the arrival of morning. He bought her a surgical mask for 40 rupees — about 60 cents — from a merchant at an intersection, but she kept pulling it off. On the way home, he furiously jumped out of the auto-rickshaw and confronted a man burning a pile of trash on the road. “Please don’t burn this, my daughter is crying,” he said.</p>	<p>更让他担心的是自己唯一的孩子瓦什纳维，她只有 18 个月大，夜间的痉挛性咳嗽并没有随着早晨的到来而平息。他花了 40 卢比（约合 60 美分）从十字路口的小贩那里买了一个外科手术口罩，但女儿总是把口罩扯下。在回家的路上，他愤怒地从机动三轮车上跳下来，去跟路边烧垃圾的一个男人吵架。“请不要再烧了，我女儿一直在哭，”他说。</p>
<p>The man responded with a string of especially dirty abuses.</p>	<p>那个男人用一连串极其难听的脏话回应他。</p>
<p>The air that week was utterly still; meteorologists measured both horizontal and vertical movement at nil. Madhurbain Singh Anand, the father of 4-year-old Mehtab, peered into the garden behind their house as the cloud of pollution settled on the city; the garden wall, maybe 20 feet away, was no longer visible. When someone opened a door, a haze filled the room.</p>	<p>那一周，空气完全不流动。据气象学者的测试，空气在水平和垂直方向上的流动均为零。污染云团笼罩这座城市时，四岁男孩梅赫塔布的父亲马德赫班·辛格·阿南德(Madhurbain Singh Anand)向屋后的花园看去，约 20 英尺（约合 6 米）外的花园围墙已经看不见了。有人打开房门时，烟雾就会弥漫整个房间。</p>
<p>“It’s like those horror movies,” he said. “You open the door and the thing comes in.”</p>	<p>“就像那些恐怖片一样，”他说，“你打开门，那东西就进来了。”</p>
<p>The two children, 20 miles and at different ends at the economic spectrum, got sick on the same night.</p>	<p>这两个孩子相隔 20 英里，家里的经济条件有天壤之别，但他们在同一个晚上生病。</p>
<p>Anand brought home an air purifier that cost 29,000 rupees — about \$425 — and switched it on, peering at the display to see the concentration of PM 2.5. It was above 700 inside the house. Three days</p>	<p>阿南德花 2.9 万卢比（约合 425 美元）买了一个空气净化器。带回家后，他马上打开，盯着显示器上的 PM2.5 浓度。室内的浓度超过 700。三天后，考尔(Kaur)带着梅赫塔布离开德里，登上开往她父母家的火车，它在德里北</p>

What shocked her was how quickly his breathing eased. They arrived at night, and he slept so peacefully that she reduced the steroid treatments to every four hours. The next morning, she watched through the window as he played outside.	令她震惊的是，儿子的呼吸问题很快就缓解了。他们到的那天晚上，他睡得很平静，她把类固醇用药减为每4小时一次。第二天早晨，她透过窗户看着他在外面玩耍。
She called her husband, crying, and said it was time to leave Delhi.	她哭着给丈夫打电话，说是时候离开德里了。
Not so for Vaishnavi. This week, she sat on her mother's lap, sucking on a lollipop, while her aunt cooked on a clay stove inside the room, filling it with fumes.	瓦什纳维的境况大不相同。这一周，她坐在妈妈腿上，舔着一根棒棒糖，她的姨妈（或姑妈）在屋里的土灶台上做饭，屋里弥漫着油烟。
With the tourists back on the street, Vaishnavi's father, Ravi, was back at his corner, selling trinkets.	街上又有游客后，瓦什纳维的父亲拉维返回那个街角继续卖东西。
He had consulted a roadside doctor about protecting his family from air pollution, and gathered that they were supposed to eat cane sugar. He had also bought a pair of eyeglasses to protect his eyes from the pollution, and removed several bricks from the wall of the small, airless room his family occupies, which he thought would improve air circulation.	他询问一名街头医生要如何保护家人免受空气污染的伤害，得到的回复是，他们应该吃蔗糖。为了保护眼睛，他还买了一副眼镜。他家住的那个小房间不通风，他从墙上取下几块砖，认为那样能加强空气流通。
Vaishnavi had improved with a course of antibiotics, but he felt no certainty that she would survive another week like the one that followed Diwali. Or, for that matter, that anyone would notice if she did not.	瓦什纳维吃了一个疗程抗生素之后，病情有所好转，但要是再赶上排灯节后那一周那种情况，他不知道女儿是否能挺过去，也不知道如果她没能活下来，是否有人会注意到。
"Delhi people have no memory," he said. "It would be one in a hundred who would ask me how she died."	"德里人没记性，"他说。"一百个人中只会有一人问我，她是怎么死的。"

Fidel Castro, Cuban Revolutionary Who Defied U.S., Dies at 90	菲德尔·卡斯特罗，革命英雄亦或专制君主的一生
Fidel Castro, the fiery apostle of revolution who brought the Cold War to the Western Hemisphere in 1959 and then defied the United States for nearly half a century as Cuba's maximum leader, bedeviling 11 American presidents and briefly pushing the world to the brink of nuclear war, died Friday. He was 90.	菲德尔·卡斯特罗(Fidel Castro)周五去世，享年90岁。热情鼓吹革命的他曾在1959年把冷战的战火带到西半球，并在接下来的近半个世纪里以古巴最高领导人的身份对抗美国。他困扰了11位美国总统，并曾短暂地将全世界推向核战边缘。
His death was announced by Cuban state television.	古巴官方电视台宣布了他的死讯。
In declining health for several years, Mr. Castro had orchestrated what he hoped would be the continuation of his Communist revolution, stepping aside in 2006 when he was felled by a serious illness. He provisionally ceded much of his power to his younger brother Raúl, now 85, and two years later formally resigned as president. Raúl Castro, who had fought alongside Fidel Castro from the earliest days of the insurrection and remained minister of defense and his brother's closest confidant, has ruled Cuba since then, although he has told the Cuban people he intends to resign in 2018.	多年来，卡斯特罗的健康状况每况愈下。在此期间，他精心安排，希望自己领导的共产主义革命能够继续下去。2006年，被重病击倒的卡斯特罗让位。他暂时将大量权力移交给自己的弟弟、现年85岁的劳尔(Raúl)，并于两年后正式辞任总统。自那时以来，劳尔·卡斯特罗一直统治着古巴，不过他对古巴民众表示自己打算在2018年辞职。劳尔·卡斯特罗从叛乱之初便与菲德尔·卡斯特罗并肩作战，且一直担任古巴国防部长，是他哥哥最亲密的知己。
Fidel Castro had held onto power longer than any other living national leader except Queen Elizabeth II. He became a towering international figure whose importance in the 20th century far exceeded what might have been expected from the head of state of a Caribbean island nation of 11 million people.	除女王伊丽莎白二世(Queen Elizabeth II)外，菲德尔·卡斯特罗掌权的时间比在世的任何其他国家元首都长。他成了一个大名鼎鼎的国际人物，在20世纪的重要性远远超出了外界对加勒比海地区一个人口1100万的岛国领导人的预期。
He dominated his country with strength and symbolism from the day he triumphantly entered Havana on Jan. 8, 1959, and completed his overthrow of Fulgencio Batista by delivering his first major speech in the capital before tens of thousands of admirers at the vanquished	从1959年1月8日得意洋洋地进入哈瓦那的那一天开始，他就用力量和象征主义统治着这个国家，并通过在被征服的富尔亨西奥·巴蒂斯塔(Fulgencio Batista)设在首都的军事基地面向数万名支持者首次发表重要讲话的方式，彻底推翻了那位独裁者。

dictator's military headquarters.	
A spotlight shone on him as he swaggered and spoke with passion until dawn. Finally, white doves were released to signal Cuba's new peace. When one landed on Mr. Castro, perching on a shoulder, the crowd erupted, chanting "Fidel! Fidel!" To the war-weary Cubans gathered there and those watching on television, it was an electrifying sign that their young, bearded guerrilla leader was destined to be their savior.	聚光灯打在他身上的他趾高气昂，言语间透着激情，直到黎明。最后，有人放飞了白鸽，以象征古巴新的和平。当一只鸽子落到卡斯特罗的肩膀上时，人群爆发了，反复高呼“菲德尔！菲德尔！”。对聚集在现场的厌战的古巴民众和在电视上看到这一幕的那些人来说，这是一个激动人心的迹象，表明他们留着胡子的年轻游击队领袖注定是他们的救世主。
Most people in the crowd had no idea what Mr. Castro planned for Cuba. A master of image and myth, Mr. Castro believed himself to be the messiah of his fatherland, an indispensable force with authority from on high to control Cuba and its people.	当年，人群中的大部分人都不知道卡斯特罗对古巴的设想是什么。卡斯特罗是善用形象和神话的能手。他相信，他就是祖国的救星，是一种必不可少的力量，具有上苍赋予的控制古巴和古巴民众的权力。
He wielded power like a tyrant, controlling every aspect of the island's existence. He was Cuba's "Máximo Lider." From atop a Cuban Army tank, he directed his country's defense at the Bay of Pigs. Countless details fell to him, from selecting the color of uniforms that Cuban soldiers wore in Angola to overseeing a program to produce a superbreed of milk cows. He personally set the goals for sugar harvests. He personally sent countless men to prison.	他像暴君一样行使权力，掌控着岛上万物的方方面面。他是古巴的“最高领导人”。在猪湾，他站在古巴陆军的一辆坦克上指挥自己国家的防御力量。不计其数的细节要由他来裁定，从选择古巴士兵在安哥拉穿的军装颜色，到领导一个培养超级奶牛品种的计划。他亲自制定蔗糖的收成目标，亲自把无数人送进监狱。
But it was more than repression and fear that kept him and his totalitarian government in power for so long. He had both admirers and detractors in Cuba and around the world. Some saw him as a ruthless despot who trampled rights and freedoms; many others hailed him as the crowds did that first night, as a revolutionary hero for the ages.	但让他和他领导的集权主义政府得以掌权这么长时间的，不仅仅是镇压和恐惧。在古巴和全世界，有支持他的人，也有诋毁他的人。一些人认为他是一个残忍的专制君主，践踏权利和自由，其他不少人却像第一天晚上的人群一样，称颂他是一位名留青史的革命英雄。
Even when he fell ill and was hospitalized with diverticulitis in the summer of 2006, giving up most of his powers for the first time, Mr.	2006年夏天，他病倒并因憩室炎入院，第一次放下手中的大部分权力。即便如此，他仍试图强行规定自己医疗护理的细节，并精心安排他领导的共产

<p>Castro tried to dictate the details of his own medical care and orchestrate the continuation of his Communist revolution, engaging a plan as old as the revolution itself.</p>	<p>主义革命的继续推进，所采用计划的历史和那场革命一样悠久。</p>
<p>By handing power to his brother, Mr. Castro once more raised the ire of his enemies in Washington. United States officials condemned the transition, saying it prolonged a dictatorship and again denied the long-suffering Cuban people a chance to control their own lives.</p>	<p>通过把权力交给自己的弟弟，卡斯特罗再次激起了他在华盛顿的敌人的愤怒。美国官员谴责这种权力过渡，称其延长了独裁统治，是再次拒绝让长期受苦的古巴民众有机会掌控自己的命运。</p>
<p>But in December 2014, President Obama used his executive powers to dial down the decades of antagonism between Washington and Havana by moving to exchange prisoners and normalize diplomatic relations between the two countries, a deal worked out with the help of Pope Francis and after 18 months of secret talks between representatives of both governments.</p>	<p>但 2014 年 12 月，通过着手交换囚犯并正常化外交关系，奥巴马总统利用自己的行政权力缓和了华盛顿和哈瓦那之间持续了几十年的敌意。这项协议是在教皇方济各(Pope Francis)的帮助下，经过两国政府的谈判代表长达 18 个月的秘密谈判后制定而成的。</p>
<p>Though increasingly frail and rarely seen in public, Mr. Castro even then made clear his enduring mistrust of the United States. A few days after President Obama's highly publicized visit to Cuba in 2016 — the first by a sitting American president in 88 years — Mr. Castro penned a cranky response denigrating Mr. Obama's overtures of peace and insisting that Cuba did not need anything the United States was offering.</p>	<p>尽管越来越虚弱且甚少出现在公共场合，但卡斯特罗仍清楚地表明了自己对美国由来已久的不信任。2016 年，奥巴马总统访问古巴，受到广泛报道。这是 88 年来在任美国总统首次访问古巴。几天后，卡斯特罗写了一封奇怪的回应信，贬损奥巴马的示好姿态，并坚称古巴不需要美国提供的任何东西。</p>
<p>To many, Fidel Castro was a self-obsessed zealot whose belief in his own destiny was unshakable, a chameleon whose economic and political colors were determined more by pragmatism than by doctrine. But in his chest beat the heart of a true rebel. "Fidel Castro," said Dr. Henry M. Wriston, president of the Council on Foreign Relations in the 1950s and early '60s, "was everything a revolutionary should be."</p>	<p>在很多人看来，菲德尔·卡斯特罗是一个自恋的狂热分子，对自己命运的信心坚定不移，是一条变色龙，决定其经济和政治颜色的是实用主义而非学说。但他胸膛里跳动着的，是一个真正的叛逆分子的心。“菲德尔·卡斯特罗，”在 50 年代和 60 年代初领导美国外交关系协会(Council on Foreign Relations)的亨利·M·里斯顿(Henry M. Wriston)说，“具备一个革命者应该有的一切特点。”</p>

<p>Mr. Castro was perhaps the most important leader to emerge from Latin America since the wars of independence in the early 19th century. He was decidedly the most influential shaper of Cuban history since his own hero, José Martí, struggled for Cuban independence in the late 19th century. Mr. Castro's revolution transformed Cuban society and had a longer-lasting impact throughout the region than that of any other 20th-century Latin American insurrection, with the possible exception of the 1910 Mexican Revolution.</p>	<p>卡斯特罗大概是拉丁美洲自 19 世纪早期的一系列独立战争以来出现的最重要的领导人。他显然是他自己的英雄何塞·马蒂(José Martí)在 19 世纪末为古巴的独立而斗争以来, 该国历史上最具影响力的塑造者。卡斯特罗领导的革命彻底改变了古巴社会, 它对整个地区的影响比 20 世纪拉美地区其他任何一场反叛都更持久, 1910 年的墨西哥革命可能除外。</p>
<p>His legacy in Cuba and elsewhere has been a mixed record of social progress and abject poverty, of racial equality and political persecution, of medical advances and a degree of misery comparable to the conditions that existed in Cuba when he entered Havana as a victorious guerrilla commander in 1959.</p>	<p>对于古巴和其他地方的人们而言, 他留下的是一份社会进步和穷困潦倒、种族平等和政治迫害、医学进步和苦难不幸共存的复杂成绩, 那种苦难的程度堪比他 1959 年以一名获胜的游击队指挥官的身份进入哈瓦时古巴存在的情况。</p>
<p>That image made him a symbol of revolution throughout the world and an inspiration to many imitators. Hugo Chávez of Venezuela considered Mr. Castro his ideological godfather. Subcommander Marcos began a revolt in the mountains of southern Mexico in 1994, using many of the same tactics. Even Mr. Castro's spotty performance as an aging autocrat in charge of a foundering economy could not undermine his established image.</p>	<p>那个形象让他在全世界成了革命的象征, 也成了很多模仿者的灵感来源。委内瑞拉的乌戈·查维兹(Hugo Chávez)视卡斯特罗为其思想上的教父。1994 年, 副司令马科斯(Subcommander Marcos)开始在墨西哥南部的山区展开反叛活动时, 使用了很多一模一样的战术。作为一名日渐衰老的独裁者, 卡斯特罗负责掌管的经济日渐衰落, 导致他的表现出现污点。即便如此, 他已经确立下来的形象也没有受到破坏。</p>
<p>But beyond anything else, it was Mr. Castro's obsession with the United States, and America's obsession with him, that shaped his rule. After he embraced Communism, Washington portrayed him as a devil and a tyrant and repeatedly tried to remove him from power through an ill-fated invasion at the Bay of Pigs in 1961, an economic embargo that</p>	<p>但正是卡斯特罗对美国的执迷和美国对他的执迷塑造了他的统治, 这比其他任何一切都更重要。卡斯特罗信奉共产主义后, 华盛顿把他描述成魔鬼和暴君, 并多次试图把他赶下台。华盛顿采取的措施包括 1961 年那场注定以失败告终的猪湾入侵行动、持续了数十年的经济禁运、多项暗杀计划, 乃至多个通过让他掉胡子来削弱其威望的怪异方案。</p>

<p>has lasted decades, assassination plots and even bizarre plans to undercut his prestige by making his beard fall out.</p>	
<p>Mr. Castro's defiance of American power made him a beacon of resistance in Latin America and elsewhere, and his bushy beard, long Cuban cigar and green fatigues became universal symbols of rebellion.</p>	<p>在拉美和其他地方，卡斯特罗对美国实力的不屑让他成了抵抗的灯塔。他浓密的胡须、细长的古巴雪茄和绿色的军装成了通用的反抗象征。</p>
<p>Mr. Castro's understanding of the power of images, especially on television, helped him retain the loyalty of many Cubans even during the harshest periods of deprivation and isolation when he routinely blamed many of Cuba's ills on America and its embargo. And his mastery of words in thousands of speeches, often lasting hours, imbued many Cubans with his own hatred of the United States by keeping them on constant watch for an invasion – military, economic or ideological – from the north.</p>	<p>卡斯特罗对形象，尤其是电视形象的威力的理解，帮助他留住了很多古巴人的忠心，哪怕是在最艰苦的贫穷和孤立时期。那时，他常常把古巴的很多问题归咎于美国及其禁运。他的演讲数以千计，且常常持续数小时。在这些演讲中，他精湛的语言能力促使古巴民众永远提防来自北方的入侵——不管是军事、经济还是思想上的——并通过这种方式把他自己对美国的仇恨灌输给他们。</p>
<p>Over many years Mr. Castro gave hundreds of interviews and retained the ability to twist the most compromising question to his favor. In a 1985 interview in Playboy magazine, he was asked how he would respond to President Ronald Reagan's description of him as a ruthless military dictator. "Let's think about your question," Mr. Castro said, toying with his interviewer. "If being a dictator means governing by decree, then you might use that argument to accuse the pope of being a dictator."</p>	<p>多年时间里，卡斯特罗接受了数百次采访，并保持住了让极其有损颜面的问题变得对自己有利的能力。1985年接受《花花公子》杂志(Playboy)的采访时，他被问及对罗纳德·里根(Ronald Reagan)总统把他描述成残忍的军事独裁者的言论作何回应。“咱们来想想你这个问题，”卡斯特罗说，把采访者玩于股掌之上。“如果独裁者的意思是按照最高领导人的指令执政，那你兴许可以用这个理由去指责教皇是独裁者。”</p>
<p>He turned the question back on Reagan: "If his power includes something as monstrously undemocratic as the ability to order a thermonuclear war, I ask you, who then is more of a dictator, the president of the United States or I?"</p>	<p>他把这个问题抛回到了里根身上：“如果他的权力包括能够下令发起一场热核战争那样极其不民主的内容，那么我问你，谁更是独裁者，美国总统还是我？”</p>

<p>With the dissolution of the Soviet Union in 1991, Mr. Castro faced one of his biggest challenges: surviving without huge Communist subsidies. He defied predictions of his political demise. When threatened, he fanned antagonism toward the United States. And when the Cuban economy neared collapse, he legalized the United States dollar, which he had railed against since the 1950s, only to ban dollars again a few years later when the economy stabilized.</p>	<p>随着1991年苏联解体，卡斯特罗遇到了他最大的挑战之一：在没有来自共产主义盟友的巨额补贴的情况下活下来。他无视了称他即将在政治上走向灭亡的预言。受到威胁时，他便煽动对美国的敌意。古巴经济接近崩溃时，从50年代开始便一直对抗美元的他批准了美元合法化，但几年后，当经济稳定下来时，他再次禁止美元流通。</p>
<p>Mr. Castro continued to taunt American presidents for a half-century, frustrating all of Washington's attempts to contain him. Cuba and its people.	
<p>With Mr. Castro's death, some hard-liners are pushing for retrenchment and hope that President-elect Donald J. Trump will crack down now that the government has lost its father figure. <p>But the oldest and most vehement exiles — the historicos, as they are called — are dying off in large numbers. Their children, while still passionately opposed to Mr. Castro, are open to closer ties with the Cuban people as a way of stoking change. (Even Mr. Mas Santos is part of this group.) <p>A few hours later, in a statement issued by his transition team, Mr. Trump called Mr. Castro a "brutal dictator" who had oppressed his own people for decades and left a legacy of "firing squads, theft, unimaginable suffering, poverty and the denial of fundamental human rights."</p>	<p>几个小时后, 在其过渡团队发表的声明中, 特朗普称卡斯特罗是一个“残暴的独裁者”, 压迫了该国人民数十年之久, 留下的政治遗产是“行刑队、盗窃、难以想像的痛苦、贫穷和基本人权的剥夺”。</p>
<p>"While Cuba remains a totalitarian island, it is my hope that today marks a move away from the horrors endured for too long, and toward a future in which the wonderful Cuban people finally live in the freedom they so richly deserve," Mr. Trump said. "Though the tragedies, deaths and pain caused by Fidel Castro cannot be erased, our administration will do all it can to ensure the Cuban people can finally begin their journey toward prosperity and liberty."</p>	<p>“古巴仍然是一个极权主义的孤岛, 我希望今天标志着坚韧的古巴人民不必再忍受长期以来遭受的恐怖, 走向美好未来, 生活在他们早就应得的自由之中,”特朗普说道。“虽然菲德尔·卡斯特罗造成的悲剧、死亡和痛苦不能消除, 但我国政府将尽一切努力确保古巴人民能够开始他们的繁荣和自由之路。”</p>
<p>The statements from the president and the president-elect were remarkable both for their differences and their similarities. While Mr. Obama steered clear of disparaging Mr. Castro, in keeping with his efforts to essentially defang a long-nursed mutual grudge, Mr. Trump condemned him. But both also described Mr. Castro's death as a potential turning point for Cuba, and both appeared to accept as fact</p>	<p>从声明来看, 总统和候任总统之间的分歧和相似之处都很明显。奥巴马为了缓解两国不睦关系的长期努力着想, 没有抨击卡斯特罗, 而特朗普谴责了他。但两人也都将卡斯特罗之死描述为古巴的一个潜在转折点, 并且似乎都接受了这样一个事实, 即古巴未来的自由和繁荣与美国的前景是紧密相连的。</p>

<p>that its prospects for freedom and prosperity are bound up with that of the United States.</p>	
<p>During the campaign, Mr. Trump sent mixed signals about how he intended to approach American policy toward Cuba, even as Mr. Obama was using the final months of his presidency to try to codify as much of the opening as possible.</p>	<p>在竞选期间，特朗普对于古巴政策的打算发出了前后不一的信号，当时奥巴马正在利用自己在白宫的最后几个月时间来尽可能巩固两国关系的缓解。</p>
<p>While Mr. Trump said during the Republican primary race that restoring diplomatic relations with Cuba — a step the Obama administration took last summer — was “fine,” he called Mr. Obama’s December 2014 agreement with President Raúl Castro of Cuba, Mr. Castro’s younger brother, a “very weak agreement” that provided too many “concessions” to the Cubans.</p>	<p>虽然特朗普在共和党初选期间表示，奥巴马政府去年夏天开始与古巴恢复外交关系是“好的”，但又说奥巴马在2014年12月与卡斯特的弟弟、古巴总统劳尔·卡斯特罗(Raúl Castro)签署的协议“很不利”，向古巴人做了太多“让步”。</p>
<p>“All of the concessions Barack Obama has granted the Castro regime were done through executive order, which means the next president can reverse them, and that I will do unless the Castro regime meets our demands,” Mr. Trump said at a campaign event in Miami in September. “Not my demands. Our demands.”</p>	<p>特朗普9月在迈阿密的一次竞选集会上说：“巴拉克·奥巴马对卡斯特罗政权做出的所有让步都是通过行政命令来进行的，这意味着下一任总统可以逆转。卡斯特罗政权如果不满足我们的要求，我就会扭转它们。这不是我的要求，而是我们的要求。”</p>
<p>Mr. Trump announced last week that he had named Mauricio Claver-Carone, a fierce critic of Mr. Obama’s opening with Cuba who leads a pro-embargo political action committee, to his transition team for the Treasury Department. The move was seen as a signal that Mr. Trump is considering unraveling the web of regulations Mr. Obama has put in place to ease trade and commercial restrictions against Cuba.</p>	<p>特朗普上周宣布任命毛里西奥·克拉韦尔-卡罗内(Mauricio Claver-Carone)为过渡团队中的财政部成员，此人领导着一个支持禁运的政治行动委员，强烈反对奥巴马缓解两国关系。该任命被看作是一个信号，暗示特朗普正在考虑撤销奥巴马为了试图缓解古巴贸易和商业限制而制定的规则。</p>
<p>Last month, Mr. Obama issued a sweeping directive setting forth a new United States policy to lift the Cold War trade embargo entirely — a</p>	<p>上个月，奥巴马签发了一项综合政令，提出了一项新的国策，以便完全取消冷战期间开始的贸易禁运——这需要获得国会的批准，它将结束美国对古巴</p>

<p>move that would require congressional approval — and end a half-century of clandestine plotting against Cuba’s government. And he announced that his administration was lifting perhaps the most symbolically potent aspect of trade restrictions, the \$100 limit on bringing Cuban rum and cigars into the United States. Earlier, Mr. Obama had also resumed direct flights between the two countries.</p>	<p>政府半个世纪以来的密谋破坏。奥巴马宣布，他的政府要解除入境美国的古巴朗姆酒和雪茄价值不超过 100 美元的限制，这或许是贸易限制中最具象征意义的一条。此前，奥巴马还恢复了两国之间的直航。</p>
<p>“During my presidency, we have worked hard to put the past behind us, pursuing a future in which the relationship between our two countries is defined not by our differences but by the many things that we share as neighbors and friends — bonds of family, culture, commerce and common humanity,” Mr. Obama said in his statement.</p>	<p>“在我的总统任期内，我们努力将过往抛在身后，谋求一个由我们作为邻居和朋友的共同点——比如家族团结、文化、商业和共同的人性——而非分歧来定义的未来，”奥巴马在声明中说。</p>
<p>Advocates of the opening argued that Mr. Castro’s death could be a pivot point, clearing away the last emotionally charged remnants of a policy that has outlived its usefulness.</p>	<p>支持两国缓和关系的人认为，卡斯特罗之死可能是一个轴心点，将斩断一套过时政策最后的情感残余。</p>
<p>“Symbolically, it makes a difference,” said Senator Amy Klobuchar, Democrat of Minnesota, the sponsor of bipartisan legislation to lift the embargo. “A lot of this policy for decades has not been based on sound reason. It has been based on the ghosts of the past. This could mark a major change. I don’t think it’s going to happen immediately, but symbolism is important in this relationship.”</p>	<p>明尼苏达州民主党参议员艾米·科罗布查尔(Amy Klobuchar)支持两党对解除禁运进行立法，她说，“从象征意义上说，这会产生作用。几十年来，这种政策不是基于完善的理由，而是基于过往。这可能标志着一个重大变化。我不认为变化会立即发生，但在这种关系中，象征意义很重要。”</p>
<p>But among Republicans, such a shift was not immediately apparent. Senator Marco Rubio of Florida said that if anything, Mr. Castro’s death should stiffen the resolve of those determined to oppose the Cuban government.</p>	<p>但在一些共和党人看来，这种转变不会立刻显现。佛罗里达州参议员马可·卢比奥(Marco Rubio)说，卡斯特罗之死如果说有什么影响，就是应该让那些反对古巴政府的人进一步坚定决心。</p>

<p>Trump Threatens to Roll Back Obama's Cuba Policy</p>	<p>特朗普威胁推翻奥巴马的美古和解政策</p>
<p>WASHINGTON — President-elect Donald J. Trump threatened on Monday to end President Obama's push to forge diplomatic relations and relax sanctions against Cuba, suggesting that he might wipe away two years of executive action to strengthen ties if he cannot reach "a better deal" for both Cuba and the United States.</p>	<p>华盛顿——候任总统唐纳德·J·特朗普(Donald J. Trump)本周一发出威胁，要结束奥巴马总统推动的与古巴恢复外交关系和放宽对其制裁的进程，并表示如果他无法为古巴和美国达成一个“更好的协议”，可能会取消两年来改善两国关系的行政法令。</p>
<p>In a post on Twitter that came three days after the death of Fidel Castro, the father of Cuba's revolution and embodiment of a half-century of suspicion and hostility between the United States and Cuba, Mr. Trump gave no details about what kind of changes he would seek in Mr. Obama's policy.</p>	<p>在古巴革命之父、象征着美古之间持续半个世纪的怀疑和敌意的菲德尔·卡斯特罗(Fidel Castro)逝世三天后，特朗普在 Twitter 上发布了这个消息，但并未细说他想如何改变奥巴马的政策。</p>
<p>But the comment hinted that the president-elect, who has been critical of the shift toward greater engagement between Americans and Cubans, is considering reinstating restrictions on commerce, trade and financial transactions that Mr. Obama has stripped away since he announced two years ago that he and President Raúl Castro had agreed to normalize relations.</p>	<p>特朗普曾批评美国和古巴增加往来的做法，这篇推文暗示，他正在考虑恢复对古巴的商业、贸易和金融交易限制。奥巴马两年前和古巴总统劳尔·卡斯特罗(Raúl Castro)赞同实现两国关系正常化之后，逐步取消了这些限制。</p>

<p>He has already installed Mauricio Claver-Carone, a Cuban-American who has been a harsh critic of Mr. Obama's opening, on his transition team for the Treasury Department, which has issued several rounds of regulations to remove impediments for United States companies and individuals seeking to do business with Cuba and travel there.</p>	<p>他已经任命了毛里西奥·克拉韦尔-卡罗内(Mauricio Claver-Carone)为过渡团队中的财政部成员，此人是古巴裔美国人，曾严厉抨击奥巴马缓解两国关系的做法。奥巴马发布过几轮条例，试图清除美国公司和个人与古巴做生意或前往那里旅行时遇到的障碍。</p>
<p>Mr. Trump's advisers were vague about what his approach would be on Cuba, telling reporters in a conference call that Mr. Trump would address the issue when he assumed office.</p>	<p>对于特朗普在古巴问题上的做法，他的顾问含糊其辞地在电话会议上对记者说，他上任后会处理这个问题。</p>
<p>"To be clear, the president-elect wants to see freedom in Cuba for Cubans," said Jason Miller, a spokesman.</p>	<p>"明确地说，特朗普希望看到古巴人在古巴享有自由，"发言人贾森·米勒(Jason Miller)说。</p>
<p>But Mr. Trump has signaled already that his position will be starkly different than that of Mr. Obama, who has argued that isolating Cuba for decades had failed to force changes in the autocratic government there and it was time to forge closer ties, including by re-establishing diplomatic relations, loosening sanctions, and ultimately repealing the embargo — a step that would take a vote of Congress.</p>	<p>但是特朗普已经表明，他的立场将与奥巴马截然不同，奥巴马曾经说过，孤立古巴已有几十年了，一直未能迫使那里的独裁政府做出改变，现在是时候建立更紧密的关系了，需要恢复外交关系，放宽制裁，最终废除禁运——这一步骤将由国会来表决。</p>
<p>Because much of the thaw has been accomplished through executive action, even some Obama administration officials concede that it is highly vulnerable to reversal. Mr. Trump could, for example, order the State Department to review its decision last year to remove Cuba from the list of state sponsors of terrorism, or suspend diplomatic relations that were resumed last summer. Unraveling the complex set of regulations that tore down obstacles to trade and commerce with Cuba could take longer and be more challenging.</p>	<p>由于大部分举措都是通过行政命令来完成的，即便是奥巴马的一些政府官员也承认，这很容易遭到逆转。例如特朗普可以命令国务院审查去年将古巴从“资助恐怖主义的国家”名单中移除的决定，或暂停去年夏天恢复的外交关系。而撤销一系列消除与古巴进行商贸活动的障碍的法规，可能需要更长时间，难度也会更大。</p>
<p>Josh Earnest, the White House press secretary, argued on Monday that</p>	<p>白宫新闻秘书乔希·欧内斯特(Josh Earnest)周一表示，奥巴马的政策已经促</p>

Mr. Trump would have a hard time reversing a policy that has already yielded business deals that have bolstered American companies and benefited the people of both countries.	成了一些商业交易，令美国公司和两国人民受惠，特朗普将很难扭转这样的政策。
He noted that there would soon be 110 daily flights from the United States to Cuba, and that cruise, tour and hotel operators had already invested significant sums in building the infrastructure to support those visits. Citizens of both Cuba and the United States support the new policy overwhelmingly, he added.	他指出，很快每天就会有 110 个从美国到古巴的航班，而且邮轮、旅游和酒店经营者都已投入大量资金来建设基础设施，为这些行程提供方便。古巴和美国的公民中，绝大多数人都支持这项新政策。
"So unrolling all of that is much more complicated than just the stroke of a pen," Mr. Earnest said, adding, "It's just not as simple as one tweet might make it seem."	"所以撤销这一切远比用笔划一条杠复杂得多，"欧内斯特说，"这可不是从一条推文里看起来那么简单的事情。"

'Trump Effect' Is Already Shaping Events Around the World	"特朗普效应"迅速波及全世界
JERUSALEM — Within days of Donald J. Trump's election to the presidency, Jerusalem's city planning chief declared an end to the era of holding up new housing for Jewish residents in contentious neighborhoods out of deference to American objections.	耶路撒冷——唐纳德·J·特朗普(Donald J. Trump)当选美国总统没几天，耶路撒冷城市规划局局长便宣布，由于美国的反对而推迟在有争议区域为犹太居民建造新房屋的时代终结了。
Last week, he followed through, advancing a long-delayed plan to build 500 homes, a down payment on thousands more to come. The mayor's office insisted that the timing was coincidental and the decision not political. But the planning chief made clear that he saw a green light to proceed "now that Trump" had won.	随后，他于上周开始推动一个被长期搁置的建造 500 栋房屋的计划。这只是首批项目，之后还会有数千栋房子。市长办公室坚称，这只是时间上的巧合，称该决策没有政治上的考量。但规划局局长明确表示，"由于特朗普"获胜，他看到了放行的信号。
Call it the Trump Effect. Around the world, his election is already shaping events — or at least perceived to be shaping them — even though he will not take office for seven more weeks. Companies	这就是特朗普效应。他的当选已经在影响世界各地一些事件的进程——至少被认为在影响它们——尽管他还有七周多的时间才会就任。有望从特朗普的经济政策中受益的企业股票飙升。对他的反贸易立场感到担忧的国家则出现

Governments are recalibrating policies on trade, defense and immigration.</p>	<p>了本国货币对美元大幅贬值的情况。许多政府都在重新调整有关贸易、国防和移民的政策。</p>
<p>The behavior of the global markets toward Mr. Trump has been uneven. By Monday, the dollar was slipping and bond markets were rallying, partly over a rethinking about whether Mr. Trump's presidency will result in inflation, an expectation that many traders have been calling Trumpflation.</p>	<p>全球市场因特朗普而表现不一。至周一，美元在下滑，债券市场则出现反弹，部分原因在于对特朗普当选是否会导致通货膨胀——有不少交易员称这一预期为“特朗普通胀”(Trumpflation)——进行的反思。</p>
<p>Much of the markets' mixed reaction reflects uncertainty about a new president who has never held public office, leaving political leaders, business executives and international institutions to make bets on how a Trump administration may rewrite rules that have governed global affairs under American presidents of both parties.</p>	<p>市场的不同反应大多反映出对一位从未担任过公职的新总统的不确信态度，这让政治领袖、商业高管和国际机构不得不对特朗普政府会如何改写美国两党总统领导下管理全球事务的规则下注。</p>
<p>"For allies and adversaries alike, the election of Donald Trump represents the likely abandonment of a decades-old U.S. commitment to uphold the global order," said Ivo Daalder, a former United States ambassador to NATO who is now president of the Chicago Council on Global Affairs.</p>	<p>“不管是对盟友还是对手而言，唐纳德·特朗普当选总统都意味着，美国延续数十年的维持全球秩序的承诺可能会中止，”之前担任美国驻北约(NATO)大使、现为芝加哥全球事务委员会(Chicago Council on Global Affairs)主席的伊沃·达尔德(Ivo Daalder)说。</p>
<p>For some, there was initially a promising forecast. American and foreign stock markets climbed in what some analysts called "the Trump bump." The Dow Jones Industrial Average has broken several records since the election, and last week topped 19,000 for the first time amid expectations of more business-friendly regulatory policies. Investment banks like Goldman Sachs have fared particularly well.</p>	<p>对有些机构而言，一开始的预期颇为光明。美国和海外股市因所谓的“特朗普冲击”(Trump bump)而上涨。在对商业更友好的调控预期下，道琼斯工业平均指数(Dow Jones Industrial Average)自大选结束后突破了多项记录，并于上周首次达到19000点的峰值。高盛(Goldman Sachs)等投资银行的股价表现得尤其好。</p>

<p>European firms have seen stock prices rise, too. Deutsche Bank, whose shares shot up as high as 17 percent after the election, has reasons for optimism beyond its longtime ties to Mr. Trump's businesses. With the Justice Department seeking a \$14 billion settlement from the bank for its handling of mortgage-backed securities in the 2008 financial crisis, some in Germany hope a new administration will ease up on business.</p>	<p>欧洲公司的股价也出现上涨。德意志银行(Deutsche Bank)的股价在大选结束后激增了 17%，除了与特朗普的企业长久的联系之外，它还有其他乐观的理由。美国司法部(Justice Department)就德意志银行在 2008 年金融危机中经营抵押贷款证券而与之展开谈判，提出了 140 亿美元的罚款，一些德国人期待新一届政府会放松商业方面的管控。</p>
<p>Another company that has seen its share value increase since the election is Magal Security Systems, an Israeli firm that helped develop high-tech security barriers around Gaza and the West Bank. With Mr. Trump's promise to build a wall along the border with Mexico, investors expect that firms like Magal could get some of the business. Magal's shares rose as high as 24 percent above their pre-election level, with trading volume as much as 150 times higher.</p>	<p>另一家在大选后股价大涨的公司是以色列的马加尔安全系统(Magal Security Systems)，该公司帮助研发了用在加沙和约旦河西岸的高科技安全栅栏。因为特朗普此前承诺在墨西哥建造边境墙，投资者期待马加尔这样的公司能拿到其中一部分生意。相比于大选之前，马加尔的股价上涨了 24%，成交量也增加了 150 倍。</p>
<p>For the same reason, Mexico has taken an economic hit since the election. Besides the wall, Mr. Trump has vowed to withdraw from the North American Free Trade Agreement. Mexico's peso has fallen sharply and its central bank last week slashed its growth projection for next year, citing "the electoral process in the United States."</p>	<p>出于同样的原因，墨西哥经济自大选后遭到冲击。除了边境墙，特朗普还发誓退出北美自由贸易协定(North American Free Trade Agreement)。墨西哥比索大跌，该国中央银行上周大幅调低了明年的增长预测，并指是受“美国选举进程”影响。</p>
<p>Other economies have reacted with trepidation. In India, the rupee last week sank to an all-time low. Multiple factors were cited, but among them were fears that Mr. Trump's policies may drive up inflation and interest rates.</p>	<p>其他经济体也因不安而做出反应。在印度，卢比上周跌至历史最低点。原因被认为有很多种，但其中包括对特朗普政策加重通胀和推高利率的担忧。</p>

<p>In the Philippines, where President Rodrigo Duterte has feuded with President Obama, the government has tried to gain favor in Mr. Trump's Washington. Mr. Duterte named as his new trade envoy to the United States Jose E.B. Antonio, a real estate tycoon who is helping build Trump Tower Manila. <p>In many places, there is still much head scratching over Mr. Trump. The mass-circulation Bild Zeitung in Germany secured exclusive rights to translating into German the whole interview Mr. Trump gave to The New York Times. <p>In China, initial optimism about Mr. Trump is giving way to skepticism. "We should stop imagining what benefits Trump's election could bring to China," Zhu Chenghu, a retired major general, said at a seminar at the China Academy of Social Sciences in Beijing on Friday. "The next few weeks present a unique window of opportunity for Israel," Naftali Bennett, who leads a pro-settler party in Mr. Netanyahu's cabinet, told a conference sponsored by The Jerusalem Post last week. Betty Herschman, the director of international relations for Ir Amim, a group that opposes settlement construction, said it was too early to know what Mr. Trump's policy would actually be. But she said one thing was clear: "The Israeli right is already celebrating."	反对修建定居点的组织"共享之城"(Ir Amim)的国际关系总监贝蒂·赫施曼(Betty Herschman)认为, 目前来谈论特朗普的政策究竟会是什么样, 还为时过早。但她也表示, 有一件事是明确的: "以色列右翼势力已经开始庆祝。"

Momentous Vacation	重大假期
By Damien Cave	作者：达米恩·凯夫
I was just finishing up a momentous vacation — a return to Cuba with my wife, who is Cuban-American, my two kids, and my father-in-law, who was visiting Cuba for the first time since leaving as a child 56 years earlier.	我的一个重要假期刚刚结束了。这次度假，我和妻子、两个孩子，以及岳父回了一趟古巴。我妻子是古巴裔美国人，岳父在 56 年前离开古巴时还是个孩子，这是他第一次重返那里。
We were supposed to just get up and fly home. But then I heard a jumble of noises: a loud phone in our hotel room and a pounding on our hotel door. It was dark still, before sunup, and I was far too dazed to hazard a theory about what was going on.	我们本应起床然后坐飞机回家。但这时，我听到了一阵杂乱的声音：酒店房间里大声响起的电话铃声和门上猛烈的拍响声。外面还是漆黑一片，太阳还没出来，我太茫然了，猜不出发生了什么事情。
So I opened the door, and there stood Raul, my father-in-law, dressed and wide awake. “Fidel’s dead,” he said. His face held decades of emotion with taut intensity. Then he rushed in to turn on the television.	于是我打开门，门外站着我的岳父劳尔(Raul)。他穿戴整齐，毫无睡意的样子。“菲德尔死了，”他说。他的脸上流露出了积压数十载的情感。然后，他快步走进屋里，打开电视。
From there, it was a scramble to figure out what to do, leading eventually to my family leaving and me staying behind. It was all a stunning turn of events. I’d been coming to Cuba for nearly 20 years, but what I kept thinking of was an exchange I’d had with Susan Chira, then the Foreign Desk editor, back in 2006 when Fidel first fell ill.	在房间里，我们慌乱地计划该怎么办。最终的决定是家人先走，我留下来。简直是形势陡变。近 20 年里我经常来古巴，但那时我一直在想的却是 2006 年菲德尔第一次生病时，我和时任国际新闻部编辑苏珊·希拉(Susan Chira)的一次交谈。

<p>I was in Iraq covering the war at the time — a young, clueless correspondent with more passion than wisdom, and I volunteered right then to go to Cuba if Fidel was about to depart the island he'd ruled for decades. Never mind Baghdad. I craved Havana.</p>	<p>当时，在伊拉克报道战事的我还是一个一窍不通的年轻记者，激情多过智慧。我主动提出，如果菲德尔即将离开那座他统治了几十年的岛屿，我愿意去古巴。不管巴格达了。我渴望去哈瓦那。</p>
<p>That request to go turned out to be a premature. I went from Iraq to Miami thinking maybe that would get me here to Havana; then I went to Mexico, from which I made frequent trips to Cuba, living out a dream of covering the island as it edged into an economic transition that many of us had gamed out without really knowing how slow and complicated a process it would be.</p>	<p>事实证明，去古巴的请求提得为时过早。我从伊拉克去了迈阿密，以为或许这样能让我去到哈瓦那。然后，我又去了墨西哥，并经常从墨西哥去古巴，实现了在这个小岛逐步走向经济转型时对其进行报道的梦想。其实我们中的很多人直到离开，都不知道这个过程会有多么缓慢和复杂。</p>
<p>Even now, as I write from a Wi-Fi hot spot in Havana (my card is about to run out of time!) I wonder about where Fidel's death fits into Cuba's evolution. Because that's what it is now: evolution, not revolution. Fidel's obituary, his death, is the end of a chapter, as one Cuban told me, but far from the end of the entire tale.</p>	<p>即使是此刻，当我借助哈瓦那的一个 Wi-Fi 热点写东西的时候（我卡里的时间快要用完了！），仍在琢磨菲德尔的死在古巴的蜕变中意味着什么。因为蜕变，而非革命，才是当下的主题。正如一个古巴人告诉我的，菲德尔的讣告和死亡是一个篇章的结束，但绝不是整个故事的结束。</p>
<p>Indeed, like many others on the island today, I have dreams for this place. More joy. More "Cubanidad," or Cubanness. And someday, I hope to be here again. With my family. With a chance to write. With a chance to observe.</p>	<p>事实上，像现如今生活在岛上的很多人一样，我对这个地方抱有很多希望。希望它拥有更多欢愉，呈现出更多“古巴性”。但愿我有朝一日还能和家人重返这里，有机会写作，有机会观察。</p>
<p>Until then, all I can say is that I'm happy to have contributed to the enormous effort of covering the end of Fidel's era — even if took a stroke of luck to make it happen. Maybe because of it.</p>	<p>在那之前我只能说，很多人为报道菲德尔时代的终结付出了巨大努力，我为自己能参与其中而感到高兴——即便需要一点点运气才行。或许这恰恰就是原因。</p>

For years, as we weathered one scare after another that Fidel Castro had died, I kept the Cuba plan close at hand. We had lists of every Times reporter who either had experience with or family ties to Cuba. Some would go straight to Miami; others would try various routes to Cuba, even though no one had visas. The former executive editor, Bill Keller, and I made a pilgrimage to Havana in 2009 to plead for better access, to no avail, although I did have my copy of "Love in the Time of Cholera" signed by Gabriel García Márquez, a career highlight.	多年来，当我们被菲德尔·卡斯特罗逝世的谣言一次又一次地吓一大跳的时候，我手头一直保留着关于古巴的报道计划。我们有一份名单，所有在古巴待过或者在那里有亲人的时报记者都被登记在册。一些人会直接去迈阿密；另一些人则会尝试沿着种种路线前往古巴，尽管谁都没有签证。我和前主编比尔·凯勒(Bill Keller)曾在2009年前往哈瓦那，请求获得更便利的采访条件，但却徒劳无功。不过，加夫列尔·加西亚·马尔克斯(Gabriel Garcia Marquez)的确给我那本《霍乱时期的爱情》签了名，这堪称我职业生涯的一个亮点。
We even had a plan to sneak someone in via the southeastern city of Santiago de Cuba, where Fidel launched the revolution in 1953 and proclaimed victory in 1959, on the thought it might be easier to slip into the country outside Havana. The Miami bureau had standing instructions to head to Little Havana (and thankfully in Lizette Alvarez we had a Cuban expatriate who had grown up there).	我们甚至计划派人经由东南部城市圣地亚哥-德古巴偷偷潜入，因为觉得溜进这个国家除哈瓦那以外的地方或许更容易一些。菲德尔于1953年在圣地亚哥-德古巴市发起了革命，并于1959年宣布获得胜利。迈阿密分社有关于前往小哈瓦那的一些长期有效的指导意见（而且托莉泽特·阿尔瓦雷斯[Lizette Alvarez]的福，我们有一位在那里长大的古巴移民）。
The magisterial obituary, by Anthony DePalma, whose wife had fled Cuba with her family, was copy edited and then revised countless times over more than a decade.	这篇权威性的讣告由安瑟尼·德帕尔马(Anthony DePalma)撰写，他的妻子及家人是从古巴逃离的。在过去十几年里，讣告被编辑和修改了无数次。
There had been wide predictions of unrest when Fidel died, but that prospect faded after the successful handoff to his brother Raúl. I remember several scares when many of us flocked to the newsroom late at night or on weekends, rereading the obituary, laying out pages, and drawing up coverage plans, only to stand down.	人们曾对菲德尔去世时的动荡局面有过种种预测，但在他成功传位给弟弟劳尔(Raúl)后，这些猜想渐渐消失了。我还记得有好几次，我们在深夜或周末慌慌张张地聚在编辑室里，重读讣告、规划版面、起草报道方案，最后总是白忙一场。
This time it was true, and the years of preparation paid off.	而这一次，消息是真的，多年的准备终于有了回报。

Fidel Castro's obituary cost us more man/woman hours over the years than any piece we've ever run.	比起其他任何人的讣告，菲德尔·卡斯特罗这篇让我们花费的时间是最多的。
Every time there was a rumor of death, we'd pull the obit off the shelf, dust it off, send it back to the writer, Tony DePalma, for any necessary updates, maybe add a little more polish here and there and then send it on to be copy-edited and made ready – yet again – for publication.	每当有卡斯特罗逝世的谣言传出，我们都会把讣告从架子上拿下来，掸掉灰尘，回传给作者安瑟尼·德帕尔马，看看是否需要做出任何更新，可能会在这里或者那里做一点儿润色，然后发给相关人员进行编辑，再一次做好发表的准备。
My biggest worry was that when the day finally came, we'd get word at, say, 10 o'clock on a Saturday night and literally have to stop the presses in the middle of the run for the Sunday paper and somehow, on the fly, shoehorn all those thousands of words into it. (Ugh.)	我当初最担心的是，那一天终于到来的时候，我们得知消息是在周六晚上 10 点之类的时间，不得不叫停正在印制周日版报纸的印刷机，匆匆忙忙地设法把几千字塞进去。
As it happened, the timing worked out fine: too late for the Saturday paper but right on the money for the full Sunday run, and of course digital readers had it with their Saturday morning coffee.	碰巧，这次的时机堪称完美：对周六的报纸来说是太迟了，但刚好可以赶上周日版的整个制作流程。当然了，数字版读者可以在周六早上边喝咖啡边看讣告。

Girl Posting to Twitter From Aleppo Gains Sympathy, but Doubts Follow	叙利亚 Twitter 女孩感动世界，也招来质疑
She is a 7-year-old with dimples, pink hair ribbons, a missing front tooth and halting English who first captured global attention three months ago with Twitter messages about bombs, death and despair in eastern Aleppo, the rebel-held section of the Syrian city.	她今年 7 岁，长着一对酒窝，头戴粉色蝴蝶结，门牙缺了一颗，英语结结巴巴。三个月前，她通过 Twitter 讲述关于炸弹、死亡和绝望的事，获得了全世界的关注，她描述的是被叛军控制的叙利亚城市阿勒颇(Aleppo)东部地区的状况。
The girl, Bana al-Abed, has since attracted more than 220,000 followers on Twitter, where her account says it is managed by her mother,	此后这个名叫芭娜·阿拉拜德(Bana Alabed)的女孩在 Twitter 上吸引了 22 万粉丝，据说她的帐户由她母亲法蒂玛(Fatemah)打理，后者也会在 Twitter

<p>Fatemah, who also posts messages there. Bana's Twitter followers include best-selling author J.K. Rowling, who was so taken with her story of survival that she sent her Harry Potter e-books. Western news organizations have produced articles and television segments extolling Bana's pluckiness in the face of fear, and she was the subject of a New York Times column in October.</p>	<p>上发文。畅销书作家 J·K·罗琳(J. K. Rowling)是芭娜的 Twitter 粉丝之一，她被芭娜的求存故事深深吸引，并为其发去了《哈利·波特》(Harry Potter)的电子书。西方媒体纷纷刊发文章或者制作电视片，颂扬芭娜面对恐惧时的勇气；《纽约时报》10 月份的一篇专栏文章就是以她为主题。</p>
<p>So when Bana's Twitter account, @AlabedBana, was deactivated last weekend as Syrian military forces advanced into eastern Aleppo, many worried that she had been killed – only to learn Tuesday that the account had reappeared.</p>	<p>因此，当叙利亚部队在阿勒颇东部地区节节推进，芭娜的 Twitter 帐户 @AlabedBana 于上周末删号时，很多人都担心她已经遇难——不过到了周二，该帐户又恢复了。</p>
<p>And in a new posting Wednesday, Bana's account suggested Syrian ground troops had seized her neighborhood.</p>	<p>在周三的一条推文中，芭娜的帐户暗示叙利亚地面部队控制了她所在的社区。</p>
<p>Images of suffering children in Syria have occasionally punctured the world's conscience even as it has grown accustomed to the violence of the country's nearly 6-year-old conflict. Like Alan Kurdi, a 2-year-old Syrian whose drowned body was discovered on a beach in Turkey, and Omran Daqneesh, dazed and bloodied after his home in Aleppo was bombed, Bana has touched a nerve.</p>	<p>叙利亚境内的冲突已经持续了六年，世人对那里的暴力日渐麻木，但偶尔还是会被饱受苦难的叙利亚儿童的影像刺痛良知。像阿兰·库尔迪(Alan Kurdi)和奥姆兰·达克尼什(Omran Daqnees)一样，芭娜触动了人们的神经。库尔迪是一名溺亡的两岁叙利亚幼童，其遗体在土耳其的海滩上被人发现；达克尼什则是因为在阿勒颇的家遭到轰炸，被救出时满脸迷惑、满身是血。</p>
<p>But in an era of internet hoaxes, fabrications and the increased use of fake news around the world to further political agendas, Bana's Twitter account has also raised some questions of veracity and authenticity.</p>	<p>但在这个互联网骗局和谎言层出不穷，假新闻在世界各地被越来越多地用于推进政治议程的时代，芭娜的 Twitter 账户也引发了关于其真实性的质疑。</p>
<p>Her messages are sophisticated for a 7-year-old, for example, particularly for one whose native language is not English.</p>	<p>譬如，对于一个 7 岁的孩子，尤其是一个母语并非英语的 7 岁孩子来说，她的一些推文太复杂。</p>
<p>Others have disarming grammatical errors that invite sympathy.</p>	<p>还有一些则存在让人放下戒心的语法错误，似乎是有意博取同情。</p>
<p>Some people have questioned whether the videos in which Bana</p>	<p>有人怀疑芭娜说话的视频是经过排练或改动的。</p>

speaks were rehearsed or altered.	
The inaccessibility of much of the Syria conflict to journalists, who often have no way of confirming the provenance of information directly, has amplified those concerns.	由于记者基本上无法近距离观察叙利亚冲突，常常无法直接确认信息的出处，这种担忧被放大了。
According to Bana's mother, who describes herself as a 26-year-old teacher of English and who has spoken with The New York Times via Skype and WhatsApp, the Twitter postings originated in eastern Aleppo, where Fatemah said she lived with Bana and her two younger children, Mohamed, 5, and Noor, 3.	芭娜的母亲法蒂玛自称是一名 26 岁的英语教师，她已经通过 Skype 和 WhatsApp 跟《纽约时报》进行过交流。按照法蒂玛的说法，这些 Twitter 帖子发自阿勒颇东部地区，她和芭娜以及两个更年幼的孩子——5 岁的穆罕默德(Mohamed)，3 岁的努尔(Noor)——一起生活在那里。
All appear in photographs and videos posted by the @AlabedBana account. But Bana is the only one who spends significant time on camera or who speaks to the audience in English. She appears in many of the clips to be reading from a card or to have memorized lines.	他们都曾出现在@AlabedBana 发布的照片和视频里。但芭娜是唯一一个花大量时间面对镜头以及跟观众说英语的人。在很多视频里，她看上去是在照着卡片读或是背诵。
Fatemah, who says she taught Bana to speak English, appears to be digitally astute in photographing and recording her daughter. However, a handful of videos on Bana's account seem to have been filmed by local citizen journalists with better-quality cameras.	法蒂玛说，是她教会芭娜说英语的。从她为女儿拍的照片和视频来看，她似乎对数字技术颇为精通。不过，芭娜的账户上有几则视频似乎是由当地的公民记者用品质更高的摄像机拍摄的。
Bana and family members also were shown in a documentary broadcast in France last month about Aleppo, produced by Sept à Huit, a leading French magazine.	芭娜及其家人还曾在一部关于阿勒颇的纪录片里现身。上个月在法国播出的这部片子是由法国知名杂志《7 点到 8 点》(Sept à Huit)制作的。
Anti-government activists and doctors working in eastern Aleppo have corroborated, through Skype and WhatsApp, that Bana and her mother are who they say they are. But Bana's Twitter account has also drawn an inordinate number of trolls and voices sympathetic to the Syrian government and its Russian backers, who assail Bana as a fraud.	反政府活动人士以及在阿勒颇东部地区工作的医生通过 Skype 和 WhatsApp 证实，芭娜和她母亲的身份与她们自己的陈述没有出入。但芭娜的 Twitter 账户也引来了大批发表煽动性言论以及同情叙利亚政府及其俄罗斯支持者的人，他们把芭娜斥为骗子。

<p>Some have called Bana’s father a violent jihadi affiliated with al-Qaida-linked fighters ensconced in eastern Aleppo. Others have called Bana and her mother fictions created by the United States as a propaganda tool to malign the Syrian and Russian governments.</p>	<p>一些人宣称，芭娜的父亲是一名暴戾的圣战者，隶属于一个驻扎在阿勒颇东部地区、跟基地组织有牵连的武装组织。另外一些人宣称，芭娜和她母亲是由美国虚构出来的人物，是其抹黑叙利亚和俄罗斯政府的宣传工具。</p>
<p>There is some precedent for such cynicism, and a notable example also had a Syrian connection. In 2011, a woman who described herself as a lesbian blogger using the pseudonym Amina Arraf wrote about political persecution in Damascus, the capital, and suddenly disappeared.</p>	<p>这种嘲讽所涉及的情况并非没有出现过，一个著名的例子也和叙利亚有关。2011年，一个自称是女同博主的女人以阿米娜·阿拉夫(Amina Arraf)为笔名，撰文介绍叙利亚首都大马士革的政治迫害情况，然后突然消失了。</p>
<p>The “gay girl in Damascus,” as the blogger came to be known, turned out to be a 40-year-old American man from Georgia.</p>	<p>事实证明，这名人称“大马士革同性恋女孩”的博主，是一名时年40岁、来自乔治亚州的美国男子。</p>
<p>Twitter has designated Bana’s account as “verified” — meaning that the company has established the authenticity of the account holder. Besides talking with Bana’s mother, The New York Times has been able to verify, through comparisons with satellite maps, that at least some videos posted from Bana’s Twitter account were filmed in Al Shaar, a neighborhood in eastern Aleppo.</p>	<p>Twitter 将芭娜的账户标记为“已认证”——这意味着该公司已经确定了帐户持有者身份的真实性。除了跟芭娜的母亲交流过，《纽约时报》还通过比照卫星地图得以验证，芭娜的 Twiter 帐号上的视频至少有一部分是在阿勒颇东部的沙尔(Al Shaar)录制的。</p>
<p>But it is unclear whether all of her Twitter posts — which could be put online from anywhere, by anyone with Bana’s password — originated in eastern Aleppo. Nor is it clear how many posts Bana has composed herself.</p>	<p>但目前尚不能确定，她的推文——可以由任何一个知道其密码的人在任何地方发出——全都源自阿勒颇东部地区。也不能确定有多少推是芭娜自己撰写的。</p>
<p>Bana’s mother did not immediately respond to requests via WhatsApp for clarification on these questions.</p>	<p>在 WhatsApp 上被问及这些问题时，芭娜的母亲未立即回应。</p>
<p>International aid advocates have expressed mixed feelings about Bana’s fame — satisfaction that she has increased global sympathy for child victims in Syria, but concern that her story, as presented on Twitter,</p>	<p>国际援助领域的倡导人士对芭娜的声名鹊起有着复杂的感受：让他们感到欣慰的是，因为芭娜的缘故，国家社会更加同情叙利亚的受害儿童；但他们担心，在 Twitter 上呈现出来的芭娜的故事或许不尽准确。</p>

may not be entirely accurate.	
“Whether it’s Bana, or Alan Kurdi, or Omran Daqneesh, they bring attention to an issue in a way that helps people visualize a little more clearly the situation of children,” said Sonia Khush, the Syria director of Save the Children.	“不论是芭娜、阿兰·库尔迪还是奥姆兰·达克尼什，他们都引发了对某个问题的关注，进而让世人对儿童生存状况有了更清晰一点的认知，”拯救儿童会(Save the Children)叙利亚地区主管索尼娅·胡什(Sonia Khush)说。
“In the case of this girl, I don’t know whether it’s true or fake in this age of social media,” she said. “But her living as a child in Aleppo is consistent with what we hear. The fear, the sounds of different airplanes and drones. They’re terrified and have trouble sleeping at night.”	“至于这个女孩的事情，在这个社交媒体时代我不知道是真是假，”她说。“但她作为一个孩子在阿勒颇的生存状态与我们听说的情况相符。那种恐惧，还有各种飞机和无人机呼啸而过的声音。他们非常害怕，晚上难以入睡。”
Some experts on media ethics said that, despite the appeal of such a heartbreaking narrative — and with a young girl at its center, no less — news outlets had to approach the account with skepticism, and that some had fallen short.	一些媒体伦理问题专家说，尽管这种令人心碎的叙事颇具吸引力——同样吸引人的是，其核心是一个小女孩——媒体还是必须以怀疑的态度对待这个账户，而有些媒体没有做到。
“It’s always a question of whether a 7-year-old is being used as a propaganda tool, and if so, by whom,” said Jane E. Kirtley, a professor of media ethics and law at the University of Minnesota. “Sometimes we fall in love with a concept and basically ignore things that would undermine that concept, and ignore things that should be red flags.”	“人们一直在质疑，这个7岁的孩子是否正被用作宣传工具，如果真是如此，又是谁在利用她，”明尼苏达大学(University of Minnesota)媒体伦理与媒体法教授简·柯特利(Jane E. Kirtley)说。“有时候我们会沉迷于一个观念，基本上忽略掉那些会让这一观点出现动摇的事情，忽略掉那些本该让我警醒的事情。”
She added, “For me, my antenna always goes up when the story is this compelling.”	她还表示，“就我个人而言，如果一个故事如此引人注目，我肯定会保持警惕。”

Cuba’s Surge in Tourism Keeps Food Off Residents’ Plates	外国游客涌入，古巴人食品匮乏加剧
HAVANA — For Lisset Felipe, privation is a standard facet of Cuban life, a struggle shared by nearly all, whether they’re enduring blackouts or	哈瓦那——对莉塞·费利佩(Lisset Felipe)来说，物质匮乏是古巴生活的普遍现象，一种几乎每个人都要面对的挣扎，无论是忍受停电还是四处寻购厕纸。

<p>hunting for toilet paper.</p>	
<p>But this year has been different, in an even more fundamental way, she said. She has not bought a single onion this year, nor a green pepper, both staples of the Cuban diet. Garlic, she said, is a rarity, while avocado, a treat she enjoyed once in a while, is all but absent from her table.</p>	<p>但是她说，今年不太一样，而且是一种更加根本性的不同。今年她没买过一个洋葱，没买过青椒，这两样东西是古巴人的日常食物。大蒜很稀罕，她说，而牛油果这个以前偶尔打打牙祭的东西，现在已经完全不会出现在餐桌上。</p>
<p>"It's a disaster," said Felipe, 42, who sells air-conditioners for the government. "We never lived luxuriously, but the comfort we once had doesn't exist anymore."</p>	<p>"太惨了，"现年 42 岁、为政府销售空调的费利佩说。"我们的生活从来都谈不上奢侈，但是原来的那点安慰现在也没了。"</p>
<p>The changes in Cuba in recent years have often hinted at a new era of possibilities: a slowly opening economy, warming relations with the United States after decades of isolation, a flood of tourists meant to lift the fortunes of Cubans long marooned on the outskirts of modern prosperity.</p>	<p>近年在古巴出现的变化，时常暗示着一个充满可能性的新时代正在到来：缓慢开放的经济，经过几十年的隔绝后与美国关系回暖，大量游客涌入，理应有助于让一直无缘现代繁荣的古巴人致富。</p>
<p>But the record arrival of nearly 3.5 million visitors to Cuba last year has caused a surging demand for food, causing ripple effects that are upsetting the very promise of Fidel Castro's Cuba.</p>	<p>但是去年创下纪录的近 350 万游客促使食品需求陡增，进而产生的涟漪效应正在动摇菲德尔·卡斯特罗 (Fidel Castro) 当年对古巴做出的最重要的承诺。</p>
<p>Tourists are quite literally eating Cuba's lunch. Thanks in part to the U.S. embargo, but also to poor planning by the island's government, goods that Cubans have long relied on are going to well-heeled tourists and the hundreds of private restaurants that cater to them, leading to soaring prices and empty shelves.</p>	<p>不夸张地说，游客正在从古巴人嘴里抢吃的。这在一定程度上要归咎于美国的禁运，但同时也跟这个岛国糟糕的政府规划有关，如今古巴人的生活必需品流向了出手阔绰的游客，以及成百上千家面向游客经营的私营餐馆，导致价格上扬，食品被抢购一空。</p>
<p>Without supplies to match the increased appetite, some foods have become so expensive that even basic staples are becoming unaffordable for regular Cubans.</p>	<p>由于供应跟不上胃口的增加，一些食物已经极为昂贵，从基本的主食变成普通古巴人难以企及的东西。</p>

<p>"The private tourism industry is in direct competition for good supplies with the general population," said Richard Feinberg, a professor at the University of California, San Diego, and specialist on the Cuban economy. "There are a lot of unanticipated consequences and distortions."</p>	<p>"在食物供应方面，私营旅游业和普罗大众之间是存在直接竞争的，"加州大学圣迭戈分校(University of California, San Diego)教授、古巴经济专家理查德·费恩伯格(Richard Feinberg)说。"会有许多未曾预料到的后果和变异。"</p>
<p>There has long been a divide between Cubans and tourists, with beach resorts and Havana hotels effectively reserved for outsiders willing to shell out money for a more comfortable version of Cuba. But with the country pinning its hopes on tourism, welcoming a surge of new travelers to feed the anemic economy, a more basic inequality has emerged amid the nation's experiment with capitalism.</p>	<p>古巴人和游客之间的对立由来已久，海滩度假村和哈瓦那的酒店实际上是仅供外来客享用的，这些人愿意花很多钱领略一个更舒适的古巴。但是，随着国家寄希望于旅游业，热情接待急剧增多的新游客，来推动乏力的经济，一种更加根本的不平等正在古巴的资本主义实验中浮现。</p>
<p>Rising prices for staples like onions and peppers, or for modest luxuries like pineapples and limes, have left many unable to afford them. Beer and soda can be hard to find, often snapped up in bulk by restaurants.</p>	<p>洋葱和辣椒等主要食物以及菠萝和酸橙等略为奢侈的食物的价格上涨，已经导致很多人买不起。啤酒和苏打水很难找到，经常被餐厅大量囤积。</p>
<p>It is a startling evolution in Cuba, where a shared future has been a pillar of the revolution's promise. While the influx of new money from tourists and other visitors has been a boon for the island's growing private sector, most Cubans still work within the state-run economy and struggle to make ends meet.</p>	<p>这在古巴是令人震惊的变化，因为在这里，共同的未来曾是革命承诺的支柱。虽然游客等来访者的热钱对该岛不断发展的私营经济来说是福音，但大部分古巴人依然在国营经济中工作，努力维持生活。</p>
<p>President Raúl Castro has acknowledged the surge in agricultural prices and moved to cap them. In a speech in April, he said the government would look into the causes of the soaring costs and crack down on middlemen for price gouging, with limits on what people could charge for certain fruits and vegetables.</p>	<p>总统劳尔·卡斯特罗(Raúl Castro)承认农业价格暴涨，并采取行动进行限制。在今年4月的一次讲话中，他表示，政府将调查价格飞涨的原因，打击中间商漫天要价，限制某些水果和蔬菜的定价。</p>
<p>"We cannot sit with our hands crossed before the unscrupulous manner</p>	<p>据当地新闻报道称，他对党员们说，"我们不能对唯利是图的中间商肆无忌惮</p>

of middlemen who only think of earning more," he told party members, according to local news reports.	惮的行为坐视不管。”
But the government price ceilings seem to have done little to provide good, affordable produce for Cubans. Instead, they have simply moved goods to the commercial market, where farmers and vendors can fetch higher prices, or to the black market.	不过，政府的限价行动并未能帮助古巴人买得起质量好的农产品。相反，他们只是把商品推向了商业市场——在那里，农民和小贩可以索要更高的价格——或者推向了黑市。
Havana offers stark examples of this growing chasm.	在哈瓦那，能明显看到这种逐渐扩大的差距。
At two state-run markets, where the government sets prices, the shelves this past week were monuments to starch — sweet potatoes, yucca, rice, beans and bananas, plus a few malformed watermelons with pallid flesh.	在过去一周里，两个政府定价的国营市场的货架上大多是淀粉类食物——红薯、丝兰、大米、豆类和香蕉，还有几个白瓢畸形西瓜。
As for tomatoes, green peppers, onions, cucumbers, garlic or lettuce — to say nothing of avocados, pineapples or cilantro — there were only promises.	至于番茄、青椒、洋葱、黄瓜、大蒜和生菜——更别提牛油果、菠萝和香菜——它们只存在于承诺之中。
"Try back Saturday for tomatoes," one vendor offered. It was more of a question than a suggestion.	"周六你再来看看有没有蕃茄，"一名小贩说。那更像是一个问题，而非建议。
But at a nearby co-op market, where vendors have more freedom to set their prices, the fruits and vegetables missing from the state-run stalls were elegantly stacked in abundance. Rarities like grapes, celery, ginger and an array of spices competed for shoppers' attentions.	但是，在附近的一个合作社市场，小贩们有更多的自由定价权，国营货摊上没有的水果和蔬菜大量精致地摆在这里。葡萄、芹菜和姜等稀罕物以及各种香料竞相吸引购物者的注意。
The market has become the playground of the private restaurants that have sprung up to serve visitors. They employ cadres of buyers to scour the city each day for fruits, vegetables and nonperishable goods, bearing budgets that overwhelm those of the average household.	这个市场已成为私营餐厅的乐园，这些面向游客的餐厅近来大量涌现。每天，它们雇用大量买手在这座城市里搜索水果、蔬菜和不易腐烂的食材，它们的预算是普通家户难以承受的。
"Almost all of our buyers are paladares," said one vendor, Ruben	"来买东西的几乎都是私营餐厅的人，"小贩鲁本·马丁内斯(Ruben Martínez)

<p>Martinez, using the Cuban name for private restaurants, which include about 1,700 establishments across the country. "They are the ones who can afford to pay more for the quality."</p>	<p>说。古巴共有约 1700 家餐厅。“他们买得起质量更好的东西。”</p>
<p>While many Cubans have long been hardened to the reality of going without, never more than during what they call the "Special Period" after the collapse of the Soviet Union, a new dynamic that has emerged in recent months threatens the nation's future, experts warn.</p>	<p>专家警告称，虽然很多古巴人长期以来已经适应了物资匮乏的现实，尤其是在苏联解体后他们所说的“特殊时期”，但是最近几个月新出现的情况威胁着这个国家的未来。</p>
<p>"The government has consistently failed to invest properly in the agriculture sector," said Juan Alejandro Triana, an economist at the University of Havana. "We don't just have to feed 11 million people anymore. We have to feed more than 14 million."</p>	<p>“政府从没有在农业领域进行适当投资，”哈瓦那大学(University of Havana)的经济学家胡安·亚历杭德罗·特里亚纳(Juan Alejandro Triana)说。“我们不再只是需要喂饱 1100 万人。我们得喂饱 1400 多万人。”</p>
<p>"In the next five years, if we don't do something about it, food will become a national security issue here," he added.</p>	<p>“在未来五年里，如果不采取措施，食物将成为这里的一个国家安全问题，”他补充说。</p>
<p>The government gives Cubans ration books to help provide staples like rice, beans and sugar, but they do not cover items like fresh produce. Tractors and trucks are limited and routinely break down, often causing the produce to spoil en route. Inefficiency, red tape and corruption at the local level also stymie productivity, while a lack of fertilizer reduces yield (though it keeps produce organic, by default).</p>	<p>虽然政府给古巴人提供配给票证，帮助提供大米、豆类和糖等主要食物，但不包括新鲜农产品等东西。拖拉机和卡车数量有限，故障频发，经常导致农产品在运输过程中腐烂。地方政府效率低下，手续繁杂，再加上腐败，严重影响生产效率，而化肥匮乏也影响了产量（虽然没有化肥倒是能保证这些农产品都是有机的）。</p>

<p>Fed Raises Key Interest Rate, Citing Strengthening Economy</p>	<p>看好美国经济，美联储上调利率</p>
<p>WASHINGTON — Citing the steady growth of the U.S. economy, the Federal Reserve said Wednesday that it would increase its benchmark interest rate for just the second time since the 2008 financial crisis.</p>	<p>华盛顿——美联储周三表示，由于美国经济的稳定增长，它将提高基准利率，这是自 2008 年金融危机以来它第二次调高利率。</p>
<p>The widely expected decision moves the Fed's benchmark rate to a</p>	<p>这个未出许多人预料的决定将美联储的基准利率调整到了 0.5%至 0.75%的</p>

<p>range between 0.5 and 0.75 percent, still a very low level by historical standards.</p>	<p>区间，不过以历史标准衡量，依然处在非常低的水平。</p>
<p>In announcing the decision, which followed a two-day meeting of the Fed's policymaking committee, the central bank gave little indication that the election of Donald Trump has altered its economic outlook. The Fed said it still expected a slow economic expansion, and it still expected to continue a slow march toward higher rates. Fed officials said they expected to raise rates three times in 2017.</p>	<p>这个决定是在美联储决策委员会举行为期两天的会议之后宣布的，其中几乎看不到唐纳德·特朗普当选对央行的经济预期产生影响的迹象。美联储表示，它预计经济还会缓慢增长，利率会继续缓慢提升。美联储官员表示，他们预计会在 2017 年加息三次。</p>
<p>"My colleagues and I are recognizing the considerable progress the economy has made," Janet L. Yellen, the Fed chairwoman, said at a news conference after the announcement. "We expect the economy will continue to perform well."</p>	<p>"我和同事意识到经济已经取得相当大的进步，"美联储主席珍妮特·L·耶伦 (Janet L. Yellen) 在宣布调息消息之后举行的一场新闻发布会上讲。"我们预计经济会继续表现良好。"</p>
<p>The decision was taken by a unanimous vote of the 10 members of the Federal Open Market Committee, the first time in recent months the Fed has acted by consensus. The Fed is holding rates at low levels to support economic growth by encouraging borrowing and risk-taking. The committee's statement said it judged that the economy still needed help.</p>	<p>这项决策是由联邦公开市场委员会(Federal Open Market Committee)10 名成员一致投票通过的，这是最近几个月美联储首次达成一致的行动。美联储将利率维持在低水平，以便通过鼓励借贷和承担风险来支持经济增长。该委员会发声明称，据它判断，经济依然需要外力推动。</p>
<p>The Fed's economic outlook was essentially unchanged from the last round of forecasts in September. Fed officials continued to predict the economy would expand at an annual rate of about 2 percent for the next few years. They expect little further decline in the unemployment rate, which stood at 4.6 percent in November. Inflation, meanwhile, is expected to reach 2 percent — the pace the Fed regards as healthy — and then stay there.</p>	<p>与今年 9 月份做出的上一轮预测相比，美联储的经济预期基本没有改变。美联储官员依然预测经济在接下来的两年里会以每年大约 2% 的速度增长。他们预计失业率会进一步小幅下跌，这个数字在 11 月份是 4.6%。与此同时，通货膨胀预计达到 2%，然后保持稳定。美联储认为这个速度是健康的。</p>

<p>If Republicans succeed in invigorating economic growth, however, the Fed is likely to raise rates more quickly. The greater the stimulus, the faster interest rates are likely to rise.</p>	<p>然而，如果共和党人在刺激经济增长方面取得成功，美联储有可能更快调高利率。刺激力度越大，调高利率的时间可能就越早。</p>
<p>"Your expectation should depend very little on what you think that the FOMC is thinking and very much on your view of Trump policies and their macro effects," said Jon Faust, an economist at Johns Hopkins University and a former adviser to Yellen. "Don't focus on the Fed. As James Carville regularly reminded the other Clinton on the campaign trail: It's the economy, stupid."</p>	<p>"你们不要把预期建立在你们觉得联邦公开市场委员会在想什么的基础上，而应该主要依据你们对特朗普的政策及其宏观效应的看法，"耶伦的前顾问、约翰-霍普金斯大学(Johns Hopkins University)经济学家乔恩·福斯特(Jon Faust)说。"不要太关注美联储。就像詹姆斯·卡维尔(James Carville)在竞选活动中经常提醒另一位克林顿的：这是经济，傻瓜。"</p>

<p>Aleppo Evacuation Effort Restarts, and Assad Calls It History in the Making</p>	<p>叙利亚冲突重大转折，阿勒颇重启疏散计划</p>
<p>BEIRUT, Lebanon — Around 1,000 people were evacuated from the remaining rebel-held districts of the Syrian city of Aleppo on Thursday, part of a process that could become one of the greatest victories of the war for President Bashar Assad and a major blow to his foes.</p>	<p>黎巴嫩贝鲁特——周四，大约 1000 人从叙利亚城市阿勒颇(Aleppo)境内仍被反政府武装控制的地区撤离。这是一个进程的一部分，该进程可能会成为叙利亚总统巴沙尔·阿萨德(Bashar Assad)在这场战争中最大的胜利之一，并让他的敌人受到沉重打击。</p>
<p>After new violence in Syria's second-largest city stopped the evacuation Wednesday and delayed it Thursday morning, long lines of government buses and ambulances crossed into the rebel-held enclave and returned with about 1,000 evacuees, according to Russia, which helped carry out the agreement, and the World Health Organization, which monitored it.</p>	<p>据参与执行协议的俄罗斯和监督执行情况的世界卫生组织(World Health Organization)称，在叙利亚第二大城市重新上演的暴力导致周三的撤离活动受阻，并造成周四上午的撤离受到延误后，政府的巴士和救护车排成长队，越界进入由反政府武装控制的飞地，带回了大约 1000 名撤离人员。</p>
<p>Assad hailed the evacuation in a video released by his office, comparing it to historical events like the birth of Christ, the revelation of the Quran, the collapse of the Soviet Union and the two world wars.</p>	<p>在阿萨德办公室公布的一段视频中，他对撤离行动表示称赞，将其与耶稣诞生、《古兰经》启示、苏联解体和两次世界大战等历史事件相提并论。</p>

<p>"I want to confirm that what is happening today is history that is being written by every Syrian civilian," Assad said, smiling in a dark blue suit. "Its writing did not start today. It started about six years ago when the crisis and the war on Syria began."</p>	<p>"我想证实的是，今天发生的事情是每一位叙利亚平民写就的历史，"身穿深蓝色西装的阿萨德微笑着说。"它的书写并非始于今天，而是始于六年前发生在叙利亚的这场危机和战争开始之际。"</p>
<p>If successful, the evacuation deal will signal a major turning point in Syria's nearly six-year conflict. Since early in the war, Aleppo, once the country's industrial center, has been split, with the government holding the west and rebels holding many neighborhoods in the east.</p>	<p>如若成功，撤离协议将标志着叙利亚这场持续近六年的冲突迎来了一个重大转折点。自战争初期以来，曾是叙利亚工业中心的阿勒颇一直处于分裂状态。政府控制西部，反政府武装控制东部的许多居住区。</p>

And Aleppo continues to burn.	而阿勒颇依然在燃烧。
"When a free-trade agreement with the U.S.A. drives hundreds of thousands of people to the streets, but such horrible bombings as in Aleppo do not trigger any protest, then something is not right," said Germany's chancellor, Angela Merkel.	"与美国的自由贸易协定可以驱使几十万人上街游行，但像发生在阿勒颇这样可怕的轰炸却没有引发任何抗议，那么，肯定是哪里出了问题，"德国总理安格拉·默克尔(Angela Merkel)说。
No, not right. Pictures of war and suffering have pricked the public conscience and provoked action before. There was Kevin Carter's photograph from 1993 of a starving toddler and a vulture in Sudan. There was the photograph of the dead American soldier dragged through Mogadishu, which hastened the United States' retreat from Somalia. There was Nick Ut's 1972 photograph from South Vietnam of the naked 9-year-old Phan Thi Kim Phuc, screaming, burned by napalm. These pictures drove news cycles for weeks, months, years, helping tip the scales of policy.	不，不对。关于战争和痛苦的图像曾经刺激公众的良心，激发起他们的行动。比如凯文·卡特(Kevin Carter)1993年在苏丹拍下的饥饿幼儿与秃鹫。美国士兵尸体被拖过摩加迪沙的照片曾加速了美国从索马里撤退。黄功吾(Nick Ut)1972年在南越为9岁的潘金福(Phan Thi Kim Phuc)拍下照片，照片上的她全身赤裸，尖叫着，被凝固汽油弹燃伤。这些图片在几个周、几个月，乃至几年的时间里推动着新闻的循环更替，为政策的天平加上了砝码。
To be sure, the policy response was usually withdrawal. What might be done in a situation like Aleppo is not so linear. But that isn't the whole story.	可以肯定的是，政策对此的反应通常是撤军。在像阿勒颇这样的情况下，政策反应可能不是直线发展的。但这不是故事的全部。
Does it matter that victims in Syria are Muslims? America's president-elect won the election while playing to anti-Muslim bigotry. He sold himself to the American public as a transactional leader, promising deals, not necessarily decency. He said he admired Russia's strongman president, Vladimir V. Putin, and campaigned on an isolationist retreat from global involvement.	身在叙利亚的受害者是穆斯林，这有什么关系吗？美国候任总统靠着反穆斯林的偏见赢得了选举。他向美国公众推销自己，说自己是一个会做交易的领导人，他承诺的是交易，而不是正派的行为。他说自己钦佩俄罗斯的铁腕总统弗拉基米尔·V·普京(Vladimir V. Putin)，并倡导孤立主义，从全球事务中抽身。

We watch desperate young strangers from faraway Aleppo from the comfort of a Facebook feed. The images and voices start to blur together. A tweet by President-elect Donald J. Trump or some scandal over fake news distracts us.</p>	<p>视节目，翻阅相同的杂志照片。当时有兵役。战争影响每个人的家庭。今天，我们的战争由一小部分美国人来打。我们通过大量 Facebook 信息流看着遥远的阿勒颇那些绝望的陌生年轻人。图像和声音开始模糊在一起。候任总统唐纳德·特朗普(Donald J. Trump)的推文，或一些关于假新闻的丑闻分散了我们的注意力。</p>
<p>Briefly, we have mourned on a significant scale two photographs, the ones of Alan Kurdi, the dead 2-year-old washed up on the beach in Turkey, and of Omran Daqneesh, 5, pulled from the ashes of Aleppo, sitting in the ambulance, wiping blood from his face. We also paused over drone footage from a neighborhood in Aleppo pulverized by the Syrian government and Russia. Then those images dropped down the collective memory hole, too.</p>	<p>在短暂的时间里，我们为两张照片深深哀悼，一张是死在土耳其海滩上的两岁孩子阿兰·库尔迪(Alan Kurdi)的照片，还有一张是五岁孩子奥姆兰·达克尼什(Omran Daqneesh)的照片，他从阿勒颇的废墟中被救出来，坐在救护车上，从自己的脸上擦去血迹。我们还看着无人机在阿勒颇遭叙利亚政府和俄罗斯摧毁的地区拍下的视频沉默无语。然后，那些图像也掉进了人们集体记忆里的黑洞。</p>
<p>That's because all images are Rorschach tests. Many thousands of people have been killed in Aleppo, millions displaced across Syria. Syrian, Iranian and Russian forces have laid waste to half the country, instigating a refugee crisis that threatens to unmake Europe and America.</p>	<p>这是因为所有的图像都是罗夏(Rorschach)墨迹测试。在阿勒颇，成千上万人死于非命，在叙利亚，数以百万计的人们流离失所。叙利亚、伊朗与俄罗斯部队将半个国家化为焦土，导致了威胁着毁掉欧洲与美国的难民危机。</p>
<p>But Washington shrugs. There have been no sanctions as there were over Russia's annexation of Crimea. There turned out to be no red lines, even after chemical weapons killed and maimed hundreds, no marches on the Mall or big campus rallies. Russia and Syria bomb civilians with impunity.</p>	<p>但华盛顿只是耸了耸肩，没有做出制裁，就像针对俄罗斯吞并克里米亚所采取的制裁行动那样。最后证明，即便化学武器令数以百计的人们丧生和致残，也根本没有什么不能越过的红线可言，没有向国家广场行进的大游行，校园里也没有大型集会。而俄罗斯与叙利亚还在有恃无恐地轰炸平民。</p>
<p>And all we do is watch, helplessly, as Syrians refuse to go quietly,</p>	<p>叙利亚人拒绝让一切无声地逝去，他们决心让我们认识他们、认识他们的生</p>

determined to get us to know them, their lives, all that has been lost.	活，以及他们失去的一切，而我们所做的只是无奈地旁观。
Some of the public's indifference can of course be chalked up to compassion fatigue and disillusionment with a war in its sixth year. Promises to end the conflict were broken over and over. There were assurances about popular uprisings. Social media today supercharges protest movements, which burn out almost as fast. Such movements used to require a slow, brick-by-brick construction. They didn't rely on Facebook videos and Instagram photos.	公众的冷漠当然可以部分归结为同情心的疲惫，以及对为时六年的战争所产生的幻灭感。结束这场冲突的诺言一再被打破。有人承诺人民会起义。如今的社交媒体可以极快地催生抗议活动，但它们消失的速度也几乎同样快。这类运动需要一砖一瓦地缓慢建立。它们不依赖于 Facebook 视频和 Instagram 照片。
Truth be told, no sane person wants to see these images anyway. What's happening in Aleppo is almost unbearable to look at.	说实话，没有任何有理智的人希望看到这些图像。在阿勒颇所发生的事情几乎让人根本不忍心看。
But that's the point. Bana looks us straight in the eye and asks us to save her, please.	但这就是关键。芭娜在直视着我们的眼睛，请求我们救她，求求你们。
We have done nothing to help.	而我们没有伸出援手。

Who Was Andrey Karlov, the Russian Ambassador Killed in Turkey?	被刺杀的俄罗斯大使何许人也
Russia's ambassador to Turkey, Andrey G. Karlov, was killed by a gunman on Monday in Ankara, the capital.	俄罗斯驻土耳其大使安德烈·G·卡尔洛夫(Andrey G. Karlov)周一在该国首都安卡拉被一名枪手杀害。
Turkish officials said the killer had been a police officer who, after shooting, shouted: "Don't forget Aleppo! Don't forget Syria!" Russia's Foreign Ministry called the assassination a terrorist attack.	土耳其官员表示，这名杀手之前是一名警察。他在开枪之后大喊：“不要忘记阿勒颇！不要忘记叙利亚！”俄罗斯外交部称这场暗杀为恐怖袭击。
Here's what we know about Mr. Karlov.	以下是我们所了解到的有关卡尔洛夫的信息。
What was his background?	他的背景？

<ul style="list-style-type: none"> • Mr. Karlov previously served as the ambassador to North Korea. He was married and had a son. According to Russian news agencies, his wife fainted and was hospitalized after being informed of his death. 	卡尔洛夫之前担任过俄罗斯驻朝鲜大使。他已婚, 育有一子。据俄罗斯通讯社报道, 他的妻子在得知死讯后晕倒, 被送到了医院。
<ul style="list-style-type: none"> • Richard Moore, the British ambassador to Turkey, described Mr. Karlov in a tweet after the attack as soft-spoken, hospitable and professional. 	袭击发生后, 英国驻土耳其大使理查德·摩尔(Richard Moore)在 Twitter 上称卡尔洛夫说话温和、热情友好, 而且十分专业。
His role in Turkey	他在土耳其的角色
Mr. Karlov was repeatedly called upon to ease tensions over Russia's role in the Syrian civil war, which has left hundreds of thousands dead and spurred a refugee crisis that has shaken Europe. After months of fierce bombardment and failed diplomacy, the Syrian government began removing residents from the last rebel-held districts in the city of Aleppo last week.	卡尔洛夫曾多次被要求缓解因俄罗斯在叙利亚内战中扮演的角色而引发的紧张关系, 这场战争已经导致数十万人死亡, 并引发了一场动摇欧洲的难民危机。经过数月的猛烈轰炸和失败的外交斡旋, 叙利亚政府上周开始将居民从阿勒颇最后几个被反政府武装控制的地区撤离。
<ul style="list-style-type: none"> • After a Russian bombing in northern Syria targeted Turkmen, who were part of the forces against President Bashar al-Assad, Mr. Karlov was summoned to Ankara and asked to convey a firm message to Moscow. 	俄罗斯在叙利亚北部的轰炸将土库曼人——属于反对叙利亚总统巴沙尔·阿萨德(Bashar al-Assad)的力量——作为目标之后, 卡尔洛夫被召唤到安卡拉, 要求其向莫斯科传达一个强有力的信息。
"It was stressed that the Russian side's actions were not a fight against terror, but they bombed civilian Turkmen villages, and this could lead to serious consequences," the Turkish Foreign Ministry said at the time.	"需要强调, 俄罗斯方面的行动不是打击恐怖主义, 而是轰炸土库曼平民居住的村庄, 这会带来严重的后果," 土耳其外交部当时表示。
<ul style="list-style-type: none"> • Last fall, before the Turkish government shot down the Russian jet near its border with Syria, it had repeatedly complained to Mr. Karlov 	去年秋天, 土耳其政府曾多次向卡尔洛夫抗议俄罗斯侵犯土耳其领空, 之后便在靠近该国与叙利亚的边境区域击落了一架俄罗斯飞机。

about his country's intrusions into Turkish airspace.	
Tensions escalated, culminating in the Kremlin's cutting economic ties with Turkey.	紧张关系随之升级，顶点是克里姆林宫切断了与土耳其的经贸关系。
How unusual was the assassination?	这次暗杀有多么不寻常？
Historians said the assassination might have been the first of a Russian ambassador since Pyotr Voykov, a Soviet envoy to Poland, was shot to death in Warsaw in 1927.	历史学家表示，这场暗杀行动可能是自苏联驻波兰使节彼得·沃伊科夫(Pyotr Voykov)于1927年在华沙被枪杀以来，第一次有俄罗斯大使被害。
In the 19th century, Aleksandr Griboyedov, a poet and diplomat, died in Tehran after a mob stormed the Russian Embassy.	此外在19世纪，诗人和外交家亚历山大·格里博耶多夫(Aleksandr Griboyedov)在一群暴民涌入位于德黑兰的俄罗斯大使馆后遇害。
What's the state of relations between Turkey and Russia?	土耳其和俄罗斯的关系目前处在什么状态？
Tensions between Russia and Turkey had been easing recently, and some analysts said that the assassination might bring the countries closer as they sought to take on terrorism.	俄罗斯和土耳其的紧张关系最近走向缓和。一些分析人士表示，这场暗杀可能会让两国走得更近，因为他们都在竭力对抗恐怖主义。
Televised comments by President Vladimir V. Putin of Russia after the attack seemed to support that view. He said declared that the shooting had been a provocation meant to disrupt the nations' ties.	袭击发生后，俄罗斯总统弗拉迪米尔·V·普京在电视上发表的评论，似乎佐证了这种判断。他表示此次枪击事件是一种挑衅，意在挑拨两国关系。
Mr. Putin added that there was only one possible reaction: Intensifying the "crackdown on terror."	普京还表示，只可能做出一种反应：加强“对恐怖主义的打击”。
The two countries suffered a crisis in their relations last fall. In a paper released in June, Asli Aydintasbas, an international affairs expert at the European Council on Foreign Relations, traced the fault lines to the conflict in Syria.	去年秋天，两国经历了一场外交危机。在今年6月发布的一篇论文中，欧洲对外关系委员会(European Council on Foreign Relations)的国际事务专家阿斯利·艾登塔什巴什(Asli Aydintasbas)追溯了导致叙利亚冲突的分歧所在。
"Tensions first began to rise as the one-time friends were sucked into the regional struggle for Syria – while Russia backed Assad, Turkey agitated for regime change," she wrote. "As the alliance unraveled,	"紧张关系最早始于这对曾经的朋友被卷入叙利亚的区域冲突——俄罗斯支持阿萨德，土耳其则鼓动政变，"她写道。"随着联盟关系解体，莫斯科打破了不支持对方分裂主义者的默契，采取了行动，出手帮助库尔德人。"

Moscow broke the silent pact that neither side would support the other's separatists, and made moves to befriend the Kurds.	
But by June, economic actions that Russia had taken against Turkey after the jet was shot down were beginning to pay off as an absence of Russian visitors took a toll on Turkey's tourism industry.	但是到了7月，俄罗斯在自己的飞机被击落后对土耳其采取的经济制裁开始见效，俄罗斯游客的减少对土耳其的旅游业造成打击。
That month, President Recep Tayyip Erdogan apologized for the downing, writing a letter that said he "would like to inform the family of the deceased Russian pilot that I share their pain and to offer my condolences to them."	当月，土耳其总统雷杰普·塔伊普·埃尔多安(Recep Tayyip Erdogan)为击落飞机事件道歉，还写信表示他“想告知遇难俄罗斯飞行员的家属，我对他们的痛苦感同身受，并向他们致以我的哀悼。”
Turkey also announced that it would prosecute a man accused of killing the pilot after his plane was shot down.	土耳其还宣布，将对那名被指控在飞机被击落后将飞行员击毙的男子提起公诉。
At the time, experts said that Mr. Erdogan's change of heart on Russia had more to do with the necessities of domestic politics than any kind of broader vision about Turkey's place in the world.	与此同时，有专家表示，相比于土耳其在世界上的位置这类宽泛的愿景，埃尔多安在俄罗斯问题上改变主意，更多与国内的政治需求有关。

Being an Afghan General Is Nice Work if You Can Get It. And Many Do.	阿富汗兵源不足却盛产将军
Afghanistan may struggle to recruit enough soldiers for its armed forces, but it's swimming in generals.	阿富汗可能难以为其武装部队招募足够的士兵，但它却不缺将军。
The country has close to 1,000 officers of general rank on its books — more than the United States, whose military is three times as large. And off the books? No one knows.	该国在册登记的有近1000名将军——比美国的还多，后者的军队规模是它的3倍。而实际情况呢？没人知道。
New names are added to the roster at a rate far out of proportion to battlefield realities, where the Afghan armed forces — the army, national police and intelligence forces, numbering 350,000 in all — have been steadily losing soldiers and territory to the Taliban. Meanwhile,	花名册上添加新名字的速度与战场上的实际情况严重不成比例，阿富汗武装部队——军队、国家警察和情报机构共计35万人——在士兵和领土方面不断输给塔利班。与此同时，很少有人退休。

<p>retirements are rare.</p>	
<p>The United States government, which picks up much of the tab for the Afghan military, can't pin down the number of generals. "We still don't know how many police and how many soldiers we're paying salaries for," said John F. Sopko, the United States special inspector general for Afghanistan reconstruction. "We don't even know how many generals. It is pretty pathetic, and here we are, 15 years into this."</p>	<p>美国政府承担阿富汗军队的很大一部分费用，但却无法确定将军的人数。“我们依然不知道自己在给多少警察和士兵支付薪水，”美国阿富汗重建特别监察长约翰·F·索普科(John F. One night, he said, there were 38 names.	现在是一名议员。他说，总统的心腹——通常是他儿子——每天晚上会出现在播音室，递给新闻主播一份需要宣布的新将军的名单。他说，有一天晚上，共宣布了 38 名将军。
"The list would be handwritten on a plain sheet of paper — there was no logo, no official stationery," Mr. Mansour said.	"名单是手写在一张普通白纸上的——没有标识，没有官方信笺，"曼苏尔说。
The list sometimes grew mysteriously on the way from the president's office to the studio. Mr. Mansour said he knew of current generals who had gotten their rank in those days through a little clandestine photocopying and the stroke of a pen.	有时，名单会在从总统办公室到播音室的路上神秘地增长。曼苏尔说，他听人说，现在的一些将军是在那个时期通过一个小小的秘密复印机和几个钢笔字获得的头衔。
In response to the TV announcements, rival factions across the country would summarily declare their own generals. The former warlord Abdul Rashid Dostum, who now serves as vice president of Afghanistan, awarded stars to many of the men closest to him, and even printed his own currency to pay them. The joke was that among General Dostum's bodyguards, there were no colonels.	作为对电视上宣布的将军的回应，阿富汗各地的敌对派系会立刻宣布自己的将军。前军阀、现阿富汗副总统阿卜杜勒·拉希德·杜斯塔姆(Abdul Rashid Dostum)曾给自己的很多亲信颁发军衔，甚至用自己印刷的货币作为酬劳。当时的一个大笑话是，杜斯塔姆将军的警卫队里没有上校。

Russian Ambassador to Turkey Is Assassinated in Ankara	俄罗斯驻土耳其大使在安卡拉遇刺身亡
ISTANBUL — Russia's ambassador to Turkey was assassinated at an Ankara art exhibit Monday evening by a lone Turkish gunman shouting "God is great!" and "don't forget Aleppo, don't forget Syria!" in what Russia called a terrorist attack.	伊斯坦布尔——当地时间周一晚，俄罗斯驻土耳其大使在土首都安卡拉出席一场艺术展览时遭枪击身亡。袭击者为土耳其人，事发时曾高喊“真主至大！”以及“别忘了阿勒颇，别忘了叙利亚！”俄方称此事件为恐怖袭击。
The gunman, who was described by Ankara's mayor as a policeman, also wounded at least three others in the assault, which was captured	安卡拉市 表示，该枪手为一名警察。现场视频画面显示，另有至少三人在袭击中受伤，袭击者在与警方交火后身亡。

on Turkish video, before he was killed by other officers in a shootout.	
The assassination instantly vaulted relations between Turkey and Russia to a new level of crisis over the protracted Syria conflict on Turkey's southern doorstep. It came after days of protests by Turks angry over Russia's support for Syria's government in the conflict and the Russian role in the killings and destruction in Aleppo, the northern Syrian city.	因与土耳其南端接壤的叙利亚旷日持久的战乱纷争，土俄关系本已十分紧张。此次袭击事件更是将这一紧张关系瞬间推向顶点。事件发生几天前，土耳其民众曾举行示威，抗议俄方支持叙利亚政府军以及对叙北方城市阿勒颇混乱局势所造成的影响。
The envoy, Andrey G. Karlov, was shot from behind and immediately fell to the floor while delivering opening remarks at an exhibition, called "Russia Through Turks' Eyes," according to multiple accounts from the scene, the Contemporary Arts Center in the Cankaya area of Ankara.	据现场多方消息，安德烈·卡尔洛夫大使当时正在为一场名为《土耳其人眼中的俄罗斯》的摄影展发表开幕致辞。袭击者突然从背后向其开枪，卡尔洛夫中枪后便立即倒在地上。展览举办地当代艺术中心位于安卡拉市詹卡亚区。
The gunman, wearing a dark suit and tie, was seen in video footage of the assault shouting in Arabic: "God is great! Those who pledged allegiance to Muhammad for jihad. God is great!"	视频录像显示，该枪手身穿深色西服，打着领带，袭击时用阿拉伯语大喊着“真主至大！那些为圣战而忠诚于穆罕默德的人们啊。真主至大！”
Then he switched to Turkish and shouted: "Don't forget Aleppo, don't forget Syria! Step back! Step back! Only death can take me from here."	随后他用土耳其语喊道：“别忘了阿勒颇，别忘了叙利亚！向后退！向后退！只有死亡能让我离开这里。”
Turkish officials said that the gunman was killed after a shootout with Turkish Special Forces police. The assailant's identity was not immediately known.	土耳其官员表示，袭击者在与土耳其特种部队交火后被射杀，未能立即确定其身份。
Russia's Foreign Ministry spokeswoman, Maria Zakharova, told the Rossiya 24 news channel that Karlov had died of his wounds in what she described as a terrorist attack.	俄罗斯外交部发言人玛丽亚·扎哈诺娃(Maria Zakharova)在接受俄罗斯 24 新闻频道采访时证实卡尔洛夫因枪伤不治身亡，并称本次刺杀为一起恐怖袭击事件。
The attack was a rare instance of an assassination of any Russian envoy. Historians said it might have been the first since Pyotr Voykov, a Soviet ambassador to Poland, was shot to death in Warsaw in 1927.	这样的遇袭对俄罗斯驻外使节来说是极为罕有的。历史学家称，这可能是 1927 年苏联驻波兰大使彼得·沃伊科夫(Pyotr Voykov)于华沙遭枪击身亡以来的首次。

Turkey, Russia and an Assassination: The Swirling Crises, Explained	俄罗斯大使土耳其遇刺，为何牵连美国
Turkey and Russia, whose up-and-down relationship has helped shape the Syrian war and the many related crises, shared a new trauma on Monday after a Turkish gunman assassinated Russia's ambassador at an art gallery in the Turkish capital, Ankara.	土耳其和俄罗斯之间跌宕起伏的关系影响着叙利亚战争及大量相关危机。周一，一名土耳其枪手在该国首都安卡拉一家画廊刺杀俄罗斯大使一事对两国来说都是一个新的打击。
Andrey G. Karlov, the Russian ambassador to Turkey, was giving a speech when an off-duty police officer fatally shot him at the lectern.	俄罗斯驻土耳其大使安德烈·G·卡尔洛夫(Andrey G. Karlov)在台上发表讲话时，被一名不当班的警察开枪打死。
No group has claimed responsibility for the attack. The gunman, who was killed at the scene, shouted "God is great" in Arabic and later said in Turkish: "Don't forget Aleppo. Don't forget Syria." That may hint at his motive: The Russian Air Force was a key part of the Syrian government's successful assault on rebel-held parts of Aleppo, which included widespread attacks on civilians.	尚没有任何团体声称对此次袭击负责。枪手被当场击毙前曾用阿拉伯语高喊“真主至大”，后来又用土耳其语说：“别忘了阿勒颇。别忘了叙利亚。”这或许暗示了他的动机：俄罗斯空军是叙利亚政府成功打击反政府武装控制的阿勒颇地区的关键因素之一。叙利亚政府的行动包括对平民的广泛袭击。
The killing caused global alarm and questions about where it would lead. On social media, many drew parallels to the political assassination of Archduke Franz Ferdinand of Austria, which helped set off World War I — a comparison that analysts, thankfully, reject.	此事在全球引发了担忧，以及对事态发展方向的疑虑。在社交媒体上，很多人将其与第一次世界大战的导火索，既是奥地利弗朗茨·斐迪南大公(Archduke Franz Ferdinand)遭遇政治刺杀一事相提并论。幸而分析人士驳斥了这种类比。
What follows is an explanation of what the episode means for Turkey, Russia, Syria and the United States.	下文解释了此事对土耳其、俄罗斯、叙利亚和美国意味着什么。
Could this lead to a conflict between Turkey and Russia?	此事是否会导致土耳其和俄罗斯之间爆发冲突？
That seems very unlikely. So far, both countries are working to manage the situation and sending signals of cooperation. They appear to be aligning their explanations of what happened, pointing their fingers at mutual enemies but not each other.	可能性似乎非常低。迄今为止，两国都在努力控制局面，并发出合作的信号。两国似乎正在对发生的一切达成共识，指责共同的敌人而非彼此。

<p>The reason is Syria. In the past few months, Turkey and Russia have taken pains to line up their once-conflicting strategies there.</p>	<p>原因在于叙利亚。过去几个月里，土耳其和俄罗斯费尽心思地让两国在叙利亚一度相互冲突的战略一致起来。</p>
<p>Aaron Stein, a Turkey expert at the Atlantic Council, put it bluntly: "Turkey needs Russia to advance its war interests. Russia needs Turkey to win, as it defines winning, in Syria. Everyone has an incentive to handle this like adults."</p>	<p>大西洋理事会(Atlantic Council)的土耳其问题专家阿龙·斯坦(Aron Stein)直言不讳地说：“土耳其需要俄罗斯推进自己的战争利益。俄罗斯则需要土耳其在叙利亚取得胜利，不过是按照俄罗斯对胜利所下的定义。各方都有自己的动机，要像成年人一样处理此事。”</p>
<p>A crisis over a dead ambassador could jeopardize the two countries' stakes in Syria — or, worse, revive the destabilizing tensions of last year — so they are working to smooth things over.</p>	<p>因一位大使遇刺身亡而爆发危机可能会危及两国在叙利亚的利益，或重新引发去年那些不利于稳定的紧张局面，后者更加糟糕。因此，两国都在努力平息事端。</p>
<p>Why has there been tension between Turkey and Russia?</p>	<p>土耳其和俄罗斯之间为何一度关系紧张？</p>
<p>Also over Syria, which goes to show the volatility of the situation. It also demonstrates that both countries are so focused on protecting their Syria agendas that even their nationalistic, grievance-prone leaders would rather play it cool.</p>	<p>两国之间的紧张关系同样是围绕着叙利亚问题，这表明了局势的不稳定。此事也显示出两国都非常注重保护自己关于叙利亚问题的议程，以至它们爱发牢骚的民族主义领导人宁愿不动声色。</p>
<p>The two countries were, and to some extent still are, on opposite sides of the Syrian war. Turkey opposes President Bashar al-Assad of Syria and has backed rebel groups. Russia supports Mr. Assad and entered the conflict on his behalf in the fall of 2015.</p>	<p>两国过去是叙利亚战争中对立的双方，目前在一定程度上仍是如此。土耳其反对叙利亚总统巴沙尔·阿萨德(Bashar al-Assad)，支持反政府武装组织。俄罗斯支持阿萨德，并于2015年秋天代表阿萨德参战。</p>
<p>Shortly after Russia intervened, its planes began bombing Turkish-backed rebels and flew along — Turkey says across — the Turkish-Syrian border. In November 2015, Turkey shot down a Russian jet, precipitating a major crisis and fears of war. That also could have pulled in the United States, which is bound by treaty to defend Turkey, a NATO ally, and wanted to avoid escalation in Syria.</p>	<p>俄罗斯出面干预后不久，该国飞机就开始轰炸土耳其支持的反政府武装，并沿着土耳其与叙利亚的边境飞行。土耳其称俄罗斯的飞机越过了边境。2015年11月，土耳其击落一架俄罗斯飞机，引发了一场重大危机以及对战争的恐惧。那次事件本来可能会把美国拉下水，因为根据条约，美国有义务保卫北约(NATO)盟友土耳其。但美国希望避免叙利亚局势升级。</p>
<p>Under those circumstances, the assassination of an ambassador could</p>	<p>在这种情况下，大使遇刺可能会引发一场规模更大的冲突。但过去一年里，</p>

<p>provoke an even larger conflict. But over the past year, the countries' relationship has changed significantly.</p>	<p>两国的关系发生了显著的变化。</p>
<p>How did they go from enemies to partners?</p>	<p>它们是如何从敌人变成合作伙伴的?</p>
<p>After years of pursuing Mr. Assad's downfall, Turkey shifted this summer to a more modest strategy: preventing Syrian Kurdish groups from accumulating too much territory along the border. That change aligned the country with Russia.</p>	<p>土耳其多年来谋求让阿萨德下台，但在今年夏天转向了一项更温和的战略：阻止叙利亚的库尔德团体在边境附近积攒太多地盘。这一变化使该国和俄罗斯站在了一边。</p>
<p>Turkey fears that Kurdish control of the border would strengthen Kurdish separatism in Turkey, where the government is fighting Kurdish groups, some of which have carried out terrorist attacks.</p>	<p>土耳其担心库尔德人控制边境会增强自己境内的库尔德分离主义的实力。在土耳其，政府正在打击库尔德团体，部分库尔德团体制造了多起恐怖袭击。</p>
<p>Russia's entry into the war also changed Turkey's calculus, making the campaign against Mr. Assad suddenly costlier and less likely to succeed.</p>	<p>俄罗斯的参战也打乱了土耳其的算盘，陡然增加了反阿萨德运动的代价，并降低了其取得成功的可能性。</p>
<p>Russia, for its part, initially struggled to gain ground against the Syrian rebels, some of whom received Turkish backing. Moscow appears to have concluded that it is better off with Turkey as a partner than an adversary.</p>	<p>俄罗斯起初难以在对抗叙利亚反政府武装的行动中取得进展。部分反政府武装组织得到了土耳其的支持。莫斯科似乎决定，把土耳其作为合作伙伴比把它作为对手更好。</p>
<p>The two countries appeared to settle on an unofficial deal: Turkey would drop its support for certain rebels who threatened Russian interests in Syria, and Russia would drop its support for Syrian Kurdish groups. Russia also allowed Turkish troops and allied militias to occupy Syrian border territory that had previously been controlled by Kurds and the Islamic State.</p>	<p>两国似乎达成了一项非正式协议：土耳其放弃支持某些危及俄罗斯在叙利亚利益的反政府武装组织，俄罗斯则放弃对叙利亚境内库尔德团体的支持。俄罗斯还允许土耳其部队及其民兵组织的盟友占领之前由库尔德人和伊斯兰国(Islamic State)控制的叙利亚边境地区。</p>
<p>Mr. Stein of the Atlantic Council called the arrangement "Aleppo for Al Bab": Russia and Mr. Assad would take Aleppo, while Turkish-allied militias would take the strategically located town of Al Bab.</p>	<p>大西洋理事会的斯坦称相关安排是“用阿勒颇换阿巴布”：俄罗斯和阿萨德控制阿勒颇，和土耳其结盟的民兵组织控制地理位置具有战略意义的城市阿巴布。</p>

<p>Because the cities are nearly adjacent, the Turkish and Russian campaigns benefit each other. At the same time, with their forces mere miles apart, a major breakdown over Mr. Karlov's assassination would simply be too dangerous to tolerate.</p>	<p>因为这两座城市几乎是连着的，土耳其和俄罗斯的行动对彼此都有利。与此同时，鉴于双方的部队仅相距数英里，因卡尔洛夫遇刺一事而导致关系严重破裂这种情况实在太危险，两国都无法容忍。</p>
<p>Will the assassination change anything?</p>	<p>刺杀事件是否会带来什么变化?</p>
<p>There is no indication so far that Turkey or Russia will alter their Syria policies. If anything, the attack may cement their partnership.</p>	<p>迄今为止尚没有迹象显示土耳其或俄罗斯会改变自己的叙利亚政策。如果有变化的话，此次袭击大概会巩固它们的合作关系。</p>
<p>Mr. Stein predicted that President Recep Tayyip Erdogan of Turkey would seek to distract attention from his government's unpopular Syria policy by pinning the attack on the United States-based Turkish cleric Fethullah Gulen, whom Mr. Erdogan also blamed for a coup attempt in Turkey this summer.</p>	<p>斯坦预测，土耳其总统雷杰普·塔伊普·埃尔多安(Recep Tayyip Erdogan)会把袭击归咎于身在美国的土耳其神职人员费特胡拉·居伦(Fethullah Gulen)，以此分散对自己政府不得人心的叙利亚政策的关注。埃尔多安还指责居伦应为土耳其今夏发生的未遂政变负责。</p>
<p>Mr. Gulen has denied the charges, and Washington has refused to extradite him, citing a lack of evidence. That has strained ties between the United States and Turkey, though this tension serves Mr. Erdogan by helping him to rally support at home, where America is unpopular.</p>	<p>居伦否认相关指控，华盛顿也以缺乏证据为由拒绝引渡他。这导致美国和土耳其之间关系紧张，不过这种紧张关系对埃尔多安有好处，帮他在国内获得了支持，因为美国在土耳其不受欢迎。</p>
<p>"The biggest loser from this will be Washington," Mr. Stein said. "It's completely counterintuitive, but it's Washington."</p>	<p>"这件事中最大的输家将是华盛顿，"斯坦说。"这完全违背直觉，但的确是华盛顿。"</p>

<p>Turning Point in Syria as Assad Regains All of Aleppo</p>	<p>叙利亚政府军全面夺回阿勒颇</p>
<p>BEIRUT — The evacuation of civilians and fighters from the last rebel-held part of Aleppo concluded Thursday after long delays because of frigid weather, putting all of Syria's industrial capital back in the hands of President Bashar Assad's forces for the first time since</p>	<p>贝鲁特——因天气寒冷而多次长时间推迟之后，平民和战斗人员于周四完成了从阿勒颇最后一块反对派控制区域的撤离。自2012年以来，叙利亚的这个工业中心首次完全回到总统巴沙尔·阿萨德(Bashar Assad)部队的手中。</p>

2012.	
The last buses carrying residents from eastern Aleppo left the city late Thursday night, according to the Syrian state news agency.	据叙利亚国家通讯社称，最后一批载有阿勒颇东部居民的巴士于周四深夜离开了这座城市。
Tens of thousands of people have been removed from eastern Aleppo since Dec. 15. Before the last buses left on Thursday, the Red Cross said that 34,000 people had left the city, including 4,000 fighters who had left in their own vehicles the previous night.	自 12 月 15 日以来，数万人从阿勒颇东部撤离。红十字会称，在周四最后一批巴士离开之前，已有 3.4 万人离开了这座城市，包括 4000 名战士，后者在前一天晚上搭乘自己的车辆离开。
A separate convoy was waiting to carry residents out of two pro-government villages in neighboring Idlib province that have been surrounded by rebels for years. It was unclear late Thursday whether the convoy had completed its trip.	当时，一个单独的车队在等待把邻近的伊德利卜省两个亲政府村庄的居民运走——这两个村庄已被反对派包围多年。周四晚间时，尚不清楚车队是否已完成运送。
The seizure of all of Aleppo by Assad and his allies signals a turning point in the nearly 6-year conflict.	阿萨德及其盟友完全夺回阿勒颇是近 6 年冲突的一个转折点。
Assad's army relied heavily on foreign military support from Russia, Iran and Shiite militias like Lebanon's Hezbollah to surround the rebel-held area. Months of shelling and airstrikes that killed hundreds of people and reduced entire neighborhoods to rubble finally routed the rebels and pushed the area's inhabitants to leave under an agreement brokered by Russia, Turkey and Iran.	阿萨德的军队严重依赖外国军事支持，以包围反对派控制区，支持来自俄罗斯、伊朗以及黎巴嫩真主党等什叶派民兵组织。几个月的炮轰和空袭导致数百人死亡，将多个社区彻底夷为废墟，最终击溃反对派，并根据在俄罗斯、土耳其和伊朗斡旋下达成的协议，迫使该地区居民撤离。
Residents reached by phone and messaging apps after arriving in rebel-held areas described cold, disorderly conditions where many were struggling to find shelter.	通过电话和通讯应用程序联系上的到达反对派控制区的居民称，那里很冷，秩序混乱，很多人在努力寻找住所。
"People went from one hell to another," said Abdul-Nasser Nadaf, a rebel fighter who had left eastern Aleppo for Idlib province. "We are all tired and the displacement was really tough. The snow and cold made	"人们从一个地狱到了另一个地狱，"反对派战士阿卜杜勒-纳赛尔·纳达夫 (Abdul-Nasser Nadaf) 说。他离开阿勒颇东部，来到伊德利卜省。"我们都累了，迁徙十分艰苦。大雪和寒冷把情况变得更糟。"

things worse.”	
Under the agreement, civilians removed from eastern Aleppo could remain in government-controlled areas or continue on to rebel-held areas elsewhere. Most have ended up in Idlib, which already held many people displaced from elsewhere in Syria, raising concerns about the humanitarian situation there.	根据协议，从阿勒颇东部撤出的平民可以留在政府控制区，或继续前往反对派控制的其他地区。大部分人去了伊德利卜省，那里已经有很多从叙利亚其他地方迁来的人，所以那里的人道主义情况令人担忧。
Staffan de Mistura, the United Nations envoy to Syria, said Thursday that only a deal to end the war could prevent a repeat of the carnage in Aleppo and protect the displaced.	周四，联合国叙利亚问题特使斯塔凡·德米斯图拉(Staffan de Mistura)表示，只有达成结束战争的协议才能防止阿勒颇的血腥杀戮重演，并保护流离失所者。
“Many of them have gone to Idlib, which could be in theory the next Aleppo,” de Mistura told reporters in Geneva.	“很多人去了伊德利卜省，那里可能会是下一个阿勒颇，”德米斯图拉在日内瓦对记者们说。

A Doomed Battle for Hong Kong, With Only Medals Left 75 Years Later	那场被遗忘的、注定失败的香港保卫战
BARRIE, Ontario — John Lawson has only a few tokens to remember his father by: military medals, a couple of dog tags and a silver ID bracelet that encircled his father’s wrist as bullets did their work in Hong Kong one terrible winter day 75 years ago this week.	安大略省巴里市——约翰·劳森(John Lawson)只有几样小东西可以用来怀念父亲：军章、两个身份识别牌和一个银色身份手环——75年前的这一周，在一个可怕的冬日，他的父亲在香港被子弹击中时，手腕上就佩戴着这个手环。
There was a little pocket diary once, too, but that was lost in a fire. Mr. Lawson remembers two of the last words that his father wrote, summing up the situation before the ordeal that led to his death: “Quite impossible.”	曾经还有个小小的口袋日记本，但是后来在火灾中被烧毁。劳森记得父亲在总结导致他死亡的可怕经历时最后写下的几个字：“非常不可能。”
Remembrances of war are worth noting not just for the lives lost but for the bad decisions that led inexorably to the waste of those lives. Mr. Lawson need not have grown up without a father, but misinformation, poor planning and simple incompetence left him with little more than a	关于战争的回忆需要被记录下来，不仅因为那些逝去的生命，还是因为那些必然会导致生命被浪费的错误决定。劳森本不需要在成长的过程中缺少父亲的陪伴，可是错误情报、计划失当以及简单的失职让他失去了父亲，只剩下这一小口袋纪念品。

<p>pocketful of ornaments instead of a man.</p>	
<p>Brig. John K. Lawson, Mr. Lawson's father, was the highest-ranking Canadian soldier killed in action during World War II. He was cut down by machine-gun fire in the doomed defense of Hong Kong, a largely forgotten battle that claimed the lives of nearly 3,000 soldiers, 290 of them Canadian.</p>	<p>劳森的父亲约翰·K·劳森准将(John K. Lawson)是“二战”战斗中牺牲的军衔最高的加拿大军官。他在注定失败的香港保卫战中 被机关枪打死。这场战役已经基本被人遗忘，但它夺走了近 3000 名士兵的生命，其中 290 人来自加拿大。</p>
<p>The debate over what went wrong raged in the aftermath of the war but has long since grown cold. These days, the sacrifice and courage of those who died are remembered more than the senselessness of their deaths. But historians have long acknowledged that it was a mistake to send untested Canadian boys to defend an indefensible island.</p>	<p>战争结束后，曾就哪里出了问题发生过激烈争论，不过现在，它们早已被淡忘。如今，人们的记忆里更多的是那些战死士兵的牺牲精神和勇气，而非他们死亡的不必要性。不过，史学家们早已认定，派一些没有经过考验的加拿大男孩去守卫一个根本不可能守卫的小岛是个错误。</p>
<p>"This was the Canadian army's first engagement of the second war, and it was a disaster," Tony Banham, a historian who has written extensively about the battle, said in an email exchange.</p>	<p>"这是加拿大军队首次参与‘二战’，它是一场灾难，”史学家托尼·班纳姆(Tony Banham)在接受邮件采访时写道。他写了很多关于这场战役的文章。</p>
<p>In the spring of 1941, John K. Lawson was 54. He had survived the Great War and had fought the petty political battles of the military to reach the rank of colonel — not a crowning achievement, but a comfortable one. He had a wife, two sons, a home.</p>	<p>1941 年春，约翰·K·劳森 54 岁。在经历过“一战”，以及军队系统中一些无谓的政治斗争之后，他升至上校——这不算什么伟大成就，但令人满意。他有一个妻子、两个儿子和一个家。</p>
<p>The European war was looming and Colonel Lawson had been put in charge of training young soldiers. Then came a request from Hong Kong for a battalion, maybe two, to reinforce the British colony's small garrison there.</p>	<p>欧洲大战迫在眉睫，劳森上校负责训练年轻士兵。后来，香港请求增派一个或两个营，以加强该英国殖民地的一个小型卫戍部队的兵力。</p>
<p>Britain's prime minister, Winston Churchill, was against it. "This is all wrong," he wrote in January 1941. "If Japan goes to war with us, there is not the slightest chance of holding Hong Kong or relieving it. It is most</p>	<p>英国首相温斯顿·丘吉尔(Winston Churchill)表示反对。“这绝对是错误的，”他在 1941 年 1 月写道。“如果日本与我们开战，我们没有一丝一毫的机会可以守住或解救香港。加大我们在那里会遭受的损失是极其不明智的。”</p>

unwise to increase the loss we shall suffer there.”	
But the move, proponents argued, would boost morale in the colony and send a warning signal to Japan. Churchill conceded.	但是，支持者认为，这会提高该殖民地的士气，向日本发出一个警告信号。丘吉尔让步了。
No one really expected the Japanese to attack a British possession. The Pacific conflict at that point was a war among Asians — a sideshow in the West where all eyes were focused on Germany.	没有人真的认为日本会进攻英国的领地。当时，太平洋的冲突被认为是亚洲国家之间的战争——在西方国家看来，那是次要事件，因为他们的注意力全部集中在德国身上。
Colonel Lawson was asked to prepare a report on the readiness of Canadian battalions available for the task: His staff members classified 10 as excellent, seven as in need of more training and nine as “not recommended for operational employment at present.”	劳森上校被要求提交一份报告，陈述可供执行这项任务的营队的准备情况：他的工作人员将10个营列为优秀，7个列为需要更多培训，9个列为“目前不建议进行军事部署”。
There seemed no point in sending battle-ready troops far from the real war in Europe. To reinforce Hong Kong, then, Canada’s chief of the general staff picked two battalions from the bottom of the list — the Winnipeg Grenadiers and the Royal Rifles — and put Colonel Lawson in charge.	把做好战斗准备的部队派往远离欧洲真正战场的地方似乎不合情理。所以，为了加强香港的防卫，加拿大总参谋长从名单底部挑了两个营——温尼伯近卫步兵营(Winnipeg Grenadiers)和皇家步枪营(Royal Rifles)，并安排劳森上校担任指挥官。
Was there trepidation? His son guesses not. For his father, it was a late-career promotion to brigadier and a command. Perhaps he saw Hong Kong as one last adventure before settling into a desk job.	他恐惧过吗？他的儿子猜他没有。对他父亲来说，这是职业生涯后期向准将和指挥官的晋升。也许，他把香港视为最后一次冒险，之后将只从事案头工作。
“Any soldier likes the exhilaration and excitement of a new posting,” said Mr. Lawson, who followed his father into the military and joined the same regiment, the Royal Canadian.	“任何士兵都喜欢新职位带来的喜悦和兴奋，”劳森说。他追随父亲的足迹从军，并加入了同一支部队——皇家加拿大军团(Royal Canadian)。
Brigadier Lawson shipped out with about 2,000 troops that October.	当年10月，劳森准将带领约2000名士兵乘船出发。
Though the two imperial armies now faced each other uneasily at a railroad crossing between China and Hong Kong, confrontation seemed remote.	虽然当时两个帝国的军队在中国和香港之间的一个铁路交叉口不安地对峙着，但冲突似乎遥遥无期。

<p>British intelligence assured the Canadians that if the Japanese did attack, it would be of little consequence, because they were small, nearsighted and unable to fight at night, according to the racist stereotype of the day.</p>	<p>英国情报机构向这些加拿大人保证, 就算日本人真的开打, 也不会有什么严重后果, 因为根据当时的种族偏见, 日本人都是身材矮小, 近视眼, 无法在夜间战斗。</p>

<p>The line was supposed to hold the Japanese back for months, or at least weeks, if the colony were ever to be attacked. But there was little urgency to the plan: The line had never been completed and was mostly just barbed wire. In December 1941, only 30 soldiers were garrisoned at its main fortification, Shing Mun Redoubt, which had the capacity for 120.</p>	<p>如果该殖民地真的遭到攻击, 他们想靠着这条防御线抵挡日军几个月, 或者至少几个星期。但是, 人们根本没有意识到计划的紧迫性: 防御线从未完成, 大多只是铁丝网。1941年12月, 只有30名士兵驻守在主要防御工事城门碉堡里——那里能容纳120个人。</p>

Saudi Royal Family Is Still Spending in an Age of Austerity	经济低迷时期，沙特王室是怎么花钱的
TANGIER, Morocco — Behind a tall perimeter wall, studded with surveillance cameras and guarded by Moroccan soldiers, a sprawling new palace for King Salman of Saudi Arabia rose on the Atlantic coast here last summer.	摩洛哥丹吉尔——今年夏天，在一圈装有监控摄像头、由摩洛哥士兵守卫的高墙内，沙特阿拉伯国王萨勒曼(King Salman)一座巨大的新宫殿在这里的大西洋海岸边拔地而起。
Even as the Saudi government canceled a quarter of a trillion dollars' worth of projects back home as part of a fiscal austerity program, workers hustled to finish bright blue landing pads for helicopters at the vacation compound and to erect a tent the size of a circus big-top where the king could feast and entertain his enormous retinue.	即使作为财政紧缩计划的一部分，沙特政府取消了国内总共价值 2500 亿美元的项目，工人们还是为这座度假设施修好了亮蓝色的直升机停机坪，搭建起一个大小和马戏团主帐篷差不多的帐篷，国王可以在里面举办宴会，款待人数庞大的随行人员。
The royal family's fortune derives from the reserves of petroleum discovered during the reign of Salman's father, King Abdulaziz ibn Saud, more than 75 years ago. The sale of oil provides billions of dollars in annual allowances, public-sector sinecures and perks for royals, the wealthiest of whom own French châteaux and Saudi palaces and stash money in Swiss bank accounts.	王室的财富源自逾 75 年前，那是在萨勒曼的父亲阿卜杜勒·本·沙特国王(King Abdul bin Saud)统治时期，沙特发现了石油。石油销售收入每年带来了数以十亿美元计的补贴、公共部门的闲职，以及王室的福利。最富有的王室成员拥有法国城堡、沙特宫殿，以及瑞士银行账户的存款。
King Salman serves as chairman of the family business unofficially known as "Al Saud Inc." Sustained low oil prices have strained the economy and forced questions about whether the family — with thousands of members and still growing — can simultaneously maintain its lavish lifestyle and its unchallenged grip on the country.	萨勒曼国王担任家族企业的主席，这个企业的非官方名称为阿勒沙特公司(Al Saud Inc.)。持续低迷的油价导致了经济紧张，人们怀疑这个拥有数以千计成员并且人数仍在增加的家族，是否能维持其奢华的生活方式，保持对沙特无人挑战的控制。
"The people have less money than before, but the royal family have the same," said Prince Khalid bin Farhan al-Saud, a dissident member of the extended family living in Germany. "There is a lot of state money which	"人们的钱比以前少了，但王室的钱没有减少。沙特有很多钱没有计入预算，由国王一个人决定这些钱怎么花。"这个大家族中的异见者、现居德国的哈利德·本·法尔汉·阿勒沙特(Khalid bin Farhan al-Saud)王子说道。

<p>is concealed from the budget, which is determined by the king alone.”</p>	
<p>These are anxious times for the royals, led by an 80-year-old who has already had at least one stroke and is likely to be the last of six sons of the founding monarch to serve as sovereign. He must wrangle a band of relatives, from the merely well-off to billionaires, who are accustomed from birth to privilege and plenty.</p>	<p>这是王室备感焦虑的时候。王室的领导者是一个 80 岁的老人，他已经至少中风过一次，可能会成为开国君主六个儿子中最后一个国王。他必须和一帮亲戚做斗争，这些亲戚有的过着小康生活，有些则是亿万富翁，他们从小就习惯了特权和富裕。</p>
<p>While there are serious problems beyond the borders — a costly war in Yemen, violence in Iraq and Syria, an emboldened Iran — it is the country’s economic troubles that risk roiling ordinary citizens, if their own cradle-to-grave benefits are cut too much.</p>	<p>虽然国界之外存在一些严重问题——也门发生了一场代价昂贵的战争，伊拉克和叙利亚存在暴力冲突，伊朗也很胆大妄为——但可能会引起普通民众骚动的是本国的经济困难，如果民众“从摇篮到坟墓”的福利被削减太多的话。</p>
<p>Revenues from the national oil company, Saudi Aramco, have long been the lifeblood of government spending. Some in the family have resisted a proposal by the king’s son Deputy Crown Prince Mohammed bin Salman to partly privatize it, since listing it on stock exchanges in New York or London would bring new audits of Aramco and possibly more insights into government funding, and in turn, money for the royals.</p>	<p>国有油企沙特阿美公司(Saudi Aramco)的收入长期以来一直是政府支出的命脉。王室中一些人抵制了国王的儿子、副王储穆罕默德·本·萨勒曼(Mohammed bin Salman)将其部分私有化的建议，因为它在纽约或伦敦的证券交易所上市后，该公司就会遭受更多的审计，可能会让外人更多地了解政府资金的账目，从而了解到王室的资金信息。</p>
<p>Facing huge budget gaps, the government has cut public-sector pay along with subsidies, sending gasoline, electricity and even water bills higher. The kingdom has begun borrowing by the billions both at home and abroad. And hiring by the government — a large and sought after employer for Saudis — has been cut, instilling fear for the future in younger people who cannot find work.</p>	<p>面对巨大的预算差距，政府削减了公共部门的工资与补贴，让油价、电价甚至水价涨得更高。沙特已经开始在国内外欠下数十亿美元计的债务，而政府作为沙特人向往的大雇主，也削减了雇佣人数，让找不到工作的年轻人对未来渐渐有了恐惧。</p>
<p>Royals are sharing the pain, according to Anas al-Qusayer, the spokesman for the Ministry of Culture and Information, who said that</p>	<p>文化和新闻部发言人阿纳斯·阿勒古赛伊尔(Anas al-Qusayer)说，王室也在承受这种痛苦，他们的津贴已经减少。然而，几个了解王室内情的人说，至</p>

<p>their allowances had been reduced. At least some royals, though, have seen no decline in their stipends, according to several Saudis close to the family.</p>	<p>少某些王室成员的俸给并没有减少。</p>
<p>"Under Salman, princes again appear to enjoy a lot more material privileges, and the core allowance system has not been changed," said Steffen Hertog, an associate professor at the London School of Economics who wrote a book on the political economy of Saudi Arabia, "Princes, Brokers and Bureaucrats."</p>	<p>伦敦经济学院(London School of Economics)副教授斯蒂芬·赫尔托格(Steffen Hertog)说,“在萨勒曼领导下,王子们似乎再次享有了更多的物质特权,核心的津贴制度并没有改变。”他写过一本关于沙特阿拉伯政经方面的书,名为《王子、掮客和官僚》(Princes, Brokers and Bureaucrats)。</p>
<p>Some Saudi royals are still spending big. Dania Sinno, a real estate agent with Belles Demeures de France, said that multiple family members had been buying property in Paris in the last year. She recently sold a nearly 11,000-square-foot apartment on the exclusive Rue Octave-Feuillet for more than \$30 million to a Saudi princess.</p>	<p>某些沙特王室成员的开支依然很大。法国美宅公司(Belles Demeures de France)的房地产经纪人达尼亚·辛诺(Dania Sinno)说,去年,多名王室成员在法国购置了房产。她最近把位于富人区奥克塔夫-弗耶街(Rue Octave-Feuillet)的一套面积接近1.1万平方英尺的公寓以逾3000万美元的价格卖给了一名沙特公主。</p>
<p>Through dozens of interviews with diplomats and money managers, economists, real-estate and travel agents, interior decorators and members of the House of Saud and by reviewing court records and real-estate documents, The New York Times has pieced together details of the family's spending.</p>	<p>通过对外交官、基金经理、经济学者、房地产和旅游经纪人、室内设计师以及沙特王室成员进行数十次采访,并查阅法庭记录和房地产文件,《纽约时报》把沙特王室开支的诸多细节拼合了起来。</p>
<p>The scale of the clan's fortune is a closely guarded secret. The money is divided among many relatives and spread across several continents, making a precise accounting difficult. The funding mechanisms are opaque by design. The share of the Saudi budget that ultimately makes its way into royal coffers is not disclosed.</p>	<p>王室的财富规模仍然是一个被严防死守的秘密。这些钱分散在很多王室成员手中和若干个国家里,难以进行精确的统计。资金运行机制在设计上就是不透明的。沙特的预算中有多少份额最终成为了王室的财政收入,目前尚未被披露。</p>
<p>While chinks in the wall of secrecy appear through legal cases and tabloid reports overseas, the royals have learned not to flaunt their</p>	<p>虽然世人可以从诉讼案和海外小报的报道中窥得一鳞半爪,但沙特王室成员已经学会了不在本国的3000万老百姓眼前炫富。他们在自己的宫殿周围竖</p>

<p>The so-called Panama Papers released in April revealed that King Salman was involved in offshore companies in Luxembourg and the British Virgin Islands. The records linked him to a yacht and multimillion-dollar properties in London.</p>	<p>今年4月被公之于众的所谓“巴拿马文件”显示，国王萨勒曼与卢森堡以及英属维尔京群岛的离岸公司有牵连。一些记录把他和一艘游艇以及伦敦价值成百上千万美元的房产联系起来。</p>
<p>The relatives in the royal family number in the thousands, but from there, estimates diverge, said Joseph A. Kechichian, who has studied the family for three decades and wrote a book, "Succession in Saudi Arabia." He estimates that there are now 12,000 to 15,000 princes and about as many princesses. Princess Basmah bint Saud, a daughter of King Saud, five years ago put the number of royals at 15,000.</p>	<p>王室成员数以千计，但对王室进行了30年的研究、著有《沙特阿拉伯王室传承》(Succession in Saudi Arabia)一书的约瑟夫·A·克奇安(Joseph A Kechichian)说，各方对人数的估计存在较大分歧。据他估算，目前有1.2万至1.5万名王子，公主的人数与此相近。沙特国王(King Saud)的女儿巴斯马·宾特·沙特公主(Princess Basmah bint Saud)则于五年前称，王室共有1.5万名成员。</p>
<p>But the Saudi ministry spokesman, Qusayer, said there were no more than 5,000 members of the House of Saud. The difference may stem in part from whether or how one counts distant relatives and families who ruled back before the time of King Abdulaziz, the current king's father.</p>	<p>但沙特文化和新闻部发言人古赛伊尔说，沙特王室成员人数不多于5000人。这种分歧产生的部分根源在于：是否或者以何种方式计入远亲以及在现任国王的父亲阿卜杜勒-阿齐兹国王上台前掌权的王室成员。</p>
<p>At some point, the family could grow too large to support. "There has to be some decision about lopping off some of the branches," said F. Gregory Gause III, a Middle East specialist at the Texas A&M University Bush School of Government and Public Service.</p>	<p>到了某个时刻，王室规模可能会扩大到支出高昂、无以为继的程度。“必须做出某种决策，砍掉一些枝蔓，”德州农工大学(Texas A&M University)布什政府与公共服务学院(Bush School of Government and Public Service)的中东问题专家F·格雷戈里·高斯三世(F. Gregory Gause III)说。</p>
<p>As the size of the family and the general population have grown, some observers say, the balance of rewards has become harder to maintain. Despite a robust social safety net — including free education and health</p>	<p>一些观察人士称，由于王室规模的扩大和总人口数的增加，社会收入分配的平衡已经变得愈发难以维持。尽管社会保障体系颇为强大——包括免费教育和医保——但一些沙特人依然穷困潦倒，很多中产阶级人士只能勉强糊口。</p>

<p>care — there are poor Saudis, and many in the middle class barely make ends meet.</p>	
<p>“At the top level, they know that they have to leave something for the rest of the country, otherwise they’ll be out on their ear,” Jean-François Seznec, senior fellow at the Global Energy Center at the Atlantic Council, said of the royal family. “If you ask the population to make sacrifices in order for the state to get money, you can’t have one part of the society take advantage.”</p>	<p>“位于最顶层的人知道，他们必须给这个国家的其他人留点儿什么，否则他们将被扫地出门，”大西洋理事会(Atlantic Council)全球能源中心的高级研究员让-弗朗索瓦·塞泽克(Jean-Francois Seznec)说。“如果你要求民众做出牺牲，以便增加政府的收入，你就不能让一部分社会成员占便宜。”</p>
<p>Senior members of the House of Saud are keenly aware that they lost their previous kingdom in the 19th century because of family infighting. King Saud was deposed in 1964 and replaced by his brother King Faisal, who, in turn, was assassinated by a nephew.</p>	<p>沙特王室高级成员敏锐地意识到，由于王室内斗，他们在 19 世纪失去了以前的王国。沙特国王于 1964 年被废，由他弟弟费萨尔国王(King Faisal)取而代之，后者则被自己的一个侄子暗杀了。</p>

For the Trumps, 'Made in U.S.A.' May Be a Tricky Label to Stitch	实现"美国制造", 特朗普得先拿女儿的品牌开刀
At Saks Off Fifth recently, an Ivanka Trump white polyester and spandex blouse made in Indonesia was marked down to \$34.99, from \$69. A few racks over, her black and white jacket came from Vietnam, while several blocks away, at Macy's, her leather bootie manufactured in China sold for more than \$100.	在萨克斯第五大道百货(Saks Off Fifth), 产自印度尼西亚的伊万卡·特朗普(Ivanka Trump)品牌白色涤纶和氨纶衬衫从 69 美元(约合人民币 480 元)降价到了 34.99 美元。在几个架子之外, 该品牌黑色和白色夹克产自越南, 而在相隔几个街区的梅西百货公司, 该品牌产自中国的短皮靴 100 多美元一双。
At the Trump Tower on Fifth Avenue, a \$35 blue cotton cap embroidered with "Trump National Golf Club" was made in Bangladesh. A Trump Tower hoodie from Pakistan set tourists back \$50.	在第五大道的特朗普大厦, 一款 35 美元蓝色棉帽子上绣着"特朗普国家高尔夫俱乐部"的字样, 它产自孟加拉国。特朗普大厦的连帽衫产自巴基斯坦, 卖给游客的价格是 50 美元。
A majority of clothes these days are made anywhere but in America. And in this era of local pride and nationalistic fervor, that has become a political liability. The conflict is starkly evident in the apparel brands made and marketed by President-elect Donald J. Trump and his daughter Ivanka.	如今大多数服装都不在美国生产。在这个本土自豪感和民族主义热情高涨的时代, 那已经成为了一种政治责任。但在候任总统唐纳德·J·特朗普(Donald J. Trump)和他女儿伊万卡拥有的服装品牌中, 这种冲突显而易见。
Mr. Trump has cast companies that make goods in China and other foreign countries as economic pariahs, siphoning off jobs better left at home. He has blamed the system, a set of policies in the United States that Mr. Trump acknowledged using for his own gain. And since being	特朗普把那些在中国和其他国家进行生产的公司视为经济叛徒, 称他们带走了本该留在国内的工作机会。他指责这种体系, 但也承认自己从构成这个体系的政策中受益。自当选美国总统之后, 他继续抱怨全球力量, 威胁要用高关税惩罚一些公司, 除非它们把生产岗位转移到美国。

<p>elected, he has continued to rail against global forces, threatening to punish companies with high tariffs if they don't move production to the United States.</p>	
<p>Should Mr. Trump make good on such promises, he would take aim at not only his own brand, but his daughter's as well.</p>	<p>如果特朗普要兑现这样的承诺，那么他不仅要拿自己的品牌开刀，还有女儿的品牌。</p>
<p>Mr. Trump doesn't stand to lose much. While his goods are largely manufactured overseas, most of his retail ventures have gone the way of Trump vodka and steaks. And what products can be found — at his hotels and golf courses and on Amazon sold by independent sellers — are the vestiges of a mostly defunct clothing line or sporadic shipments of Trump sweatshirts and hats.</p>	<p>特朗普不会损失太大。虽然他的货物主要是在海外制造，但在他的绝大多数零售店铺中，已经不大看得到特朗普伏特加和牛排。在他的酒店、高尔夫球场以及亚马逊上的独立卖家那里，你能找到的无非是一个垂死服装系列的残余，或者销售不畅的特朗普品牌的运动衫和帽子。</p>
<p>Ivanka Trump's company, by contrast, is the type of operation that Mr. Trump is squarely aiming for. Her shoes and dresses largely retail for less than \$150. Coats cost as much as \$400.</p>	<p>相比之下，伊万卡·特朗普的公司是特朗普真正要针对的那种类型。她大部分鞋子和衣服的零售价低于 150 美元。大衣差不多 400 美元一件。</p>
<p>Factored into those prices is the cost of materials and production, as well as shipping, tariffs, marketing and advertising expenses. Cheap production overseas means more coin in the coffers of Ms. Trump and the shoe, accessory and clothing makers that are her partners, among them Marc Fisher footwear, the G-III Apparel Group and Mondani. (Ms. Trump's company, which is privately held, does not disclose its financials.)</p>	<p>影响定价的因素包括材料和生产成本，以及运费、关税、营销和广告费用。在海外生产产品价格便宜，这意味着伊万卡和她的鞋履、配饰及服装制造合作伙伴可以赚到更多钱，这些合作伙伴包括 Marc Fisher 鞋业、G-III 服装集团，以及 Mondani（伊万卡的公司，这是一家私人持有的企业，不披露财务数据）。</p>
<p>Almost all of her goods are made overseas, according to a New York Times review of shipments compiled separately by Panjiva and ImportGenius, two trade databases. ImportGenius tallied 193 shipments for imported goods associated with Ms. Trump for the year through</p>	<p>《纽约时报》看到的贸易数据库 Panjiva 和 ImportGenius 各自编制的货物运送信息显示，伊万卡几乎所有的产品都是在海外生产的。ImportGenius 提供的数据显示，今年截至 12 月 5 日与伊万卡有关的进口商品共有 193 批，主要是中国制造的鞋子和手袋。通过对数以百计的服装标签所做的一份评估</p>

<p>Dec. 5, mostly Chinese-made shoes and handbags. Her dresses and blouses are made in China, Indonesia and Vietnam, according to a review of hundreds of clothing tags and financial documents filed by G-III.</p>	<p>报告和 G-III 服装集团提供的财务文件显示，她的衣服和衬衫产地在中国、印度尼西亚和越南。</p>
<p>It is the harsh reality of the clothing business.</p>	<p>这就是服装业所面临的严峻现实。</p>
<p>In retail, where margins are slim, overseas manufacturers are crucial to profits. Most of the clothing Americans buy at Walmart, Macy's and Target are made abroad, including 97 percent of apparel and 98 percent of shoes, according to the American Apparel and Footwear Association.</p>	<p>零售业的利润率很低，所以在海外制造产品对公司的利润至关重要。美国服装与鞋业协会(American Apparel and Footwear Association)的数据显示，美国人在沃尔玛、梅西百货和塔吉特(Target)购买的大部分服饰——97%的服装和 98%的鞋履，都是在海外生产的。</p>
<p>It is part of a long history of American garment manufacturers chasing cheap labor. They moved to China in the 1980s, then elsewhere in Asia. Now, Chinese shoemakers are building factories in Africa, where wages are about \$40 a month, compared with \$400 in China.</p>	<p>美国服装制造商追逐廉价劳动力有着悠久的历史，他们在 20 世纪 80 年代搬到中国生产产品，然后搬到亚洲其他地方。现在，中国鞋履制造商在非洲建了工厂，那里的工资每人每月约 40 美元，而在中国为 400 美元。</p>
<p>Even then, an overseas strategy does not portend survival, as Mr. Trump's experience shows.</p>	<p>即使如此，开展海外战略也不一定就能生存下来，特朗普自己就有这样的经历。</p>
<p>At Trump Tower on Fifth Avenue, the Trump Store is downstairs from the lobby, sandwiched between a restaurant and an ice cream parlor. While a \$65 white polo golf shirt from Lesotho in southern Africa was available, there was no sign of many of Mr. Trump's other items, like the dress shirt made in Vietnam on display upstairs.</p>	<p>在第五大道的特朗普大厦，特朗普商店(Trump Store)位于大堂楼下，夹在餐厅和冰淇淋店之间。你可以买到 65 美元一件的白色高尔夫球衫，产自南部非洲国家莱索托，但是这里看不到其他太多的特朗普品牌产品，比如在楼上陈列的产自越南的正装衬衫。</p>
<p>Last year, Macy's dropped Mr. Trump's clothing line over inflammatory comments he made about Mexican immigrants. Now about the best place to find his ties, dress shirts and accessories is on Amazon.com — and even that stock is just a hodgepodge.</p>	<p>去年，梅西百货不再销售特朗普品牌的服装系列，原因是他对墨西哥移民做出了煽动性的评论。现在寻找该品牌领带、正装衬衫和配饰的最好地方是亚马逊网站——即使在那里也只是一堆大杂烩。</p>
<p>The company that made Trump-branded comforters and sheets,</p>	<p>为特朗普品牌生产床罩和床单的公司 Downlite 说，该公司去年已经结束了</p>

<p>Downlite, said it had ended its relationship with him last year. His beds, designed by Dorya, aren't in stores, either. They are made to order overseas, according to the company.</p>	<p>与他的合作。由 Dorya 设计的特朗普品牌寝具也没有存货。该公司表示，他们接到订单后会在海外进行制造。</p>
<p>Mr. Trump said in campaign interviews that he would like to make his apparel in the United States, but that it was hard to find companies that did. When George Stephanopoulos of ABC pressed him to explain, Mr. Trump said, "They don't even make the stuff here."</p>	<p>特朗普在竞选访谈中说，他也想在美国生产自己品牌的服装，但很难找到接单的公司。当 ABC 电视台的乔治·斯蒂芬诺普洛斯(George Stephanopoulos) 请他进一步解释时，特朗普说，“他们根本不在这里生产服装。”</p>
<p>That is not exactly true.</p>	<p>事实并非完全如此。</p>
<p>B J Nickol, president of the All American Clothing Company, based in Arcanum, Ohio, said he employed 15 people, as well as subcontractors in about 20 states who cut, sew and ship shirts, jeans and sweaters. He estimated it cost All American \$10 to \$15 to manufacture a polo shirt, including fabric and labor. He sells them for about \$28 to \$38, or about half of what a polo shirt costs at Trump Tower.</p>	<p>总部位于俄亥俄州阿凯纳姆的全美服装公司(All American Clothing Company)总裁 B·J·尼科尔(B J Nickol)表示，他雇佣了 15 人剪裁、缝制和运送衬衫、牛仔裤和毛线衣，还在约 20 个州有自己的分包商。据他估计，全美公司制作一件马球衫的成本为 10 到 15 美金，包括材料和人工。他给它们设定的售价为 28 至 38 美元左右，大概为特朗普大厦售卖的马球衫价格的一半。</p>
<p>While the company mostly sells shirts to individuals, Mr. Nickol said he would welcome a big-time customer like Mr. Trump. Mr. Nickol said he had witnessed the impact on his community when apparel manufacturers moved away. "And the only way we could think of to fix that was to keep jobs here," he said.</p>	<p>尽管这家公司主要是向个人销售衬衫，但尼科尔说他会欢迎特朗普这样的大客户。尼科尔表示，他亲眼见证了服装制造厂搬走对他所在社区的影响。“我们能想到的弥补那种影响唯一办法，就是保住这里的工作机会，”他说。</p>
<p>While large-scale clothing manufacturing is unlikely to return to the United States, specialty items or high-end apparel has promise. Todd Shelton, a fashion designer who makes sleek separates and sells them online, sews his clothes at a factory in East Rutherford, N.J.</p>	<p>尽管服装制造不太可能大规模重返美国，但特色产品或高端服装有可能做到。时装设计师托德·谢尔顿(Todd Shelton)就是在新泽西州东拉瑟福德的一家工厂加工自己的服装。他制作时髦的单品，在网上进行销售。</p>
<p>But there are trade-offs, namely price. A pair of women's jeans made by Todd Shelton costs \$200; an Oxford shirt is \$180.</p>	<p>但这中间也存在权衡，也就是说价格。托德·谢尔顿的女式牛仔裤要 200 美元一条，牛津布衬衫则需 180 美元一件。</p>

<p>And cost is only one factor. Fashion is another.</p>	<p>而且成本只是其中一个因素。还有一个是时尚。</p>
<p>Recently, Ms. Trump tried to make a flip-flop in the United States. She and one of her main partners, Marc Fisher, shopped a design to retailers, according to a person with knowledge of the venture. Buyers, though, didn't like the design — and it never got made.</p>	<p>最近，伊万卡试图在美国推出一款人字拖。据知情人士透露，她和主要的合伙人之一马克·费希尔(Marc Fisher)给零售商们提供了一款设计。但买家们不喜欢这个设计——它没能面世。</p>
<p>With the Ivanka Trump brand, another variable now comes into play: politics.</p>	<p>对于伊万卡-特朗普这个品牌，现在还出现了另一种变量：政治。</p>
<p>Ms. Trump served as a more polished emissary of her father's messages during the campaign, and she is under pressure to bring jobs home. And in a postelection era, her carefully crafted public persona, which is at the heart of the brand, is at risk.</p>	<p>在竞选期间，伊万卡担当着为父亲传话的更为优雅的特使角色，现在她承受着将工作机会带回美国的压力。在选举结束后的时代，她精心塑造的公众形象——也是这个品牌的核心所在——面临风险。</p>
<p>She was criticized for meeting with Prime Minister Shinzo Abe of Japan while completing a licensing deal with a company whose largest shareholder is wholly owned by the Japanese government. Consumers offended by her father's inflammatory comments about minorities continue to boycott her line.</p>	<p>她被指控在与一家公司达成一项许可权交易时，与日本首相安倍晋三(Shinzo Abe)进行会面，这家公司最大的股东是日本政府的全资子公司。被她父亲针对少数族裔的煽动性言论冒犯的消费者，持续抵制她的产品。</p>
<p>Ms. Trump acknowledged the potential appearance of conflicts as her father prepared to move into the White House. She said she would step down as the head of her namesake brand if asked to become an adviser to her father and the Trump administration.</p>	<p>伊万卡承认，在父亲准备进入白宫之时，会存在一些利益冲突。她表示，如果被要求担任父亲及特朗普政府的顾问，她会辞掉自己同名品牌掌门人的职位。</p>
<p>"I would completely separate myself from my businesses," said Ms. Trump, who is also considering a leave of absence from the Trump Organization, where she serves as an executive vice president for development and acquisitions. Representatives for Mr. Trump declined to comment.</p>	<p>"我会完全脱离自己的生意，"伊万卡说。她也在考虑暂时离开特朗普集团，她目前是该集团负责开发与收购业务的执行副总裁。特朗普的代表拒绝置评。</p>

But it will not drastically change her company's strategy. She and her team do not plan to move manufacturing back just to quell critics.	但这并不会使得其公司的战略发生巨大改变。她和她的团队不打算单单为了平息外界的批评而将生产环节搬回美国。
"It's great to say we want to do all of this, but we want to make responsible business decisions, too," said Abigail Klem, president of the Ivanka Trump brand. "From a business perspective, we have to have longevity."	"说我们想这么做当然是好事，但我们也想做出负责任的商业决策，"伊万卡·特朗普品牌的总裁阿比盖尔·克莱姆(Abigail Klem)说。"从商业角度看，我们必须基业常青。"

Indian Official Blames Women's Western Dress for Sexual Harassment	印度现大规模性骚扰事件，官员批女性着装西化

Ayatollah Ali Akbar Hashemi Rafsanjani, Ex-President of Iran, Dies at 82	伊朗前总统拉夫桑贾尼逝世，享年 82 岁
Ayatollah Ali Akbar Hashemi Rafsanjani, a former president of Iran and a founder of the Islamic Republic, who navigated the opaque shoals of his country's theocracy as one of its most enduring and wealthiest leaders, died Sunday in Tehran. <p>As his career seesawed through periods of revolutionary zeal and confrontation with powerful conservative rivals, he was portrayed as a Machiavellian and often ruthless player in the power struggles among Iran's elite factions, protected by his close association with Ayatollah Ruhollah Khomeini, the revolutionary leader who overthrew the shah in 1979.</p>	<p>他的职业生涯随着革命热情的不同时期和强大保守派对手的挑战而起伏不定。在这个过程中，他被描绘成伊朗精英派中一个在权力斗争上不择手段，而且往往冷酷无情的角色。他因为与 1979 年推翻伊朗国王的革命领袖阿亚图拉鲁霍拉·霍梅尼(Ruhollah Khomeini)关系密切，而受到保护。</p>
<p>Known as a pragmatist and centrist inclined toward economic liberalism and political authoritarianism, Rafsanjani was accused by critics of corruption in amassing his fortune and of a readiness for harsh tactics to deal with dissent.</p>	<p>拉夫桑贾尼被认为是一名实用主义者和中间派，在经济上倾向自由主义，在政治上倾向威权主义。批评人士指控他腐败，积聚大量财富，对待异见者经常采取严酷手段。</p>

In 2013, Rafsanjani was disqualified from standing in presidential elections and swung his political weight behind a moderate, longtime associate, Hassan Rouhani, who won the vote and went on to bring many of Rafsanjani's supporters into his Cabinet and to negotiate the nuclear agreement with the United States in 2015.	2013年，拉夫桑贾尼被取消了总统竞选资格，他将自己的政治影响力转移到老朋友、温和派的哈桑·鲁哈尼(Hassan Rouhani)身上，后者赢得了大选，继而将拉夫桑贾尼的许多支持者召入自己的内阁，并在2015年与美国达成了核协议。

Death of Ali Akbar Hashemi Rafsanjani Is Blow to Iran Reform Movement	伊朗前总统去世打击改革派，美伊关系遇新变局

He was one of the leaders of the 1979 Islamic revolution, and an aide to the founder of the Islamic republic, Ayatollah Ruhollah Khomeini. He also played a kingmaker role in picking Ayatollah Khamenei, Ayatollah Khomeini's successor.	拉夫桑贾尼有过一段漫长的革命生涯,但也被人怀疑在此过程中积累了巨额财富和影响力。他是1979年伊斯兰革命的领导之一,伊斯兰共和国创立者阿亚图拉·鲁霍拉·霍梅尼(Ayatollah Ruhollah Khomeini)的一名助手。他在挑选阿亚图拉霍梅尼的继任者阿亚图拉哈梅内伊的过程中扮演了拥立者的角色。

Mr. Rafsanjani was president from 1989 to 1997. For Trump's Nominees, a Billionaires' Guide to Running the	一篇写给特朗普内阁亿万富翁们的“治国指南”

Government	
<p>This is the first in an occasional column from Charles Duhigg, a best-selling author and Pulitzer Prize-winning reporter, that chronicles how daredevil bankers or even teenage gamers can lead to unexpected endings, billion-dollar paydays and sudden hikes in the price of shampoo.</p>	<p>本文为畅销书作家、普利策奖获得者查尔斯·杜希格(Charles Duhigg)开设的一个不定期专栏的首篇文章。该专栏讲述了胆大包天的银行业从业人员、甚或十几岁的游戏玩家如何会引发意想不到的结局，内容涉及数十亿美元的天降横财和洗发水价格的暴涨。</p>
<p>Pity the poor billionaires who are about to take the oath of office. For them, everything is going to change.</p>	<p>同情那些即将宣誓就职的亿万富翁吧。对可怜的他们来说，一切都会改变。</p>
<p>In winning the presidency, Donald J. Trump proposed a grand hypothesis: that the federal government can be managed like a business. "If we could run our country the way I've run my company, we would have a country that you would be so proud of," he told voters in the final presidential debate. It's a theory that has been suggested, to various degrees, by almost every president in the last century, from Calvin Coolidge to Barack Obama.</p>	<p>在赢得总统选举的过程中，唐纳德·J·特朗普提出了一个宏大的假设：可以像管理企业一样管理联邦政府。“如果我们能像我管理公司那样管理我们的国家，就会拥有一个你们深感自豪的国家，”他在最后一场总统辩论中对选民说。在过去一个世纪里，几乎每一位总统，从卡尔文·柯立芝(Calvin Coolidge)到贝拉克·奥巴马(Barack Obama)，都不同程度地提出过这个理论。</p>
<p>What's different this time is the vigorousness of the experiment. With his inauguration on Friday, and a cabinet that is likely to include three billionaires, five former chief executives and some of the business world's most accomplished leaders, Mr. Trump is poised to test, perhaps once and for all, if good governance and crafty deal making are really similar skills.</p>	<p>这一次的不同之处在于这个实验的力度。特朗普的就职仪式已于周五举行，他领导的内阁可能包括三名亿万富翁、五名前首席执行官和商界成就最高的一些领袖。他准备进行检验，以确定优秀的治国才能和精明的交易技巧是否类似。这或许将一举就这个问题给出最终答案。</p>
<p>But, as anyone who has spent time in a laboratory can attest, experiments are messy. Separating the signals from the noise takes diligence. And in this case, so much will depend on the savviness of those woeful billionaires who had it so good, and now will be guinea</p>	<p>但在实验室待过的所有人都可以证明，做实验是个麻烦事，需要努力区分信号和噪声。而在这件事情上，很多方面都将取决于那些可怜的亿万富翁的机智。他们曾经活得安逸舒适，现在却要当成小白鼠，扔进一座打败了之前很多实验对象的迷宫。</p>

<p>pigs thrust into a maze that has overwhelmed so many test subjects before them.</p>	
<p>"Running an agency is very, very different from running a company," said Carlos M. Gutierrez, who was commerce secretary under George W. Bush after serving as chief executive of Kellogg's. "Some of the skills do transfer, but you have to be careful figuring out which ones. In government, you can't fire anyone. Your board of directors is 535 people in Congress, and half of them want to see you fail."</p>	<p>"管理一个机构和管理一家公司有着非常非常大的不同,"卡洛斯·M·古铁雷斯(Carlos M. Gutierrez)说,他在结束家乐氏(Kellogg's)首席执行官任期后,于乔治·W·布什(George W. Bush)任内担任商务部长。"一些技巧的确是相通的,但你得小心谨慎地找出是哪些。在政府里,你不能开除任何人。你的董事会就是国会里的那535个人,他们中有一半想看到你失败。"</p>
<p>One of the first challenges will be figuring out what "business leadership" means when so many of capitalism's tools — firing misbehaving employees; giving raises to those who overperform — aren't allowed by federal rules. "C.E.O.s who come in saying, 'I'm going to show everyone how it's done,' are the ones most likely to fail," Mr. Gutierrez said.</p>	<p>首要的挑战之一,就是在联邦条例不允许使用资本主义的很多工具,如开除行为不端的员工和奖励表现卓越的员工时,弄清楚"商业领导力"的含义。"走进来说'我让你们看看该怎么做'的首席执行官,极有可能失败,"古铁雷斯说。</p>
<p>One problem has always been that while the business world rewards leaders for an intense focus on a singular goal — maximizing profits as efficiently as possible — government yearns for the opposite: pleasing the largest number of people with methods that offend the fewest. And while competition is usually a good thing within business, inside government, it's often more corrosive, as the partisanship of the past decade demonstrates.</p>	<p>一直以来的一个问题是,商界会因为商业领袖高度关注一个单一的目标——尽可能高效地实现利润最大化——而奖赏他们,但政府追求的却恰恰相反:用触怒最少的人的方式取悦最多的人。并且,尽管在商界竞争通常是好事,但在政府内部,就像过去十年里的党派纷争所表明的那样,竞争通常更具腐蚀性。</p>
<p>"You succeed in Washington by collaborating," said Henry M. Paulson Jr., who was widely lauded as Treasury secretary for Mr. Bush and, before that, as chief executive of Goldman Sachs.</p>	<p>"在华盛顿要靠合作才能取得成功,"在担任布什政府财政部长期间广受称赞的小亨利·M·保尔森(Henry M. Paulson Jr.)说。在那之前,他是高盛(Goldman Sachs)的首席执行官。</p>
<p>Businesspeople tend to see competition as a means to find the best</p>	<p>商人往往认为竞争是找到最佳解决办法的途径,是一种挑选手段,能够推行</p>

<p>solutions, a sorting device that pushes the smartest ideas ahead. But many of the trickiest government issues, like immigration or tax reform, involve dozens of agencies, as well as lawmakers and lobbyists, who must be persuaded to cooperate. Intelligence in government is almost always a humble, group activity.</p>	<p>最聪明的想法。但很多最棘手的政府问题，如移民或税收改革，涉及数十个机构，以及众多议员和说客。必须说服他们同意合作才行。在政府里，聪明的工作形式几乎永远都是一种谦逊的集体活动。</p>
<p>"You can't just think about your own agency, or your own goals," Mr. Paulson said. "You have to please both sides of the aisle, while making sure you're not outshining other officials, and persuading employees who don't have to obey your orders. And you have to adjust to having a boss, the president, instead of being the boss. It takes a lot of humility."</p>	<p>"不能只考虑你自己的机构或你自己的目标，"保尔森说。"你得让对立的双方都满意，同时确保自己没有把其他官员比下去，并要说服不一定要服从你的命令的员工。你还得适应上面有老板，即总统，而不是自己当老板这一点。这需要十分谦逊。"</p>
<p>Some of Mr. Trump's picks might have an easier time making the transition than others. Rex W. Tillerson, the former chief executive of Exxon Mobil and the choice for secretary of state, is among the nominees who have spent their careers involved in the day-to-day operations of complicated firms that span continents.</p>	<p>特朗普挑选的人中，一些人的身份转换可能会比其他人更容易。包括前埃克森美孚(Exxon Mobil)首席执行官、国务卿人选雷克斯·W·蒂勒森(Rex W. Tillerson)在内的相关提名人选的职业生涯，就涉及跨越多个大陆的复杂公司的日常运营。</p>
<p>"Tillerson has basically been a politician for the last 20 years; he's just been doing it for the nation of Exxon," said Paul H. O'Neill, who became Treasury secretary during Mr. Bush's first term after leading the aluminum company Alcoa. "He's negotiated with foreign governments, he's had more than 80,000 employees. You don't run a company that size by telling people what to do. You learn how to persuade them to follow your vision, to accommodate all kinds of different agendas and personalities."</p>	<p>"过去20年，蒂勒森本质上是一个政客，他的服务对象是埃克森这个国家，"在布什的第一届任期内担任财政部长的保罗·H·奥尼尔(Paul H. O'Neill)说。在那之前，他是美国铝业(Alcoa)的掌舵人。"他和外国政府谈判，有八万多名员工。管理那种规模的公司靠的不是命令人们做什么。你要学会如何说服他们去追随你的愿景，去适应各种不同的算计和个性。"</p>
<p>Other cabinet secretaries have spent their careers mostly as investors, not as direct managers. Hedge fund and private equity professionals</p>	<p>其他内阁部长从前的职业主要是投资人，而不是直接的管理者。对冲基金和私募股权基金行家，如可能会成为下一任财长的史蒂文·努钦(Steven</p>

<p>like Steven T. Mnuchin, likely to be the next Treasury secretary; Betsy DeVos, who has been tapped as education secretary; and Wilbur L. Ross, the expected commerce secretary, have largely devoted their lives to buying and selling companies. And so there are questions about how well they will make the shift to jobs that demand a day-to-day focus on the smallest details of governance.</p>	<p>Mnuchin)、被提名为教育部长的贝茜·德沃斯(Betsy DeVos)和预计会担任商务部长的威尔伯·L·罗斯(Wilbur L. Ross), 主要是专注于买进和卖出公司。因此, 有人怀疑他们对要求把每天的重点放在微不足道的治理细节上的工作的适应情况。</p>
<p>Mr. Ross, whose confirmation hearing was held on Wednesday, presents a fascinating test subject. As an acquirer of steel mills, coal mines and other heavy industries, he has amassed a personal fortune worth billions. "Over the years, I've had businesses that actually operated in some 23 countries," Mr. Ross said at the hearing. "We have been on the ground in all of the major trading partners of this country."</p>	<p>在周三的提名确认听证会上, 罗斯成了一个有趣的实验对象。收购过钢厂、煤矿和其他重工业企业的他积累了价值数十亿的个人财富。“这么多年来, 我的企业在大约 23 个国家开展业务, ”罗斯在听证会上说。“我们的足迹遍布这个国家所有主要的贸易伙伴。”</p>
<p>Usually, when Mr. Ross buys a new company, he follows a pretty successful script: He shows up, says a few words and then hands operations to professional managers who know how to run things — and who know he will fire them if they fail.</p>	<p>通常, 当罗斯收购一家新公司时, 他会遵循一个非常成功的流程: 他出面说几句话, 然后就把业务交给职业经理人。他们知道怎么经营, 也知道如果失败自己就会被罗斯炒鱿鱼。</p>
<p>However, when Mr. Ross takes the oath of office, that script will change. He will be whisked off to the executive wing of the Commerce Department and walked past long rows of barren offices. (The furniture of political appointees is removed during each presidential transition, and — spoiler alert — it often takes weeks for new desks and bookcases to arrive.) If he can find enough chairs, he might call a meeting of the few employees milling around (his deputies and key department heads need senatorial approval, which might take a few months). He will be handed dozens of binders explaining how his department does</p>	<p>然而, 罗斯宣誓就职后, 流程会有所变化。他会被匆匆带到商务部的行政楼, 走过长长的一排又一排空旷的办公室。(每次总统权力交接期间, 政治任命官员的家具都会被搬走, 并且剧透一下, 新的桌子和书架通常要数周后才能送达。)如果能找到足够的椅子, 他也许会把为数不多的走来走去的工作人员叫到一起开个会(他的副手和主要部门负责人需要得到参议院的批准, 这可能几个月的时间)。他会拿到几十个活页夹, 它们解释了他领导的这个部门的所有任务, 从监测气象卫星到管理专利。还会有人告诫他努力钻研。(国会喜欢羞辱没做必要的准备工作的内阁成员。去解释说你很善于分派工作, 可不会在国会山引来赞誉。)</p>

<p>everything from monitor weather satellites to administer patents, and admonished to study up. (Congress loves humiliating cabinet members who haven't done their homework, and explaining that you are an excellent delegator, alas, fails to impress on Capitol Hill.)</p>	
<p>If Mr. Ross hopes to fly to one of the department's satellite offices, he will have to decide if he wants to complete the reams of paperwork needed to use his own jet, or go coach, as secretaries in previous administrations were encouraged. "Perception matters a lot in Washington," said Karen G. Mills, who always flew in the cheap seats as administrator of the Small Business Administration after a career in finance left her with more than \$40 million. "I did, however, try to avoid the middle seat."</p>	<p>如果罗斯想飞去商务部的某个卫星办公室，他将不得不决定是填写使用自己的飞机所需的大量文件，还是像之前的政府部长被鼓励的那样，坐经济舱。“在华盛顿，印象很重要，”担任小企业管理局(Small Business Administration)局长期间总是购买廉价机票的卡伦·米尔斯(Karen Mills)说。在那之前，金融领域的职业经历为她带来了超过4000万美元（约合2.7亿元人民币）的财富。“不过，我的确会努力避免中间的座位。”</p>
<p>If Mr. Ross is lucky, by the end of his first day, someone will have shown him where the bathrooms are. There's a risk, however, that the agency's permanent staff's "No. 1 goal will be to find ways to sabotage each new cabinet secretary as soon as they walk through the door," said Newt Gingrich, a former House speaker who was a campaign adviser to Mr. Trump. "All those bureaucrats overwhelmingly voted for Clinton. There won't be any real cooperation until we change federal law so we can fire them."</p>	<p>如果罗斯运气好，到第一天结束的时候，有人已经告诉他洗手间在哪了。然而，有一个风险是，商务部固定工作人员的“头号目标是每一位新任内阁部长一进门，就想办法故意和他们作对”，曾任特朗普竞选顾问的前众议院议长纽特·金里奇(Newt Gingrich)说。“所有那些官员中投票支持克林顿的占多数。不会有任何真正的合作，除非修改联邦法律，以便我们能解雇他们。”</p>
<p>Worst of all, though, is that at the end of his tenure, no matter how hard Mr. Ross works or how much he sacrifices, a large part of his success — as well as that of the other secretaries and this experiment as a whole — will be outside his control. Ultimately, the most important variable in testing this hypothesis will be Mr. Trump himself. What kind of</p>	<p>但最糟糕的是，在任期结束时，不管他工作得多么努力，做出了多少牺牲，他以及其他部长和整个实验的成功在很大程度上不在他的控制范围内。最终，验证这个假设时最重要的变量将是特朗普自己。他将采取哪种管理风格？他会事必躬亲还是让手下独当一面？当了总统后他会改变吗，还是只是换个地方接着当总首席执行官？</p>

<p>management style will he adopt? Will he be an operator or a delegator? Will he change as president, or simply relocate and remain C.E.O. in chief?</p>	
<p>How a president behaves filters into the cabinet, and senior officials, no matter how talented or powerful they once were, become an appendage of their new boss — a hard demotion for any former master of the universe. If Mr. Trump can't manage the presidency, then no one working for him is likely to succeed. And vice versa.</p>	<p>总统的表现会慢慢影响到内阁，高级官员不管曾经多么才华横溢，多么权大势大，都会成为新老板的附属品。对任何一个曾是“宇宙主宰”的人来说，这都是一种难以接受的降职。如果特朗普当不好总统，那么为他工作的人也不太可能取得成功。反之亦然。</p>
<p>So as this experiment unfolds before a captivated nation, pity Mr. Ross and all the poor billionaires. They are sacrificing themselves so that all of us might learn. And, in case they are wondering: The bathrooms are down the hall and around the corner. You're responsible for replacing the toilet paper if you've used the last of the roll.</p>	<p>因此，当这场实验在聚精会神地观看的全国民众面前展开时，我真同情罗斯和所有那些可怜的亿万富翁。他们是在牺牲自己，这样我们所有人也许才能得到答案。对了，如果有人想知道的话：洗手间在大厅里的拐角处。如果用完了最后一卷手纸，你得负责换上新的。</p>

<p>Trump Was Told Weeks Ago That Michael Flynn Withheld Truth on</p>	<p>白宫称特朗普数周前已知悉弗林事件</p>

Russia	
WASHINGTON — President Trump was informed more than two weeks ago that his national security adviser, Michael T. Flynn, had not told the truth about his interactions with Russia’s ambassador, and the president eventually asked for Mr. Flynn’s resignation after concluding he could not be trusted, a White House official said on Tuesday.	华盛顿——一位白宫官员周二表示，特朗普总统在两周多前就得知他的国家安全顾问迈克尔·T·弗林(Michael T. Flynn)没有讲述他与俄罗斯驻美大使交流的实情，在得出弗林无法被信任的结论后，总统最终要求他辞职。
Sean Spicer, the White House press secretary, said the president’s team had been “reviewing and evaluating this issue with respect to General Flynn on a daily basis for a few weeks trying to ascertain the truth.” While Mr. Trump and his advisers ultimately concluded that there was no violation of law, the president decided Mr. Flynn could no longer serve in his position.	白宫新闻秘书肖恩·斯派塞(Sean Spicer)表示，总统的团队“每天评估有关弗林中将的问题已经有数周时间，竭力查明真相”。尽管特朗普及其顾问最终得出结论，认为其中没有违法行为，但总统还是决定不再让弗林担任该职位。
“The evolving and eroding level of trust as a result of this situation and a series of other questionable instances is what led the president to ask for General Flynn’s resignation,” Mr. Spicer said at his daily briefing. He did not elaborate on the “other questionable instances.”	“这种情况和一系列其他可疑问题导致的信任度变化降低，这是总统要求弗林中将辞职的原因，”斯派塞在发布每日简报时说。他没有详细说明“其他可疑问题”指什么。
As leaders of both parties indicated that Congress would investigate, Mr. Spicer’s comments were the first public confirmation by the White House that Mr. Trump was aware of the allegations against Mr. Flynn before they were reported last week. They also contradicted the previous description of the national security adviser’s abrupt departure on Monday night, attributing the decision to Mr. Trump rather than Mr. Flynn.	在两党领导人表示国会将进行调查时，斯派塞的言论意味着白宫第一次公开证实总统在上周弗林被指控的消息出来之前便得知了此事。这些言论传递出的信息也与此前有关这位国家安全顾问在周一晚突然辞职的描述相反，即将该决定归于特朗普，而非弗林本人。
The issue traced back to a telephone call between Mr. Flynn, then Mr. Trump’s designated national security adviser, and Sergey I. Kislyak, the	这个问题要追溯至被特朗普提名为国家安全顾问的弗林和俄罗斯驻美大使谢尔盖·I·基斯利亚克(Sergey I. Kislyak)在去年12月进行的一次通话。弗林后

Mr. Flynn later told Mike Pence, then the vice president-elect, and others on the incoming White House team that the conversation did not include any discussion of sanctions being imposed on Russia by the departing president, Barack Obama, over interference in American elections.</p>	<p>来告诉当时的候任副总统迈克·彭斯(Mike Pence)及其他即将进入白宫团队的人，这次谈话没有涉及即将离任的总统巴拉克·奥巴马(Barack Obama)就俄国干涉美国大选问题对其实施制裁的问题。</p>
<p>Mr. Pence and Mr. Spicer passed along this account to the public. But the telephone conversation was intercepted by the American intelligence apparatus that typically monitors Russian diplomats, and a transcript reviewed by the Justice Department showed that sanctions did, in fact, come up.</p>	<p>彭斯和斯派塞将这种说法传达给了公众。但这次通话被一直监视俄罗斯外交官美国情报机构拦截，一份经过司法部审核的文字版显示，谈话中提到了制裁问题。</p>
<p>In his resignation letter, Mr. Flynn did not acknowledge intentionally lying but said, "I inadvertently briefed the vice president-elect and others with incomplete information about my phone calls with the Russian ambassador."</p>	<p>在辞职信中，弗林不承认自己是有意撒谎，而是表示，“在向副总统和其他人通报与俄罗斯大使的通话时，我无意间遗漏了一些信息。”</p>
<p>But in an interview on Monday just hours earlier with The Daily Caller, a conservative news site, Mr. Flynn had defiantly insisted that he "crossed no lines" and expressed outrage at leaks about his call. He said he had the backing of Mr. Trump, who "expressed confidence" in him and told him to "go out and talk more" to defend himself.</p>	<p>但就在周一辞职几小时前接受保守派新闻网站“每日通话”(The Daily Caller)采访时，弗林还挑衅地坚称自己“没有越界”，并对他的通话信息遭泄露表示愤慨。他说他得到了特朗普的支持，称后者表示对他“有信心”，并让他“出去进一步”为自己辩护。</p>
<p>By Mr. Spicer's account, Sally Q. Yates, an Obama administration holdover serving as the acting attorney general, contacted Donald F. McGahn II, the new White House counsel, on Jan. 26 to give him "a heads up" about the discrepancy. Other officials have said that Ms. Yates warned the White House that Mr. Flynn had exposed himself to potential blackmail by Russia, since Moscow knew what had been said</p>	<p>依据斯派塞的描述，从奥巴马政府留任、当时担任代理司法部长的莎莉·Q·耶茨(Sally Q. <p>Mr. Trump was told “immediately,” Mr. Spicer said, and directed Mr. McGahn to look into the matter. After an “extensive review” that lasted several days, Mr. McGahn concluded that nothing in the conversation violated federal law, Mr. Spicer said.</p>	<p>斯派塞表示，特朗普“立刻”得知了消息，随即指示麦克加恩查明此事。他还提到，经过几天的“深入评估”，麦克加恩得出结论，认为这次谈话中没有什么内容违反联邦法律。</p>
<p>But the president was then left to determine whether he could still trust Mr. Flynn, a retired Army lieutenant general and former head of the Defense Intelligence Agency. Mr. Spicer said Mr. Flynn stuck to his original account, making matters worse. “In a series of questioning that was rather exhaustive over a long period of time, he continued to maintain that had not occurred,” Mr. Spicer said.</p>	<p>但接着总统便需要决定他是否还能信任退休陆军中将、前国防情报局 (Defense Intelligence Agency) 局长弗林。斯派塞表示，弗林坚持自己最初的说法，这让情况变得更糟。“在持续很长时间的一系列十分详尽的质疑中，他持续坚称情况不是那样，”斯派塞说。</p>
<p>“We got to a point not based on a legal issue, but based on a trust issue, with the level of trust between the president and General Flynn had eroded to the point where he felt he had to make a change,” Mr. Spicer said. “The president was very concerned that General Flynn had misled the vice president and others.”</p>	<p>“我们到了一个基于信任问题而非法律问题做决定的位置上，因为总统和弗林中将之间的信任已经减少到他觉得必须做出改变的地步，”斯派塞说。“总统非常担心弗林中将误导了副总统和其他人。”</p>
<p>Asked if Mr. Trump had instructed Mr. Flynn to talk about sanctions with Mr. Kislyak, Mr. Spicer said, “No, absolutely not.” Asked if Mr. Trump knew that the issue had come up before the Justice Department told the White House, Mr. Spicer said, “No, he was not aware.”</p>	<p>在被问到是否是特朗普指示弗林与基斯利亚克谈论制裁问题时，斯派塞表示，“不，绝对不是。”在又被问到特朗普是否是在司法部告知白宫之前就知道出现了问题时，斯派塞则表示，“不，他不知情。”</p>
<p>Mr. Spicer emphasized that there was “nothing wrong” with Mr. Flynn talking with representatives of other countries during the transition to prepare for the new president taking office, and in fact Mr. Trump wanted him to.</p>	<p>斯派塞强调，弗林在为新总统就职做准备的过渡期间与其他国家的代表交谈“没什么错”，实际上特朗普希望他这么做。</p>

<p>Democrats in Congress rushed to demand an investigation, arguing that Mr. Flynn's departure did not resolve the matter. "Right now, there are way more questions than answers on President Trump's relationship with Russia," said Senator Christopher S. Murphy, Democrat of Connecticut.</p>	<p>国会中的民主党人急着要求进行调查，称弗林离职不意味着问题就得到了解决。“目前，有关特朗普总统与俄罗斯的关系，我们面临的问题比答案要多得多，”康涅狄格州民主党参议员克里斯托弗·S·墨菲(Christopher S. Murphy)说。</p>
<p>Representative Adam Smith of Washington, the ranking Democrat on the House Armed Services Committee, said the episode raised "grave questions about who in the White House knew about Flynn's vulnerability to blackmail and exploitation by the Russian government, and when they knew about it."</p>	<p>在参议院军事委员会(House Armed Services Committee)里地位较高的民主党人、华盛顿州众议员亚当·史密斯(Adam Smith)表示，这起事件提出了“一些严重的问题，即白宫内有谁知道弗林有这样的把柄，容易遭到俄罗斯政府敲诈和利用，以及是何时知道的。”</p>
<p>"If anyone in the White House knew about Flynn's vulnerability and chose not to act, they exercised inexcusably poor judgment that put the security of our country at enormous risk," he added.</p>	<p>“如果白宫里有任何人知道弗林的这个问题却选择不采取任何行动，他们便做出了糟到不可饶恕的判断，而这会将我们国家的安全置于巨大的风险中，”他接着讲道。</p>
<p>Republicans were less eager to talk about the issue. Representative Adam Kinzinger of Illinois, one of the few to comment publicly, said the cover-up was worse than the crime. "It was a bad decision to call Russia and talk about this in the middle of, you know, the past administration determining what sanctions are going to look like," he said on Fox News. "But what happened, the big problem is when he lied to the vice president."</p>	<p>共和党人相对不那么热心谈论这个议题。伊利诺伊州共和党众议员亚当·金青格(Adam Kinzinger)是为数不多的就此发表公开评论的共和党人，他表示掩饰犯罪比犯罪本身更糟。“在上届政府正在决定进行什么样制裁的过程中给俄罗斯打电话谈论这个问题，本身就是个糟糕的决定，”他在接受福克斯频道采访时说。“但不管发生了什么，最大的问题在于他对副总统撒了谎。”</p>

India's Air Pollution Rivals China's as World's Deadliest	印度空气污染赶超中国，每年 110 万人死亡
NEW DELHI — India's rapidly worsening air pollution is causing about 1.1 million people to die prematurely each year and is now surpassing China's as the deadliest in the world, a new study of global air pollution shows.	新德里——一项新的全球空气污染研究显示，印度的空气污染正在迅速恶化，每年导致约 110 万人提早死亡，印度现在正在超越中国，成为世界上最致命的空气污染大国。
The number of premature deaths in China caused by dangerous air particles, known as PM2.5, has stabilized globally in recent years but has risen sharply in India, according to the report, issued jointly on Tuesday by the Health Effects Institute, a Boston research institute focused on the health impacts of air pollution, and the Institute of Health Metrics and Evaluation, a population health research center in Seattle.	周二发布的这份报告显示，近年来，危险空气颗粒 PM2.5 在中国引起的过早死亡人数整体上已经稳定下来，但在印度却出现了急剧上升。该报告是波士顿的空气污染健康影响研究机构——健康效应研究所(Health Effects Institute)和西雅图的人口健康研究中心——卫生统计评估研究所(Institute for Health Metrics and Evaluation)发布的。
India has registered an alarming increase of nearly 50 percent in premature deaths from particulate matter between 1990 and 2015, the report says.	报告称，从 1990 年至 2015 年间，颗粒物在印度导致的过早死亡人数增加了近 50%。
"You can almost think of this as the perfect storm for India," said Michael Brauer, a professor of environment and health relationships at the University of British Columbia and an author of the study, in a telephone interview. He cited the confluence of rapid industrialization, population growth and an aging populace in India that is more susceptible to air pollution.	"你几乎可以认为这对印度来说可谓祸不单行，"该研究的作者、不列颠哥伦比亚大学环境与健康关系教授迈克尔·布劳尔(Michael Brauer)在接受电话采访时说道。他表示，印度的快速工业化、人口增长和人口老龄化结合在一起，使其更容易受到空气污染的影响。
Pollution levels are worsening in India as it tries to industrialize, but "the idea that policy making should be led by government is lacking," Bhargav Krishna, manager for environmental health at the Public Health Foundation of India, a health policy research center in New Delhi, said in an interview.	在新德里的健康政策研究中心印度公共健康基金会(Public Health Foundation)的环境卫生负责人巴葛夫·克里希纳(Bhargav Krishna)在接受采访时说，随着印度工业化进程的推进，该国的污染程度也在日益加剧，但"缺乏政策制定应该由政府主导的观念"。

<p>As air pollution worsened in parts of the world, including South Asia, it improved in the United States and Europe, the report said, crediting policies to curb emissions, among other things. The report's website that provides country-by-country data on pollution levels and the health and mortality effects.</p>	<p>该报告说，在南亚等地方的空气污染出现恶化的同时，美国和欧洲的空气污染状况得到了改善，这要归功于减排政策的制定。该报告的网站上有各国污染水平及其对健康和死亡率影响的数据。</p>
<p>Environmental regulations in the United States and actions by the European Commission have led to substantial progress in reducing fine particulate pollution since 1990, the report said. The United States has experienced a reduction of about 27 percent in the average annual exposure to fine particulate matter, with smaller declines in Europe. Yet, some 88,000 Americans and 258,000 Europeans still face increased risks of premature death because of particulate levels today, the report said.</p>	<p>报告说，自 1990 年以来，美国的环境法规和欧盟委员会的行动在减少细颗粒物污染方面取得了重大进展。美国人平均每年接触的细微颗粒物减少了约 27%，欧洲的减少幅度较小。然而，报告称，如今仍然有大约 8.8 万名美国人和 25.8 万欧洲人面临着由于目前的颗粒物水平导致过早死亡的风险。</p>
<p>A fraction of the width of a human hair, these particles can be released from vehicles, particularly those with diesel engines, and by industry, as well as from natural sources like dust. They enter the bloodstream through the lungs, worsening cardiac disease and increasing the risk of stroke and heart failure, in addition to causing severe respiratory problems, like asthma and pneumonia.</p>	<p>这些颗粒物的直径远不及人类的头发丝，其来源包括工业排放和车辆排放，特别是柴油发动机，也有灰尘这样的天然来源。它们通过肺进入血液循环，导致心脏病恶化，并增加中风和心力衰竭的风险，还会引起严重的呼吸问题，比如哮喘和肺炎。</p>
<p>The report offers good news globally, in some ways.</p>	<p>从某些方面看，该报告也给全世界带来了好消息。</p>
<p>Although deaths caused by air pollution grew to 4.2 million in 2015 from 3.5 million in 1990, the rate of increase of about 20 percent was slower than the rate of the population rise during that time. That's because of improved health care in many parts of the world, as well as public policy initiatives undertaken in the United States, Europe and</p>	<p>尽管空气污染致死人数从 1990 年的 350 万上升到了 2015 年的 420 万，但其 20% 左右的增速要低于同期的人口增速。报告作者接受电话采访时表示，这是因为世界上许多地方的医疗状况得到了改善，而且美国、欧洲等地都实施了推动工业减排的公共政策举措。</p>

<p>other regions that reduced emissions from industrialization, the authors of the study said in telephone interviews.</p>	
<p>China also offers an encouraging sign. Premature deaths from particulate matter each year have stabilized at around 1.1 million since 2005, the report said. Still, that is an increase of 17 percent since 1990, when it was a little more than 945,000.</p>	<p>中国也呈现出令人振奋的迹象。报告称，自从 2005 年以来，每年由颗粒物导致过早死亡的案例一直稳定在 110 万例左右。不过，这一数字较之 1990 年的 94.5 万例增长了 17%。</p>
<p>The health effects of the ultrafine particles are still being studied and the full effects are only beginning to be understood, said Majid Ezzati, a global environmental health professor at the Imperial College, London.</p>	<p>伦敦帝国学院(Imperial College)全球环境卫生教授马基德·伊扎提(Majid Ezzati)说，超细颗粒对健康的影响尚在研究之中，研究人员刚刚开始对其全面影响有所了解。</p>
<p>"These studies are hard to do, and isolating the effects of air pollution is hard," Dr. Ezzati said. "The numbers are still dynamic and nobody should claim an exact number of deaths is known."</p>	<p>"很难进行这些研究，很难把空气污染的影响单拎出来，"伊扎提说。"数字仍在变化，谁也不能宣称知道确切的死亡人数。"</p>
<p>But if he were an Indian citizen, he said, "I'd say, 'Let's not sit there and do nothing about it. Let's not be exposed to it today as more research is being done.'"</p>	<p>但他表示，如果他是一名印度公民，"我会说，我们不能干坐着，得就此做点什么。在进一步的研究尚在进行的同时，我们还是别暴露在污染的空气中。"</p>
<p>Although few studies of the health problems brought by air pollution are based in India, Dr. Ezzati said, "it's hard to imagine air pollution that is bad for people in London is not bad for people in India."</p>	<p>针对空气污染引发的健康问题的研究，绝大多数不在印度进行，但伊扎提说，"很难想象对伦敦人有害的空气污染，对印度人就无害了。"</p>
<p>Neither India's environment minister nor its environment secretary could be reached for comment Monday evening.</p>	<p>周一晚间，记者未能联系上印度的环境部长和环境部秘书并请其置评。</p>

Weak environmental regulation in India, he said, leaves India's citizens with few alternatives other than to petition the courts to take action to protect the public's health.	他说，印度的环境监管颇为薄弱，使得印度公民除了提请法院采取行动保护公众健康以外几乎没有别的选择。
But the courts often lack the power or mechanisms to enforce their actions, he said. India's environmental court, the National Green Tribunal, ordered farmers to stop burning their crops in the region around New Delhi in 2015, but the practice still continued last year. Smoke from the farm fires contributed about one quarter of the levels of the most dangerous air pollution in the Indian capital, environmental experts said.	但他表示，法院常常缺乏执行力量或机制。印度的环保法庭——国家绿色法庭(National Green Tribunal)于2015年勒令农民停止在新德里周遭燃烧秸秆，但这种做法去年仍未禁绝。环保专家称，农场燃烧秸秆时生成的烟雾为印度首都最严重的空气污染贡献了四分之一的污染物。
"If you can't enforce the directives of the courts — it becomes a problem," Mr. Sankaranarayanan said. "We need practical solutions to save lives here in India."	"如果无法执行法院的命令——这就成问题了，"桑卡拉纳拉亚南说。"为了挽救印度人的生命，我们需要实用的解决方案。"

With Michael Flynn Gone, Russia Sees a Different Trump	俄罗斯对特朗普从欢迎到警惕
MOSCOW — The champagne toasts that some Russian officials quaffed just a few short months ago to celebrate the victory of Donald J. Trump have gone a bit flat.	莫斯科——就在数月前，一些俄罗斯官员畅饮香槟，庆祝唐纳德·J·特朗普在总统竞选中获胜，而现在，那种甜美滋味已然是昨日云烟。
Euphoria was already starting to cede to caution before Michael T. Flynn, President Trump's national security adviser and a perceived	在特朗普总统的国家安全顾问、被认为是俄罗斯朋友的迈克尔·T·弗林(Michael T. Flynn)辞职之前，狂喜已经开始慢慢被警惕所取代。弗林的辞职

<p>Now, many prominent political figures are wondering whether hopes for change were premature, and whether Moscow will inevitably remain Washington's main boogeyman. On Tuesday, the Pentagon was confrontational, accusing Moscow of secretly deploying a cruise missile system that violates a 1987 treaty on intermediate-range missiles based on land.</p>	<p>现在，很多重要政治人物在思考，改变的希望是否仍不成熟，莫斯科是否仍将必然是华盛顿的主要打击对象。周二，五角大楼提出抗议，指责莫斯科秘密部署巡航导弹，违反1987年签署的陆基中程导弹条约。</p>
<p>Vladimir R. Soloviev, the host of a noisy Sunday night talk show on state-run television viewed as reflecting Kremlin policy, this week issued one of the most negative public assessments yet of Mr. Trump. "Don't be charmed by Trump," he said in a message he addressed to all politicians and experts. "Don't think that Trump is a pro-Russian politician. Don't hope that Trump, in the interests of Russia, will in any way go against the basic, rooted interests of America."</p>	<p>弗拉基米尔·R·索洛维约夫(Vladimir R. <p>How things have changed since November, when the Russian Parliament greeted Mr. Trump's election with a round of applause and a prominent political leader — albeit one famous for his antics — toasted the victory with champagne on national television. In January, Mr. Trump garnered more mentions than President Vladimir V. Putin in the Russian news media, knocking the Russian leader from the top spot for the first time since 2011.</p>	<p>11月份以来，事情已经发生了很大变化，当时俄罗斯国会热烈鼓掌欢迎特朗普当选，一名著名政治领袖——虽然他以滑稽反常的举动闻名——在面向全国的电视节目上举起香槟庆祝特朗普获胜。1月份，俄罗斯新闻媒体提及特朗普的次数比说起弗拉基米尔·V·普京总统(Vladimir V. Putin)的时候还多，这是自2011年以来这位俄罗斯领袖首次屈居第二。</p>

<p>Only one man, Mr. Putin, really sets Russia's foreign policy course, however. And he was never publicly celebratory, although his animosity toward Hillary Clinton, whom he blamed for the angry demonstrations that greeted his return to the presidency in 2012, was well known.</p>	<p>不过，俄罗斯的外交政策路线其实只由一个人确定，那就是普京。他从未公开庆祝特朗普当选，虽然他对希拉里·克林顿(Hillary Clinton)的敌意广为人知。他将2012年他再次当选总统时出现的愤怒示威活动归咎于希拉里。</p>
<p>In recent years, Mr. Putin's main foreign policy goal has been to resurrect the time when the United States and the Soviet Union, as the two great nuclear superpowers, were the main arbitrators of the global order. Lacking the might of the Soviet Union, Mr. Putin has tried to punch above his weight by shocking the world with unexpected tactics like seizing Crimea, destabilizing Ukraine and deploying his military in Syria to shore up President Bashar al-Assad.</p>	<p>近些年，普京的主要外交政策目标是重现美苏作为两个核武器超级大国担任全球秩序主要仲裁者的时代。由于俄罗斯缺乏苏联的强大实力，普京做出了一些超出自己能力的尝试，以出人意料的策略震惊世界，比如占领克里米亚；搅乱乌克兰政局；在叙利亚部署军队支持巴沙尔·阿萨德总统(President Bashar al-Assad)。</p>
<p>President Barack Obama responded by referring to Russia as a declining regional power. The two men had a poisonous personal relationship.</p>	<p>贝拉克·奥巴马总统对此的回应是，俄罗斯是一个正在衰落的地区大国。两人的私人关系非常糟糕。</p>
<p>Mr. Trump seemed to presage a different era with all the praise he heaped on Russia and Mr. Putin. <p>Some voices in Moscow cautioned that Mrs. Clinton, as a calmer hand on the tiller, would be the kind of predictable leader that the Kremlin preferred, albeit a hostile one. <p>There has been a certain amount of policy whiplash on issues important to Russia. First, Mr. Trump said that NATO was obsolete, then that it had America's solid backing. He seemed to indicate he would lift economic sanctions imposed over the Ukraine crisis, and appointed as secretary of state Rex W. Tillerson, who as head of Exxon Mobil cut enormous oil deals with Russia and spoke out publicly against sanctions.</p>	<p>在对俄罗斯意义重大的一些问题上出现了左右摇摆的状况。最初，特朗普曾说北约过时了，后来又说他拥有美国的坚定支持。他一度似乎表明将取消针对乌克兰危机的经济制裁，并任命雷克斯·W·蒂勒森(Rex W. Tillerson)为国务卿。蒂勒森担任埃克森美孚石油公司(Exxon Mobil)总裁时曾与俄罗斯达成了大量石油交易，公开反对制裁。</p>

Mr. Tillerson echoed that line.</p>	<p>然后，美国驻联合国新大使尼基·R·黑利(Nikki R. Haley)在乌克兰问题上尖锐批评俄罗斯，暗示是否取消制裁取决于是否能在那里达成和平协议。蒂勒森响应了这条路线。</p>
<p>Finally, Mr. Trump started to mix geopolitical apples and oranges, crossing issues in a way that Moscow deplores. He said maybe sanctions could be lifted in exchange for a better deal on nuclear arms. The Trump administration seemed to want the Kremlin to distance itself from Iran, its ally in Syria, and from China.</p>	<p>最后，特朗普开始把地缘政治的多种不同问题牵扯到一起，而这种跨领域的方式是莫斯科所不喜欢的。他说，也许制裁可以被取消，交换条件是在核武器问题上达成更好的协议。特朗普政府似乎想让克里姆林宫疏远它在叙利亚的盟友伊朗以及中国。</p>

Dmitry S. Peskov, the spokesman for Mr. Putin, declined to comment on Tuesday about the resignation, calling it an internal American affair. It is very unlikely that the Senate, which is already skeptical of Putin's intentions, would agree to ratify a new strategic arms control accord unless the alleged violation of the intermediate-range treaty is corrected. Trump has said the United States should "strengthen and expand its nuclear capability." But at the same time, he has talked of reaching a new arms agreement with Moscow that would reduce arms "very substantially."	已经对普京的意图生疑的美国参议院同意批准新战略武器控制协议的可能性非常低，除非上面提到的中程导弹协议违规行为得到纠正。特朗普曾表示美国应该“加强和扩大自己的核武能力”。但与此同时，他也曾谈论过与莫斯科达成能“大幅度”削减武器的新协议。

Trump Campaign Aides Had Repeated Contacts With Russian Intelligence	官员称特朗普竞选团队曾多次与俄罗斯接触
WASHINGTON — Phone records and intercepted calls show that members of Donald J. Trump's 2016 presidential campaign and other Trump associates had repeated contacts with senior Russian intelligence officials in the year before the election, according to four current and former American officials.	华盛顿——据四名现任和前任美国官员称，电话记录和窃听通话表明，唐纳德·J·特朗普(Donald J. Trump)的2016年总统竞选团队成员以及其他相关人员在竞选前一年与俄罗斯高级情报官员多次取得联系。
American law enforcement and intelligence agencies intercepted the communications around the same time that they were discovering evidence that Russia was trying to disrupt the presidential election by hacking into the Democratic National Committee, three of the officials said. The intelligence agencies then sought to learn whether the Trump campaign was colluding with the Russians on the hacking or other efforts to influence the election.	三名官员称，在美国执法和情报机构窃听这些通话之时，他们发现有证据表明，俄罗斯在尝试通过黑客袭击民主党全国委员会(Democratic National Committee)的邮箱，从而破坏美国总统大选。之后，情报机构试图弄清特朗普竞选团队是否在黑客袭击或其他影响竞选的行动中与俄罗斯勾结。
The officials interviewed in recent weeks said that, so far, they had seen	这几位官员在最近几周的采访中表示，到目前为止，他们还没有发现任何此

<p>no evidence of such cooperation.</p>	<p>类勾结的证据。</p>
<p>But the intercepts alarmed American intelligence and law enforcement agencies, in part because of the amount of contact that was occurring while Mr. Trump was speaking glowingly about the Russian president, Vladimir V. Putin. At one point last summer, Mr. Trump said at a campaign event that he hoped Russian intelligence services had stolen Hillary Clinton's emails and would make them public.</p>	<p>不过，窃听到的电话内容引起了美国情报和执法机构的警惕，一个原因是很多通话发生在特朗普热情赞扬俄罗斯总统弗拉基米尔·V·普京(Vladimir V. Putin)之时。去年夏天的某个时候，特朗普在一次竞选活动中表示，他希望俄罗斯情报机构已经窃取希拉里·克林顿(Hillary Clinton)的邮件并公之于众。</p>
<p>The officials said the intercepted communications were not limited to Trump campaign officials, and included other associates of Mr. Trump. On the Russian side, the contacts also included members of the Russian government outside of the intelligence services, the officials said. All of the current and former officials spoke on the condition of anonymity because the continuing investigation is classified.</p>	<p>这些官员称，截获的通信不只牵涉到特朗普的竞选工作人员，还涉及他的其他助手。官员们表示，在俄罗斯一方，这些接触还牵涉到情报机构以外的俄罗斯政府工作人员。由于尚在进行的调查属于机密，所有这些现任官员及前官员均要求匿名。</p>
<p>The officials said that one of the advisers picked up on the calls was Paul Manafort, who was Mr. Trump's campaign chairman for several months last year and had worked as a political consultant in Russia and Ukraine. The officials declined to identify the other Trump associates on the calls.</p>	<p>官员们说，保罗·马纳福特(Paul Manafort)是接电话的人之一。此人曾在俄罗斯和乌克兰从事政治咨询工作，去年给特朗普当过几个月的竞选经理。官员们拒绝透露与俄方通话的其他特朗普助手的身份。</p>
<p>The call logs and intercepted communications are part of a larger trove of information that the F.B.I. is sifting through as it investigates the links between Mr. Trump's associates and the Russian government, as well as the D.N.C. hack, according to federal law enforcement officials. As part of its inquiry, the F.B.I. has obtained banking and travel records and conducted interviews, the officials said.</p>	<p>联邦执法官员称，联邦调查局(FBI)正就特朗普的助手与俄罗斯政府以及民主党全国代表大会网络入侵事件之间的关联展开调查，并对更多信息进行筛查，这些通话记录以及被截获的通信亦在其中。官员们称，作为调查的一部分，联邦调查局已经获取了银行和旅行记录，并进行了问讯。</p>

<p>Several of Mr. Trump's associates, like Mr. Manafort, have done business in Russia, and it is not unusual for American businessmen to come in contact with foreign intelligence officials, sometimes unwittingly, in countries like Russia and Ukraine, where the spy services are deeply embedded in society. Law enforcement officials did not say to what extent the contacts may have been about business.</p>	<p>特朗普的几个助手——比如马纳福特——在俄罗斯做过生意，而在俄罗斯、乌克兰等已经将情报活动深深嵌入社会的国家，美国商人在不知情的情况下和外国情报官员发生接触并不奇怪。执法官员没透露这些接触在多大程度上与生意有关。</p>

It is also unclear whether the conversations had anything to do with Mr. Trump himself.</p>	<p>官员们不愿披露太多细节，包括通话的具体内容是什么，参与通话的有哪些俄罗斯情报官员，以及特朗普的顾问中有多少人和俄罗斯人交谈过。同样尚不清楚的是，这些通话在多大程度上和特朗普本人有关。</p>

<p>The National Security Agency, which monitors the communications of foreign intelligence services, initially captured the communications between Mr. Trump's associates and Russians as part of routine foreign surveillance. After that, the F.B.I. asked the N.S.A. to collect as much information as possible about the Russian operatives on the phone calls, and to search through troves of previous intercepted communications that had not been analyzed.</p>	<p>负责监控外国情报机构通信的国家安全局(National Security Agency)，最初是在针对外国目标的常规监控中截获了特朗普的助手和俄罗斯人之间的通信。随后，FBI 提请国家安全局尽可能多地搜集参与这些通话的俄罗斯特工的信息，并筛查以前截获的大量尚未被分析的通信。</p>

<p>All of the men have strongly denied they had any improper contacts with Russian officials.</p>	<p>这些人均强烈否认与俄罗斯官员有过任何不当接触。</p>
<p>As part of the inquiry, the F.B.I. is also trying to assess the credibility of information contained in a dossier that was given to the bureau last year by a former British intelligence operative. The dossier contained a raft of salacious allegations about connections between Mr. Trump, his associates and the Russian government. It also included unsubstantiated claims that the Russians had embarrassing videos that could be used to blackmail Mr. Trump.</p>	<p>The F.B.I. has spent several months investigating the leads in the dossier, but has yet to confirm any of its most explosive allegations.</p>
<p>Senior F.B.I. officials believe that the former British intelligence officer who compiled the dossier, Christopher Steele, has a credible track record, and he briefed F.B.I. investigators last year about how he obtained the information. One American law enforcement official said that F.B.I. agents had made contact with some of Mr. Steele's sources.</p>	<p>The F.B.I.'s investigation into Mr. Manafort began last spring as an outgrowth of a criminal investigation into his work for a pro-Russian political party in Ukraine and for the country's former president, Viktor F. Yanukovich. The investigation has focused on why he was in such close contact with Russian and Ukrainian intelligence officials.</p>
<p>The bureau did not have enough evidence to obtain a warrant for a wiretap of Mr. Manafort's communications, but it had the N.S.A. closely scrutinize the communications of Ukrainian officials he had met.</p>	<p>The F.B.I. investigation is proceeding at the same time that separate investigations into Russian interference in the election are gaining momentum on Capitol Hill. <p>Trump, Meeting With Netanyahu, Backs Away From Palestinian State</p>	<p>特朗普不再坚持“两国方案”，再次偏离外交正统</p>
<p>WASHINGTON — President Donald Trump said Wednesday that the United States would no longer insist on a Palestinian state as part of a peace accord between Israel and the Palestinians, backing away from a policy that has underpinned the United States' role in Middle East peacemaking since the Clinton administration.</p>	<p>华盛顿——周三，唐纳德·特朗普总统表示，美国将不再坚持要求巴以和平协议中必须包括一个巴勒斯坦国，这改变了自克林顿政府以来，美国在中东和平进程中的主要政策。</p>
<p>"I'm looking at two-state and one-state" formulations, Trump said, appearing in a joint news conference at the White House with Prime Minister Benjamin Netanyahu of Israel. "I like the one that both parties like. I'm very happy with the one that both parties like. I can live with either one."</p>	<p>特朗普在白宫与以色列总理本雅明·内塔尼亚胡(Benjamin Netanyahu)举行的联合新闻发布会上说，“我在考虑两个国家和一个国家”这两种方案，“我喜欢双方都喜欢的那个方案。我会对双方都喜欢的方案感到满意。两个我都能接受。”</p>
<p>Trump's comments were a striking departure from two decades of diplomatic orthodoxy, and they raised a host of thorny questions about the viability of his position. The Palestinians are highly unlikely to accept anything short of a sovereign state, and a single Israeli state encompassing the Palestinians would either become undemocratic or no longer Jewish, given the faster growth rate of the Arab population.</p>	<p>特朗普的言论严重偏离 20 年来的外交正统，引发了关于他的立场可行性的诸多尖锐问题。巴勒斯坦人极其不可能接受任何缺乏主权国家的协议，一个包含巴勒斯坦人的以色列国要么会变得不民主，要么不再是犹太国家，因为阿拉伯人口的增长速度更快。</p>
<p>But even as Trump drastically reoriented U.S. policy, he told Netanyahu</p>	<p>不过，尽管特朗普极大改变了美国政策的方向，但他告诫内塔尼亚胡，要暂</p>

to stop building new housing in the West Bank for the moment.	停在约旦河西岸修建新住宅。
The president also stressed that Israel would have to be flexible in any future peace talks.	总统还强调，以色列在未来的任何和平谈判中必须保持变通性。
Netanyahu, who nominally supports a two-state solution, quickly embraced Trump's declaration, saying he preferred to deal with "substance" rather than "labels" in negotiating with the Palestinians.	内塔尼亚胡名义上支持两国解决方案，他很快接受了特朗普的立场，表示他更愿意在与巴勒斯坦人的谈判中解决“实质问题”，而非“标签问题”。
He repeated his two prerequisites — that the Palestinians recognize Israel as a Jewish state and that Israel maintain security control over the entire West Bank. The obstacle to peace, he said, is Palestinian hate, as demonstrated by building statues to those who carry out terrorist attacks and paying their families salaries. "This is the source of the conflict," he said.	他重述了自己的两个先决条件——巴勒斯坦人承认以色列是一个犹太国家，以色列保持对整个约旦河西岸的安全控制。他表示，和平的障碍是巴勒斯坦人的仇恨，这表现在为进行恐怖主义袭击的人塑雕像，给他们的家属提供薪水。“这是矛盾的根源，”他说。
Trump and Jared Kushner, his son-in-law and senior adviser, have been exploring an approach called the outside-in strategy, enlisting Arab states in the region that already have found common cause with Israel against their mutual enemy Iran to help broker a settlement with the Palestinians. But it is not at all clear that Palestinians would ever accept an arrangement that did not leave them with a state of their own.	特朗普和他的女婿、高级顾问贾里德·库什纳(Jared Kushner)探讨过一个由外而内的战略，征募该地区因反对共同敌人伊朗而已经与以色列达成一致的阿拉伯国家帮助与巴勒斯坦人达成一个协议。但人们完全不清楚巴勒斯坦人是否愿意接受不让他们拥有自己国家的任何方案。
Until now, Trump's team has largely avoided conversations with Palestinian leaders. But Mike Pompeo, the CIA director, met with Mahmoud Abbas, the Palestinian Authority president, in Ramallah in the West Bank on Tuesday, according to The Associated Press.	直到现在，特朗普的团队大体上避免了与巴勒斯坦领导人进行对话。但是据美联社(The Associated Press)称，周二，中央情报局局长迈克·庞皮欧(Mike Pompeo)在约旦河西岸的拉姆安拉会见了巴勒斯坦民族权力机构(Palestinian Authority)主席马哈茂德·阿巴斯(Mahmoud Abbas)。

A Canadian City Thrives on Gas, Like a 'Wealthy Little Country'	因天然气而富可敌国的加拿大小城
MEDICINE HAT, Alberta — This isolated river city smack dab in the	艾伯塔省梅迪辛哈特——这个坐落在河边的城市正好在艾伯塔贫瘠地区的中

<p>middle of Alberta's badlands is a little bit like Norway. Both have sizable oil and gas reserves that spin big money relative to their small populations.</p>	<p>心，与世隔绝。它和挪威有点像，石油和天然气的储量都相当大，带来的财富相对于它们较少的人口来说是相当多的。</p>
<p>Now, Medicine Hat is setting up the equivalent of Norway's famous sovereign wealth fund, a pool of money that should make more money for generations to come.</p>	<p>现在，梅迪辛哈特正在设立一个和挪威著名的主权财富基金相当的基金，筹集起来的钱应该会为子孙后代赚更多的钱。</p>
<p>"We could separate from the world, and we'd be totally self-sufficient," said Ted Clugston, the mayor, sipping coffee in Medicine Hat's award-winning, architectural designed brick-and-glass City Hall. "We'd be a very, very wealthy little country, except we have no military."</p>	<p>"我们可以和世界分离，完全自给自足，"该市市长特德·克吕斯顿(Ted Clugston)在梅迪辛哈特市政厅里一边喝着咖啡一边说。这是一栋很有设计感的获奖建筑，采用了砖和玻璃结构。"我们可以成为一个非常非常富裕的小国，除了没有军队以外。"</p>
<p>Medicine Hat is one of the last cities in North America to own its energy resources; it has more than 4,000 gas wells and hopes to grow its oil production from 1,500 to as much as 5,000 barrels of oil a day.</p>	<p>梅迪辛哈特是北美洲最后一批拥有自己的能源资源的城市之一。该市现在有4000多口天然气井，还打算将石油日产量从1500桶增加到5000桶。</p>
<p>It has its own gas-fired power plant and is a leader in municipally owned renewable energy, with a wind farm and a solar thermal power plant. The city even provides incentives to homeowners to buy solar electric panels.</p>	<p>它有自己的燃气发电厂，还有一座风电场和一座太阳能热电厂，是市政可再生能源领域的领导者。梅迪辛哈特甚至还向购买太阳能电子组件的房屋主人提供补贴优惠。</p>
<p>But it is what is under the city that really sets it apart: massive reserves of natural gas.</p>	<p>但真正让这座城市与众不同的，是它地底下的东西：储量巨大的天然气。</p>
<p>Much of Alberta is the floor of an ancient sea that scientists call the Western Interior Seaway, which once separated the Rocky Mountains from the Appalachians. It was full of life, swimming with giant reptiles that grew as much as 60 feet long.</p>	<p>艾伯塔有相当一部分地区在古代是一片海洋的海床。科学家称其为西部内陆海道(Western Interior Seaway)，它曾将落基山脉和阿巴拉契亚山脉隔开。当时，这里充满生机，生活着最长可达60英尺(约合18米)的巨型爬行动物。</p>
<p>Detritus from dead plants and animals that settled to the bottom was buried by sediment and broke down into methane after million of years.</p>	<p>死去的动植物的残骸沉落海底，被沉积物掩埋，并在数百万年后分解成甲烷。今天的地质学家把残留下来的海床称作梅迪辛哈特砂岩(Medicine Hat</p>

<p>Geologists today call the remains of that seabed the Medicine Hat Sandstone. It contains the largest and oldest pool of natural gas in Canada.</p>	<p>Sandstone)。它拥有加拿大储量最大、最古老的天然气。</p>
<p>The indigenous people of the plains knew there was something mysterious in the ground around here because lightning strikes would occasionally set off gas flares that burned brilliantly until snuffed out by wind or rain – they called the gas vents “burning springs.”</p>	<p>生活在这片平原上的原住民知道，这附近的地底下有神秘的东西，因为闪电偶尔会把地上的草点燃，火光明亮，直到被风或雨扑灭。他们把气孔叫“燃烧的泉水”。</p>
<p>Then in 1883, the Canadian Pacific Railway bridged the South Saskatchewan River at Medicine Hat and dug a well farther west looking for water to replenish steam engines on the dry plains. They instead struck gas, “which, on taking fire emits a flame sufficient to light up the surrounding country,” a newspaper reported at the time.</p>	<p>然后到了 1883 年，加拿大太平洋铁路(Canadian Pacific Railway)延伸到梅迪辛哈特时，在南萨斯喀彻温河上架桥。为了在干燥的平原上给蒸汽机加水，人们在西侧挖了一口井，希望找到水。当时的一份报纸报道称，他们挖到了气体，“遇火便会产生足以把四周围照亮的火焰”。</p>
<p>The railroad kept digging wells and hitting gas, which it primarily used to create flares to dazzle visitors. After witnessing one such display, Rudyard Kipling famously wrote, “this part of the country seems to have all hell for a basement, and the only trap door is Medicine Hat.”</p>	<p>铁路施工人员不断挖井，挖出天然气。当时，天然气主要被用来制造让访客赞叹的火光。看过一次这样的表演后，鲁德亚德·吉卜林(Rudyard Kipling)曾写下名言，“在该国的这片地区，地狱似乎就在地下室里，唯一的天窗就是梅迪辛哈特。”</p>
<p>The first wells were shallow and the gas was mixed with water, which would freeze in the winter, making distribution impossible. Then in 1904, the town fathers decided to drill a deeper well.</p>	<p>最初的井都较浅，天然气和水混合在了一起。水在冬天会结冰，导致无法输送天然气。后来到 1904 年，市政官员决定挖一口更深的井。</p>
<p>At 1,000 feet, the coffer ran dry, but the mayor said he would find more money and ordered the drilling to continue. Ten feet later, the drill hit gas, spitting the drill bit out of the ground like a watermelon seed. The mayor was just getting dressed and ran down to the well with his suspenders hanging around his knees, according to a city historian.</p>	<p>在地面以下 1000 英尺的地方，天然气井干涸，但市长称他会弄到更多的钱，下令继续挖。又挖了十英尺，钻头碰到天然气，被像西瓜籽一样喷出地面。据该市的一位历史学者称，市长当时刚穿好衣服，在膝盖处安好吊具后下到井下。</p>

<p>Remarkably, the city turned down a bid by a private company to buy the gas franchise and instead decided to develop it as a public utility. The city raised money to install gas lines that ran through buildings and from home to home. Street lamps burned around the clock because the gas was so plentiful it was less expensive than turning them off and relighting them daily, a reality that earned Medicine Hat a mention in "Ripley's Believe It or Not!" (The gas mantles in the lamps have since been replaced by light-emitting diodes.)</p>	<p>不同寻常的是，市政府拒绝了一家私营公司购买天然气特许经营权的提议，而是决定把它当作公用事业来开发。该市为安装天然气管道而筹集资金，管道把一栋又一栋建筑，一个又一个家庭连接在了一起。路灯连续一整天燃烧着，因为天然气非常充足，全天照明比每天灭灯第二天再点燃要更便宜。这个事实为梅迪辛哈特在“信不信由你博物馆”(Ripley's Believe It or Not)赢得了一席之地。(路灯中的气灯罩已被发光二极管取代。)</p>
<p>Learning how to safely harness the invisible, odorless resource took some time. Many a building was blown to matchwood because of leaking gas. In 1908, a mattress factory exploded.</p>	<p>学习如何安全使用这种无形、无味的资源需要时间。很多建筑因为漏气而被炸成碎片。1908年，一家床垫厂发生爆炸。</p>
<p>Medicine Hat, by then incorporated as a city, started offering industry tax holidays, free building sites and free natural gas; thousands of factories came. Vincent Scully, a former Irish politician, declared that Medicine Hat would become "the Pittsburgh of western Canada," and for a while, it looked as if he might have been right. By the time the Great War began, Medicine Hat factories were producing dozens of products, "from manhole covers to candy," according to Medicine Hat's history museum.</p>	<p>那时已建市的梅迪辛哈特开始提供工业税负优惠期、免费建筑工地和免费天然气。成千上万家工厂随之出现。前爱尔兰政界人物文森特·斯库利(Vincent Scully)曾宣称梅迪辛哈特将成为“加拿大西部的匹茨堡”，而在一段时间里，他似乎说对了。据梅迪辛哈特历史博物馆称，到一战开始时，梅迪辛哈特的工厂生产的产品，“从井盖到糖果，”达数十种之多。</p>
<p>"There's not much that we're wanting for," said Bill Cocks, a city councilor and chairman of the city's energy and utilities committee, who said he was sometimes introduced at provincial meetings as "Alderman Cocks from the Independent Principality of Medicine Hat."</p>	<p>“我们什么都不缺，”该市议员、能源与公用事业委员会主席比尔·科克斯(Bill Cocks)说。他称在省级会议上，自己有时候会被介绍成“来自梅迪辛哈特独立公国的科克斯议员”。</p>

has long been the social hub of Medicine Hat power brokers.	中心。
Income from the oil and gas sales funds much of the municipal budget, allowing Medicine Hat to keep taxes low — it has the lowest property taxes of any major municipality in Canada. When energy prices were high, the city built up about 500 million Canadian dollars in reserves.	来自石油和天然气的收入会给该市的很多预算提供资金,使梅迪辛哈特能够保持低税率。这里是加拿大主要城市中财产税最低的。在能源价格处于高位时,该市积累起了大约五亿加元的资金储备。
But then prices plummeted and the profits evaporated, and this year Medicine Hat faced a budget shortfall for the first time in memory. The city will close the gap with reserves and raise property taxes by 2 percent annually for the next 10 years, but the shortfall served as a warning to the City Council.	但后来,能源价格暴跌,利润蒸发,梅迪辛哈特今年面临预算不足。在记忆中这是第一次。市政府将用储备金来弥补,并在接下来的十年里每年上调财产税2%,但预算不足是对市议会的一个提醒。
As a result, Medicine Hat is setting up a “heritage fund,” similar to the sovereign wealth funds operated by Norway, China, Singapore and other wealthy countries. The city won provincial approval to invest in stocks, a privilege allowed to only two other cities in Alberta: Calgary and Edmonton, each more than a dozen times Medicine Hat’s size.	因此,梅迪辛哈特正在设立一个“遗产基金”,类似于挪威、中国、新加坡和其他富裕国家运作的主权财富基金。该市获得了省级部门对投资股票的许可。在艾伯塔,除梅迪辛哈特外只有两个城市享有这项特权:卡尔加里和埃德蒙顿。它们的面积均比梅迪辛哈特大十多倍。
Once money goes into the fund, it cannot come out — only dividends can. But over time, the city hopes the fund will grow and that dividends will eventually cover a lot of the city budget, maybe someday even making property taxes a thing of the past.	资金一旦进入该基金,就不能撤出,只有收益可取出。但随着时间的推移,该市希望这个基金能不断发展壮大,到最后收益能承担该市的大量预算,也许有一天甚至会让财产税成为历史。
“We’ll start capturing the value of those depletable assets,” said Brian Mastel, the finance commissioner, “and monetize them into an endowment fund for the community.”	“我们将开始利用这些可能会枯竭的资产的价值,”该市财政厅长布莱恩·马斯特尔(Brian Mastel)说,“并把它们变现,放进一个造福社会的捐赠基金。”

Winston Churchill Wrote of Alien Life in a Lost Essay	前英国首相丘吉尔曾撰文探讨外星人
LONDON — Even as he was preparing for the biggest struggle of his life,	伦敦——即便是在准备迎接生命中最大的挑战——带领英国对抗纳粹德国

leading Britain in its fight against Nazi Germany, Winston Churchill had something else on his mind: extraterrestrials.	时，温斯顿·丘吉尔(Winston Churchill)的心中也在想着别的事情：外星人。
In a newly unearthed essay sent to his publisher on Oct. 16, 1939 — just weeks after Britain entered World War II and Churchill became part of the wartime Cabinet — and later revised, he was pondering the likelihood of life on other planets.	1939年10月16日，也就是英国加入第二次世界大战、丘吉尔成为战时内阁成员仅仅几周后，一篇文章被送至其出版人手中，后来又被多次修改。在这篇近来重见天日的文章中，他探讨了其他星球上存在生命的可能性。
Churchill, who went on to become prime minister during much of World War II and again from 1951 to 1955, was so enthralled by the subject that he even ordered a suspected sighting of an unidentified flying object by the Royal Air Force to be kept a secret for 50 years to avoid “mass panic.”	继而在二战的很长一段时间里担任英国首相、并于1951年至1955年间再度担此要职的丘吉尔，对这一话题极为痴迷，甚至曾勒令将皇家空军(Royal Air Force)疑似见到不明飞行物的信息保密50年，以免引发“大恐慌”。
In an 11-page essay titled “Are We Alone in the Universe?” the statesman showed powers of reason “like a scientist,” said Mario Livio, an astrophysicist who read the rarely seen draft and wrote about it in an article published Wednesday in Nature magazine.	丘吉尔的文章长11页，题为“我们是独自存在于宇宙中吗？”看过难得一见的草稿并就此撰文于周三发表在《自然》(Nature)杂志上的天文学家马里奥·利维奥(Mario Livio)说，这位政治家在文章中展示了“如科学家般”的推理能力。
“The most amazing thing is that he started this essay when Europe was on the brink of war and there he is, musing about a question about a scientific topic that is really a question out of curiosity,” he said in an interview.	“最令人惊讶的是，他开始写这篇文章的时候，欧洲正处于战争边缘，而他却在琢磨一个源于好奇心的科学问题，”利维奥接受采访时表示。
Churchill first defines what life is, then details the requirements for life to exist and progressively expands his reasoning to the existence of life in other solar systems, Livio said. “He’s really thinking about this,” Livio said, “and though he didn’t have all the knowledge at hand, he thinks about this with the logic of a scientist.”	利维奥说，丘吉尔先是给生命下了定义，然后详细阐述了生命存在的条件，并逐渐将其推理延展至其他太阳系存在生命。“他是真的在思考这个问题，”利维奥说，“尽管并未掌握所有的知识，但他借助科学家般的逻辑思考着这个问题。”
Churchill’s interest in science stemmed from his early years as an army	丘吉尔对科学的兴趣源于他早年在英国统治下的印度担任陆军军官的经历，

<p>officer in British-ruled India, where he had crates of books, including Darwin's "On the Origin of Species," shipped to him by his mother.</p>	<p>在那里他有很多箱书籍，包括他母亲寄送给他的达尔文的《物种起源》。</p>
<p>He later became friends, at least for a time, with the writer H.G. Wells, whose hugely popular "The War of the Worlds," about Martians invading Britain, was broadcast in 1938 — a year before Churchill wrote his article. (Churchill once said Wells' "The Time Machine" was one of the books he would like to take with him to purgatory.)</p>	<p>他后来和作家 H·G·威尔斯(H.G. Wells)成了朋友，至少有一段时间是如此。威尔斯著有广受欢迎的《世界之战》(The War of the Worlds)，写的是火星入侵地球的故事。1938 年，也是就丘吉尔撰写那篇文章的一年前，该书曾被电台广播。(丘吉尔说过，如果要下地狱，那威尔斯的《时间机器》[The Time Machine]会是他想要带在身边的书之一。)</p>
<p>Churchill argued that it was probable that extraterrestrial life existed somewhere in the universe. This was years before Frank Drake, the U.S. astronomer and astrophysicist, presented in 1961 his theory about the number of communicative civilizations in the cosmos. "It is astonishing that Churchill wasn't a scientist and yet he showed such an interest in science," Livio said.</p>	<p>丘吉尔指出，外星生命可能存在于宇宙中的某个地方。这比美国天文学家和天体物理学家弗兰克·德雷克(Frank Drake)于 1961 年提出关于宇宙中可沟通文明数量的理论早了很多年。“令人惊讶的是，丘吉尔并不是科学家，但他对科学表现出了极大的兴趣，”利维奥说。</p>
<p>The manuscript was passed on to the National Churchill Museum in Fulton, Missouri, the site of Churchill's famed 1946 Iron Curtain speech, in the 1980s by Wendy Reves, the wife of Churchill's publisher, Emery Reves. It had been overlooked for years until Timothy Riley, who became the museum's director last year, stumbled upon it recently. Soon after news of the discovery, two other copies were found in a separate archive in Britain.</p>	<p>上世纪 80 年代，这份手稿被丘吉尔的出版人的妻子温迪·列韦斯(Wendy Reves)提交给了密苏里州富尔顿的国立丘吉尔博物馆(National Churchill Museum)——丘吉尔于 1946 年在富尔顿发表过著名的铁幕演说。它被忽略了很多年，直到去年上任的馆长蒂莫西·赖利(Timothy Riley)最近偶然发现了它。该手稿重见天日的消息传出后不久，英国有人在另外一个档案馆里又发现了两份副本。</p>
<p>Although the article was sent to Reves in 1939, it was not published. Churchill had revised it a number of times in the 1950s.</p>	<p>尽管这篇文章在 1939 年被送到了列韦斯那里，但它并未被发表。丘吉尔在 1950 年代对文章做过多次修改，</p>
<p>In his article, Churchill wrote: "I am not sufficiently conceited to think that my sun is the only one with a family of planets."</p>	<p>他在文中写道：“我并未自负到认为只有我的太阳拥有行星体系。”</p>
<p>"I, for one, am not so immensely impressed by the success we are</p>	<p>“就我自身而言，我们在这里成功创建的文明并没有那么了不起，不足以促</p>

<p>Largely self-educated in the sciences, Churchill had boundless curiosity for practically anything, an attitude he once described as "picking up a few things as I went along."</p>	<p>基本是靠自学来掌握科学知识的丘吉尔，几乎对任何东西都有着无尽的好奇心，他形容这种态度是“一边走一边捡起一些东西”。</p>
<p>He wrote about 30 million words in his lifetime, including wartime speeches, an African travelogue, a book on oil painting, a lengthy memoir, and even an essay on an imagined invasion of Russia when he was just 15. For his body of work, he won the Nobel Prize for Literature in 1953.</p>	<p>他一生写了约 3000 万词的文字，其中包括多份战时演说、一本非洲旅行日志、一本关于油画的书、一本大部头回忆录，甚至在 15 岁就以想象中的入侵俄国为题写过一篇文章。</p>
<p>Welding an active imagination with scientific thought, Churchill produced a few madcap ideas — which he called "funnies" — that he actually championed while he was prime minister, as a means to defeat Nazi Germany.</p>	<p>集活跃的想象力和科学思维于一身的丘吉尔，有过几个疯狂的点子——他称之为“笑话”——它们其实是他担任首相期间鼎力支持的点子，被其视为击败纳粹德国的工具。</p>
<p>There was Operation Habakkuk, an imagined fleet of aircraft carriers made from wood pulp and ice to fight German U-boats in the mid-Atlantic. Then there was the Great Panjandrum, an enormous, rocket-propelled wheel packed with explosives. Churchill even invented a green velvet "siren suit" to be put on in a hurry during air raids.</p>	<p>先是“哈巴谷行动”(Operation Habakkuk)——按照设想，一支由木浆和冰制成的航母编队将开赴大西洋中部，与德国人的 U 型潜艇作战。然后是“大首领”(Great Panjandrum)，一种由火箭驱动的巨大爆破车。丘吉尔甚至设计了以绿色丝绒制成的“警报套装”，可供人在空袭期间匆忙套在身上。</p>
<p>While none of these ideas came into being (the giant wheel having run amok in the testing stage), science was not just a hobby for Churchill.</p>	<p>所有这些点子都未变成现实（巨大的爆破车在测试阶段横冲直撞，失去了控制），但科学对丘吉尔来说不仅仅是一个爱好。</p>
<p>He was the first prime minister to hire a science adviser. Frederick</p>	<p>他是第一位聘任科学顾问的首相。在伦敦科学博物馆(Science Museum)以</p>

<p>Lindemann, a physicist, became Churchill's "on tap" expert and once described him as a "scientist who had missed his vocation," said Andrew Nahum, who curated an exhibition on Churchill and science at the Science Museum in London. He found a separate copy of the essay in the Churchill Archives Center at the University of Cambridge.</p>	<p>丘吉尔和科学为主题策划过一场展览的安德鲁·内厄姆(Andrew Nahum)说, 物理学家弗雷德里克·林德曼(Frederick Lindemann)成为了丘吉尔“随时”讨教的专家, 曾经形容他是一个“入错行的科学家”。内厄姆在剑桥大学(University of Cambridge)丘吉尔档案中心(Churchill Archives Center)找到了一份文章副本。</p>
<p>Churchill also met regularly with scientists such as Bernard Lovell, the father of radio astronomy and the Lovell telescope.</p>	<p>丘吉尔还会和一些科学家定期碰面, 譬如射电天文学之父、洛维尔望远镜的发明者伯纳德·洛维尔(Bernard Lovell)。</p>

<p>In the interwar period, Churchill wrote numerous scientific articles, including one called "Death Rays" and another titled "Are there Men on the Moon?" In 1924, he published a text asking readers "Shall We All Commit Suicide?", in which he speculated that technological advances could lead to the creation of a small bomb that was powerful enough to destroy an entire town.</p>	<p>在两次世界大战的间隙, 丘吉尔写了大量科学方面的文章, 其中一篇题为“死亡之光”, 还有一篇叫“月球上有人吗?” 1924年, 他发表了一篇文章, 问读者“我们都该自杀吗?” 他在文中推测, 随着科技的进步, 人类将发明一种杀伤力大到足以摧毁整个城镇的小炸弹。</p>
<p>Churchill's recently unearthed article on extraterrestrial life was probably written in the same vein and probably was intended to be published as a popular science piece for a newspaper.</p>	<p>新发现的那篇关于外星生命的文章大致以同样的语调写就, 很可能是要作为科普文章发表在报纸上。</p>
<p>Two other scientific essays – one on cell division in the body and another on evolution – are stored in the museum's archives in Fulton, Riley, the museum director, said in an interview.</p>	<p>富尔顿那家博物馆的馆长赖利说, 另外两篇科学方面的文章——一篇讲的是体内的细胞分裂, 另一篇讲的是进化——目前被保存在该博物馆的档案库中。</p>
<p>Churchill had a "natural curiosity and general optimism about life," Riley said. He had "a willingness to see technical and scientific advances improve not only his immediate world or his country, but the world."</p>	<p>赖利说, 丘吉尔对生命有着“天生的好奇和大体上的乐观态度”。他“乐于见到科技进步不只是让他眼前的世界或他的国家变得更好, 还让整个世界变得更好。”</p>

A Back-Channel Plan for Ukraine and Russia, Courtesy of Trump Associates	特朗普助手推动俄罗斯乌克兰“和平方案”
A week before Michael Flynn resigned as national security adviser, a sealed proposal was hand-delivered to his office, outlining a way for President Donald Trump to lift sanctions against Russia.	在迈克尔·弗林(Michael Flynn)辞去国家安全顾问职位一周前,一项密封的提议被人亲手送至他的办公室,其中概述了唐纳德·特朗普(Donald Trump)总统解除对俄罗斯制裁的新方案。
Flynn is gone, having been caught lying about his own discussion of sanctions with the Russian ambassador. But the proposal, a peace plan for Ukraine and Russia, remains, along with those pushing it: Michael Cohen, the president's personal lawyer, who delivered the document; Felix H. Sater, a business associate who helped Trump scout deals in Russia; and a Ukrainian lawmaker trying to rise in a political opposition movement shaped in part by Trump's former campaign manager Paul Manafort.	弗林因为被发现在与俄罗斯大使讨论制裁的问题上撒谎而辞职,但这项提议——让乌克兰与俄罗斯达成和平的方案——及推动它的人依然还在:递送该文件的总统私人律师迈克尔·科恩(Michael Cohen);曾帮助特朗普在俄罗斯物色交易机会的生意伙伴费利克斯·H·塞特(Felix H. Sater);试图在部分由特朗普的前任竞选经理保罗·马纳福特(Paul Manafort)促成的一个政治反对派运动中崛起的一个乌克兰议员。
At a time when Trump's ties to Russia, and the people connected to him, are under heightened scrutiny — with investigations by U.S. intelligence agencies, the FBI and Congress — some of his associates remain willing and eager to wade into Russia-related efforts behind the scenes.	在特朗普与俄罗斯的关系以及与他有关联的人受到严格审视之际——美国情报机构、联邦调查局(FBI)和国会的调查,他的一些助手依然愿意、急于在幕后介入与俄罗斯有关的努力。
Trump has confounded Democrats and Republicans alike with his repeated praise for the Russian president, Vladimir Putin, and his desire to forge a U.S.-Russian alliance. While there is nothing illegal about such unofficial efforts, a proposal that seems to tip toward Russian interests may set off alarms.	特朗普一再称赞俄罗斯总统弗拉基米尔·普京(Vladimir Putin)以及他想要达成美俄联盟的渴望,让民主党人与共和党人都惶惑不已。尽管这些非官方的努力没有什么违法的地方,但一项似乎倾向于俄罗斯的提议有可能会拉响警报。
The amateur diplomats say their goal is simply to help settle a grueling,	这些业余外交人员表示,他们的目的只是帮助解决一项持续了三年、已导致

<p>three-year conflict that has cost 10,000 lives. "Who doesn't want to help bring about peace?" Cohen asked.</p>	<p>1 万人丧生的令精疲力竭的冲突。“谁不想帮助带来和平？”科恩问道。</p>
<p>But the proposal contains more than just a peace plan. Andrii V. Artemenko, the Ukrainian lawmaker, who sees himself as a Trump-style leader of a future Ukraine, claims to have evidence — “names of companies, wire transfers” — showing corruption by the Ukrainian president, Petro O. Poroshenko, that could help oust him. And Artemenko said he had received encouragement for his plans from top aides to Putin.</p>	<p>但这项提议包含的不只是一个和平方案。那位自认为是乌克兰未来的特朗普式领导人的议员安德里·V·阿尔乔缅科(Andrii V. Artemenko)声称自己握有——“企业名称、电汇证明”——可以证明乌克兰总统彼得罗·O·波罗申科(Petro O. Poroshenko)存在腐败行为的证据,这有助于罢免后者。阿尔乔缅科表示,他的这项计划受到普京高层助手的鼓励。</p>
<p>“A lot of people will call me a Russian agent, a U.S. agent, a CIA agent,” Artemenko said. “But how can you find a good solution between our countries if we do not talk?”</p>	<p>“许多人会说我是俄罗斯特工、美国特工、美国中央情报局(CIA)特工,”阿尔乔缅科说。“但如果不进行对话,我们怎么能在我们的国家之间找到一个好的解决方案呢?”</p>
<p>Cohen and Sater said they had not spoken to Trump about the proposal, and have no experience in foreign policy. Cohen is one of several Trump associates under scrutiny in an FBI counterintelligence examination of links with Russia, according to law enforcement officials; he has denied any illicit connections.</p>	<p>科恩与塞特表示,他们没有对特朗普谈起过这项提议,二人在制定外交政策上没有任何经验。据几名执法官员透露,在FBI就与俄罗斯的关联进行的反间谍调查中,科恩是受到严格审查的几名特朗普副手之一;他否认自己有任何违法的关系。</p>
<p>The two others involved in the effort have somewhat questionable pasts: Sater, 50, a Russian-American, pleaded guilty to a role in a stock manipulation scheme decades ago that involved the Mafia. Artemenko spent 2 1/2 years in jail in Kiev in the early 2000s on embezzlement charges, later dropped, which he said had been politically motivated.</p>	<p>介入这项努力的另外两人也有可疑的经历:50岁的俄裔美国人塞特在几十年前因为参与一起与黑手党有关的股票操纵骗局而服罪。阿尔乔缅科在21世纪初曾因挪用公款的指控在基辅坐了两年半的监狱,这项指控后来被撤销,他表示该指控有政治动机。</p>
<p>While it is unclear if the White House will take the proposal seriously, the diplomatic freelancing has infuriated Ukrainian officials. Ukraine's ambassador to the U.S., Valeriy Chaly, said Artemenko “is not entitled to</p>	<p>尽管目前还不清楚白宫是否会严肃对待这项提议,但这些自由外交家的行为激怒了乌克兰官员。乌克兰驻美国大使瓦列里·恰雷(Valeriy Chaly)表示,阿尔乔缅科“无权代表乌克兰向任何外国政府提交任何替代性的和平方案,包</p>

<p>present any alternative peace plans on behalf of Ukraine to any foreign government, including the U.S. administration.”</p>	<p>括美国政府”。</p>
<p>At a security conference in Munich on Friday, Poroshenko warned the West against “appeasement” of Russia, and some U.S. experts say offering Russia any alternative to a 2-year-old international agreement on Ukraine would be a mistake. The Trump administration has sent mixed signals about the conflict in Ukraine.</p>	<p>在上周五于慕尼黑举行的一场安全会议上，波罗申科警告西方不要“姑息”俄罗斯，一些美国专家则表示，向俄罗斯提供任何替代那项就乌克兰问题达成的为期两年的国际协议的方案，都将是一个错误。在乌克兰冲突的问题上，特朗普政府发出了含糊不清的信号。</p>
<p>But given Trump’s praise for Putin, John Herbst, a former U.S. ambassador to Ukraine, said he feared the new president might be too eager to mend relations with Russia at Ukraine’s expense — potentially with a plan like Artemenko’s.</p>	<p>但前美国驻乌克兰大使约翰·赫布斯特(John Herbst)表示，考虑到特朗普对普京的赞赏，他担心这位新总统可能会太急于修补与俄罗斯的关系，不惜牺牲乌克兰的利益——有可能拿出类似阿尔乔缅科提出的那种计划。</p>
<p>The FBI is reviewing an unverified dossier, compiled by a former British intelligence agent and funded by Trump’s political opponents, that claims Cohen met with a Russian representative in Prague during the presidential campaign to discuss Russia’s hacking of Democratic targets. But the Russian official named in the report told The New York Times that he had never met Cohen. Cohen insists that he has never visited Prague and that the dossier’s assertions are fabrications.</p>	<p>FBI 正在审查一份未证实的档案资料，它由一名前英国情报人员编写，由特朗普的政治对手资助。该文件宣称，在总统竞选期间，科恩曾在布拉格与一名俄罗斯代表会面，讨论俄罗斯对民主党目标进行黑客袭击的问题。但报告中提到的俄罗斯官员对《纽约时报》表示，他从没见过科恩。科恩则坚称自己从没去过布拉格，并表示文件中的说法是不实之词。</p>
<p>Cohen has a personal connection to Ukraine: He is married to a Ukrainian woman and once worked with relatives there to establish an ethanol business.</p>	<p>科恩与乌克兰存在私人关系：他娶了一位乌克兰女子，曾与那里的亲戚一起经营一项与酒有关的生意。</p>
<p>Before entering politics, Artemenko had business ventures in the Middle East and real estate deals in the Miami area, and had worked as an agent representing top Ukrainian athletes. Some colleagues in Parliament describe him as corrupt, untrustworthy or simply</p>	<p>在进入政界之前，阿尔乔缅科曾在中东进行商业投资，在迈阿密地区进行过房地产交易，还曾做过乌克兰顶级运动员的代理人。他在乌克兰议会的一些同事称其腐败、不值得信赖，或根本无关紧要，但他似乎积聚了相当可观的财富。</p>

<p>insignificant, but he appears to have amassed considerable wealth.</p>	
<p>He has fashioned himself in the image of Trump, presenting himself as Ukraine's answer to a rising class of nationalist leaders in the West. He even traveled to Cleveland last summer for the Republican National Convention, seizing on the chance to meet with members of Trump's campaign.</p>	<p>他以特朗普的形象来塑造自己,把自己包装成乌克兰对西方民族主义领导者崛起的回应。去年夏天他甚至还去了共和党全国代表大会的举办地克利夫兰,找机会和特朗普的竞选活动成员会面。</p>

<p>Artemenko said he saw in Trump an opportunity to advocate a plan for peace in Ukraine — and help advance his own political career. Essentially, his plan would require the withdrawal of all Russian forces from eastern Ukraine. Ukrainian voters would decide in a referendum whether Crimea, the Ukrainian territory seized by Russia in 2014, would be leased to Russia for a term of 50 or 100 years.</p>	<p>阿尔乔缅科说,他从特朗普身上看到了倡导一个乌克兰和平计划的机会——同时帮助推进他自己的政治生涯。简单来说,他的计划是所有俄罗斯部队撤出乌克兰东部地区。乌克兰选民将在全民公投中决定,是否要把俄罗斯在2014年吞并的乌克兰领土克里米亚租给俄罗斯50年或100年。</p>
<p>The Ukrainian ambassador, Chaly, rejected a lease of that kind. "It is a gross violation of the constitution," he said in written answers to questions from The Times. "Such ideas can be pitched or pushed through only by those openly or covertly representing Russian interests."</p>	<p>乌克兰大使恰雷对这种形式的租赁表示拒绝。"这严重违反了宪法,"他在回答时报的提问时写道。"只有公开或暗中代表俄罗斯利益的人才会推销、推动这些想法。"</p>
<p>The reaction suggested why Artemenko's project also includes the dissemination of "kompromat," or compromising material, purportedly showing that Poroshenko and his closest associates are corrupt. Only a new government, presumably one less hostile to Russia, might take up his plan.</p>	<p>这种反应显示了为什么阿尔乔缅科的项目还包括传播"黑材料"(kompromat),据称是暴露了波罗申科及其最亲近同事的腐败行为。只有一个新的政府,可能不那么敌视俄罗斯政府,才有可能采用他的计划。</p>

<p>Sater, a longtime business associate of Trump's with connections in Russia, was willing to help Artemenko's proposal reach the White House.</p>	<p>特朗普多年的生意伙伴、在俄罗斯有各种关系的塞特愿意帮助阿尔乔缅科把这个提议传达到白宫。</p>
<p>Trump has sought to distance himself from Sater in recent years. If Sater "were sitting in the room right now," Trump said in a 2013 deposition, "I really wouldn't know what he looked like."</p>	<p>特朗普最近几年一直试图和塞特保持距离。在 2013 年一次作证的时候，特朗普曾说，如果塞特“现在就坐在这里，我真的认不出他长什么样子”。</p>
<p>But Sater worked on real estate development deals with the Trump Organization on and off for at least a decade, even after his role in the stock manipulation scheme came to light.</p>	<p>但在房地产开发生意上，塞特与特朗普集团断断续续进行了至少十年的交易，即便是在他参与股票操纵骗局曝光之后。</p>
<p>Cohen said he was waiting for a response to the proposal when Flynn was forced from his post. Now he, Sater and Artemenko are hoping a new national security adviser will take up their cause. On Friday the president wrote on Twitter that he had four new candidates for the job.</p>	<p>科恩说，当弗林被迫离职的时候，他正在等待该提议的回复。现在他、塞特和阿尔乔缅科希望新的国家安全顾问会同意这件事。上周五，特朗普在 Twitter 上写道，他为这个职位找到了四个新的候选人。</p>

Not the Swedes.	反正不是瑞典人。
Nothing particularly nefarious happened in Sweden on Friday and Swedes were left baffled.	周五瑞典并没有发生什么特别恶性的事件，所以瑞典人对此感到困惑。
Trump did not state, per se, that a terrorist attack had occurred in Sweden.	特朗普其实并没有明确指出瑞典遭遇过恐怖袭击。

He then invoked the terrorist attacks that have taken place in Paris in 2015 and in Brussels and Nice, France, last year, to make an argument for tightening scrutiny of travelers and asylum seekers. "We've allowed thousands and thousands of people into our country and there was no way to vet those people," he said. "There was no documentation. There was no nothing. So we're going to keep our country safe."	接着他提到巴黎于2015年、布鲁塞尔和法国尼斯于去年遭遇的恐怖袭击，以此说明需要加强对旅行者和寻求庇护者的审查。"我们允许成千上万人进入我们的国家，却没有办法对这些人进行审查，"他说。"没有证明文件。什么也没有。所以我们要保障自己国家的安全。"
Sarah Huckabee Sanders, a White House spokeswoman, tried to clarify the president's remarks Sunday, saying Trump did not mean to suggest that a particular attack had happened, but rather was talking about crime in general in Sweden.	周日，白宫发言人萨拉·赫卡比·桑德斯(Sarah Huckabee Sanders)试图澄清总统的言论，称特朗普不是指瑞典曾经发生过某次袭击，而是在谈论其整体的犯罪情况。

Trump's Dual Roles Collide With Openings in Dubai and Vancouver	从迪拜到温哥华，总统特朗普的商业帝国版图
DUBAI, United Arab Emirates — The well-heeled guests strolled up red carpeted steps and through lines of smiling young women to reach the newest outpost in President Donald Trump's international business empire.	阿拉伯联合酋长国迪拜——穿着考究的宾客漫步走上铺着红毯的台阶，穿过两侧微笑的年轻女子，来到唐纳德·特朗普总统国际商业帝国的最新堡垒。
At the Saturday night opening of the clubhouse of the Trump International Golf Club, Dubai, guests munched on mini chicken burgers and sipped fizzy lemonade while Eric Trump and Donald Trump Jr., the president's adult sons, lauded the ruler of Dubai and their business partner, Hussain Sajwani.	周六晚上，在迪拜特朗普国际高尔夫俱乐部(Trump International Golf Club)的开业典礼上，宾客们享用迷你鸡肉汉堡，喝着起泡柠檬水，总统的两个成年儿子埃里克·特朗普(Eric Trump)和小唐纳德·特朗普(Donald Trump Jr.)赞美了迪拜王储以及他们的商业伙伴侯赛因·沙瓦尼(Hussain Sajwani)。
Sajwani, a billionaire businessman who, like Trump, built his wealth through real estate, told the crowd that working with the Trumps "was and continues to be a pleasure."	沙瓦尼是一位亿万富商，和特朗普一样，他也是通过地产业获得了财富。他对观众说，与特朗普家族合作“是一件愉快的事，今后也将是如此”。
On the other side of the world, in Vancouver, British Columbia, preparations continued for another ribbon-cutting, on Feb. 28, at a new Trump hotel and condo project there, funded by Malaysian tycoon Tiah Thee Kian and his son, Tiah Joo Kim.	2月28日，在世界另一端的不列颠哥伦比亚省温哥华市，一个新的特朗普酒店和公寓项目的剪彩仪式准备工作正在进行中。这个项目由马来西亚大亨程铁建(Tony Tiah Thee Kian)和儿子程如锦(Tiah Joo Kim)出资。
The two projects, the first to open since Trump became president, are among the dozen international business deals from his former life still moving forward — from India to Indonesia, Uruguay to the Dominican Republic. None of them are "new deals," as defined by the family, as they were well underway before the election.	这两个项目是特朗普就任总统后最先开业的项目。从印度到印度尼西亚，从乌拉圭到多米尼加共和国，它们是他之前事业延续下来的十几个国际业务中的两个。正如他的家族所说，它们都不是“新业务”，在竞选之前早就开始运作了。

A Web of Complications	复杂的网络
Sajwani and Tiah share traits common among Trump's partners around the world, including in Indonesia and the Philippines. They are brash, wealthy developers whose families have personal ties to Trump or to his children.	沙瓦尼和程氏父子拥有特朗普在全球各地的商业伙伴共有的特征——包括在印度尼西亚和菲律宾的伙伴。他们都是招摇、富有的开发商，他们的家族都与特朗普或其子女有私交。
But the projects in which the two men are involved highlight the complications created when the U.S. president also owns a global real estate company.	不过，这两个项目突显出美国总统同时拥有一个全球地产公司所造成的棘手情况。
Condominium units in the Vancouver building, the Trump International Hotel & Tower, have been purchased by affluent buyers, including a family that runs a Hong Kong machinery company majority-owned by a Chinese state-owned enterprise, according to real estate and corporate records. The Trump Organization is managing only the hotel, in exchange for a fee.	温哥华特朗普国际酒店和大厦(Trump International Hotel & Tower)的公寓已经被很多富人买走，包括一个经营香港一家机械公司的家族。根据地产和公司记录，该公司由一个中国国企控股。特朗普集团(The Trump Organization)仅经营酒店部分，赚取管理费。
And Sajwani has contracted extensively with the U.S. military and spoken of entering the U.S. real estate market — moves that could be easier with a friend in the White House.	沙瓦尼与美国军方有着广泛的业务联系，也提到过进军美国地产市场——在白宫有一位朋友，他的行动会更容易一些。
Eric Trump, who with his older brother helps run the Trump Organization now that their father is president, said before the Dubai event that the company was not the owner of either development, but only collected a small share of the revenues, and that it did not control who bought the units in Vancouver or the membership list at the golf course in Dubai.	父亲就任总统后，埃里克·特朗普和哥哥帮助经营特朗普集团。在迪拜的这次活动之前，埃里克表示，该集团不是这两个项目的所有者，只收取一小部分收益，对温哥华公寓的购买者和迪拜高尔夫俱乐部的会员也没有控制权。
Addressing the guests Saturday, Eric Trump praised his family's partnership with Sajwani.	周六，埃里克·特朗普在向宾客们致辞时赞扬了他的家族与沙瓦尼的合作关系。

<p>"It is not every day that you have a partner that is also a great friend," he said. "Hussain, thank you so much for your love, your friendship."</p>	<p>"你并不总是能碰到能成为好朋友的商业伙伴，"他说，"侯赛因，非常感谢你的爱和友谊。"</p>
<p>Donald Trump Jr. praised Sheikh Mohammed bin Rashid Al Maktoum, the ruler of Dubai, saying it was his vision for the country that allowed such projects to succeed.</p>	<p>小唐纳德·特朗普赞扬了迪拜王储谢赫穆罕默德·本·拉希德·阿勒马克图姆 (Sheikh Mohammed bin Rashid al-Maktoum)，称这些项目的成功得益于阿勒马克图姆对这个国家的远见。</p>
<p>"It's a great example of what can be built here and what will continue to be built in the years to come," he said.</p>	<p>"它是一个典范，向我们展示了这里可以修建什么，以及在未来的很多年里可以继续修建什么，"他说。</p>

"His attention to detail is tremendous."</p>	<p>"我们走过高尔夫球场，他说：'你看那棵树，把它往那儿挪 10 英尺。那棵树太小了，弄大点，'"达马克房地产公司(Damac Properties)的高级副总裁尼尔·麦克洛克林(Niall McLoughlin)回忆说。该项目归该公司所有。"他非常关注细节。"</p>
<p>The Trump Organization had been brought in to operate the golf course by Damac, whose chairman, Sajwani, had known Trump for years.</p>	<p>达马克公司的首席沙瓦尼认识特朗普多年。是他让特朗普集团加入了该高尔夫球场的运营。</p>

<p>A few days later, billboards near the course in Dubai showing Trump swinging a golf club and his daughter Ivanka holding a handbag were temporarily taken down, as was Trump's name, spelled out in gold letters on a wall near the entrance.</p>	<p>数日后，迪拜高尔夫球场附近展示特朗普挥动球杆、女儿伊万卡拿着手袋的广告牌以及入口附近墙上用金字拼出的特朗普名字被暂时撤下。</p>

<p>"It was a purely unfortunate coincidence," he said. "We are an apolitical organization."</p>	<p>"那纯粹是不幸的巧合，"他说，"我们是一个不关心政治的公司。"</p>

<p>Tiah's father, Tiah Thee Kian, made his fortune in the Malaysian stock market in the 1980s. But in the late 1990s, he was accused of violating securities law and eventually paid a fine of about \$900,000. At the time, he was said to be a supporter of Anwar Ibrahim, then deputy prime minister, who had challenged the leadership of Mahathir Mohamad, the</p>	<p>20 世纪 80 年代，程如锦的父亲程铁建在马来西亚股市发了财。但在 90 年代末，他被指控违反证券法，最终支付了约 90 万美元罚款。据说当时他是时任副总理安瓦尔·易卜拉欣 (Anwar Ibrahim) 的支持者，后者质疑过总理马哈蒂尔·穆罕默德 (Mahathir Mohamad) 的领导权。安瓦尔后来因鸡奸罪入狱，该案被普遍认为是政治斗争的结果。</p>

<p>Vitaly Churkin, Russia's U.N. Ambassador, Dies at 64</p>	<p>俄罗斯驻联合国大使丘尔金突然逝世</p>

He would have turned 65 on Tuesday.</p>	<p>联合国——俄罗斯驻联合国大使、在该国内部局势动荡不安、与西方的关系日趋紧张的年代代表其利益的维塔利·I·丘尔金(Vitaly I. Churkin)，于周一在曼哈顿的工作岗位上去世。他原本将于周二迎来自己的65岁生日。</p>
<p>His death comes at an important juncture in Russian-U.S. relations, with many diplomats watching to see how he would interact with Nikki R. Haley, the Trump administration's U.N. ambassador. This month, she condemned what she called Russia's "aggressive" actions in Ukraine on the same day that Churkin praised Haley's track record in politics. "I never underestimate my colleagues," he told reporters.</p>	<p>丘尔金去世之际，恰逢俄美关系处于重要关头，很多外交官都在密切关注他将如何与特朗普政府的驻联合国大使尼基·R·黑利(Nikki R. <p>Churkin, something of a legend in diplomatic circles, was a former child actor who could be caustic and wry in equal measure in his exchanges with U.S. counterparts. Once, after his American counterpart, Samantha Power, scolded him for Russia’s actions in Aleppo, Syria — “Are you truly incapable of shame?” she asked — he sharply accused her of acting like Mother Teresa. Churkin had formerly worked as a translator, and as ambassador he sometimes became visibly annoyed with United Nations translators who could not keep up with his rapid rat-a-tat speaking style.</p>	<p>曾是一名童星的丘尔金堪称外交界的传奇人物，在和美国对等官员打交道的过程中既刁钻又富于幽默感。有一次，他因俄罗斯在叙利亚阿勒颇的行动受到了时任美国驻联合国大使萨曼莎·鲍尔(Samantha Power)的斥责——“你真的感觉不到羞耻吗？”她问道——随即尖刻地揶揄对方正摆出特蕾莎修女(Mother Teresa)的样子。丘尔金以前当过翻译，担任大使期间，他有时明显会对联合国的翻译感到不耐烦，因为他语速飞快，像机关枪一样，而他们难以跟上。</p>

<p>News of Churkin’s death sent a ripple of shock across the diplomatic community. He was widely seen as a deft diplomat, skilled at using the rules and protocol of the U.N. system to his country’s advantage, including Russia’s veto on the Security Council. Trump Pursues His Attack on Sweden, With Scant Evidence	特朗普坚决不改口: 瑞典很危险, 新闻说的
LONDON — President Donald Trump escalated his attack on Sweden's migration policies Monday, doubling down on his suggestion — based on a Fox News report — that refugees in the Scandinavian country were behind a surge in crime and terrorism.	伦敦——周一,唐纳德·特朗普(Donald Trump)总统升级他对瑞典移民政策的抨击,再次强化他基于福克斯新闻频道的一则报道做出的暗示,即这个斯堪的纳维亚国家接收的难民导致该国犯罪与恐怖主义激增。
Trump set off consternation and ridicule Saturday when he seemed to falsely imply to an adoring throng at a rally in Florida that a terrorist attack had occurred in Sweden, which has admitted tens of thousands of refugees in recent years.	上周六,特朗普在佛罗里达举行的一场集会活动上似乎错误地对一群仰慕者暗示瑞典发生了一起恐怖袭击,引发一番错愕与嘲弄。最近几年,瑞典接收了数以万计的难民。
On Sunday, as questions swirled, a White House spokeswoman, Sarah Huckabee Sanders, said that "he was talking about rising crime and recent incidents in general, not referring to a specific issue."	周日,随着质疑扩大,白宫发言人萨拉·赫卡比·桑德斯(Sarah Huckabee Sanders)表示,“他是在整体上谈论犯罪不断增加和最近的一些事件,而不是特指某个问题。”
Trump then said on Twitter that he was referring to a Fox News segment about an American filmmaker who argues that the police in Sweden were covering up a migrant-driven crime wave.	接着特朗普在Twitter上表示,他指的是福克斯新闻频道对一位美国电影制作人的采访,后者坚称瑞典警方在掩盖一波由移民引发的犯罪浪潮。
Officials in both countries expressed alarm and dismay Monday at Trump's remarks. Sen. Bob Casey, D-Pa., said the president should get his information from intelligence agencies and not from television. The Swedish Embassy in Washington offered the Trump administration a briefing on its immigration policies. Sweden's prime minister, Stefan Lofven, said he was surprised by Trump's comments, and noted that	周一,两个国家的官员都对特朗普的言论表示担忧与惊愕。宾夕法尼亚州民主党参议员鲍勃·凯西(Bob Casey)表示,总统应该从情报机构获取信息,而非电视。瑞典驻华盛顿大使馆向特朗普政府提供了一份有关其移民政策的简报。瑞典首相斯特凡·勒文(Stefan Lofven)表示,他对特朗普的言论感到吃惊,并指出与国际社会相比较,瑞典在经济竞争力、人的发展与收入不平衡上均排名很高。

Sweden ranks highly on international comparisons of economic competitiveness, human development and income inequality.	
"We have challenges, no doubt about that," he allowed, adding: "We must all take responsibility for using facts correctly and for verifying anything we spread."	"我们也有挑战，这是毋庸置疑的，"他这样承认，并接着表示："我们所有人都必须承担起正确使用事实、查证自己传播的所有事情的责任。"
Yet even before the prime minister spoke, Trump pursued his attack. On Twitter, he suggested that the news media was covering up problems related to migration in Sweden.	然而，甚至在首相讲这番话之前，特朗普便继续开始抨击。他在 Twitter 上暗示，新闻媒体在掩盖瑞典与移民有关的问题。
Statistics in Sweden do not back Trump's claims. Preliminary data released last month by Sweden's crime prevention council found no appreciable increase in crimes from 2015, when the country processed a record 163,000 asylum applications, to 2016. The council did note an increase in assaults and rapes last year, but also recorded a drop in thefts, robberies and drug offenses. Officials say they have not seen any evidence for the claim, prevalent in right-wing media like Breitbart and Infowars, that migration has driven a surge in crime.	瑞典的数据并不能证明特朗普的断言。瑞典犯罪预防委员会上月发布的初步数据显示，从 20015 年至 2016 年，犯罪案件并没有明显增加。2015 年，该国处理了 16.3 万份避难申请，创下历史记录。该委员会的确指出去年该国袭击和强奸案例出现增长，但偷盗、抢劫和毒品犯罪案件有所下降。官员们表示，他们没有看到有任何证据可以证明布莱巴特新闻(Breitbart)和 Infowars 等右翼媒体广为传播的那项论断，即移民导致犯罪事件激增。
"The general crime rate in Sweden is below the U.S. national average," the State Department noted in May 2016.	"瑞典的整体犯罪率低于美国全国平均水平，"国务院在 2016 年 5 月曾指出。

Who Are the Richest of the Rich?	亿万富翁的钱从哪来，怎么花
Sitting at a table, grinding his pinkie into the corner of his mouth and staring at the screen, Dr. Evil announces he is holding the world ransom for \$1 million. Having been cryogenically frozen for 30 years, the comic villain created by the actor Mike Myers is shocked when he is told that	邪恶博士(Dr. Evil)坐在一张桌子旁，一边盯着屏幕，一边把小指头伸向嘴角，宣布他要向这个世界索要 100 万美元的赎金。这个由演员迈克·迈尔斯(Mike Myers)创造的滑稽反派人物在被低温冷冻了 30 年之后苏醒过来，当被告知 100 万美元在 1997 年不算很多钱时，他感到十分震惊。

<p>To some, today's billionaires are like Dr. Evil: selfish, rapacious and bent on world domination. To others, billionaires are worthy of respect for having put their names and fortunes behind an array of philanthropic endeavors, many aimed at improving the lives of people at the very base of the wealth pyramid.</p>	<p>对有些人来说，如今的亿万富翁就像邪恶博士一样：自私、贪婪，一心要主宰这个世界。而在另一些人看来，亿万富翁值得尊敬，因为他们将自己的名字和财富投入到一系列慈善事业中，有许多人致力于改善财富金字塔最底层人群的生活。</p>

<p>There were 2,473 billionaires in the world, as of Wealth-X's last count through 2015. That was a 6.4 percent increase in billionaires from the year before.</p>	<p>截止 Wealth-X 2015 年最近一次统计之时，世界上有 2473 名亿万富翁，比前一年的数量增长了 6.4%。</p>
<p>But who these billionaires are and what they're like is more difficult to discern. Many may seem as ordinary as the guy sitting next to you on the train – or in Michael Bloomberg's case, standing beside you on the subway, when he was mayor of New York. (Bloomberg is No. 9 on Wealth-X's list.)</p>	<p>但要分辨这些亿万富翁真实和表面的样子，更加困难。有许多看起来就跟火车上坐在你旁边的家伙一样普通——或者像布隆伯格(Bloomberg)那样，在地铁里站在你旁边，当时他还是纽约市长。(布隆伯格在 Wealth-X 的名单上排名第九。)</p>
<p>There are certainly billionaires who want to save the world, like Gates, Buffett and Bloomberg, who have pledged to give their fortunes away. Others in the top 10 are also philanthropic but are still focusing on their day jobs, like Jeff Bezos of Amazon, Mark Zuckerberg of Facebook and Larry Page of Alphabet (the parent of Google) – Nos. 4, 5 and 10.</p>	<p>肯定有盖茨、巴菲特和布隆伯格这样想要拯救世界的亿万富翁，他们承诺捐赠自己的财富。前十位中的其他亿万富翁也参与慈善，不过他们仍然将主要精力放在自己的日常工作上，比如亚马逊(Amazon)的杰夫·贝佐斯(Jeff Bezos)、Facebook 的马克·扎克伯格(Mark Zuckerberg)，以及 Google 母公司字母表公司(Alphabet)的拉里·佩奇(Larry Page)——分别排名第四、第五和第十。</p>
<p>Yet many of the billionaires beyond the top 10 or 20 have a much lower profile. Who outside of finance or hockey knew of Vincent Viola, a former oil trader and current owner of the Florida Panthers, before President Donald Trump nominated him to be secretary of the Army? Now that he has withdrawn, he can return to relative anonymity.</p>	<p>然而，排在前 10 或前 20 之外的许多亿万富翁要低调得多。在被唐纳德·特朗普总统提名为陆军部长之前，金融或冰球界之外有谁知道文森特·维奥拉(Vincent Viola)? 他之前是一名石油商人，现为佛罗里达美洲豹队(Florida Panthers)的所有人。现在他已经选择退出了，又可以回归相对的默默无闻。</p>
<p>For that matter, Wilbur L. Ross, Trump's choice for commerce secretary, is the wealthiest of the president's billionaire cabinet picks. He would pop up in the headlines every few years for a deal he was making but then return to what could be called the quiet opulence of the billionaire class.</p>	<p>说到这一点，被特朗普选中担任商务部长的威尔伯·L·罗斯(Wilbur L. He added that finance had a bigger lead in first place several years ago, but it has been losing ground as industries like technology boom.	他还表示,前几年金融的领先优势更大,但随着科技等行业繁荣起来,这种优势便逐渐减弱。
And while billionaires in the United States are often better known than those elsewhere, there are more billionaires in Europe (although they have less total wealth than their U.S. counterparts).	尽管相比其他地方,美国的亿万富翁往往更为人所知,但欧洲的亿万富翁总数更多(不过他们的财富总额少于美国的亿万富翁)。
Asia is gaining ground quickly. Research from UBS calculated that a new billionaire is created every three days in Asia, with 65 percent of the region's billionaires in China.	亚洲在快速赶上。据瑞银(UBS)估算,亚洲每三天就诞生一名新的亿万富翁,而该地区 65%的亿万富翁集中在中国。
While the number of billionaires in China is rising at a fast clip, the pace of growth in billionaires worldwide is slowing. Wealth-X said the number will be 3,250 by 2020, down 16 percent from an earlier prediction of 3,873. This is because economic growth is expected to slow around the world.	尽管中国亿万富翁的数量在快速增长,但全球亿万富翁的增长速度却在减慢。Wealth-X 表示,至 2020 年,全球亿万富翁数量将达到 3250 人,比早年预计的 3873 人少 16%。这是因为全球经济增长预计将放缓。
And not all billionaires are household names.	上榜的亿万富翁并非全都家喻户晓。

Kevin Systrom, chief executive of Instagram, is surely well known in Silicon Valley — and among students at Stanford University (his alma	Instagram 首席执行官凯文·斯特罗姆(Kevin Systrom)在硅谷肯定是大名鼎鼎——那些想要像他一样在 33 岁获得 12 亿美元资本净值的斯坦福大学(他

It is fracturing our societies and undermining democracy."</p>	<p>"每 10 个人里就有 1 个人仍以平均每天不足 2 美元的钱过活, 在这样的情况下, 有如此多的财富掌握在如此少的人手中, 让人难以接受," 乐施会执行总干事温妮·比扬依玛(Winnie Byanyima)在一份声明中表示。"不平等正在令数亿人陷入贫困。它在撕裂我们的社会, 在破坏民主。"</p>

Some live lavishly and enjoy being in the headlines, while others live frugally, if not anonymously. There are big spenders and those who give it away.</p>	<p>亿万富翁可能拥有巨大的消费潜力,但他们使用这种力量的方式当然是截然不同。一些人生活得很奢侈,喜欢在新闻中出现,另一些人生活节俭,几乎到了隐姓埋名的地步。有人挥金如土,也有人乐善好施。</p>
<p>Mr. Ellison, a founder of Oracle and its executive chairman, owns most of the 140-square-mile Hawaiian island of Lanai, after buying 88,000 acres in 2012 with plans to create a sustainable, eco-friendly resort. <p>His fellow billionaire Richard Branson, founder of the Virgin Group, bought 74-acre Necker Island in the Caribbean in 1979. It operates as a private luxury resort, with room for 34 adults and six children at about \$2,300 each per night. Mr. Branson is a serial blogger and Twitter user, sending out inspirational messages about entrepreneurship, conservation, music and travel.</p>	<p>同为亿万富翁的理查德·布兰森(Richard Branson)是维珍集团(Virgin Group)的创始人,1979年,他在加勒比买下了占地74英亩的内克岛(Necker Island),把它办成一家可容纳34名成人和6个孩子的私人豪华度假村,每晚费用约在2300美元。他还买下了附近的莫斯科多岛(Mosquito Island),最近,前总统贝拉克·奥巴马(Barack Obama)就是在这里度假。布兰森热衷使用博客和Twitter,经常发送关于创业、保护、音乐和旅行的各种鼓舞人心的信息。</p>
<p>Paul Allen, a Microsoft founder, is unmistakable on the high seas in his \$250 million superyacht, Octopus, which has two helicopter pads, a submarine, a glass-bottom swimming pool and a recording studio, not to mention room for 26 guests. Then there's the sultan of Brunei, Hassanal Bolkiah, with a fortune once estimated by Forbes to be as much as \$20 billion. He has the world's largest collection of rare cars, including a gold-coated Rolls-Royce; his 1,788-room palace, Istana Nurul Iman, is the largest private home in the world.	还有文莱苏丹哈桑纳尔·博尔基亚(Hassanal Bolkiah), 据《福布斯》(Forbes)估计, 他的财富达到 200 亿美元。他拥有世界上最大的稀有汽车收藏, 包括一辆镀金劳斯莱斯; 他的宫殿奴鲁伊曼王宫(Istana Nurul Iman)拥有 1788 个房间, 是世界上最大的私人住宅。
But not all billionaires like to be so obvious. Chuck Feeney, who built an empire of duty-free shops and a multibillion-dollar fortune along the way, has worked since the 1980s to give all that money away, as quietly as possible.	但并非所有亿万富翁都喜欢这么抛头露面。查克·菲尼(Chuck Feeney)建立了他的免税店帝国, 积累了数十亿美元的财富, 自 1980 年代以来, 他尽可能安静地捐出自己所有的钱。
Forbes magazine once called him the "James Bond of philanthropy" for his work through his charity, the Atlantic Philanthropies. The foundation has given away \$8 billion to education, science, health care and human rights projects around the world and made its final grant last year. It plans to close for good in 2020.	由于他通过自己的慈善机构“大西洋慈善”(Atlantic Philanthropies)所做的工作, 《福布斯》杂志称他为“慈善界的 007”。该基金会向世界各地的教育、科学、健康医疗和人权项目赠送了 80 亿美元, 在去年拨出了最后一笔款项。它计划在 2020 年永久关闭。
Another example of modest living is Mr. Kamprad, the founder of Ikea, the assembly-required Swedish home-goods company. According to estimates by Forbes, Mr. Kamprad was worth as much as \$23 billion before giving away much of his stake in the company, but he lives stingily. He flies economy class and drove an old Volvo until recently. He is also said to prefer cheap hotels and secondhand clothes. Could that be a carefully shaped public persona? There are also reports in the media that he owns a Swiss chalet and a French vineyard. An Ikea spokeswoman said Mr. Kamprad "is a private person and we have no information about his private assets."	作为宜家(Ikea)创始者的坎普拉德是另一个过着简朴生活的例子, 宜家是瑞典的一个需自行装配的家居用品公司。根据《福布斯》估计, 在放弃自己大部分的公司股份之前, 坎普拉德的身家高达 230 亿美元, 但他过着吝啬的生活。他出行坐经济舱, 直到前不久还在开一辆旧沃尔沃轿车。他还说自己喜欢便宜的酒店和二手衣服。这是他精心塑造的公共形象吗? 有媒体报道说, 他拥有一个瑞士小木屋和一座法国葡萄园。宜家发言人称坎普拉德“是一个注重隐私的人, 我们没有关于他的私人资产的信息”。

<p>The fact is, most “ordinary” billionaires live quietly. “Unlike what the public thinks, the majority of these people come out of the middle class or even poverty,” said Jim Grubman, a clinical psychologist who wrote “Strangers in Paradise,” a book about how people adjust to becoming wealthy.</p>	<p>事实是，大多数“普通”的亿万富翁过着宁静的生活。“与公众的想法不同，这些人大多是从中产阶级走出来的，甚至是从穷人起家的，”临床心理学家吉姆·格鲁布曼(Jim Grubman)说，他著有一本关于人们如何适应富裕的书，名为《天堂里的陌生人》(Strangers in Paradise)。</p>
<p>“The billionaire lifestyle makes for good TV, but below the surface is a much bigger portion of people who are salt-of-the-earth families just concentrating on raising their kids and running their businesses,” said Mr. Grubman, who is a consultant at Cambridge Family Enterprise Group, an adviser to wealthy families.</p>	<p>“亿万富翁的生活方式可以拍成很好的电视节目，但是表面之下，更大的一部分社会中坚家庭只是专注于抚养孩子和经营生意，”格鲁布曼说，他还是剑桥家族企业集团(Cambridge Family Enterprise Group)的顾问，该集团为富裕家庭提供咨询服务。</p>
<p>More than half of billionaires are self-made, either through business or successful investments, but of course there are dynastic families as well. Queen Elizabeth II of Britain would not be even Europe’s richest monarch if you did not count Buckingham Palace, the crown jewels and assorted royal accouterments that are state-owned. That title goes to Prince Hans-Adam II of Liechtenstein, whose personal fortune is estimated to be \$4 billion, mostly from banking. His passion is collecting art, including works by Rembrandt and Rubens, holding most of it in the National Museum.</p>	<p>一半以上的亿万富翁是通过商业或成功的投资白手起家的，不过当然也有王朝家庭。如果不计入归国家所有的白金汉宫、皇冠上的珠宝和各种皇家财产，英国女王伊丽莎白二世(Queen Elizabeth II)算不上欧洲最富有的君主，这个称号属于列支敦士登亲王汉斯-亚当二世(Hans-Adam II)，他的个人财富估计为 40 亿美元，主要来自银行业。他的爱好是收集艺术，包括伦勃朗和鲁本斯的作品，它们大部分收藏在国家博物馆。</p>

Sergey Kislyak, Russian Envoy, Cultivated Powerful Network in U.S.	曾经宾客盈门，俄罗斯大使如今感受华府孤独
Sergey I. Kislyak, the longtime Russian ambassador to the United States, hosted a dazzling dinner in his three-story, beaux-arts mansion four blocks north of the White House to toast Michael A. McFaul just weeks before he took up his post as the U.S. envoy to Russia.	迈克尔·A·麦克福尔(Michael A. McFaul)出使俄罗斯几周前，驻美国多年俄罗斯大使谢尔盖·I·基斯利亚克(Sergey I. Kislyak)在自家宅邸内举办了一场豪华晚宴，为麦克福尔践行，房子位于白宫以北四个街区开外，是一栋布杂艺术风格的三层建筑。
It was, McFaul recalled, an “over-the-top, extraordinary dinner,” including five courses of Russian fusion cuisine for 50 seated guests who shared one main characteristic: They were government officials intimately involved in formulating Russia policy for the Obama administration, including senior figures from the Defense and State departments.	麦克福尔回忆说，那是一次“顶级的，非凡的晚餐”，包括五道俄罗斯融合菜，出席宴会的50名客人有一个主要的共同点：他们都是奥巴马政府内密切参与制定俄罗斯政策的官员，包括国防部和国务院的大人物。
“I admired the fact that he was trying to reach deep into our government to cultivate relations with all kinds of people,” McFaul said of the dinner in late 2011. “I was impressed by the way he went about that kind of socializing, the way he went about entertaining, but always with a political objective.”	“他试图深入我们的政府，培养与各种人之间的关系，我很佩服这一点，”麦克福尔谈及2011年底的那次晚餐。“他的这种社交方式令人钦佩，他是在娱乐，但总是有一个政治目标。”
Kislyak’s networking success has landed him at the center of a sprawling controversy and made him the most prominent, if politically radioactive, ambassador in Washington. Two advisers to President Donald Trump have run into trouble for not being more candid about contacts with Kislyak: Michael Flynn, who was forced to resign as national security adviser, and now Attorney General Jeff Sessions, who admitted two previously undisclosed conversations. Kislyak also met during the transition with Trump’s son-in-law and adviser, Jared Kushner.	人脉构建上的成功导致基斯利亚克成为一场日渐扩大的争议的中心，也成为华盛顿最显眼的一位大使，尽管接近他要冒着政治风险。唐纳德·特朗普总统的两名顾问因为没有申明同基斯利亚克的关系而遇到了麻烦：迈克尔·弗林(Michael Flynn)被迫辞去国家安全顾问之职，现在司法部长杰夫·塞申斯(Jeff Sessions)也承认了两次未曾公开的对话。在总统权力交接期间，基斯利亚克还会见了特朗普的女婿和顾问贾里德·库什纳(Jared Kushner)。

<p>A career diplomat raised in the Soviet era, Kislyak, 66, (pronounced kees-LYACK) may seem an unlikely protagonist in such a drama. He has interacted with U.S. officials for decades and been a fixture on the Washington scene for the past nine years, jowly and cordial with an easy smile and fluent if accented English, yet a pugnacity in advocating Russia’s assertive policies.</p>	<p>今年 66 岁的基斯利亚克是苏联时期崛起的职业外交官，看上去很难想象想象他会成为这样一场大戏的主角。他已经同美国官员来往了数十年，过去的九年里更是华盛顿政界的恒定存在，他下颚宽厚，热情友好，总是面带轻松的笑容，说着一口略带口音的流利英语，然而在宣传俄罗斯的强硬政策时也颇为好斗。</p>
<p>Invited to think tanks to discuss arms control, he would invariably offer an unapologetic defense of Russia’s intervention in Ukraine and assail Americans for what he portrayed as their hypocrisy – then afterward approach a debating partner to suggest dinner.</p>	<p>被邀请加入讨论军备控制的智库时，他总是为俄罗斯干预乌克兰提供毫无愧意的辩护，并且攻击美国人，形容他们是伪君子——然后他会走向一个辩论对手，邀请对方共进晚餐。</p>
<p>“Not all of us, myself included, initially appreciated his very tough, in-your-face style,” said Dimitri K. Simes, president of the Center for the National Interest and an advocate of closer Russian-American relations, who hosted a dinner at his home for Kislyak after his arrival in Washington and regularly invited him to events at his center. “But we gradually came to develop a grudging respect for him as someone who was really representing the positions of his country.”</p>	<p>“一开始，不是所有人都欣赏他那种非常强硬的、特立独行的风格，包括我在内，”国家利益中心(Center for the National Interest)主席德米特里·K·西姆斯(Dimitri K. Simes)说，他主张建立更密切的俄美关系。基斯利亚克来到华盛顿后，西姆斯在家中举办晚宴为他接风。“但我们渐渐开始不情愿地对他产生了尊重，把他当做真正代表他的国家立场的人。”</p>
<p>Simes introduced Kislyak to Trump in a receiving line last April at a foreign policy speech hosted by his center at the Mayflower Hotel in Washington. Kislyak was one of four ambassadors who sat in the front row for Trump’s speech at the invitation of the center. Simes noted that Sessions, then a senator from Alabama, was there, but he did not notice whether he and the ambassador spoke at that time.</p>	<p>去年 4 月，在国家利益中心于华盛顿的五月花酒店举行的外交政策演讲上，西姆斯把基斯利亚克介绍给了特朗普。受中心邀请，特朗普做了演讲，基斯利亚克是当时坐在第一排的四位大使之一。西姆斯指出，当时任阿拉巴马州参议员的塞申斯也在场，但他没有注意到塞申斯和大使是否进行了交谈。</p>
<p>The Russian Embassy did not respond to an email Thursday, but Kislyak defended engagements with U.S. officials last November, when he was</p>	<p>俄罗斯大使馆没有回复周四的电子邮件采访，但是基斯利亚克去年 11 月曾为自己同美国官员的交往进行辩解，当时他在斯坦福大学的一次演讲中被问</p>

He said it was natural for diplomats to attend events such as political conventions and foreign policy speeches by candidates.</p>	<p>及俄罗斯干涉总统选举这一指控。基斯利亚克回应了俄国政府的说法，称该国没有参与黑客攻击。他说，外交官参加诸如政治集会以及总统候选人的外交政策演讲之类活动是很自然的。</p>

<p>Even some critics of Russian policy said it was hardly surprising that Kislyak would meet people around Trump. "That was part of his job," said Steven Pifer, a former ambassador to Ukraine who is now at the Brookings Institution. "I don't see anything nefarious in that per se, and I don't think it was out of the box for Senator Sessions to talk with Kislyak."</p>	<p>就连一些俄罗斯政策的批评者也认为，基斯利亚克会遇到特朗普身边的人不足为奇。"这是他工作的一部分，"前驻乌克兰大使、现任职布鲁金斯学会的史蒂文·皮弗(Steven Pifer)说。"我不觉得这件事本质里有什么恶意的东西，我也不觉得塞申斯参议员同基斯利亚克谈话是什么新鲜事。"</p>
<p>An expert on arms control negotiations with a degree from the Moscow Engineering Physics Institute, Kislyak first served in the Washington embassy from 1985-89 during the late Soviet period. He became the first Russian representative to NATO and was ambassador to Belgium from 1998 to 2003. He returned to Moscow, where he spent five years as a deputy foreign minister.</p>	<p>基斯利亚克毕业于莫斯科工程物理研究所，是一位军备控制谈判专家，在苏联时代末期，即1985至1989年期间首次来到驻华盛顿大使馆工作。他成为第一位俄罗斯驻北约代表，1998年至2003年担任比利时大使。之后他回到莫斯科，担任副外交部长五年。</p>

If they do not carry out these contacts, do not participate in negotiations, then they are not diplomats."	"我要向你们揭露一个军事秘密：外交官要工作，而且他们的工作包括同他们所在国的人进行接触，"她说。"到处都有记录。如果他们不进行这些联系，不参与谈判，那么他们就不是外交官。"
Kislyak has told associates that he will leave Washington soon, likely to be replaced by a hard-line general. His name recently surfaced at the United Nations as a candidate for a new post responsible for counterterrorism, diplomats there said. Vitaly I. Churkin, the Russian ambassador to the United Nations, died last month and that post remains vacant.	基斯利亚克已经告诉同事，他很快就会离开华盛顿，他的职务很可能被一个强硬派将领取代。据驻联合国外交官说，他的名字最近在联合国出现，作为一个负责反恐怖主义的新职位的候选人。而俄罗斯驻联合国大使维塔利·丘尔金(Vitaly I. For Kislyak, Washington is no longer the place it once was. It has become lonely, and he has told associates that he is surprised how people who once sought his company were now trying to stay away.	对于基斯利亚克，华盛顿已经今非昔比。它变得孤独，他告诉同事，以前常来找他的人现在纷纷远离他，这让他感到惊讶。

Building Trade Walls	特朗普的贸易计划：更多壁垒
President Trump's advisers and allies are pushing an ambitious idea: Remake American trade.	特朗普总统的顾问和盟友在推动一个颇具野心的想法：重塑美国贸易。
They are considering sweeping aside decades of policy and rethinking	他们在考虑将延续几十年的政策弃之一旁，重新考虑美国如何看待与各个国

<p>how the United States looks at trade with every country. Essentially, after years of criticizing China and much of Europe for the way they handle imports and exports, these officials want to copy them.</p>	<p>家的贸易。在批评中国和欧洲许多国家处理进出口问题的方式多年之后，这些官员其实也想采用这些办法。</p>
<p>This approach could result in higher barriers to imports that would end America's decades-long status as the world's most open large economy. This could lead to slightly higher prices in the United States for everything from Chilean grapes to iPhones to gasoline. But it could also provide a boost to companies and workers who make things in the United States and sell them abroad.</p>	<p>这一举措可能导致更高的进口壁垒，令美国失去占据了几十年的世界上最开放大经济体的地位。这也会导致美国所有商品的价格略微上涨，不管是智利葡萄、iPhone，还是石油，都不例外。但它也能给在美国生产、在海外销售产品的企业和工人提供助力。</p>
<p>Will it happen? Mr. Trump has hinted at the issue, saying to Congress last week that "other countries make us pay very high tariffs and taxes," but "we charge them almost nothing." The discussion, if translated into action, could affect national economies and regular households alike — and create big problems for countries like China that depend heavily on exports to the United States.</p>	<p>这种情况会发生吗？特朗普在这个问题上做出了暗示。他上周对国会表示，“其他国家向我们征收高昂的关税和税收”，但“我们却几乎什么也不向他们收”。这项讨论如果转化为行动，可能会同时影响到国民经济和普通家庭——同时给中国等严重依赖对美出口的国家造成大麻烦。</p>
<p>Putting Up Barriers</p>	<p>设置障碍</p>
<p>First, it helps to understand how the United States and other countries currently treat trade.</p>	<p>首先，它有助于理解美国和其他国家目前如何对待贸易问题。</p>
<p>The most visible layer is tariffs, or taxes on imports. The World Trade Organization, the global trade adjudicator, has allowed developing countries to impose far higher tariffs than industrialized countries, while they build up industries at home. China has been counted as a developing country.</p>	<p>最可见的层面是关税，或说进口税。全球贸易的裁判——世界贸易组织 (World Trade Organization) 允许发展中国家在国内发展自身产业的同时，征收比工业化国家高得多的关税。中国一直被看作一个发展中国家。</p>
<p>But many countries have additional taxes. For example, China and other countries, but not the United States, also charge a steep value-added</p>	<p>但许多国家还有附加的税。比如，中国和其他国家——但不包括美国——也征收过高的增值税，那是一种对进口产品和本国产品都征收的全国性营业</p>

tax, which is a kind of national sales tax on imports and home-produced goods alike. Exports are exempt from value-added taxes.	税。出口产品则免收增值税。
Once value-added taxes and sales taxes are included in an international comparison, America's taxes on imports are much lower than those of almost every other country.	一旦将增值税和营业税纳入一项国际比较,就会发现相比几乎所有的其他国家,美国的进口税要低得多。
Rethinking Trade	重塑贸易
Mr. Trump's advisers and some lawmakers don't like this arrangement.	特朗普的顾问和一些议员不喜欢这样的局面。
For starters, they question why China's average tariffs are about three times as high as those in the United States – and its tariffs on manufactured goods, which involve a lot of jobs to produce them, are far higher still. Those levels are allowed because when China joined the World Trade Organization in 2001, it was clearly a developing country. Lower American trade barriers have helped China increase exports to the United States, while importing fairly little.	首先,他们质疑为何中国的平均关税是美国的三倍之多——它对需要很多劳动力参与的制造业产品征收的关税也高得多。这样的高税额是被允许的,因为在2001年加入世贸组织时,中国显然是一个发展中国家。降低美国贸易壁垒促进了中国向美国的出口,但它从美国进口的产品却非常之少。
Today, China's designation as a developing country is more debatable. China is the world's second-largest economy and the biggest producer of steel and cars.	如今,将中国认定为发展中国家变得更具有争议性了。中国现在是世界第二大经济体,也是最大的钢铁和汽车生产国。
Still, China trails most developed nations by some measures, and Chinese officials argue that it is still developing and does not yet qualify as industrialized.	但是按照一些标准衡量,中国仍然落后于发达国家。中国官员坚称,它依然是发展中国家,还不够资格被称为工业化国家。
China's economy is still roughly two-thirds the size of the American economy, even though China has four times as many people. Average incomes in China are still one-fifth to one-quarter of levels in the United States, and much of China's interior is still underdeveloped.	尽管人口是美国的四倍,但中国的经济规模依然只有美国的三分之二。中国平均收入只有美国平均收入的五分之一至四分之一,而且中国内地大多数地方依然处于不发达状态。
"We still hold the developing countries' standpoint," said Li Gang, the	"我们还是持发展中国家立场,"中国商务部下属的研究机构国际贸易经济合

deputy dean of the Commerce Ministry's research unit, the Chinese Academy of International Trade and Economic Cooperation.	作研究院副院长李钢说。
When China joined the W.T.O. in 2001, the expectation was that its tariffs would later be adjusted lower during global trade talks, known as the Doha Round. But those talks fell apart for a variety of reasons.	中国在 2001 年加入世贸组织时，外界期待是该国关税会在之后被称为多哈回合(Doha Round)的全球贸易谈判中调低。但这些谈判因为各种各样的原因破裂了。
How Tariffs Hit Industries	关税如何打击行业发展
While China's average tariffs are higher, they vary widely by industry, and that has contributed to big industrial shifts.	尽管中国的平均关税更高，但各个行业的差别很大，这引发了重大的行业迁移。
Consider cars. China's tariff on imported cars is 25 percent of the wholesale price, which is one reason General Motors, Ford and Volkswagen set up huge factories in China. By contrast, tariffs in the United States are just 2.5 percent for imported cars, minivans and sport utility vehicles. So automakers make in China almost all the cars that they sell there, while many cars in the United States are imported.	看看汽车领域。中国对进口汽车征收相当于批发价 25% 的关税，这是通用汽车(General Motors)、福特(Ford)和大众汽车(Volkswagen)在中国大建工厂的原因之一。相比之下，美国对进口汽车、小型货车和 SUV 征收的关税只有 2.5%。所以汽车厂商在中国销售的汽车几乎都是在本地生产，而美国的许多汽车都是进口的。
To be sure, automakers have many reasons to build factories in China, including proximity to low-cost suppliers as well as to customers in a big new market.	当然，汽车厂商在中国建厂的理由还有很多，比如离低成本供应商和一个新兴大市场的消费者比较近。
Trade Redo	贸易重构
Some of Mr. Trump's advisers and Republicans in the House of Representatives want to replace America's current taxes on corporate profits with a system that raises the costs of imports while helping exports.	特朗普的一些顾问和众议院的一些共和党人想废除美国对公司利润的现行税法，代之以提高进口成本、促进出口的制度。
Companies currently deduct practically all of their costs, including imports, from their sales revenue, and then pay taxes on the profits that are left. The new idea, sometimes called a border-adjusted tax,	目前，公司扣除销售收入的几乎所有成本，包括进口成本，然后根据剩余的利润纳税。而这种有时被称为边境调整税的新想法主要涉及停止扣除进口成本，从而对进口货物征税。与此同时，将不再对出口利润征税，而且将降低

<p>essentially involves ending the deductibility of imports so that they would be taxed. At the same time, profits on exports would no longer be taxed, and the overall tax rate would be cut. Big beneficiaries would be domestic factory owners and workers and big exporters like Boeing. But other countries might retaliate, and some Senate Republicans worry it could violate the rules of the W.T.O.</p>	<p>整体税率。最大的受益者将是国内工厂所有者和工人以及大型出口公司，比如波音公司(Boeing)。但其他国家可能会报复，参议院的一些共和党人担心它可能违反世界贸易组织的规则。</p>
<p>A border-adjusted tax would “mean a trade war not only between China and the U.S. but across the whole world,” said Wei Jianguo, a former Chinese vice minister of commerce. “China is firmly against it.”</p>	<p>前中国商务部副部长魏建国表示，边境调整税“不仅意味着中美之间的贸易战，而且是全球范围的”，“中方强力反对”。</p>
<p>The idea nonetheless has support among House Republicans, in addition to some of Mr. Trump’s supporters, although the president himself has called it “too complicated.” It has also divided businesses, with big importers opposed.</p>	<p>但是，除了特朗普的一些支持者，这种想法还得到了众议院共和党人的支持，尽管总统本人说它“太复杂”。它也在企业中造成了分裂，遭到大型进口商的反对。</p>
<p>Rising Protectionism</p>	<p>不断增强的保护主义</p>
<p>Even before Mr. Trump took office, America’s taste for free trade was fading. While China protects many more of its industries than the United States does, China has also been moving faster to liberalize.</p>	<p>甚至在特朗普上台之前，美国对自由贸易的兴趣就在减退。虽然中国保护的行业比美国的多得多，但中国也在更快地走向自由化。</p>
<p>Global Trade Alert, a nonprofit based in Zurich that tracks and opposes protectionism, has documented 1,066 discriminatory American measures since the height of the global financial crisis in November 2008, including bailouts and subsidies for American companies, Buy America measures, tariff increases and other moves. Those are more measures than in any other country, although that may be partly because it is easier to document such measures in the United States, said Simon Evenett, the project’s leader. The American measures are</p>	<p>跟踪和反对保护主义的苏黎世非营利组织“全球贸易预警”(Global Trade Alert)记录了自2008年11月全球金融危机顶峰以来美国的1066项歧视性措施，包括对美国公司的救助和补贴、“买美国商品”举措，以及提高关税等措施。该项目领导人西蒙·伊文尼特(Simon Evenett)表示，美国的此类措施比其他任何国家都多，虽然这可能部分是因为记录美国的这些措施更为容易。美国这些措施的应用范围也非常狭窄，只影响到一小部分贸易。</p>

also extremely narrow, affecting a small share of trade.	
Mr. Wei said that the United States was wrong to feel threatened by China and should embrace free trade. Like many Chinese officials, he sees the Trump administration as motivated to a considerable extent by a fear of the rise of China, and added that “we don’t want the U.S. to have imaginary enemies in geopolitics.”	魏建国称，美国感觉受到了中国威胁是错误的，它应该接受自由贸易。与许多中国官员一样，他认为特朗普政府在很大程度上是出于对中国崛起的恐惧。他还说，“我们不希望美国有地缘政治上的假想敌。”

Jon Huntsman Is Said to Accept Post as Ambassador to Russia	美国前驻华大使洪博培或任驻俄大使
WASHINGTON — Jon M. Huntsman Jr. has accepted President Trump’s offer to be ambassador to Russia, people with knowledge of the matter said on Thursday, taking on an assignment that is challenging in the best of times, and even more so now, given the questions swirling around Mr. Trump’s presidential campaign and its ties to Russian officials.	华盛顿——了解情况的人士周四透露，洪博培(Jon M. Huntsman Jr.)已接受特朗普总统的邀请，担任美国驻俄罗斯大使。这项任务即便是在最好的时候也颇具挑战性，而目前，考虑到特朗普的总统竞选和它与俄罗斯官员之间的关系引发的质疑，其挑战性进一步增加。
Mr. Huntsman, a former Republican governor of Utah, served as President Barack Obama’s ambassador to China from 2009 to 2011. Several experts said he would need great political dexterity to navigate Moscow at a time when Mr. Trump has called for better ties, but Russia’s role in the 2016 campaign remains the subject of intense scrutiny.	来自共和党的洪博培曾任犹他州州长，并在2009年至2011年期间担任贝拉克·奥巴马总统的驻华大使。多位专家表示，在特朗普要求改善两国关系，但俄罗斯在2016年选举中所扮演的角色依然在接受严格调查之际，他必须在政治上极其灵活才能在莫斯科开展工作，

Russia’s RT Network: Is It More BBC or K.G.B.?	西方国家警惕俄罗斯 RT 新闻网宣传攻势
LONDON — The London newsroom and studios of RT, the television channel and website formerly known as Russia Today, are ultramodern and spacious, with spectacular views from the 16th floor overlooking the Thames and the London Eye. And, its London bureau chief, Nikolay A. Bogachikhin, jokes, “We overlook MI5 and we’re near MI6,” Britain’s domestic and foreign intelligence agencies.	伦敦——电视频道和网站 RT 以前叫做《今日俄罗斯》(Russia Today)，它在伦敦的新闻室和制作间采用超现代风格，空间宽敞，而且位置在 16 楼，窗外景色壮观，可以俯瞰泰晤士河与伦敦眼。其伦敦分社社长尼古拉·A·波加奇欣(Nikolay A. Bogachikhin)开玩笑说：“我们俯视军情五处，靠近军情六处，”这指的分别是英国对内和对外的情报机构。
Bogachikhin was poking fun at the charge from Western governments, American and European, that RT is an agent of Kremlin policy and a tool directly used by President Vladimir Putin to undermine Western democracies — meddling in the recent U.S. presidential election and, European security officials say, trying to do the same in the Netherlands, France and Germany, all of which vote later this year.	波加奇欣是在拿西方政府对 RT 的批评打趣。美国和欧洲指责 RT 是克里姆林宫政策的代理人，也是普京总统直接用来破坏西方民主国家的工具——破坏行动包括最近干预美国总统选举，并且据欧洲安全官员说，俄罗斯还试图在荷兰、法国和德国也这样做；这几个国家预计都在今年晚些时候举行大选。
But the West is not laughing. Even as Russia insists that RT is just another global network like the BBC or France 24, albeit one offering “alternative views” to the Western-dominated news media, many Western countries regard RT as the slickly produced heart of a broad, often covert disinformation campaign designed to sow doubt about democratic institutions and destabilize the West.	但西方没有笑。即使俄罗斯坚称 RT 和 BBC 或 France24 一样不过是一个全球性的新闻网络，不过是提供了对西方主导的新闻媒体的“不同看法”，但很多西方国家认为 RT 是一个广泛的、往往是隐蔽的假信息宣传的核心，它打造得光鲜精致，旨在传播对民主制度的怀疑，破坏西方的稳定。

<p>Western attention focused on RT when the Obama administration and U.S. intelligence agencies judged with "high confidence" in January that Putin had ordered a campaign to "undermine public faith in the U.S. democratic process," discredit Hillary Clinton through the hacking of Democratic Party internal emails and provide support for Donald Trump, who as a candidate said he wanted to improve relations with Russia.</p>	<p>当奥巴马政府和美国情报机构在今年1月以“很大的可能性”判断普京下令发起了一个“破坏公众对美国民主进程的信心”的行动时，西方的注意力集中在了RT上。该行动通过入侵民主党内部电子邮件来削弱希拉里·克林顿(Hillary Clinton)的公信力，给唐纳德·特朗普帮忙；特朗普作为总统候选人，说他希望改善与俄罗斯的关系。</p>
<p>Watching RT can be a dizzying experience. Hard news and top-notch graphics mix with interviews from all sorts of people: well known and obscure, left and right. They include favorites like Julian Assange of WikiLeaks and Noam Chomsky, the liberal critic of Western policies; odd voices like actress Pamela Anderson; and cranks who think Washington is the source of all evil in the world.</p>	<p>观看RT可能会令人产生眩晕感。纯新闻、制作一流的图表和各种人物访谈混合在了一起，采访对象有的名气不小，也有人无籍籍名，立场有左也有右。维基解密的朱利安·阿桑奇(Julian Assange)和批评西方政策的自由派诺姆·乔姆斯基(Noam Chomsky)是他们的最爱；还有一些奇特的声音，比如女演员帕米拉·安德森(Pamela Anderson)；以及一些认为华盛顿是世界上所有邪恶源头的怪人。</p>
<p>But if there is any unifying character to RT, it is a deep skepticism of Western and U.S. narratives of the world and a fundamental defensiveness about Russia and Putin.</p>	<p>但是，如果说RT有任何统一的特色，那就是它对西方和美国的说法充满怀疑，从根本上维护俄罗斯和普京。</p>
<p>Analysts are sharply divided about the influence of RT. Pointing to its minuscule ratings numbers, many caution against overstating its effect. Yet focusing on ratings may miss the point, says Peter Pomerantsev, who wrote a book three years ago that described Russia's use of television for propaganda.</p>	<p>对于RT的影响力，分析人士之间分歧严重。很多人提到它的收视率非常低，警告不要夸大它的效果。但彼得·波梅兰采夫(Peter Pomerantsev)说，把重点放在收视率上可能没有抓住要领。他在三年前写过一本书，介绍俄罗斯用电视进行宣传的情况。</p>
<p>"Ratings aren't the main thing for them," he said. "These are campaigns for financial, political and media influence."</p>	<p>"对他们来说，收视率不是主要的，"他说。"争夺金融、政治和媒体影响力的活动才是。"</p>
<p>RT and Sputnik propel those campaigns by helping create the fodder for thousands of fake news propagators and providing another outlet for</p>	<p>为大西洋理事会(Atlantic Council)研究RT的本·尼莫(Ben Nimmo)说，RT和Sputnik推动这些活动的方式是，参与制造成千上万的虚假信息传播者</p>

<p>Bogachikhin and Anna Belkina, RT's head of communications in Moscow, insist it is absurd to lump together RT's effort to provide "alternative views to the mainstream media" with the phenomena of fake news and social media propaganda.</p>	<p>波加奇欣和 RT 在俄罗斯的传讯负责人安娜·贝尔基娜(Anna Belkina)坚称，把 RT 提供“主流媒体之外的观点”的行动与虚假新闻与社交媒体宣传现象混为一谈实在荒谬。</p>
<p>"There's a hysteria about RT," Belkina said. "RT becomes a shorthand for everything."</p>	<p>“对 RT 的态度歇斯底里，”贝尔基娜说。“RT 成了一切的简略表达。”</p>
<p>For example, she says, while RT was featured heavily in the U.S. intelligence report, it was largely in a seven-page annex (of a 13-page report) that was written more than four years ago, in December 2012, a fact revealed only in a footnote on Page 6.</p>	<p>她说，比如，尽管 RT 在美国情报报告中占据重要内容，但（在一份长达 13 页的报告中）它主要出现在一份 7 页长的附件里，而且仅仅是作为一个事实出现在第六页的一条脚注中。该附件撰写于 2012 年 12 月，距离现在已经四年多了。</p>
<p>She flatly denies any suggestion that RT seeks to meddle in democratic elections anywhere. "The kind of scrutiny we're under — we check everything."</p>	<p>她断然否认了一切有关 RT 试图干涉任何地方的民主选举的说法。“我们受到的那种审查——仿佛什么都跟我们有关。”</p>
<p>For RT and its viewers, the outlet is a refreshing alternative to what they see as complacent Western elitism and neo-liberalism, representing what the Russian Foreign Minister Sergey Lavrov recently called a "post-West world order."</p>	<p>对 RT 和它的观众来说，该机构令人耳目一新，是除了他们眼中自鸣得意的西方精英主义和新自由主义之外的另一个选择，代表着俄罗斯外长谢尔盖·拉夫罗夫(Sergey Lavrov)最近所说的“后西方世界秩序”。</p>
<p>With its slogan, created by a Western ad agency, of "Question More," RT is trying to fill a niche, Belkina said. "We want to complete the picture rather than add to the echo chamber of mainstream news; that's how we find an audience."</p>	<p>在由一家西方广告公司设计的口号“提出更多质疑”(Question More)的带领下，RT 正在努力填补一个利基市场，贝尔基娜说道。“我们想呈现完整的情况，而不是加入主流新闻传声筒的行列。这就是我们吸引观众的方式。”</p>
<p>Afshin Rattansi, who hosts a talk show three times a week called "Going Underground," came to RT in 2013 after working at the BBC, CNN,</p>	<p>2013年，曾就职于BBC、CNN、彭博社(Bloomberg)、半岛电视台(Al-Jazeera)和伊朗 Press TV 的阿夫欣·拉坦西(Afshin Rattansi)加入 RT，主持一档名为</p>

There have been two cases of RT announcers quitting because of what they said was pressure to toe a Kremlin line, especially on Ukraine, but not in London, Rattansi said.</p>	<p>《秘密行动》(Going Underground)的脱口秀节目, 一周三期。“和在 BBC 和 CNN 的时候不一样, 在 RT, 从来没人告诉我应该说什么,”他说。拉坦西也表示, 有过两名 RT 主持人因为被迫说与克里姆林宫立场一致的话而辞职, 尤其是在乌克兰问题上, 不过他们都不是在伦敦。</p>
<p>Michael McFaul, a Stanford professor who was the U.S. ambassador to Russia during the Obama years, said that RT should not be lightly dismissed. "There is a demand in certain countries for this alternative view, an appetite, and we arrogant Americans shouldn't just think that no one cares."</p>	<p>曾在奥巴马执政期间担任美国驻俄罗斯大使的斯坦福大学教授迈克尔·麦克福尔(Michael McFaul)说, 不应轻视 RT。“在某些国家, 有对这种不一样的观点的需求和欲望, 我们傲慢的美国人不要以为没人在乎。”</p>
<p>But there is a considerably darker view, too. For critics, RT and Sputnik are simply tools of a sophisticated Russian propaganda machine, created by the Kremlin to push its foreign policy, defend its aggression in Ukraine and undermine confidence in democracy, NATO and the world as we have known it.</p>	<p>但也有一种悲观得多的观点。在批评人士看来, RT 和 Sputnik 只是一台精密复杂的俄罗斯宣传机器的工具。克里姆林宫创造它们是为了推动自己的政策、为入侵乌克兰辩护并削弱对民主、北约(NATO)和已知世界的信心。</p>
<p>Robert Pszczel, who ran NATO's information office in Moscow and watches Russia and the western Balkans for NATO, said that RT and Sputnik were not meant for domestic consumption, unlike the BBC or CNN. Over time, he said, "It's more about hard power and disinformation."</p>	<p>北约莫斯科信息办公室主任、为北约关注俄罗斯和巴尔干半岛地区西部动态的罗伯特·普什切尔(Robert Pszczel)表示, 不同于 BBC 和 CNN, RT 和 Sputnik 不是为了国内消费。他说, 随着时间的推移, “它会更注重硬实力和虚假信息。”</p>
<p>The Kremlin does not care "if you agree with Russian policy or think Putin is wonderful, so long as it does the job — you start having doubts, and of 10 outrageous points you take on one or two," he said. <p>Stefan Meister, who studies Russia and Central Europe for the German</p>	<p>为德国对外关系委员会(German Council on Foreign Relations)研究俄罗斯</p>

<p>Council on Foreign Relations, agreed that “we shouldn’t overestimate RT. The main success of the Russians is the link to social media through bots and a network of different sources.” That network, he said, is “increasingly well organized, with more strategic and explicit links between sources and actors — Russian domestic media, troll factories, RT, people in social networks and maybe also the security services.”</p>	<p>和中欧问题的斯特凡·迈斯特(Stefan Meister)也认为,“我们不应夸大 RT。俄罗斯主要的成功是通过机器人和不同消息来源组成的网络连接社交媒体。”这个网络,他说,“组织得越来越好,消息来源和演员——俄罗斯国内媒体、煽动性言论工厂、RT、社交网络用户,也许还有安全机构——之间的联系更具战略性、更明确。”</p>

<p>Toronto’s Housing Boom Refills Empty Nests, Driving Prices Even Higher</p>	<p>买不起租不起, 多伦多归巢族却成高房价推手</p>
<p>OAKVILLE, Ontario — Janet Barber doesn’t dwell too much on the view from her driveway.</p>	<p>安大略奥克维尔——珍妮特·巴伯(Janet Barber)很少待在自家车道上长时间张望周遭的景致。</p>
<p>Many of her longtime neighbors up and down the block have cashed in on the area’s soaring house prices and moved away. Where their modest wood homes once stood, much larger architect-designed houses of stone, steel and glass fill the lots. Across the street, a big sign plastered with “Sold” stickers means that one is probably next to go.</p>	<p>住在街区各处的很多老邻居,都把价格飙升的房产变了现,搬走了。他们那些朴素的木头房子原先伫立的地方,现在已被由建筑设计师打造,用石头、钢筋和玻璃建造的更大的房子占据。街对面,一个大牌子上贴着印有“出售”字样的贴纸,意味着可能又有一个人要搬走。</p>
<p>But no matter how much Ms. Barber and her husband, Michael, might now be able to get for their own three-bedroom bungalow, they are not about to join the rush.</p>	<p>但不论巴伯和她丈夫能把自家的三卧室平房卖到多高的价钱,他们都不会加入这股大潮。</p>
<p>Why? Though they are old enough to be empty-nesters, their nest isn’t empty. Their 29-year-old daughter, Sarah, has been living with them since she finished a graduate degree in 2013, because she can not yet afford a place of her own. Her older sister, Jennifer, did the same for six</p>	<p>为什么?因为他们虽然已经老到足以成为空巢老人的程度,但他们的“巢”并不是空的。由于负担不起单独的住处,他们的女儿萨拉(Sarah)自从在2013年读完研究生学位以后,便和他们住在一起。出于同样的原因,萨拉的姐姐珍妮弗(Jennifer)和他们同住过六年。</p>

years.	
The more house prices rise, the longer it will take Sarah to save up enough to move out. But the longer she and thousands like her stay with their parents, the fewer houses are put up for sale — and that scarcity is a big reason prices are soaring.	房价涨得越多，萨拉便需要越多时间才能攒够搬出去住的钱。但她和成千上万像她这样的人待在父母身边越久，挂牌出售的房产就越少——而这种稀缺性又是房价飙升的一大原因。
It is a paradox of the red-hot real estate market around Toronto: Some owners are not selling because prices are too high.	这是多伦多火爆的房地产市场上的一个悖论：一些房主不卖房是因为房价太高。
Oakville, the affluent commuter town where the Barbers live, has been transformed by the property boom in the Toronto area. Last month, the average sale price in Oakville hit 1.4 million Canadian dollars (\$1 million), 30 percent higher than a year ago. Prices are climbing into seven figures across the region, and rentals are expensive and difficult to find.	巴伯住在奥克维尔，多伦多地区的房地产热潮让这个富庶的通勤镇发生了改变。上个月，奥克维尔的房屋均价达到每套 140 万加元（100 万美元），比去年高出 30%。当地的房价正攀升至七位数，与此同时房屋租赁价格高企，而且很难租到。
Those daunting figures have driven thousands of young adults back into their childhood bedrooms. An unusually high 56.5 percent of people in their 20s in the Toronto area still live with their parents, compared with 42 percent nationwide. Like Sarah Barber, many of them appear to be trading some independence for the chance to turn what otherwise would have been rent money into savings for a down payment.	这些骇人的数字迫使成千上万年轻人返回了童年时代的卧室。在多伦多地区，二十多岁的人有 56.5% 与父母同住，相较于全国范围内的 42%，这个数字高得不同寻常。像萨拉·巴伯一样，他们中的很多人似乎正以部分独立性换取把原本该付的租金变成储蓄，以支付首付款的机会。
It can make sense financially for them, but it also makes the affordability problem worse. Basic economics says that high prices ought to entice more owners to sell, with the added supply helping to relieve some of the upward pressure. But that is not happening in Toronto, where, despite intense demand, the rate of new listings has	他们的做法在财务上是说得通的；但这也让负担能力问题变得更加严重。按照基本的经济学原理，高房价会诱使更多房主卖房，让供给增加，有助于在一定程度上缓解价格上涨的压力。但多伦多的情况并非如此，在这里，尽管需求颇为旺盛，但新增房源所占比例几年来一直停滞不前，上个月甚至下降了 12%。

<p>been stagnant for several years, and even fell 12 percent last month.</p>	
<p>There may be several reasons more Toronto-area homeowners are not doing what the economics textbooks predict. Some analysts believe that parents who might otherwise sell, but are staying put to accommodate their adult children, are a significant factor.</p>	<p>多伦多地区的房主没像经济学教科书所预言的那样行事，原因可能多种多样。有分析人士认为，其中一个重要因素是，一些家长本来可能会把房子卖掉，但却按兵不动，为了给成年子女提供住处。</p>
<p>"It's the only gift we can give them," Janet Barber said as her daughters tried to persuade the family's golden retriever puppy not to lick every face in the living room. "We can't give them a 200,000-dollar down payment on a house. So what can we do? We can house them."</p>	<p>"这是我们能送给她们的唯一礼物，"珍妮特·巴伯说这话的时候，她的女儿们正说服家里那只金毛犬幼崽，不要把客厅内每个人的脸都舔一遍。"我们无法给她们买房所需的20万首付款。那我们还能做些什么？我们可以给她们提供住处。"</p>
<p>Prices are stable or rising slowly in most other Canadian cities, but Toronto is booming, fueled by rapid population growth, and builders cannot hope to meet all the demand. A similar frenzy took hold in Vancouver, British Columbia, for a while, but a series of measures, including a tax on foreign buyers, seems to have cooled it off for now.</p>	<p>加拿大其他城市的房价大多颇为稳定，或正缓慢上升。但在人口快速增长的推波助澜之下，多伦多的房价一路飙涨，而建筑商不可能满足所有的需求。有一段时间，不列颠哥伦比亚省温哥华市出现过同样的房地产狂潮，但包括对外国买家征税在内的一系列举措，似乎暂时让市场降了温。</p>
<p>Dana Senagama, the principal market analyst for the Toronto area at the Canada Housing and Mortgage Corporation, a federal agency, said experts were just as taken aback by the price explosion as the general public.</p>	<p>联邦机构加拿大按揭及房屋公司(Canada Housing and Mortgage Corporation)多伦多地区首席市场分析师达娜·塞纳伽马(Dana Senagama)说，专业人士像普通民众一样，对价格的爆炸式增长感到惊诧。</p>
<p>"I think it's crazy," Ms. Senagama said. "We all, as an industry, just need to be careful and make sure we're not getting in over our heads."</p>	<p>"我认为这很疯狂，"塞纳伽马说。"我们所有的业内人士都需要小心谨慎，确保我们别陷入难以摆脱的泥潭。"</p>
<p>She said low interest rates, Toronto's status as the top destination for affluent immigrants and foreign investment in Canadian property all played a role in heating up the market. But so does the relative reluctance of homeowners to list their houses in a city where existing homes account for 80 percent of sales.</p>	<p>她说，低利率、多伦多作为富裕移民首选目的地的地位，以及外国人对加拿大房产的投资，都推动了市场的升温。但同样起到作用的还有：在一个二手房销量占房屋销售总量80%的城市里，房主相对而言不太愿意将房产挂牌出售。</p>

<p>Murtaza Haider, a professor of real estate management at Ryerson University in Toronto who specializes in data analysis, said the large number of adults still living with parents was an important factor. In parts of the area, the rate is as high as 78 percent, according to Statistics Canada, the federal census agency.</p>	<p>多伦多霍林斯大学(Hollins University)致力于数据分析的房地产管理教授穆尔塔扎·海德(Murtaza Haider)说,一个重要因素是大量成年人仍与父母同住。根据联邦普查机构加拿大统计局(Statistics Canada)的数据,在多伦多部分地区,这一比例高达78%。</p>
<p>Some of that comes from social traditions among certain immigrant groups, but Professor Haider and others say the trend is driven more by high house prices and an increasingly unstable job market for young adults.</p>	<p>其原因在某种程度上与特定移民群体中的社会传统有关,但海德教授等人表示,这种趋势更多是由房价高企以及面向年轻成人的就业市场越来越不稳定造成的。</p>
<p>"There's been a big demographic shift," Professor Haider said. "The logical system of housing tenure, which has served us well, has been seriously impacted."</p>	<p>"人口结构出现了很大的变化,"海德教授说。"严重影响了运行一向良好的房屋使用逻辑体系。"</p>
<p>Not every young adult still at home is saving for a house. Nadia Nassar, 25, lives with her parents in the Wedgewood Creek neighborhood of Oakville just to get by.</p>	<p>She went to college in New Brunswick to study sociology and anthropology, and came back for a graduate program at York University in Toronto, planning to stay with her parents as she completed the 18-month program.</p>
<p>"If you had told me that four years later, I'd still be here without any kind of a full-time, permanent job, I would have been shocked," she said, sitting at her parents' dining table.</p>	<p>Ms. Nassar has gotten half a dozen jobs in her field, at universities or in government departments, but all were short term and ended when the funding ran out. Business cards for one of them arrived on her last day of work.</p>
<p>Like the Barbers, Ms. Nassar's parents said they were delighted to have their daughter at home, and did not mind staying on the sidelines of the real estate market.</p>	<p>"It is nice to have them back, and have that dynamic again," said Ms. Nassar's mother, Jane Mitchell. And after a bit of adjustment, Ms. Nassar said, the arrangement seems to be working well.</p>
<p>She did not have to work things out in isolation. Several of her friends have also returned to the nest in Oakville. One of them, Victoria</p>	<p>Miss Sherman said she and her mother were happy with the arrangement. "We tell the real estate agents who knock on our door</p>

Sherman, said 12 close friends of hers had moved back home even though many had steady jobs.	that we're not tempted to cash out," she said.
All three families' harmonious experiences run counter to common assumptions about the frictions and disappointments of adult children living with their parents. Nancy Worth, a geographer at the University of Waterloo, said she had seen the same in interviews and surveys of several hundred back-at-home adult children around Toronto.	"Parents recognize how difficult it is, and they are happy to give a hand up," Professor Worth said. The children, in turn, "challenge that stereotype of the lazy millennial who lives in the basement, playing video games and sponging off their parents."
"They're making a smart, strategic choice," she said.	Sarah Barber said she hoped to save enough to buy a house in Hamilton, Ontario, a city just to the west of the Toronto area. Prices are rising there too, though — perhaps faster than she can put money aside from her job at a nonprofit educational organization.
Janet Barber, 61, who largely grew up in Oakville, said she and her husband bought their bungalow 27 years ago, in a neighborhood that was built for workers at a Ford Motor plant. They paid about 250,000 Canadian dollars (\$185,000) for it — "Unreal!" their older daughter said with a laugh.	Even as a teardown, the bungalow has a value of probably well over 1 million Canadian dollars (\$740,000). But selling would mean moving away to find someplace affordable. That would not only cost Sarah her rent-free home, it would also separate the couple from Janet Barber's 88-year-old mother, who lives in town.
The Barbers originally hoped to stay in their bungalow through their retirement. "We wanted to be old here," Ms. Barber said. "We wanted to be the old grandparents with the pool."	But the hot market has drastically changed the neighborhood. And now, she said, "I don't necessarily want to be here, to be the last little house at the end of the day."

Statue of Marx, Funded by China, Will Stand in German City of His Birth	中国向马克思故乡赠送巨型雕像引发争议
BERLIN — The bicentennial of the birth of Karl Marx was supposed to bring his hometown, Trier, Germany, an important exhibition about his life and an increase in tourism.	柏林——卡尔·马克思(Karl Marx)的200周年诞辰本应该在他的家乡德国特里尔举行一个重要的马克思生平展，并吸引更多游客。

<p>But an offer from China to present the city with a nearly 20-foot-tall bronze statue of Marx, the 19th-century intellectual who was one of the writers of "The Communist Manifesto," is overshadowing the festivities a year before they begin.</p>	<p>但中国赠送该市一尊 20 英尺（约合 6 米）高的马克思青铜雕像的提议让还有一年才开始的庆祝活动相形见绌。马克思是 19 世纪的一名知识分子，参与撰写了《共产党宣言》。</p>
<p>After months of discussion and more than an hour of lively debate, the City Council in Trier, in western Germany near the border with Luxembourg, decided on Monday to accept the gift from the Chinese government, by the sculptor Wu Weishan. However, the Council left open the thorny questions of how large it would be and where in the city it would stand.</p>	<p>特里尔位于德国西部，靠近卢森堡边境。周一，经过数月的讨论和一个多小时的激烈辩论后，市议会决定接受中国政府的礼物。该雕塑将由吴为山创作。然而，市议会没有决定雕塑应该多大和摆放在哪里的棘手问题。</p>
<p>"Karl Marx is one of the most important citizens of this city, and we should not hide him," the mayor of Trier, Wolfram Leibe, told the public broadcaster SWR before the vote.</p>	<p>"卡尔·马克思是本市最重要的公民之一，我们不该把他藏起来，"特里尔市长沃尔弗拉姆·莱布(Wolfram Leibe)在投票前对公共广播公司 SWR 说。</p>
<p>Statues of Marx, who was born in Trier on May 5, 1818, and later lived in Berlin, London and Paris, were common throughout Eastern Europe during the Cold War, and several still survive in Germany's formerly communist eastern states, including in Berlin. But his birthplace, firmly in the former West Germany, has struggled with how best to remember its famous son.</p>	<p>马克思 1818 年 5 月 5 日出生在特里尔，后在柏林、伦敦和巴黎生活。冷战时期，他的雕像在东欧各地颇为常见。德国东部以前实行共产主义的州还保留了几尊马克思雕像，柏林也有。但作为他的出生地，完全位于前西德的特里尔难以决定怎么样才能最好地纪念这个著名的儿子。</p>
<p>The city, which is on the banks of the Moselle River and in an important wine-producing area, has increasingly become a destination for tourists from China, but many residents are nevertheless uncomfortable with accepting a gift from the Chinese government.</p>	<p>该市坐落在摩泽尔河畔，地处重要的葡萄酒产区。越来越多的中国游客把这里当作旅游目的地，但很多居民却对接受中国政府的礼物感到不舒服。</p>
<p>"China is not a free country, quite the opposite," a Trier newspaper quoted Tobias Schneider of the Free Democratic Party in Trier as saying</p>	<p>"中国不是自由国家，恰恰相反，"特里尔的一家报纸周一援引特里尔自由民主党(Free Democratic Party)的托比亚斯·施奈德(Tobias Schneider)的话</p>

<p>The Chinese told city officials they were offering the statue to honor the bicentennial and as a symbol of the strong ties between the countries. The Chinese government agreed to cover about two-thirds of the cost of a pedestal for the statue and its installation, estimated at 105,000 euros, or about \$112,000.</p>	<p>中国对该市官员表示，他们赠送该雕塑是为了纪念马克思的 200 周年诞辰，且雕像象征着两国之间的牢固关系。中国政府同意承担大约三分之二的雕塑底座和安放费用，预计为 10.5 万欧元（约合 77.4 万元人民币）。</p>
<p>But after word spread about the gift, many residents balked at the idea of a bronze version of the father of communism towering over the Simeonstiftplatz, the city's square, which is named for a church that once stood there. City authorities erected a wooden stand-in in the square to give residents an idea of how it might look.</p>	<p>但关于礼物的消息传出后，特里尔市的很多居民都难以接受一尊共产主义之父的铜像将耸立在市内的西蒙史蒂夫特广场(Simeonstiftplatz)之上，该广场是以原先伫立在那里的一座教堂的名字命名的。特里尔市当局在广场内竖起了一个木制替身，以便让居民们大体知道铜像会是什么样子。</p>
<p>In the end, a majority of the Council voted to accept the statue, although perhaps a smaller version of it than was originally envisioned, with a final height to be determined later. It would be unveiled as part of the city's attempt to re-examine Marx's work and the turbulent time in which he lived, through exhibitions and intellectual discussions.</p>	<p>最后，市议会的大多数人投票赞同接受雕像，尽管是一个可能会比最初设想的小一些的版本，其最终高度稍后才有定论。该市正通过展览和知识性讨论活动来重新检视马克思的作品以及他生活的那个动荡的年代。这尊雕像将作为这种努力的一部分出现在公众面前。</p>
<p>"This debate is less about human rights, aesthetics or location" of the statue, Richard Lueckefeld of the Green Party said. "It is about getting the city out of a predicament, because those responsible have failed to honor Karl Marx."</p>	<p>“比起人权、美学”以及雕塑的“安放地点”，绿党(Green Party)的理查德·吕克菲尔德(Richard Lueckefeld)说，“这场争论更多地是关乎让这座城市摆脱困境，因为那些负责人没能给予卡尔·马克思应有的敬意。”</p>

<p>He has been indicted in the United States, accused of creating a sprawling network of virus-infected computers to siphon hundreds of millions of dollars from bank accounts around the world, targeting anyone with enough money worth stealing – from a pest control company in North Carolina to a police department in Massachusetts to a Native American tribe in Washington.</p>	<p>博加乔夫已在美国遭到起诉，罪名是创建了一个由被病毒感染的计算机构成的蔓延网络，从世界各地的银行帐户盗取了数亿美元，被盗者是任何有足够多钱、值得偷的对象，包括北卡罗来纳州的一家控制害虫的公司、马萨诸塞州的一个警察局，以及华盛顿州的一个美国土着部落。</p>
<p>In December, the Obama administration announced sanctions against Mr. Bogachev and five others in response to intelligence agencies' conclusions that Russia had meddled in the presidential election. Publicly, law enforcement officials said it was his criminal exploits that landed Mr. Bogachev on the sanctions list, not any specific role in the hacking of the Democratic National Committee.</p>	<p>去年 12 月，情报机构做出结论，俄罗斯曾插手美国的总统大选，作为回应，奥巴马政府宣布了对博加乔夫及其他五人的制裁。执法官员在公开场合表示，博加乔夫上了这个名单是因为他的犯罪活动，而不是因为他在攻击民主党全国委员会的计算机网络方面有任何具体作用。</p>
<p>But it is clear that for Russia, he is more than just a criminal. At one point, Mr. Bogachev had control over as many as a million computers in multiple countries, with possible access to everything from family vacation photographs and term papers to business proposals and highly confidential personal information. It is almost certain that computers belonging to government officials and contractors in a number of countries were among the infected devices. For Russia's surveillance-obsessed intelligence community, Mr. Bogachev's exploits may have created an irresistible opportunity for espionage.</p>	<p>但很显然，对俄罗斯来说，他比一名简单的犯罪分子要重要得多。在某个时刻，博加乔夫曾控制了多个国家的多达一百万台计算机，让他可能访问从家庭度假照片和期末论文、到商业计划书和高度机密的个人信息等大批文件。几乎可以肯定，几个国家的政府官员和承包商拥有的计算机属于被感染的设备之列。对俄罗斯的热衷监视的情报部门来说，博加乔夫的所作所为可能已为间谍活动创造了一个极为诱人的机会。</p>

<p>While Mr. Bogachev was draining bank accounts, it appears that the Russian authorities were looking over his shoulder, searching the same computers for files and emails. In effect, they were grafting an intelligence operation onto a far-reaching cybercriminal scheme, sparing themselves the hard work of hacking into the computers themselves, officials said.</p>	<p>在博加乔夫掏空人们银行账户的同时，俄罗斯当局似乎一直在旁边看着，在同样的计算机上查看文件和电子邮件。实际上，他们是在借助一个魔掌伸得很远的网络犯罪计划来收集情报，省去了他们自己对这些计算机进行黑客攻击的工作，官员说。</p>
<p>From Thief to Russian Asset?</p>	<p>从小偷到对俄罗斯有用的人？</p>
<p>His involvement with Russian intelligence may help explain why Mr. Bogachev, 33, is hardly a man on the run. F.B.I. officials say he lives openly in Anapa, a run-down resort town on the Black Sea in southern Russia. He has a large apartment near the shore and possibly another in Moscow, officials say, as well as a collection of luxury cars, though he seems to favor driving his Jeep Grand Cherokee. American investigators say he enjoys sailing and owns a yacht.</p>	<p>对俄罗斯情报工作的参与可能有助于解释为什么 33 岁的博加乔夫远非一名在逃的罪犯。联邦调查局官员说，他公开生活在俄罗斯南部黑海附近一个不景气的度假城镇阿纳帕。他在那里的海边上有一套大公寓，而且可能在莫斯科还有另外一套，官员说，他还有一个豪华汽车收藏，虽然他似乎喜欢驾驶他的吉普大切诺基。美国调查人员说，他喜欢帆船并拥有一艘游艇。</p>
<p>Running the criminal scheme was hard work. Mr. Bogachev often complained of being exhausted and "of having too little time for his family," said Aleksandr Panin, a Russian hacker, now in a federal prison in Kentucky for bank fraud, who used to communicate with Mr. Bogachev online. "He mentioned a wife and two kids as far as I remember," Mr. Panin wrote in an email.</p>	<p>运行一个犯罪系统是艰苦的工作。据俄罗斯黑客亚历山大·帕宁(Aleksandr Panin)说，博加乔夫经常抱怨自己精疲力尽，“很少有时间与家人在一起”，帕宁因诈骗银行罪目前正在肯塔基州的一个联邦监狱里服刑，他曾与博加乔夫有在线交流。帕宁在一封电子邮件中写道，“在我的记忆里，他提到过妻子和两个孩子。”</p>
<p>Beyond that, little is known about Mr. Bogachev, who preferred to operate anonymously behind various screen names: slavik, lucky12345, pollingsoon. Even close business associates never met him in person or knew his real name.</p>	<p>除此之外，人们对博加乔夫知道的很少，他喜欢用不同的屏幕代号匿名操作：slavik、lucky12345、pollingsoon。即使是亲密的商业伙伴也从未见过他本人，或者知道他的真实姓名。</p>
<p>"He was very, very paranoid," said J. Keith Mularski, an F.B.I. supervisor</p>	<p>“他非常、非常多疑。他不相信任何人。”联邦调查局在匹兹堡的主管 J·基斯·姆</p>

<p>Russia does not have an extradition treaty with the United States, and Russian officials say that so long as Mr. Bogachev has not committed a crime on Russian territory, there are no grounds to arrest him.</p>	<p>俄罗斯与美国之间没有引渡条约，而且俄罗斯官员说，只要博加乔夫没有在俄罗斯领土上犯下罪行，就没有理由逮捕他。</p>
<p>Attempts to reach Mr. Bogachev for this article were unsuccessful. In response to questions, his lawyer in Anapa, Aleksei Stotskii, said, "The fact that he is wanted by the F.B.I. prevents me morally from saying anything."</p>	<p>记者为这篇文章试图与博加乔夫联系未果。博加乔夫在阿纳帕的律师阿列克谢·斯朵兹基(Aleksei Stotskii)对记者提问的回答是，“他被联邦调查局通缉的事实，让我从道德的角度无可奉告。”</p>
<p>A line in Mr. Bogachev's file with the Ukrainian Interior Ministry, which has helped the F.B.I. track his movements, describes him as "working under the supervision of a special unit of the F.S.B.," referring to the Federal Security Service, Russia's main intelligence agency. The F.S.B. did not respond to a request for comment.</p>	<p>乌克兰内政部有关博加乔夫的文件中有一句话，把他描述为“在FSB的一个特别部门的监督下工作”，FSB是俄罗斯的主要情报机构“联邦安全局”的简称。乌克兰内政部曾帮助FBI跟踪博加乔夫的行动，FSB没有回复置评的请求。</p>
<p>That Mr. Bogachev remains at large "is the most powerful argument" that he is an asset of the Russian government, said Austin Berglas, who was an assistant special agent in charge of cyberinvestigations out of the F.B.I.'s New York field office until 2015. Hackers like Mr. Bogachev are "moonlighters," Mr. Berglas said, "doing the bidding of Russian intelligence services, whether economic espionage or straight-up espionage."</p>	<p>奥斯汀·贝格拉斯(Austin Berglas)说，博加乔夫仍未归案是他对俄罗斯政府有用的“最有力的论证”，贝格拉斯直到2015年一直担任联邦调查局纽约办事处的助理特工，负责网络调查工作。博加乔夫这样的黑客是“兼职者”，贝格拉斯说，“（他们）给俄罗斯情报部门打工，充当经济间谍或直接的间谍。”</p>
<p>Such an arrangement offers the Kremlin a convenient cover story and an easy opportunity to take a peek into the extensive networks of computers infected by Russian hackers, security experts say. Russian intelligence agencies also appear to occasionally employ malware tools</p>	<p>安全专家说，这种安排为克里姆林宫提供了一个方便的掩护，也为窥探被俄罗斯黑客感染的大范围的计算机网络提供了轻而易举的机会。俄罗斯情报机构似乎偶尔也使用为犯罪目的开发的恶意软件工具，包括受黑客欢迎的BlackEnergy软件，来攻击敌对政府的计算机。维基解密最近关于美国中央</p>

<p>Fishing for Top Secrets</p>	<p>为获取绝密而钓鱼</p>
<p>Mr. Bogachev's hacking career began well over a decade ago, leading to the creation of a malicious software program called GameOver ZeuS, which he managed with the help of about a half-dozen close associates who called themselves the Business Club, according to the F.B.I. and security researchers. Working around the clock, his criminal gang infected an ever-growing network of computers. It was able to bypass the most advanced banking security measures to quickly empty accounts and transfer the money abroad through a web of intermediaries called money mules. F.B.I. officials said it was the most sophisticated online larceny scheme they had encountered — and for years, it was impenetrable.</p>	<p>博加乔夫的黑客职业生涯早在十多年前就开始了, 他帮助开发了一个名为 GameOver ZeuS 的恶意软件程序, 并在大约六名亲密同伙的帮助下管理过该软件, 这些人以“商业俱乐部”自称, 据 FBI 和研究计算机安全的人说。该犯罪团伙连轴转地工作, 被他们感染的计算机的网络不断扩大。这个软件能够绕过最先进的银行安全措施, 迅速掏空帐户, 并通过被称为“钱骡子”的中介网将钱转移到国外。联邦调查局官员说, 这是他们遇到的最复杂的在线盗窃计划, 而且多年未能攻破。</p>
<p>Beginning around 2011, according to an analysis by Fox-IT, computers under Mr. Bogachev's control started receiving requests for information — not about banking transactions, but for files relating to various geopolitical developments pulled from the headlines.</p>	<p>根据 Fox-IT 的分析, 从 2011 年开始, 博加乔夫控制下的计算机开始收到信息请求, 但不是关于银行交易的, 而是关于来自新闻大标题的各种地缘政治发展的文件。</p>

<p>Ahead of Russia's military intervention in Ukraine in 2014, infected computers were searched for information about top-secret files from the country's main intelligence directorate, the S.B.U. Some of the queries involved searches for personal information about government security officials, including emails from Georgia's foreign intelligence service, the Turkish Foreign Ministry and others, said Michael Sandee, one of the researchers from Fox-IT.</p>	<p>在俄罗斯 2014 年对乌克兰进行军事干预之前，对受感染的计算机的检索是关于来自俄罗斯主要情报部门 SBU 的机密文件的。一些检索涉及关于政府安全官员的个人信息，包括来自格鲁吉亚的国外情报人员、土耳其外交部和其他人的电子邮件，Fox-IT 的研究人员迈克尔·桑迪(Michael Sandee)说。</p>
<p>In the summer of 2014, the F.B.I., together with law enforcement agencies in over half a dozen countries, carried out Operation Tovar, a coordinated attack on Mr. Bogachev's criminal infrastructure that shut down his network and liberated computers infected with GameOver ZeuS.</p>	<p>2014 年夏，FBI 与多个国家的执法机构一起开展了一个名为 Tovar 的行动，对博加乔夫的犯罪基础设施进行了协调打击，关闭了他的网络，解放了被 GameOver ZeuS 感染的计算机。</p>
<p>Prosecutors said they were in talks with the Russian government, trying to secure cooperation for the capture of Mr. Bogachev. But the only apparent legal trouble Mr. Bogachev has faced in Russia was a lawsuit filed against him by a real estate company in 2011 over payment of about \$75,000 on his apartment in Anapa, according to court papers there. And even that he managed to beat.</p>	<p>美国的检察官说，他们正在与俄罗斯政府谈判，试图在将博加乔夫逮捕一事上得到俄方的合作。但根据当地的法院文件，博加乔夫在俄罗斯面临的唯一法律麻烦似乎是一家房地产公司 2011 年对他的一项有关阿纳帕公寓约 7.5 万美元付款的起诉。而且他设法打赢了那起官司。</p>
<p>These days, officials believe Mr. Bogachev is living under his own name in Anapa and occasionally takes boat trips to Crimea, the Ukrainian peninsula that Russia occupied in 2014. Mr. Mularski, the F.B.I. supervisor, said his agents were "still pursuing leads."</p>	<p>官员们认为，这些日子里，博加乔夫以自己的名字在阿纳帕生活，偶尔乘船前往俄罗斯在 2014 年占领的乌克兰半岛克里米亚。前面提到的 FBI 主管姆拉夫斯基说，他的特工们“仍在追逐线索”。</p>

Father Imprisoned for Genital Cutting Is Deported to Ethiopia	剪切女儿阴蒂，男子被美国遣送出境
A man who in 2006 became the first person in the United States to be convicted of female genital cutting was deported on Monday to his home country, Ethiopia, after serving 10 years in prison, federal authorities said.	联邦当局表示,一名在 2006 年成为美国首个因为行女性割礼被判罪的男子,在服刑 10 年之后于周一被遣返回自己的原籍国埃塞俄比亚。
The man, Khalid Adem, 41, used scissors to remove the clitoris of his 2-year-old daughter in his family's Atlanta-area apartment in 2001, prosecutors in Gwinnett County, Ga., said. He was convicted of aggravated battery and cruelty to children. The case led to a state law prohibiting the practice, which was already prohibited by a federal law and is a common social ritual in parts of the world but is broadly condemned.	乔治亚洲格威内特县的检察官表示,这个名为哈立德·阿德姆(Khalid Adem)的 41 岁男子,2001 年在自己位于亚特兰大地区的公寓内,用剪刀减掉了自己两岁女儿的阴蒂。他被判处严重伤害罪和虐待儿童罪。这个案件导致一项禁止这种行为的州立法出台,该行为之前已经被一项联邦法规禁止。此类做法在世界某些地方是一种常见的社会惯例,但它遭到外界的普遍谴责。
"A young girl's life has been forever scarred by this horrible crime," Sean W. Gallagher, a field office director for Immigration and Customs Enforcement, said in a statement on Tuesday. "The elimination of female genital mutilation/cutting has broad implications for the health and human rights of women and girls, as well as societies at large."	"这种可怕的罪行给一个小女孩的生活留下了永久的创伤,"移民与海关执法局(Immigration and Customs Enforcement, 简称 ICE)一名外勤办公室主管肖恩·W·加拉格尔(Sean W. Gallagher)在周二发布的一项声明中表示。"女性割礼/外生殖器切除会给女人和女孩的健康、她们的人权,以及整个社会造成广泛的影响。"
The World Health Organization has estimated that more than 200 million girls and women have been cut in 30 countries, mostly in Africa, the Middle East and Asia. The procedure, which involves the removal of parts of the genitalia, is typically performed on girls before they turn 15 and leads to a wide range of lifelong health consequences, including chronic infection, childbirth complications, psychological trauma and pain during urination, menstruation and intercourse.	据世界卫生组织(World Health Organization)估计,在世界上 30 个国家,有超过 2 亿个女孩和女人接受了割礼,她们大多是在非洲、中东和亚洲。这项涉及切除部分外生殖器的程序通常在女孩 15 岁之前进行,会导致各种持续终生的健康问题,包括慢性感染、分娩并发症、心理创伤,以及排尿、月经和性交疼痛。

<p>The practice is far from unheard-of in the United States. Though it is illegal under federal law, about half a million women have undergone the procedure or are likely to be subjected to it, according to a 2012 report by the Centers for Disease Control and Prevention.</p>	<p>在美国，这种行为远远称不上前所未闻。美国疾病控制与预防中心(Centers for Disease Control and Prevention)2012年发布的一项报告显示，尽管在联邦法之下属于违法行为，但美国仍有大约50万女性经受了这项程序，或有可能如此。</p>
<p>Cutting has presented new challenges for doctors as the number of African immigrants in the United States has grown. In 2013, lawmakers extended the federal ban to include “vacation cutting,” in which American-born girls are sent to other countries to have the cutting performed.</p>	<p>随着在美非洲移民数量的增长，这项割礼给医生们带来新的挑战。2013年，议员们扩大了这项联邦禁令的范围，将“假期割礼”包括在内，即把在美国出生的女孩送到其他国家接受割礼的行为。</p>
<p>I.C.E. has arrested at least 380 people and has deported 785 known or suspected human rights violators since 2003, the agency said.</p>	<p>ICE表示，自2003年以来，它已经逮捕了至少380人，遣返了785名确知或被怀疑侵犯人权的人。</p>

<p>Customs are changing in some counties where the practice used to be widespread. In 2015, a doctor in Egypt became the first person in that country to be convicted of the practice. Somalia’s prime minister signed a petition in 2016 that called for his government to ban it. The country of Georgia outlawed genital cutting in January.</p>	<p>在一些女性割礼曾经非常普遍的国家，习俗在发生改变。2015年，埃及的一名医生成为该国首位因行女性割礼被定罪的人。2016年，索马里总理在一份请愿书上签名，呼吁自己的政府禁止这种行为。今年1月，格鲁吉亚宣布女性割礼为非法。</p>

The targets included numerous financial executives, executives at an American cloud computing company, an airline official and even a casino regulator in Nevada.</p>	<p>联邦检察官说，俄罗斯政府随后使用从情报官员和起诉书中提到的另外两人（一名俄罗斯黑客，以及一名居住在加拿大的哈萨克人）那里获得的信息，把目标对准外国官员、企业高管和记者。其中包括许多财务主管、美国云计算公司主管，一名航空公司官员，甚至还有一个内华达州赌场监管者。</p>

<p>Reporting and Filming in an Ice Cave</p>	<p>在北极冰下采贻贝，我实现了 20 年前的心愿</p>
<p>Times Insider delivers behind-the-scenes insights into how news, features and opinion come together at The New York Times.</p>	<p>“时报内情”专栏为读者呈现《纽约时报》新闻、专题报道以及评论的幕后故事。</p>
<p>It’s funny how story ideas develop — stray thoughts, random conversations, even children’s books can turn into a piece of journalism for The New York Times. My piece on the Inuit in northern Canada gathering mussels from under the ice at low tide was the result of a gift to my young son when we were living in Shanghai, China, 20 years ago.</p>	<p>故事点子的由来总是很有趣——零散的想法、随意的对话，甚至童书也可以变成《纽约时报》的一则新闻。我那篇关于加拿大北部因纽特人在退潮时从冰下采集贻贝的小文章，就来自于 20 年前在中国上海生活时，我年幼的儿子得到的一份礼物。</p>
<p>I don’t know from whom it came, but “Very First Last Time” — a book by a Canadian author, Jan Andrews — appeared among the piles of books in my son’s room. It’s a coming-of-age story about a young Inuit girl who is allowed to go under the ice to gather mussels for the first time alone. She loses her way as the tide returns but eventually finds her way out, declaring that it is the last time she will go under alone. The</p>	<p>我不知道这份礼物是谁送的，但是加拿大作家简·安德鲁斯(Jan Andrews)的《最后的第一次》(Very First Last Time)就这么出现在我儿子房间里的一堆书当中。这本书讲了一个因纽特女孩的成长故事，她第一次被允许在冰下独自采集贻贝。涨潮时她迷失了方向，但终于找到了回来的路，她宣布，这是她最后一次独自到冰下去。加拿大艺术家伊恩·华莱士(Ian Wallace)的插图描绘了一个充满色彩和光芒的神奇世界。我被迷住了，从那以后，我就想去加</p>

<p>illustrations by the Canadian artist Ian Wallace portray a magical world full of color and light. I was enchanted, and ever since have wanted to travel to the Canadian Arctic and go under the ice myself.</p>	<p>拿大的北极地区，亲身到冰下去体验一番。</p>
<p>When I returned to North America to cover Canada after decades overseas, my first goal was to get to the Arctic to see the mussel gathering first hand. It took time to plan. There is no cellphone coverage in most of the isolated Inuit villages, and finding a phone number for someone who could help took some time. When I succeeded, I was told that the Inuit go under the ice only from mid-February to mid-March, when the weather is coldest and the ice thick enough to be stable at low tide.</p>	<p>在海外度过了几十年，我重返北美，报道加拿大新闻，我的第一个目标就是去北极，亲眼看看采集贻贝的过程。这需要时间来做准备。绝大多数与世隔绝的因纽特人村庄不通手机，要花些时间才能找到可以帮忙的人的电话号码。成功之后，我被告知，因纽特人只有从2月中旬到了3月中旬才会到冰下去，那时天气最冷，冰块也足够厚，在退潮时足够结实。</p>
<p>In the meantime, I did some research and learned about spring tides (when the earth, moon and sun align every two weeks) and tidal resonance (when the shape of a bay and the Continental Shelf collude to amplify the tide). Resonance is what makes the famously large tides in the Bay of Fundy. Northern Canada's Ungava Bay is another place where the natural undulation of the ocean matches the length of the bay.</p>	<p>与此同时，我做了一些研究，了解了朔望大潮（当地球、月亮和太阳每两周排成一线时）和潮汐共振（海湾和大陆架的形状共同增强潮汐的力量）的情况。芬迪湾(Bay of Fundy)著名的大潮正是共振造成的。加拿大北部的昂加瓦湾(Ungava Bay)也是一个海洋自然起伏与海湾长度配合极好的地方。</p>
<p>Timing was a challenge: The tides reach their maximum range around the full and new moons, leaving only a three- or four-day window to go under the ice every two weeks. There are no roads linking the 14 villages of Nunavik, the northern Quebec territory that is homeland to the province's Inuit. We would have to fly.</p>	<p>时机是一个挑战：潮汐在满月和新月时最强，每两周内，能进入冰下的时间只有三到四天。魁北克北部的努纳维克是该省因纽特人的家园，那里的14个村庄之间没有道路连接。我们必须坐飞机过去。</p>

<p>The plane landed, everyone got off and we arranged a ride into town, only to discover that we were in the wrong town. Air Inuit operates like a bus, stopping at each village to drop off and pick up passengers, and we had gotten off too early. The fault wasn't entirely ours — Aaron's ticket was issued to the wrong place — but it meant that we had to wait a day for the next flight farther north.</p>	<p>飞机降落后，大家都下了飞机，我们乘车到了镇上，结果发现我们来错了镇子。因纽特航空公司(Air Inuit)像巴士那样运营，在每个村庄降落，接送乘客，我们下得太早了。这不完全是我们的错——亚伦的机票签错了地方——但这意味着我们得再等一天，等下一趟飞机把我们送到更靠北的地方。</p>
<p>That's when the blizzard hit. It kept us trapped in the tiny town of Kangirsuk for three days as we watched our mussel-hunting opportunity wane with the latest full moon. Finally, the weather cleared and we flew to Kangiqsujuaq just in time. We managed to squeeze in three trips under the ice in the following days — though, as is often the case, the first day was the best.</p>	<p>这时，暴风雪来了。我们在坎吉尔苏克这个小地方困了三天，眼睁睁地看着采集贻贝的机会随着最新一轮满月的到来而渐渐消失。终于天气放晴，我们及时飞往坎吉苏加克。接下来的几天里，我们抓紧时间做了三次冰下之行，不过和通常的情况一样，第一天是最好的。</p>
<p>It was brutally cold above the ice, and I was warm only after I pulled a homemade Inuit anorak over my store-bought parka. Beneath the ice it was perceptibly warmer. Getting in and out, swaddled in layers of clothing, tested my aging frame. Both Aaron and I ended up with water in our boots, which is obviously a problem in subzero weather. I was shooting a 360 video, so setting up the camera was another challenge for me, as was photographing under the ice for Aaron. Because of the difference in temperature, the lenses fogged and then froze.</p>	<p>冰面上极其寒冷，我在从店里买来的派克大衣之外又套了一件手工缝制的因纽特带帽厚夹克，这才觉得暖和一点。冰下明显要更加温暖。裹在一层又一层衣服里进进出出，这完全是在考验我正在老去的身躯。我和亚伦的靴子里都进了水。在零下的天气里，这显然是个问题。我在拍摄一段全方位视频，因此安放摄像机是我面临的另一个挑战，就像亚伦在冰下拍照一样。因为温度的变化，镜头蒙上了一层雾，接着就被冻住了。</p>

The Inuit of northern Quebec are better off than those in many other places in Canada because of payments from hydroelectric and mining projects that have destroyed parts of their ancestral hunting grounds. <p>Aaron and I helped de-beard the mussels, and then Tiisi’s wife, Siasi, boiled some for us to eat. The family prefers to eat them raw and so gathered around a bowl on the floor, shucking the mussels with the edge of a mussel shell, scraping out the meat and wringing it of seawater with their fists. Aaron and I ate the raw mussels, too. They are chewier than when boiled, and a bit bitter — but good. One of the rewards of reporting is being invited into people’s lives. <p>For Millionaire Immigrants, a Global Welcome Mat</p>	<p>富人无国界：一个受欢迎的移民群体</p>
<p>With all the debate over immigration in the United States and Europe, one group of immigrants is getting a red-carpet welcome around the world: millionaires.</p>	<p>当移民问题在美国和欧洲引发激烈讨论的时候，有一个移民群体正在全世界享受贵宾级待遇，那就是百万富豪。</p>
<p>Last year, a record 82,000 millionaires moved to another country, according to a new study. While their numbers are a small fraction of the world’s migratory population, and of the world’s millionaires,</p>	<p>一项新研究显示，去年共有创纪录的 8.2 万名百万富豪迁居他国。相较于世界上的移民人口数量，他们的人数只是九牛一毛，但富人正受到东道国史无前例的追捧和欢迎。</p>

<p>wealthy people are being courted and cosseted by host countries like never before.</p>	
<p>The growing contrast between migrants who are poor and those who are wealthy reveals a less-noticed form of global inequality, as well as an acceleration of a new culture of the rootless, borderless rich.</p>	<p>贫穷移民和富有移民之间的反差日益增强,揭示了一种不那么引人注目的全球不平等,以及一种无定所无国界富人文化的崛起。</p>
<p>"The wealthy today don't have a country," said Reaz H. Jafri, a New York-based partner at Withers Worldwide, a law firm that helps wealthy clients move and relocate around the world. "They don't view their success as being related or dependent on a single country, but on their own business strategies. It's amazing to me how many of the very wealthy are going totally mobile."</p>	<p>"当今的富人不属于哪个国家,"卫达仕律师事务所(Withers Worldwide)驻纽约的合伙人里亚兹·H·贾夫里(Reaz H.Jafri)说。该律所的一项业务是帮助富有客户在世界范围内移民和迁居。"他们认为自己的成功并非关乎或取决于某一个国家,而是关乎或取决于他们的商业战略。具有完全流动性的大富翁如此之多,让我觉得不可思议。"</p>
<p>The rich have always been a restless class, of course, moving with the seasons or the social circuit. But the current wave of millionaire migrations seems to have reached a new level, with wealthy families changing citizenship, sending their children overseas or moving permanently to the nation of their choice.</p>	<p>诚然,富人一直是一个不安分的阶层,他们会因季节的流转或社交圈的变化而迁居。但当前的百万富豪移民浪潮似乎达到了一个新层面,富有的家庭会改变国籍,把子女送到海外,或者永久移居至他们青睐的国家。</p>
<p>Rather than fleeing economic ruin or conflict, millionaire migrants are shopping the world for the best schools, financial safety and lifestyle. Technology, coupled with the rise of global markets and global investors, has given rise to multinational millionaires who increasingly have no nation.</p>	<p>百万富豪并非逃离经济崩溃或冲突,而是在世界范围内购买最佳教育服务、财务安全性和生活方式。科技进步再加上全球市场以及全球投资者的崛起,催生出了许多跨国富豪,他们越来越不属于哪个国家。</p>

measuring. Millionaire migration has grown 60 percent since 2013, the firm's findings show, and there are no signs that it is slowing.	
Andrew Amoils, head of research at New World Wealth, said he expected the ranks of millionaires on the move to top 100,000 within the next two to three years.	新世界财富的研究主管安德鲁·阿莫伊斯(Andrew Amoils)说,他预计在未来两三年中,每年会有超过10万人加入移居他国的百万富豪行列。
That's still a small slice of the estimated 13.6 million millionaires around the world, defined as those having at least \$1 million in assets (minus liabilities), not including their primary residence.	与百万富豪总人数相比,这仍然只是一小部分。据估计,全世界共有1360万名百万富豪,也就是剔除主要居所后,资产(减去负债)不少于100万美元的人。
New World Wealth's data includes only millionaires who have physically moved to a country for a period of at least six months. It uses surveys, real-estate data and research with relocation firms and other specialists for its estimates.	新世界财富的数据只涉及那些真正移居某个国家,在那里待上至少六个月的百万富豪。它是借助调查、房地产数据以及对迁居公司和其他专业人士的调研来估算的。
Add to those numbers the wealthy who have changed or added citizenships, those who spend part of their time in various countries or own homes in multiple nations, and the numbers grow much larger.	除了变更或申请了更多国籍的富人,还有另外一些富人会在不同国家里,或者在位于不同国家的家中分别待上一段时间,后者的人数远远为多。
"We looked at the people who truly moved," Mr. Amoils said. "But the universe of multinational wealth is obviously much larger."	"我们关注的是真正移居的人,"阿莫伊斯说。"但跨国富豪群体的世界显然要大得多。"
The map of migration is also changing rapidly. Australia is now the world's top destination for millionaires, beating the United States for the second straight year, according to New World Wealth. An estimated 11,000 millionaires moved to Australia in 2016, compared with the 10,000 who moved to the United States.	移民路线图也正快速变更。新世界财富称,澳大利亚目前是世界上最受百万富豪青睐的移民目的地,这是它连续第二年击败美国。据估计,在2016年有1.1万名百万富豪移居澳大利亚,移居美国的则是1万人。
Canada ranked third, with 8,000, followed by the United Arab Emirates and New Zealand.	加拿大以8000人位列第三。紧随其后的是阿联酋和新西兰。
As for countries that millionaires are fleeing, France tops the list, with	至于百万富豪正在逃离的国家,位列榜首的是法国,在2016年共有1.2万

<p>12,000 moving out during 2016. China ranked second, with 9,000, followed by Brazil, India and Turkey.</p>	<p>名法国富豪移民海外。中国以 9000 人排名第二，接下来是巴西、印度和土耳其。</p>
<p>Mr. Amoils said Australia was especially attractive to Chinese millionaires, given its relative proximity, its wide choice of private schools, its clean environment and its political and economic stability. Australia, like many countries, has also created money-for-visa programs to make it easier for rich immigrants to move in and become citizens.</p>	<p>阿莫伊斯说，澳大利亚对中国百万富豪尤其具吸引力，因为它相对较近，有众多私立学校可供选择，环境清洁，政治经济状况也稳定。像很多国家一样，澳大利亚也启动了一些“以金钱换签证”的计划，方便富有移民移居本国并变成本国公民。</p>
<p>In 2012, the country introduced a “golden-ticket” investor visa program that fast-tracks and eases the residency requirement for a permanent visa. Millionaires need to invest 5 million Australian dollars (about \$3.8 million) to qualify for the program, officially called the Special Investor Visa. Since its creation, more than 1,300 foreigners, nearly 90 percent of them from China, have used the program, according to government statistics.</p>	<p>2012 年，澳大利亚推出“金奖券”(golden ticket) 投资者签证计划，开通获得永久签证的快速通道，放宽相关居留要求。富豪们需要投资 500 万澳元（约合 380 万美元），才有资格参与该计划，其官方名称为“重要投资者签证”(Special Investor Visa)。据澳大利亚政府统计，自该计划出炉以来，已有 1300 名外国人参与，其中将近 90% 来自中国。</p>
<p>The government also has an investor visa program that allows people to invest 1 million Australian dollars (about \$770,000). That option comes with more restrictions, and it takes longer to get a permanent visa.</p>	<p>澳大利亚政府还有一个让人投资 100 万澳元（约合 77 万美元）的投资者签证计划。但它限制多多，获得永久签证所需的时间也更长。</p>
<p>The other two top destinations, Canada and the United States, also have generous visa programs for the wealthy. America’s EB-5 program requires a \$500,000 investment, although there are proposals in Congress to raise that figure – which hasn’t changed in 27 years – to over \$1 million.</p>	<p>作为另外两个最受欢迎的目的地，加拿大和美国也面向富人推出了慷慨的签证计划。美国 EB-5 计划的投资额下限为 50 万美元，不过有国会议员提议把 27 年来都没变过的这一额度提高至 100 万美元以上。</p>
<p>Canada scrapped one of its main investor-visa programs in 2014, but</p>	<p>加拿大在 2014 年取消了本国的一个颇为重要的投资者签证计划，但还有其</p>

<p>there are other programs available for wealthy foreigners. The number of 10-year visas issued to Chinese citizens more than quadrupled between 2012 and 2015, to 337,000.</p>	<p>他计划可供富有的外国人选择。2012 至 2015 年间，发放给中国公民的十年期签证数量增加了三倍还多，达到 33.7 万份。</p>
<p>Mr. Amoils said the main reason millionaires are leaving China is to educate their children in Western or Australian schools that will give them a better education and connections for their careers.</p>	<p>阿莫伊斯说，富豪离开中国的重要原因是让子女到西方或澳大利亚的学校念书，从而获得更好的教育，以及有利于职业发展的人脉关系。</p>
<p>Of course, living in a country where billionaires literally disappear amid the government's crackdown on corruption also drives the rich and their fortunes overseas. A 2014 report from Hurun, a research firm in Shanghai that tracks the wealthy, found that 64 percent of Chinese millionaires were considering or were in the process of moving, with education topping the list of reasons.</p>	<p>当然，一些亿万富翁在政府的反腐运动中消失，也是导致该国富人及其财富迁移海外的原因。上海追踪富人财富状况的胡润研究院于 2014 发布报告称，当时 64% 的中国百万富豪正考虑移民或正处于移民过程中，促使他们这样做的首要因素是教育。</p>
<p>Mr. Jafri of Withers Worldwide said that personal safety goes hand in hand with education for many of the world's millionaires when considering a move. Many of his clients are Latin Americans seeking a haven from kidnapping and crime. "My clients say, 'In New York, I can walk my daughter to Brearley, while in Buenos Aires we have to get into an armored car,'" Mr. Jafri said.</p>	<p>卫达仕律师事务所的贾夫里说，对世界上的很多富豪来说，考虑移民时，人身安全是和教育并驾齐驱的因素。他的很多拉美客户都在追寻没有绑架和犯罪的避风港。“我的客户说，‘在纽约，我可以走路送女儿去布莱丽(Brearley)上学，但在布宜诺斯艾利斯，我们必须坐在一辆装甲车里，”贾夫里说。</p>
<p>The flight of French wealth is driven by different worries. Mr. Amoils said millionaires leaving France cite religious tension and personal safety as their main reasons. While France's high taxes on wealth are a factor, he and others said that social and political forces are more important.</p>	<p>驱使法国富人逃离的则是不同的担忧。阿莫伊斯说，离开法国的百万富豪给出的理由主要涉及紧张的宗教氛围和人身安全。虽然法国对富人征收重税也是一个原因，但他和另外一些人表示，社会和政治因素更为重要。</p>
<p>"For them, it's often about the changing culture of France," Mr. Amoils said.</p>	<p>“对他们来说，往往是因为法国文化正在改变，”阿莫伊斯说。</p>

<p>Indeed, immigration experts say the biggest long-term shift in the reasons the wealthy migrate is the waning importance of taxes. For decades, the rich sought tax havens like Monaco, Switzerland or the Caymans to maximize their wealth. Now they seek stable countries with financial systems that can protect their fortunes, even if income taxes are high.</p>	<p>移民专家说，事实上，在富人移民的原因方面，最大的长期变化就是税收的重要性日益减弱。为了实现财富最大化，富人曾在数十年间追寻摩纳哥、瑞士、开曼群岛之类的避税港湾。现在他们追寻的则是稳定的国家，要有能够保护其财富的金融体系，个人所得税高一些也不打紧。</p>
<p>And while President Trump’s immigration policies have had little impact on wealthy immigrants thus far, Mr. Jafri worries that they could shut out future entrepreneurs and talent.</p>	<p>此外，虽然特朗普的移民政策目前尚未对富人移民造成什么影响，但贾夫里担心，这些政策会导致未来的企业家和有才能的人被拒之门外。</p>
<p>“We are letting in today’s millionaires,” Mr. Jafri said. “But what about tomorrow’s?”</p>	<p>“我们正让今天的百万富翁进门，”贾夫里说，“但明天的百万富翁呢？”</p>

London Attack Echoes, Faintly, in a Europe Anxious but Inured	欧洲仍然焦虑，但已对恐怖主义习以为常
LONDON — The terrorist attack in London, with its combination of random deaths and the strong symbolism of Parliament shut down, comes in an important election year in critical European countries, as well as at a moment of high anxiety — about the rise of populism, migration and the integration of Muslims.	伦敦——伦敦的恐怖袭击不仅随机导致无辜者的死亡，它造成的议会关闭也产生了强烈的象征意味。在几个主要欧洲国家重要的选举之年，以及人们对民粹主义兴起、移民和穆斯林的融合感到高度焦虑的时刻，这场袭击就这样发生了。
With France, Germany and possibly Italy going to the polls, analysts have long wondered whether an act of terrorism could jolt electoral dynamics and boost the broader “Europe in crisis” narrative that has elevated far-right parties across the Continent.	法国、德国，或许还有意大利即将展开选举，分析人士长期以来一直怀疑恐怖主义行为是否会扰乱选举动态，并推动更广泛的“欧洲危机”叙事，这一叙事促进了整个欧洲大陆的极右势力崛起。
“This will have an echo in France and in Germany,” said Mark Leonard, the director of the European Council on Foreign Relations. “It becomes part of a pattern. It’s another link in the chain.”	“这将在法国和德国引起回音，”欧洲对外关系委员会主任马克·莱昂纳德(Mark Leonard)说。“它成了一种模式的一部分。是链条上的的一个环节。”
But if it is an echo, it may be a muted one. Many European voters, anxious but increasingly inured, have essentially priced in the cost of terrorism — at least when it happens outside their own borders and when the toll is not so high. A relatively limited attack, like the one in London, was considered unlikely to shift the electoral terrain.	但是这个回音可能并不大。许多欧洲选民感到焦虑，但也日益感到习惯，基本上已经把这种恐怖主义代价当作生活的一部分——至少当袭击事件发生在自己的国界之外，而且伤亡人数不高的时候是如此。像伦敦这样较为有限的袭击被认为不太可能改变选举形势。
“This connects London to Paris, Nice, Berlin and Brussels in the context of the political space we’re in,” said Robin Niblett, director of Chatham House, rattling off the list of European capitals that have been scarred in the last two years. While a terrorist attack may feed the narrative of a minority, “politically it can also pull people together at a time when	“在我们身处的政治环境里，这件事把伦敦与巴黎、尼斯、柏林和布鲁塞尔联系在一起，”英国皇家国际事务研究所(Chatham House)的主任罗宾·尼布利特(Robin Niblett)列出过去两年里曾遭恐怖袭击的欧洲各国都市。他说，恐怖袭击可能会为一种少数群体的叙事提供养分，“在政治方面，当我们正不断处于分裂的危险之中时，它其实可以把人们团结在一起。”

<p>we're at a constant risk of fragmenting," he said.</p>	
<p>Unity is what the leaders of the European Union want to emphasize when they gather this weekend in Rome to celebrate the 60th anniversary of the bloc. But the London attack is a reminder of yet another problem on the list: Britain's pending exit from the bloc, regional divisions, economic disparities, unemployment, anti-Europe sentiment and terrorism.</p>	<p>欧盟领导人于本周末在罗马集会，庆祝该集团成立 60 周年，他们想强调的正是“团结”。但是，伦敦的这次袭击提醒人们，在各种问题之外，还有另一个问题：除了英国正在退出欧盟、地域分歧、经济差距、失业、反欧情绪之外，还有恐怖主义。</p>
<p>While the effect of another large-scale attack in a voting country could still be dramatic, the ability of Islamic radicals to organize such assaults appears to have been sharply diminished. Like voters, police and counterintelligence officials are also getting used to the threat and have toughened tracking and border controls in many parts of Europe.</p>	<p>如果一个正在投票的国家再度发生一次大规模袭击，影响仍然会很大，但是伊斯兰激进组织发起这种袭击的能力似乎急剧下降。和选民们一样，警察和反情报官员也习惯了这种威胁，并在欧洲许多地区加强了追踪和边境管制。</p>
<p>Even as British investigators looked for evidence that might link this lone attacker to a larger network, Europeans seemed particularly hardened to terrorist attacks like this one — unsophisticated, if almost unstoppable, the death toll relatively small and a far cry from the organized mayhem perpetrated in Paris in January and November 2015.</p>	<p>虽然英国调查人员还在寻找可能的证据，将这个单独的攻击者与更大的网络联系起来，但欧洲人似乎对伦敦这样的恐怖袭击变得尤其无动于衷。这次袭击虽然几乎无法预防，但并不成熟，死亡人数也相对较少，同 2015 年 1 月和 11 月发生在巴黎的两场有组织的大混乱相去甚远。</p>
<p>The London attack, then, was a reminder of ways that the West will always be vulnerable: The means used were ordinary and available everywhere; the targets were high-profile landmarks; the victims were civilians of 10 nationalities going about their daily lives. For that, there may be no remedy a ballot box can provide.</p>	<p>伦敦的这次袭击提醒人们，西方永远在某些方面是易受攻击的：恐怖分子所使用的手段是普通的，随处可以获得；他们的目标是显著的地标；受害者是来自十余个国家的平民，他们只是过着自己的正常生活。为此，给谁投票也于事无补。</p>
<p>But the rhetoric in and around Europe remains generally incendiary, as the problems facing it loom. Just hours before the London attack,</p>	<p>但在面临的问题逼近时，欧洲境内和周边地区的论调总体上依然颇具煽动性。就在伦敦发生袭击的几个小时前，土耳其总统雷杰普·塔伊普·埃尔多安</p>

President Recep Tayyip Erdogan of Turkey issued a strange warning to the Western nations that have criticized his rule.	(Recep Tayyip Erdogan)对指责其统治的西方国家发出了一个奇怪的警告。
"If you go on behaving like that, tomorrow nowhere in the world, none of the Europeans, Westerners would be able to walk in the streets in peace, safely," he said.	"如果你们继续这么做，到明天，在世界任何地方都没有一个欧洲人、西方人能够安全地走在和平的街道上，"他说。
It's hard to know what he meant, but he has repeatedly threatened to renege on a deal with Brussels under which he has restrained the flow of Middle Eastern migrants to Europe.	他的意思难以判断，但他多次威胁要撕毁与布鲁塞尔签订的一项协议。该协议要求他限制流向欧洲的中东移民。
That migration, sometimes erroneously, sometimes not, has been linked to prominent terrorist attacks in European capitals, which have been interspersed with numerous others much more minor in smaller towns and cities, including in Germany and France.	中东移民同欧洲多国首都发生的著名恐怖袭击被联系在了一起，这种联想有时候是错误的，有时候却是正确的。除首都发生的袭击外，德国和法国等国家的小城镇也发生了许多规模小很多的袭击。
Many attackers, like Khalid Masood, 52, who had a long criminal history but no terrorism convictions, have been homegrown, if influenced from abroad, particularly by the Islamic State. Certainly the group, which called the London attacker one of its soldiers, has been interested in staging an attack in Britain for at least the past two years.	52岁的哈立德·马苏德(Khalid Masood)有长期犯罪历史，但从没被判定犯恐怖主义罪。很多袭击者和他一样，即便是受了国外，尤其是伊斯兰国(Islamic State)的影响，但仍是土生土长的本国人。该组织称伦敦的袭击者是它的战士。它当然有意在英国制造一场袭击，至少在过去两年里是这样。
The British have said publicly that they have disrupted 13 plots since July 2013, when a soldier, Lee Rigby, was hit by a car and then knifed to death by British Muslim converts. At least two of the disrupted plots, the British said, were meant to be larger scale.	英国公开表示，自2013年7月士兵李·里格比(Lee Rigby)被多名皈依伊斯兰教的英国人先是用车撞倒，后用刀杀害后，他们已经阻止了13起阴谋。英国称，其中至少两起阴谋的规模超过伦敦的袭击。
But organizing larger attacks has apparently been difficult in Britain, which has stronger border controls than most of Europe and strict gun laws. Britain is also known for good counterterrorism work.	但在英国组织更大规模的袭击似乎比较困难。英国的边境管制比大欧洲大部分地区都严格，并且有严厉的枪支法律。英国也以出色的反恐工作闻名。

Engulfed in Battle, Mosul Civilians Run for Their Lives	摩苏尔悲歌：在战火中无处可逃的人们
The photojournalist Ivor Prickett spent three weeks documenting the battlefield and humanitarian crisis in west Mosul.	摄影新闻记者艾弗·普里克特(Ivor Prickett)花了三周时间在摩苏尔西部记录前线情势和人道主义危机。
The war to drive the Islamic State from its last strongholds in western Mosul has come to this: With every advance by Iraqi forces, every missile rained down by coalition aircraft, a flood of Iraqi civilians hits the streets.	将伊斯兰国(Islamic State)赶出它位于摩苏尔西部的最后据点的战争已经发展到这一步：伊拉克军队每前进一步，联军的飞机每投下一颗导弹，就有一批伊拉克平民要露宿街头。
It is no longer a question of waiting between salvos — there are few, if any, breaks that make it obvious when to run, so the people of Mosul are simply running whenever they can.	已经不存在等待轰炸间隙的问题——看起来明显可以用来逃命的间隙少之又少，可以说没有，所以摩苏尔人只要能跑就随时会跑。
As we traveled with Iraqi special forces deep in western Mosul last week, in the mostly residential Mosul Jidideh neighborhood, we saw desperate families start out right at daybreak. Families carried their young children and propped up their aging relatives, and they all moved as quickly as they could along streets where the sounds of battle were all too close: a cacophony of gunfire, the dull thud of mortar rounds, the deafening roar of Islamic State car bombs and American airstrikes.	上周当我们和伊拉克特种部队行至摩苏尔西部深处，来到大多为摩苏尔吉迪德赫(Mosul Jidideh)居民的地区时，我们看到孤注一掷的家庭天刚亮就出发。他们带着年幼的孩子，扶着年老的亲人，全都尽可能快地沿着交火之声近在咫尺的街道移动：杂乱的枪声、迫击炮弹的闷响，还有伊斯兰国的汽车炸弹和美国空袭那震耳欲聋的轰鸣。
Nearly everyone frantically asked which way was safe for them to flee. One route forced people to file past a destroyed building on the corner	几乎所有人都在发疯地询问往哪个方向逃是安全的。其中一条路必须绕过广场角落里一栋已被毁坏的建筑，也就是伊斯兰国（也被称为 ISIS 或 ISIL）武

<p>of the square where fighters with the Islamic State, also known as ISIS or ISIL, had been targeted the night before. One of the militants lay visible in the rubble near the crowd of silent refugees, his crumpled body almost camouflaged among the stone and twisted metal.</p>	<p>装分子前天晚上遭到袭击的地方。离这些沉默的难民不远的瓦砾堆里，躺着一名武装分子，他扭曲的尸体几乎被石块和弯曲的金属掩盖。</p>
<p>In their state of anxious flight, many didn't even notice the corpse. But occasionally, children would gawk in horror as they were whisked past by elder siblings and parents.</p>	<p>在惊慌的逃亡之中，许多人甚至没有注意到那具尸体。但偶尔有儿童在被姐姐和父母带着匆匆走过时，会恐惧地盯着他看。</p>
<p>Around a half-million people are still thought to be trapped in an ever-shrinking area of the city along with an estimated 2,000 remaining Islamic State fighters. There, they are caught in a frightening crossfire. As Iraqi forces have advanced, American airstrikes have at times leveled entire blocks — including the one in Mosul Jidideh this month that residents said left as many as 200 civilians dead. At the same time, the Islamic State fighters have used masses of civilians as human shields, and have been indiscriminate about sniper and mortar fire.</p>	<p>据信有大约 50 万人依然被困在这个城市中一个范围不断缩小的区域，同时待在那里的还有大约 2000 名剩余的伊斯兰国武装分子。这些平民被困在令人恐惧的火力网之中。在伊拉克部队向前迈进之时，美国的空袭时不时将整个街区夷为平地——其中包括摩苏尔吉迪德赫社区本月遭遇的那场，居民们表示有多达 200 个平民在这次轰炸中丧生。与此同时，伊斯兰国武装分子还将大批平民用作人肉盾牌，用来对付一切袭击，不管是来自狙击手，还是迫击炮。</p>
<p>Near one position held by Iraqi forces, this woman screamed out in horror after the loss of her son in an ISIS mortar attack, right on her doorstep.</p>	<p>在伊拉克部队控制的区域附近，这名女子发出惊恐的尖叫，她的儿子刚刚在伊斯兰国的迫击炮袭击中丧生，就倒在自家门口。</p>

<p>The Islamic State's seemingly endless supply of car bombs has taken a fearsome toll in the battle. As we moved with the Iraqi troops into the neighborhood of Shuhada, scenes of immense destruction and the acrid smell of explosives bore testament to the fierce battle that had taken place the day before between Iraqi special forces and the</p>	<p>在这场战斗中，伊斯兰国似乎无穷无尽的汽车炸弹造成了骇人的伤亡。在我们随着伊拉克部队进入舒达哈(Shuhada)社区时，严重的毁坏和爆炸物留下的刺鼻味道，是伊拉克特种部队和武装分子前一天发生激烈战斗的证明。</p>

Another body of an Islamic State fighter sat in the middle of the road, splayed out on a wooden cart.</p>	<p>一名实施自杀式汽车炸弹袭击的武装分子被炸裂和烧焦的尸体落在一个十字路口的角落，前方停着他驾驶的部分被毁的车辆——这个炸弹也没有完全引爆。另一名伊斯兰国武装分子的尸体落在路中央，摊在一辆木制手推车上。</p>
<p>With heavy ordnance going off all around, Iraq's specialized counterterrorism forces have been tasked with painstakingly clearing neighborhoods like Mosul Jidideh.</p>	<p>在重型火炮在各处响起之时，伊拉克的特种反恐部队也接到任务，要艰难地清剿摩苏尔吉迪德赫等社区的武装分子。</p>

<p>The accounts of losses within families are grim. Mohammed Hamed, 5, and his sister Amina, 4, were hastily buried together in a shallow grave in the courtyard of a school in Mosul Jidideh. Friends and family members struggled to dig a hole big enough for their tiny bodies, interrupted by a sudden and terrifying new round of airstrikes nearby.	朋友和家人艰难地挖出一个足够容纳他们小小尸体的坑，中间曾被附近突然发生的新一轮可怕的空袭打断。
After the rushed burial, their mother, Amira, stood and waved at the grave, saying over and over: "Goodbye, my children! Travel safely to God!" The family quickly set out for the safety of a camp outside the city.	在仓促而就的葬礼结束后，他们的母亲阿米拉(Amira)站着对那座坟墓挥手，一遍又一遍地说道：“再见，孩子们！要安全到达神那里！”之后，这家人很快出发，前往城外的一个难民营避难。
Within Mosul Jidideh, the grinding nature of the fighting stood out. At every corner there seemed to be some fresh wreckage or rubble.	在摩苏尔吉迪德赫社区里，战争让人难以忍受的本质突显在眼前。每个角落似乎都有一些新造成的废墟和瓦砾。
Last week, after all that had happened in Mosul Jidideh, Iraqi forces said they had nearly cleared the last pockets of Islamic State fighters from the neighborhood. But it is just one of many in western Mosul, and the toll here is staggering.	上周，在摩苏尔吉迪德赫经历所有这一切之后，伊拉克部队表示他们基本已将最后一些伊斯兰国武装分子从这个社区清除。但它只是摩苏尔西部许多社区中的一个，而此中的代价大得让人难以置信。
Even if a government triumph finally and permanently comes to this district, it will forever be the place where coalition airstrikes killed dozens of people seeking safety; where families left so many dead behind while fleeing the terror of ISIS; where victory looked like destruction.	即便政府最终在这一地区取得永久性的胜利，它也永远是盟军空袭导致数十名寻求安全的人丧生的地方；是一个众多家庭在逃离伊斯兰国的恐怖力量时将无数死去的亲人留在身后的地方；是一个就连成功看起来也像是毁灭的地方。

'Penis Seat' Causes Double Takes on Mexico City Subway	反对性骚扰，墨西哥地铁座位上出现“男性下体”
A seat in a subway car in Mexico City's metro system caused a stir earlier this year. There were awkward glances. Visible discomfort. Baffled looks. Some laughs. And of course, the inevitable pictures from	今年早些时候，墨西哥城地铁上的一个座位引起热议。尴尬的瞥视。明显的窘迫。困惑的观望。也有人在发笑。当然，乘客不可避免地用具备拍照功能的手机拍下了照片。

passenger's camera phones.	
It was meant to be provocative, and it was. A seat was changed to look like the lower half of a male's body, including the penis, part of a campaign by UN Women and the Mexico City government to raise awareness about sexual harassment on subways.	这件事的目的就是为了引起关注，它的确做到了。有人对那个座位进行了改造，让它看上去像男性身体的下半部分，包括生殖器。这是联合国妇女权能署(U.N. Women)与墨西哥城政府联合开展的一场活动的一部分，旨在增强对地铁性骚扰的意识。
On the floor beneath the seat, there was a sign reading, "It is annoying to travel this way, but not compared to the sexual violence women suffer in their daily commutes."	在座位下面的地上放着一块标语，上面写着，“这样出行令人讨厌，但和女性在日常通勤中遭受的性暴力相比却不算什么。”
The campaign has now released a video titled "Experimento Asiento" – "an experiment with a seat" – that has had more than 800,000 views on YouTube since March 20. It shows people reacting with a mixture of discomfort and shock throughout. One man even tried to cover the seat with a coat to sit on it. It didn't work. He abandoned the seat, as did others who tried to sit in it during the experiment in January.	现在，该活动发布了一段名为《座位实验》(Experimento Asiento)的视频。自3月20日以来，该视频在YouTube上已被观看超过80万次。视频显示，在整个过程中，人们的反应既不安，又震惊。一名男子甚至试图用外套把座位盖上，然后坐上去，但这一招不起作用。于是，和实验期间其他试图坐在这个座位上的人一样，他放弃了。该实验是在1月进行的。
UN Women and the Mexican government collaborated on a second video as well, which has also begun picking up traffic. It is called "Experimento Pantallas" – or "experiment screens."	联合国妇女署和墨西哥政府还合作拍摄了另一段视频《屏幕实验》(Experimento Pantallas)，也正在引起注意。
That experiment involved installing cameras that would take tight shots of male buttocks and display them on screens for all to see. In the video, a number of men are shown expressing disgust and embarrassment.	该实验涉及安装摄像头近距离拍摄男性的臀部，并把它们显示在屏幕上给所有人看。在视频中，很多男性表现出了厌恶和尴尬的神情。
"We wanted to do something different," said a Yeliz Osman, a program coordinator with the Mexican UN Women office. "We wanted to target men because on a global level, the majority of programs talking about sexual violence or sexual harassment always target women and girls.	“我们想做些不一样的事情，”联合国妇女署墨西哥办公室的项目协调员叶利兹·奥斯曼(Yeliz Osman)说。“我们想把男性作为对象是因为在全球范围内，有关性暴力或性骚扰的项目中多数是针对妇女和女童的。我们想改变这个局面，因为我们认为问题不在女性。”

<p>We wanted to change that because we don't think that women are the problem."</p>	
<p>The campaign is called #NoEsDeHombres (a rough translation would be "this isn't manly"), and it is aimed at men, both with the video ads and with newly unveiled print ones that show guys giving lascivious looks with slogans like "this is how your mother gets looked at every day."</p>	<p>这项活动名为#NoEsDeHombres (大致可译为“这不男人”), 针对的人群是男性。除上述宣传视频外, 该活动还在最近推出了印刷宣传材料, 上面是一些表情饥渴的男子和诸如“这就是每天落在你母亲身上的目光”这样的口号。</p>
<p>These particular ads came about after UN Women and the Mexican government took open submissions for ideas on a campaign to target a male audience. Around 40 agencies submitted pitches and J. Walter Thompson won.</p>	<p>在这些别具一格的广告出现之前, 联合国妇女署和墨西哥政府就一场针对男性的宣传活动公开向外界征集创意。大约 40 个机构提交了宣传创意, J·沃尔特·汤普森(J. Walter Thompson)最终胜出。</p>
<p>"We need to make clear that this is violent, not flattering, and incentivize men to intervene if they witness it", said Ana Güemez, director of the Mexican UN Women office, during the presentation of the campaign this Thursday.</p>	<p>"我们需要表明, 这是暴力的, 不光荣, 并激励男性在看到这种情况时出面干预,"联合国妇女署墨西哥办公室主任安娜·圭美兹(Ana Güemez)在本周四介绍这场活动时说。</p>
<p>According to a national survey done in 2016 by the Mexican Institute of Women, Inmujeres, nine out of 10 women or girls who use public transportation feel unsafe while doing it. A wide-ranging Reuters survey done in 2014 also showed that the Mexico City transport system is the second-most dangerous for women overall out of 15 world capitals. However, Mexico City was squarely in first place for specific questions like "have your been verbally harassed?" or "have you been groped?"</p>	<p>据墨西哥妇女协会(Inmujeres)在 2016 年进行的一项调查显示, 九成的妇女或女童在使用公共交通工具时感到不安全。路透社(Reuters)在 2014 年进行的一项广泛调查也显示, 在全球 15 个首都城市中, 墨西哥城交通系统的危险程度排名第二。然而, 对于像“你是否受到过言语骚扰”或“你是否被猥亵过”这样的具体问题, 墨西哥城稳坐第一名。</p>
<p>"In order to generate change, you need to create empathy," Ms. Osman said. "The idea is that men can get a sense of what it is all like. By creating empathy, we hope that this might change their behavior."</p>	<p>"为了带来改变, 必须激起同理心,"奥斯曼说。“我们的想法是, 男性能够理解到那种感受。通过激起同理心, 我们希望这也许能改变他们的行为。”</p>

Younger Men, Older Women: A Pairing Becomes More Common	老妻少夫，那些打破常规的婚恋组合
The lead-up to the French presidential election has been rife with debates over immigration, terrorism and the European Union, but one nonpolitical factor has fascinated the public in France and abroad: the 24-year age gap between Emmanuel Macron, 39, the candidate who will face off against Marine Le Pen on Sunday, and his wife Brigitte, 64.	法国总统选举之前的一段时期充满了关于移民、恐怖主义和欧盟的辩论，但其中也有一个非政治话题颇令法国与海外公众着迷：在周日的大选中，与马琳·勒庞(Marine Le Pen)对阵的埃马纽埃尔·马克龙(Emmanuel Macron)今年39岁，他的妻子布丽吉特(Brigitte)64岁，两人之间相差24岁。
Granted, the back story to their coupledness is unusual, maybe even by the standards of the French, whose current and past leaders have been embroiled in very public romantic dramas.	的确，两人的结合背后有一个不同寻常的故事，可能就以法国标准看也是如此——这个国家现在和过去的领导人都曾卷入广为公开的戏剧性浪漫事件。
Ms. Macron first met Mr. Macron when he was 15 and she was his teacher, married with three children, at a high school in Amiens, France. The two became close after Mr. Macron asked her to help him rewrite sections of a play. Before Mr. Macron moved to Paris to continue his schooling, he declared, at age 17, that he would one day marry his teacher. He did, in 2007.	马克龙夫妇在法国亚眠的一所高中相遇，当时马克龙只有15岁，布丽吉特是他的老师，已婚，有三个孩子。埃马纽埃尔·马克龙请她帮忙重写自己的几段剧本，之后两人的关系开始密切起来。17岁那年，马克龙宣布自己总有一天会同老师结婚，之后移居巴黎继续学业。2007年，他们真的结婚了。
The specifics of their love have generated headlines, commentary and opinion pieces around the world. A Forbes article asked: "Who Is the Older Woman That Could Become France's First Lady?" A feminist think piece in The Guardian responded to a heavy-on-the-sarcasm column in The Daily Mail that portrayed Mr. Macron as a "mummy's boy" who needs Ms. Macron to wipe his mouth or give him "a smack" for misbehaving. Ms. Macron has been called a "menopausal Barbie" and Mr. Macron a teacher's pet.	这段恋情的细节登上了世界各地的新闻，引出了各种评论和观点文章。《福布斯》(Forbes)上的一篇文章问道：《那位可能成为法国第一夫人的年长女性是谁？》(马克龙已在5月7日的法国总统大选中胜选——编注)。《每日邮报》(The Daily Mail)发表了一篇充斥着讽刺之辞的专栏文章，把马克龙描绘为“妈咪的男孩”，还需要马克龙夫人给他擦嘴，或是在他胡闹时扇他一巴掌”。《卫报》(The Guardian)上的一篇女权主义观点文章对之进行了回应。马克龙夫人还被称为“更年期芭比”，马克龙本人则是老师的宠物。
All the talk even led to wild speculation that Mr. Macron is gay and in a	各种讨论甚至引发了疯狂的揣测，有人认为马克龙是同性恋者，并与法国广

<p>relationship with the chief executive of Radio France, Mathieu Gallet. Mr. Macron dismissed the rumor in February with a joke.</p>	<p>广播电台首席执行官马蒂厄·加莱(Mathieu Gallet)是一对。二月，马克龙用一个玩笑驳斥了传言。</p>
<p>Why the obsessive chronicling?</p>	<p>为什么人们对此事这样关心?</p>
<p>Cindy Gallop, a provocative web entrepreneur who has been vocal about her decision to date younger men, points to sexism. "It makes people very uncomfortable to see the gender equation reversed," she said. "Out there in the world are many, many younger men who would love to date older women, but would never do anything about it because there's this appalling societal double standard."</p>	<p>辛迪·格洛普(Cindy Gallop)是一个有争议的互联网企业家，她喜欢约会比自己年轻的男人，并且对此直言不讳。她指出这其中存在性别歧视。“看到性别角色的逆转会让人觉得不舒服，”她说。“世界上有许多许多年轻男人其实很喜欢约会比自己年纪大的女人，但是因为社会上存在恶劣的双重标准，他们永远不会付诸实际行动。”</p>
<p>As unconventional as the Macrons' marriage may seem, the pairing of an older woman with a significantly younger man is not a new one (recall Demi Moore and Ashton Kutcher or Madonna and Brahim Zaibat), nor is it that uncommon.</p>	<p>马克龙夫妇的婚姻看上去可能非同寻常，不过年长女人和一个比自己年轻得多的男人成为情侣，这样的事情其实并不新鲜(想想黛米·摩尔[Demi Moore]与阿什顿·库彻[Ashton Kutcher]，或者麦当娜[Madonna]与卜拉欣·柴贝[Brahim Zaibat]吧)，也不是那么罕见。</p>
<p>"We make this assumption that men want all the power," said Helen Fisher, a biological anthropologist and adviser to Match.com, which funded a survey of 5,500 singles in America last year and found that 26 percent of women were open to dating men 10 or more years younger. "It's flat out not true. Men want a companion, and we are seeing the rise of women as intellectual partners, as sexual partners, as soul partners."</p>	<p>婚恋网站 Match.com 去年资助的一项调查研究了美国的 5500 名单身人士，发现有 26% 的女性愿意约会比自己年轻 10 岁乃至年龄更小的男人。生物人类学家兼该网站顾问海伦·费雪(Helen Fisher)说：“我们假设男人想要获得所有权力，其实完全不是这么回事。男人想要的是一个伴侣，我们见证了女性慢慢开始成为男性的智识伙伴、性伙伴与灵魂伴侣。”</p>
<p>Ms. Fisher added that the prevalence of May-December romances involving younger men is part of a general shift in Western culture toward double-income families. With women gaining more economic power, she added, younger men will seek out partners who either make as much money as they do or more, and have similar or higher levels of education.</p>	<p>费雪补充说，在西方文化中，家中夫妻双方都开始挣钱，随着这种变化日益普遍，年轻男子与年长女性的恋爱也盛行起来。她补充说，随着女性获得更多的经济权力，年轻男人将会追求那些赚钱和他们一样多或是更多的伴侣，并且希望她们和自己拥有相似乃至更高的教育水平。</p>

<p>Examples of such relationships already abound in popular culture. Take Aaron Taylor-Johnson, 26, who won a Golden Globe this year for his role in "Nocturnal Animals" and stars in the coming movie "The Wall." Mr. Taylor-Johnson has been married since 2012 and has two children with Sam Taylor-Johnson, 50, a director of "Fifty Shades of Grey" and other films.</p>	<p>这样的关系在大众文化中已经有了很多例子。今年凭《夜行动物》(Nocturnal Animals)获得金球奖，并主演了即将上映的《生死之墙》(The Wall)一片的亚伦·泰勒-约翰逊(Aaron Taylor-Johnson)今年26岁。2012年，他和50岁的萨姆·泰勒-约翰逊(Sam Taylor-Johnson)结婚，二人生有两个孩子。萨姆·泰勒-约翰逊是《五十度灰》(Fifty Shades of Grey)等影片的导演。</p>
<p>Wendi Deng Murdoch, 48, who was married to Rupert Murdoch, 86, for over a decade recently became Instagram official with Bertold Zahoran, 23, a model. The two vacationed in the Caribbean on New Year's Eve, and recently went on a trip with Hugh Jackman and Diane von Furstenberg.</p>	<p>48岁的邓文迪同86岁的鲁伯特·默多克(Rupert Murdoch)的婚姻保持了十几年来，最近，她在Instagram上公开了自己同23岁的模特伯特·佐霍兰(Bertold Zahoran)的恋情。两人元旦前夕在加勒比度假，前不久还同休·杰克曼(Hugh Jackman)与黛安·冯·弗斯滕堡(Diane von Furstenberg)一起旅行。</p>
<p>Those who follow reality TV may be familiar with the pairing of Carole Radziwill, 53, an author and Emmy-award-winning journalist who stars on "Real Housewives of New York City," and Adam Kenworthy, 31, a chef. And magazine insiders may know that Laura Brown, the editor in chief of InStyle magazine, dates Brandon Borrer-Chappell, a writer and comedian who is 16 years younger.</p>	<p>常看电视真人秀的人可能会熟悉卡罗尔·拉齐维尔(Carole Radziwill)和亚当·肯沃西(Adam Kenworthy)这对情侣，拉齐维尔53岁，是作家兼记者，其作品曾获得艾美奖，主演过《纽约娇妻》(Real Housewives of New York City); 31岁的肯沃西是一名大厨。杂志界的圈内人或许知道，《InStyle》杂志的主编劳拉·布朗(Laura Brown)正在和作家兼喜剧演员布朗登·鲍勃·查普尔(Brandon Borrer-Chappell)约会，他比她年轻16岁。</p>
<p>All of these couples have dealt with a hefty share of scrutiny. Mr. Taylor-Johnson told Vulture earlier this year that the attention on his marriage has been "intrusive." Ms. Radziwill faced criticism from her "Real Housewives" co-star Luann de Lesseps, whose niece had once dated Mr. Kenworthy.</p>	<p>所有这些夫妻和情侣都要经受大量的品头评足。泰勒-约翰逊先生今年早些时候告诉《Vulture》杂志，人们对他的婚姻的关注是“骚扰”。拉齐维尔曾被《纽约娇妻》的另一位主演卢安·德莱赛普斯(Luann de Lesseps)批评，后者的侄女也曾经和肯沃西约会。</p>
<p>Ms. Gallop, who is 57, said that younger men are able to match her energy levels better than men her age. Beyond that, she sees herself as an alternative role model. "People are interested in the overall point I'm</p>	<p>57岁的格洛普说，与同龄男人相比，年轻男人更能适应她的精力水平。此外，她觉得自己是一个另类榜样。“人们对我传达出的整体理念产生兴趣。”她说：“要设计一个适合你自己的模式，而不是把一种社会认可的模式强加</p>

Dr. Fisher goes further, and sees this as a sign of progress. "People will have natural questions about it," she said. "But the beauty is that these days we can go beyond our culture, and choose who we want and go with our hearts. Love wins."	费雪博士的观点走得更远, 她认为这种老少组合是一种进步的标志。"对于这种事, 人们会本能地产生疑问," 她说。"但其中的美好之处在于, 如今我们可以超越自己的文化, 听从内心, 选择自己想要的人。真爱无敌。"

Other times they keep their distance, appear aloof, are hard to pin down.	有时候他们保持距离, 表现冷漠, 难以管束。
Some are easily wooed with gifts: a warm meal, a cool drink. When flattery fails and aggressions surface, employing a muzzle is tempting but ill-advised.	有些可以轻松用礼物哄骗: 一顿热腾腾的饭食, 一杯冷饮。当讨好失败, 你气急败坏时, 忍不住想对他们使用口套, 但那么做并不明智。
I'm referring, of course, to foreign bureaucrats.	当然, 我指的是外国官僚(bureaucrats)。
Wait, pardon the typo. Make that foreign bureau cats.	等等, 原谅我打错了字。我说的是驻外分社的猫(bureau cats)。
It's become a tradition of sorts at The New York Times: far-flung foreign correspondents who populate their sometimes isolated outposts — from Kabul and Baghdad to Cairo and Dakar, in bureaus that often consist of only one or two journalists and occasionally their families — with local feline companions.	这变成了《纽约时报》的某种传统: 远派的外国记者——从喀布尔和巴格达, 到开罗和达喀尔, 这些地方的分社往往不大, 只有一两个新闻记者, 偶尔有家属——会养一些当地的猫伴侣, 来壮大他们有时地处一隅的新闻前哨站。
Michael Slackman, The Times's international editor, took on two Egyptian strays during a five-year stint as bureau chief in Cairo: Yodarella and Spunky. ("Spunky," he said, "is my soul mate.")	《纽约时报》的国际主编迈克尔·斯莱克曼(Michael Slackman)在开罗担任分社社长的五年时间里, 收养了两只埃及流浪猫: 尤达里拉(Yodarella)和斯潘基(Spunky)。(他说: "斯潘基是我的灵魂伴侣。")

Jack Healy, a correspondent in Baghdad from 2010 to 2012, repatriated to a post in Denver with an Iraqi feral, Malicki, in tow.	杰克·希利(Jack Healy)2010年至2012年在巴格达当记者,后来他带着一只伊拉克野猫马利茨基(Malicki)回到了丹佛的岗位上。
And Walt Baranger, who circled the globe many times over as a news technology editor for The Times, returned from helping establish a bureau in Kabul in 2001 with a stray named Purdah.	沃尔特·巴朗杰(Walt Baranger)作为《纽约时报》新闻技术编辑常常满世界跑,2001年帮忙组建了喀布尔分社后,他带着一只名叫佩德(Purdah)的流浪猫回国。
To date, Dionne Searcey, the West Africa bureau chief, has adopted two cats: Muus (which means “cat” in Wolof, the lingua franca in Senegal) and Spotty/Dotty. (In case you’re wondering, the slash is voiced – as in, “Spotty Slash Dotty.”)	迄今为止,西非分社社长迪翁·瑟西(Dionne Searcey)已经收养了两只猫:穆希(Muus, 沃洛夫语中“猫”的意思,这是塞内加尔的通用语)和斯波蒂·萨拉希·多蒂(Spotty/Dotty, 斜杠需要发音,念作“Spotty Slash Dotty”)。
Muus spends his days roaming the top of the walls that enclose the bureau, gingerly navigating the broken glass, set into mortar, that’s meant to deter would-be intruders.	穆希喜欢在分社的围墙上走来走去,小心翼翼地穿过墙头镶嵌的用来防盗的玻璃渣。
Spotty/Dotty, on the other hand, has a penchant for sprawling across laps and desks.	而斯波蒂·萨拉希·多蒂则喜欢在膝盖和桌子之间游荡。
“Mostly they’re here to help our three kids feel comfortable,” said Ms. Searcey, who described the streets in Dakar as littered with strays.	瑟西女士说:“他们在这里主要是帮助我们的三个孩子感到舒心。”她说达喀尔的街道上有很多流浪动物。
But adopting the cats has also, in part, been a response to a nagging sense of powerlessness, she said. “At least I can make one little difference for a street cat.”	她说,收养猫咪的另一个原因是令人不安的无能为力感。“至少我可以为流浪猫做一点什么。”
“For me, it was an emotional crutch,” Mr. Healy said, noting that the Baghdad bureau had a large assortment of yowly street cats.	“对我来说,这是一种情感上的支撑,”希利说。他表示巴格达分社有一大群喵喵叫的流浪猫。
“There’s just something about coming across an affectionate animal, wherever you are. And I think that’s heightened when you’re in an unfamiliar environment.”	“无论你身在何处,都会遇到一只充满深情的动物。我想,当你处于一个陌生的环境中时,更是如此。”
“Plus, you can’t pet your colleagues.”	“还有,你不能抚摸你的同事。”

<p>Mr. Baranger, who retired in late 2016 after 27 years at The Times, witnessed the bureau cat phenomenon in several countries.</p>	<p>2016年年底,在时报工作了27年的巴朗杰退休。他见证了好几个驻外分社的养猫现象。</p>
<p>"Usually what happened was: You got strays, and if you feed them once, that's it."</p>	<p>"通常的情况是:你遇到流浪猫,并且喂了它们一次,这事情就成了。"</p>
<p>The golden age of "the cat thing," as Mr. Baranger calls it, started with Jane Scott-Long and her husband, John Burns. Sent to India in the 1990s, the couple began adopting cats and dogs en masse; they eventually went through the trouble of sending some of the animals back to their home country of England and, later, to foster families in the United States.</p>	<p>被巴朗杰称作“猫事”的黄金时代始于简·斯科特-隆(Jane Scott-Long)和她的丈夫约翰·伯恩斯(John Burns)。90年代派驻印度后,这对夫妇开始同时收养猫和狗。他们历经困难,最终把其中一些猫狗送回他们的祖国英格兰,后来又送到美国的领养家庭。</p>
<p>"After 9/11, we built up the bureau in Islamabad, and John and Jane moved in," Mr. Baranger said. "And Islamabad has a whole bunch of strays living in the woods — so, naturally, Jane took to feeding them."</p>	<p>"9·11之后,我们建立了伊斯兰堡分社,约翰和简去了那里,"巴朗杰说。"伊斯兰堡的树林里生活着大量流浪动物,于是,简自然又开始喂它们。"</p>
<p>Ms. Scott-Long, who was the bureau manager in Islamabad, Kabul and Baghdad, carried on the cat tradition in Baghdad when The Times established the bureau in 2003. There, the compound was home to as many as 60 cats at a time, later prompting Mr. Burns to write an essay for the Week in Review titled "What Cats Know About War."</p>	<p>时报2003年建立巴格达分社时,曾担任伊斯兰堡、喀布尔和巴格达分社经理的斯科特-隆女士延续了养猫的传统。在巴格达,分社所在的院子里一度生活着60只猫,后来还促使伯恩斯为《一周回顾》(Week in Review)写了一篇题为《猫对战争知道些什么》(What Cats Know About War)的文章。</p>
<p>"As The Times's bureau chief, part of my routine was to ask, each night, how many cats we had seated for dinner," he wrote. "In a place where we could do little else to relieve the war's miseries, the tally became a measure of one small thing we could do to favor life over death."</p>	<p>"作为时报分社的社长,我日常工作的一部分是,每天晚上询问我们给多少只猫安排了晚餐,"他写道。"在一个我们几乎做不了其他什么来缓解战争苦难的地方,这种统计成了衡量我们可以通过一个小小的举动来保护生命、对抗死亡的手段。"</p>
<p>Mr. Baranger remembers it all too well. "At that point, in Baghdad, there were bombs going off several times a day, sometimes killing dozens of people at time," he explained. "The cats were a catharsis. You were able</p>	<p>对于这一切,巴朗杰记得非常清楚。"那时,在巴格达,一天会出现好几次炸弹爆炸的情况,有时候会导致数十人死亡,"他解释说。"养猫是一种情感宣泄。你有能力照顾它们。你自己带来了不同。"</p>

to take care of them. You knew you were making a difference.”	
“And it took your mind off the war for a while,” he said.	“而且它会让你的大脑在一段时间里不去想战争，”他说。
Of course, falling for a local cat’s charms, in situ, is one thing. Carrying a cat thousands of miles home, at the end of one’s foreign posting, is something else entirely.	当然，在驻地被当地一只猫的魅力所吸引是一回事，而驻外任期结束时，千里迢迢地把猫带回家则完全是另一回事。
But foreign correspondents often feel they have no choice — despite the fact that the return trip is rarely easy, for the cats or their owners.	但驻外记者常常觉得自己别无选择，尽管回程之旅并不容易，不管是对猫还是它们的主人来说都是如此。
Mr. Healy’s westward transit was particularly traumatic. After spending hours obtaining what amounted to “an Iraqi exit visa for cats,” he was mercilessly clawed and bitten when officials insisted that he remove Malicki from her cage at a security check. He eventually checked into a Denver emergency room and was given an IV.	希利回到西方的过程尤其痛苦。他先是花了好几个小时，才拿到相当于“伊拉克猫出境签证”的东西。之后，在一个安检处，当官员坚持要求他把马利茨基从笼子里抱出来时，猫无情地对他又抓又咬。他最后去了丹佛的一个急诊室，接受静脉注射。
“My hands were completely destroyed: puncture wounds, bites,” he said.	“我的双手伤痕累累：穿刺伤，咬伤，”他说。
But Malicki has since settled into her Rocky Mountain lifestyle with aplomb — though “she’s still the same gluttonous beast she was back in Iraq,” Mr. Healy said.	不过，马利茨基已经泰然自若地适应了落基山的生活方式，尽管“她还是当年伊拉克的那只馋嘴猫”，希利说。
Adam Nossiter, a Paris-based correspondent who preceded Ms. Searcey as West Africa chief, also made off with his bureau cat.	在瑟西之前担任西非分社社长的驻巴黎记者亚当·诺西特(Adam Nossiter)，也是带着猫一起离开的。
“It’s been a difficult transition for him,” said Mr. Nossiter, referring to Louis, a stray African cat he adopted during his stint in Dakar. (Louis is named after Saint-Louis, the Senegalese city.)	“对他来说，这是一种艰难的转变，”诺西特指的是他在驻达喀尔期间收养的非洲流浪猫路易（Louis，这个名字源自塞内加尔城市圣路易）。
“He’s used to spending his days outside: chasing lizards, climbing the mango tree. Now he lives in an apartment in the First Arrondissement, in the heart of the fashion district.”	“他习惯了整天泡在外面：追蜥蜴，爬芒果树。现在，他住在巴黎一区的一套公寓里，处在时尚地带的核心区。”

<p>"He can go out on the balcony and observe the Chanel workshop across the street," he added with a laugh, "but it's not quite the same thing."</p>	<p>"他可以出来到阳台上，观察街对面的香奈儿(Chanel)工坊，"他大笑着继续说道，"但还是不太一样。"</p>
<p>As for opting to bring Louis along when he and his family departed from Senegal, there was never any question.</p>	<p>对于选择在自己和家人离开塞内加尔时带上路易，从来没有出现任何疑问。</p>
<p>"I'm extremely fond of him," Mr. Nossiter said, "and he's an indispensable part of the household."</p>	<p>"我非常喜欢他，"诺西特说，"他是家里不可或缺的一份子。"</p>
<p>"And the kids would have revolted, anyway."</p>	<p>"至少，不带上他孩子们会造反的。"</p>

Widely spaced hamlets dot the shores.</p>	<p>这座湖泊是东南亚最大的淡水体之一，面积达 300 平方英里的湖面上倒映着云朵。一块块稻田见缝插针地分布在湖水与丛林密布的山麓之间，像是一块格纹被子。岸边散布着一座座小村庄。</p>
<p>Besides a few spindly cellphone towers, there are few signs of the globalization swamping Myanmar as the nation opens itself after half a century of isolation under a military dictatorship.</p>	<p>半个世纪的军事独裁统治结束后，缅甸开始对外开放，处处都被全球化的迹象所淹没。然而在这里，除了几座细高的手机信号塔，几乎没有任何全球化的痕迹。</p>
<p>For centuries, the indigenous Kachin people in Myanmar's remote north planted rice when the lake flooded their fields during the monsoon, fished its waters and hunted its wetlands and the surrounding mountains. As Ma Thwe Thwe Win, 32, a local birding guide, explained: "The lake gives us fish, waters our fields, and brings the birds here. It is everything to my people."</p>	<p>几个世纪以来，缅甸偏远北部的土著克钦人在雨季湖水淹没田地时种植水稻，在湖中捕鱼，在湖畔湿地和附近的山脉狩猎。32 岁的兑兑温(Thwe Thwe Win)是当地的一名观鸟导游，她解释说："湖给了我们鱼，灌溉我们的田地，把鸟儿带到这里。对我的乡亲们来说，它就是一切。"</p>

<p>Today, every morning and afternoon, fishermen still paddle out, singing Burmese songs to themselves, trailing gillnets with soda bottle buoys. But despite the encircling mountains and buffering remoteness, Indawgyi Lake is straining under many of the same environmental and conflict-related challenges that are stressing the fragile nation.</p>	<p>如今，每天的上午和下午，渔民们仍然会把船划到湖中，唱起缅甸民歌，沿着用汽水瓶做成的浮标巡视撒下的刺网。但是，尽管有群山环绕以及偏远地理位置带来的缓冲，因道支湖还是和这个脆弱的国家一样，面临许多同环境与冲突相关的挑战。</p>
<p>In the mid-1990s, Myanmar's army captured the Hpakant jadeite mine, the world's richest, from the Kachin Independence Army, a rebel force of around 10,000 men, about 35 miles north of Indawgyi Lake. The mine was mechanized and expanded, and soon many of Indawgyi's inhabitants had traded their native villages for squalid mining camps where heroin addiction ran rampant. Increasing commercialization of the region's economy also led to the expansion of illegal gold mines in the mountains above Indawgyi Lake.</p>	<p>克钦独立军(Kachin Independence Army)是驻扎在因道支湖以北约35英里处的一支反政府武装，约有1万人，1990年代中期，缅甸军队从他们手中夺取了世界上最富饶的翡翠矿帕甘。此后矿藏经过了机械化与扩建。不久后，许多因道支湖的居民将自己的村庄售出，它们很快变成了肮脏的采矿营地，海洛因猖獗泛滥。该地区日益发展的商业化也导致因道支湖周边山区的非法金矿不断扩大。</p>
<p>At about the same time, young men from other regions of Myanmar began to flood into the valley as their elder brothers inherited what land remained in their hometowns and an ill-conceived dam flooded prime farmland nearby. These migrants established five villages and introduced fishing techniques like small-gauge gillnets and electroshock fishing that began depleting the lake's fish stocks.</p>	<p>大约在同一时期，缅甸其他地区的年轻人开始涌入这片山谷，因为在他们的家乡，土地都由兄长继承了；此外也是因为一个设计不合理的大坝淹没了附近地区的主要农田。移民们建立了五个村庄，引进了小型刺网和电击捕鱼等捕鱼技术，开始消耗湖泊的鱼类资源。</p>
<p>Another kind of visitor also appeared: foreign tourists, seeking the peace of rural life or a glimpse of rare migratory lake birds. Adventurous souls would ride the colonial-era train north from Mandalay and then bump over the mountains on the back of motorbike taxis to the tiny town of Lonton, a row of lakeside teak houses on stilts sheltering about 2,800 inhabitants.</p>	<p>另一种访客也出现了：那就是外国游客，他们追求平静的乡村生活，或是想要一窥罕见的湖边候鸟。这些冒险家们在曼德勒以北乘坐殖民时代的火车，之后坐在摩托出租车的后座上，在山间一路颠簸，来到隆东小镇——湖畔一排用支柱撑起的柚木屋，大约居住着2800名居民。</p>

<p>But then in 2011, a cease-fire broke down, and the army occupied the valley while the KIA locked down the highlands. Today, on the outskirts of town, peasants riding ox carts and dump trucks heading to Hpakant line up at candy-cane striped sawhorses wrapped in barbed wire. Machine-gun-wielding soldiers wave the traffic through after inspecting it, as European backpackers in jean shorts and flip-flops lounge at the town's four food stalls across the road.</p>	<p>但是到了 2011 年，停火协议破裂，政府军占领了山谷，克钦独立军则封锁了高地。如今，在镇子郊区，坐着牛车或是开着翻斗车前往帕甘的农民沿着糖果色条纹，缠绕铁丝网的一排锯木架排成长队。手持机枪的士兵检查过车辆后指挥它们通行，身穿牛仔短裤和人字拖的欧洲背包客沿路逛着镇上的四家小吃店。</p>
<p>Tin Myaing, owner of the ramshackle Indawmahar Guesthouse, one of the two in town, estimates that 400 tourists visit annually, down more than 50 percent from its peak. A sign on the wall warns day trippers to return by dark and not to stray off the beaten path — hand-drawn maps mark potential rebel areas with cartoonish skull and crossbones. Sometimes, land mine explosions echo from the canyons.</p>	<p>因道玛哈客栈是镇上仅有的两个旅馆之一，老板丁棉因(Tin Myaing)估计，每年会有 400 名游客来到这里，比最高的时候下降了 50% 以上。墙上有个标志，告诫短途旅行者要在天黑之前返回，不要偏离常规路径——手绘地图上用卡通头骨和交叉的腿骨标出了叛军可能出没的区域。有时会有地雷爆炸的回音从峡谷的方向传来。</p>
<p>Most foreigners visit Inn Chit Thu, a nonprofit ecotourism group, the only tourist-centered business in town beside the guesthouses. From an office decorated with the mounted plumage of two owls, young workers rent out kayaks and bicycles.</p>	<p>大多数外国游客都会来到起杜旅馆(Inn Chit Thu)，这是一个非营利的生态旅游组织，也是镇上除客栈外唯一从事旅游业的机构。办公室里两只猫头鹰标本作为装饰，年轻的工人在这里出租皮划艇和自行车。</p>

<p>Elevated mercury levels and increased sedimentation make some environmentalists fear that the distinctive ecosystem is at risk. Other problems threaten the watershed too. Illegal logging is thinning the forests that once protected hillsides from eroding into the lake. Overfishing and the use of banned techniques like dynamite, cyanide and electroshock fishing have depleted fisheries that many locals depend on.</p>	<p>汞含量水平升高和沉淀增加使一些环保人士担心，这个特殊的生态系统正处于危险之中。其他问题也威胁着这一流域。非法树木砍伐令曾经保护着山坡不被湖泊侵蚀的森林不断缩小。过度捕捞和使用被禁止的捕鱼技术（如炸药、氰化物和电击）已经耗尽了许多当地人赖以生存的渔业资源。</p>
<p>"The ecology of Indawgyi Lake has been severely impacted by silt and mercury pollution from mining and overfishing, so much that it's become hard for the local fishers to make a living," said Oliver Springate-Baginski, a professor at the University of East Anglia who has led an environmental survey of the area.</p>	<p>"因道支湖的生态已经受到采矿和过度捕捞造成的泥沙淤塞与汞污染的严重影响，所以当地渔民难以谋生。"东英吉利大学教授奥利弗·斯普林盖特-巴金斯(Oliver Springate-Baginski)说，他主导了该地区的环境调查。</p>

He added, "The conflict has undermined the effectiveness of regulatory mechanisms, and powerful people have been able to exploit the natural resources at the expense of less influential locals."	他补充说：“这样的冲突破坏了监管机制的有效性，有权力的人能够滥用自然资源，牺牲没有影响力的当地人的利益。”
Nongovernmental organizations, local fishermen and the government are working to address the problems.	非政府组织、当地渔民和政府正在努力解决这些问题。
"Now the lake's communities, with assistance from NGOs, have established fishing-free zones that have been recognized by the government," said Julia Fogerite, a Myanmar-based environmental researcher. "Continued collaboration has the potential to improve the management of the lake and ensure its future health."	“现在，在非政府组织的帮助下，湖边社区已经建立了政府认可的无渔区。”现居缅甸的环境研究者朱莉娅·法格特(Julia Fogerite)表示。“持续的合作有可能改善湖泊的管理，并确保其未来的健康。”

The Secret Room, the Nazi Artifacts and an Argentine Mystery	人性黑暗时代的象征：阿根廷密室中的纳粹文物
In a hidden treasure room dedicated to celebrating the Third Reich, Argentine police officers have found a trove of Nazi artifacts, including a bust of Hitler, that they believe were taken to the country by fugitive Germans.	在一个用于供奉第三帝国的密室中，阿根廷警察发现了一批纳粹文物，其中包括希特勒的半身像，他们认为这批物品是由逃亡的德国人带到阿根廷的。
The police said on Tuesday that they had uncovered the collection of more than 75 artifacts outside Buenos Aires, in the suburban home of a collector whom they have not yet named.	警方周二表示，他们在布宜诺斯艾利斯郊区一个收藏者的家中发现了逾75件手工艺品。收藏者的名字未披露。
"After investigating," said Marcelo El Haibe, the federal police commissioner for the protection of cultural heritage, "we were able to discover those objects that were hidden behind a bookcase. Behind the bookcase there was a wall, and after that a door."	联邦警察文化遗产保护专员马塞洛·埃尔·哈伊布(Marcelo El Haibe)说，“经过调查，我们发现了隐藏在一个书柜后面的这批物品。书柜的后面有一堵墙，然后是一扇门。”
In the secret chamber, the police found what they said were authentic Nazi artifacts that probably belonged to high-ranking party members during World War II.	在这个密室里，警方称他们发现了可能属于“二战”时期高级纳粹党员的手工艺品。
Among the items, the police said, were a magnifying glass and photo negatives that appeared to show Hitler holding the same lens. "We have turned to historians, and they've told us it is the original magnifying glass" used by Hitler in the photograph, said Nestor Roncaglia, the head of Argentina's federal police.	警方说，在这批物品中，有一个放大镜，还有希特勒似乎拿着这个放大镜的照片底片。阿根廷联邦警察局局长内斯托尔·罗卡利亚(Nestor Roncaglia)表示：“我们向历史学家求助，他们表示，照片中希特勒拿的就是那把放大镜。”
The police also found toys and musical instruments, including a box of harmonicas, emblazoned with swastikas and Nazi symbols, that would have been used to indoctrinate children.	警方还发现了一些玩具和乐器，其中有一盒口琴，上面装饰着卐字符和纳粹标志，可能是用来向孩子们灌输纳粹思想的。

He added, “There were jigsaw puzzles and little wood pieces to build houses, but they always featured party-related images and symbols.”</p>	<p>“这些纳粹物品是给小孩使用的，但带着纳粹的宣传元素，”哈伊布专员说道。“还有用来搭建玩具房子的拼图和小木块，但它们都带有和纳粹相关的图像和符号。”</p>

Today is Seven Sleepers' Day, which both celebrates an ancient legend and supposedly predicts the weather in the German-speaking parts of Europe.	今天是七睡仙节，这个节日不仅庆祝一个古老传说，在欧洲讲德语的地区，这天似乎还能够预测天气。
The legend, which features in both Christian and Islamic tradition, stretches back centuries. It involves a group of seven youths who escaped religious persecution by hiding in a cave, where they slept for hundreds of years before awakening.	这个传说在基督教和伊斯兰传统中都出现过，事情发生在几百年前。有七个年轻人，为了逃离宗教迫害、躲入洞穴，在那里，他们沉睡了数百年，直到醒来。
More practically speaking, the day's weather is thought to foretell conditions for the rest of the summer, similar to the way Groundhog Day predicts the arrival of spring in the U.S.	在更为实用的层面上，人们认为这一天的天气可以预测整个夏季的天气情况，就像美国的“土拨鼠日”能够预测春天的到来。

Recent reports that the Pentagon spent millions to license a camouflage pattern that replicates lush forests — to be worn in largely arid Afghanistan — got us thinking about the famous design.	近期有报道称，五角大楼为了一种葱郁森林图案的迷彩服的授权而花费了数千万美元——在以干旱为主的阿富汗穿——让我们对“迷彩”这个著名设计做了一番思考。
As it turns out, the word “camouflage” appeared in The Times for the first time 100 years ago.	原来，“迷彩”一词首次出现在时报上，是100多年前。
The concept of disguising matériel and soldiers to blend in with their surroundings originated in the 1800s and was further developed during World War I.	伪装军备及士兵、让他们融入周遭环境的概念源自1800年代，后在第一次世界大战期间得到进一步发展。
In May 1917, a New York lawyer who visited the French battlefield wrote about it for The Times’s Magazine section.	在1917年5月，一名参观法国前线的纽约律师在时报杂志上写到了这一发明。
The French were among the first to use to camouflage on a wide scale, with a unit made up of artists known as “camoufleurs.” In August 1917,	法国是率先大规模使用迷彩设计的国家之一，该国有一个专由艺术家组成的小组，名为“伪装专家”。1917年8月，美国军队发布了加入“迷彩部队”的入

the U.S. Army issued its own call for enlistment in a "camouflage force," seeking "young men who are looking for special entertainment in the way of fooling Germans."	伍召集令，寻求“想愚弄德国人这一特殊娱乐的年轻人”。
Camouflage later became common in art and fashion. A 2007 exhibit at London's Imperial War Museum noted its links to Cubism. (Picasso exclaimed upon seeing a camouflaged cannon in Paris: "It was us who created that.")	迷彩后来常见于艺术与时尚。伦敦帝国战争博物馆(Imperial War Museum)一场 2007 年的展览注意到了迷彩与立体派之间的关联。(毕加索在巴黎看到一架迷彩大炮后大声喊道：“是我们创造了那个。”)
The artist Andy Warhol also used it, substituting bright colors for earth tones, which removed the military symbolism but retained the notion of hiding.	艺术家安迪·沃霍尔(Andy Warhol)也使用过迷彩，他用明亮的颜色替换了大地色调，于是去掉了其中的军事象征，但仍保留了其中的隐藏意味。

Back Story	幕后故事
The banning of high-value bank notes, as India did last year, is nothing new. Many nations have done the same.	像印度去年那样废除大额钞票不是什么新鲜事。许多国家都这么做过。
On this day in 1969, the U.S. said its \$500, \$1,000, \$5,000, and \$10,000 bills would be discontinued. By then, the bills had not been printed since 1945. The Federal Reserve even burned them, citing lack of use.	1969年的今天，美国表示将不再发行500、1000、5000及10000美元面值的钞票。这些钞票自1945年开始就已不再印制了。美联储甚至以无人使用为由将这些钞票焚毁。
The Times archives attest to the bills’ rarity. In 1910, we reported on the furor after a Wall Street errand boy lost a \$10,000 bill, which featured Salmon Chase, a Treasury secretary and Supreme Court chief justice. (The reporter wryly noted that entire fortunes had been lost in that neighborhood with less fuss. The errand boy was eventually convicted of larceny.)	时报的档案库可以证明这些钞票的少见程度。1910年，我们报道了一名华尔街的跑腿小子弄丢了一张1万美元钞票的轰动事件，钞票上印着财政部长、最高法院首席法官萨尔曼·蔡斯(Salmon Chase)（记者以挖苦的口吻写道，该街区曾丢失过数额更大的金钱，却未造成如此闹剧；跑腿小子后来被判处盗窃罪）。
In 1942, a girl found a \$500 bill (bearing President William McKinley’s portrait) in Bloomingdale’s mailroom. (Given a \$250 reward, she bought war bonds and roller skates.)	1942年，有个女孩在布鲁明黛百货公司(Bloomingdale)的收发室捡到了一张面值为500美元的钞票(上面印着威廉·麦金利[William McKinley]的肖像，她后来用250美元的奖励买了战争债券和溜冰鞋)。
Two years later, The Times reported on Lieut. Gen. George S. Patton Jr.’s denial to his superiors that he had landed in Europe waving a \$1,000 bill (which has pictured Alexander Hamilton and President	两年后，时报报道了陆军中将小乔治·S·巴顿(George S. Watermen were the taxi drivers of Doggett's time, rowing passenger boats that were often the quickest way around a city that until 1750 had only one bridge. The soft-serve ice cream truck company was founded in 1956 by the brothers William and James Conway in Philadelphia. Back Story	幕后故事
"Come quickly, I am tasting the stars!"	"快来，我在品尝星星！"
That's a quote ascribed to Pierre Pérignon, a Benedictine monk, upon tasting his sparkling wine on this day in 1693. Legend has it that he used a cork to seal in the fizz, but the veracity of the quote — as well as the idea that he invented Champagne — have long been refuted by historians.	1693年的今天，品尝气泡酒的本笃会修士皮埃尔·佩里尼翁(Pierre Pérignon)说出了这句话。相传他用瓶塞将气泡封在了瓶中，但这句话的真实性——以及是他发明了香槟的说法——一直遭到历史学家的驳斥。
The evolution of some wine — from still to one with bubbles — in the Champagne region of France was more an innovation of happenstance. Wine bottles would explode at random, earning the name "le vin du	法国香槟区一些酒的进化——从静态到充满气泡——更多地是偶然得来的创新发明。酒瓶会随机地爆开，继而赢得了“魔鬼之酒”的称号。人们并不希望出现带有气泡的酒，如何将气泡去除是这位修士努力要解决的问题。

The first documentation of sparkling wine (in the Limoux region) was in 1531. Chronicling China's Changing Cities	用镜头记录中国：唯一不变之处在于变化
After carefully observing China for 20 years, Jimmy Lam has come to the realization that the only constant is continual change. Over the course of about 150 trips to all corners of China, he has witnessed rapid urbanization, rampant development, the rise of consumerism and the disappearance of some traditional rural cultures.	在密切观察中国 20 年后，蓝钦炉(Jimmy Lam)逐渐领悟到，中国唯一不变的是持续不断的变化。他在中国旅行了约 150 次，到过所有的角落，在旅行的过程中，他见证了快速的城市化、猖獗的开发、消费主义的兴起，以及一些传统乡村文化的消逝。
Though China is still tightly controlled by the Communist Party, it bears little resemblance to the country he first saw in 1994.	尽管中国仍然处在共产党的严格控制之下，但这个国家已与他在 1994 年第一次看到时相去甚远。
"This is what I would call 'New Wine, Old Label,'" said Mr. Lam, 49. "The old label that is attached to the country is 'Communism,' but everything that breathes there is hard-core capitalism. Everyone is out to make a profit."	今年 49 岁的蓝钦炉说，“这就是我说的‘旧瓶装新酒’。贴在这个国家上的旧标签是‘共产主义’，但这里的一切都是实实在在的资本主义。每个人都想赚钱。”
And he should know.	他应该了解。
He has been photographing China for 20 years. Beyond that, during his	他在中国摄影已有 20 年。除了摄影，他还有一个对冲基金经理的正式工作，

<p>"day job" as a hedge fund manager, Mr. Lam invested in China — as well as the rest of Asia — and made a great deal of money for his customers, employers and himself. So much money that he retired from the financial industry in 2011 to focus on his passion — photography — and use the insights that he found traveling through China on business trips to help him document the rapidly changing country. And he is able to self-finance his photo projects.</p>	<p>在中国和亚洲其他地区进行投资，帮客户、公司和自己赚了不少的钱。赚得如此之多，以至于他能在 2011 年从金融行业退休，专门从事自己热爱的摄影工作，他用在中国出差的机会获得的洞察力，帮助自己记录这个快速变化着的国家。他的摄影计划完全由自己出资。</p>
<p>He now splits his time between photographing throughout Asia and raising his 7-year-old twin sons in Singapore, where Mr. Lam was born. His own father migrated to Singapore from southern China as a young man in search of better financial opportunity.</p>	<p>如今，他把自己的时间分别花在了在亚洲摄影、以及在新加坡养育一对 7 岁的双胞胎儿子上。蓝钦炉出生在新加坡，他的父亲年轻时为了更好的赚钱机会，从中国南部移民到了那里。</p>
<p>Mr. Lam moves easily through the streets of China's cities, speaking the Hokkien dialect. In the 1990s, he started out photographing what was old — the vanishing cultures of rural southwestern China — but now he is focusing on the country's rapid urbanization.</p>	<p>蓝钦炉说一口闽南话，可以在中国城市的街道上来往自如。在 20 世纪 90 年代，他开始拍摄那些旧东西，比如中国西南正在消失的乡村文化，但现在他主要关注中国快速的城市化进程。</p>
<p>In the past five years he has photographed in 40 Chinese cities and recently completed a mammoth project, "The New Face of the Cities of China." It is a series of photo essays on individual cities in China, showing the great changes as old buildings are torn down, agricultural lands become industrial and new cities seem to arise almost overnight.</p>	<p>过去 5 年间，他在中国 40 个城市做过摄影，最近刚完成了一个名为“中国城市的新面貌”(the New Face of the Cities of China)的巨大项目。这是一个关于中国不同城市的摄影散文系列作品，展示了随着老建筑被拆除、农田变成工业用地，新城市几乎一夜之间拔地而起的巨大变化。</p>
<p>While many urban centers have their own distinct characteristics, more and more he finds that "every aspiring city seems to have the same things, a new, vibrant pedestrian shopping street, a national theater, numerous theme parks and an observatory tower to see the whole city."</p>	<p>虽然很多城市中心有其独特的特点，但他越来越多地发现，“每一座城市追求的似乎都有一些相同的东西，一条新建的繁华步行商业街、一个国家剧院、数不清的主题公园，以及可以俯瞰全城的观景塔。”</p>

<p>Mr. Lam believes that China is often misunderstood by Western photographers and journalists. There have been photographers who have romanticized China or only photographed people in the margins — which he says is fine because there are many poor people. But his focus has been the many people being lifted out of poverty by 10 percent annual growth and the rise of the middle and upper classes in a country that is at least nominally Communist.</p>	<p>蓝钦炉认为中国经常被西方摄影师和记者误读。有些摄影师给中国蒙上了一层浪漫主义的色彩，或者只去拍摄那些处于社会边缘的人，他认为这也没什么，因为中国有不少的穷人。然而，他的关注点一直是中国每年10%的增长率带来的众多脱贫人口，以及在这个至少名义上仍是共产主义国家中的中产和上层阶级的崛起。</p>
<p>The key to understanding China today, he says, is nationalism, confidence and pride.</p>	<p>他说，理解今天中国的关键是民族主义、自信和自豪。</p>
<p>“The Chinese people have so much pride; they want to tell the world that they are no longer a third world country, and they want to be treated as equal partners, not as a backward society,” he said.</p>	<p>他说，“中国人很自豪；他们想要告诉世界他们已经不再是第三世界国家，他们希望被当作平等伙伴对待，而不是被当做落后的国家。”</p>

<p>Province by Province, a Portrait of China</p>	<p>瑞士摄影师眼中的中国众生</p>

<p>They spoke the language. They had comfortable motels. They could eat hamburgers.</p>	<p>虽然他们会说英语，住了舒服的汽车旅馆，也吃得着汉堡包。</p>
<p>That all changed when the pair, who had never been to China, decided to undertake an ambitious road trip there, hoping to visit every one of the country’s 33 provinces and regions.</p>	<p>那时，这对组合还从未去过中国，他们后来决定在那里进行一次大胆的公路旅行，希望能走遍全部33个省和自治区。这一次，一切都变了。</p>

<p>Months later, as they were being arrested while making a portrait in Hubei Province, they knew a lot more about China. And themselves, too. The project, Mr. Braschler acknowledged, "was a little bit ambitious." During their first month, which they spent in Beijing, he started keeping a diary. "After a couple of weeks I wrote in that diary, 'I wish we never had this idea,'" he said. "We knew it was a big mountain, but once we were in China, we just realized how big that mountain was."</p>	<p>在开始中国之旅几个月后，他们在湖北省拍摄一张人像照片的时候被警察带走，此时的他们对中国的理解要丰富了许多，对他们自己的了解亦然。布拉施勒承认，计划“有点太宏伟了”。起初一个月，他们待在北京，布拉施此时开始写日记。“过了几周，我在日记里写道，‘希望我们压根没想起这么个主意。’我们明白要攀登一座高山，但在抵达中国之后，我们才意识到，这座山到底有多高，”他说。</p>
<p>The resulting series, "China," is a historical document of a country as its villages turn into cities; its cities into megacities. Shot before the 2008 Beijing Olympics, the portraits present a diverse nation through its people: yak farmers, gynecologists, television personalities, village chiefs, singing gondoliers, prostitutes, aging revolutionaries, circus stars, bank employees, beggars and trash collectors.</p>	<p>最后的成品《中国》(China)系列，成为了一个国家的乡村变成城市、城市变成特大城市的历史见证。这些人像摄于2008年的北京奥运会之前，通过其民众展现出了一个多元国家：养牦牛的牧民、妇科医生、电视名人、村干部、唱歌的船夫、娼妓、老革命、杂技明星、银行职员、乞丐和垃圾工。</p>
<p>Most people the couple met along the way were warm and welcoming — and surprisingly spontaneous. But Ms. Fischer and Mr. Braschler did run into trouble, logging three arrests during their journey. "Many of them," Ms. Fischer said. "They all had cellphones."	"好多人。他们都有手机,"菲舍尔说。
In Shenzhen, a metropolis north of Hong Kong, Ms. Fischer and Mr. Braschler exercised discretion when they came across a beggar with a one-legged monkey (Slide 17).	在香港以北的大都会深圳,菲舍尔和布拉施勒遇到了一名带着单腿猴子的乞丐(幻灯片 17),那时,他们变得谨慎。
"We suggested, 'Why don't we go to a place that's a little more quiet?' " Mr. Braschler said. "In a way, you really have to adapt the way you work in China compared to the U.S."	"我们提出,'咱们去安静点的地方吧,好吗?'某些方面来说,与美国相比,在中国,确实需要调整工作方式,"菲舍尔说。
Yet they were overwhelmed by the beauty — and the range — of the physical landscape, mountains and all. "It was just so much to digest," Ms. Fischer said.	虽说如此,他们还是为中国的地貌山河与各种事物的美丽与多样性所倾倒。"要消化的东西太多了,"菲舍尔说。
They researched each province to familiarize themselves with its history, culture and characteristics, hoping to inform their portraiture. They traced out a route that would take them where they wanted to go over about eight months.	两人研究了各个省份,为的是熟悉其历史、文化和特色,希望借此丰富自己的人像摄影。他们寻着一条走遍各地的路线,旅行了差不多八个月。
In January 2007, the Chinese government opened up most of the country to journalists, preparing for the Beijing Games. Mr. Braschler and Ms. Fischer started shooting that June and finished in January 2008.	2007年1月,为了准备北京奥运会,中国政府向记者开放了全国大部分地区。布拉施勒和菲舍尔当年6月开始拍摄,2008年1月完成了该项目。
The success of past portrait projects — "About Americans" and "Faces of Football," for which they won a World Press Photo award in 2006 — gave Ms. Fischer and Mr. Braschler the support of various partners: Stern in Germany, Vanity Fair in Italy, Figaro Magazine in France and The Guardian in the United Kingdom.	两人过去的人像摄影作品《关于美国人》和《足球的面孔》(Faces of Football)大获成功,后者还为他们赢得了一项2006年的"世界新闻摄影奖"(World Press Photo)。这些成功让他们获得了各种合作伙伴的支持,其中包括德国的《明星》周刊(Stern)、意大利版的《名利场》(Vanity Fair)、法国的《费加罗杂志》(Figaro Magazine)和英国的《卫报》(The Guardian)。

<p>The book "China" was released internationally late last year. Around the same time, the work has been shown in Germany and Switzerland – the subject of their current, yearlong road-tripping venture for the country's tourism board.</p>	<p>去年底，摄影集《中国》全球发行。大约同一时间，这些作品在德国和瑞士进行了展出。目前，他们正在瑞士国内进行为期一年的公路旅行，该国是他们目前项目的对象，而客户则是瑞士旅游局。</p>

<p>In Western China, Steep Highs and Steep Lows</p>	<p>重庆，用镜头追赶现代化的速度</p>
<p>The high-rises of Chongqing, in western China, are built on hills; it is a city of steep ups and downs.</p>	<p>位于中国西部的重庆，是一座地势起伏很大的城市，那里的高楼大厦都建在山坡上。</p>

<p>Everything about it seems large and unwieldy — it is home to nearly 30 million people and sits on the third largest river in the world, the Yangtze. It was a seething hotbed of organized crime during the first decade of the new millennium, and then just as renowned for the efficacy of its ambitious crime-busting officials, notably party secretary Bo Xilai and police chief Wang Lijun.</p>	<p>重庆的一切仿佛都巨大且复杂：这里是将近 3000 万居民的家园，坐落在世界第三大河长江的岸边。在新千年的头十年里，这里曾是犯罪团伙的活跃滋生地，后来又因其雄心勃勃的打黑官员的办事效率而闻名，这些官员中最著名的是原党委书记薄熙来和原公安局局长王立军。</p>
<p>Bo Xilai fell this year from his vertiginous perch as a contender for the standing committee of China’s politburo — expelled from the party and his career in ruins — after Mr. Wang revealed that Mr. Bo’s wife had murdered a British businessman. Mr. Wang was jailed in September for defection and abuse of power.</p>	<p>今年，薄熙来从其令人晕眩的位置上跌了下来。他原本有望进入中共政治局常务委员会，结果由于王立军披露薄熙来之妻杀害英国商人一事，被开除了党籍，事业全毁。去年 9 月，王立军因为叛逃和滥用职权被关进监狱。</p>
<p>This sprawling megacity, the locus of scandals and political machinations, has fixed the interest of Tim Franco, a Shanghai-based French photographer. With his ongoing series, “Vertical Communism,” Mr. Franco endeavors to show how the political and cultural forces of the area shape the cityscape and how ordinary people are affected as Chongqing elbows its way into modernity.</p>	<p>这座蔓延的巨型城市，这个丑闻和政治阴谋的所在地，深深地吸引了驻上海的法国摄影师蒂姆·弗兰科(Tim Franco)。弗兰科用其正在拍摄的、名为“垂直的共产主义”(Vertical Communism)的系列摄影力图展示，当地的政治和文化力量如何影响城市面貌，以及普通百姓在重庆横冲直撞地走向现代化的道路上受到了怎样的影响。</p>
<p>For Mr. Franco, Chongqing is a “good representation of what’s happening in China in general.” Its growing pains are severe, yet it seems to pass into new phases of development rapidly (it only officially became the single, unified municipality we know today in 1997), and it is one of the sites where China’s leaders sought to resettle the millions displaced by the Three Gorges Dam project.</p>	<p>在弗兰科看来，重庆“很好地体现了中国普遍发生的事情”。重庆的发展很痛苦，然而它似乎能迅速地经过不同的发展阶段，直到 1997 年，重庆才正式成为我们今天所看到的自成一统的直辖市，这里也是中国领导人用来安置三峡移民的目的地之一。</p>
<p>Mr. Franco, though awed by Chongqing’s bustle and brio, was keen to focus on its people. He is conversational in Mandarin and speaks</p>	<p>虽然弗兰科对重庆的喧嚣忙碌惊叹不已，但是他热衷于关注这里的人民。他能够用普通话进行交流，还会说英语、法语和波兰语（他为最近很少有机会</p>

<p>English, French and Polish (though he lamented how few opportunities he has gotten recently to speak Polish). He observed a city with a colorful history that is largely populated by people “definitely not used to living in an urban area,” and he was struck by the swiftness with which new constructions went up, even at the cost of destroying sites of cultural value.</p>	<p>说波兰语而叹惜)。他对这座城市的观察是，这里有丰富多彩的历史，但这里的居民大多数“完全不习惯在都市里生活”。新建筑拔地而起的速度让他颇感惊讶，尤其是人们不惜以毁坏文化古迹为代价的态度。</p>
<p>“People are so interested in becoming a modern country, that they don’t have a self-consciousness of cultural heritage,” he said. “This is on government level, but I feel like when I speak to the people – it’s also at the people level.”</p>	<p>他说，“人们对成为现代化国家如此之感兴趣，以至于他们没有文化遗产的自觉意识。这个问题存在于政府层面，但在我和人们的交谈中感觉到，问题在民众层面也存在。”</p>
<p>He was told by residents, “If you look at where I live now, and in one year the government can give me an apartment in a modern building, what do you choose?” Mr. Franco recounted. And he was unable to challenge their logic. “If you can choose between a place with barely no electricity and a place with floor heating and air conditioning, I can understand,” he said.</p>	<p>弗兰科说，居民们告诉他，“如果你看看我现在住的地方，一年后政府能在一栋现代化大楼里给我一套公寓，你说我该选哪一个？”他无法挑战他们的逻辑，他说，“如果你能在一个几乎没有电的地方和一个有地暖和空调的地方之间做出选择，我能理解”。</p>
<p>Mr. Franco said that assessing the area’s most famous politician can be complicated for residents. Mr. Bo was popular: he rounded up criminals and his deputy had the city’s most notorious mob boss tried and executed. He espoused leftist causes and struck a populist tone that resonated with many. Yet his methods were brutal – there were accusations of torture – and his ascent was characterized by swiftness and ruthlessness.</p>	<p>弗兰科说，对这里的民众而言，评价该地区最有名的政治人物是一件复杂的事。薄熙来曾经很受欢迎：他将当地的罪犯逮捕入狱，他的副手把该市最臭名昭著的黑帮老大送上法庭，将其处以死刑。他支持左派的事业，而且他采用的民粹主义语调在很多人中产生了共鸣。但他的方式很粗暴，有人指责他用严刑拷打，他升迁的特点是迅速和无情。</p>
<p>Swiftness certainly describes the pace of change of Chongqing’s landscape. Mr. Franco regrets missing an opportunity or two, arriving</p>	<p>迅速当然也是重庆景观发生变化的形容词。弗兰科对自己失去了一些机会感到遗憾，他的姗姗来迟让他错过了拍摄当地一些文化遗产的时机。比如，蒋</p>

too late to photograph some of those cultural treasures. Chiang Kai-Shek's residence, for example — dating back to the 1930s when Chiang made Chongqing his provisional capital — was demolished so quickly that he could not get there before it was gone. The demolitions are speedy.	介石故居已经在他到来之前就被拆除了，这是蒋介石在 20 世纪 30 年代将重庆作为临时首都时的居所，其拆除速度之快让弗兰科措手不及。
Mr. Franco recognizes that the city is far too complicated to fully capture with a camera, though he does not intend to stop.	弗兰科承认，这座城市太复杂，一台相机远不够捕捉到其全貌，但是他不打算停止这样做。
Some have asked why he showed the uglier parts of the city, urging him to photograph the more modern parts. And he intends to, though he says there will be plenty of time for that.	有人问他为什么要展示这座城市丑陋的一面，希望他能拍一些更现代化的东西。虽然他说打算这么做，但他说拍现代化的东西来日方长。

Photographing the Part of Buddhism That Can't Be Seen	用镜头捕捉佛教的真谛
When David Butow decided to spend 2012 traveling the world to photograph Buddhism, he knew there would be a rich abundance of visual material: colorful clothing, vibrant decorations and precisely choreographed rituals.	当戴维·布托(David Butow)决定在 2012 年奔赴世界各地拍摄佛教主题的作品时，他知道会有海量的视觉素材：多彩的服饰、鲜艳的装饰和设计精巧的仪式。

Mr. Butow used a variety of strategies — and camera formats — to try to capture the heart of Buddhism. He layered reflections, employed	布托运用了多种技巧和相机格式，试图捕捉佛教的精髓。他将映像叠加，并运用动态捕捉模式，还以暗喻般的图像表现静态感。他也使用了二次曝光手

<p>camera motion and made metaphoric images that suggested stillness. He included double exposures, used diptychs and even physically altered negatives with a small blade.</p>	<p>法、双联图像、甚至用一把小小的刮刀，对负片进行物理修整。</p>
<p>His journey last year, as he worked on "Seeing Buddha: A Photographic Journey," spanned 10 countries including Bhutan, Cambodia, Japan, Myanmar, Sri Lanka and the Tibetan exile community in Dharamsala, India. Along the way, he discovered that Buddhism and photography have much in common, including observation, empathy and being fully in the moment.</p>	<p>去年，他为了自己的作品集《见佛：摄影之旅》(Seeing Buddha: A Photographic Journey)走访了十个国家，其中包括不丹、柬埔寨、日本、缅甸、斯里兰卡和位于印度达兰萨拉的藏人流亡群体。在途中，他发现，佛教和摄影有许多共同点，都需要观察、同理心，以及当时的全情投入。</p>
<p>"Among the core concepts of Buddhism is the idea of understanding your individual experience of living and the way that you are connected to other people," he said. "As a photographer, you observe your subject, try to become connected and then capture that in a single moment."</p>	<p>他说，“佛教的核心理念是，洞悉你的个人生活体验以及你和其他人建立关系的方式。作为一名摄影师，你观察你的对象，设法与它沟通，然后在一瞬间捕捉这种感觉。”</p>
<p>Mr. Butow started the project after many years as a photojournalist who often covered conflicts and disasters for U.S. News and World Report, as well as for the photo agencies Saba and Redux. He said that empathy in the face of suffering and a sense of shared humanity were important both in photography and in Buddhism.</p>	<p>在开始这个项目前，布托曾是一名工作多年的摄影记者，他常为《美国新闻与世界报道》(U.S. News and World Report)、以及 Saba 和 Redux 图片社报道冲突和灾难。他说，在摄影和佛教中，面对苦难时的同理心，和共同的仁慈之心，都是相当重要的。</p>
<p>So, too, is patience.</p>	<p>耐心也同样重要。</p>
<p>He recalled photographing a small group of monks for two or three hours while they were chanting, but not moving at all. Finally, there was one moment in which light came through the window and illuminated a monk (Slide 2). Mr. Butow can't know exactly what the monk was thinking or experiencing, but the image reflects what the photographer perceived.</p>	<p>他回忆了自己用两到三个小时时间，拍摄一小队僧人纹丝不动念经的过程。最后，有那么一刻，光线穿过窗户，照亮了一名僧人（图 2）。布托并不确切知道，这名僧人当时在想些什么，或者有什么样的体验，但是图片反映了摄影师对此情此景的感受。</p>

<p>"Perhaps that's all I could do," he said. "The pictures are as much a reflection of my own experience as they are of the people who are in the shot."</p>	<p>他说，“也许，这就是我所能做的。照片反映了我自身的感受，就像它们反映了片中人物的感受一样。”</p>

<p>Forgotten Victims of World War II</p>	<p>在中国的朝韩慰安妇，被遗忘的二战受害者</p>
<p>Ahn Sehong had to go to China to recover a vanishing – and painful – part of Korea's wartime history. Visiting small villages and overcoming barriers of language and distrust, he documented the tales of women – some barely teenagers – who had been forced into sexual slavery during World War II by the Japanese Army.</p>	<p>为了发掘一段正在消失且痛苦的韩国战时历史，安世鸿(Ahn Sehong)不得不去往中国。在探访了一些小村庄，并且克服了语言和不信任的障碍之后，他记叙了一些妇女的故事，她们被迫在第二次世界大战期间沦为日本军队的性奴，有些人当时仅仅是少女。</p>
<p>Starting in 2001, he began tracking down 13 of these women who had been stranded in China after the war. Now in their 80s and 90s, some were childless, others penniless. Most lived in hovels, often in the same dusty rural towns where they had endured the war. They had been away from their native land so long, some could no longer speak Korean.</p>	<p>从2001年起，他开始追踪这13名战后留在中国的韩国妇女。她们现在都已八、九十岁，有些没有子女，还有些身无分文。她们中的大多数生活在简陋的小屋中，往往就在她们当年度过战争期间的尘土飞扬的农村小镇。她们已经离开故乡这么长时间，其中一些已经不会说韩语。</p>
<p>Mr. Ahn had no doubts about their identity.</p>	<p>安世鸿毫不怀疑她们的身份。</p>
<p>"Each one of these women is history," he said. "They have suffered the biggest pain created by the war. Everyone forgot about the suffering these women went through. But I want to embrace them. As Koreans, we have to take care of them."</p>	<p>"这些妇女中的每一个人都是一部历史，"他说，"她们经受了战争带来的最大痛苦。众人忘记了这些妇女曾经经历的苦难。但我想拥抱她们。作为韩国人，我们必须照顾她们。"</p>
<p>"Comfort Women" – the euphemistic term bestowed on them by their Japanese masters – is the name of an exhibition of Mr. Ahn's black-and-white photographs that opened last week at the Korea Press Center in Palisades Park, N.J. The city, which has a substantial Korean</p>	<p>日本统治者给她们起了一个委婉的名称，“慰安妇”(Comfort Women)，这也是安世鸿黑白照片展的标题，这个展览上周在新泽西州帕利塞兹帕克的韩国新闻中心(Korea Press Center)开幕。这座城市拥有庞大的韩裔人口，也是近年来一个引发争议的地点，原因是日本官员游说当地政府，移去了一座公</p>

<p>population, has also been a site of controversy in recent years after Japanese officials lobbied local authorities to remove from a public park a plaque commemorating these women.</p>	<p>园里一块纪念这些妇女的匾。</p>
<p>Japan's 35-year colonial rule of Korea still provokes anger and controversy despite formal apologies. Mr. Ahn, a native of South Korea who now lives in Japan, had been set to show his work at Nikon galleries in Tokyo and Osaka last year when the company withdrew the offer with little explanation. News reports said Nikon officials thought Mr. Ahn was pursuing a political agenda. The Tokyo show went on after Mr. Ahn pursued the matter in court, although the exhibition was marred by right-wing protesters who rushed into the gallery denouncing the women as prostitutes. Litigation on the Osaka show is pending, Mr. Ahn said.</p>	<p>尽管已经正式道歉，但日本对朝鲜半岛 35 年的殖民统治仍在引发愤怒和争议。安世鸿出生在韩国，现在生活在日本。去年他曾准备在东京和大阪的尼康(Nikon)写真画廊里展出他的作品，可尼康在没有解释的情况下就取消了这一活动。新闻报道称，尼康官员认为，安世鸿是在推动一个政治议程。在安世鸿对这一事件提起诉讼之后，东京的照片展按原计划举行，尽管展览受到了右翼抗议者的骚扰，他们冲进画廊，诬蔑这些妇女是妓女。安世鸿表示，围绕大阪照片展的诉讼仍在进行。</p>
<p>Nikon did not respond to an e-mail and three phone calls seeking comment since last week.</p>	<p>自上周以来，尼康一直未回应记者通过一份电子邮件和三次电话提出的置评请求。</p>
<p>Mr. Ahn, 42, started working as a magazine photographer in Seoul in 1996 when he learned about the plight of women who had been forced into prostitution in Korea and other countries under Japanese rule. The topic he said, had been taboo for decades, although he was drawn in once he started looking into the women who were still living in China. He worked with researchers who had been tracking down the women.</p>	<p>42 岁的安世鸿 1996 年在首尔进入职场，担任一名杂志摄影师，他了解到日治时期曾被逼良为娼的韩国和其他国家妇女的苦难。他说，这一话题几十年来一直属于禁忌，尽管在他开始调查仍生活在中国的这些妇女时，他就被这个话题深深地吸引了。他曾与一直在追踪这些妇女的研究者们合作。</p>
<p>In 2001, he made the first of seven trips to China, where he found the women reluctant to discuss how they had been forced into prostitution during the war.</p>	<p>2001 年，是他七次中国之旅中的第一次，他在那里找到了不愿谈论二战期间自己如何被迫卖淫的妇女。</p>
<p>"They were very ashamed of the fact they had been comfort women,"</p>	<p>"她们为自己曾是慰安妇感到非常羞耻，"安世鸿说。"但我最终获得了她们的</p>

Mr. Ahn said. "But in time I gained their friendship."	友谊。”
The women told him they had been lured to China with false job offers or were pressed into "voluntary" service by the Japanese Army. They described how they were raped even before they arrived in China, where they would have relations with as many as 10 men a day. Some weren't even women yet; Bae Sam-yeop (Slide 6) said she was 13 when she lost her virginity to a high-ranking Japanese officer.	这些妇女告诉他，她们曾被虚假的工作机会吸引到中国，或是被强迫为日军提供“自愿”服务。她们描述了自己如何在到达中国之前就被强暴，而在中国，她们每天会和多达 10 名男性发生关系。当时她们中的一些还未成年。裴杉瑶（Bae Sam-yeop，音译，幻灯片 6）说，在她的贞操被一名高级日本军官夺走时，她只有 13 岁。
Left behind in rural areas after World War II, the women were further isolated after the Korean War, when China had no diplomatic relations with South Korea. The North Korean government, Mr. Ahn said, provided some assistance and citizenship, but the aid ended in the 1980s and few of the women wanted to relocate to North Korea, where conditions were worse.	这些妇女在二战后被留在了农村地区，她们在朝鲜战争后处境更加孤立，因为当时中国与韩国尚未建交。安世鸿说，朝鲜政府提供过一些援助和公民身份，但这些援助在 20 世纪 80 年代停止，也极少有妇女想要搬到条件更糟的朝鲜。
Yet life in China was agonizingly difficult.	然而她们在中国的生活十分艰辛。
"They had no family and no one to support them," he said. "Because they had been comfort women, it was hard to get a decent husband. Some of them got raped and beaten when they did get married. Most of them were not able to have babies. They lived poor in rural areas. Most of them lived only with the support of their neighbors."	“她们没有家人，也没人照顾她们，”他说。“因为她们曾是慰安妇，所以很难找到像样的丈夫。她们中的一些在结婚后被强奸和殴打。她们中的大多数无法怀上孩子。她们在农村地区过着贫穷的生活。她们中的大多数只能靠邻居的照顾生活。”
In New Jersey, the exhibition has attracted crowds — mostly Korean — who have begun to explore part of their history. Mac Han, who organized the show, said he did so as an act of free expression, something he prizes as someone who became an American citizen last year.	在新泽西州，这次展览吸引了人群，其中大多数是韩裔人士，他们开始探索自己的这段历史。这次展览的组织者马克·韩(Mac Han)说，他把这次展览视为一种自由表达的行为，这是去年成为美国公民的他所珍视的。
"I'm an American," he said. "In a country of justice, where civil rights	“我是一名美国人，”他说，“在这个存在公民权利的正义国家，我想把这段历

exist, I wanted to open this up to everyone, to look at this history that no one can deny.”	史介绍给大家，让他们看一看没人能够否认的历史。”
Mr. Ahn said that of the nine women featured in the show, only three are still alive. He hopes to pursue his project to raise awareness and aid, even though he knows it will also raise hackles. South Korea, once weakened by war and poverty, he said, is now in a better position to help them.	安世鸿说，在展览中出现的九个人里，只有三人仍然在世。他希望他的项目能够带来关注和募集援助，尽管他知道这也将惹恼一些人。他说，曾被战争和贫穷削弱的韩国，现在拥有更好的条件来帮助她们。
“We couldn’t take care of them after the war,” he said. “But now we have money and power to help them. People forget very easily the memory of the war. Korea has evolved. But since they have evolved very fast, they let go of the past.”	“战后我们无法照顾她们，”他说，“但现在我们拥有了帮助她们的金钱和实力。人们很容易忘记战争的记忆。韩国已经发展了，然而由于发展非常迅猛，人们把过去抛在了脑后。”

Capturing the Accelerating Change in Tibet	荷兰摄影师眼中的西藏巨变
We highly recommend viewing this slideshow in “full-screen” mode.	我们强烈建议在观看这组照片时采用全屏模式。
Like many photographers who visit Tibet, Marieke ten Wolde has thousands of photographs of beautiful mountains, picturesque villages and nomads in colorful costume. But as she immersed herself in Tibetan life, she began to shift her attention from the icons of an ancient culture to the effects of China’s rule.	玛莉·坦·沃尔德(Marieke ten Wolde)如同许多拜访过西藏的摄影师一样，为其瑰丽的山川、别致的村庄和身着多彩艳丽服饰的游牧民拍下了数以千计的照片。但在她潜心研究西藏的生活方式时，她开始将自己的注意力由古老文化的标志转向了中国统治所带来的影响。
“I still take those photos because some places are just so beautiful, it’s a pity not to do it,” she said. “But it’s not the most interesting part, I think.”	“我仍然拍那类照片，因为一些地方真是太美了，不这样做就太遗憾了。”她说。“但我认为这类照片并不是最有趣的。”
Starting eight years ago, she has increasingly focused on the changes happening in this Himalayan plateau and on the interaction between Tibetans and the ethnic Han from China. She has looked beyond the beautiful old monasteries and sought out the modern touches that can	从八年前开始，她开始越来越多地关注发生在这个喜马拉雅高原的变化和藏族人与汉族人之间的互动。她越过了美丽的古老寺院，开始探寻现代文明对这里的影响，它们可以揭示，自1951年汉人接管西藏以来，汉藏两族之间政治文化冲突的复杂性。

<p>reveal the complexities of the political and cultural clashes since the Chinese takeover in 1951.</p>	
<p>Beijing considers Tibet to be an integral part of China. Tibet's religious leader and former ruler, the Dalai Lama, has accused China of stifling Tibetan culture. The government has encouraged ethnic Han to move into the disputed territory, transforming it from a largely nomadic and agricultural Buddhist civilization into a more modern – but less Tibetan – society. Development is so rapid that Ms. ten Wolde, who is from the Netherlands, says that the same changes that took hundreds of years to sweep through Europe are happening in a single decade in Tibet.</p>	<p>北京方面认为西藏是中国不可分割的一部分。西藏的宗教领袖和前任统治者达赖喇嘛(Dalai Lama)则控诉中国扼杀了西藏文化。中国政府鼓励汉人迁移到有争议的地域,将这个以游牧和农业佛教文化为主的社会转变成一个更加现代但是少了西藏特色的社会。来自荷兰的沃尔德说,发展的步伐是如此之迅速,以至于花了欧洲几百年时间的变化仅用了10年时间就席卷西藏。</p>
<p>"Sometimes it's very sad, because the beautiful things disappear, and sometimes they're good things," she said. "But it's always changing. Each time I return it's like I'm going back to a different century."</p>	<p>"有的时候是非常令人悲伤的,因为美丽的东西会消失,有时候它们是非常好的东西,"她说。"西藏一直在发生变化。每次我回来的时候,就好像回到了不同的世纪。"</p>
<p>She has visited nine times since 1998. Her first two trips were for pleasure, but after she became a professional photographer in 2000, she returned to document the transformations. She has photographed mines, dams and the resettlement of nomads into bungalow villages in the middle of nowhere.</p>	<p>1998年以来,她已经九次进入西藏。她的前两次纯粹是旅游,但是当她在2000年成为一名职业摄影师之后,她回到西藏来记录它的变化。她用相机记录下了煤矿、大坝,以及游牧民定居在偏僻村落的过程。</p>
<p>The changes have been so abrupt and fast that she didn't even recognize a border city she had visited a decade earlier. She actually wondered whether she had ever been there.</p>	<p>西藏的变化是如此突然和迅速,以至于她都没有认出一个她10年前去过的边境城市。她实际上怀疑,自己是否去过那里。</p>
<p>"Nothing of the city remained the same," she said. "Nothing, nothing, nothing. So much so that I had to check my diary to see if I was wrong, if I really had been there before. And I really had been there before."</p>	<p>"这座城市没有一处是和原来一样的"她说。"没有任何一处,没有,没有。以至于我不得不检查一下我的日记看看我是否错了,我是否真的去过那里。但是我以前真的去过。"</p>

<p>After her last trip, in April 2011, she says it has been difficult to get back to Tibet because many areas have been closed after demonstrations against the Chinese government and incidents of self-immolation by Tibetans protesting for religious freedom and independence. More than 90 Tibetans have set themselves on fire since 2009, 28 in November alone.</p>	<p>在她 2011 年 4 月的西藏旅行之后, 她说自己很难再故地重游, 因为在反政府示威活动和藏人为获得宗教自由和独立而实施自焚抗议事件之后, 许多地区已经被关闭了。2009 年 11 月 28 日以来, 已有超过 90 名藏人自焚。</p>
<p>In response, Beijing has flooded the country with checkpoints and paramilitary police, while Communist Party leaders introduced a "monastic management" plan to exert more direct control over religious life. The measures included sending 21,000 officials to create dossiers on monks, who would then be either rewarded for cooperating or expelled from their monasteries if they did not. In some cases, they were urged to renounce the Dalai Lama.</p>	<p>为了应对此种情况, 中国政府已经向西藏派出大批武警, 并布置了很多关卡, 同时共产党领导人采用了“僧侣管理”计划, 来对宗教生活实施更为直接的控制。这些措施包括调派 2.1 万名行政人员建立僧侣档案, 愿意积极配合的僧侣会获得奖励, 但是如果不配合的话将会被逐出寺院。在某些案例中, 僧侣被要求宣布与达赖喇嘛脱离关系。</p>
<p>On her last visit, Ms. ten Wolde saw a great deal of tension in the streets of Tibet's rapidly expanding cities and said that people were vocal with their concerns about the dams, the mines and the language, which is being replaced by Mandarin in classrooms, government offices and other institutions.</p>	<p>在她上次的西藏之行中, 坦·沃尔德看到了该地区城市迅速扩张所带来的一系列问题, 她说人们针对水坝、矿井和语言方面的问题做出公开批评。藏语在教室、政府办公室和其它机构里正在被普通话所取代。</p>
<p>"It's gotten worse year by year since 2008, when there was a lot more freedom," she said. "Now we can't even go, so we don't know how bad it is."</p>	<p>"西藏在 2008 年的时候还很自由, 但是在那之后却每况愈下," 她说。"现在, 我们甚至连去也不能去, 所以我们不知道当下的情况有多糟糕。"</p>

<p>Chinese Family Memories, Recycled</p>	<p>旧底片中洗出的中国记忆</p>
<p>When Thomas Sauvin shows his work to friends in Beijing who don't study photography, they are often surprised, and a bit confused, by the</p>	<p>当苏文(Thomas Sauvin)向不学摄影的北京朋友展示作品的时候, 他们往往对他搜集的照片很惊讶, 还有一丝困惑。在他们看来, 这些照片太熟悉了而</p>

<p>pictures he collects. To them, they are familiar — and boring.</p>	<p>显得没有新意。</p>
<p>He understands that. After all, he found his collection in the garbage. Mr. Sauvin, an editor who has lived in Beijing for a decade, has amassed a collection from discarded negatives. The photos trigger familiar — if not fading — memories: a picture of a young girl on a red Xin Fu motorcycle, for instance (Slide 12), or a shot of a T-shirt that was popular in the early 1990s.</p>	<p>他理解这一点。毕竟，他的收藏来自垃圾堆。苏文在北京生活了10年，身为编辑的他从丢弃的底片中攒出了一批藏品。这些照片能激起亲切的回忆，如果这种回忆还没有褪色的话：比方说，小女孩骑在红色的幸福牌摩托上(幻灯片12)，或者上世纪90年代初流行的T-恤衫。</p>
<p>“Sometimes people don’t expect this from photography,” he said. “They want to travel from photography. They want to see things they’ve never seen. They want to see things with a new angle.”</p>	<p>“有时候，大家心目中的摄影作品不是这样的，”苏文说。“他们希望能跟着照片旅行，想看从没见过的东西，想从新角度来审视事物。”</p>
<p>That is not what Mr. Sauvin is seeking. He is working on “Silvermine,” a project that looks at hundreds of thousands of negatives, mostly personal and family photos, that have been rescued from Beijing’s trash. From so many different lives, he sees the same story time and again.</p>	<p>这不是苏文的追求。他目前的项目《银矿》(Silvermine)搜罗了数十万张从北京垃圾堆里拯救出来的底片，大多是个人照和家庭照。从人数这样庞大的不同生命中，他一再看到同样的故事。</p>
<p>The beauty of the repetition found in the “Silvermine” photos — subjects standing still, at a distance, often in the center of the frame — comes out in an animation produced by LeiLei, a Chinese artist who teamed with Mr. Sauvin, sewing the pictures together at a rate of about eight per second. The same pose, and the same setting, appear over and over, from people perching on a Ronald McDonald statue to proud stances at major destinations.</p>	<p>从《银矿》系列照片中发掘出来的重复之美在雷磊制作的一则动画中体现了出来。照片中的人物静止站在离镜头有一定距离的地方，一般都处于画面正中。雷磊是与苏文合作的中国艺术家，他在动画中以大约每秒八帧的速率将这些照片串起。同样的姿势、同样的背景，一次又一次地出现，不管是人们在麦当劳叔叔身上歇脚，还是各大景点前骄傲的站姿。</p>
<p>The project, which will appear next week at Derby’s Format International Photography Festival, started when Mr. Sauvin and the Archive of Modern Conflict, the collector and publisher for which he works, wanted to explore more “vernacular material,” like photo albums,</p>	<p>《银矿》将于下周在英国德比举办的Format国际摄影节(Format International Photography Festival)上展出。苏文为出版商及收藏大量作品的现代冲突资料库(Archive of Modern Conflict)工作。《银矿》项目伊始，苏文及现代冲突资料库是想要搜寻更多的“民间素材”，比如相册、手工上色</p>

<p>hand-colored photographs and studio photographs. He thought it would be interesting to look at negatives, because amateur photographers often throw them away.</p>	<p>的照片和摄影棚照片。他觉得，看底片会很有趣，因为普通人往往会把它们扔掉。</p>
<p>In 2009, searching online for information about buying and collecting negatives, Mr. Sauvin kept seeing the name Xiao Ma on Chinese Web forums. Mr. Xiao recycled trash containing silver nitrates – including, but not limited to, negatives. The two met at a recycling zone north of Beijing, amid a large compound of brick buildings dedicated to different categories of castoffs. Mr. Xiao’s warehouse was filled with trash, from which he extracted silver nitrate to sell to laboratories.</p>	<p>2009年，在网上搜索购买和收藏底片的信息时，苏文不断在中文论坛上看到小马的名字。小马回收含有硝酸银的垃圾，范围不限于底片。两人在北京北面的回收厂碰头，那里有一大片砖房，专门用来处理不同类型的废弃物。小马的仓库里堆满了垃圾，他从中提炼硝酸银，然后再卖给实验室。</p>
<p>“It kind of broke my heart into many pieces,” Mr. Sauvin said, “And I just naturally told him, ‘You buy this by the kilo – just send it to me by the kilo, 10 times the price.’ ”</p>	<p>“我差不多心碎了一地，”苏文说。“但我只是很自然地跟他说，‘你是按斤买的，那就按斤卖给我，10倍的价格。’”</p>
<p>Now, Mr. Sauvin visits once every month or two, returning to his office with a load of negatives that he examines on his light table. Typically, he scans about 80 percent of them.</p>	<p>现在，苏文每一两个月光顾那里一次，带一大堆底片回办公室，在光台上仔细观看。他一般会扫描其中80%的底片。</p>
<p>At first, he was seeking “the impossible shot,” he said. He didn’t find it. After going through about 10,000 images, he realized that the task wasn’t about finding perfection.</p>	<p>他说，起初自己想找“不可思议的照片”。结果没找到。看了大概1万张之后，他意识到，目的并不在于寻找完美。</p>
<p>“There’s a big amount of very, very boring images,” said Mr. Sauvin, who looks at each one three or four times. But, he said, “a few images can stand out and wake you up, and that’s a good way to proceed, I think.”</p>	<p>“有一大堆非常非常无聊的照片，”苏文说。他会每张照片看上三四遍。不过他说，“少数照片可以脱颖而出，让你精神一振，我想这是个继续下去的好方法。”</p>
<p>Most of the photos are “three, two, one” shots – pictures of subjects standing completely still, looking straight into the lens. The pictures lack spontaneity, but they feel intimate in a way.</p>	<p>大多数照片是“三、二、一”的摆拍照，照片中的主人公站着纹丝不动，目光直视镜头。这类照片缺乏自然感，但它们在某种程度上让人觉得亲切。</p>

<p>The archive covers a short period, about 20 years from 1985 to 2005, when the digital camera and mobile photography started taking over. Most of the pictures do not have precise dates, but by studying hairstyles and fashion, as well as damage to the negatives, Mr. Sauvin can place them within a period of a few years. It helps that they come in sets, meaning he can use context, like a calendar on a wall or a street sign, to glean details about the photographer.</p>	<p>这批收藏覆盖了一个较短的时期，大约是从 1985 到 2005 年之间的 20 年，也就是结束在数码相机和手机摄影开始流行的时候。大部分照片没有准确的日期，但通过观察发型和时尚，以及底片的受损程度，苏文可以把它们的时间段缩小到几年之内。这些照片是成套的，这对他有帮助，意味着他可以利用照片的背景，例如墙上的日历或路标，来搜集有关拍照者的细节。</p>
<p>Mr. Sauvin doesn't see many changes in the aesthetics of the pictures over the years. But he sees societal shifts. In the 1980s, film was accessible but still expensive, so people were taking pictures of so-called Kodak moments — babies being born, family gatherings, visits to Tiananmen Square.</p>	<p>在多年来拍摄的这些照片上，苏文看不到审美上的太多变化；但他看到了社会的转变。上世纪 80 年代，已能买到胶片，但仍很昂贵，所以人们会拍下所谓的“柯达时刻”(Kodak Moments)，也就是婴儿出生、家庭聚会和参观天安门广场的时刻。</p>
<p>As photography popularized and the quality of living increased for many Chinese, the images changed. "You feel like it's not the father taking pictures anymore," Mr. Sauvin said. "The kids are starting to take pictures, as well."</p>	<p>随着摄影的普及，以及许多中国人生活水平的提高，照片也发生了变化。“你感到不再是由父亲来拍照了，”苏文说。“孩子们也开始拍照了。”</p>
<p>From more than half a million negatives, Mr. Sauvin has begun to see the images thematically. There is the refrigerator series: as more Chinese households began acquiring refrigerators in the late 1980s, women posed with their new appliances. And the Marilyn Monroe series, showing posters of the blond bombshell inside people's homes.</p>	<p>从五十多万张底片中，苏文开始以不同主题为它们分类。有一个冰箱系列：随着越来越多的中国家庭开始在 80 年代末购买冰箱，女性会站在这种新电器前摆拍。还有玛丽莲·梦露(Marilyn Monroe)系列，展示出人们家中张贴的这名金发女郎的海报。</p>
<p>He hasn't seen many photos of Chinese families going abroad in the 1980s. In the 90s, Thailand becomes a common destination — so common that Mr. Sauvin can describe the path the photos will take, concluding with a picture on the flight home.</p>	<p>他没有看到太多 80 年代中国家庭出国的照片。在 90 年代，泰国成为一个常见的旅游目的地，去的人太多了，以至于苏文可以描述出照片的拍摄路径，最后一张总是定格在回家的飞机上。</p>

Mr. Sauvin, 29, has yet to do similar work outside of China. He grew up in Paris looking at the photographs of Marc Riboud, whose son Theo was his childhood friend. "We were always going to his studio to steal a few postcards," he said, including pictures Mr. Riboud shot in China, where he began traveling in the late 1950s.	29 岁的苏文还没在中国以外做过类似的工作。他在巴黎看着马克·里布(Marc Riboud)的照片长大，里布的儿子泰奥(Theo)是他儿时的朋友。“我们总是会去他的工作室偷几张明信片，”他说，其中包括里布在中国拍摄的照片。上世纪 50 年代末，里布开始了他的中国之旅。
Years later, in 2006, Mr. Sauvin took a job working as an assistant for the French curator Alain Jullien at the Lianzhou International Photo Festival in Guangdong Province. There, he met the director of the Archive of Modern Conflict, where he has been a consultant, collecting contemporary Chinese photography, since 2006.	在多年后的 2006 年，苏文在广东省连州国际摄影节的法国策展人阿兰·朱利安(Alain Jullien)那里找到了一份助理工作。在那里，他遇到了现代冲突资料库的社长，并从 2006 年起成为该社的顾问，负责搜集中国当代摄影作品。
Mr. Sauvin plans to keep working on "Silvermine" as long as there are negatives to be found. "It makes sense, for this project, to really witness the death of film photography in China," he said. "It wouldn't really make sense to stop now."	只要还能找到底片，苏文就打算把《银矿》继续下去。“对这个项目来说，真实见证中国胶片摄影的消失非常有意义，”他说。“要是现在半途而废就真的可惜了。”
He sees his work as a counterpoint to the usual – and often negative – coverage about China in the foreign press and on Chinese social media.	他把自己的工作视为一种平衡，不同于外国媒体和中国社交媒体上对中国那种往往是负面的通常报道。
"It starts with birth, it ends with death," he said of the collection. "It talks a bit about love. People go to the beach. People travel. They take blurry pictures, their negatives eventually get damaged. They are at home with posters of Marilyn Monroe. They have their photo shot with their refrigerator."	谈到这一系列藏品时，他说，“它始于出生，终于死亡。其中谈了一点爱。人们去海滩、去旅游。他们拍出模糊的照片，底片最终会受损。他们的家中贴着玛丽莲·梦露的海报；他们和冰箱合影。”
It's about life.	它与生活有关。

An Indigenous Way of Life Threatened by Oil Sands in Canada	石油的代价：油砂矿业与失去土地的加拿大原住民
Ian Willms has photographed the effects of oil extraction on First	伊恩·威姆斯(Ian Willms)在加拿大阿尔伯塔省北部拍摄了开采石油给麦凯堡

<p>Nations land in Fort McKay and Fort Chipewyan, in northern Alberta, Canada. Mr. Willms, 28, based in Toronto, is a founding member of the Boreal Collective and spent several months over the last three years photographing his project "As Long as the Sun Shines." His interview with James Estrin has been edited and condensed.</p>	<p>(Fort McKay)和奇帕维安堡(Fort Chipewyan)的第一民族(First Nations)土地带来的影响。现年 28 岁的威姆斯居住在多伦多，是摄影师组织“北方集体”(Boreal Collective)的创始成员之一，在过去三年中，他花了数月时间拍摄作品集《只要阳光还在普照》(As Long as the Sun Shines)。以下是詹姆斯·埃斯特林(James Estrin)对他的采访，内容经过编辑和压缩。</p>
<p>Q. How did this project start?</p>	<p>问：这个项目是如何开始的？</p>
<p>A. When I graduated from school in 2008 I was hearing a lot about the oil sands in Canada. So I started doing research, and the more I learned, the more horrified I became.</p>	<p>答：我 2008 年从学校毕业时，听到了很多关于加拿大油砂的事情。于是我就开始做研究，我了解得越多，就越觉得害怕。</p>
<p>I read a CBC article about cancer rates in indigenous communities that immediately surrounded the oil sands, and I knew right then that was exactly what I had to do. I searched pretty thoroughly for anybody who had done a proper photo story on the community, and I couldn't find anything that was particularly in-depth.</p>	<p>我读到加拿大广播公司(CBC)的一篇文章，讲的是油砂矿周边地带原住民社区的癌症发病率问题，就在那时，我清醒地意识到自己必须做什么。我做了一番彻底的搜索，看之前是否有人用摄影叙述过社区的故事，结果没有找到任何有深度的东西。</p>
<p>Q. What did you find when you got there?</p>	<p>问：到那里后，你发现了什么？</p>
<p>A. I found a community that was far more developed economically than I had expected. There was a lot of infrastructure, and the homes were more modern than most First Nations communities. That has a lot to do with the proximity to the oil sands and the economic benefit that comes with that.</p>	<p>答：我发现那个社区在经济上的发达程度远远超出我的预期。基础设施非常多，住宅比大多数原住民社区更加现代化。这跟他们靠近油砂以及由此带来的经济效益有很大关系。</p>
<p>But the community is still struggling. First Nation reserves are still very dark and damaged places in many ways, and in other ways, they're incredibly vibrant. So it was not as bleak as I expected it to be. If you didn't already know that their water was basically coming off of a storm pipe of one of the largest polluting industrial projects in the world, you</p>	<p>但是，这个社区仍然在苦苦挣扎。从很多方面来说，第一民族保护区仍是非常阴暗和破败的地方，而在另一些方面，他们又令人难以置信地充满活力。所以，那里没有我预期的那么荒凉。如果你事先不知道他们的水基本上来自于世界上最大的、造成污染的工业项目之一的雨水管道，你是看不出来的。</p>

wouldn't.	
Q. A lot of photographers who photograph native peoples in North America just hit and run. How did you go about capturing a fuller view?	问：很多摄影师都拍摄过北美原住民，他们拍完就走了。你是怎么捕捉到更完整的画面的呢？
A. Well, the most important thing is time. And it's always going to be more time than anyone's going to be willing to pay you for.	答：最重要的是时间。你花的时间总会比人们愿意花钱请你去拍摄的时间更长。
Beyond that, I think it's a matter of becoming invested in people's lives, because if you don't care, they won't. And if you fake it, people know. People aren't stupid. If you treat them like they're stupid, they're never going to trust you. And so I spent a lot of time there, I made a lot of friends.	除此之外，我认为还要融入他们的生活，因为如果你不想投入，他们不会接受你。如果你假装融入，他们会识破的。他们并不傻。如果你像对待傻子一样对待他们，他们永远不会信任你。因此，我在那儿待了很长时间，我交了很多朋友。
There are a lot if white journalists that go into indigenous communities in North America with a preconceived notion of what these people are like and what they need. But in truth this attitude is just a continuation of the abuse of those people.	有很多进入北美原住民社区的白人记者带着成见，仿佛自己知道那里的人们是怎么样的，他们需要什么。但实际上，这种态度只是延续了对原住民的不良对待。
What the first nations really need is the respect and the confidence of the rest of Canada, to tell their own stories and to manage their own communities. They need to be empowered but they don't need others to tell them what to do.	第一民族真正需要的是尊重，以及加拿大社会其他各界的信任，他们希望讲述自己的故事，管理自己的社区。他们需要得到赋权，但他们不需要其他人告诉他们该怎么做。
I continually show my subjects the work that I do in these communities and ask if I am getting this right.	我经常向拍摄对象展示我在这些社区拍摄的作品，问他们，我把握得是否正确。
Q. Tell me more about the oil sands.	问：请再谈谈油砂。
A. There's an oil reserve that's located beneath Canada's boreal forest that's roughly the size of the state of Florida. It's rich with oil, but the process of extracting it is incredibly energy intensive, difficult and expensive.	答：加拿大北方森林的地下储藏着石油，其面积与佛罗里达州差不多。石油储量十分丰富，但采掘过程本身非常耗能，而且技术难度大，成本高昂。

<p>The process involved first clear-cutting the forest and then creating a strip mine. They dig the sandy oil out. It's like hot asphalt. On a hot day, it's very gooey and very much like tar.</p>	<p>开采石油首先要皆伐森林，然后挖一个露天矿。他们会挖掘出含沙的石油。那些油就像是热沥青。在天气炎热的日子，它黏黏糊糊，就像柏油一样。</p>
<p>The environmental toll is dramatic. There was a study by an NGO in Toronto, Environmental Defense, that in 2008 found that about 11 million liters of toxins were leaking into the Athabasca River every single day from several toxic-base water lakes in the oil sands region.</p>	<p>这个过程对环境的破坏是巨大的。多伦多非政府组织环境“捍卫组织”(Environmental Defense)2008年的一项研究发现，在油砂开采区，几个有毒的尾矿池每天把大约1100万升的有毒物质泄漏至阿萨斯卡河。</p>
<p>Q. What's the effect on the people?</p>	<p>问：对当地的人们产生的影响如何？</p>
<p>A. It has brought more money into the communities than there was before. With that said, it's really a small fraction of what they're actually entitled to. These First Nations get really bad deals from the oil companies in order to leave their lands for oil.</p>	<p>答：它给当地社区带去比以往更多的钱。可话说回来，那其实只是当地人应有权益的一小部分。第一民族的人离开家园让石油公司开采石油，可他们从石油公司获得的补偿极为糟糕。</p>
<p>A career in the oil sands may sound good to some people, but really it is the death of their culture because it's taking the new generation to work toward a completely different way of life. And it's a way of life that embraces the destruction of their land.</p>	<p>对某些人来说，在油砂行业有份工作也许听上去不错，然而，这实际上导致了第一民族文化的灭绝，原因是它将新一代人引向完全不同的生活方式。而且这种方式破坏了他们自己的家园。</p>
<p>There's a lot of grief, especially among the elders in the community, over the younger generation not taking an interest in hunting and fishing and trapping. And there's a lot of conflict among the generation in between the youth and the elders — the generation that are in their late 20s to their 50s; the people who work in the oil sands but grew up hunting, fishing and trapping.</p>	<p>对于年轻一辈人不再有兴趣狩猎、捕鱼或用陷阱捕捉猎物，人们感到痛心，尤其是老一代人。年轻人和老人之间的那一代人受到矛盾心理的煎熬，这些人的年龄在接近30岁到50多岁之间；他们在油砂矿工作，然而，他们在长大时曾经学会狩猎、捕鱼和布置陷阱。</p>
<p>They are very conflicted, because they know what they're doing. They know that they're taking away their own land. But they do it because there's no other option for them to make money. There's no other way</p>	<p>这些人非常矛盾，是因为他们知道自己在干什么。他们知道，他们在毁掉自己的家园。但他们还是这么做，因为他们没有别的途径可以挣钱。他们没有别的途径养家糊口。这些社区已经不能再像过去几千年一样，依靠土地自给</p>

for them to feed their families. These communities are no longer able to be self sufficient off the land like they had been for thousands of years.	自足。
Q. What is the effect of the oil sands on the environment?	问：油砂对环境有什么影响？
A. Well, they're finding a lot of animals with physical problems. They're finding fish with large, golf-ball-sized tumors. There was actually an industry-funded study a few years ago that found that the moose meat had 453 times the acceptable level of arsenic in it.	答：嗯，人们发现许多动物身上有问题。他们发现有些鱼长出了高尔夫球大小的大瘤。实际上，几年前一项行业资助的研究发现，驼鹿肉的神含量高达可接受水平的453倍。
These people who have hunted this land for a hundred years can read their environment like a book. They know when something's wrong. They open up an animal, they can see the health of that animal by how it looks. The industry and the government don't really take that knowledge seriously.	在这片土地上狩猎了数百年的这群人，对自己所处的环境了如指掌。他们一眼就能看出情况不对头。他们剖开一只动物，就能通过内脏的外观了解它的健康状况。石油业和政府没有把这门学问真的当回事。

You May Touch a Stranger	放松点，与陌生人合个影吧
The photographer Richard Renaldi is a matchmaker for tense times, asking complete strangers to pose with their bodies touching, as if they were intimates. On a recent afternoon in Williamsburg, Brooklyn, it was not going well. He wanted to pose an Orthodox Jewish man with someone from outside the Orthodox community.	在紧张的时刻，摄影师理查德·雷纳尔迪(Richard Renaldi)是一位“撮合者”，他让完全陌生的人像密友一样摆出姿势拍照，身体发生触碰。最近的一个下午，在布鲁克林的威廉斯堡，事情却不怎么顺利。他想要一名犹太教正统派的男子与另一名不属于该教派的人一起摆拍照片。
"It's going to take all the cajoling I can do," Mr. Renaldi, 45, said. "There's a lot of barriers."	45岁的雷纳尔迪说，“这需要我使尽各种技巧来进行劝说。有很多的障碍。”
There were, in fact, more barriers than he knew. After terse rejections from several people, a man named Abraham Weiss stopped to look at Mr. Renaldi's large-format, 8-by-10 view camera. Mr. Renaldi made his best pitch.	事实上，其中的障碍甚至比他想到的还多。在被几个人断然拒绝之后，一个叫做亚伯拉罕·韦斯(Abraham Weiss)的人停下来看着雷纳尔迪的大画幅8×10单轨相机。雷纳尔迪使尽了浑身解数。

<p>Mr. Weiss seemed to go back and forth. He ran a photo printing business and understood the project, he told Mr. Renaldi. But he feared censure from his fellow ultra-Orthodox neighbors. "You have to understand the culture," he said. If he posed for Mr. Renaldi, someone might see him, take a picture and post it on Twitter. "That could be bad for me," he said. "Posing for it, that's the problem. They don't like imaging."</p>	<p>韦斯看来犹豫不决。他对雷纳尔迪说，他经营一家照片打印店，理解这个项目的意图。但是他害怕被自己那些极度保守的犹太教正统派邻居谴责。他说，“你要理解这个文化。”如果他为雷纳尔迪摆姿势拍照就可能会被别人看到，拍下照片传到 Twitter 上。他说，“这对我来说影响可能会很糟糕。摆姿势拍照是个问题。他们不喜欢拍照。”</p>
<p>As if on cue, a car slowed and the driver photographed Mr. Weiss with his cellphone. "You see," Mr. Weiss said. He had one suggestion for Mr. Renaldi: "Try Crown Heights or Borough Park. They're more open there."</p>	<p>就像是安排好的一样，这时一辆汽车放慢速度，司机用手机给韦斯拍了一张照片。韦斯说，“你看。”他给雷纳尔迪的建议是：“去皇冠高地或菠萝园试试。那里的人更开放一点。”</p>
<p>Mr. Renaldi has been working on his portrait series, which he calls "Touching Strangers," since 2007, and plans to publish a book with Aperture next May. One of his goals, he said, is to get people to think past the divisions — ethnic, religious, socioeconomic — that often go unexamined in urban life. "For a lot of people, it's an exercise for them to be able to push their own comfort level," he said.</p>	<p>雷纳尔迪从 2007 年开始就一直在拍摄他的人像系列，他称之为《触摸陌生人》(Touching Strangers)，他计划在明年 5 月和 Aperture 合作出版一本书。他说他的目的之一就是让人们超越界限进行思考，不论是种族、宗教、社会经济上的界限，在城市生活中人们很少深究这些问题。他说，“让他们超越自己感觉安全的界线，对很多人来说是一次锻炼。”</p>
<p>Some pairs embrace wholeheartedly; some even kiss, though none on the lips (so far). Others pose as if under duress.</p>	<p>一些配对人物满心接受；一些人甚至还相互亲吻，当然不是唇吻（到目前为止是这样）。其他人则摆出一幅受到强迫的样子。</p>
<p>Mr. Renaldi said he strove to show tenderness but understood why people liked the fraught pairings, like Alex and Carlos from 2007 (Slide 3). "The viewer gets to ask himself, 'How would I react if a photographer asked me to do that?'" he said, adding that he had "a love/hate relationship with this picture and with Alex. Alex was out of there so fast I didn't get his contact information to send him a print."</p>	<p>雷纳尔迪说他尽力去表现温柔，但也理解为什么人们喜欢那种让人不安的配对，就像 2007 年亚历克斯(Alex)和卡洛斯(Carlos)的照片那样（第三张幻灯片）。他说，“看的人会问自己，‘要是个摄影师要我这么做，我会怎么做？’”，他补充说他“对这张照片和亚历克斯有一种既爱又恨的感觉。亚历克斯很快就走了，我都没来得及要他的联系方式，能给他寄一张照片。”</p>

<p>In Williamsburg on this day, he was experiencing only refusal, a hazard of his chosen project. He has dealt with rejection before: "It took me three years to get a Muslim woman," he said. But Mr. Weiss's words, which another man seconded, were discouraging. In six years, Mr. Renaldi said, "I've only had one time when I couldn't get a shot."</p>	<p>在威廉斯堡的这一天，他一直被拒绝，当然他选择的这个项目本来就有这个风险。他以前也经历过拒绝：“我花了三年时间才找到一个穆斯林妇女，”他说。但是韦斯的话还得到了另一个人的支持，让他很泄气。六年来，雷纳尔迪说，“只有一次我一张照片都没拍成。”</p>
<p>Finally, he left for Crown Heights, where the first person he approached — a 24-year-old Yeshiva student from the Chabad-Lubavitch movement named Shalom Lasker — listened to him and said, in halting English: "No problem. Only men, right?"</p>	<p>最后，他去了皇冠高地，他在那里接触的一个人听他说完便用磕磕巴巴的英语说：“没问题。只有男人，对吧？”这是一个来自 Chabad-Lubavitch 组织（犹太教正统派的一个组织——译注）的 24 岁叶史瓦大学(Yeshiva)学生沙洛姆·拉斯克(Shalom Lasker)。</p>
<p>And so it was. Mr. Renaldi gathered Jeff Desire, 27, who works in a fish market across the street, and directed the pose: hold here, lean here. Mr. Lasker gave a thumbs up. In 10 minutes they were done. "It's exhilarating," Mr. Renaldi said.</p>	<p>所以就是这样。雷纳尔迪还找到了在街对面水产市场工作的 27 岁的杰夫·德西雷(Jeff Desire)，指导他们摆出造型：搂这儿，往这里靠一点。拉斯克翘起了大拇指。10 分钟不到就拍完了。雷纳尔迪说，“这让人兴奋。”</p>

<p>Documenting Elephants' Compassion, and Their Slaughter</p>	<p>用二十年走进大象的世界</p>
<p>When Michael Nichols first photographed elephants in the lowland forests of the Central African Republic in 1991, he only caught fleeting moments of them, and at great peril. These sensitive behemoths were so afraid of ivory poachers hunting them down, they thundered off at the slightest hint of human activity.</p>	<p>1991 年，当迈克尔·尼科尔斯(Michael Nichols)在中非共和国的低地森林里第一次拍摄大象的时候，他只抓拍到了大象飞奔的时刻，而且还冒了很大的险。这些敏感的庞然大物十分害怕象牙偷猎者会对它们穷追不舍，所以只要觉察到一点人类活动的迹象，就会轰隆隆地跑开。</p>
<p>It took him 16 years to encounter elephants who were not fearful of humans, on the savannah of Kenya's Samburu National Reserve, where they were protected and used to tourists. He spent two years there photographing a group of 600 elephants, gradually comprehending their complex relationships, intelligence and compassion.</p>	<p>他花了 16 年时间，才在肯尼亚桑布鲁自然保护区(Samburu National Reserve)的热带草原上，遇到了不害怕人类的大象。象群在这里受到了保护，而且已经习惯了游客。他在那里花两年时间为由 600 头大象组成的象群拍照，并逐渐理解了它们复杂的关系、智力和同情心。</p>

<p>When one family mourned the death of a female, the elephants approached and surrounded the corpse, touched it with their trunks, and started swaying back and forth. Matriarchs from nearby elephant families joined in.</p>	<p>当一个家庭悼念一头母象的死亡时，象群会走过来，围在尸体四周，用鼻子去抚摸它，并开始前后摇摆。附近家庭的领头母象也会加入。</p>
<p>"They go to the corpse and they won't leave it," Mr. Nichols said. "Even when it's just bones. Once a year they'll visit the bones and hold them with their trunk. I would call that mourning."</p>	<p>"它们走到尸体旁，不愿意离开，"尼科尔斯说。"即便只剩下骨骼。它们每年都会过来守望这些尸骨，并用鼻子抓住骨头。我认为这是一种凭吊。"</p>
<p>His 20-year project, "Earth to Sky," is being published by Aperture this week. It is a stunningly beautiful book, whose images, many of them taken while on assignment for National Geographic magazine, reflect experiences that had a profound effect on Mr. Nichols.</p>	<p>本周，Aperture 出版了他为期 20 年的项目《从大地到天空》(Earth to Sky)。这是一本非常漂亮的书，里面的很多图片都是为《国家地理》(National Geographic)杂志拍摄的，这些图片反映了一些对尼科尔斯产生深刻影响的经历。</p>
<p>"These are the most caring and sentient creatures on earth," he wrote in the book, "yet they suffer so horribly at the hand of man."</p>	<p>"它们是最懂得关怀且最有感知力的生物，"他在书中写道，"然而它们却遭到了人类如此残忍的对待。"</p>
<p>He was helped in the savannah by Daniel Lentipo, a Samburu tribesman who had worked with a researcher from the environmental organization Save the Elephants. Mr. Lentipo could spot and identify almost any elephant, even from a great distance, and knew the individual names that had been bestowed on each. Mr. Nichols and his guide followed a family led by a matriarch named Navajo.</p>	<p>在草原上时，他得到了丹尼尔·伦蒂波(Daniel Lentipo)的帮助。伦蒂波是桑布鲁当地部落的居民，曾与环保组织“拯救大象”(Save the Elephants)的一名研究员合作过。即便距离很远，伦蒂波也能够发现并辨识几乎所有的大象，而且还知道他们给每头大象起的名字。尼科尔斯和他的向导对一头名为纳瓦霍(Navajo)的带头母象所带领的大象家族进行了跟踪。</p>
<p>Normally, elephants sleep standing up to be alert to impending danger. But these ones felt comfortable enough that in the middle of the night the whole family lay down and went to sleep "just snoring and farting" around the two men.</p>	<p>一般情况下，大象会站着睡觉，以对潜在危险保持警觉。但是这些大象却觉得非常安适，在夜间所有的家庭成员都躺下来睡觉，在两个人周围“打鼾放屁”。</p>
<p>Mr. Nichols saw complex societal relationships unfold and photographed elders teaching and taking care of young orphans. He</p>	<p>尼科尔斯看到了复杂的社会关系，并对较为年长的大象教育和照顾失去双亲的幼象的过程进行了拍摄。他还注意到这些大象对环境十分敏感，就好像带</p>

<p>also noticed that these elephants were so sensitive to their environment, it was as if they were carrying around an internal weather station. Not to mention a memory — you guessed it — as good as an elephant's.</p>	<p>着一个体内气象站一样。它们良好的记忆力自然更不用提——你猜对了——就像一句英语俗语说的，“记忆力好得和大象一样”。</p>
<p>“The old ladies got to know where they found water 20 years ago during a drought,” he said of the matriarchs. “Elephants are passing on knowledge just like indigenous tribes would or we might today.”</p>	<p>“干旱期间，年老的母象能够记起它们 20 年前曾在哪里找到过水，”他在提到带头母象时说。“大象传递知识的方式，与原住民部落和我们今天的某些方式是一样的。”</p>
<p>If only humans were as faithful to the past. The volume includes Mr. Nichols's elegiac black and white photographs of a massacre by ivory poachers in Chad in 2006 that he says was the beginning of a full-scale elephant slaughter that continues to today. With each tusk fetching up to \$6,000, tens of thousands of elephants throughout Africa are killed for their tusks.</p>	<p>如果人类也能一样忠实于过去就好了。这本册子里还有尼科尔斯拍摄的一些哀恸的黑白照片，照片展示了象牙偷猎者 2006 年在乍得进行大屠杀的过程。他说，这是大规模屠杀大象的开端，而如今屠杀仍在继续。每根象牙的售价可达 6000 美元（约合 3.67 万元人民币），整个非洲每年都有数万头大象因为象牙被杀。</p>
<p>“Ivory simply must be devalued,” Mr. Nichols wrote. “Those who buy it and use it and carve it must be shamed. Elephants are perceptive, conscious and responsive animals; they cannot be terrorized and massacred by a world that calls itself civilized. We have to forget about the absurd indulgence of ivory — a useless status symbol — and put our focus and resources into the far more complex problem of how elephants and humans can share land in an overtaxed continent.”</p>	<p>“我们必须降低象牙的价值，”尼科尔斯写道。“那些购买、使用和雕刻象牙的人应该感到羞愧。大象是一种有感知力、有意识而且有反应的动物；自诩‘文明’的世界不应该让它们感到害怕、对它们进行屠杀。我们必须忘掉对象牙的荒谬嗜好，它只是一种毫无用处的地位象征。我们的注意力和资源应该放在更加复杂的问题上，即大象和人类应该如何在这个负担过重的大洲上共存。”</p>
<p>He sees this as more than a conservation issue. Both in the jungles and on the plains, ecosystems depend on elephants to clear the land for other animals to use. But there is an “almost spiritual” experience, he said, in seeing large herds of elephants walking freely across Africa's plains.</p>	<p>他认为这件事并不只是动物保护问题。不论在丛林中，还是在草原上，生态系统都需要依靠大象来清理土地，以供其他动物使用。但是他说，看到一大群大象在非洲草原上自由穿行的情景，“几乎是一次涤荡心灵的”经历。</p>

<p>"Elephants should be here just because they need to be here," he said. "The earth is not the earth without them."</p>	<p>"大象应该在这里，这仅仅是因为它们需要在这里，"他说。"如果没有它们，地球将不再是原来的地球。"</p>

<p>Women, Bought and Sold in Nepal</p>	<p>被拐卖的尼泊尔妇女</p>
<p>NEPAL may be known for natural beauty and Mount Everest, but there is a dark side to this small, picturesque country. Women and girls are being bought, sold and smuggled across the Nepal-India border. Although reliable data on the scope of the issue is difficult to gather, Unicef reports that as many as 7,000 women and girls are trafficked out of Nepal to India every year, and around 200,000 are now working in Indian brothels.</p>	<p>尼泊尔或许以自然美景和珠穆朗玛峰而闻名，但这个风景如画的小国也有其黑暗面：在这里，妇女和女孩正在被买卖，通过尼泊尔-印度边境被贩卖出去。尽管很难收集到可靠数据来判断情况的严重程度，但联合国儿童基金会发布报告称，每年有多达 7000 名妇女和女孩被从尼泊尔拐卖到印度，而目前有大约 20 万被拐卖的女性是被卖到了印度的妓院。</p>
<p>I traveled to Nepal last spring to document the growing problem of sex trafficking and unsafe migration, spending the majority of time in Katmandu and along the Nepal-India border.</p>	<p>今年春天，我到达尼泊尔记录日益加剧的性贸易和拐卖人口问题，其中大部分时间都待在加德满都以及尼泊尔-印度边境地区。</p>
<p>One of the women I talked with was Charimaya Tamang, who 19 years ago went out to the fields to cut grass in her village in Nepal. Typically she would have gone with other women from her village, but that day she was alone. A group of men grabbed her from behind, tied her hands and made her swallow "a powder." When she woke up she was in a city in northern India. "I had never seen tall buildings before," she recalled. It was a lot hotter than her village and the men offered her a soda. "I didn't want to drink it but I was so thirsty," she said. The heat and soda were her last memories before finding herself in a Mumbai brothel under the care of a woman she called "Auntie," where she remained in forced prostitution for 22 months.</p>	<p>我采访的其中一位女性叫沙里玛雅·塔马恩(Charimaya Tamang), 19 年前塔马恩去她所在的尼泊尔村庄的地里割草。通常她会和同村的其他女性一起去，但那天她是自己去的。几个男人从背后抓住了她，把她的手捆起来，并迫使她吃下"一种粉末"。醒来后，她发现自己身处印度北部一座城市。"之前我从来没见过高楼，"她回忆称。那里比她的村子热很多，那些男人给了她一瓶汽水。"我不想喝，但我太渴了，"塔马恩说。后来她被弄到孟买一家妓院，酷热和汽水是她在之前的最后记忆，在那家妓院，塔马恩在一个她称之为"阿姨"的女人看护下，被迫从事性交易 22 个月。</p>

<p>The sex trafficking starts with the procurers in Nepal, who might be anyone: a stranger with a fake job to offer — or a girl’s own brother in-law. Then someone else escorts the women across the open border and out of the country. “The pimp might take a girl across the border in a cycle-rickshaw and put a tikka dot on her forehead so it looks like she and he are married,” said Pamela Gurung, an activist affiliated with the Nepalese branch of the Catholic nonprofit group Caritas Internationalis, which among other things fights human trafficking throughout Nepal. Anti-trafficking workers have started to train border police officers to be on the lookout for scared-looking women, suspicious couples or men with multiple women. But border police officers are not paid much. Many are bribed as part of the vast criminal network of trafficking between India and Nepal.</p>	<p>性奴贸易始于尼泊尔的皮条客，任何人都有可能去作这种皮条客：一个提供虚假工作机会的人——甚或女孩自己的姐夫。然后另一个人会押送这些女孩越过开放的边境到境外。“皮条客可能用人力三轮车带着女孩过境，并在她额头上点上眉心，这样看上去就好像他俩是夫妻，”隶属于天主教非营利组织国际明爱(Caritas Internationalis)尼泊尔分支机构的活动人士帕梅拉·古隆(Pamela Gurung)说，国际明爱致力于打击贩卖人口等现象。反贩卖人士已开始训练边境警察，要注意看上去很害怕的女性、可疑夫妻或者带着数名女性的男性。但边境警察的薪水很微薄。其中很多人被贿赂收买，成为印度和尼泊尔间走私犯罪的巨大网络的一部分。</p>
<p>A brothel pimp or madam pays close to \$2,000 for one trafficked Nepalese girl, according to Rupa Rai, head of Caritas Nepal’s gender department. The girl is then obligated to repay this fee over time. Charimaya Tamang was the first woman in Nepal to file charges against her trafficker and win. Leaving Tehran and Restraints Behind	逃离德黑兰和禁忌
Kiana Hayeri has fond memories of her teenage years in Tehran — even if she had to dodge the morality police whenever she decided to wear a little more makeup or uncover her hair.	基安娜·哈耶里(Kiana Hayeri)十分怀念自己在德黑兰度过的青少年时光，虽然在那个时候，要是稍微化了点儿妆，或者是露出了头发，她就必须躲开风化警察。
But at 17, her family sent her to live in Toronto so that she could have better opportunities for college and a career. At an age when fitting in at school is important, Ms. Hayeri’s mastery of English was limited to “I don’t speak English.”	但是，她 17 岁的时候，她的家人把她送到了多伦多，好让她获得更好的大学教育和工作机会。在这个年纪，融入学校十分重要，然而，当时哈耶里会说的英语仅限于“我不会说英语”。
Ms. Hayeri, now 24, has spent the last three years documenting people very much like herself. Her first major project, “Your Veil Is a Battleground,” published last year on Lens, showed teenage girls in Tehran living dual lives — a proscribed one in public and another pushing limits and striving for personal freedoms in private. Her subjects were not necessarily typical of the country, but in Tehran she found many young people yearning for more.	今年 24 岁的哈耶里在过去 3 年中一直在记录和她经历相似的人们生活。她的大项目《你的面纱是个战场》(Your Veil Is a Battleground)去年在 Lens 上发表，拍摄的是在德黑兰过着双重生活的青少年女孩，她们在公开场合严守禁忌，私下里却突破极限追求个人自由。她的拍摄对象不一定非得是这个国家的典型人物，但她确实发现，德黑兰的很多青年都渴望更多。
They were, she felt, exactly who she would have been if she had not emigrated.	她认为，自己如果没有移民，便会成为他们当中的一个。
Ms. Hayeri followed four of them as they, too, emigrated in search of those freedoms and better economic opportunities. She photographed her 17-year-old subjects in Tehran, as they moved and in the countries where they settled over the last year.	哈耶里跟踪记录了其中 4 个女孩的生活，她们跟她自己一样，也为寻找自由和更好的经济条件而移民。她拍摄了那些 17 岁青年在德黑兰的生活，还拍摄了他们移民，以及过去一年在新国家安定下来的过程。
“I think for all these girls, the families sent them away for exactly the	哈耶里说，“我觉得，就这些女孩而言，她们的家人把她们送出去的原因和

<p>same reason that my family did: for a better future, for more safety, more educational options," Ms. Hayeri said. "Hoping for a better future."</p>	<p>我家人是完全一样的：为了更好的未来、更多的安全保障、更多受教育的选择。总的来说是希望能有一个更好的未来。”</p>
<p>Their experiences have been quite different.</p>	<p>她们的经历各不相同。</p>
<p>Parmida moved with her family to California to study ballet, which was illegal in Iran. "Not only couldn't she perform, but ballet classes have to be run sort of underground," Ms. Hayeri said. In the United States, Parmida has continued her ballet lessons and has started ballroom dancing.</p>	<p>帕尔米达(Parmida)和她的家人一起搬到了加利福尼亚，为的是学习芭蕾舞，跳芭蕾舞在伊朗是非法的。哈耶里说，“她不仅不能表演，连上芭蕾舞课都得用上类似地下活动的办法。”帕尔米达在美国继续学习芭蕾舞，并且已经开始在舞厅跳舞。</p>
<p>Melika moved to Montreal to finish high school and attend college. She lives alone, though her parents visit often. She is generally quiet and shy. "She studies all the time, so grade-wise, she's doing amazing," Ms. Hayeri said. "But I don't think that she's happy with where she is right now."</p>	<p>梅利卡(Melika)搬到蒙特利尔，为的是念完高中并进入大学。她一个人住，不过她父母经常来看她。大致说来，她又安静又腼腆。哈耶里说，“她总是在学习，很会考试，成绩很好。但我觉得，她对现在的处境并不满意。”</p>
<p>Soheila moved to Toronto with her family, "very religious and restrictive" Sunni Muslims from southern Iran. She has changed a lot since arriving, especially in "the way she dresses and the way she interacts with friends," Ms. Hayeri said. "Now she lives her life and works at McDonald's."</p>	<p>苏海拉(Soheila)和家人一起搬到了多伦多，她的家人来自伊朗南部，是“非常虔诚非常严格”的逊尼派穆斯林。哈耶里说，来多伦多之后，她改变了很多，特别是“在穿衣服的方式和与朋友相处方面。现在她在麦当劳工作，过着自己的生活。”</p>
<p>Parastou was a member of the Iranian national junior canoeing team, but her prospects for continued athletic competition were dim because she was a woman, and women are discouraged from participating in public sporting events in Iran. She moved to Australia, hoping to compete there. Now, she works as a lifeguard and teaches swimming while continuing her training.</p>	<p>帕拉斯托(Parastou)是伊朗国家少年皮划艇队的成员，但她继续参加运动竞赛的前途十分渺茫，因为她是女的，而伊朗不鼓励女性参加公开体育运动。于是她搬到了澳大利亚，希望能在那里参加比赛。如今她一边继续训练，一边从事救生员和游泳教练的工作。</p>
<p>As new immigrants, each of these four women face similar challenges</p>	<p>作为新移民，这4个女孩面临的问题都类似于哈耶里在2005年移民加拿大</p>

to those Ms. Hayeri faced when she moved to Canada in 2005. But since then, Ms. Hayeri has found her own path as a successful young photographer. She is glad that she emigrated — a move that allowed her to become “a different person.”	时所面临的问题。但从那时起，哈耶里找到了自己的路，成为了一名成功的年轻摄影师。她为自己的移民选择感到高兴，因为这使她有机会成为“一个不同的人。”
Now, though, she is back in Tehran, photographing during the run-up to Iran’s June 14 presidential election.	但是，现在她回到了德黑兰，在伊朗6月14日总统选举即将到来的这段时间里进行拍摄。

During Dark Times, a Darkroom on the Front Lines	二战前线老照片尘封七十载终面世
Dr. Jock Cobb is 94 years old and lives in an Albuquerque nursing home. He has had a long and fascinating life, yet it all might have been quite different if he had not met a girl, many years ago, and followed her to Mexico.	乔克·科布博士(Jock Cobb)现年94岁，居住在新墨西哥州阿尔伯克基的一所疗养院。他的一生漫长而有趣，不过，要不是多年前遇见了一个女孩并追随她去了墨西哥，或许一切都会迥然不同。
He was fresh out of Harvard in 1941 when he accompanied a young woman to Mexico to help with earthquake relief through a Quaker aid effort. As war raged on the other side of the world, he was taken by the Quakers’ philosophy of nonviolence. But Dr. Cobb knew he would be drafted into the military when he returned to the United States.	1941年，刚从哈佛大学(Harvard University)毕业的科布陪着一个年轻姑娘去了墨西哥，通过贵格会(Quaker)的援助项目参与地震救援活动。世界的另一边正战火纷飞，他却对贵格会的非暴力理念着了迷。不过他心知肚明，等他一回到美国就会被征召入伍。
He refused the draft and became a conscientious objector, convinced that systemic violence, even against a dark force like the Nazis, was wrong. “It was not a common thing to be a conscientious objector in World War II,” his son, Nat, said. “It was difficult, and you were discriminated against. People hated you for it.”	科布拒绝征召，成为了一名因良心拒绝服役者(conscientious objector)。他相信就算是为了对付纳粹这样的恶势力，系统性暴力也是错误的。“二战的时候拒服兵役可不是件寻常事，”他的儿子纳特(Nat)说。“很艰难，会被歧视。人们因此而怨恨你。”
Required to do alternative service, he joined an ambulance corps run by the American Field Service. He left for Egypt, taking not just his convictions, but also two cameras; the budding pacifist, it turned out,	由于要求服替代役，他加入了美国战地服务团(American Field Service)下属的救护车队。动身去埃及的时候，他不仅带着自己的信念，还带了两台相机。原来这位成长中的和平主义者还有志于摄影事业。

<p>was also an aspiring photographer.</p>	
<p>That decision allowed him to create a trove of images documenting the war efforts in North Africa, and later, at the front lines in central Italy. He did it by converting his ambulance into a makeshift darkroom to process film and make prints away from the eyes of military censors. He scrounged film wherever he could find it, and even resorted to using 35-millimeter movie film when necessary. It was difficult to juggle his responsibilities as a driver with his role as a photographer, and sometimes, the signals got crossed.</p>	<p>这一决定让科布创作出了大量珍贵的影像，先后记录了北非与意大利中部前线的战事。他把自己的救护车改造成冲洗胶片的临时暗房，在部队审查员的眼皮底下冲印。他抓住一切机会搜寻胶片，必要时就连 35mm 的电影胶片也用。同时应付救护车司机和摄影师的工作并不是件容易的事，有时候，会相互冲突。</p>
<p>"I put blankets over the windows," Dr. Cobb said. "Sometimes, we'd get called out in the middle, and I'd have to scuttle everything and throw it on the ground, and go out and save lives."</p>	<p>"我往窗户上蒙上毯子，"科布说。"有时，我们会被临时征召，我就得赶紧把东西都处理掉，扔到地上，然后开出去救人。"</p>
<p>Dr. Cobb and his fellow ambulance drivers were officially civilians, but found themselves in the cross hairs of German artillery on many occasions. Coincidentally, he had lived in Germany as a child, and sometimes conversed in German with wounded enemy soldiers in the back of his ambulance. He observed that the doctors — especially the British physicians in North Africa — would treat the wounded, regardless of what side they were on.</p>	<p>科布这样的救护车司机理论上属于平民，不过他们常常会暴露在德军的炮火之下。巧的是，他小时候在德国生活过，因此有时会与救护车上的敌军伤员用德语交谈。他发现，医生们，尤其是在北非的英国医生在救助伤员的时候不分敌我。</p>
<p>That influenced his life tremendously, as much as his trip to Mexico had a few years earlier. Dr. Cobb was from a family of physicians, and his father was a professor at Harvard Medical School. Before shipping off to Europe, he was certain he did not want to follow in those footsteps. But he had a change of heart after witnessing the British doctors' generosity of spirit.</p>	<p>与几年前的墨西哥之行一样，这一点深刻地影响了他的一生。科布出身于医学世家，父亲是哈佛医学院(Harvard Medical School)的教授。乘船前往欧洲之前，他确信自己并不想要继承家学。不过，亲眼目睹了英国医生的慷慨无私后，他改变了想法。</p>

<p>"I began to realize that these were the guys who were trying to put things back together," he said. "Everybody else in the world was trying to tear everything apart."</p>	<p>"我开始意识到，这些人是在努力地修复，"他说。"世界上的其他人都在努力地破坏。"</p>
<p>So he applied to medical school, and received his acceptance letter from Harvard via telegram while he was stationed in Italy.</p>	<p>于是他申请了医学院，并在派驻意大利期间收到了哈佛的电报录取函。</p>
<p>Eventually, he made his way home, after witnessing multiple atrocities and surviving several close calls. He wrapped his negatives in tissue paper, on which he made careful notes, and stuffed everything into a fruitcake tin. It was confiscated at Norfolk, Va., upon arrival, but was sent back to him shortly thereafter. Dr. Cobb made a few prints for family and friends, and then tucked the fruitcake tin away in a trunk.</p>	<p>目睹了诸多暴行并经历了几次死里逃生之后，科布最终回到了美国。他用纸巾包着底片，细心地在上面对作了注释，然后全部塞进一个水果蛋糕铁盒里。抵达弗吉尼亚州诺福克的时候，铁盒被没收了，但不久后铁盒又被寄还给他。科布冲洗出一部分照片给亲友看，然后把进一个大行李箱里搁置起来。</p>
<p>And then he went about becoming a doctor, which he said "takes all your time and all your strength."</p>	<p>接下来，科布为成为一名医生而忙碌着。用他自己的话说，这事"会耗尽你所有的时间和精力"。</p>
<p>Dr. Cobb spent his lengthy career in the service of others. He worked for the Indian Health Service for several years, did relief work with the World Health Organization, and settled at the University of Colorado Medical School, where he was the head of the preventive medicine department for many years. Upon his retirement, he moved to Albuquerque, where his family maintained a home, cracked open his trunk of photographic history, and rediscovered the fruitcake tin, filled with negatives.</p>	<p>科布将自己漫长的职业生涯用于服务他人。他曾为印第安卫生服务部门 (Indian Health Service)效力数年，在世界卫生组织(World Health Organization)从事过救援工作，最终在科罗拉多大学医学院(University of Colorado Medical School)落脚，担任了多年的预防医学系主任。退休之后，他搬到了阿尔伯克基；他的家族在那里还有住房。他打开了那个装着自己的影像历史的行李箱，重新发现了塞满底片的水果蛋糕铁盒。</p>
<p>At that point, Dr. Cobb and his son, who was also a doctor with the Indian Health Service, decided to get his World War II photographs out into the world. They met a curator at the Albuquerque Museum of Art and History, who exhibited a few of the images and encouraged both</p>	<p>到了此时，科布及其为印第安卫生服务部门做医生的儿子决定，应当把这些二战照片公之于众。他们与阿尔伯克基艺术与历史博物馆(Albuquerque Museum of Art and History)的一名策展人会面，后者展出了部分照片，并鼓励科布父子出版摄影集。于是，他们找到了拥有一家小型出版社的朋友雷</p>

<p>Dr. Cobb and his son to turn the pictures into a book. They approached a family friend, Renny Russell, who had a small publishing house, and collaborated on a project that would become "Fragments of Peace in a World at War."</p>	<p>尼·拉塞尔(Renny Russell), 共同策划了一个项目, 后来成为《战争中的和平瞬间》(Fragments of Peace in a World at War)这本书。</p>
<p>During the lengthy process, Dr. Cobb realized that he had suppressed many of his memories of the worst violence. As a physician, he knew that his mind had locked away things that were too difficult to comprehend. "With a lot of pictures, I would look at them and just wouldn't know whether I had helped a guy, or left him to die. I couldn't remember," he said. His son also admitted, "Both of us spent a lot of time crying in the process."</p>	<p>在这个漫长的过程中, 科布意识到, 他之前压抑了许多的记忆, 事关一些极其可怕的暴行。作为一名医生, 他明白是自己的内心把难以理解的事情埋藏了起来。他说, "有很多照片, 我看着的时候完全想不起来, 自己到底有没有帮助里面的那个人, 还是任由他死去。我没有记忆。"他的儿子也承认, "在这个过程中, 我们俩都花了好多时间流泪。"</p>
<p>Now that the United States has been at war for 12 years, both father and son felt it was important to spread a message of peace and understanding throughout the world.</p>	<p>时至今日, 美国已连续 12 年卷入战争。父子二人都认为, 向全世界传递和平与理解的讯息十分重要。</p>
<p>"When we had the draft, it was everybody you knew who was involved, and had been there," Nat Cobb said. "Everybody knew somebody who had been in action in Vietnam, or in World War II, at that time. It was much more a part of society, instead of this warrior class that we've separated off. How do you permeate that barrier? How do you get through with words and images that let people know that this is not the way to go?"</p>	<p>"过去征兵的时候, 你认识的每个人都牵涉其中, 都去过那里," 纳特说。"那时候, 人人都认识什么人参加过越南行动或者二战。它占据的社会比重要大得多, 不像现在, 涉及的只有与我们隔离开来的战士群体。怎样才能克服这层障碍呢? 怎么把语言和影像传递过去, 让人们知道, 战争不是解决手段呢?"</p>
<p>Through their efforts, the photographs are now reaching a wider audience, almost 70 years after they were taken. They are being viewed on computer technology that could not even be imagined when Dr. Cobb was roaring through Italy in his makeshift darkroom ambulance.</p>	<p>在他们的努力之下, 近七十年后, 这些照片终于来到了广大观众的面前。它们可以借助电脑技术观看, 这是科布驾驶那辆作为临时暗房的救护车在意大利穿梭的时候想也不敢想的事情。尽管世界发生了天翻地覆的变化, 战争却仍然存在。世人能听到他的声音, 他已经很满足。</p>

As different as the world is now, war still remains, and he is just glad to know his voice is being heard.	
"It has always been my hope that something like that would happen," Dr. Cobb said.	"我一直希望，这种事情有朝一日能发生，"科布说。

Women on the Front Lines and Behind the Lens	女性议题，女性视角，女性摄影师
Stephanie Sinclair has mostly happy memories of her childhood in Miami, where she grew up encouraged by her parents to be carefree, confident and defiant. It was there, in an elementary school broadcast arts program, that she requested to be a camera operator, offering the first inkling of what she would do with her life.	斯蒂芬妮·辛克莱(Stephanie Sinclair)的童年在迈阿密度过，记忆大多十分愉快。成长过程中，父母鼓励她无忧无虑、有自信、不惧权威。在当地小学的传播艺术课程里，她申请去操控摄像机。这是她第一次隐约感到将来会以什么为生。
Today, she is one of National Geographic's conflict photojournalists, one of about a dozen women among the magazine's 60 freelance photographers.	现如今，辛克莱是《国家地理》(National Geographic)的战地摄影记者。在该杂志的60名自由摄影师中，有十几名女性，而辛克莱是其中之一。
For the past decade, Ms. Sinclair, 40, has traveled throughout Yemen, India, Afghanistan, Nepal and Ethiopia, documenting the lives of child brides, where girls as young as 6 are offered to older men as wives, often serving as a way to pay off a family's debt. She often wonders what her childhood would have been like had she been born under those circumstances.	过去10年里，现年40岁的辛克莱穿梭在也门、印度、阿富汗、尼泊尔和埃塞俄比亚，记录童养媳的生活。在那些地方，小至6岁的女童会被送给年长男性为妻，往往是作为帮家族偿债的一种方式。她常想，如果自己出生于这样的环境，又会有怎样的童年？
"I don't see myself any different from those girls," she said.	"我觉得自己不会与这些女孩有什么不同，"她说。
"Most of the girls I have photographed got married between the age of 8 and 13; that's such a pure age," added Ms. Sinclair, who also does freelance work for The New York Times Magazine, Time and Newsweek. "I really identified with the innocence of that age, and I felt	"我拍的大多数女孩在8到13岁之间结婚，正是单纯的年纪，"辛克莱还说。"这个年纪的纯真让我产生了强烈的共鸣。我很生气，没人保护她们。"她也为《纽约时报杂志》(The New York Times Magazine)、《时代》周刊(Time)和《新闻周刊》(Newsweek)担任自由摄影师。

<p>Several images from her series “Too Young to Wed” are part of “Women of Vision: National Geographic Photographers on Assignment,” an exhibition opening Thursday and on view through March 9, 2014. It features 10 other photographers — Lynsey Addario, Kitra Cahana, Jodi Cobb, Diane Cook, Carolyn Drake, Lynn Johnson, Beverly Joubert, Erika Larsen, Maggie Steber and Amy Toensing — who have been published by the magazine in the past decade.</p>	<p>辛克莱创作的《过早成婚》(Too Young to Wed)系列中的部分影像参与了本周四开幕的展览《女性视角：工作中的国家地理摄影师》(Women of Vision: National Geographic Photographers on Assignment)。展览将一直延续到2014年3月9日，除辛克莱之外，还收录了过去10年间曾在《国家地理》杂志上发表图片的10名摄影师的作品。她们分别是：林赛·阿达里奥(Lynsey Addario)、基特拉·卡阿纳(Kitra Cahana)、乔迪·科布(Jodi Cobb)、黛安·库克(Diane Cook)、卡罗琳·德雷克(Carolyn Drake)、林恩·约翰逊(Lynn Johnson)、贝弗利·朱伯特(Beverly Joubert)、埃丽卡·拉森(Erika Larsen)、玛吉·斯蒂伯(Maggie Steber)，以及艾米·滕辛(Amy Toensing)。</p>

<p>Elizabeth Krist, the exhibit’s curator, said that while you can’t necessarily identify if an image was captured by a woman or a man, she thinks that gender plays a significant role in how a story is documented, especially with some issues like child brides or sexual assault.</p>	<p>策展人伊丽莎白·克里斯特(Elizabeth Krist)表示，尽管人们不一定能判断出照片出自女性还是男性之手，但她认为，性别在记录的方式中起到了重要作用，尤其是在童养媳和性侵犯这类问题上。</p>
<p>“I wish this book wasn’t necessary,” said Ms. Krist, a senior photo editor at National Geographic. “I also think that women are still underrepresented, and I think it is especially true if you look at developing countries. Women are more likely to cover issues that are important to women and to have access to these issues.”</p>	<p>克里斯特是《国家地理》的高级图片编辑，她说，“我希望本没有必要出这本书。我还认为这个领域内的女性人数仍然不足，看看发展中国家的情况，更是如此。女性更加可能报道对女性重要的话题，也更可能接触到相关信息。”</p>
<p>Many aspects of the industry have changed for Ms. Cobb, one of only</p>	<p>仅有四名女性成为《国家地理》的专职摄影师，科布是其中之一。对她而言，</p>

<p>four women to become a National Geographic staff photographer. She has worked for the magazine for the past two decades, but she still does not believe there are enough female photographers featured in major news publications.</p>	<p>行业里发生了诸多变化。过去 20 年间，她都在为《国家地理》工作，不过她仍然觉得，受聘于大型新闻机构的女摄影师人数还不够多。</p>
<p>When Ms. Cobb began her photojournalism career in the mid-1970s, she was the only woman on the photo staff at The Wilmington News Journal and remembers constantly feeling she had to prove herself to be part of many of the male-dominated photo pits. It wasn't until 10 years later when she went on assignment in Saudi Arabia for National Geographic that she realized the advantages of being a woman.</p>	<p>上世纪 70 年代中期，科布开始摄影记者生涯的时候，她是《威尔明顿新闻日报》(The Wilmington News Journal)图片部门唯一的女性。在她的记忆中，常常感到需要在男性主导的摄影圈里证明自己。直到 10 年后，受《国家地理》之托到沙特阿拉伯工作时，她才意识到身为女性的优势。</p>
<p>"My work in Saudi Arabia could not have been done by a man; it had to be done by a woman," said Ms. Cobb, who documented the role of women in Saudi society. "That experience was a real turning point for me and how I approached my work. I began feeling more confident that there was a receptive audience for topics that focus on issues that affect women."</p>	<p>"男人干不了我在沙特阿拉伯的工作，必须得是女人，"科布说。她记录的是女性在沙特社会中扮演的角色。"对我个人和我对待工作的方式而言，那次经历都是真正的转折点。我开始感觉更有信心了，有一批观众关心着影响女性的话题。"</p>
<p>Along with Ms. Cobb, several other women in the exhibit have experienced peril in the line of duty. Ms. Addario, a seasoned conflict photojournalist with more than a decade of experience in the Middle East, has been kidnapped twice, first in 2004 and again in 2011, when she was one of four journalists from The New York Times held hostage in Libya by pro-Qaddafi forces. Ms. Addario was repeatedly threatened and sexually assaulted during their six-day detainment. While reporting in Afghanistan, Ms. Sinclair had to fire her driver after he repeatedly mocked her for wearing a burqa and drove her to several of his</p>	<p>在参加展览的女性摄影师中，有几位和科布一样，也在工作中遭遇过危险。阿达里奥是一位经验丰富的摄影记者，在中东有十多年的经验。她被绑架过两次，第一次是在 2004 年，第二次是 2011 年时，她跟《纽约时报》的另外三名记者一起，被利比亚亲卡扎菲派势力扣留了六天，其间阿达里奥多次遭到威胁和性侵犯。辛克莱驻阿富汗报道时，不得不解雇了她的司机，因为他多次嘲笑她穿罩袍的做法，而且还违背她的意愿，把她载去了他的一些私人场所。</p>

<p>"You try not to dwell on these stories too much, but they are all real," Ms. Cobb said. "They happen to men, too."</p>	<p>"你不想过多地纠缠在这些事情中，但它们都是真事。"科布说："它们也会发生在男性身上。"</p>
<p>While organizing the exhibit and book, it was important to Ms. Krist that she convey a broad selection of images and photographers, varying in subject matter, location and style. After working at the magazine for more than two decades, she identified one overarching theme among the photographers: the "fundamental humanity in which they approach their subjects."</p>	<p>在安排展览和图书内容的时候，克里斯特认为，要去展现大量不同题材、地理位置和风格的摄影作品和摄影师，这十分重要。在《国家地理》工作了20多年后，她认为这些摄影师有一个至关重要的共同主题："她们在处理拍摄对象时所展露的根本的人性。"</p>
<p>"They are the kind of people that you want to be around, the kind of people that you want to build relationships with," she said.</p>	<p>"她们是那种你希望与之消磨时光、建立关系的人，"她说。</p>
<p>As a photography intern at National Geographic in 2009, Ms. Cahana pitched more than 50 story ideas to her editors. None were approved, she says in the book. Two years later, the science section of the magazine was preparing an article about the science of the teenage brain. It called on Ms. Cahana, then 22, to document the images.</p>	<p>2009年，卡阿纳在《国家地理》当摄影实习生，她在书中说，自己向编辑推介了50多个选题，一个都没有获得批准。两年后，该杂志的科学版块开始写一篇关于青少年大脑科学的文章，并让时年22岁的卡阿纳去拍摄相关图片。</p>
<p>Ms. Cahana said she thought her age and gender allowed her to seamlessly blend with her high school-age subjects to produce the series, "Teenage Brains." She worked on the article for almost four months, immersing herself in the high school environment only six years after she had graduated from an Orthodox school in Montréal. She attended classes, went to lunches and participated in after-school activities to meet her subjects. Eventually she realized that she no longer needed to go to school to meet her subjects — they began calling her to invite her out to events, just to have her there.</p>	<p>卡阿纳说，她认为自己在年龄和性别上有优势，可以天衣无缝地混迹在作为拍摄对象的高中生之间，从而拍摄《青少年的大脑》(Teenage Brains)系列。她为这篇文章工作了近四个月，让自己沉浸于高中生活的环境中，而这时距离她从蒙特利尔的一所东正教高中毕业只有六年。卡阿纳和学生们一起去上课、吃午餐及参与课余活动，以便跟她的拍摄对象碰面。最终，她发现自己无需再去学校跟拍摄对象碰面了——他们开始打电话邀请她外出参加一些活动，没有别的目的，只是希望她也一起去。</p>

<p>Ms. Cahana acknowledges that entering into the lives of young girls might not necessarily have been appropriate for an older man. "I was just having an easier time as a younger girl," she said. Her images, several of which are in the exhibition, include a teenager getting her tongue pierced after peer pressure from a friend and a boxing match between two teenage boys, being recorded by friends on their cellphones to post on Facebook.</p>	<p>卡阿纳承认，让一个老男人混进年轻女孩的生活圈不太适合。她说：“作为一个年轻女孩，我去做这项工作更容易。”展览中有几幅图片属于这个系列，包括一名十几岁的女孩在朋友们的压力下穿了舌洞，还有一幅图片是两个男孩进行一场拳击比赛，被他们的朋友用手机拍下来，以贴在 Facebook 上。</p>
<p>"When you really have the time to develop deep relationships with your subjects, it shows," said Ms. Cahana, who had her first published photograph at The New York Times at the age of 17 and was awarded the International Center of Photography Infinity Award for Young Photographer earlier this year.</p>	<p>"人们能够看得出来，你是否真的有时间去跟拍摄对象发展深层关系，"卡阿纳说。她第一次在《纽约时报》上发表照片时年仅17岁。今年早些时候，她荣获了国际摄影中心无限奖(International Center of Photography Infinity Award)的年轻摄影师奖项。</p>
<p>Working as a young female photographer was not always easy for Ms. Cahana, and she has distinct memories of initially wanting to play down her femininity to be more accepted by the mostly male staff during her first internship. Several months on the job at Flash 90, an Israeli photo agency, she met Benedicte Kurzen, another young freelancer. Ms. Cahana remembers Ms. Kurzen confidently walking into the newsroom, talking about all of the places she had traveled as a photographer.</p>	<p>作为一名年轻的女摄影师，卡阿纳的工作并非总是一帆风顺。她清楚地记得，最初她想淡化自己的女性特质，因为在她第一次实习期间，男性员工占了绝大多数，她觉着这样可以让他们更好地接受自己。在以色列图片社 Flash 90 工作了几个月之后，她遇到了另一名年轻的自由摄影师贝内蒂特·库尔森 (Benedicte Kurzen)。卡阿纳记得库尔森自信地走进编辑部，谈论自己作为摄影师去过的所有地方的样子。</p>
<p>She also happened to be wearing a skirt.</p>	<p>她也正好穿着一条裙子。</p>
<p>That brief interaction with Ms. Kurzen changed Ms. Cahana's perception of what was possible. "There was this young woman who was able to carve out this whole identity and still do the work she was doing," she said. "It made me look at myself and my work completely different."</p>	<p>跟库尔森之间的那次短暂交流，改变了卡阿纳对人生可能性的看法。“这个年轻女孩可以充分经营女性身份，同时又干好摄影工作，”她说。“这彻底改变了我看待自己和工作的方式。”</p>

<p>Brazil's Protests, On and Off the Wall</p>	<p>让“占领”圣保罗运动在影像中继续</p>
<p>Not long after 2 a.m. last Sunday, some 30 photographers and friends swept the downtown dust off two walls that closed in a small but busy street near São Paulo's Luz subway station. They had just slathered glue onto several large photos and were about to paste them onto the walls when the police showed up and asked what they were doing.</p>	<p>上周日凌晨 2 点刚过，约 30 名摄影师和他们的朋友将圣保罗市内卢斯地铁站附近一条繁忙小街旁的两面墙上的灰尘扫下来。他们给几幅大照片涂上胶水，正要要将它们贴在墙上时，警察过来问他们在干什么。</p>
<p>"We're putting up photographs," the photographer Mauricio Lima said to the two officers. "Photography is not a crime."</p>	<p>摄影师毛里齐奥·利马(Mauricio Lima)对这两名警官说，“我们在张贴照片。摄影又不违法。”</p>
<p>No, but it is complicated. A group called FotoProtestoSP was posting the images publicly, scenes from the demonstrations and clashes that swept through Brazil earlier this year. They wanted to make sure the protests would not be forgotten as people went about their daily, and rushed, routine.</p>	<p>不违法，但很复杂。一个叫做 FotoProtestoSP 的组织正在公开张贴照片，展示今年早些时候席卷巴西全国的抗议和冲突的画面。他们希望人们不要在每天的匆忙中忘却这些抗议活动。</p>
<p>Sunday's installation of 26 4-by-5-foot images was halted after two hours of negotiations — and a side trip to the local precinct headquarters — when the police couldn't figure out which of their divisions had to grant the group permission. Though the photographers' work is not confrontational, it is an occupation — of public space and, more important, people's minds. In a city where people stop for little, the group wants people to slow down and think</p>	<p>经过两个小时的谈判，还到该区的警察局去了一趟之后，周日要张贴 26 张约 1.21x1.52 米尺寸图片的活动被叫停，因为警察搞不清楚究竟哪个部门该给这个组织发放许可。这些摄影师的活动虽然不具有对抗性，但却是一种“占领”，它将占用公共空间，更重要的是会占领人们的意识。在一个人们不愿停下脚步的城市，这个组织希望人们能放慢脚步，想一想他们作为一个国家该走向何方。</p>

<p>about where they — as a nation — are going.</p>	
<p>“It was a process of occupying the city with photography,” said Mr. Lima, a freelance photographer for The New York Times. “And, because it is an artistic intervention, it didn’t even come to mind for us that getting permission would be necessary for this to happen.”</p>	<p>为《纽约时报》担任自由职业摄影师的利马说，“这是一个用照片占领城市的过程。由于这是一场艺术干预，我们甚至都没有想过为此要申请批准。”</p>
<p>During the early days of protest in June, citizens had shown their anger and outrage in numbers that topped a million across the country, with São Paulo’s crowd peaking at 65,000. The city’s Independence Day protest in September brought only 2,000 to the streets, a small figure not just in comparison to the number moved to action in the city just three months before, but also to its population of more than 11 million.</p>	<p>在6月份抗议活动发生的最初几天里，全国有100多万公民陆陆续续地表现出了愤怒和愤慨，圣保罗聚集的人群在高峰期曾达到6.5万。而该市在9月份举行的独立日抗议活动中，只有2000人走上了街头，与仅仅三个月前的抗议人数相比相去甚远，与该市1100万人口相比更是少之又少。</p>
<p>That dwindling number of voices holding the government accountable is what drove Mr. Lima and the others to come up with the idea of an open-air exhibit of photos they took that captured some of São Paulo’s most powerful moments during the movement against corruption. Hoping to keep the people’s spirit of protest alive, the group’s members, mostly freelance photojournalists, set out to use their images to show support for the protests and to make sure what finally pushed people over the edge was not forgotten.</p>	<p>正是因为要对政府问责的人越来越少，利马和其他人才想出这个办法，即公开张贴他们在圣保罗反腐败运动期间捕捉到的最有震撼力的画面。该组织成员大多数是自由职业摄影记者，他们希望让人们的抗议精神永葆生机，于是决定用自己拍摄的照片来表示对抗议的支持，确保最终推动人们走上街头抗议的事情不被忘却。</p>
<p>Their first installation was at São Paulo’s massive Araçá Cemetery in early September. Usually off-white and unnoticed, the cemetery wall, blackened by dust kicked up by the heavy traffic that passes by on busy Doctor Arnaldo Avenue, became an art exposition on the night of Sept. 7.</p>	<p>他们第一次活动9月初在圣保罗庞大的阿拉萨公墓举行。这个墓地原来米白色的不起眼的墙壁被阿纳尔多博士大街的车水马龙带来的灰尘染成黑色，可这里在9月7日晚上变成了一个艺术展区。</p>
<p>The photographers laid their works of art face down on the sidewalk,</p>	<p>这些摄影师将自己的艺术作品正面朝下放在人行道上，在照片背面抹上胶</p>

<p>covering the backs with swirls of glue and spreading it, corner to corner, with the palms of their hands. They picked up the photos and smoothed them onto the wall, following the measurements already taken to make sure they were stuck on straight. The group moved quickly, rolling more glue over each photo as they covered the blank space.</p>	<p>水, 然后用手掌将胶水从一个角向另一角涂开。然后将照片捡起来贴到墙上, 按照已经量好的尺寸确保照片平整而位置正确。一组人动作很快, 在一张又一张照片背后抹上胶水, 逐渐覆盖整个空白空间。</p>
<p>While the photos at Araçá were taken down three days after they were put up – reportedly because of preparations for a coming religious feast day – the group found a new space to display 26 more photos for the street by the Luz subway station.</p>	<p>虽然阿拉萨的照片在张贴三天后就被取了下来(据说是因为要为即将到来的宗教节日做准备), 但这个组织在卢斯地铁站附近的路上又找到一个地方, 可以张贴另外 26 张照片。</p>
<p>“The priority is public walls with high visibility so that the photos can be seen by as many people as possible, by pedestrians, drivers in cars and people taking the bus,” Mr. Lima said.</p>	<p>利马说, “我们最先考虑的是很容易被看到的公共墙面, 这样张贴的照片就能被尽可能多的人看到, 步行者、驾车者、以及公交车乘客。”</p>
<p>The Independence Day protest act can still be seen online, along with video pieces recounting stories behind the photos and the process of the exhibit’s creation.</p>	<p>独立日抗议活动依然可以在网上看得到, 还有一些描述这些照片背后故事和展览创建过程的视频片段。</p>
<p>And it has not all been in vain. Two days after the photos from the first visual protest went up, FotoProtestoSP’s Facebook page jumped to 1,500 followers, and 5,500 people had read its manifesto. Now, the group has more than 2,800 likes, and affiliated groups are starting to organize in Rio de Janeiro and Belo Horizonte.</p>	<p>这一切不全是徒劳。在第一次视觉抗议照片张贴两天之后, FotoProtestoSP 的 Facebook 页面关注者达到 1500 人, 有 5500 人看过他们的宣言。现在, 这个组织已经被赞了 2800 多次, 其附属组织正开始在里约热内卢和美景市组织起来。</p>
<p>The São Paulo group even captured the reactions of people passing by the wall during its first exhibit, showing how the photos grabbed the attention of even the fastest-paced Paulistas, who generally stop for nothing.</p>	<p>这个圣保罗的组织甚至还在第一次展览时抓拍了路人的反应, 显示出这些照片是如何引起了甚至是节奏最快的圣保罗人的注意, 他们一般不愿为任何事情停下脚步。</p>

<p>Mr. Lima and the other group members meet weekly to discuss their coming projects and are in the process of raising money through crowdsourcing.</p>	<p>利马和其他组织成员每周聚在一起讨论未来的项目，他们正通过“众包”(crowdsourcing)方式募资。</p>
<p>The photographers and their works will eventually return to the cemetery wall, and Mr. Lima says they will display a new set of photos each month, with plans already in motion for them to last at least until the 2014 World Cup in Brazil.</p>	<p>这些摄影师和他们的作品最终将回到墓地的墙壁，利马说他们将每月展示一组新照片，目前计划将这些照片至少保留到2014年巴西举行世界杯足球赛时。</p>
<p>"It was and has been a historical moment of struggle, and we have to return to the streets what they gave us," Mr. Lima said. "We fully agree with those in the streets. It is a mutual commitment with a society that fights for a country that calls for the reduction of social inequality and political decency, especially in Congress. The flame of the protests' positive spirit cannot be put out."</p>	<p>利马说，“这曾是，也一直是斗争的历史性时刻，我们必须把他们给予我们的返还街上。我们与上街抗议的人意见完全相同。这是一个社会的共同承诺，全社会正在要求减少社会不公平和弘扬政治道德（尤其是在国会中），为国家做到这一点而抗争。抗议的积极精神之火不能被熄灭。”</p>

<p>High in Nepal, a Lowly Status for Women</p>	<p>卑微在尘世中的尼泊尔女性</p>
<p>A woman crouches in a doorway, her feet in sandals and a cow to her left. She looks ahead, a pained stare on her face. This is where she lives, for now.</p>	<p>一个女人蜷缩在门口，凉鞋上沾着干草，左边是一头母牛。她朝远处看去，脸上露出痛苦的表情。这就是她目前居住的地方。</p>
<p>"She's not allowed to go back in the house because she's impure," said Marie Dorigny, a French photographer who photographed the woman in Nepal this year.</p>	<p>法国摄影师马里耶·多里尼(Marie Dorigny)说，“人们不准她回屋，因为她不干净。”多里尼今年在尼泊尔拍下了这个女人的照片。</p>
<p>Members of the Hindu community in some parts of western and central Nepal still practice Chhaupadi, a custom that forces women to live in the stable while menstruating and just after giving birth. They are forbidden to cook and eat with their families.</p>	<p>尼泊尔中西部一些地方的印度教居民仍然奉行Chhaupadi习俗，即迫使处于经期及刚刚分娩的女性住进牲口棚，不准她们与家人一起做饭、吃饭。</p>

<p>Ms. Dorigny had been to Nepal three times before, beginning with the country's first free elections in 1991. "I thought Nepal was going on the right path," she said, "that everything was improving since the peace." But last year, she learned that the situation for women had worsened when she met with a contact from the French NGO Planète Enfants, which works in Nepal.</p>	<p>多里尼之前去过尼泊尔三次，第一次是在尼泊尔举行首次自由选举的1991年。“当时我以为，尼泊尔走上了正确的道路，”她说。“实现和平之后，一切都在改善。”然而，去年与法国非政府组织 Planète Enfants 的熟人见面时，多里尼得知尼泊尔女性的处境越来越糟。该组织在尼泊尔开展工作。</p>
<p>Ms. Dorigny, who often works for National Geographic, has been following the plight of women around the world, from victims of abuse in Russia to sex trafficking in Europe. Despite her experience, and her knowledge of Nepal, she was still surprised by some of the things she found this year – like the woman in the stable.</p>	<p>经常为《国家地理》(National Geographic)工作的多里尼一直在关注世界各地女性的困境，从俄罗斯的虐待受害者，到欧洲的性奴贩卖受害者。她虽然去过尼泊尔，对这个地方有所了解，但却仍对今年得知的一些事情感到震惊，比如这个待在牲口棚里的女人。</p>
<p>"The idea you have of the issues from Paris and what you see when you are there in the field is sometimes completely different," she said.</p>	<p>她说，“有些时候，你在巴黎形成的看法与你在实地看到的问题是完全不同的。”</p>
<p>She spent two months in Nepal with the support of a grant from the International Photoreporter Festival in Saint-Breuc, in the Brittany region of France. The festival, founded by Alexandre Solacolu and in its second year, starts this weekend. It presents a new model of funding for photojournalism – one in which the members of a community make a commitment to storytelling.</p>	<p>凭借圣布里厄国际摄影节的资助，她在尼泊尔待了两个月。圣布里厄位于法国的布列塔尼区，这个由亚历山大·索拉科卢(Alexandre Solacolu)创立的摄影节已经进入第二个年头，本届摄影节将由本周末开始。它提供了一种资助新闻摄影工作的新模式——按照这种模式，参与者要做出讲故事的承诺。</p>
<p>"These people have very strong beliefs that there's still a way to cover these issues," Ms. Dorigny said.</p>	<p>多里尼表示，“这些人坚信，仍然有办法报道这些问题。”</p>
<p>Forty-three companies donated 150,000 euros to an endowment fund to support work by 13 photographers, also including Darcy Padilla, Peter Dench, Agnes Dherbeys, Philip Blenkinsop, Robin Hammond, Stefano De Luigi, Guy Martin, Kosuke Okahara, J. B. Russel, Catalina Martin</p>	<p>43家公司为一项捐赠基金贡献了15万欧元（约合126万元人民币），以支持13名摄影师的工作，这些摄影师包括达西·帕迪利亚(Darcy Padilla)、彼得·登奇(Peter Dench)、阿格尼丝·德尔贝斯(Agnes Dherbeys)、菲利普·布伦金索普(Philip Blenkinsop)、罗宾·哈蒙德(Robin Hammond)、斯特凡诺·德</p>

<p>Chico, Claude Rives and Donald Weber. Each photographer will share the final work and story with the community. The exhibition, which will be free to the public, runs through Nov. 11.</p>	<p>路易吉(Stefano De Luigi)、盖伊·马丁(Guy Martin), 冈原功祐(Kosuke Okahara)、 J·B·拉塞尔(J. B. Russel)、 卡特莉娜·马丁·奇科(Catalina Martin Chico)、克劳德里韦斯(Claude Rives), 以及唐纳德·韦伯(Donald Weber)。每一名摄影师都会与其他摄影师分享最终的作品和故事。本次展览免费向公众开放, 截止时间是11月11日。</p>
<p>Ms. Dorigny's visit was her fourth trip to Nepal, which she said is among her favorite places to work. But it's hard to find official statistics there regarding complicated issues: violence, rape and trafficking, for instance. Most victimized women don't dare go to the police.</p>	<p>这此拍摄是多里尼的第四次尼泊尔之旅, 她曾表示尼泊尔是她最喜欢的工作地点之一。但是, 面对暴力、强奸和人口贩卖这样的复杂问题, 很难找到相关的官方数据。大多数受害女性不敢报警。</p>
<p>"It's just a feeling from the local NGOs or the police that there are more and more cases and that the violence is increasing and that the forms of violence are increasing," Ms. Dorigny said. "And they are more diverse."</p>	<p>"当地的非政府组织和警方都只有一种模糊的感觉, 那就是案件越来越多, 暴力事件不断增加, 暴力的形式也在增加," 多里尼说。"越来越多样。"</p>
<p>When Ms. Dorigny met a 19-year-old who tried to burn herself to death after a dispute with her husband, the young mother was staying in a shelter for women victims of violence, along with her child.</p>	<p>多里尼在一个为女性暴力受害者设置的庇护所里遇到了一个19岁的年轻母亲, 她与自己的孩子一起待在那里, 之前她曾与丈夫发生争执, 并且试图自焚。</p>
<p>"She didn't know what to do with her life afterward," Ms. Dorigny said.</p>	<p>多里尼说, "她不知道自己的将来应该如何打算。"</p>
<p>The shelters work to teach women very basic skills — knitting and cooking, for instance — but in Nepali society, women cannot live alone. Her only option, Ms. Dorigny said, was to go back with her husband.</p>	<p>这些庇护所会教女性一些非常基本的技能, 比如织毛衣和做饭, 然而, 尼泊尔社会不允许女性单独居住。多里尼说, 她唯一的选择就是回到丈夫身边。</p>
<p>"But her husband is the reason why she almost died," Ms. Dorigny said.</p>	<p>多里尼说, "但她丈夫正是她几乎死掉的原因。"</p>
<p>There has been a growing number of cases of women being burned in domestic disputes over the past decade. Other issues on the rise include trafficking to the Gulf countries and female feticide, which is relatively new to Nepal, she said.</p>	<p>过去10年, 女性因家庭纠纷而被烧死的案例一直在增加。她说, 把女性贩卖到海湾国家和杀害女婴的现象也在不断增加, 对于尼泊尔来说, 这些现象相对较新。</p>

<p>A decade ago, there were very few “massage parlors” and “dance bars” in Katmandu. Now, with growing poverty in Nepal’s villages and increasing tourism from China, Pakistan and the Gulf countries, what the government calls the “entertainment business” has expanded.</p>	<p>10年前，加德满都的“按摩房”和“舞厅”非常少。如今，随着尼泊尔农村变得越来越贫困，来自中国、巴基斯坦和海湾国家的旅游者越来越多，政府所谓的“娱乐业”也得到了扩张。</p>
<p>“It’s a very classic pattern of exploitation,” Ms. Dorigny said.</p>	<p>多里尼说。“这是一种非常传统的剥削模式。”</p>
<p>The stories of other women she photographed in Nepal were examples of more “traditional” forms of violence in the country — though just as hard to hear.</p>	<p>她在尼泊尔拍摄的其他女性的故事说明尼泊尔存在更“传统”的暴力形式——不过，这些故事听起来让人同样难过。</p>
<p>One woman, Manmai, is a Buddhist mother of four who lived in a Hindu district bordering Tibet. Ms. Dorigny spent three days in her village, talking with her about how her husband, an alcoholic, had been beating her.</p>	<p>女佛教徒曼马伊(Manmai)有四个孩子，住在毗邻西藏的印度教地区。多里尼在曼马伊的村庄里待了三天，向她了解她的酒鬼丈夫一直以来是如何殴打她的。</p>
<p>Not long after Ms. Dorigny left, she received word that Manmai (Slide 1) had filed for divorce, and that she was planning to find work in the Gulf. “She’s not only a victim,” she said. “She’s somebody who’s taking her life in her hands to fight back, and I really admire this — after all these years of poverty, this kind of violence and despair.”</p>	<p>离开之后不久，多里尼就听说曼马伊(图片 1)已经提出离婚，还打算去海湾地区找工作。“她不仅是一名受害者，”她说。“她还是一个将命运掌握在自己手中并进行抗争的人，我真的很佩服这一点——毕竟她经历过这么多年的贫穷，经历过这样的暴力和绝望处境。”</p>
<p>Still, Ms. Dorigny has scant hope. “I think that unfortunately, with the economical and political crisis that Nepal is experiencing now, it’s not going to improve in a short time,” she said.</p>	<p>然而，多里尼并不抱太大希望。她说，“我想，不幸的是，鉴于尼泊尔正在经历经济和政治危机，短期内是不会出现改善的。”</p>
<p>What saddens her — a feminist since her teenage years — is that she doesn’t see the situation for women improving globally. That, she said, is why she keeps shooting stories like this one.</p>	<p>从少年时代开始，多里尼一直是一名女权主义者。让她感到悲伤的是，她没有看到女性处境得到全球性改善的希望。她说，这就是她要继续拍摄此类故事的原因。</p>
<p>“I have a dream of a world, a planet where woman and men would be equal — different, but equal,” she said. “And I would love to see it at least</p>	<p>“我梦想这样的一个世界，一个男女平等的星球——不同但却平等，”她说。“我衷心希望，自己离世之前能看到至少有一个国家实现了这一点。我已经 53</p>

Artful, Aerial Views of Humanity's Impact	唯美呈现人类带给地球的伤痕
There were 2.5 billion people in the world when Edward Burtynsky was born in the late 1950s. Now, there are seven billion and counting.	20 世纪 50 年代末爱德华·伯汀斯基(Edward Burtynsky)出生时，世界上只有 25 亿人。如今，全球共有 70 亿人，而且还在不断增加。
"That's literally a billion in every decade, so I started recognizing that human enterprise was expanding like a rogue species," Mr. Burtynsky said during a recent interview at the Carlyle Hotel's tearoom. "I gave myself the view of the outsider, with the ability to look at the systems we need to employ to support the basic mammalian biomass of seven billion people."	"那就是每十年增加 10 亿人，所以我开始意识到人类活动在像野草一样蔓延，"伯汀斯基最近在卡莱尔酒店(Carlyle Hotel)的茶室接受采访时说。"我将自己置于旁观者的角色，这样才能对支持基本总数达到 70 亿的人类所需使用的各种系统进行观察。"
That initial realization is at the root of his artistic exploration, leading Mr. Burtynsky, a Canadian photographer, to "start looking at what the effect is of that amount of life bearing down on all the existing resources, whether it's farmland, oceans, fish and all the protein that we get through the animal food chain." He has spent the last several decades photographing how humans degrade the earth, as they mine, drill, pump and drain in a relentless quest for resources and riches.	这种最初的意识是加拿大著名摄影师伯汀斯基进行艺术探索的原因之一，使他"开始关注这么多的生命给一切现存资源施加了何种影响，不管是农田、海洋、鱼类，还是我们通过动物食物链而获得的所有蛋白质"。过去数十年，他一直在拍摄人类如何给地球带来伤害，出于对资源和财富的不懈追求，人类采矿、钻探、抽水，并逐渐耗尽资源。
"I don't see myself as a card-carrying activist at all, but I do see myself as an advocate or a concerned citizen for sustainability," Mr. Burtynsky said. "I see that we're stretching the boundaries and limits of what we can do in nature, without it starting to bite back. It's starting to, but I don't think it's given us a really bad bite yet."	"我完全不觉得自己是个旗帜鲜明的活动人士，但我的确觉得自己是一个倡导和关心可持续发展的公民，"伯汀斯基说。"我看到我们在大自然不反击的情况下，肆无忌惮地扩展活动范围和界限。它已经开始反击了，但我认为带来的伤害还不是特别严重。"
His newest project looks at water, the most vital resource we have, and	他的最新项目关注的是水，这是我们拥有的最关键的资源，以及它在 21 世

<p>the multiple ways it is employed in the 21st century.</p>	<p>纪的多种使用方式。</p>
<p>Mr. Burtynsky, who won the TED prize in 2005, was visiting New York for the opening of twin exhibitions at the Howard Greenberg Gallery and the Bryce Wolkowitz Gallery. Both shows feature hyper-realistic, large-scale photographs from his new work, "Water." The exhibits are accompanied by a Steidl monograph, another exhibition curated and presented by the New Orleans Museum of Art (but on view at the Contemporary Arts Center, an independent organization), and his first co-directorial documentary film, "Watermark."</p>	<p>伯汀斯基获得了 2005 年的 TED 奖，他正在纽约参加分别于霍华德·格林勃格画廊(Howard Greenberg Gallery)和布赖斯·沃科维奇画廊(Bryce Wolkowitz Gallery)举办的两项展览的开幕式。这两个展览展出他的新作“水”(Water)系列中那些超写实主义、大幅的照片。同时进行的还有一个施特德尔(Steidl)的专题展览——由新奥尔良艺术博物馆(New Orleans Museum of Art)策划、呈现的另一个展览（但是将在独立机构当代艺术中心 [Contemporary Arts Center] 展出）——以及他首次与别人合作导演的纪录片《水印》(Watermark)。</p>
<p>This inquiry began several years ago, while he was chatting with some journalists in Australia. "Some pretty crazy stories were coming back in terms of what was happening to the first continent that's drying up," he said. "It was in worse shape than anywhere else, at that point."</p>	<p>这项调查始于几年前，他当时在澳大利亚与一些记者闲聊。“考虑到发生在第一个即将干涸的大陆上的事情，一些疯狂至极的故事正在重现，”他说。“它当时的状况比其他任何地方都糟。”</p>
<p>National Geographic contacted him soon thereafter, asking him to participate in a single-themed issue on water. The magazine requested that he focus on California, where he visited places like the Owens Valley, whose water was diverted to spur the growth of nearby Los Angeles.</p>	<p>不久之后，《国家地理》(National Geographic)就与他取得了联系，邀请他参与制作以水为单一主题的一期杂志。《国家地理》要求他主要关注加利福尼亚，他去那里参观了欧文斯谷等地方。人们把这里的水引到了附近的洛杉矶，以刺激当地的经济增长。</p>
<p>"It became literally a dust bowl, and it was the dust that was causing them a lot of difficulty," Mr. Burtynsky said. "It used to be agricultural land, so a lot of fertilizers and pesticides were embedded in the soil. And a lot of selenium, for whatever reason. It was a bowl, so the storms would come in and lift the sand on to towns like Lone Pine. It featured some of the worst, most toxic dust storms in America." (Yes, that's the same Lone Pine made famous by Ansel Adams.)</p>	<p>伯汀斯基说，“那真的成了一个“灰尘碗”(dust bowl)，灰尘给他们带来了很大的麻烦。那里过去曾是农田，因此土壤中留下了许多肥料和农药。不知道什么原因，土里还有大量的硒。当地的地形像个碗，所以风暴袭来时会把沙吹到隆派恩这样的城镇上。此时出现了美国历史上最恶劣、毒性最大的几场沙尘暴。”（没错，就是因为安塞尔·亚当斯[Ansel Adams]而闻名的那个隆派恩）</p>

<p>From California, Mr. Burtynsky spread his search out across much of the planet, making photographs in the United States, Mexico, Iceland, Spain, China, the Netherlands, India, England and Canada. He broke the topic down into several categories: distress, control, agriculture, aquaculture and source. It fits his normal working style.</p>	<p>从加州开始，伯汀斯基将他的搜寻扩大到了地球上的很多地方，他在美国、墨西哥、冰岛、西班牙、中国、荷兰，印度、英国和加拿大都拍摄了照片。他把这个主题细分成了几个类别：悲伤、控制、农业、水产养殖和源头。这是他一贯的工作风格。</p>
<p>"I like to work in arcs," he said. "I call them buckets, where I can fit the different ideas." He chooses the individual subjects for their metaphorical potential, because, given water's immensity as a subject, "you can't be encyclopedic or comprehensive. It has to be more poetic and interpretive, but structural."</p>	<p>他说，“我喜欢步步推进地创作，我把它们称作水桶，我可以把不同的想法装进去。”他选择的每一个拍摄对象都是因为它们具有潜在的象征意义，因为考虑到水作为一种物质是无边无际的，“你不是百科全书，也不能无所不包。它必须更加具有诗意和阐释性，但是要有一定结构。”</p>
<p>Regardless of the photographs' impact, and the unpleasant realities they reveal, the pictures themselves are undeniably beautiful. Mr. Burtynsky is masterly in his use of aesthetics and in his manipulation of the viewer's expectations.</p>	<p>抛开这些照片的影响力以及它们所揭示的恼人现实，这些照片本身就美得无可争辩。伯汀斯基对美学的运用，以及对照片观赏者期望的操纵可谓出神入化。</p>
<p>"Even though a lot of the pictures are really beautiful to look at, it's pretty clear that even the beauty you're looking at is something you intuitively know is not right," said Russell Lord, who curated the exhibition in New Orleans. <p>Mr. Burtynsky uses art to try to ask questions, open minds and communicate problematic concepts. He acknowledges the difficulty in presenting beautiful pictures that can be misunderstood without the proper context, but insists that the art world is necessary to finance his practice. Hard Labor in Nepal's Brick Factories	尼泊尔砖厂的苦工们
Brian Sokol worked as a guide in Nepal until 2005, when its civil war compelled him to pursue documentary photography. He became interested in the hundreds of brick factories scattered throughout the 220-square-mile stretch of the Katmandu Valley. Millions of workers, many of them poor migrants, depend on the labor-intensive process. In the late evenings at the Kadambini Brick Factory, it's not uncommon to find children drinking wine or lighting up a cigarette after a hard day's work.	布赖恩·索科尔(Brian Sokol)曾在尼泊尔当向导。但在2005年,内战促使他转行从事纪实摄影。后来,他对分布在面积220平方英里(约合570平方公里)的加德满都谷的砖厂产生了兴趣。数百万工人(其中有很多是贫穷的农民工)依赖这种劳动密集型工作。每天晚上,在卡达姆比尼砖厂(Kadambini Brick Factory)经常能看到孩子们在一天辛苦工作后喝酒抽烟。
Mr. Sokol, originally from Missouri, spent roughly a year exploring a factory 12 miles from the capital, where he documented all of the images for his black-and-white photo series, "Kadambini." Though he started out shooting in color with a digital S.L.R., he switched to black and white using a smartphone, which he said made him look at the world in simpler visual terms.	索科尔来自美国密苏里州,他花大约一年时间对距离尼泊尔首都12英里(约合19.3公里)的一家工厂进行了仔细研究,他的系列黑白照片“卡达姆比尼”(Kadambini)都是在那里拍摄的。虽然他最初用一台数码单反相机拍摄彩色照片,但是后来改用智能手机拍摄黑白照片,他说这样能使他以更简单的视觉要素观察这个世界。
Q. How did you come across this issue?	问:你是怎样发现这个问题的?
A. The air quality in the Katmandu Valley is among the worst in the world, due in part to the smoke pouring from hundreds of brick factories. I had been living in Nepal for some time, and like most Katmandu residents, each winter developed a bad case of bronchitis or some other respiratory infection. Curious about the link between illness and air quality, I decided to find out about the giant chimneys dotting the eastern end of the valley.	答:加德满都谷是世界上空气质量最差的地方之一,部分原因在于几百家砖厂冒出来的烟雾。在尼泊尔住了一段时间后,我与加德满都的大多数居民一样,每年冬天都会患上严重的支气管炎或其他形式的呼吸道感染。由于对疾病和空气质量之间的联系感到好奇,我决定仔细研究一下分布在加德满都谷东部边缘的巨大烟囱。

<p>Q. How regulated is this industry?</p>	<p>问：这个行业的监管情况如何？</p>
<p>A. During the several months that I've spent working on this project, I've never seen any sign of governmental or other industrial oversight. Of the estimated 750 brick factories operating in Nepal, only 450 of them are even registered with the government. While there may be laws in place that theoretically should guide labor practices and mitigate environmental impact, I haven't personally come across anything to suggest that they are being implemented.</p>	<p>答：我投入这个项目的几个月期间，从未见过政府或行业部门进行监管。尼泊尔估计有 750 家砖厂，其中只有 450 家在政府登记过。虽然尼泊尔理论上可能有一些规范劳动实践和减少环境影响的法律，但是我个人从未看到任何迹象表明这些法律得到执行。</p>
<p>Q. Where do the majority of workers come from?</p>	<p>问：大多数工人都来自哪里？</p>
<p>A. The brick workers at Kadambini, the small factory that I've focused on, are all migrant laborers, primarily from two regions. The first group are domestic migrants from the Rolpa region of northwest Nepal. This is one of the poorest and most remote corners of an already-impoverished country, and the region perhaps hardest hit by the decade-long civil war that ended in 2006. The second group is composed of international migrants who cross the open border between India and Nepal. Males and females work side by side and ages span from small children to the elderly. I've seen toddlers attempting to help their mothers press bricks from clay and photographed an 8-year-old who carried heavy loads atop his head for long hours each day.</p>	<p>答：在卡达姆比尼，也就是我所关注的那个小工厂，工人都是外来务工人员，主要来自两个地区。一是尼泊尔西北部罗尔帕地区的尼泊尔人；那是这个本已贫穷的国家里最贫困、最偏远的角落，在 2006 年结束的长达十年的内战中所受的打击或许最为沉重。另一批人则由穿越印度和尼泊尔之间的开放边界的国际移民组成。男男女女肩并肩地工作，其中既有小孩也有老人。我甚至看到蹒跚学步的幼童试图帮自己的母亲压制粘土砖块，还曾给一个每天长时间头顶重物当搬运工的 8 岁孩子拍摄照片。</p>
<p>Q. What are the living conditions like?</p>	<p>问：他们的生活条件如何？</p>
<p>A. Typically, brick factories open in the autumn, operate through the winter and close in the late spring, at which point migrant workers head back to their homes and families. During the approximately six months</p>	<p>答：一般来说，砖厂会在秋季开工，整个冬季都在运作，然后到春末关门。这时，工人就会回到家中与家人团聚。在大约六个月的运营期间，工人们住在工地上狭小、拥挤的棚子里。这种棚子主要由未经烧制的砖块搭建，上面</p>

<p>of operations, workers live on site in small, cramped shelters composed largely of uncooked bricks covered with sheet metal or plastic tarpaulins. At points throughout the season, the structures are cannibalized, brought inside of the kiln, and fired, then rebuilt out of a new slew of raw, unfired bricks. Most workers wake up in the dark, take tea and begin work around dawn. The work day continues until shortly before dusk, at which point people wash off their ruddy coating of sweat and brick dust. It's not uncommon to see a 9-year-old unwinding with a glass of strong rice wine and a cigarette, shortly after setting down a load that weighs more than he does.</p>	<p>覆盖着金属薄板或塑料防水布。在整个开工季节，这些建筑会多次被拆掉，砖块放进砖窑焚烧，然后再用新的未经烧制的砖块重新搭建。大多数工人会在黑暗中醒来，喝过茶水后在黎明之前开始工作。一天的工作到天黑前不久才会结束，这时，人们开始清洗身上的汗水和砖灰。经常可以看到的一幕是，一个9岁的孩子放下重量超过自己体重的东西后，用烈性米酒和香烟消遣。</p>
<p>Q. What are the environmental factors that have contributed to Nepal being the hub for brick-building factories?</p>	<p>问：尼泊尔有什么环境因素使它成了砖厂集中地？</p>
<p>A. The Katmandu Valley is an ancient lake bed, and the clay in certain areas is apparently well suited to producing bricks. The topography of the region, however, is not at all favorable. As it's a mountain valley, the winters — the season of peak brick production — are prone to thermal inversions. A layer of cloud forms over the valley floor, trapping in the smoke produced by hundreds of kilns and leading to some of the worst air quality on earth.</p>	<p>答：加德满都谷是一个古老的湖床，有些地方的泥土显然非常适合用来制造砖块。然而从地势的角度看，该地区并不有利。因为它是一个山谷，这里的冬天——制砖的高峰季节——有逆温倾向。一层云在谷底形成，困住数百个砖窑所产生的烟雾，结果就形成了世界上最糟糕的空气质量之一。</p>
<p>Q. This environment is obviously hazardous for their health, especially for children.</p>	<p>问：这种环境显然对他们的健康不利，尤其是儿童。</p>
<p>A. The kiln is a tough environment. Probably the greatest threat to health is the perpetual cloud of red dust that gets thrown up by the baking and excavation of bricks. People carry incredibly heavy loads either via tumplines suspended off their foreheads, or stacked on short</p>	<p>答：砖窑的环境很差。最大的健康威胁或许是烧制和挖掘砖块时扬起的红色尘土，这种尘土所形成的烟雾一直弥漫着。人们搬运的东西非常重，要么用绕过前额的宽背带进行辅助，要么把东西堆在短板上，然后顶在头上，保持平衡。他们经常遭遇头痛或脱水。这里没有厕所，连茅厕也没有，卫生条件</p>

<p>horizontal boards balanced atop their heads. Headaches are common, as is dehydration. There are no toilets or latrines, so sanitation is poor, leading to diarrhea and other maladies.</p>	<p>很差，腹泻和其他疾病很常见。</p>
<p>Q. Can the workers make a viable living based on their wages?</p>	<p>问：工人们可以用工资养活自己吗？</p>
<p>A. At Kadambini, the pay scale was based upon number of bricks carried, pressed and baked. Workers are given a number of small tokens to designate how many bricks they've "produced" by a supervisor each time they walk past. The tokens are collected in pockets and periodically tallied, then recorded in a ledger kept by the management. Payment isn't settled until the end of the season, which is why the majority of workers end up purchasing food and alcohol — and thus tremendously reducing their earnings — at the company store. A strong young man who is able to carry heavy loads may earn up to 1,200 or even 1,500 Nepalese rupees (around \$13 to \$16) a day. This may not sound like much, but it's actually quite a lot of money in a country where the average per capita income is \$735, or \$2 a day. However, once deductions are made for booze and noodles, people can easily have spent the majority of their daily earnings, often without realizing that they're doing so.</p>	<p>答：在卡达姆比尼，工资按照搬运、压制和烧制的砖块数量来计算。监工每次走过工人面前时，会给工人发放几个小牌子，以记录他们“生产”了多少砖块。这些牌子被放在口袋里，定期进行结算，再由管理者记入账簿。要到开工季节结束才会结算工资，这就是为什么绝大多数工人会在公司的商店购买食物和酒水——这也大幅减少了他们的收入。一个能够身背重物的强壮的年轻男子或许每天能挣 1200、甚至 1500 尼泊尔卢比（大约为 13 到 16 美元，约合 80 到 98 元人民币）。这听起来似乎不多，但是在这个人均年收入为 735 美元，即 2 美元一天的国家，这个工资其实非常高了。但是，除去饮酒或吃面条的费用，人们很容易就会把自己每天挣的钱花掉一大部分，而且往往对此毫无意识。</p>
<p>Q. During the time you spent documenting this series, where did you live?</p>	<p>问：你在拍摄这个系列期间住在哪里？</p>
<p>A. On several occasions I slept at the factory, wrapped in a sleeping bag and sharing the office floor with one of the very drunk managers. More often, however, I stayed with a friend on the opposite side of Katmandu and commuted back and forth. I rented a motorcycle while working on</p>	<p>答：我在工厂里睡了几次，我裹在睡袋里，和酩酊大醉的管理者一起躺在办公室的地板上。但我更多时候会与在加德满都另一边的一个朋友住在一起，然后两头跑。做这个项目期间，我租了一辆摩托车，每天奔波于加德满都和卡达姆比尼之间。我曾经几次差点与大巴和不小心的司机发生事故，但据我</p>

<p>this project, and would drive each day between Katmandu and Kadambini. There were some close calls with buses and oblivious drivers, but I don't think anything more serious than a few flat tires, a dead spark plug and an empty tank of gas ever happened.</p>	<p>的记忆, 最严重的事情不过是车胎瘪了几次、火花塞失灵以及油箱没油了。</p>
<p>Q. This could not have been an easy process.</p>	<p>问: 这个过程肯定不容易吧。</p>
<p>A. The more time I spent at the factory, the more people opened up around me, and I, them. The more invisible I grew, the more accepted I felt. The random blur of faces became individuals, some of them friends. As days ticked past, the situation never grew stale, though I was seeing largely the same repetitive motions again and again. I understood more of what was happening around me, both mechanically and emotionally, the longer I stayed. Little interpersonal dramas would play out, and the more I observed, the more I had to say, verbally and visually. The things that initially caught my eye ceased to be as important and quieter details, ones I wouldn't have noticed in the first days or weeks, became visible. It had been a long time since I was excited about anything, and while photographing Kadambini, I would fall asleep at night thinking about the day's sounds and scents, conversations and images, already anxious to return and continue shooting. The following morning, editing the previous day's take was at times difficult.</p>	<p>答: 我在这个工厂待得越久, 就有越多的人向我敞开心扉, 我对他们也是如此。我觉得自己不再那么显眼, 我感觉自己越来越被他们所接受。那些模糊的面孔变成了各有个性的个体, 有些人还成了我的朋友。随着时间流逝, 这里的情况从未一成不变, 尽管我看到的基本都是不断重复的画面。我待得时间越长, 就越能理解自己身边发生的事情, 不论是物质上的还是情感上的。人与人之间的小故事会慢慢展现, 我观察的越多, 想说的东西就越多——无论是语言上的还是视觉上的。一开始引起我注意的事情变得不再那么重要, 然而比较隐晦的细节, 那些我在最初几天或几周根本不会注意到的东西却浮现了。很久以来, 几乎没有事情能够让我激动, 然而在拍摄卡达姆比尼的时候, 我在晚上进入梦乡的时候还在想着白天的声音和气味, 谈话和画面, 恨不能马上回去, 继续拍摄。次日早晨, 编辑前一天拍摄的内容有时很难。</p>
<p>Q. As a post-conflict photojournalist, what do you hope to accomplish with your stories?</p>	<p>问: 作为一名经历过武装冲突的摄影记者, 你希望用自己叙述的故事达到什么目的?</p>
<p>A. That's something that continues to change. Right now, I'm primarily driven by a desire to humanize people who have been dehumanized by</p>	<p>答: 这个答案一直在变。目前, 我的动力主要来自这样一个愿望: 让一些不幸的人展现自己的人性, 他们因为自己的处境而受到非人性化对待。在危机</p>

<p>their circumstances. In crises, people can easily be turned into statistics by the sheer volume of suffering. It's important to remind audiences that these aren't "just" Syrians or Sudanese or Nepalis who are being driven from their homes or dying, they're individual people.</p>	<p>中,人们很容易因为他们所遭受的巨大苦难而变成统计数据。我要提醒观众,这些人不“仅仅”是被迫背井离乡或濒临死亡的叙利亚人或苏丹人或尼泊尔人,而是有人性的个体。</p>

<p>The Final Frontier, in Photographs</p>	<p>在这里,找到一切关于太空的想象</p>
<p>There it is — the whole shebang. Or what's left of the Big Bang, if you want to be precise and scientific about it. The trippy scene, all fall colors and gray splotches, was built from data captured by NASA's Spitzer Space Telescope and puts in visual form the remaining background light from when the universe was less than one billion years old.</p>	<p>这里呈现的就是所有的一切。如果你想用精确的科学语言来描述它的话,或者说,这就是宇宙大爆炸留下的一切。这幅充满迷幻色彩的画面充斥着秋季的色彩和灰色的斑点,由美国宇航局(NASA)的斯皮策太空望远镜(Spitzer Space Telescope)捕捉到的数据绘制而成,以视觉形态呈现了宇宙年龄还不到10亿年时的残余背景光。</p>
<p>This is just one of the many images — some gorgeous, some weird — that comprise two new exhibitions at George Eastman House in Rochester: "The History of Space Photography" and "Astro-Visions." The exhibitions, which will run through Jan. 12, display about 150 images related to astronomy, from 19th-century observatory photos to images from robotic photographers roaming the heavens.</p>	<p>它只是两个新展览展出的众多图像中的一个——这些图像有的绚丽、有的诡异。这两个展览分别是“太空摄影历史”(The History of Space Photography)和“天文美景”(Astro-Visions),展出地点是位于罗切斯特的乔治·伊士曼博物馆(George Eastman House)。这些展览将一直举办到明年1月12日,展品包括约150幅和天文学有关的图片,有19世纪的天文台照片,也有漫步太空的机器摄影师拍摄的图像。</p>
<p>"The History of Space Photography," a traveling exhibition created by the California/International Arts Foundation, pulls together a vast array of images from around the world — and beyond. "Astro-Visions" consists of images from the enormous Eastman collection itself, which has more than four million objects, including photographs, motion pictures and equipment and books.</p>	<p>“太空摄影历史”是由加州国际艺术基金会(California/International Arts Foundation)推出的巡回展览,汇集了从全球各地乃至地球之外获得的大量图片。“天文美景”展出的图像则来自规模庞大的伊士曼收藏,该收藏包括400多万件藏品,其中包括照片、电影、设备和图书。</p>
<p>"My goal was not only to show items that related to space, but also to show how artists and scientists have envisioned space," said Jamie M.</p>	<p>伊士曼博物馆摄影展助理策划人杰米·M·阿伦(Jamie M. Allen)说,“我的目的不光是展出和太空有关的物品,还要展示艺术家和科学家对于太空的设想。”</p>

<p>These days, you can fill hard drives with images from sites like Astronomy Picture of the Day. So what's special about this exhibit? It's the sweep of the thing: The famous gelatin silver print of a rocket ship poking the man in the moon in the eye, an arresting moment from Georges Méliès and his landmark film, "A Trip to the Moon," is here; and the first photo of Earth's south polar ice cap, taken during Apollo 17, is too. The exhibits also display the important scientific uses of the photos, with gorgeous examples of satellite shots that provide insights into geology, oceanography and environmental science.</p>	<p>当下, 你能在“每日一天文图”(Astronomy Picture of the Day)之类的网站找到一大堆图片来塞满你的硬盘。那么, 此次展览有何特殊之处呢? 它的特殊之处在于它包罗万象的覆盖面, 在这里, 你能看到那张著名的银盐黑白图片, 显示一艘宇宙飞船戳进了人形化的月球的眼睛, 这是乔治·梅里爱(Georges Méliès)和他的标志性影片《月球旅行记》(A Trip to the Moon)当中引人注目的一刻; 你还能看到地球南极冰盖的首幅照片, 它是阿波罗 17 号(Apollo 17)拍摄的。此次展览还展示了这些照片的重要科学用途, 包括一些精彩的卫星照片, 这些照片为地质学、海洋学和环境科学提供了深刻的认识。</p>
<p>Several of the images have historical significance: One shows what the exhibition calls the first image of the global biosphere, a composite of data collected between 1978 and 1980 by NASA's Nimbus-7 satellite, which puts the world's vegetation on display. Others are more up to the moment, like delicate tracings of the Mississippi River delta as seen in a 2010 image from the Thermal Emission and Reflection Radio meter on NASA's Terra satellite.</p>	<p>其中几幅图片具有历史意义: 其中之一是展览方所称的首幅展示全球生物圈的图片, 它是由 NASA 雨云 7 号(Nimbus-7)在 1978 年至 1980 年期间搜集到的数据汇编而成的, 呈现出了全世界的植被。其他一些图片距今更近, 比如 NASA 的 Terra 卫星的热发射与反射辐射仪(Thermal Emission and Reflection Radiometer)2010 年拍摄的一幅图片, 其中显示了密西西比河三角洲的微妙痕迹。</p>
<p>So you like planets – that is, planets besides Mother Earth? Here they are: images from the NASA Jet Propulsion Laboratory's unmanned vehicles of Mercury, Venus, Mars, Jupiter, Saturn, Uranus and Neptune. Saturn, ever the glamour puss, is represented in a stunning backlit shot from the Cassini spacecraft, silhouetted against the sun, its rings</p>	<p>你喜欢行星, 喜欢地球母亲之外的行星吗? 这里也有它们的图片: NASA 喷气推进实验室(Jet Propulsion Laboratory)的无人航天器拍摄的水星、金星、火星、木星、土星、天王星和海王星的照片。卡西尼(Cassini)航天器背光拍摄的一幅照片令人震惊, 展现了太阳映衬下的土星和它一如既往的魅力身姿, 它的光环美得令人陶醉。</p>

hypnotic in their beauty.	
The exhibit also includes objects that show Kodak's contributions to space photography, including its work on shutterbug spacecraft like the lunar orbiters – the museum even has a spare NASA orbiter on display.	展品当中还有一些器具，它们展现了柯达(Kodak)对太空摄影所作出的贡献，其中包括它为月球探测器等航天拍摄装置所做的工作。博物馆甚至展出了 NASA 的一台备用轨道飞行器。
There is less scientific fare, too. Along with the image from “A Trip to the Moon” (above), there is a still from Roger Vadim’s “Barbarella” and work by Bill Finger, an artist who has fantasized life on Mars in pictures both funny and haunting.	也有一些不那么科学的展品。除了那幅来自《月球旅行记》的图像以外，还有罗杰·瓦迪姆(Roger Vadim)执导的《太空英雄芭芭丽娜》(Barbarella)的一幅剧照，以及比尔·芬格(Bill Finger)的作品。比尔·芬格是一名艺术家，以既有趣又令人难以忘怀的作品反映了想象中的火星生活。
“My goal was always to put the ‘real’ space photography alongside the fictional space photography,” Ms. Allen said. She was fascinated by the way that artists’ dreams helped predict and even shape the future of space exploration – as when, in the Méliès film, his moon explorers fell back to Earth and landed in the ocean, as real Apollo astronauts would later do.	“我的目的一直是把‘真实’太空摄影和虚构太空摄影并置，”艾伦说。艺术家的想象曾帮助预测乃至塑造了太空探索的未来，这样的情形令她着迷。比如，梅里爱电影里的月球探险者跌落回地球，掉到了海里，到了后来，现实中的“阿波罗”号宇航员也的确是这么做的。
But she also noted how many of the photographic images of real objects are altered to transform phenomena outside of the visible spectrum into images that can be seen. That way, Ms. Allen said, the exhibition shows “how what we imagine becomes reality – and how reality becomes fiction.”	但她同时指出，许多真实物体的摄影图片都是进行过处理的，这样才能让可见光谱之外的景象变成可视图像。艾伦说，这样一来，这次展览就显示了“我们的想象如何变成现实，现实又如何转换成想象”。

Recalling and Covering Nelson Mandela	时报记者回忆亲历曼德拉竞选
Nelson Mandela, who died on Thursday, inspired hundreds of millions of people around the world with his uncompromising vision for the end of apartheid in South Africa and his efforts to bring a peaceful transition to a democratic society. Among those he influenced was Ozier	12月5日逝世的纳尔逊·曼德拉(Nelson Mandela)，凭借自己对结束南非种族隔离制度的坚定信念，以及为南非和平转变为民主社会所做的努力，鼓舞了全世界千千万万的人。受他影响的其中一人是《纽约时报》专职摄影师奥齐耶·穆罕默德(Ozier Muhammad)，他在今年早些时候与詹姆斯·埃斯特林

<p>Muhammad, a New York Times staff photographer, who reminisced about covering Mr. Mandela in a conversation with James Estrin earlier this year. Their conversation has been edited.</p>	<p>(James Estrin)的谈话中回忆了拍摄曼德拉的经历。他们的对话经过编辑。</p>
<p>Q. What did it mean to you to photograph Nelson Mandela in the years right before and after his release from prison?</p>	<p>问：对你来说，拍摄曼德拉获释前后数年间的照片有何意义？</p>
<p>A. This might seem simplistic, but when I started out with a camera, when I became interested in photography, I just wanted to record the human struggle against unjust forces. And in a way, when I started out, I used to think to myself, as I became more and more determined to be a photojournalist, that I had missed the golden era of the civil rights movement.</p>	<p>答：说起来似乎很简单，但是当我拿起相机的时候，当我开始对摄影感兴趣的时候，我想的只是记录人类与不公正势力做斗争的过程。从某种程度上说，当我刚开始摄影时，在我成为摄影记者的志向日趋坚定的过程中，我经常都暗自觉得，自己已经错过了民权运动的黄金时期。</p>
<p>By the time I was a full-blown adult and out of college, the civil rights movement had morphed into a more political thing. It wasn't communally organized, on-the-ground stuff. It wasn't as prominent as it had been in the '50s and early '60s. So I felt, gosh, just my bad luck not to have been born sooner, to have the desire to do what I do now, and that's to be a photojournalist and to photograph human struggle against unjust forces.</p>	<p>当我长大成人，走出校园的时候，民权运动已经变成了一种政治意味更浓的东西。它不再是由社区组织的、脚踏实地的运动，不再像50年代和60年代早期那样引人注目。所以我觉得，天哪，我的运气太差了，因为我出生得太晚，却又产生了做我目前这份工作的愿望，也就是成为一名摄影记者，记录人类与不公正势力搏斗的过程。</p>
<p>But I got my chance with South Africa. You know, to cover the African National Congress's campaign with their leader, Mr. Nelson Mandela, to finally have not only the franchise but also determine their own fate politically.</p>	<p>但是，我在南非找到了机会，也就是记录非洲人国民大会党(African National Congress)及其领袖纳尔逊·曼德拉的斗争过程，他们最后不仅获得了公民权，而且还决定了自己的政治命运。</p>
<p>Q. It's the kind of moment that's rare in history. How often can you point to moments — even in the entire century — that are that monumental?</p>	<p>问：这是一个史上罕见的时刻。纵观整个世纪，你又能说出几个这么伟大的时刻呢？</p>

<p>A. Exactly. When I think about it, I really don't think anything really compares to that. There's no comparison for me even though it's arguable that the election of President Barack Obama may equal what happened in South Africa in 1994 because of the years of struggle among African-Americans in this country to end slavery and Jim Crow and more covert discrimination in modern times. But the indigenous people of South Africa had to deal with the Boers for well over 100 years. There are some similarities, but maybe it's not fair to compare the two.</p>	<p>答：很对。说起这个时刻，我真是想不出什么真的能和它相提并论的东西。对我来说，它是无可比拟的，即便你可以说，贝拉克·奥巴马(Barack Obama)总统的当选或许可以与 1994 年在南非发生的事情相提并论，因为非洲裔美国人为结束奴隶制、吉姆·克劳法(Jim Crow)以及现代那些更隐晦的歧视进行了很多年的抗争。但是，南非原住民不得不与布尔人(Boers)进行了远不止 100 年的斗争。这两件事之间有相似之处，但把它们放在一起做对比并不公平。</p>
<p>Q. Tell me about photographing Mr. Mandela and the first post-apartheid elections.</p>	<p>问：给我讲讲拍摄曼德拉以及种族隔离结束后第一次选举的情况吧。</p>
<p>A. The first time I photographed Mr. Mandela was in 1990 when he came to New York. I covered his arrival; I was working for Newsday at the time.</p>	<p>答：我第一次拍曼德拉是在 1990 年他访问纽约时。我报道了他的来访；那时我在 Newsday 工作。</p>
<p>Q. He hadn't been out of jail for very long. What was your first impression?</p>	<p>问：他当时刚出狱不久。你对他的第一印象如何？</p>
<p>A. He was a man who stood by his convictions beyond any measure that I had ever known. I was struck by how healthy and robust he was at the time of his visit in 1992 in New York City, considering he just did 27 years in prison. He spoke to large gatherings in New York and ended up with in a huge rally at 125th Street in Harlem, which is kind of my backyard. It was just such a thrilling experience. I was grateful to spend that much time with him and his wife, Winnie. I think it affected the whole world to see Mr. Mandela finally have his day of redemption.</p>	<p>答：他是我所见过的最坚守自己信念的人。他 1992 年访问纽约市时，我对他当时的健康程度和活力感到非常惊讶，要知道他刚刚坐完 27 年牢啊。他在纽约向一大群人发表讲话，最后又在哈莱姆的第 125 大街参加了一场大型集会，那地方几乎可以算是我家后院。那是一次让人无比兴奋的经历。我很感激，能有机会和他以及他的夫人温妮(Winnie)一起度过那么多的时间。我认为，看到曼德拉终于等到了重获自由的一天，全世界都为之感动。</p>
<p>I had gone to South Africa in 1989 too, a year before Mr. Mandela was</p>	<p>我还在 1989 年去过南非，那是曼德拉获释的前一年。在 F·W·德克勒克(F.</p>

<p>released. Under [President F. W.] de Klerk, some of Mr. Mandela's cohorts in the fight against apartheid had been released and I had a chance to meet a few of them and people who had actually been incarcerated with him. I was hoping that Mr. Mandela would be released while I was there in '89. After I left South Africa and jumped into covering David Dinkins's second run for mayor, Mr. Mandela was eventually released.</p>	<p>W. de Klerk)总统的领导下，与曼德拉一起反对种族隔离制度的一些人已经获释，我有幸见到了他们中的几个人，还见到了一些实实在在与曼德拉关在一起的人。我当时希望曼德拉能在1989年我还在那里时获释。然而，到我离开南非开始报道戴维·丁金斯(David Dinkins)第二次竞选市长时，曼德拉才最终获释。</p>
<p>Q. What did his release mean to you?</p>	<p>问：他的获释对你来说意味着什么？</p>
<p>A. Well, standing by one's convictions to try to defeat something as evil as apartheid and having the endurance to do it is something that is quite remarkable. Sacrificing one's life is probably the noblest thing that a human being can undertake. It is hard for journalists to convey the magnitude of his heroism and his intelligence.</p>	<p>答：坚守自己的信念，努力与像种族隔离制度这样邪恶的事情做抗争，并且具有坚持下去的耐心，这是一件相当了不起的事情。牺牲自己的生命，多半是一个凡人所能做的最高尚的事。他的英雄主义和智慧太过伟大，记者是很难描画的。</p>
<p>I thought that if ever there was something that is representative of a greater power, it was encapsulated in Mr. Mandela and some of his associates. It is remarkable that they maintained that kind of effort despite the viciousness and the ruthlessness of the apartheid regime in South Africa.</p>	<p>我认为，如果有什么东西能体现更高的权威的话，这些东西就蕴含在曼德拉和他的一些助手身上。他们能在凶残无情的南非种族隔离制度下坚持这种努力，实在让人觉得不可思议。</p>
<p>Q. Later, when you had joined The Times, it must have been quite exciting to land in Johannesburg knowing that you were covering the very elections that were precisely what Nelson Mandela fought for.</p>	<p>问：后来，你作为《纽约时报》的一员来到约翰内斯堡，得知自己要报道的正是纳尔逊·曼德拉为之奋斗的那场选举时，心里一定非常兴奋吧。</p>
<p>A. Yes, yes, exactly, and I'm very lucky to have had the experience to cover many elections in the U.S. But this was something that was really extraordinary, traveling around South Africa to cover Mr. Mandela's campaign and also the voter drives in various parts of South Africa. One</p>	<p>答：是的，正是这样，我非常幸运地报道过美国的多场选举。然而，这一次的经历真的非同一般，我在南非各地奔波，报道曼德拉的竞选活动，还有南非各地的选民活动。我和弗兰克·克莱因斯(Frank Clines)合作的第一批报道当中，有一篇讲的是在约翰内斯堡举行的选民教育活动。</p>

<p>of the first stories that Frank Clines and I covered were the voter education drives that were going on in Johannesburg.</p>	
<p>There were almost 100 people on the ballot. And there were these folks, mostly black South Africans, who were working with people from all walks of life from day laborers to construction workers to people who worked in the hospitality industry, trying to get them to understand what a ballot is and how to actually put the ballot in the box. Very fundamental things that we take for granted.</p>	<p>当时的选票上列了将近 100 个候选人。这些人大都是南非黑人，他们和民众一道努力，设法让民众了解选票的含义，了解该如何把选票放进票箱，这些民众来自各行各业，有临时工，有建筑工人，也有医务工作者。这些都是非常基础的工作，是我们觉得理所当然的东西。</p>
<p>Q. You also photographed him campaigning. What was that like?</p>	<p>问：你还拍摄了他的竞选活动。竞选活动的具体情形是怎样的？</p>
<p>A. I can remember the turnout at the football stadiums where Mr. Mandela campaigned. These stadiums usually held 20,000 people. Sometimes more. There was very little room to work. I can almost hear the sounds of some of the chants of praise for Mandela. Of course this was in Xhosa, which is the main language of the indigenous people of South Africa.</p>	<p>答：我能记起足球场里的人山人海，曼德拉就在这些地方举行竞选活动。这些足球场通常能容纳 2 万人。有时候能容纳更多。我简直找不到空间来拍照。到了现在，我几乎还能听见当时那些人对曼德拉的赞美歌声。当然，这些赞美都用的是科萨语，它是南非本地人的主要语言。</p>
<p>Usually, he entered the stadium in a small entourage of cars, and when he got out of his car the noise was almost deafening. But all he had to do was make a gesture and people would quiet down and listen to him. I had the opportunity to go to at least three different stadiums to cover his campaigning and several churches. In one church that I went to, the audience was mostly women and I think mostly day laborers. I remember how reverential they were and the way they listened to Mr. Mandela make his campaign speech. Almost without exception, they were writing down what he was saying. It was very touching to see that. How diligent or how serious they were taking their responsibility</p>	<p>通常，他会在一个小型车队的陪伴下入场。他迈出车门的时候，欢呼声几乎能震聋人的耳朵。然而，他只要摆摆手，人群就会安静下来，倾听他的话。我曾有机会前往至少三个不同的足球场报道他的竞选活动，还去过几座教堂。在我去过的一座教堂，大多数的听众都是女性，依我看，她们大多都是临时工。我还记得她们的态度有多虔诚，记得她们倾听曼德拉竞选演讲的方式。每个人都在记录他的话，几乎无一例外。这种场景让我动容。她们是在以极其勤勉认真的态度承担自己的责任，努力理解此次活动的重要性。</p>

to understand the importance of this campaign.	
Q. And the three days of voting?	问：投票那三天是什么情况呢？
A. I saw these long, serpentine lines of people wrapped around the building and then extending in a very crooked fashion up to a quarter-mile away from the polling place. Some people were waiting at the end of the line maybe upwards of six hours.	答：我看见人们围绕着大楼排起了一列列蜿蜒的长队，队伍又以非常古怪的方式延伸到了距投票处四分之一英里（约合400米）的地方。一些人排在了队尾，可能要等六个小时以上。
Q. What strikes me about Mr. Mandela, what really elevates him, is that he was also able to lead South Africa into a relatively peaceful transition. I wonder if it was someone else besides Nelson Mandela, what would have happened?	问：想到曼德拉的时候，我觉得，真正让他形象高大的事情是，他兼有领导南非进入相对和平的转型的能力。我在想，如果不是纳尔逊·曼德拉，换成了其他某个人，这一点还会成为现实吗？
A. I think that Mr. Mandela is truly a leader who has affected the mind-set of every political party in developed nations. I think that he has had a profound effect, and people who are not treating their constituents right certainly can know how to do it by looking at the life of Mandela.	答：我觉得，曼德拉真的是一位影响了发达国家各政党的心态的领导人。我觉得他留下了深远的影响，看看曼德拉的一生，那些不认真对待自己选举权的人肯定就知道该怎么做了。
Q. Where were you the night that he was declared the victor?	问：宣布他获胜的那天晚上，你在什么地方？
A. I was in Johannesburg, in Soweto. It was Frank and I and we were hard-pressed to make a deadline because the word was just getting out and it was late and very dark. I heard people shouting in the street and then I saw people dancing and rushing down the street. I rolled the windows down as quickly as I could and got off a couple shots and ran. I'm very happy with the pictures of the people who were very gleeful.	我在约翰内斯堡的索韦托。我和弗兰克在一起。我们急着赶上交稿期限，因为消息刚出来，那时已经很晚了，外面漆黑一片。我听到街上有人在呼喊，然后看到人们跳着舞在街上奔跑。我连忙摇下窗户，拍了几张照片，然后就走了。我很满意那些照片，照片里的人欢天喜地。
The other thing that I'd like to convey is I can certainly understand why the Boers would want South Africa as their nation, you know, as their country, because it's a beautiful place. Coast to coast and south to	我想说的另一点是，我完全能理解布尔人为什么想把南非变成他们的国家，因为这个地方太美了。从东海岸到西海岸，从南到北，真的是一片美丽的土地。而且你知道，这片土地很富饶。农田、森林、树木，还有景色优美的海

<p>Photographing the White House From the Inside</p>	<p>伟大摄影师镜头中的白宫风云</p>
<p>Yoichi Okamoto was the first official White House photographer, serving under President Lyndon B. Johnson from late 1963 to January 1969. Known as Oke, he was born in Yonkers in 1915 and was a still and motion-picture photographer in the Army during World War II. He then worked for the United States Information Agency and met L.B.J. while he was vice president, photographing his trip to Berlin in 1961. Johnson liked him, and Mr. Okamoto accompanied him on other overseas trips.</p>	<p>冈本洋一(Yoichi Okamoto)是白宫第一位官方摄影师，自1963年底到1969年1月为林登·B·约翰逊(Lyndon B. Johnson)总统效力。人们称冈本洋一为“奥凯”(Oke)，他1915年出生在扬克斯，二战期间在陆军担任静态和动态摄影师。之后，在美国新闻署(United States Information Agency)工作期间，他结识了时任副总统的约翰逊，并拍摄了他1961年的柏林之行。约翰逊很欣赏他，他的其他几次海外之行也有冈本洋一的陪同。</p>
<p>David Hume Kennerly, the White House photographer during the Ford administration, won the Pulitzer Prize for feature photography in 1972 for his coverage of the Vietnam War for United Press International. He and James Estrin discussed Mr. Okamoto's work and the life of a White House photographer. Their conversation has been edited.</p>	<p>戴维·休姆·肯纳利(David Hume Kennerly)是福特时期的白宫摄影师，1972年，他为合众社(United Press International)拍摄的越战照片赢得了普利策奖(Pulitzer Prize)的专题摄影奖。他与詹姆斯·埃斯特林(James Estrin)讨论了冈本洋一的作品以及白宫摄影师的生活。以下是经过编辑的对话。</p>
<p>Q. How did the office of the White House photographer start?</p>	<p>问：白宫摄影师这个职位是怎么来的？</p>
<p>A. L.B.J. had seen all these pictures of J.F.K. [President John F. Kennedy] from outside photographers like Jacques Lowe and Stanley Tretick. They had John Jr. under the desk. George Tames had the famous picture from behind the desk, "The Loneliest Job." J.F.K. was this really good-looking young guy with a beautiful wife and his gorgeous kid. The marriage of J.F.K. and still photography was made in heaven, for</p>	<p>答：约翰逊看见过雅克·洛(Jacques Lowe)和斯坦利·特莱蒂克(Stanley Tretick)等外来摄影师为约翰·F·肯尼迪(John F. Kennedy)总统拍摄的照片。他们捕捉到小约翰躲在桌子底下的照片。乔治·塔梅斯(George Tames)则拍摄了那幅从桌子后面取景的著名照片《最孤独的工作》(The Loneliest Job)。年轻英俊的肯尼迪有美丽动人的妻子和迷人的孩子。肯尼迪与静态摄影可谓天作之合、相得益彰，因为肯尼迪在照片里显得魅力十足，他自己也知道这</p>

<p>both, because J.F.K. came across so beautifully in pictures, and he knew it.</p>	<p>一点。</p>
<p>Many of the mental images we have of J.F.K. were taken by outside photographers. There was no in-house photographer.</p>	<p>许多肯尼迪最棒的照片都由外来摄影师拍摄。白宫自己没有专职摄影师。</p>
<p>L.B.J. wanted pictures like J.F.K. was getting, and so he remembered Okamoto photographing for the United States Information Agency on his trips overseas. L.B.J. just let him in to do whatever he wanted to do. And L.B.J. did that out of a sense of vanity and out of a sense of history.</p>	<p>约翰逊想要有肯尼迪那样的照片，所以他想起了为美国新闻署拍摄他出访的冈本洋一。约翰逊让冈本洋一进入了白宫，做怎么做都行。约翰逊这样做既是出于一种虚荣，也是出于一种历史感。</p>
<p>Okamoto was there taking pictures of Martin Luther King Jr. in the cabinet room meeting with L.B.J. (Slide 8). He was underneath the table, when [Aleksei] Kosygin, the head of the Soviet Union, and L.B.J. met at Glassboro, N.J. (Slide 13). He was in the operating room when L.B.J. had gallbladder surgery.</p>	<p>小马丁·路德·金(Martin Luther King Jr.)在内阁室与约翰逊见面时，冈本洋一就在那里为他拍照（幻灯片第8张）。苏联领导人阿列克谢·柯西金(Aleksei Kosygin)和约翰逊在新泽西州格拉斯波罗见面时，冈本洋一在桌子下面拍照。（幻灯片第13张）。约翰逊动胆囊手术时，他也在手术室里。</p>
<p>He had astonishing moments. He had the photographs that really showed the relationship between R.F.K. [Robert F. Kennedy] and L.B.J. Neither of whom liked each other, and the pictures showed that.</p>	<p>他捕捉到了一些出人意料的时刻。他拍到了真正体现罗伯特·F·肯尼迪(Robert F. Kennedy)和约翰逊关系的照片，他们彼此都不喜欢对方，照片也显示了这一点。</p>
<p>I'd always known Oke was a good photographer, but when I went through the contact sheets at the L.B.J. library, what I saw was greatness. I saw a photographer who not only took really good individual photos, but he thought and he photographed as a storyteller. He captured the tension and the fatigue on the face of L.B.J. When you look at the pictures, you just feel like you're there.</p>	<p>我一直知道奥凯是一名出色的摄影师，然而，当我在约翰逊总统图书馆浏览相版时，我才认识到他的伟大之处。这位摄影师不仅能拍出一张张优秀的照片，而且还会思考，会用照片来讲故事。他捕捉到了约翰逊脸上紧张而疲惫的神情，当你看这些照片时，你会觉得自己就在现场。</p>
<p>Oke became the godfather of White House photography. Nobody had done it that way before, and pretty much nobody's done it since.</p>	<p>奥凯成了白宫摄影的鼻祖。以前从未有人像他这么做，而自他之后，也几乎没人达到这样的水准。</p>
<p>Oke had the combination of a great subject, a really difficult time in</p>	<p>奥凯的时代恰好具备了一个宏大主题的各种元素——那是美国历史上困难重</p>

<p>American history with the Vietnam War going on, with civil rights problems. He was photographing the heart of all these things that were happening during that presidency. And how L.B.J. just dealt on a day-to-day basis.</p>	<p>重的时刻，越南战争仍在继续，又面临各种民权问题。奥凯拍摄了那届总统任期内处于所有这些事件中心的人物。以及约翰逊是如何日复一日处理这些事务。</p>
<p>When I look at Oke's pictures, I see magic. And I think it underscores the value of the White House photographer in the hands of someone like him. And others have done well and have come close to it, certainly.</p>	<p>当我看着奥凯的照片时，我感受到了神奇的力量。我想，它们体现了由他这样的人担任白宫摄影师时，这一工作能够带来的价值。有些人做得也不错，非常接近这一水准。</p>
<p>And I think some of us had better access than others and knew what to do with it when we had it. It's kind of an up and down. I don't want to grade all the other photographers. But, it underscored again to me the importance of the job. And in every photograph, in all the photographs I saw in all of the presidential libraries, I really, there was a sense of reality to it. It wasn't like those pictures were taken for propaganda reasons.</p>	<p>我认为，我们中的某些人相比其他人能接触到更好的题材，也知道如何加以利用。这可以说是一种运气。我不想给所有其他的摄影师评分。不过，这再次向我证明了这份工作的重要性。从我在所见过的各家总统图书馆的所有照片里，奥凯的每一幅照片都让我有一种身临其境的感觉。它们和那些为宣传而拍的照片不同。</p>
<p>Q. Tell me more about Oke. What was he like?</p>	<p>问：能和我多说说奥凯吗？他是一个什么样的人？</p>
<p>A. He was a very quiet, professorial kind of guy. And you know, Oke ultimately killed himself in 1985. I don't know why. From what I've heard, he had a history of depression.</p>	<p>答：他是一个非常安静的、非常专业的人。你知道，奥凯最后在 1985 年自杀。我不知道原因。但据我所知，他长期患有抑郁症。</p>
<p>We know a lot of photographers, and a good many of them are a little more like me, kind of extroverted and don't mind talking about what's on their mind. Oke was very reserved and incredibly tight-lipped.</p>	<p>我们认识许多摄影师，其中有很多更像我，性格外向，乐意说出自己的想法。奥凯则谨言慎行，口风很紧。</p>
<p>After I got the job, I called him and he came over and had lunch with me, and I asked his advice about how to do it. Oke gave me some good advice. He said: "Remember one thing: that when you're here, everybody will be your friend, the cabinet officers and all that. But what</p>	<p>我得到这个工作后，给他打了电话，他过来和我一起吃了午餐，我就如何做好工作征求他的意见。奥凯给了我一些好建议。他说：“牢记一件事：当你在那儿时，每个人都会拿你当朋友，内阁官员和所有人都是朋友。不过，他们真正想要的就是照片。”（大笑）</p>

<p>they really want are the pictures." [Laughs.]</p>	
<p>And I think he was right. It was kind of cynical, but I think he was correct. And he told me: "You just have to be there all the time. You can't not be there." And I never forgot it. He said, "There's only so much time, you'll be in that job, you'll never have another opportunity like that." He said particularly in my case where I could do whatever I wanted. Upstairs and downstairs, access like he had at the White House.</p>	<p>我认为他说的没错。这么说有点儿悲观，不过，我想他是对的。他还对我说：“你要做的就是时时刻刻待在那儿。你不能离开。”我从没忘记这一点。他说，“你只有这么点儿时间能做这个工作，永远不会有第二次这样的机会。”他说，对我来说尤其如此，我想拍什么都行。我可以去任何地方，享受的自由就像他在白宫时一样。</p>
<p>Upstairs is the first lady's domain. You know, if you don't get along with both of them, you can't go into the family quarters because that's the first lady's empire. And a lot of these White House photographers haven't been able to just do that with impunity. I was one of them who could.</p>	<p>楼上是第一夫人的地盘。你知道，如果你不和总统和第一夫人同时搞好关系，就不能走进第一家庭内部，因为那里是第一夫人的疆域。有许多白宫摄影师都没能完全不落埋怨地完成这一点。我是能做到这点的一个人。</p>
<p>But he said: "You got to just be there all the time; 16 hours a day. That's how you're going to get the good pictures." And he was absolutely right about that.</p>	<p>可是奥凯说：“你必须一直待在那里，每天要待16小时。这才是你能拍到好照片的秘诀。”他的这个说法绝对正确。</p>
<p>I cannot underscore enough how exciting going through his photographs was for me. And I think anyone that gets tagged to be the White House photographer the next time around should spend a week in the archives looking at Okamoto's pictures.</p>	<p>我无法形容翻阅他的照片让我多激动。我认为，任何一个被任命为下一个白宫摄影师的人，都应该在档案馆里花上一周时间，看冈本洋一的照片。</p>
<p>Nobody in my area came closer to greatness than Yoichi Okamoto.</p>	<p>在我从事的这个领域，没有一人的表现像冈本洋一那样无与伦比。</p>
<p>I think when you see Okamoto's work you understand the value of why there should be a White House photographer. And I think, it's where it all started. It's like looking at the Abraham Lincoln presidency if you're going to be the president of the United States.</p>	<p>我想，当你看到他的作品时，你就会明白设立白宫摄影师职位的价值所在。毕竟这个领域就是由他开始的。这就好比，如果你要当美国总统，就需要了解亚伯拉罕·林肯(Abraham Lincoln)的执政历程一样。</p>

Prefer to see the timeless creature at sunset, drenched in warm orange hues? Sure. Curious to see different angles? No problem.</p>	<p>你想看狮身人面像，但没钱去埃及旅游？很简单——打开电脑，在搜索引擎里输入几个词，几秒钟内，成千上万的图片就会出现在你面前，让你享受视觉盛宴。更想看到这个永恒建筑浸染在橘黄色落日余光中的景象吗？可以。想从不同角度看？没问题。</p>

<p>That changed more than a decade later, when one of the first black-and-white photos of the Sphinx appeared in the National Geographic magazine. Next to the image, published in the October 1922 issue, Frederick Simpich wrote, "We know superficial Egypt — the donkey boys, the beggars whining for bakshish, the smirking guides ... and we have been photographed astride a blasé, flea-bitten old camel standing on the sands before the Sphinx." Since 1888, National Geographic photographers have brought the world to its global readership, offering viewers glimpses of landscapes, cultures and archaeological wonders that, before the magazine, many would never have had the opportunity to experience. Through the decades, the magazine grew a photographic archive that reflected the process of globalization, too, as travel became more available and reached remote locations. Images in the magazine of a westernized Japan in the 1960s exposed a country steadily developing after devastation from World</p>	<p>十多年后，当《国家地理》(National Geographic)杂志刊登狮身人面像最早的黑白照片中的一张时，情况发生了改变。这张图片刊登于 1922 年的 10 月刊，图片旁印有弗雷德里克·辛皮奇(Frederick Simpich)写下的“我们对埃及的了解都是表面的——赶驴的小男孩、哭求施舍的乞丐，以及洋洋得意的导游……我们跨坐在无动于衷的、有蚤咬疤痕的老骆驼身上，在狮身人面像前的沙漠中拍照。”自 1888 年以来，《国家地理》杂志的摄影师为全球的读者展示了世界风貌，带领读者领略各地的风景、文化和考古奇观，在这本杂志出现以前，很多人一辈子都没有机会体验这些。数十年来，随着旅游变得更加容易，人们能够到达偏远地区，《国家地理》杂志逐步建立了一个图片档案，这个图片档案也体现了全球化的进程。20 世纪 60 年代，该杂志刊登的一张图片展示了西化的日本，一个经历二战破坏后稳步发展的国家。该杂志多年之后刊登的一张图片则展示了更加现代的东京新宿区，突显了这个满是摩天大楼的城市的蓬勃发展。</p>

<p>"I think it's important to have a record and documentation of how we once were," said Steve McCurry, a National Geographic photographer for more than 30 years. <p>Mr. McCurry — who has 11 images published in the book — said that during his travels, he had slowly witnessed the disappearance of cultures, from the way people dress, talk and celebrate traditions. Distinct features of the Kalash, a small tribe in Pakistan that he documented in the 1980s, have almost completely disappeared, said Mr. McCurry, famed for his portrait of the "Afghan Girl," which graced the June 1985 cover. Many of the Kalash people have since migrated to the west of Pakistan, he said, slowly integrating with those of surrounding villages. Most of the images in the book were taken from the 1930s to 1960s, during the initial rise of air travel and car ownership. During this time, it also became easier for photographers to transport their gear, when the magazine began to encourage its photographers</p>	<p>书中收录了麦柯里的 11 幅摄影作品。麦柯里表示, 他在旅行期间, 从人们穿衣、说话及庆祝传统节日的方式上, 逐渐目睹了文化的消失。麦柯里在 20 世纪 80 年代记录了巴基斯坦的小部落卡拉什, 他认为卡拉什人显著的外貌特征几乎已经完全消失。麦柯里因照片《阿富汗女孩》(Afghan Girl)而扬名世界, 该照片是 1985 年 6 月刊的封面照片。他说, 在那以后, 许多卡拉什人都迁移到了巴基斯坦西部地区, 逐渐与周围村庄的村民融合。书中的大部分照片拍摄于 20 世纪 30 年代至 60 年代期间, 当时刚刚掀起乘飞机旅行和购买汽车的热潮。在这段时间里, 对于摄影师来说, 运送设备也变得更加容易, 当时该杂志开始鼓励摄影师使用柯达克罗姆(Kodachrome)的 35 毫米胶卷, 这种胶卷允许他们捕捉丰富的色彩和更快的动作。摄影师之前只能以摆拍的形式呈现主题, 以便减少模糊痕迹, 而柯达克鲁姆胶片使摄影师更容易记录人和动物与周围环境的互动。</p>

While photographers before were limited to presenting their subjects in staged positions to diminish traces of blur, Kodachrome made it easier to document people and animals interacting with their environments.</p>	
<p>"It's not enough to just take a picture of the Taj Mahal," Mr. McCurry said. "Fifty years ago, simply showing the Taj Mahal was great because no one had seen it before. Now we have to dig much deeper and see how people are living and changing their environments. It's about being much more critical and observant on how we show our subjects."</p>	<p>"光给泰姬陵(Taj Mahal)拍张照是不够的,"麦柯里说。"50年前,能展示泰姬陵的照片就非常棒了,因为没人见过。现在,我们得挖掘更深层的东西,观察人们如何生活,如何改变周围的环境。我们在展示拍摄对象的时候要更谨慎地判断、更仔细地观察。"</p>

<p>In Olympic Sochi, a Photographic Pregame</p>	<p>冬奥会赛场之外的索契</p>
<p>When the Olympic torch reaches Sochi, Russia, to begin the Winter Games two months from now, it will have traveled farther than any other torch in Winter Olympics history. Since its odyssey began in Moscow, the torch has been carried by foot, on trains, planes and troikas, taken to the North Pole via icebreaker and into lower Earth orbit on a Soyuz rocket.</p>	<p>当奥运会火炬抵达俄罗斯索契，拉开距离现在两个月的冬奥会的帷幕时，它的运行距离将是冬奥会历史上最长的一个。自从其征程始于莫斯科，它曾被步行的人举着，坐过火车、飞机和马车，在破冰船上去过北极，还搭乘联盟号(Soyuz)火箭进入了近地轨道。</p>
<p>The Olympics are built on boasts, and Sochi 2014 is no exception. Though plagued by corruption and other controversies — insufficiently cold weather, uncertainty about the presence of antidoping agencies, power failures, Russia's ban on "gay propaganda" — they are the most lavish and costliest Olympics, approached as though the International Olympic Committee was expecting titans to clash in its stadiums.</p>	<p>奥运会一向建立在赞颂夸耀的基础上，2014 年的索契冬奥会也不例外。虽然深受贪污腐败和其他问题困扰——气温不够低、反兴奋剂机构是否出现前景不明、停电，以及俄罗斯对“同性恋宣传活动”的禁止——这次最奢侈、花费最高的奥运会即将到来，值此之际国际奥委会(International Olympic Committee)好像是在期待诸神会在它的体育场馆里决战一样。</p>
<p>But the photographer Mikhail Mordasov wasn't interested in the superlatives or the hype: he wanted to cut through all the commotion coming out of the Black Sea resort area and reveal the landscape, the city and its people.</p>	<p>但摄影师米哈伊尔·莫尔达索夫(Mikhail Mordasov)对那些溢美之词或大肆宣传都不感兴趣：他希望能摒弃来自黑海景区的所有喧嚣，向人们展示这里的风景、城市风貌和人民。</p>

<p>"I wanted to show the city to the people who have never been here or just seen the beach as it is truly like," Mr. Mordasov, 31, said via email.</p>	<p>31岁的莫尔达索夫在电子邮件中说，“我想向从未来过这里的或只见过它的海滩的人展示这座城市的真实面貌。”</p>
<p>It is a beautiful land – not merely a vacation spot near Georgia or another of Stalin’s dachas. It is the site of fishing, funerals, baths, balloons, weddings and work. It is changing, yes, but it still bears some marks of the Soviet era (Slides 5 and 11). It is increasingly a multicultural city, as the number of migrants swells as they arrive to finish the job of completing the two Olympic villages and the arenas in which the world’s elite athletes will compete. Mr. Mordasov, originally from Velikiy Novgorod, Russia, arrived in Sochi four years ago on assignment from RIA Novosti, the state news agency. It was his first time visiting the city, but he was smitten and stayed even after he left RIA Novosti to pursue freelance work. Over time, his opinion of Sochi as the site of the next Olympic contests grew complicated.</p>	<p>这是一片美丽的土地——它不只是格鲁吉亚附近的度假胜地或斯大林的另一座乡间宅邸。这里有人垂钓、有人举行葬礼，有人沐浴，有人举行婚礼，有气球，也有人在工作。这里正在改变，的确如此，但它仍然有一些苏联时代的痕迹（幻灯片5和11）。这座城市的文化日益多元，大量移民纷纷来到这里，修建两座奥运村和世界顶级运动员的竞技场。莫尔达索夫的家乡是俄罗斯大诺夫哥罗德(Velikiy Novgorod)，四年前他因为官方通讯社俄罗斯新闻社(RIA Novosti)的工作来到索契。那是他第一次来到这里，也让他一见钟情，于是在他从俄罗斯新闻社离职，开始当自由摄影师以后，一直留在当地。随着时间流逝，他对索契成为下一届奥运会举办地的看法也开始变得复杂。</p>
<p>He welcomes some of the changes that the intense and swift development has brought: new transportation infrastructure, including high-speed rail, new roads and a power plant. The work has hastened the modernization of Sochi, shedding a lot of its Soviet structures and the stigma of its noxious Stalinist legacy. "Talking about the Olympics," Mr. Mordasov said, "I'm happy about it as it brought me a job and I moved to Sochi to live." Young professionals have flocked there, opening businesses, creating jobs.</p>	<p>他对剧烈而迅速的发展所带来的一些变化表示欢迎：高速铁路和新公路等新的交通设施，以及一座发电厂。这些工作加速了索契的现代化进程，移除了大量苏联时期的建筑物，也消除了其臭名昭著的斯大林遗迹的污名。“谈到奥运会，”莫尔达索夫说，“我对它感到高兴，因为它给我提供了一份工作，我也得以搬到索契来生活。”年轻的专业人士涌入此地开设公司，创造了就业机会。</p>
<p>But he also frets about the rising prices that follow when so many people move to the area. And he is concerned that the construction has adversely affected the environment and air, and that it will take years to</p>	<p>然而，由于许多人搬来这里，引起物价上涨，这让他颇为担心。而且，他担心建筑活动会给环境和空气带来负面影响，这种影响往往需要很多年才能修复。</p>

<p>recover.</p>	
<p>After all, Sochi's proximity to nature was one of the things that attracted him to the area. The mild climate, "the fact that half of year I can wear slippers and light clothing," the closeness of the Black Sea, Caucasus Mountains and the Tissot-Box Grove forest are among Sochi's inestimable treasures. Mr. Mordasov points to his image of (Slide 7) of Tissot-Box Grove as essential to his appreciation of Sochi, something no one would think to advertise as representing his beloved city. "In this forest you can feel yourself as if you were in prehistoric years," he said. "The contrast with the modern city, with loads of people and constructions, is unbelievable. If you Google 'Sochi pictures,' you'd never find such a great image of the city, but it is a reality which is quite close to us."</p>	<p>毕竟,索契与自然的紧密关系是吸引他来到这的原因之一。这里气候温和,“我有半年时间都可以穿便鞋和轻便的衣物”,离黑海、高加索山脉和吉萨黄杨树林(Tissot-Box Grove)森林的距离很近是索契最无价的财富。莫尔达索夫指着他给吉萨黄杨树林拍摄的照片(幻灯片7)说,他对索契的喜爱主要来源于此。一般而言,不会有人把这个森林当做这座他钟爱的城市的代表。“在这片森林中,你会觉得自己正置身于史前,”他说。“现代城市里到处是人和楼房,这里与城市所形成的对比十分惊人。如果你在谷歌(Google)中搜索‘索契图片’,你绝对找不到关于这座城市的如此之棒的照片,但它是一个与我们非常接近的现实环境。”</p>
<p>But, more painfully, there is the story of those who happened to live in the path of Sochi's development. As the city is thrust onto the international stage by those in search of glory and profit, the normal people — some 2,000 of them — have been brushed aside.</p>	<p>不过,令人痛心的是,有些人居住的位置刚好妨碍了索契的发展。随着这座城市被那些追寻荣耀和利益的人推上国际舞台,普通人——大约2000左右——则被抛到了一边。</p>
<p>Mr. Mordasov's photo of Alexei Kravets (Slide 9) was perhaps the most emotionally difficult to take. He said that Mr. Kravets and his 13-year-old son were forcibly evicted from their home by officials, their possessions tossed onto the street on a rainy day.</p>	<p>莫尔达索夫为阿列克谢·克拉韦茨(Alexei Kravets)拍摄的照片(幻灯片9)或许是拍摄时最让人难受的一张。他表示,克拉韦茨和他13岁的儿子被官员强行赶出家,他们的东西在一个雨天被扔到了大街上。</p>
<p>Mr. Kravets was not given temporary housing by the government, as some displaced persons have been. As Mr. Mordasov heard more of Mr. Kravets's story, ambivalence about what the Olympics have brought to Sochi crept in. That included an ambivalence about his own work as a</p>	<p>克拉韦茨没有像一些被迫搬离的人那样,获得政府提供的临时住房。当莫尔达索夫更详细了解了克拉韦茨的故事,他不知不觉产生了一种矛盾心理——奥运会究竟给索契带来了什么。比如,有关自己工作的矛盾心理,作为一名摄影师,他可以将克拉韦茨当做拍摄对象,但却无法帮助他。“我希望我能</p>

photographer who could choose his subject but not help him. "He had a hope that I could help him to get the compensation he needed," Mr. Mordasov said of Mr. Kravets, "but unfortunately it was not under my control."	帮助他得到他所需要的补偿，“莫尔达索夫提到克拉韦茨时说，“但遗憾的是，我说了不算。”
"I had to explain him every day why I cannot do it for him," he said, "and that I am only able to show and tell his story to the world, but not to influence the government. At the end of the day, his house was ruined and there is picture of me left in his eyes as someone who was taking photos, but never went further with helping."	"我得每天向他解释我为什么无法帮助他，"他说，"我只能向世界展示、讲述他的故事，但却无法影响政府。到最后，他的房子被拆，他眼中的我只是一个正在拍照，但却无法进一步提供帮助的人。"

Photographing Hiroshima, Fukushima and Everything in Between	从广岛到福岛，他用生命记录
Kikujiro Fukushima's life in photography took off when he promised to avenge the Hiroshima bombing. It was 1952, and Mr. Fukushima — a watchmaker, volunteer social worker and photographer — met Sugimatsu Nakamura, a 43-year-old fisherman, who was gravely ill from the atomic bomb's effects.	福岛菊次郎(Kikujiro Fukushima)摄影生涯的腾飞，开始于他立誓为广岛原子弹爆炸受害者伸冤。当时是1952年，身兼钟表匠、社会工作志愿者、摄影师数职于一身的福岛遇到了43岁的渔民中村杉松(Sugimatsu Nakamura)。广岛原子弹爆炸令中村杉松伤病缠身。
"For the first two years I was too timid to photograph him," Mr. Fukushima told me a few weeks ago. "But one day, he got on his knees, crying, and begged me."	"最初两年，我太羞怯，不敢拍他的照片。"福岛几周前告诉我。"但有一天，他跪下来哭着恳求我。"
"Fukushima, can you please take revenge on the atomic bomb?"	"福岛，可以请你为原子弹受害者伸冤吗？"
"Yes, but how?"	"行啊，但是怎样伸冤呢？"
"Take pictures of my pain and let the world know how terrible it is."	"用照片记录我的痛苦，让世界知道这有多么可怕。"
Mr. Nakamura was not only angry about the bombing, but also with the Japanese government, which refused to provide proper care for its victims. Mr. Fukushima understood this well — he had been in the	令中村愤怒的不仅是原子弹爆炸本身，还有拒绝为受害者提供适当照顾的日本政府。福岛对此非常清楚——他曾经在日本军队服役，就驻扎在广岛，直到原子弹投下前的一个星期，他被调去准备执行一个自杀式任务。留在广岛

<p>Japanese military, stationed in Hiroshima until one week before the bombing, when he was transferred to prepare for a suicide mission. Most of his comrades who stayed behind were killed.</p>	<p>的大多数战友都在爆炸中丧生。</p>
<p>Mr. Nakamura died in 1967, but the documentary filmmaker Saburo Hasegawa believes that the vow Mr. Fukushima made to the ailing fisherman guided his subsequent career, in which he photographed individuals fighting social injustice. During the social upheaval of the 1960s and '70s, Mr. Fukushima photographed student and feminist movements, antiwar protests and industrial pollution. He even infiltrated Japan's Self-Defense Forces by telling the head of public affairs that he would gladly give it free pictures if it gave him access.</p>	<p>中村于 1967 年去世，但纪录片导演长谷川三郎(Saburo Hasegawa)认为，福岛对这位疾患缠身的渔民立下的誓言，引导了他后来拍摄个人与社会不公抗争主题的职业方向。在 20 世纪 60 和 70 年代的社会动荡中，福岛拍摄了以学生运动、女权运动、反战抗议和工业污染为主题的作品。他甚至还潜伏进了日本自卫队：他告诉自卫队的公共事务负责人，如果他能进去的话，他很乐意免费给他们拍照。</p>
<p>He had other plans.</p>	<p>其实他另有打算。</p>
<p>"If the government or corporations knowingly deceived the public by breaking the law, it's O.K. for photographers to break the law in order to uncover the truth they are hiding," Mr. Fukushima explained in "Japan Lies," the documentary Mr. Hasegawa made about him.</p>	<p>"如果政府或企业知法犯法，故意欺骗公众，那么为了曝光他们隐瞒的真相，摄影师违反了法律也不为过。"福岛在《日本谎言》(Japan Lies)中解释说。《日本谎言》是一部关于福岛的纪录片，由长谷川三郎制作。</p>
<p>For three years, he photographed the Navy, Army and military academy, giving them photographs to use for publicity. All the while, he was photographing military secrets, like machine guns and missiles made inside factories. Without permission, he published the exposé, "A Farewell to Arms," in a magazine. Soon after its publication, he was punched and kicked by a stranger who was lurking outside his house in Tokyo. A few weeks later, another stranger slashed his face. An arsonist torched his house while he was away, but his daughter Noriko carried his negatives to safety.</p>	<p>在三年的时间里，他拍摄了海军、陆军和军事院校，为他们提供宣传用的照片。在这期间，他也拍摄了一些军事机密，比如工厂里制造的机枪和导弹。在没有获得允许的情况下，福岛在一本杂志上发表了揭露性的报道《永别了，武器》(A Farewell to Arms)。报道刊出后不久，一个陌生人潜伏在他的东京住所外，对他进行拳打脚踢。几周后，另一个陌生人划伤了的脸。还有人在他离开住所后，纵火焚烧他的房子，但他的女儿纪子(Noriko, 音译)把照片的底片转移到了安全的地方。</p>

<p>This was not the first time Mr. Fukushima's photography took a personal toll. The decade he spent photographing Mr. Nakamura overwhelmed him and led to a nervous breakdown that put him in an asylum for three months. In 1960, he divorced his wife and moved to Tokyo to become a professional photojournalist. He worked mostly on personal projects, telling me that he was never a good photographer on assignment.</p>	<p>福岛的摄影作品给他自己招来祸端不是第一次了。他拍摄中村 10 年的经历压垮了他，导致他精神崩溃，并在精神病院住了三个月。1960 年，他跟妻子离婚，搬到了东京，成为一名专业摄影记者。他主要是拍摄个人项目；他告诉我，他从来都干不好别人指派的摄影任务。</p>
<p>"Professional photographers go to newsy events, take beautiful pictures, publish nice spreads in magazines and move on," he said. "I was very slow and shy. But once I throw myself into something, nobody could get me out of it. I simply get deeper and deeper. As a result, I ended up with the pictures nobody has."</p>	<p>"专业摄影师会奔赴新闻性事件的现场，拍下美丽的照片，并在杂志登出漂亮的通栏图片，然后再执行下一个任务，"他说。"我动作很慢，又很害羞。但是，一旦我专注在什么事情上，就没有人能让我放弃。我会越陷越深。就这样，我最后会拍到别人拍不到的照片。"</p>
<p>But when the Japanese economy prospered in 1980s and people willed themselves to forget the hard times of the postwar years, Mr. Fukushima's politically charged photographs fell out of fashion. Instead, he designed jewelry to pay the bills. This was not too far from his roots: after the war — then married and with three children — he supported his family as a watchmaker. That was how he ended up in Hiroshima, which he visited several times a month to buy parts.</p>	<p>但是到了 20 世纪 80 年代，日本经济繁荣兴旺，公众希望忘却战后的艰难时刻，福岛富有政治意味的照片就过时了。这时，他靠设计珠宝谋生。珠宝设计和他的本行比较接近：二战结束后，已婚并且有三个孩子的福岛靠当钟表匠谋生。而那就是他到广岛的原因：他每月去广岛几次，采购钟表部件。</p>
<p>He first photographed the city's ruins in 1946, after reading a newspaper article about how grass had begun to grow on the spot where the bomb was dropped. While also working as a volunteer social worker, he photographed orphans, widows and the elderly who were left alone after the bombing, giving the pictures to local authorities so they could raise money to help them.</p>	<p>他最初是在 1946 年拍摄广岛的废墟，因为他在报纸上读到一篇文章，讲野草开始在核弹投下的地方长出。同时在做志愿者时，他还拍摄广岛原子弹爆炸后留下的孤儿、寡妇和老人，并把照片交给地方当局，以筹集帮助他们的善款。</p>

<p>Decades later, as an out-of-favor photojournalist, he left both photography and Tokyo. Disillusioned by the excess of materialism in Tokyo, he moved to Katashima, a desert island in Yamaguchi, in 1982, to live like Thoreau. I asked him why he chose the desert island.</p>	<p>几十年后，作为一名过气的摄影记者，他离开了摄影行业，也离开了东京。东京的过度物质化让他有幻灭感。1982年，他搬到了山口市的一个荒岛片岛上，过着如梭罗(Thoreau)一般的生活。我问他为什么会选择这个荒岛。</p>
<p>"I didn't have money," he said. "So I decided to go to a place with no stores."</p>	<p>"我没有钱，"他说。"所以我决定去一个没有商店的地方。"</p>
<p>He lived there for three years, then moved to a nearby island, where he spent another 15 years.</p>	<p>他在那里住了三年，然后搬到附近的一个岛，又在那里度过了15年。</p>
<p>But his personal fate once again crossed paths with that of the nation when, in 1987, he learned he had stomach cancer. While recovering, the coverage of Emperor Hirohito's deteriorating health dominated the news. Mr. Fukushima had supported the empire during the war, brainwashed to sacrifice his life for the emperor. He believed that many of his classmates were forced to die for the same cause. Convinced that the emperor was never held accountable for the horrors of the war, Mr. Fukushima mounted a retrospective exhibition called "The Emperor's Responsibility" that was highly critical of Hirohito's role in World War II.</p>	<p>1987年，他得知自己得了胃癌时，他的个人命运再一次与国家的命运交织在一起。在康复期间，媒体上到处都是裕仁天皇(Emperor Hirohito)健康状况不断恶化的消息。福岛在战争期间支持日本帝国，他被洗脑，要誓死效忠天皇。他当时深信，他的许多同学都因为同样的理由而被迫死去。他认为天皇永远不会为战争中的罪行负责，于是他举办了一个回顾展，叫做“战争责任展”(The Emperor's Responsibility)，对天皇在二战中所扮演的角色提出了尖锐的批评。</p>
<p>The exhibition was successful, but he received death threats. As an act of defiance — or caution — he made his own coffin out of cheap plywood.</p>	<p>展览很成功，但是有人威胁要他的命。他用便宜的胶合板给自己做了一副棺材，算是一种抗议，也是为了防备不测。</p>
<p>Now 92, Mr. Fukushima lives alone in an apartment in Yanai with his dog Roku. He does his own grocery shopping and cooks three meals a day. He refuses to receive a national pension, saying he can't accept money from the enemy he has been fighting. He doesn't take money from his children. Instead, he ekes out a living writing for magazines.</p>	<p>现年92岁的福岛先生独自生活，和他的狗狗罗酷(Roku)住在柳井市的一套公寓里。他自己去杂货店购买日常用品，一日三餐也自己做。他拒绝领取国家的养老金，他说，他不接受一直与之斗争的敌人的钱。他也不要子女的钱。他靠为杂志写稿勉强度日。</p>

<p>Feeling that the official history of postwar Japan has been whitewashed, he penned his own account. The third volume of his autobiography, "Postwar Japan Nobody Photographed," was published early in 2013.</p>	<p>由于感到日本美化了战后历史，他开始自己记录历史。他的自传第三卷《无人拍摄的战后日本》(Postwar Japan Nobody Photographed)已于2013年初出版。</p>
<p>He continues to photograph residents of Iwaishima, a small fishing island in Yamaguchi, who have been protesting against a proposed nuclear plant for three decades. He traveled to Fukushima in September 2011 to photograph the nuclear crisis, six months after the earthquake and tsunami wreaked havoc.</p>	<p>他继续用相机拍摄山口县祝岛的居民，这个小岛的居民主要以捕渔为生。30年来，他们一直在抵制一项在这里建设核电站的计划。2011年9月，他去了福岛，在地震和海啸过去六个月之后，拍摄那场灾难留下的疮痍。</p>
<p>Keenly aware that he is probably the only journalist who has witnessed both the aftermath of Hiroshima and Fukushima, he is writing a book called "From Hiroshima to Fukushima."</p>	<p>他非常清楚，自己可能是唯一一个见证了广岛和福岛两次灾难的记者。他正在撰写一本题为《从广岛到福岛》(From Hiroshima to Fukushima)的书。</p>
<p>It has not been easy.</p>	<p>这并不容易。</p>
<p>"Both are nuclear crises but different kinds," he said. "Hiroshima's crisis was caused by the bomb dropped by the enemy during the war. Fukushima's crisis, though initially triggered by the earthquake and tsunami, was not really natural. It was caused by Japan's nuclear industry whose interests more lie in their financial gain rather than the safety of the public. In Hiroshima, I photographed people who were dying. In Fukushima, it looked normal but nobody knows what is going to happen in long term. I didn't know where to begin."</p>	<p>他说，“两次都是核危机，但不是同一种。广岛的危机是战争中敌军投下的核弹造成的。而福岛的危机，虽然最初是地震和海啸触发的，实际上并不是自然灾害。日本核产业是罪魁祸首。它更感兴趣的是财务收益，而不是公众安全。在广岛，我拍下了弥留之际的人们的照片。在福岛，看起来一切正常，但是没人知道长期来看会发生什么。我都不知道该从哪里开始。”</p>
<p>He closely follows current events and asked me what I thought of a proposed secrecy law that Prime Minister Shinzo Abe is trying to pass.</p>	<p>他密切关注时事，并问我，对安倍晋三首相努力推动的保密法案有何看法。</p>
<p>I went blank.</p>	<p>我愣住了。</p>
<p>"What's that?" I replied.</p>	<p>我问道，“那是什么？”</p>

He looked the other way and murmured, "Read the paper, Hiro."	他目光转到别处，小声说，“看看报纸吧。”
Before I said goodbye, I asked him what he wanted to photograph next.	在我道别之前，我问他，他接下来想要拍点什么。
He looked me in the eye.	他看着我的眼睛。
"Are you asking the 92-year-old grandfather to keep fighting? That's impossible," he said. "While I was in Fukushima, I couldn't walk for long, I fell and couldn't stand up by myself. How can I photograph with such a frail body?"	"你是要让一个 92 岁的老头继续战斗吗？那是不可能的，"他说。"我在福岛时，都不能长时间走路，摔倒了自己都站不起来。身体这么虚弱，还怎么拍照？"
But without missing a beat he asked me a final question.	但他马上又向我问了最后一个问题。
"By the way, do you happen to know a good tiny point-and-shoot camera?"	"顺便问一句，你知道有什么又好又轻便的傻瓜相机吗？"

Where the Ice, and the Population, Is Thinning	在格陵兰，不断消逝的冰层和传统生活
The landscape in Ciril Jazbec's photographs of the Arctic is impressive, but not nearly as captivating to him as the people whose daily routines have been affected by rising temperatures and tides. "I am interested in the people," he said. "Climate change is merely in the background."	西里尔·贾兹贝克(Ciril Jazbec)照片中的北极风光摄人心魄，但对他来说，日常生活因为气温和海平面不断上升而受到影响的人们更有吸引力。"我感兴趣的是人，"他说，"气候变化只不过是一种背景。"
But when it's underfoot, he pays attention.	但如果它出现在眼前，他也会关注。
His latest project, "Greenland," made possible with funds from the Royal Photographic Society and The Photographic Angle, took him to a remote settlement of 250 people in northern Greenland known for a rare breed of modern-day subsistence hunters whose numbers are rapidly declining. Higher temperatures mean shorter seal hunting seasons — and thinner ice. Traversing the landscape by dogsled can be difficult, if not deadly.	为了他的最新项目"格陵兰"，贾兹贝克来到了格陵兰岛北部一个偏远的小村落。这个村子仅有 250 名居民，有着一群这个时代所罕见的以狩猎维系生计的猎人，并因此而闻名。这类猎人的数量正在迅速减少。气温上升意味着海豹捕猎季的缩短和冰层的变薄。乘坐狗拉的雪橇穿越这片土地可能很难，甚至有可能致人丧命。该项目是在皇家摄影学会(Royal Photographic Society)和摄影角度(The Photographic Angle)的资助下才得以实施的。
"This small settlement might be much, much smaller in 10 years," he	"10 年后，这个村子可能会比现在小得多，"他说。

<p>said.</p>	
<p>Mr. Jazbec avoided exotic, if clichéd, pictures, and focused on scenes that captured emotion. His goal was to document life as it was, particularly in a settlement with a life expectancy so uncertain. A similar motivation had been behind his previous projects. Before completing his master's in photojournalism and documentary photography at the London College of Communications in 2011, a final project took Mr. Jazbec to the island of Kiribati in the South Pacific. There, he documented how rising sea levels rendered the island virtually uninhabitable, detailing the intersection of everyday life with the changing landscape. Mr. Jazbec, 26, grew up in a countryside village in Slovenia. He is an avid snowboarder and fond of the environment, particularly those in the Arctic, which he believes possess a magical quality in photographs.</p>	<p>贾兹贝克不愿拍摄那些体现异域风情、但可能落入俗套的照片，而是专注于拍摄那些情感流露的场景。他的目的是记录生活的原貌，尤其是在这样一个生死无常的村落。他之前的一些项目也都源于类似的动机。2011年在伦敦传媒学院(London College of Communications)读完新闻摄影和纪实摄影的硕士学位前，为了完成最后的一个项目，他来到了南太平洋的基里巴斯岛。在那里，他记录了海平面上升如何使岛屿不再适合居住，以及在不断变化的环境中，人们日常生活的种种细节。26岁的贾兹贝克成长于斯洛文尼亚的乡村。他热衷于滑雪，热爱大自然，尤其是北极的环境，他认为，照片中的北极散发着魔力。</p>
<p>He could have used some wizardry to get to Greenland. Reaching the settlement took three flights, a helicopter and a four-hour sled ride pulled by Greenlandic dogs who “howl, not bark.”</p>	<p>要是能用魔法抵达格陵兰就好了。他共乘坐了三次航班、一架直升机，以及四个小时的雪橇才抵达了这个村子。拉雪橇的是格陵兰的狗，这些狗“不会汪汪地叫，只会嘶嚎。”</p>
<p>Initially, Mr. Jazbec intended to focus on 10 families, until he met Uunartoq Lovstrom, 70, a tough and amiable man who was proclaimed by members of the settlement as “the Clint Eastwood of Greenland,” and one of the last traditional subsistence hunters remaining. A sense of purity attracted Mr. Jazbec to Mr. Lovstrom, who years earlier turned down an opportunity to be the focus of an American documentary on subsistence hunting because he felt it would take time away from the life he enjoys.</p>	<p>一开始，贾兹贝克打算关注10个家庭，直到他遇见了70岁的乌纳托克·勒夫斯特伦(Uunartoq Lovstrom)。勒夫斯特伦是一个性格坚强的和善男子，村民都称他是“格陵兰的克林特·伊斯特伍德(Clint Eastwood)”，他也来自最后一群以打猎为生的传统猎人。勒夫斯特伦身上的这种纯粹感吸引了贾兹贝克。勒夫斯特伦几年前曾拒绝成为一个美国维生狩猎纪录片的主角，因为他觉得这会占去他享受生活的时光。</p>

<p>Mr. Jazbec stayed at Mr. Lovstrom's home for two weeks, a challenge because he did not speak Greenlandic. He communicated primarily through body language, knowing only the word for "cheers," which he said "about 50 times a day."</p>	<p>贾兹贝克在勒夫斯特伦家住了两个星期，这很有挑战性，因为他不懂格陵兰语。他主要通过肢体语言交流。他只会说“干杯”这个词，而这个词他一天要说上“50遍”。</p>
<p>Mr. Jazbec rose early each morning with Mr. Lovstrom for tours of the settlement or seal hunts on a wooden sled pulled by six to 10 dogs and built by Mr. Lovstrom, a former dog sled racer. Mr. Lovstrom used to travel more than 10 hours outside of the settlement to hunt, but lately he has relied more on ice fishing. In April, the ice was thin in Greenland, a problem hunters like Mr. Lovstrom never encountered when winter regularly lasted 10 months instead of eight — a result of temperatures jumping from an average of minus 30 to minus 40 degrees Fahrenheit to between minus 15 and minus 25.</p>	<p>贾兹贝克每天早晨都会早起，与勒夫斯特伦一起巡视村落，或者坐着勒夫斯特伦自制的、由六到十只狗拉着的木质雪橇去捕杀海豹。勒夫斯特伦曾参加过狗拉雪橇比赛，以前经常走10几个小时的路程，到村落之外的地方打猎，但他最近更多地依靠冰钓。4月份的时候，格陵兰岛上的冰层非常薄，像勒夫斯特伦这样的猎人以前从未遇到过这个问题。这里的冬天通常会持续10个月，而不是8个月。而现在之所以这样是因为气温从平均零下30至40华氏度跳升至零下15至25华氏度。</p>
<p>Thin ice, with its perils — Mr. Jazbec said hunters began falling through the ice, making longer journeys potentially deadly — is just one reason for the lack of subsistence hunters in the settlement. Sprouting small businesses that provide goods once hunted for and a changing attitude toward the culture of subsistence hunting by a younger generation eager to find larger towns and conventional jobs have also contributed.</p>	<p>薄冰非常危险。贾兹贝克称，猎人开始掉入冰窟，可能会在漫长的行程中丧生，但这只是很少有村民靠狩猎为生的原因之一。其他影响因素包括，遍地开花的小商店开始提供曾经依靠捕猎才能获得的商品，而年轻一代对维生狩猎文化的态度也发生了改变，他们渴望寻找更大的城镇和正常的工作。</p>
<p>"Not everyone in the settlement finds the changing climate bad," Mr. Jazbec said. "It is an interesting juxtaposition from traditional life to younger life." Even Mr. Lovstrom now regularly shops at a nearby store, though he continues to hunt for meat.</p>	<p>"并不是每个村民都认为气候变化非常糟糕，"贾兹贝克说。"传统生活与现代生活并存是非常有趣的事情。"甚至连勒夫斯特伦现在都经常到附近的商店购物，尽管他仍然靠捕猎获得肉类。</p>

One photograph pictured Mr. Lovstrom watching one of three channels on a large flat-screen television his sons bought for him. According to Mr. Jazbec, Mr. Lovstrom watched the television for hours, particularly news coverage of the Boston Marathon bombing.</p>	<p>伦在看电视，他的儿子给他买了一台大屏平板电视，一共能收到三个频道。贾兹贝克称，勒夫斯特伦看了几个小时的电视，特别是有关波士顿马拉松爆炸事件的新闻报道。</p>
<p>"It was absurd for me to see him watching television," Mr. Jazbec said. "He's sitting there on the couch, but this exotic landscape is right outside the window."</p>	<p>"看着他看电视，感觉很怪诞。"贾兹贝克说。"他坐在沙发上，但窗外就是奇妙的景色。"</p>
<p>Mr. Jazbec's favorite photograph shows Mr. Lovstrom clad in polar bear-skin pants he wears to fend off icy winds while lying on the ice, in pain from an old racing injury, line fishing through a hole he has just made (Slide 4).</p>	<p>在贾兹贝克最喜欢的照片中，身穿熊皮裤子抵御寒风的勒夫斯特伦躺在冰层上，通过自己刚刚挖好的洞钓鱼（幻灯片4），而雪橇比赛留下的旧伤让他非常痛苦。</p>
<p>"It was one of those moments when you know you have something amazing in front of you," Mr. Jazbec said. "His expression looks like he is dying, but it is just that he is hurting. His heart is full of life and strong will."</p>	<p>"有时候你知道面前有着非常神奇的东西，这就是那样的时刻。"贾兹贝克说。"他的表情看起来像是快要死了，但他那会儿只是非常疼。他的心充满活力和坚强意志。"</p>
<p>Mr. Jazbec plans to return to Mr. Lovstrom's settlement as well as neighboring ones in March. The ice may be thin, but his feelings are not.</p>	<p>贾兹贝克计划在今年3月回到勒夫斯特伦所在的村落及周围的村庄。冰层或许的确很薄，但他的感情却非常深厚。</p>
<p>"It's difficult as a photographer to get close enough to someone who lets you live with them," he said of his bond with Mr. Lovstrom and his desire to revisit and expand on the work he has already done. "It's hard to gain trust; that's why it's special to me."</p>	<p>"即便有人允许摄影师跟他们一起生活，你还是很难真正接近他们，"他提到自己与勒夫斯特伦的关系及对故地重游和扩展已完成工作的渴望时说。"获得信任非常不易，因此，这对我来说非常特别。"</p>

<p>In Restive Remote China, Uighurs' Piety and Peace</p>	<p>走进维吾尔族人精神世界的汉族摄影师</p>

<p>It's rare to see mainstream news media reports on Xinjiang, China's western borderland region, that do not invoke "turbulent," "restive," "unstable" or some variation. The area has long been the site of ethnic tensions between the majority Han Chinese and the Uighurs, China's Turkic-speaking Muslim minority. But tight government controls on information and access make reporting on such clashes and protests, as well as everyday life, exceedingly difficult.</p>	<p>主流新闻媒体对中国西部新疆地区的报道中，不提及“骚乱”、“动荡”、“不稳定”或某种异常状况的少之又少。长期以来，这里一直是在中国占多数的汉族与维族之间发生民族对峙的地方。维族是一个穆斯林少数民族，说维吾尔语。但由于政府对信息以及出入该地区的严格管控，要对此类冲突和抗议活动以及当地日常生活进行报道十分困难。</p>
<p>This contrast is what makes Wang Qing's series "Rituals in Life" all the more remarkable. Photographed over a span of seven years, the series shows the daily experiences and rituals of several ancient Uighur villages near Turpan, the desert oasis that was once a flourishing trade center on the historic Silk Road.</p>	<p>这种状况也让王晴的摄影作品——“生命的回声”系列备受关注。这些历时七年拍摄的照片展示了吐鲁番市附近几个古老维族村落的日常生活和风俗仪式。沙漠绿洲吐鲁番曾是古代丝绸之路上的一座繁华的贸易中心。</p>
<p>Instead of images of paramilitary convoys and armed security, Ms. Wang wanted her photos to convey "the constant growing and multiplying of life and the cycle of life and death." She has captured moments that can only be glimpsed by a patient, unobtrusive observer: a tender moment between a mother and her son, who has just undergone a ritual circumcision; a man praying with his palms open, the rugged expanse of the Flaming Mountains towering behind him (below); a young bride in a moment of reflection at her wedding. For Ms. Wang, a Han Chinese who grew up in Turpan, the religious traditions were familiar. "The environment I grew up in was heavily influenced by the rich Uighur traditions and culture," she said. "Our lives were all bound up with each other. We ate the traditional Uighur flatbread and lamb and celebrated their holidays. Everything I lived and</p>	<p>她没有拍摄军车车队或是荷枪实弹的安全部队，而是想通过摄影作品“表达生命不息，生死轮回的一种含义”。她捕捉到的场景，都来自只有那些有充分耐心、不会惊扰本来状态的观察者才能看到的瞬间：一位母亲和她刚刚行完割礼的儿子的温馨画面；摊开手掌祈祷的男子——他的身后是绵延起伏的火焰山；一个年轻的新娘在婚礼上的若有所思。作为一名在吐鲁番长大的汉族人，王晴对这些宗教传统十分熟悉。她说，“我的成长环境受到了维族传统和文化的极大影响。我们的生活紧密相连。我们吃维族传统的馕和羊肉，庆祝他们的节日。我所经历和感知的一切反映的都是伊斯兰文化。”</p>

<p>touched reflected the Islamic culture.”</p>	
<p>Still, it took years for her to gain the villagers’ trust. The villages primarily depicted in her series are in Tuyugou and Mutougou, deep in the gorge of the Flaming Mountains, the gullied red sandstone hills made famous by the classic 16th-century Chinese novel “Journey to the West.” She was first introduced to the villagers through a friend in 2006 and prepared by studying books on Turpan’s history and Uighur religion and culture to improve her own understanding.</p>	<p>尽管如此，她还是花了好几年时间才获得村民的信任。她的作品中展现最多的是吐峪沟和木头沟，都位于火焰山的峡谷深处。这座由红色砂岩构成的、布满沟壑的山脉因16世纪的中文小说《西游记》而闻名。2006年，她通过一个朋友第一次认识了这里的村民，并通过研读有关吐鲁番历史和维吾尔宗教和文化的书籍增加对这里的了解，为拍摄做准备。</p>
<p>The villagers were always very welcoming, she said, and would invite her into their homes. In the years after, she visited them often, taking candid photos as they went about their daily lives.</p>	<p>她说，村民们总是非常热情，把她邀请到自己家里。在随后的几年，她经常去拜访他们，在他们日常生活中拍摄最真实的画面。</p>
<p>“I told them that my goal in taking the photos was to record the Uighur and Islamic religion, etiquette and traditions so as to improve understanding of the people,” she said. “As time went by, we began to build friendship and trust.”</p>	<p>她说，“我告诉他们，我拍摄的目标是为了记录维吾尔和伊斯兰教的宗教、礼仪和传统，增加外界对他们的了解。随着时间的推移，我们建立了友谊和信任。”</p>
<p>Each time she visited, Ms. Wang brought prints of her photos as gifts for the families. Though the villagers were always delighted, one moment in particular left a deep impression on Ms. Wang. “I would often take photos in this one village home where four generations were living under one roof,” she said. “The head of the family was a man named Jiapa. When Jiapa passed away due to illness, his 92-year-old mother took a photo of him that I had taken and, with tears streaming down her face, thanked me. Her son had passed away, but she could still take his photo and look at him as if he were still living. In this moment, I grieved together with Jiapa’s mother and felt grateful that I could have</p>	<p>每次拜访村民，王晴都带着洗出来的照片，作为礼物送给村民。村民们一般都会很高兴，但有一件事给王晴留下了很深的印象。她说，“我经常去一个四世同堂的家族拍照，族长叫做加帕。加帕病逝时，他92岁的母亲拿着我拍的一张加帕的照片，泪流满面，向我表示感谢。她的儿子已经去世，但是她仍然可以拿着他的照片，看着他，好像他并没有离去。这一刻，我和加帕的母亲同样悲伤，我以一种有意义的方式帮助了这个家庭，这让我感到很欣慰。”</p>

helped the family in a meaningful way.”	
Being a woman, Ms. Wang said, made it easier to build trust with the female villagers and photograph them more intimately. As an example she cited a photo she had taken of a Uighur bride. In some instances, however, her gender made access difficult. Females are prohibited from attending burials, in accordance with Islamic guidelines. In this situation, Ms. Wang said, having the respect and trust of the village imam was very important. Though she was not allowed to photograph the actual interment, with the approval of the imam and the deceased’s family, she was able to photograph some of the rituals leading up to the burial.	王晴说，作为女性，她更容易与女性村民之间建立信任，可以更近距离地拍摄她们。她提到了自己拍摄一个维族新娘的例子。不过有时，她的性别也成为一种障碍。按照伊斯兰教规，女性禁止参加葬礼。王晴说，在这种情况下，获得村里伊玛目的尊重和信任就非常重要。尽管无法拍摄葬礼，伊玛目和死者家属还是会允许她拍摄葬礼之前的一些仪式。
While Ms. Wang plans to continue to take photos in the villages, she is also currently making preparations for a photographic project that will be set in the Wudang Mountains in Hubei Province, a historical center for Daoism dating back to the early Tang dynasty in the seventh century. Her interest in documenting contemporary religions, she said, reflects her deepening belief in the irreplaceable role of tradition in modernizing societies.	王晴打算继续在这些村子里拍照，同时，她目前也在为在湖北省武当山的摄影计划做准备。这里在七世纪的唐代初期是道教圣地。她说，她之所以对记录当代宗教感兴趣，是因为她越来越相信，在各种社会现代化的进程中，传统的地位仍然无可替代。
“Regardless of how society progresses and no matter how vigorously materialism develops, the needs of the human spirit do not change,” she said. “The place of religious beliefs in the heart remains essentially the same.”	她说，“无论社会如何进步，无论物质主义多么盛行，人类的精神需求不会改变，宗教信仰在人们心中的地位本质上也不会变。”

The World’s Best (Unaltered) Photos	2013 世界新闻摄影大赛荷赛奖揭晓
In a striking departure from past years, World Press Photo’s top prize for	世界新闻摄影大赛（World Press Photo，中文常称为“荷赛”）一反往年的常

<p>2013 was given not for a hard-news image, but to John Stanmeyer for a photo of African migrants in Djibouti trying to capture a faint signal that provides a tenuous link to relatives in Somalia, Ethiopia and Eritrea.</p>	<p>态，没有将 2013 年度的最高奖项授予“硬新闻”图片，而是颁发给了约翰·斯坦梅耶尔(John Stanmeyer)。在他的获奖图片中，吉布提的非洲移民在努力搜寻手机信号，试图与索马里、埃塞俄比亚、厄立特里亚的亲人维持飘摇不定的联系。</p>
<p>Eschewing the usual themes of war, poverty or violence, the image touches on universal themes of migration, technology and globalization, said Mr. Stanmeyer, a founding member of VII, a photo agency.</p>	<p>斯坦梅耶尔是 VII 图片社的创始成员。他说，这张照片没有探讨战争、贫困、暴力这些常见的话题，而是触及了移民、科技和全球化的普世主题。</p>
<p>“We migrate looking for a better life, but we always need to connect home,” Mr. Stanmeyer said in a phone conversation from his home in western Massachusetts. “I could be any one of those people trying to reach my family. I’m on the road 250 days a year.”</p>	<p>斯坦梅耶尔在他位于马萨诸塞州西部的家中接受电话采访时说，“我们会为了寻找更好的生活而迁徙，但总是需要与家人联系。我可能就是努力联络家人的那些人中间的一个。我一年有 250 天都在外面。”</p>
<p>The announcement of Mr. Stanmeyer’s win was overshadowed by the disclosure that 8 percent of the finalists’ images were disqualified because information had been removed after processing. An outside expert studied the raw and jpeg files and found evidence indicating that information had been removed through cloning or extreme toning, said Gary Knight, the jury chairman. He said it was obvious that the offending images were “materially and substantially changed.”</p>	<p>斯坦梅耶尔获奖的消息宣布的同时，还传出了一个负面的消息。入围者的图片中，有 8% 因为经过处理后有信息被移除而丧失了评奖资格。评审团主席加里·奈特(Gary Knight)说，一位外部专家研究了原始(raw)文件和 jpeg 格式的文件，发现有证据显示，在克隆和过度润色的过程中丢失了信息。他表示，很显然，违规图片“经过了内容上的实质性修改”。</p>
<p>“As a photographer, I reacted with real horror and considerable pain because some of the changes were materially trivial but they were ethically significant,” said Mr. Knight, who is a founding member of VII. “In every single case it was a meaningless and stupid process. None of the photographers improved their work and if they hadn’t done it they may well have been up for consideration.”</p>	<p>“作为一个摄影师，我的反应是强烈的反感和沉重的痛苦，因为一些修改在内容上微不足道，但在道德上却意义深重，”奈特说。“具体到每个案例，都是毫无意义而且愚蠢的处理。这些摄影师中，没有任何实际上对作品做出了改进，而且如果没有经过处理的话，他们的照片或许能够入围。”奈特也是 VII 图片社的创始成员。</p>

<p>World Press publicly announced last year that raw files would be reviewed in future contests after a controversy over the toning of the winning photo of 2012, showing two men carrying their dead nephews in Gaza City. Mr. Knight said World Press would notify the offending photographers that they were excluded.</p>	<p>在 2012 年的获奖照片显示的是在加沙城里, 两名男子抬着他们死去的侄子。因为经过润色, 它的获奖引发了争议。荷赛组委会于是在去年公开宣布, 未来的竞赛作品都需要审阅原始文件。奈特说, 组委会将通知违规的摄影师, 他们被除名了。</p>
<p>Mr. Knight said that although he had asked to be removed from the final judging because of his friendship and professional relationship with Mr. Stanmeyer, the World Press rules did not allow for it. He emphasized that at every level there was complete transparency. "If anything," he said, "I was a hindrance for John getting the award, not a help." Philippe Lopez, of Agence France-Presse, won first place in spot news for a photo of a religious procession after Typhoon Haiyan hit the Philippines (Slide 3). Alessandro Penso received first prize in general news for a photo of an abandoned school in Bulgaria used to house 800 Syrian refugees (Slide 7). Goran Tomasevic of Reuters won first for spot news in photo stories for his photos of the Syrian war (Slide 2) and Tyler Hicks of The New York Times was awarded second place for his photographs of a terrorist attack in a Kenyan mall (Slide 8). Tanya Habjouqa was awarded second prize in the daily life category for an essay on Palestinian pleasures that was first published on Lens.</p>	<p>奈特表示, 因为他与斯坦梅耶尔是朋友, 也有工作上的关系, 所以曾要求回避, 不参与最终的评审, 但荷赛的规则不允许这样做。他强调, 每一个阶段都完全透明。“如果说有影响的话,”他说,“我也是约翰获奖的一个阻碍, 而不是帮助。”法新社(Agence France-Presse)的菲利普·洛佩兹(Philippe Lopez)获得了突发新闻类一等奖, 获奖作品是台风“海燕”席卷菲律宾之后的一场宗教仪式(图3)。亚历山德罗·彭索(Alessandro Penso)获得了一般新闻类一等奖, 获奖作品是保加利亚一所废弃学校改建的收容所, 那里容纳了 800 名叙利亚难民(图7)。路透社(Reuters)的格兰·托马塞维奇(Goran Tomasevic)获得了突发新闻类组照的一等奖, 获奖作品是他在叙利亚战争中拍摄的一组照片(图2)。《纽约时报》的泰勒·希克斯(Tyler Hicks)因为他在肯尼亚一所购物中心遭遇恐怖袭击时拍摄的照片(图8), 获得了二等奖。坦娅·哈布朱卡(Tanya Habjouqa)获得了日常生活类组照二等奖, 获奖作品是反映巴勒斯坦的娱乐方式的组照, 最早是在 Lens 上发表的。</p>
<p>Other winners include Andrea Bruce, second place for daily life in the singles category for The New York Times; Sara Lewkowicz, first place in contemporary issues for the stories category for Time magazine (Slide 7); and Brent Stirton of Reportage by Getty Images, first prize in staged portraits in the singles category (below). <p>David Guttenfelder, a juror who has won seven World Press awards, including two first prizes, said he considered the image to be a news photo because it touched on important issues, like migration, that often dominate the news. <p>The Empire State Building in Ice</p>	<p>缤纷剔透的哈尔滨冰雪大世界</p>
<p>For this week’s Look column, we asked the photographer Massimo Vitali to visit Harbin, China, to take pictures of the Ice and Snow World there. Long days in the extreme cold — temperatures got as low as minus 40 degrees Fahrenheit — made for difficult work.</p>	<p>为了准备本周的 Look 专栏，我们邀请摄影师马西莫·维塔利(Massimo Vitali) 前往中国哈尔滨，为当地的冰雪大世界拍摄照片。长时间的极寒天气——温度有时会降至华氏零下 40 度——让工作变得十分困难。</p>
<p>“The first 3 or 4 hours of shooting were O.K. with our clothing,” Vitali says, “but with the sun going down and the cold accumulating in your body, at some point in the day, it really became hard. Everyone had face masks — like surgeon’s masks but made of fleece. My assistant and I got them, as after a certain point our mouths and jaws were so cold we couldn’t talk.”</p>	<p>“穿着我们这身衣服拍摄，头三四个小时还无所谓，”维塔利说，“不过，等到太阳落山，寒气在身体上积聚，一天中的有些时候，就会变得非常艰苦。每个人都戴着口罩——很像外科医生的口罩，但却是用羊毛做的。助理和我也戴了这种口罩，因为一段时间之后，我们的嘴和下巴就会冻得无法说话。”</p>
<p>Vitali was surprised that the festival’s attendees were mostly middle class. “The ticket entrance was just under \$50, and the general public must have been fairly wealthy to be able to afford to go, especially for families with children,” he says. “Everybody talks about the very rich Chinese and the very poor workers, but we were in a position to observe a large and thriving middle class. Every winter, hundreds of thousands of tourists visit the Harbin Ice and Snow World in northeast China, near the Songhua River, to see its vast collection of elaborately carved ice structures, many of them illuminated with colorful LEDs. The arduous task of quickly collecting all that ice for an exhibition that opens in early January begins in mid-December, and the ice city has been getting bigger every year. This time around, 180,000 cubic meters of ice were used. Some of the finished sculptures this year, which remain in place until March, are a homage to structures around the world, from the Colosseum to the Empire State Building. Zengyu Wang, the executive manager of the event, says the local government in Harbin dreamed up the festival as a lure to promote winter tourism. When visitors see the ice for the first time, he says, they have one reaction: "Very shocked." Julie Bosman	每年冬天都有数十万游客来中国东北的松花江畔，游览哈尔滨的冰雪大世界，欣赏大量精心制作的冰雕，其中许多冰雕都装饰着五颜六色的LED灯泡。游园会在1月初开始，迅速收集活动所需冰块的艰巨任务则在12月中旬启动，此外，这座冰城的规模一年比一年大。本届游园会用了18万立方米的冰。今年一些已完成冰雕的原型是世界各地的一些建筑，从斗兽场(Colosseum)到帝国大厦(Empire State Building)。这些雕塑会留在原地，直到3月。冰雪大世界活动的副总指挥王增钰说，哈尔滨政府希望这个活动能带动冬季旅游。他说，生平第一次见到冰时，游客只有一个反应：“非常震惊。”朱莉·博斯曼(Julie Bosman)

An Uncertain Quiet for Crimean Tatars	克里米亚鞑靼人，令人不安的平静
Emine Ziyatdinova's recent photographs from Crimea sketch the pain that is not far from the tenuous peace. There are images of Russian soldiers and pro-Ukrainian protesters. And just last Sunday, in her family's home, she photographed her mother crying as she stashed	伊明·伊泽诺娃(Emine Ziyatdinova)最近拍摄的克里米亚照片，展现了跟脆弱和平相隔不远的痛苦。照片中有俄罗斯士兵和亲乌克兰的抗议者。就在上周日，她在自己家里拍摄了母亲哭着把文件装进一个袋子的照片。

<p>some documents into a bag.</p>	
<p>"She is getting ready to leave if they have to," Ms. Ziyatdinova said. "My mom is really panicked and upset. She cries every day, and she thinks we are going to be deported."</p>	<p>"她正在做离开的准备，如果不得不离开的话，"伊泽诺娃说。"我妈妈真的是惊慌失措，心烦意乱。她每天都在哭，觉得我们会被驱逐出境。"</p>
<p>This is not paranoia, but fear rooted in memory. In the 1940s, her grandparents – Crimean Tatars – were forcibly removed and sent to Uzbekistan, where Ms. Ziyatdinova, her brother and their parents were born. The family returned to Ukraine after the fall of the Soviet Union, rebuilding bit by bit in Serebryanka, a village in northern Crimea. But the upheaval in Ukraine, Russian intervention in Crimea and a coming referendum on whether the region can secede and join Russia have made her and many others nervous. Most recently, Crimea's regional Parliament passed a resolution in support of independence should the majority of voters approve. The pro-Russian sentiment she has witnessed in recent weeks while working for Danish television is far from what she encountered last summer, when she visited the area shortly after returning to Ukraine from the United States, where she had been studying and working as a freelancer.</p>	<p>这不是杞人忧天，而是根植于记忆的恐惧。20世纪40年代，她的祖父母——克里米亚鞑靼人——被强行驱逐到乌兹别克斯坦；伊泽诺娃和哥哥，以及他们的父母都是在那里出生的。苏联解体后，一家人回到乌克兰，在克里米亚北部的村庄谢列布良，他们一砖一瓦地重建起家园。但是，乌克兰现在的动荡局势，俄罗斯对克里米亚危机的干预，以及该地区是否会“脱乌入俄”的公投，已经让她和很多人感到紧张。根据克里米亚地区议会最近通过的一项决议，如果多数选民赞成，该地区就会独立。最近几周，她在这里为丹麦电视台做项目，这期间她看到的亲俄情绪，跟她去年夏天从美国返回乌克兰后不久在这里的所见所闻大不相同；之前她在美国一边学习一边做自由摄影师。</p>
<p>"Last summer it was not a question like anyone wanted to go back to Russia," Ms. Ziyatdinova, 26, said in a Skype interview Tuesday from Simferopol, the Crimean capital. "Now I come back and there is mass psychosis among the population and they want to join Russia." She has been especially alarmed by the sentiment against people from western Ukraine, who are being portrayed as extremists and fascists, she said. Her passport makes clear that she is from western Ukraine.</p>	<p>"去年夏天，有没有人想回归俄罗斯不称其为一个问题，"本周二，26岁的伊泽诺娃在克里米亚首府辛菲罗波尔通过Skype接受采访时说。"现在我回到这里，很多人都疯狂地想要加入俄罗斯。"尤其让她感到不安的，是这里对乌克兰西部人的敌对情绪，她说，西部人被描绘成极端分子和法西斯分子。而她的护照清楚地显示，她来自乌克兰西部。</p>

<p>"Am I going to be banned from here?" she said. "Will I not be able to see my parents or relatives?"</p>	<p>"我会被从这里赶出去吗?"她说。"我再也见不到父母和亲戚了吗?"</p>
<p>She has been photographing her family and community in Serebryanka — about 70 miles north of the Crimean capital — since late in the last decade, taking pictures at family gatherings and scenes of local life. One series features Tatar artists, while another set of images chronicles her brother, Aziz, building a bigger house and he and his wife, Aliye, starting a family. The scenes she captured helped her reconnect to a place she had left behind, a place she had yearned for while living in Brooklyn and photographing Brighton Beach's Russian community a few years ago.</p>	<p>自 2010 年之前, 她就开始拍摄自己的家人和位于克里米亚首府以北 70 英里处的谢列布良社区, 拍摄家庭聚会和当地日常生活的场景。她拍摄过一个鞑靼族艺术家系列, 还用一组图像记录了哥哥阿齐兹(Aziz)修建一所更大的房子, 跟嫂子阿丽亚(Aliye)成立家庭的过程。她捕捉的这些场景, 帮她重新连接到她离开了的一个地方; 几年前她住在布鲁克林并且拍摄布莱顿海滩的俄罗斯社区时, 曾对这个地方充满思念。</p>

And the next day the violence happened and people were dead. Here, it is the same. It is quiet." Two decades after her parents returned to the land of their ancestors, they are wondering what will come next. Each generation in recent memory has had to start from scratch and rebuild their lives. Her mother has her documents ready.</p>	<p>"暴力事件发生时, 我就在基辅,"她说。"我想这就是为什么我甚至更加害怕安静的原因。前一天基辅的气氛还跟节日似的, 第二天暴力事件就发生了, 就有人死了。这里也一样, 现在很平静。"她父母回到祖辈的土地上已经 20 年了, 他们想知道接下来会发生什么事。在近期的记忆中, 每一代人都不得不由零开始, 重建生活。她母亲已经准备好了自己的文件。</p>

The Peculiar Beauty of Flotsam	从纽约的水底究竟可以捞出什么？
<p>When Willis Elkins, a Houston native, began exploring New York City by canoe in 2008, he was interested in studying the infrastructure and collecting some flotsam. "How the waterways work," he says, is connected to "how we discard objects." There were plenty of them, too, washed up in places like the mouth of Newtown Creek, where the items on the following pages were found on a single day in May. Elkins, who works at a nonprofit that focuses on environmental issues, notes that much of the trash that washes ashore in the city isn't there because of careless littering; it is discarded but ends up in the water when a rainstorm pushes the sewage system to capacity. But, he says, "people think that once you put it in the trash can, the problem no longer exists, basically." Julie Bosman</p>	<p>2008年休斯顿人威利斯·埃尔金斯(Willis Elkins)乘独木舟探索纽约市时，对研究基础设施和收集漂浮物产生了兴趣。他说，“水道的运转方式”与“我们丢弃废物的方式”有关。有大量垃圾被冲到了纽镇河口这样的地方，照片上的这些东西是在5月的一天里找到的。埃尔金斯在一个关注环境问题的非营利组织工作。他说，冲到岸上的大部分垃圾不是人们随意乱扔的，它们是被扔进了垃圾箱，但是最后到了水里，因为一场暴雨冲垮了下水道系统。不过他说，“人们普遍认为只要你把它放进垃圾箱里，问题就不存在了。”</p>

Hunting Honey, and Trying to Hide	只在此山中，云深不知处：尼泊尔的采蜜者

But the Indiana Jones-ish golden stills of his latest project, "Gurung Honey Hunters," present a</p>	<p>安德鲁·纽维(Andrew Newey)兢兢业业地记录着一个个正在消失的文化和传统：蒙古的猎鹰者、埃塞俄比亚的跳牛仪式，还有巴布亚新几内亚的部落节日。但在他的最新系列作品“古隆族采蜜者”中，印第安纳·琼斯式的佳作却引发了一个进退两难的状况，因为，这项传统在尼泊尔中部山脚村庄和山</p>

<p>Though it dates back millenia, honey hunting was a relatively unknown tradition until a 1987 National Geographic documentary enticed tourists, film crews and photographers to descend on the region. The biannual hunts gave way to staged tourist treks that can be added to Himalayan adventure package deals for upward of \$1,000.</p>	<p>尽管已有几千年的历史，但采蜜一直是一个相对鲜为人知的传统，直到 1987 年，国家地理频道(National Geographic)的一部纪录片把大量游客、电影摄制组和摄影师吸引到了这个地区。这种一年两次的采蜜活动催生了一些短途旅行项目，它们可以被包含在喜马拉雅探险的旅行方案中，共需要 1000 多美元的费用。</p>
<p>Arriving in Nepal in October, Mr. Newey traveled the Kaski district in search of a hunt unsullied by mass tourism. Not until December did he find one, in a small village with a backdrop of snow-capped mountains – the name of which he will not reveal.</p>	<p>纽维是 10 月份抵达尼泊尔的，他在卡斯基地区游览了一番，试图寻找一个没有被大众旅游破坏的采蜜区。到了 12 月份，他终于在一个小村子里找到了这样的采蜜区，村子背后是积雪覆盖的群山——他拒绝透露这个村子的名字。</p>
<p>"If the name comes out, tourists will flock there," said Mr. Newey, 35, "That would be a disaster." After gaining the trust of villagers wary of cameras and the foreigners behind them, Mr. Newey accompanied more than a dozen on the three-hour hike down a mountainside to the base of a cliff, just one of a handful of honey-hunting locations in the area.</p>	<p>现年 35 岁的纽维说，“这个村子的名字如果被曝光，游客们会纷至沓来，那会是一场灾难。”这里的村民对相机和机器后面的外国人保持着警惕。在得到村民的信任之后，纽维和十几个人沿着山坡，徒步行走三小时，抵达了悬崖底部，这里只是该地区若干采蜜地点中的一个。</p>
<p>The hunt takes three days. First a sheep is sacrificed in the name of the cliff gods and prayers offered for a good harvest. The morning of the hunt, foliage is collected for small fires near the cliffside's base to smoke the large Himalayan bees out of their nests. The third day, they return home with their harvest.</p>	<p>采蜜过程需要三天。首先要宰杀一头羊祭祀“崖神”，以祈祷丰收。采蜜的那天早上，人们收集了一些叶子，在悬崖底部生起了一堆堆小小的篝火，从而把大量的喜马拉雅蜜蜂熏出蜂巢。第三天，人们带着收获的蜂蜜回家。</p>
<p>Although the process of collecting the rich honey stored in the cliff is a group effort involving a dozen people, the man known as the cutter</p>	<p>尽管收集悬崖上大量蜂蜜的工作是一个需要十几个人参与的合作过程，但被称为“切割者”的男子（在一张照片中，一名切割者穿了一件游客送给他的卡</p>

<p>(shown in a photo wearing a beige bee suit given to him by a tourist) has the toughest job. After a 50-meter rope ladder is secured to the top and base of the cliff, he climbs up toting two seven-meter-long bamboo sticks known as tangos. With one sharpened tango, he slashes at exposed honeycombs while using the other – often balanced with a thigh or foot – to maneuver a hanging wicker basket and catch falling chunks.</p>	<p>其色防蜂服)的工作尤为艰难。在一个50米长的绳梯两端被固定在山顶和山崖底部之后,他需要带着两根七米长的竹竿爬上绳梯。这个竹竿也被叫做“tango”。他用其中一根削尖的竹竿抽打蜂巢,同时不断移动另一根竹竿上悬着的竹篮子——通常用大腿或脚保持平衡,从而接住掉下来的蜜块。</p>
<p>The cutter often misses the basket, leaving globs of fresh honeycomb splattered on the ground, which children scramble to devour. It is a physically grueling process for the cutter, who on Mr. Newey’s journey was 58 years old. The aging of traditional honey hunters and the migration of younger people to larger cities to accommodate tourists is also responsible for the tradition’s decline. The cutter on Mr. Newey’s journey was on loan, serving several neighboring villages whose veterans were too old.</p>	<p>篮子常常接不准,导致一团团新鲜的蜂巢在地上摔碎,这时,孩子们就会去争抢。对于切割者来说,这是一个极其辛苦的过程。纽维遇到的这个切割者已经58岁。传统采蜜人逐渐老去,以及由于游客的涌入,年轻人向大城市迁徙,也导致了这个传统的衰落。和纽维同行的这位切割者是临时调来的,他还在几个附近的村子工作,因为那里的经验丰富的人都太老了。</p>
<p>“When he gives up, there will be very few people experienced enough to take over,” Mr. Newey said.</p>	<p>“如果他不做了,几乎没有经验丰富的人来接班,”纽维说。</p>
<p>The tourism industry hurts because they lead to excessive harvests; they are supposed to occur only twice a year to allow for the bees’ return. The dwindling of rhododendrons, a result of paths cleared for tourist groups, is also to blame.</p>	<p>旅游业之所以成了心头之痛,是因为它引发了过量的采蜜;采蜜活动应该每年只进行两次,从而允许蜜蜂回巢。杜鹃花减少也是一个原因,而这都是为旅游团开辟旅行线路的结果。</p>
<p>A typical autumn honey hunt brings 200 liters for the village Mr. Newey accompanied, split evenly among villagers for personal use. This year’s take was 80 liters. Spring “red honey,” usually more abundant and frequently exported to Japan, Korea and China to be used for medicinal</p>	<p>一般来说,秋季的采蜜活动会为纽维到访的村子带来200升蜜,这些蜜被平均分给每一个村民。今年只收获了80升。春天的“红蜜”通常更充裕,经常作为药材出口到日本、韩国和中国,但红蜜也在减少。</p>

With his photographs, Mr. Newey captures the intimacy, social experience and mystical nature surrounding this ancient ritual in the hopes of illuminating the larger issues surrounding it. But he is aware of the side effects of attention.	纽维用相机捕捉了这种古老传统的亲切感、社会体验和神秘特质，希望启发与之有关的更大问题的讨论。但他也意识到了这种关注带来的负面效应。
"It's a double-edged sword," said Mr. Newey, who has received praise from others, who often ask him how they can see the spectacle for themselves. "I just hope those same people don't become part of the problem."	"这是一把双刃剑，"纽维说。纽维已经得到了一些人的赞扬，这些人经常问他，怎么才能亲眼看到这种场景。"我只是希望这些人不会成为这种传统的负担。"

An Evolving View of Animals	轻轻地击中你的动物肖像
The portrait has a blunt simplicity. A chimpanzee sits with his back facing the camera. His gently lit body is nearly hairless from alopecia, and only a few strands of gray hair remain on his sandpaper scalp. A spotlight on his head reveals a reddish scar that has yet to fully heal.	这张动物肖像简单得有些突兀。一只背对着镜头的黑猩猩。它的身体暴露在柔和的光线下，由于脱发症，皮肤上的毛发已经掉光，几乎“寸草不生”，只有砂纸般的头皮上还残存着几缕白发。光线打它的头上，一道还没痊愈的泛红伤疤清晰可见。
Tim Flach, a London-based photographer who has been documenting exotic animals for the past two decades, said he deliberately captured the back of the chimp's body to provoke his viewers to question the striking similarities — and differences — between their own bodies and the chimp's.	蒂姆·弗拉克(Tim Flach)是伦敦的一名摄影师，过去 20 年中，他一直在拍摄各种奇奇怪怪的动物。弗拉克说，他故意拍摄猩猩的背部，促使观众去思考自己的身体和猩猩之间惊人的相似处，和不同点。
"You know the image isn't human, but you find yourself wondering about it," Mr. Flach, 55, said. "This is a way of catching one's imagination and introducing certain ideas through the context of a picture."	现年 55 岁的弗拉克说，“你明知道照片中不是人类的形象，但你发现，自己有点恍惚。这是一种释放想象力、在照片的语境下表达某些想法的方式。”
The chimp's scar "slightly punches you," he said.	这只猩猩的伤疤“轻轻地击中了你”，他说。
Most of Mr. Flach's intimate portraits of animals are intended to be a bit	弗拉克在自己拍摄的近距离动物肖像中，刻意让大多数照片在简单之中带有

<p>jarring in their simplicity — concentrating on the subtle details that impart a humanistic feel. He wants his images to engage people in debates about who we are and our relationships to animals, with the belief that “how we treat animals is often dependent on how they display characteristics we think are human.”</p>	<p>令人惊诧之处——它们关注的，是那些触发人类情感的不易察觉的细节。他希望自己拍摄的画面能够激发人们的讨论，讨论我们是谁，以及我们与动物的关系。他坚信，“我们对待动物的方式常常取决于它们所展示出的我们眼中的与人类有关的特质。”</p>
<p>A collection of his work was recently published in the book “Evolution,” highlighting the vast spectrum of living species, including plants, small and large primates and underwater life.</p>	<p>他的作品最近在《进化》(Evolution)一书中结集出版。这些作品中拍摄了众多物种，包括植物、小型和大型灵长类动物，以及水下生物。</p>
<p>Capturing portraits of animals around the world hasn’t always been easy or, for that matter, glamorous, Mr. Flach said, and he has learned through trial and error the different personality traits of his subjects. One of his smallest subjects, a red-eyed tree frog, happened to be one of his most challenging. Suffering from a bit of anxiety, the frog continually jumped around the set and stuck onto Mr. Flach’s camera lens. At one point, the frog closed his eyes and pretended to be dead. “He had us all working,” Mr. Flach recalled.</p>	<p>弗拉克说，在全世界拍摄动物肖像有时并非易事，而且也没那么光鲜亮丽。经过反复尝试，他才了解到拍摄对象的不同习性。他拍摄过的最小动物之一是只红眼树蛙，这也是他最有挑战性的拍摄经历之一。当时，这只树蛙有点焦躁，在布景周围蹦来蹦去，甚至跳到弗拉克的镜头上不愿意下来。这只树蛙一度还闭上眼睛装死。弗拉克回忆说，“他把我们所有人弄得团团转。”</p>
<p>There was also the time Mr. Flach traveled to Bracken Cave in Texas, home of the world’s largest colony of bats. What resulted in one of his most popular photos, one bat gripping the shoulder of another, both staring piercingly at the camera, was also accompanied by an unending stream of bat feces on Mr. Flach and his team while on the set.</p>	<p>还有一次，弗拉克来到了世界上最大的蝙蝠栖息地，德克萨斯州的布兰肯洞穴(Bracken Cave)。他拍摄到了一只蝙蝠抓着另一只蝙蝠的肩膀的照片，两只蝙蝠都用犀利的眼神注视着镜头，这张照片后来成为他最受欢迎的作品之一。不过当时在拍摄现场，蝙蝠粪便在他和他的团队成员头上倾泻而下。</p>
<p>To avoid those moments, Mr. Flach has already done extensive research on each of his subjects long before setting up a shoot. He also prefers to work with animals that can relate to the human condition — including subjects like the dancing featherless chicken, which was part</p>	<p>为了避免这样的状况，弗拉克会在拍摄之前，早早地对拍摄对象进行深入研究。他也更喜欢拍摄能够让人联想到人类生存状况的动物——比如那只没有羽毛的跳舞的鸡，它是以色列的一个大型基因变异研究项目的一部分。</p>

of a larger research project in Israel on genetic mutation.	
"If you go to the supermarket today, we're more used to seeing packaged animals with no feathers and no head," Mr. Flach said. "That's us managing livestock, which is a whole agricultural debate."	"如今如果你去过超市，你会更习惯看到包装着的动物，它们没有羽毛，也没有头，"弗拉克说，"我们就是这样对待家畜的，这是一个关于整个农业的讨论。"
Before becoming a photographer, Mr. Flach studied drawing and painting at the School of Art in London. He was introduced to photography in his late teens and became deeply fascinated by the stories of the subjects he met during his commissioned work. As his career developed, his passion for painting never waned, and he now credits most of the influences of his work to well-known painters like Pablo Picasso — not just photographers.	在成为摄影师之前，弗拉克曾经在伦敦的圣马丁艺术学院学过素描和绘画。快到 20 岁的时候，他才开始接触摄影，在专职摄影期间，他目睹的一个个拍摄对象的故事让他深深着迷。在发展摄影事业的同时，他对绘画的热情从未减退。现在，他认为对其摄影作品影响最大的还包括一些知名画家，比如巴勃罗·毕加索(Pablo Picasso)，而不单单是摄影师。
It is the structure of a painting that fascinates Mr. Flach most about the medium, particularly having to "trip over things that later reveal themselves to you," he said. When studying his subjects, he looks for their most intriguing features, using single light sources while on set to accentuate textures and forms.	让弗拉克对绘画这一媒介最为着迷的，是其构图，尤其是“在茅塞顿开之前不得不犯的错误”，他说。在研究拍摄对象时，他总是寻找最吸引人的特征，在拍摄现场利用单一光源来突出拍摄对象的质地和形式。
But it isn't about showing every detail on the body of his subjects. According to Mr. Flach, sometimes an image is most affective by what isn't in the frame. At a quick glance, the details of a white horse's neck, as his flowing mane caresses his back, look more like a snow-capped mountain.	但摄影不是为了展示拍摄对象的每一个细节。弗拉克说，有时，一张照片正是因为它没有展现的部分才如此动人。当一匹白马飘动的鬃毛轻抚着脖颈时，如果你只是粗略一看，你会觉得它的脖子就像一座雪山。
"You find yourself thinking of a ski holiday," Mr. Flach said. "You can be looking at a horse, but there you are thinking about something else."	"你突然发现自己想起的是滑雪的假期，"弗拉克说。"你看到的可能是一匹马，但你想到的却是其他东西。"

Parting Glance: Anja Niedringhaus	追忆美联社殉职女摄影记者
Anja Niedringhaus, a Pulitzer Prize-winning photographer for The Associated Press, was killed in Eastern Afghanistan this month when an Afghan policeman approached her vehicle at a security checkpoint and opened fire with a Kalashnikov assault rifle. The German native was 48 years old.	本月，曾获普利策奖的美联社(The Associated Press)摄影记者安雅·尼德林豪斯(Anja Niedringhaus)在阿富汗东部一处安全检查站遇害，当时，一名阿富汗警察走向尼德林豪斯的汽车，用卡拉什尼科夫冲锋枪向她开火。来自德国的尼德林豪斯享年48岁。
Kathy Gannon, the A.P. reporter traveling with Ms. Niedringhaus, was shot and injured during the episode in Khost Province, where they had traveled to cover preparations for the country's presidential election on Saturday. Both had spent many years covering the war in Afghanistan and knew the country well.	在这起发生在霍斯特省的事件中，与尼德林豪斯同行的美联社记者凯茜·甘农(Kathy Gannon)也中枪负伤，她们两人去那里是为了采访阿富汗将于周六举行的总统大选的筹备情况。两人在阿富汗从事报道多年，非常了解这个国家。
Lens spoke with friends and colleagues of Ms. Niedringhaus. Below are excerpts from their remembrances, as well as some of her own words.	"镜头"博客(Lens)采访了尼德林豪斯的朋友和同事。以下是他们的部分追忆，以及尼德林豪斯自己的一些话。
Ruth Fremson of The New York Times said it was rare to meet any photographer as experienced, accomplished, professionally generous and as personally good natured as Anja Niedringhaus, with whom she worked in conflict zones back to Bosnia in the mid-1990s. She remembers how Anja reached out with advice even though the two worked for rival photo agencies in Sarajevo in 1995.	《纽约时报》的鲁丝·弗莱姆森(Ruth Fremson)说很少能遇到像安雅·尼德林豪斯那么经验丰富、技术高超、在专业上慷慨大方、个人品质又极佳的摄影记者。上世纪90年代中期，弗莱姆森曾与尼德林豪斯在波斯尼亚的冲突地带共事。她依然记得，1995年在萨拉热窝时，尽管她们两人为互为竞争对手的图片社工作，但尼德林豪斯依然会给她建议。
"When I arrived in Sarajevo it was Anja who took me aside and said, 'Come on, Ruth, let's show you the lay of the land,'" Ms. Fremson said. "She took me around Sarajevo, and told me what I needed to know about it. That was the first time I had met her, she was an amazing news photographer, an amazing sports photographer, and so generous	"我抵达萨拉热窝时，是安雅把我带到一边说，'来吧鲁丝，我们跟你说说这儿的情况'，"弗莱姆森说。"她带我在萨拉热窝四处逛，告诉我应该知道哪些情况。那是我第一次见她，她是一名非常棒的新闻摄影师，非常出色的体育摄影师，而且很大方。"

as well.”	
“Not everyone was open to women working in conflict zones. There was an A.P. photographer back then, one of my very own colleagues, who said to me, ‘Women shouldn’t be covering war.’ He said it with no hesitation.”	“并非所有人都接受女性在冲突地带工作。那时，美联社的一名摄影记者，同时也是我的一名同事毫不犹豫地对我说，‘女性不应该作战事报道’”。
“But her work spoke for itself and she became really well respected among her peers because of it, by men and women. Anja wasn’t a flirt, she was a complete professional, that’s the word that comes to mind when I think about her.... She was one of the most underrated female photographers working out there, she never made it about herself, she never sought the spotlight, but she was respected by her peers.”	“但她的工作证明了自己，她也因此真正受到了同行的尊敬，无论男女。安雅不是个草率的人，她非常专业。这是我想到她时脑子里蹦出来的词.....在那里工作的女摄影记者中，安雅是被低估得最严重的人之一。她从不炫耀自己，从不寻求关注，但她受到了同行的尊敬。”
She was long accustomed to the field, and to the dangers getting to it, and back to it. She wrote an essay, ‘Emotions Speak Through Images,’ for Harvard University’s Nieman Foundation for Journalism, in which she wrote of her compassion for civilians she met in Bosnia, Iraq, Gaza and elsewhere. She said she wanted to ‘understand the situation through their eyes’ during an American raid on a house in Baghdad in 2004. But she was also struck by the youth of the American Marines, ‘just out of school, young boys.’	长期以来，她习惯了那片土地，以及去那里和回到那里的危险。在为哈佛大学(Harvard University)的尼曼新闻基金会(Nieman Foundation for Journalism)写的文章《图片传情》(Emotions Speak Through Images)中，尼德林豪斯写到了自己对波斯尼亚、伊拉克和加沙等地遇到的平民的同情。她说，2004年美国突袭巴格达一栋房屋期间，她想‘透过他们的眼睛了解局势’。但她也被美国海军陆战队(American Marines)中的年轻人打动了，‘刚走出校门的年轻小伙。’
In a passage, she described how after the 2003 invasion of Iraq she slipped across the border from Kuwait into Basra by hiding inside a Kuwaiti fire brigade truck, then joined up with her A.P. colleagues.	在其中一段中，她说起了自己在2003年美国入侵伊拉克后，如何如何藏身于科威特的一辆消防车偷偷越过边境，到达巴士拉，与美联社的同事回合。
“I remember watching a fierce battle around the city’s university. Shells started to land nearby, and most journalists left the scene,” she wrote. “I had just put on my bulletproof vest when another shell landed so close	“我记得我们在巴士拉市那所大学周围观察一场激战。我们附近开始落下炮弹，大部分记者都离开了现场，”她写道，“我刚穿上防弹背心，另一枚炮弹就落下来了，炮弹离我非常近，我的三名同事因此受伤。我受了一些擦伤，

<p>to me that it injured three of my colleagues. I escaped with bruises and was able to drive them to safety in our Jeep, even though it was also hit, and two of its four tires were flat. One of my colleagues, a Lebanese cameraman, had shrapnel close to his heart and was immediately operated on by a British Army doctor in a makeshift tent. We were flown out to Kuwait for further treatment. Three days later I returned to Iraq in a rented Jeep from Kuwait."</p>	<p>逃过一劫，还能开车把他们送到安全的地方，尽管我们那辆吉普车也遭到了炮弹的袭击，四个车轮中爆了两个。其中一个同事是一名黎巴嫩籍的摄影记者。弹片留在了他体内离心脏不远的地方，英国陆军的一名医生立即在临时帐篷里为他进行了手术。我们被飞机送到了科威特，接受进一步的治疗。三天后，我从科威特租了一辆吉普车，返回伊拉克。”</p>
<p>Stephen Farrell, a Times reporter, was struck by her speed of thought and resourcefulness during a May 2004 visit to Abu Ghraib prison, when he was working for The Times of London.</p>	<p>《纽约时报》记者斯蒂芬·法雷尔(Stephen Farrell)曾在2004年5月与尼德林豪斯一同前往阿布·加里卜监狱(Abu Ghraib)。期间，尼德林豪斯的思考速度和足智多谋令当时尚就职于伦敦《泰晤士报》(The Times)的法雷尔震惊。</p>
<p>"After the American military finally allowed journalists to visit the prison following the torture and humiliation scandal, it descended into a public relations embarrassment only minutes after the buses entered the prison gates, as scores of Iraqi prisoners gathered at a wire fence across the courtyard just in front of the American, European, Iraqi and journalists. They were shouting their complaints and grievances through loud hailers, desperate to talk to us. Some were waving crutches, and at least one was waving an artificial leg at us in the air."</p>	<p>"在严刑拷打和侮辱囚犯的丑闻爆出后，美军终于允许记者探访那所监狱。在汽车开进监狱大门仅几分钟后，这次探访就变成了一场公关丑剧，几十名伊拉克囚犯聚集在铁丝网前，铁丝网就在来自美国、欧洲和伊拉克的记者面前那个院子的对面。他们在大声的欢呼中高喊着抱怨和不满，迫切地想和我们说话。一些人挥舞着拐杖，并且至少有一个人在空中向我们挥舞着一条假腿。"</p>
<p>"The American military tried to move the journalists away to speak to American prison commanders and doctors, but Anja, who was standing next to me, reacted on instinct, firing off photographs. <p>New York Times Wins Two Photography Pulitzers</p>	<p>《纽约时报》包揽普利策新闻摄影奖项</p>
<p>The New York Times has swept the 2014 Pulitzer Prizes for photography. The staff photographer Tyler Hicks won the 2014 Pulitzer Prize in breaking news photography for his coverage of a terrorist attack at an upscale mall in Nairobi, Kenya, that left more than 60 people dead. Josh Haner was awarded the Pulitzer in feature photography for his images of the slow and painful recovery process for a survivor of the Boston Marathon bombing.</p>	<p>《纽约时报》包揽了 2014 年度普利策奖的新闻摄影类奖项。专职摄影师泰勒·希克斯(Tyler Hicks)因报道发生在肯尼亚内罗毕一家高档商场的恐怖袭击事件荣获 2014 年普利策突发新闻图片奖，那次事件导致了 60 余人丧生。乔希·哈纳(Josh Haner)则夺得了专题摄影奖，他拍摄了波士顿马拉松(Boston Marathon)爆炸案的一名幸存者缓慢而痛苦的康复进程。</p>
<p>The announcement was made on Monday by Columbia University, which bestows the awards.</p>	<p>上述奖项由哥伦比亚大学(Columbia University)颁发，本次的获奖结果是哥伦比亚大学于周一公布的。</p>
<p>"For me it's a symbol of what we do at the newspaper as a whole — the best of foreign reporting and the best of our enterprise," said Michele McNally, the paper's assistant managing editor for photography. "It is recognition that our photojournalism is on par with the quality of The New York Times's reporting, which is the best in the world."</p>	<p>《纽约时报》负责新闻图片的助理主编米歇尔·麦克纳利(Michele McNally)说，“对我来说，它体现了新闻摄影在整个报社的价值——反映了最棒的海外报道，也反映了我们最竭诚的努力。这个奖项认可了我们新闻摄影的水平与《纽约时报》报道的总体水平是一致的，而时报的报道是全世界最好的。”</p>
<p>This is the second time that the Times has won both Pulitzer photography prizes in the same year. In 2002 The Times won in breaking news for a portfolio of work by 15 photographers who covered the events of Sept. 11, 2001, and the feature award for five photographers' work in Pakistan and Afghanistan after those attacks.</p>	<p>这是《纽约时报》第二次把普利策奖同一年的两个摄影奖项全都收入囊中。2002 年，《纽约时报》凭借 15 名摄影师对 2001 年 9·11 事件的一组摄影报道赢得了突发新闻图片奖，同年的专题摄影奖颁给了《纽约时报》的五名摄影师，他们因 9·11 袭击后，在巴基斯坦和阿富汗拍摄的作品而获奖。</p>
<p>Mr. Hicks was part of a Times team that won the 2009 Pulitzer for international reporting from Afghanistan and Pakistan. He has won numerous international awards, including Newspaper Photographer of the Year from Pictures of the Year International in 2006.</p>	<p>《纽约时报》还在 2009 年因为对阿富汗和巴基斯坦的报道赢得了普利策国际新闻报道奖，希克斯是获奖团队中的一员。他曾荣膺无数国际奖项，包括 2006 年全球年度图片奖(Pictures of the Year International)年度最佳报纸摄影记者奖。</p>
<p>Mr. Hicks said, "It's a huge honor to be recognized in this way, and it's a</p>	<p>希克斯说，“以这种方式得到肯定让我不胜荣幸。它也提醒我，不管发生在</p>

<p>reminder to me that these stories, however far away and however remote, are being noticed and that the risks that photographers all over the world take in going to dangerous places are being acknowledged and rewarded.”</p>	<p>多遥远和多偏僻的地方，这些事件都会获得关注。此外，全球各地的摄影师在奔赴危险地域时所承担的风险，也得到了大家的承认和回馈。”</p>
<p>Mr. Hicks was born in Brazil and raised in Westport, Conn. He worked at The Troy Daily News in Ohio, where he was hired by Chris Hondros, who died in April 2011 while photographing in Libya. Mr. Hicks, 44, also worked at The Wilmington Morning Star in North Carolina.</p>	<p>希克斯出生在巴西，在康涅狄格州韦斯特波特长大。他曾受雇于克里斯·洪德罗斯(Chris Hondros)，为俄亥俄州报纸《特洛伊每日新闻》(The Troy Daily News)工作。2011年4月，洪德罗斯在利比亚做摄影报道时身亡。现年44岁的希克斯还曾在北卡罗莱纳州的《威尔明顿晨星报》(The Wilmington Morning Star)供职。</p>
<p>He lives in Nairobi and was just blocks from the mall when the attack started. As it unfolded, he went inside with security forces as they searched for the attackers. In an interview with Lens later that day Mr. Hicks — who has covered the Afghanistan and Iraq wars and was among four Times journalists abducted and brutalized in Libya in 2011 — described the scene.</p>	<p>希克斯住在内罗毕，商场袭击案发生时，他距离案发地点只有几个街区之遥。随着袭击事件的发展，他和搜索袭击者的安全部队一道进入了商场内。在当日晚些时候接受“镜头”(Lens)博客的采访时，希克斯描述了当时的场景。希克斯曾报道过阿富汗和伊拉克战争，他是2011年在利比亚被绑架并受到残酷虐待的四名《纽约时报》记者之一。</p>
<p>“I could see that there were multiple bodies lying dead in the mall, some lying together just next to where they were having lunch at a cafe,” he said. “It seemed everywhere you turned there was another body.”</p>	<p>他说，“当时我的视野很清楚，可以看到商场里倒着多具尸体，有些倒在一起，是在咖啡店里吃午餐的时候被击中的。不论你看向哪里，尸体似乎无所不在。”</p>
<p>He said that an attack like the one in Nairobi was at least as dangerous, if not more so, than covering the Afghan war and that inside the mall he had to think about where he was standing, what to cover and the type of obstacles to place between him and the gunmen.</p>	<p>他说，拍摄内罗毕商场发生的袭击事件，危险程度达到甚至超过了阿富汗战争。在商场里，他必须思考自己站在何处，要拍摄什么内容，要在自己和枪手之间设置哪类障碍物。</p>
<p>“This is just plain and simple murder of unarmed civilians,” said Mr. Hicks, who has covered many violent conflicts in his career, including</p>	<p>“此次袭击就是对手无寸铁的平民赤裸裸的谋杀。”希克斯说，他曾在职业生涯中拍摄过许多暴力场景，包括发生在科索沃、伊拉克、阿富汗、索马里和</p>

<p>Mr. Hicks passes the mall, now bullet ridden and boarded up, almost every day. Each time, he says, it brings back memories of the attack. Events like this attract global attention for a short while and then are often forgotten by most people, he said.</p>	<p>希克斯几乎每天都会经过那座商场，现在那里布满了弹孔，装上了板子遮盖。他说，每一次，那里都会让他回想起当时袭击的场景。他说，此类事件会在短期内吸引全球的关注，而后往往会被大多数人遗忘。</p>
<p>He chooses to remember as much as he can.</p>	<p>他选择要尽可能多地铭记。</p>
<p>"I don't believe that it's better to forget, after you volunteer to go and cover conflict or enter the Westgate Mall during a terrorist attack — you're committing to that experience," he said. "I think it would be disrespectful to the people you've photographed suffering in terrible circumstances to tuck those memories away and ignore them. You owe it to each person to not forget what happened. Once you have witnessed these events then they are part of you, they are a part of who you are."</p>	<p>“在你自愿前去报道一场冲突，或者在恐怖袭击发生时进入韦斯特盖特商场(Westgate Mall)之后，你会对当时经历念念不忘，我不认为应该忘记，”他说。“我想，把那段记忆隐藏起来，忽略那些你曾拍摄过的、在恐怖环境下遭受不幸的人们，是对他们的一种不尊重。你不能忘记发生的那些事，否则对他们所有人都是—种亏欠。一旦你目击了这样的事件，它就会融入你的记忆，成为你生命的一部分。”</p>
<p>Mr. Haner, 34, won the feature Pulitzer for his photographs of Jeff Bauman, who lost both legs in the Boston Marathon bombing. Mr. Haner followed Mr. Bauman, 28, over the course of two and a half months, documenting his struggles and private moments with his family and girlfriend.</p>	<p>今年 34 岁的哈纳凭借对杰夫·鲍曼(Jeff Bauman)的图片报道赢得了普利策专题摄影奖。鲍曼在波士顿马拉松爆炸案中失去了双腿。哈纳在长达两个半月的跟拍过程里，追踪着 28 岁的鲍曼的生活，记录下了他备受煎熬的状态，以及他和家人及女友在一起的时刻。</p>

images from that day.	
Mr. Haner arrived in Boston that evening to cover the aftermath, and over the next few days he worked with, among others, the reporter Tim Rohan, who had recently finished an internship at The Times.	哈纳当天傍晚到达波士顿报道爆炸后续，在接下来的几天里，他和记者蒂姆·罗汉(Tim Rohan)等人一起合作。罗汉最近刚刚结束了在《纽约时报》的实习。
Mr. Rohan, 24, connected with the Bauman family and wrote "Beyond the Finish Line," which detailed Mr. Bauman's recovery. Together the journalists spent a lot of time with Mr. Bauman, at times playing video games with him when he was without other visitors.	今年 24 岁的罗汉认识鲍曼一家，在他撰写的《终点线之后》(Beyond the Finish Line)一文中，详细记录了鲍曼的恢复过程。这两名记者与鲍曼一起度过了许多时间，有时候在没有其他访客的时候会和他一起打电子游戏。
In an interview with the Nieman Storyboard site last year, Mr. Rohan described what happened when Mr. Haner started photographing the story.	罗汉去年接受了“尼曼故事板”(Nieman Storyboard)网站的采访，他在接受采访时描述了哈纳开始用图片记录这个故事时发生的事情。
"After the first week and a half our photographer, Josh Haner, joined in, and he fit like a glove," Mr. Rohan said. "Everyone loves Josh, so when he came in he made the atmosphere lighthearted. It was a good mix of people. That really was important, to keep Jeff at ease."	"最初的一周半过后，我们的摄影师乔希·哈纳加入，他立刻融入了这个集体，"罗汉说。"每个人都喜欢乔希，所以他来了以后气氛也变得轻松。这些人聚在一起恰到好处，让杰夫感到自在，这一点真的很重要。"
Witnessing Mr. Baumann's painful recovery was difficult for Mr. Haner.	对哈纳来说，目睹鲍曼痛苦的康复历程不是一件容易的事。
"The most important thing I learned was when to not take a picture — knowing that there were certain moments to be respected and just let the moment stand on its own without the interruption of a click," he said. "It's knowing when a picture is exploitative and when it's necessary for the story."	"我学到最重要的一件事就是，什么时候应该停下来——明白对一些特定的时刻要存有敬意，让这样的时刻不受快门声音的打扰而独立地存在，"他说。"就是知道什么时候拍照是在消费痛苦，什么时候对故事是必要的。"
Mr. Haner also shot video daily, often carrying four DSLR's — two equipped specifically for video and the other two for stills. A video produced by Mr. Haner, Catherine Spangler and Mr. Rohan won a first-place award in the Best of Photojournalism contest and a second	哈纳常常带着四台单反相机，两台专门用来拍摄视频，两台拍静态图片。他每天也会拍摄一些视频。由哈纳、凯瑟琳·斯潘格勒(Catherine Spangler)和罗汉制作的视频获得了最佳新闻摄影奖(Best of Photojournalism)的一等奖和全球年度图片奖多媒体特写故事的二等奖。

place in Picture of the Year International for feature multimedia story.	
Like Mr. Hicks, Mr. Haner also spoke about the length of the public's memories.	和希克斯一样，哈纳也提到了大众记忆时间长短的问题。
"My concern is that people forget tragedies like this," he said. "It's important to bring attention to what survivors are going through and how their lives change, and help them."	"我的担心是，人们会忘记像这样的悲剧事件，"他说。"让人们注意到幸存者正在经历的一切，以及他们的生活发生了怎样的改变，从而帮助他们，这十分重要。"
Ms. McNally brought Mr. Haner to The Times in 2004 after he had worked for her at Fortune magazine for a year. He was a co-founder of the Lens blog in 2009. He is currently a staff photographer and the senior editor for photo technology.	哈纳之前曾在《财富》(Fortune)为麦克纳利效力一年，2004年麦克纳利带他一起加入了《纽约时报》。哈纳在2009年共同创立了"镜头"博客。他目前为《纽约时报》专职摄影师，也是摄影技术方面的资深编辑。
Among his many contributions to the use and display of photos at The Times is developing a backpack-size transmission device that allows images from major events to be sent instantaneously and posted online within minutes. He has carefully guarded his technological advances from competitors.	在《纽约时报》，哈纳在图片的使用和展示方面做出了许多贡献，包括开发出一部背包大小的传输设备，可以在重大事件发生时即时传输图片，并在几分钟内传上网。他一直小心地保护了这项技术优势不被竞争对手超越。
Mr. Haner started photographing when he was 10 and immersed himself in photography at the free Harvey Milk Community Darkroom in San Francisco while in elementary school. In 1995, at the age of 15, he started interning with the company that made the "Day in The Life" series of photo books, where he met Ms. McNally as well as the Times deputy photo editor Meaghan Loram.	哈纳10岁时开始拍照，在旧金山读小学时，就曾在哈维·米尔克社区暗房(Harvey Milk Community Darkroom)里花去了大量时间研究摄影。1995年15岁时，他开始在制作了《生命中的一天》(Day in The Life)系列图册的公司实习，在那里他遇到了麦克纳利，以及《纽约时报》图片部副主编米根·卢拉姆(Meaghan Loram)。
At Stanford University he studied symbolic systems, which combines computer science, philosophy, psychology and linguistics, and was also the photo editor for the school newspaper. After graduation, he moved into a trailer park for five months for a documentary photo project, then	在斯坦福大学(Stanford University)，他学习符号系统。这一学科融合了计算机科学、哲学、心理学和语言学，也是校报的图片部主编。毕业后，他为了拍摄一部图片纪实项目，搬进一个拖车公园，住了五个月，然后他去了《财富》杂志和麦克纳利共事。

went to work with Ms. McNally at Fortune.	
Mr. Haner submitted the project for the feature photography Pulitzer. He said that he understood that deciding what to submit was a difficult decision for The Times, particularly with so much good work done at the paper this year. At first he was not thinking of entering himself, but friends pushed him to do so.	哈纳拿这一项目申请了普利策的专题摄影奖。他说，他知道对《纽约时报》来说，提交哪些作品来评奖是一个艰难的抉择，特别是这一年涌现了如此多的优秀作品。一开始，他没有考虑要评奖，但朋友们纷纷鼓励他参加。
Today, standing before his colleagues in the newsroom, he reached a spot he had dreamed of as a child in the Bay area.	今天，站在编辑部各位同事面前，他终于实现了他在湾区时的童年梦想。
"It's what I wanted my whole life since I picked up the camera and was reading all the credits in the San Francisco Chronicle and was trying to figure out who all these photographers were and hoping one day to be among them," he said.	"自从我拿起照相机，就会细读《旧金山纪事报》(San Francisco Chronicle)上的署名，努力琢磨所有这些摄影师是怎样的人，希望有一天自己也能成为其中之一，这是我自那时起就希望此生能够实现梦想，"他说。
Today, he was.	今天，他已是他们中的一员。

From Ordinary Life, Extraordinary Images	少年与双反相机，和那个单纯又孤独的世界
Chang Chao-Tang was a high school student in 1959 when he borrowed his older brother's Aires Automat 120 twin-lens reflex camera without much thought. He liked going for long walks with the camera after school; it eased the burden of his homework. Eventually, he found himself taking photos with the camera every day, photos of common people and places in Taiwan, like youngsters poking out of street corners or at beaches, farm animals, and dolls.	1959年，还是中学生的张照堂从自己的哥哥那里借到相机时，并没有多想。那是一部 Aires 自动式 120 型双镜头反光镜取景照相机。他喜欢在放学后带着相机远行，这样能舒缓繁重的课业负担。最终，他发现自己每天都在用这部相机拍照，照片里是普通的台湾百姓和普通的场所，比如出现在街角或沙滩上的年轻人、田里的动物，还有公仔。
"Those images are so pure and innocent," he said. "You can't go back to	他说，"这些影像如此纯洁、如此无邪。你没办法再重拾那种感觉。"

<p>that kind of feeling.”</p>	
<p>Mr. Chang hardly suspected that he would grow up to become one of Taiwan’s most important photographers — in fact, he had such little regard for this kind of future that he did not even bother to save his negatives. Yet half a century later, these images have been in major exhibitions, including one that opens this week at the Gallery Tosei in Japan. Called “Images of Youth (1959-1961): The Photographs of Chang Chao-Tang,” the exhibition opened April 4 and runs through April 26.</p>	<p>张照堂几乎从没思忖过，自己会成为台湾最重要的摄影师之一。实际上，他对这样的未来极不在意，以至于他都懒得保存底片。然而，半个世纪后，这些影像出现在大型展览中，包括本周在日本冬青社(Gallery Tosei)举办的展览。此次展览题为“少年心影(1959-1961): 张照堂影像展”，于4月4日开幕，持续到4月26日。</p>
<p>“Of course, I did not think when I was 16 about whom I would become in the future,” Mr. Chang said. “Did you?”</p>	<p>张照堂说，“当然，我在16岁时没有想过自己以后会变成什么样子。你想过吗？”</p>
<p>As a young man, he could not afford to make prints, only to develop the film and make one contact sheet at the local photo shop. All that survives from that time are those contact sheets, with each image measuring a mere 5x6 centimeters. In 2010, he blew these tiny images up to 16x20 for his retrospective in Taipei. Now, for this show, encouraged by the gallery, he created negatives from his contact sheets and printed them in the darkroom. Using a twin lens reflex — where he had to look down into the viewfinder — Mr. Chang took his photos from the waist up, a perspective that reinforced his childlike curiosity. “Sulin, Taiwan. 1960” shows a bull whose nose and face are sharply in focus looming over us while a blurry man with a slightly tilted hat walks behind it, holding onto a plow. The bull looks powerful, and we almost feel we are standing there with the photographer, with all of our heads reaching only to the top of the beast’s legs.</p>	<p>当时年少的张照堂没有钱印出自己的作品，只能把底片洗出来，在当地照相馆制作一份相版。他在那个时代保留下来的所有照片都是相版格式，每幅照片的尺寸只有5x6厘米。2010年，为了在台北举办回顾展，他把这些小尺寸的照片放大到了16x20厘米。现在，在画廊的鼓励下，为了此次展览，他用相版翻制了底片，在暗室里冲洗出相片。使用双反相机时，他必须低头凝视取景器。他的照片总是从腰部的高度向上仰拍，这种视角强化了孩子式的好奇感。作品《树林 1960》呈现了一头森然向我们逼近的公牛，聚焦点对准的是公牛的鼻子和脸，一个面目模糊的男子带着一顶微微倾斜的帽子，跟在公牛后面握着犁。公牛看上去强壮有力，我们几乎能感觉到自己身临其境地待在摄影师身边，而我们的头只能到牛的腿根。</p>
<p>“If you kneel down, the camera is down to ground,” Mr. Chang said.</p>	<p>张照唐说，“如果你跪下来，相机就会落到地面上。这样就会让拍摄对象显</p>

<p>"That makes your subject seem more big and powerful, so you have to notice this."</p>	<p>得更大、更有力，所以你会注意到这一点。”</p>
<p>But there is also a sense of isolation in his photographs.</p>	<p>不过，他的照片里也有一种孤独感。</p>
<p>"I took photographs because I felt lonely and empty at the time," Mr. Chang said. "Taking pictures brought comfort and strength to me; just like someone would use a pen or musical instrument to share his passion, I could use a camera to explore myself."</p>	<p>张照堂说，“我拍照，是因为那个时候我感到孤独和空虚。摄影让我自在，给我力量；就像有人用笔或乐器分享他的情绪，我会用相机探索自我。”</p>
<p>Many of his childhood images are sheltered. It wasn't until his university years that he started to get a glimpse of photography and other arts outside of Taiwan (which he learned about mainly through Life or Time magazine at his school library).</p>	<p>他童年时代拍的许多照片都囿于一隅。直到大学时代，他才开始窥视到台湾以外的摄影作品和其他艺术作品（主要是通过学校图书馆里的《生活》(Life)或《时代》(Time)杂志）。</p>
<p>Taiwanese life was cut off from the rest of the world. Mr. Chang's first images were taken just one decade into what is commonly known as the White Terror period, or the 38 years of martial law (1949-1987) in Taiwan imposed by the Chinese Kuomintang. This period of martial law followed the 228 Massacre, an antigovernment uprising that was ended by the Kuomintang-led Republic of China. Between 10,000 and 30,000 Taiwanese civilians were killed.</p>	<p>台湾人的生活当时隔绝在世界之外。张照堂拍摄最早的作品时，台湾进入被称为“白色恐怖”的戒严时期已有十年。中国国民党对台湾实施了长达38年的戒严（1949年至1987年），在戒严之前，台湾发生了“228大屠杀”，那场反政府运动，最终被国民党执政的中华民国所镇压，事件中有1万到3万名台湾平民遇难。</p>
<p>Photojournalism and documentary photography, among other arts, were discouraged during this period. Many artists and intellectuals were persecuted for fear they would resist Kuomintang rule, and some 140,000 Taiwanese were imprisoned.</p>	<p>在那段时期，新闻摄影和纪实摄影，以及其他艺术形式都受到压抑。许多艺术家和知识分子受到当局的迫害，原因是国民党害怕他们会反抗自己的统治，有大约14万台湾人曾监禁。</p>
<p>But, looking at Mr. Chang's photographs, you would not know any of this was going on. Mr. Chang says he did not even know about White Terror until college. He was not using photography as a tool to</p>	<p>然而，看着张照堂的照片，你不会意识到当时发生的这种现实。张照堂说，上大学之前，他甚至对“白色恐怖”一无所知。他并没有以摄影为工具，记录“白色恐怖”。</p>

document White Terror.	
It makes sense then that Mr. Chang refuses to identify himself as a documentary photographer, even though he has a high regard for the genre, particularly photographers like Robert Frank.	所以，张照堂拒绝承认自己是纪实摄影师的做法情有可原。不过，他相当敬重拍摄此类题材的摄影师，尤其是罗伯特·弗兰克(Robert Frank)等摄影师。
"I would rather be a photo essayist because it gives you more space to develop your own idiosyncratic vision," he said in a 2012 video about his "Introspectives" exhibition at the Taiwan Academy in New York. Also, if documentary photography is defined by the photographer's intention, then Mr. Chang's early work was not in that tradition of using photography to express a need for reform. There is room for allegory and the photographer's interpretation.	在介绍纽约台湾书院(Taiwan Academy)于 2012 年举办的张照堂摄影展“潜越-台湾意象(1960 – 2005)”的视频中，他说道，“我宁可做一名散文摄影师，因为这能给我更多的空间，发展自己独特的眼光。”而且，如果说纪实摄影的定义取决于摄影师的意图，那么张照堂早期的作品并没有遵循传统，使用摄影来表达革新的需求。他的作品给隐喻和摄影师的诠释留下了余地。
"My images are of real people and places, but they are not about superficial emotions nor are they just a result of being a witness to events," he wrote in his 2012 essay that introduced "Introspectives."	他在 2012 介绍“潜越-台湾意象”展的一篇散文中写道，“我的影像拍的是真实的人和真实的场景，不过它们和表面情绪无关，也不仅仅是对事件的见证。”
"A transformation takes place, in which the images become encoded with metaphors, and with my thoughts," he wrote. "What grasps me is not a view but a memory, an atmosphere or state that sparks an unexpected thought, a subtle emotion, or a whirl of energy."	他写道，“某种变迁发生了，变迁中的影像成为带有隐喻的编码，把我的思想纳入其中。吸引我的不是图像，而是记忆，氛围或状态，它能激发起出人意料的思想、微妙的情绪，或者一股澎湃的能量。”
Additionally, Mr. Chang often staged scenes, as with the first of this kind in his "Images of Youth." Called "Panchiao, Taiwan. 1961," it is one of Mr. Chang's favorites and shows a baby doll — naked except for its shoes — peering over a horizontal bar at a playground. The bar crosses the photograph a perfect one-third of the way down. The doll, which is on the far right side of the frame, faces away from us. We only see its backside. The doll and the bar are in focus, and trees and a gray sky are	不仅如此，张照堂还经常自己布景摆拍，他在“少年心影”中首次展出的此类作品就是这样拍摄的。题为《板桥 1961》的作品是张照堂最钟爱的作品之一，照片显示了一个浑身赤裸，只穿了一双鞋的婴儿公仔在操场上的单杠上盯着远处看的情景。单杠恰好从距底部三分之二的部位精准地横穿过画面。公仔位于画面的右端，面部朝里，我们只能看到他的背部。焦点对准了公仔和单杠，树丛和灰色的天空远离公仔和焦点。就好像我们在和公仔一起看着树丛。

When asked about these staged photographs, Mr. Chang said that while he no longer created them, at the time he used them to express his emptiness, loss and anger.	当被问到这些摆拍的作品时，张照堂表示，尽管他不再做这种拍摄了，但当时他用这些来表达自己的空虚、失落与愤怒。

Yoga Poses in Israel	在以色列，瑜伽是“革命性的”
In 1997, Rachel Kolberg was newly married, pregnant and living in Tel Aviv when she went to her first yoga class. It was a revelation. Her husband, Avraham, soon began practicing with her. "I was looking for some spiritual support," he says. "Yoga gave that to me." Seven years later, the couple opened their own studio, determined to introduce yoga to fellow Orthodox Jews in Beit Shemesh. They teach Iyengar yoga, a discipline that encourages the use of props to assist with poses.	1997年，蕾切尔·科尔伯格(Rachel Kolberg)刚结婚，她怀孕了，住在特拉维夫，她去上了第一节瑜伽课。她获得了启示。丈夫亚伯拉罕(Avraham)很快开始和她一起练习。“当时我在寻找某种精神支持，”他说，“瑜伽让我获得了这种支持。”七年后，这对夫妻开了自己的瑜伽馆，决心把瑜伽介绍给贝特谢梅什的正统犹太人。他们教的是辅助瑜伽，这个瑜伽分支鼓励练习者使用小道具来帮助做到某些姿势。亚伯拉罕说，虽然瑜伽在以色列越来越流行，但是在他们的社区，它是“革命性的”。他们是男女分开授课，鼓励学生们随

Everyday People in Everyday Asia	拒绝猎奇的“亚洲家常”摄影
It was June 2013 when Ian Thomas Jansen-Lonnquist, inspired by the work of the Everyday Africa project, registered the Instagram account @everydayasia. As a Delhi-based freelance photographer, he saw a chance to carve out a space similar to the @everydayafrica feed, which showcases mobile photography that captures familiar moments, even mundane ones, to counter a media narrative too often shaped by images of extreme famine and poverty.	2013年6月，在“家常非洲”(Everyday Africa)项目的启发之下，伊恩·托马斯·詹森-隆奎斯特(Ian Thomas Jansen-Lonnquist)在Instagram上注册了账户@everydayasia。作为一名驻德里的自由摄影师，他看到了一个机会，可以开创一个类似于@everydayafrica内容的空间，以此对抗媒体的叙述。媒体叙述总是充斥着大饥荒和极度贫困的影像，@everydayafrica展示的则都是移动设备拍摄的照片，照片捕捉的是常见乃至平淡的时刻。
The first photo Mr. Jansen-Lonnquist posted showed a man, weathered by India’s sun, holding an umbrella that didn’t quite shade him. He was standing on a busy street and seemed to be reaching out to a woman in a magenta tank top and long yellow scarf, a polka-dot bag slung over her shoulder.	詹森-隆奎斯特发布的第一张照片的主角是一名久经印度骄阳暴晒的男子，此人撑着一把没法完全遮住自己的伞，站在一条繁忙的街道旁，似乎正把手伸向一名女子，女子身着洋红色背心，围着黄色的长围巾，肩上挎着一个圆点花纹的包。
“A couple waits for a shared auto rickshaw in Imphal, Manipur, India.	这幅照片的说明是：“在印度曼尼普尔邦的英帕尔，两个人正在等着共乘一

<p>#everydayasia....," the caption read. Amid the heat, the crowd and the traffic, Mr. Jansen-Lonnquist had spied a tender moment. Maybe the man was reaching for an embrace. Maybe he was attempting to pull his companion to safety. Maybe he was just gesturing. Regardless, the scene is instantly familiar: the futile umbrella, the misery of crowded places, that feigned patience while unable to hail a cab.</p>	<p>辆机动三轮车....."在热浪、人群和车流之间，詹森-隆奎斯特发现了一个温柔的时刻。这名男子伸出手去，或是想拥抱，或许只是在打手势。不管怎样，这个场景让人立刻产生了亲切感：不管用的伞、拥挤场所的苦恼、坐不起出租车的无奈耐心。</p>
<p>It got him thinking about the Everyday Africa feed. "It was just a moment where I thought, 'Why hasn't this been replicated?' " he said.</p>	<p>这让他思考起了家常非洲里的图片。“就在那时，我想，‘为什么没人仿效它呢？’”他说。</p>
<p>Mr. Jansen-Lonnquist, whose work appears predominantly in Al Jazeera and The Wall Street Journal, said Instagram provided the platform through which such a moment could find an audience.</p>	<p>詹森-隆奎斯特的作品经常在半岛电视台(Al Jazeera)和《华尔街日报》亮相。他说，Instagram 提供了一个平台，这样的瞬间可以通过这个平台找到观众。</p>
<p>"Instagram is amazing because people get to choose what they want to take in, and people don't always want the blood and the gore, the heart-wrenching moments," he said. "Sometimes they want small instances of love and joy and finality."For nine months, that photo remained @everydayasia's solitary offering. Unsure of how to proceed, Mr. Jansen-Lonnquist continued freelancing and working on projects, until one day he received an email from Peter DiCampo, a co-founder of the very same Instagram feed that first inspired his project.</p>	<p>"Instagram 很棒，因为人们可以挑选自己想看的东西，人们并不总想看鲜血和伤痕，看那些揪心的瞬间，”他说，“有时，他们想看的是关于爱、欢乐和结局的小例子。”在长达九个月的时间里，那张照片一直是@everydayasia 发布的唯一帖子。詹森-隆奎斯特当时不知道该如何继续，于是继续做他的自由职业，从事不同的项目。直到有一天，他收到了彼得·迪坎波(Peter DiCampo)发来的一封电子邮件。迪坎波是一个 Instagram 账户的联合创始人，正是那个 Instagram 账户启发了詹森-隆奎斯特的项目。</p>
<p>"Straight off, he was like: 'We should talk about this. What were you thinking about trying?' " Mr. Jansen-Lonnquist recalled.</p>	<p>詹森-隆奎斯特回忆道，“他直截了当，大概是这么说的：‘我们应该谈谈这件事情。你想尝试的是什么？’”</p>
<p>Connecting via Skype, the two established the critical framework to get the feed off the ground. They set up submission guidelines and aesthetic aims and discussed where those aims should resemble the goals of Everyday Africa, and where they should diverge.</p>	<p>他们二人通过 Skype 建立了启动项目的关键框架。他们设定了投稿指南和美学目标，并且就这些目标与“家常非洲”目标的异同安排进行了讨论。</p>

<p>Whereas Everyday Africa’s street-style aesthetic is informed by counteracting perceptions created by extreme media images, it was decided in the end that Everyday Asia should challenge viewers’ expectations differently.</p>	<p>“家常非洲”的街头审美风格来源于对极端媒体影像所创造的观念的抵制，而他们最后决定，“家常亚洲”应该以不同的方式来挑战观看者的预期。</p>
<p>“There are many different narratives that come out of Asia, but I’d say two of the big ones are stories of economic gain – people becoming rich, or people getting evicted because of new wealth – or this exoticism, where people say, ‘Oh, look at this really strange and colorful festival they have,’ ” Mr. Jansen-Lonnquist said. Everyday Asia now has 12 regular contributors, a group that Mr. Jansen-Lonnquist has deliberately kept small so that everyone’s work can be included. In choosing his contributors, he gravitated toward thoughtful local photographers whose feeds on Instagram showed they “weren’t looking for the most obvious shot.”</p>	<p>“亚洲涌现了许多不同的故事，但是我想说，其中最大的两个就是关于经济收益的故事——人们越来越富裕，或者因为新的财富而遭到排斥——或者是这种异国情调，看到的人们会说，‘啊，瞧他们这个多姿多彩的奇特节日，’”詹森-隆奎斯特说。“家常亚洲”目前拥有 12 名常规供稿人。詹森-隆奎斯特故意让这个团队保持小的规模，好让每个人的作品都能得到采用。挑选供稿人的时候，他倾向于选择有思想的当地摄影师，这些摄影师给 Instagram 提供的稿件表明，他们“关注的并不是最明显的场景”。</p>
<p>The Everyday approach has continued to mobilize since its inception in 2012. Mr. Jansen-Lonnquist delights in the movement, which now includes Everyday Eastern Europe and Everyday Middle East, and said he hoped it might promote curiosity.</p>	<p>自 2012 年问世以来，“家常”的策略一直在传播。詹森-隆奎斯特对这股风潮感到高兴，还说他希望这种模式能助长人们的好奇心。目前，与这股风潮相关的项目还包括“日常东欧”(Everyday Eastern Europe)和“家常中东”(Everyday Middle East)。</p>
<p>“Even on well-worn paths, we miss things. We overlook,” he said. “I think it’s important to revisit what we assume we know about. In Everyday Asia we can admit that we don’t know everything about Asia and are working through this process of discovery as well.”</p>	<p>“即便是在经常行走的道路上，我们也会错过一些东西。我们总是会忽视一些东西。”他说，“我认为，我们应该重新探索自认为熟知的地方，这一点很重要。就‘家常亚洲’而言，我们承认自己并不了解亚洲的所有方面，如今正在通过这个过程来进行探索。”</p>

<p>President Dwight D. Eisenhower, who was handy with a camera, liked to turn the tables on the press pack, shooting the shooters as they shot him. In 1955, the White House News Photographers Association even honored him at its annual black-tie dinner, presenting him with an "Executive Class" trophy for his image of them in action, weapons loaded and pointed. It is an image of hunters in their natural habitat, pursuing their prey. His acceptance speech, if he made one, went unrecorded in The Times.</p>	<p>擅长把玩相机的德怀特·D·艾森豪威尔总统(Dwight D. Eisenhower)喜欢与媒体调换角色，在摄影师给他拍照的同时，也把镜头对准他们。1955年，白宫新闻摄影师协会(White House News Photographers Association)甚至还在其年度正式晚宴中对他进行了嘉奖。因为艾森豪威尔给摄影师们拍的摆好机器、瞄准目标的工作照片，协会给他颁发了“行政类别”奖。照片中的摄影师们就像身处其天然领地、正在追捕猎物的猎人。《纽约时报》没有关于艾森豪威尔获奖感言的记录——假如他发表过感言的话。</p>
<p>The association's dinner this year falls on May 10.</p>	<p>协会今年的晚宴于5月10日举行。</p>
<p>President Eisenhower earned the right to want to get even with the press photographers. In an interview for the Library of Congress, the New York Times presidential photographer George Tames, who also won an honor that night, recalled a trick the press corps learned to play on Ike to get him to make faces.</p>	<p>艾森豪威尔有理由产生报复那些媒体摄影师的想法。在为国会图书馆(Library of Congress)所做的采访中，《纽约时报》的总统摄影师乔治·塔梅斯(George Tames)——他那晚也获得了一个奖项——回忆了媒体用来让艾克(Ike, 艾森豪威尔的绰号——译注)做出各种表情的小窍门。</p>
<p>"We used to laugh at Eisenhower for not being able to hear in one ear very well," Tames, who died in 1994, recalled. "We caught on early and we used to get some of those great expressions on his face by asking him to do something. I'd say, 'Mr. President would you do ba de ba do ba do?' And he'd say 'Hah?' Then he'd cock his head and open his eyes and just tilt." That year, Eisenhower presented Tames with an award for his shot of the president getting out of a Jeep. Tames, in turn, took a picture of Ike's winning photograph — perhaps an act of photographic jujitsu, restoring control of the camera to the press corps.</p>	<p>"我们曾经笑话艾森豪威尔有只耳朵的听力不太好，"已于1994年过世的塔梅斯生前回忆道。"我们很早就掌握了这个办法，经常要求他做一些事情来获得有趣的表情。我会说，'总统先生，你能吧嗒吧嗒吧嗒吗？'他会问'什么？'然后昂起头，睁大双眼，头侧向一边。"那一年，艾森豪威尔亲自给塔梅斯颁了奖，获奖作品是一张他跳下吉普车的照片。然后，塔梅斯又给艾克的获奖作品拍了张照片——这或许是一种摄影战术，使相机的控制权重新回到了媒体手中。</p>

<p>It was not the last time the photographers honored a sitting president. In 1971, when Tames was president of the association, he arranged for Richard M. Nixon to photograph the surviving group of the association's original members and created a "President's Class" award category for him.</p>	<p>这并不是协会最后一次褒奖在任总统。1971年，塔梅斯是协会主席，他当时安排理查德·M·尼克松(Richard M. Nixon)给协会仍然健在的创始成员拍照，并因此给他创立了一个“总统类别”奖。</p>
<p>Nixon took the picture but skipped the annual dinner, despite promises to attend. He never got his plaque, his gold-plated news photographer's pass or the engraved, 18-karat gold Tiffany cuff links that Tames had made for the occasion. As Tames told the Library of Congress: "I figure if that bugger wants them, he can come to my house and get them. I'll present them to him right here in my living room, but I'm not going to deliver them to him!"</p>	<p>尼克松拍了照片，但却未能遵照承诺参加年度晚宴。他没有去领奖牌、镀金的新闻摄影师证书，以及塔梅斯专为这一时刻定制的18K黄金雕花蒂芙尼(Tiffany)袖扣。塔梅斯告诉国会图书馆：“我想，如果那家伙想得到这些东西，他可以来我家拿。我会在客厅里把东西交给他，但我是不会专给他送过去的！”</p>
<p>Eisenhower, presumably, was more appreciative. He chose two of Tames's photographs for official portraits, while a third appeared on a six-cent Eisenhower stamp. And he let the mob photograph him at his farm in Gettysburg, Pa., the day he took his award-winning shot.</p>	<p>大概，艾森豪威尔更为赏识这一切。他选择了塔梅斯拍摄的两张照片作为官方肖像，还有一张则出现在了6美分的艾森豪威尔邮票上。在他拍摄那张获奖图片的当天，他让这帮摄影师进入他在宾夕法尼亚州葛底斯堡的农场拍照。</p>
<p>They captured him taking pictures, of course.</p>	<p>当然，他们捕捉到了艾森豪威尔拍摄照片的瞬间。</p>

<p>Cocooning at Home in Hong Kong</p>	<p>用十年在香港大街小巷寻“茧”</p>
<p>A short flight from Vietnam to Hong Kong to renew his visa in 1994 turned into almost a decade of work for Peter Steinhauer.</p>	<p>对于彼得·施泰因豪尔(Peter Steinhauer)来说，1994年从越南飞往香港更新签证的短途旅行使他开启了一项长达近十年的工作。</p>
<p>When he exited the airport, he was captivated by a building caged in bamboo and draped in yellow fabric, masked by haze and fog. Beneath a canopy of clouds, it glowed against the monochromatic skyline.</p>	<p>走出机场的时候，他被一栋建筑深深吸引。这栋楼被竹架禁锢，外面裹着黄色网布，耸立在雾霾之中。云烟之下，它在单色天际线的映衬下闪闪发光。</p>
<p>It reminded him of Christo and Jeanne Claude, artists known for</p>	<p>这让他想起了克里斯托(Christo)和让娜·克劳德(Jeanne Claude)。这对艺术</p>

<p>swathing everything from the Bundestag to Central Park. But in a taxi he spotted another building, this time green, then another in beige, before realizing that these spectacles were ordinary sights in Hong Kong, where for months the sheaths encased buildings being built or demolished.</p>	<p>家因为包裹德国联邦议会大厦和中央公园等各式建筑而闻名。但乘坐出租车期间，他看到了另外一栋绿色的大厦，还有一栋米色的大楼，终于意识到这种景象在香港非常普通。在建设或拆毁大楼的几个月中，楼外都会设有这种围护网。</p>
<p>"I kept thinking about the metamorphosis," Mr. Steinhauer said. "I thought caterpillars to butterflies and then my wife said, 'cocoon'. It just stuck."</p>	<p>"我一直在想这是什么的变化形式，"施泰因豪尔说。"我想到了毛虫和蝴蝶，然后我的妻子说，'茧'。就是它了。"</p>
<p>Mr. Steinhauer, 47, and his family moved to Hong Kong in 2007 as he began a continuing project that has since captured over 120 of these structures. It is aptly titled "Cocoons." The practice dates to the 1860s, an era in which Mr. Steinhauer's greatest photographic influence, John Thompson, documented Hong Kong in photos that show buildings encased in bamboo. Despite Mr. Steinhauer's artistic impressions, the nets and cages serve a simple purpose: They catch debris.</p>	<p>现年 47 岁的施泰因豪尔和家人于 2007 年搬到了香港，开始了一项持续进行的摄影项目。从此以后，他为 120 多个此类建筑拍摄了照片。项目有一个贴切的名字——"茧"(Cocoons)。这种包裹可以追溯到 19 世纪 60 年代。对施泰因豪尔影响最深的摄影师约翰·汤普森(John Thompson)当时通过照片记录香港，其中展示了被竹竿围住的建筑。尽管施泰因豪尔认为这是艺术，但那些网布和框架只有一个简单的用途：接住碎片。</p>
<p>The bamboo cage, erected first, and ledges spaced roughly five stories apart as well as the fabric wrap are meant to catch falling objects and contain dust that escapes during construction. It is just a meticulous and secretive species of New York City scaffolding.</p>	<p>首先搭起的竹架、大约每五个楼层一条的围栏，还有网布，都是为了接住掉落的物体，抑制建设期间产生的灰尘。与纽约的脚手架相比，这只是一种细密而遮掩的变种。</p>
<p>Mr. Steinhauer's process is equally systematic.</p>	<p>施泰因豪尔同样有条不紊地寻找建筑物。</p>
<p>He wakes early, packs his car with necessities, then drives for hours through the streets of Hong Kong and its emerging provinces, scouting. Perhaps for new shades of fabric – green and beige are popular, yellow and blue prove harder to find – or, just the right angle. At times he finds</p>	<p>他很早就会起床，然后装好必需品，开几个小时的车穿过香港的街道及新建区，慢慢寻觅。或许是想找到新颜色的网布——绿色和米色比较常见，黄色和蓝色就更加难得——或者只是为了觅得合适的角度。他有时会开车上山，追寻完美的视角。他还常常会假装打电话，骗过保安溜进别人的居民楼。</p>

<p>the perfect vantage point driving up the side of a mountain. More often than not, he fakes a cellphone conversation while waltzing past security into a residential building where he does not belong.</p>	
<p>"I pretend like I live in a lot of buildings in Hong Kong," Mr. Steinhauer said. It helps that there is a Hong Kong law that prohibits locked roofs. Some of his best work is done at night, when sodium vapor lights, used to illuminate cranes that work as late as 11 p.m., give the buildings a bizarre science fiction touch, the arms of the cranes contrasting with the dark sky like a futuristic spaceship in repair.</p>	<p>施泰因豪尔说，“我假装自己居住在香港的很多大楼里。”香港法律禁止屋顶上锁，这有助于他的工作。一些最好的作品都是在晚间拍摄的，那时会有钠蒸汽灯为工作到晚上 11 点的起重机照明，给建筑物罩上一种科幻小说的奇异感觉。在昏暗天空的映衬下，起重机的臂膀就像是正在修复的未来世界宇宙飞船。</p>
<p>"It's almost like I'm photographing two different buildings," Mr. Steinhauer said.</p>	<p>施泰因豪尔说，“几乎就像是在拍两个不同的建筑。”</p>
<p>Which helps, for as impressive as the buildings are, shooting them can get monotonous. Mr. Steinhauer compensates by capturing different scales and stages of the process, showing, for instance, how a pristine beige cloak quickly turns as dark as a brown paper bag from Hong Kong's pollution.</p>	<p>这一点颇有好处，因为虽说这些大楼令人印象深刻，但拍摄会变得单调乏味。施泰因豪尔通过拍摄不同规模及阶段的大楼来消除这种乏味感。比如，展示米色围护网因为污染迅速变得像牛皮纸袋一样黑的过程。</p>
<p>Two photographs narrow in on the way advertising comes into play.</p>	<p>有两张照片特别关注了广告如何发挥作用。</p>
<p>One depicts a 40-story, half-naked Calvin Klein model (slide 16) whose bulging groin spans a whopping three stories. Mr. Steinhauer said that many in Hong Kong did not find it amusing. Another photograph depicts a building completely awash in green – save for one golden-arched "M" for McDonald's (slide 12).</p>	<p>其中一张照片展示了一个 40 层楼高的半裸卡尔文·克莱恩(Calvin Klein)模特（幻灯片 16）图像，他鼓起的裆部足足占据了三层楼。施泰因豪尔表示，很多香港人并不觉得这很有趣。另一张照片显示，一栋大楼完全被绿色围护网包围，只露出麦当劳(McDonald's)的金色“M”标识。</p>

The Pool Photographer, Literally	拍泳池，我就喜欢
What traveler hasn't gotten off a plane after a long flight and, suddenly trying to adjust to a warm climate, thought about a dip in the water?	什么样的旅客会在经过长途飞行还没下飞机时，因为突然试图适应温暖的气候而想投身水中？
Marieke van der Velden, a frequent visitor to places like sub-Saharan Africa and South Asia, has it down to a routine: No sooner does she leave an airport terminal than she asks her driver where she can find a good pool – and off they go.	对于经常前往撒哈拉沙漠以南的非洲和南亚等地的玛莉·范德费尔登 (Marieke van der Velden)而言，这样做只是习惯：她一离开机场航站楼就会询问司机在哪里可以找到好的泳池——然后他们就会直奔那里。
But when she arrives poolside, it's doubtful she will get so much as her feet wet. "I'm not a big swimmer," she confessed.	但是，当她来到泳池边时，甚至可能连脚都不会弄湿。“我不怎么喜欢游泳，”她承认。
Ms. van der Velden is there for the pictures.	范德费尔登是去拍照的。
A photographer based in Amsterdam, she has traveled extensively for news organizations and nonprofit groups, documenting land-mine victims, child mortality and AIDS. It can get heavy. But during a 2009 trip to Burkina Faso, a turbulent Ouagadougou sky caught her eye. She got a shot of storm clouds off in the distance. There was a hotel pool in the foreground. She gave it little thought.	她是一名来自阿姆斯特丹的摄影师，经常为新闻机构或非盈利组织四处奔走，对地雷受害者、儿童死亡和艾滋病进行记录。有时候会很沉重。但是在2009年前往布基纳法索时，瓦加杜古阴郁可怖的天空吸引了她的视线。她给远处的乌云拍了一张照片。照片的前景是一个旅馆的泳池。她没有想太多。
A few days later, in Weotinga, her gaze was again drawn to an ominous	几天后，在韦奥廷加(Weotinga)，她的目光又被灰暗的天空吸引，暗黑的云

<p>It was only when Ms. van der Velden was back in the Netherlands showing her work to a friend that pools moved from foreground to forefront. She decided to photograph them as a sideline whenever she was traveling on assignment. The result is a series of photos called, appropriately enough, “Swimming Pools.” Since she began, Ms. van der Velden has photographed pools in Afghanistan, Bangladesh, Albania and Uganda, among other countries.</p>	<p>当范德费尔登回到荷兰，向朋友展示自己的作品时，泳池从前景变成了拍摄的主题。她决定以后每次出差时，都要顺道拍摄泳池。最终结果是一个系列，有个足够贴切的名字，叫“泳池”(Swimming Pools)。至今范德费尔登已经拍摄过阿富汗、孟加拉国、阿尔巴尼亚和乌干达等国的泳池。</p>
<p>She is not the first artist to turn her attention to pools.</p>	<p>她并不是第一个把注意力放在泳池上的艺术家。</p>
<p>Beginning in the 1960s, David Hockney produced a series of sun-drenched pool paintings that would make even Woody Allen want to pack his bags and move to California. (“O, wow,” Ms. van der Velden wrote in an e-mail after the paintings were called to her attention. “This is so beautiful. I never saw these paintings. It feels so clear and bright and peaceful.”)</p>	<p>从20世纪60年代开始，大卫·霍克尼(David Hockney)就画过一系列洒满阳光的泳池，连伍迪·艾伦(Woody Allen)看了之后都想收拾行囊，搬往加利福尼亚。(“哦，哇哦，”范德费尔登在注意到这些图画后在电子邮件中写道。“太美了。我没看过这些画。给我感觉很清晰、明亮和宁静。”)</p>
<p>And in John Cheever’s short story “The Swimmer,” a young man decides to make his way home across the suburbs by swimming from pool to pool. <p>Ms. van der Velden’s work falls somewhere in between.</p>	<p>范德费尔登的作品介于这些之间。</p>
<p>There are photographs of girls in Kenya playing at a resort, and of students lounging on deck chairs in Malawi. But there is also a photo of</p>	<p>有些照片上是肯尼亚的女孩在一个度假地嬉戏，还有在马拉维的折叠躺椅上休憩的学生。但是，也有一张是三个在巴格达泳池边的男孩；范德费尔登于</p>

<p>three boys at a pool in Baghdad, where Ms. van der Velden traveled in 2011, when American forces left the country. There is no hint of warfare in the picture, but it is hard to look at the boys without wondering if this is just a stolen moment of happiness. In Coonor, India, an empty pool on a former British estate speaks of empires gone and legacies of uncertain value.</p>	<p>2011 年来到这里，也就是美国军队撤离伊拉克的时候。照片上看不出任何战争迹象，但是很难在看着这些男孩的时候不去想，他们是否只是在偷偷享受这片刻的幸福。在印度库诺尔(Coonor)，一座原为英国人所有的宅邸里有个空荡荡的泳池，诉说着大英帝国时代的逝去，以及遗产价值的不确定性。</p>
<p>Other photographs are even more unsettling. Near Monrovia, Liberia, a pool that once belonged to President William Tolbert, who was killed in 1980, is filled with murky water. Elsewhere in Liberia, poolside tables are stacked upside down at a house said to belong to a relative of Charles Taylor, the Liberian leader convicted of playing a role in atrocities in Sierra Leone.</p>	<p>还有些照片比这还令人不安。在利比里亚蒙罗维亚有一个泳池，曾属于威廉·托尔伯特(William Tolbert)总统，但它如今满是浑水。这位总统于1980年被杀。在利比里亚的另一个地方，池边桌被倒放在一个屋子里，据说屋子属于查尔斯·泰勒(Charles Taylor)的一个亲戚。这名利比里亚领导人被指控与塞拉利昂发生的残暴罪行有关。</p>
<p>Ms. van der Velden does not always come away with a shot. In Chicago one winter, she says, a rooftop pool was full of snow, just begging to be photographed, but no one would unlock the door to let her get to it. And sometimes, she visits a pool, walks around and leaves.</p>	<p>范德费尔登并不总是能拍到照片。她说，有年冬天在芝加哥，一个屋顶泳池里落满了雪，简直是用来拍照的绝佳景色，但是没人愿意打开门让她进去拍。有时，她来到泳池，转一转就会离开。</p>
<p>Your average swimmer may decide not to go into a pool for the ordinary reasons. Water that's too cold, perhaps. Too much chlorine. Or maybe there's not enough chlorine in the world to make up for all those little kids splashing around the shallow end.</p>	<p>普通游泳者可能会因为一些普通的原因而决定不去某个泳池。或许因为水太冷，或许因为氯放得太多。还或许是因为，浅水区嬉闹的小孩把水弄得太脏，放再多氯也没法漂净。</p>
<p>When Ms. van der Velden gives the thumbs-down to a pool, it is harder to put into words. She has to feel a "click." She has to feel that her photographs will tell a story.</p>	<p>当范德费尔登不喜欢某个泳池时，用言语来解释会更困难一些。她必须有灵机一动的感觉。她必须感到自己的照片能够讲述一个故事。</p>
<p>"There are a lot of swimming pools in the world that are not interesting at all," she said. "They are just swimming pools. Nothing is happening."</p>	<p>"世界上的很多泳池都没什么意思，"她说。"它们只是普通泳池。没有任何故事发生。"</p>

A Life Collecting Chinese Landscapes	她用三十年拍摄中国山水
Lois Conner calls herself a collector of landscapes. The fascination started in childhood, when she was mesmerized by the panoramas she glimpsed on family road trips. But it turned into an artistic mission over the last three decades as she traveled through China with her view camera in search of images layered with detail and history.	洛伊丝·康纳(Lois Conner)自称是风景收藏者。这种迷恋始于童年，一家人驾车旅游的时候，沿路瞥见的景色让她陶醉不已。在过去 30 年里，这种迷恋变成了艺术项目：她带着自己的大画幅相机，在中国走南闯北，寻找承载着历史与细节的影像。
And to think, her life's work started almost by accident.	想想看，她的终生事业几乎始于意外。
She was a graduate student in photography at Yale, from 1979 to 1981, when she had to take several electives outside of her medium. She chose a course on Ming dynasty landscape painting, where she was struck by the "Dr. Seuss-like" scenes of the Li River, in what is now Guilin.	1979 年到 1981 年间，康纳在耶鲁读研究生，学习摄影，但必须选修几门自己艺术手法之外的课程。她选择了明朝山水画，课上被漓江“苏斯博士式的”景色打动。这条江位于今天的桂林地区。
"I asked my professor, why did they make up that kind of landscape?" she recalled. "And he said, 'That place really exists.' "	"我问课上的教授，他们为什么要想象出那种风景？"她回忆道。"结果他说，'这地方真的存在。'"
That's when she knew she had to go to China. A 1984 Guggenheim Fellowship got her there. Her insatiable curiosity has kept her returning ever since. Her new book and solo exhibition, "Beijing: Contemporary and Imperial," on view at the Cleveland Museum through June 29, offers up cinematic scenes of tangled trees and imperial gardens juxtaposed against stark, modern architecture.	就在那个时刻，她知道自己必须去中国。1984 年的古根海姆奖学金(Guggenheim Fellowship)让她得偿所愿。打那以后，无穷的好奇心让她一次又一次地重返中国。在她的新书《北京：当代与帝国》(Beijing: Contemporary and Imperial)及同名展览中，呈现了种种电影般的场景：藤蔓交缠的树木、皇家的园林，却混搭着冷峻的现代建筑。展览将在克利夫兰美术馆(Cleveland Museum)举办，至 6 月 29 日闭幕。
"In a way it's unknowable," Ms. Conner said. "I started on something and I just feel like it's never going to be finished." Serendipity played a role in	"某种程度上，这是不可知的，"康纳说，"我开始做某件事情，然后感觉永远不会结束。"在她成为摄影师的过程中，缘分起到了不小的作用。在宾夕法

<p>her becoming a photographer. Raised in southern Pennsylvania, Ms. Conner knew from an early age she wanted to be an artist. In her teens, she apprenticed herself to a painter who lived next door. She set off for New York intent on studying fashion design. She took a job as a secretary at the United Nations to pay the rent. She took courses in tap dancing, art and photography out of curiosity. Philippe Halsman, her photography teacher at the New School, asked her why she was studying fashion.</p>	<p>尼亚州长大的康纳从小就明确自己想成为艺术家。十几岁的时候，她在画家邻居那里当学徒。后来，她来到纽约，准备学习时装设计，还在联合国找了份秘书的工作来付房租。出于好奇，她学习了踢踏舞、艺术及摄影。新学院大学(The New School)的摄影老师菲利普·哈尔斯曼(Philippe Halsman)问她，为何要念时尚？</p>
<p>"I could not answer the question," she said.</p>	<p>"我答不上来，"她说。</p>
<p>That was enough to have her transfer to Pratt Institute to study photography. It was there she first encountered a view camera.</p>	<p>这就足以让她转到普瑞特艺术学院(Pratt Institute)学习摄影。在那里，她首次接触到大画幅相机。</p>
<p>"There was something about having the camera on the tripod that allowed me to pause," she said. "It just made sense to me. My sensibilities are more contemplative."</p>	<p>"相机放在三脚架上，让我能停下来，感觉挺特别，"她说，"这的确很适合我。我的情绪更倾向于思考。"</p>
<p>She needed that quiet time, given her schedule. By day she was at school in Brooklyn. Evenings she worked at the United Nations. Lunch was at midnight. At least when she started traveling for the United Nations she was able to afford a proper lens and tripod.</p>	<p>由于日程繁忙，康纳很需要这种静下来的时间。白天，她去布鲁克林上学，晚上则在联合国工作，午餐得等到午夜。至少，当她开始为联合国的工作出差的时候，能买得起不错的镜头和三脚架了。</p>
<p>"Traveling suited me," she said. "When on the road I would try to think of what other road had looked this way, or how suddenly the landscape in front of me looked like China or other places I'd never been."</p>	<p>"我喜欢旅行，"她说，"在路上的时候，我会努力回想别的什么路曾经看起来一模一样，或是想象眼前的风景突然就像是中国之类我没去过的地方。"</p>
<p>In 1984, she left the United Nations to become a full-time photographer. Her encounter with Chinese landscape painting prompted her to think in panoramas, which she eventually made with a 7x17 banquet camera. The camera was originally used in the late 19th</p>	<p>1984年，康纳离开联合国，成为全职摄影师。对中国山水画的接触让她拥有了全景的思维方式，促使她最终用一台7x17英寸的宴会相机来拍全景照。这种相机原本在19世纪末用于拍摄大型聚会，其规格及巨大的底片能够保证，一大群衣着光鲜的宾客会被拍得个个都很清晰。</p>

<p>century for photographing large gatherings, and its format and huge negatives ensured that throngs of sharply dressed guests would remain in equally sharp focus.</p>	
<p>During her three decades in China, she noticed many changes, like cities emerging seemingly out of nowhere.</p>	<p>在探访中国的 30 年间，她注意到诸多变迁，比如有些城市似乎一夜之间拔地而起。</p>
<p>“Interior of the Bank of China During Construction” shows one of the first of the new architectural landmarks in Beijing, with its 130-foot, winglike interior obscured by a waffle of scaffolding in a tight frame, blotting the sky. Conversely, “Solitary Arch, Changchun Yuan, Yuanming Yuan,” shows the skeleton of a snow-topped vault flanked by thin tilted trees, an entrance into a world both magical and removed. The wall was once apart of a Western palace designed by Jesuit missionaries in the mid-18th century for the Qianlong emperor and served as both a de facto center for the Chinese Empire and a site for Chinese culture.</p>	<p>《中国银行建造期间内景》(Interior of the Bank of China During Construction)展现了北京首批新建筑地标中的一座。130 英尺(约合 40 米)的翼状内部结构紧紧包裹在格状脚手架中，遮蔽了天空。与之相反，《圆明园长春园孤寂的拱门》(Solitary Arch, Changchun Yuan, Yuanming Yuan)则表现的是积雪覆盖的一座残缺拱门，两侧栽着纤弱的歪树，好像是通往神奇而遥远世界的入口。这些断壁残垣曾经属于 18 世纪中叶耶稣会士为乾隆皇帝设计的一座西式宫殿，当年曾是帝国实际上的中心，也是中华文化遗址。</p>
<p>Once part of a trio of its kind known as the Garden of Perfect Brightness, the wall was destroyed in 1860 by the British and the French. All that remains is this national ruin, a reminder of these European wounds.</p>	<p>圆明三园在 1860 年毁于英法联军之手，剩下的只有这片作为国家纪念场所的废墟，提醒着人们欧洲带来的创伤。</p>
<p>But the photograph is doubly significant. It was a turning point in Ms. Conner’s project, when she started her longtime collaboration with Geremie Barmé, a leading expert on Chinese culture and history. It also sparked her obsession with the lotus flower, which has appeared in her work ever since.</p>	<p>不过，这批照片具备双重意义。这是康纳进行的项目的转折点。当时，她刚开始与中国文化与历史方面的著名专家白杰明(Geremie Barmé)进行长期合作。这还引发了她对荷花的痴迷。从此以后，荷花成为她作品中的恒久主题。</p>
<p>“It was raining and it was summer,” Ms. Conner said. “I got soaking wet.</p>	<p>“那时下着雨，是夏天，”康纳说，“我全身湿透了。只想回家冲个澡。可是，</p>

<p>I just wanted to go home and take a shower. But, all of the sudden, I noticed these lotuses and water droplets sparkling on top of them."Between her trips to China, Ms. Conner was busy teaching. She spent 10 years at Yale as both director of undergraduate photography and a professor in the graduate school.</p>	<p>突然之间，我注意到了荷花和它们上面亮晶晶的水珠。“在中国之行的间隙，康纳忙于教学。她在耶鲁待了10年，同时担任摄影本科专业的主管和研究生院的教授。</p>
<p>If she is not in China or teaching, Ms. Conner is processing her film or platinum printing in her apartment. The process is meticulous, but she wants her work to be believable, no matter how long it takes.</p>	<p>如果既不在中国，又没有教书，康纳就是在自家公寓冲洗胶片或是制作铂金印相。冲洗过程一丝不苟，因为她希望自己的作品真实可信，不管要花多长时间。</p>
<p>"The most important thing is not an artistic career or big pile of money, but to have that group of prints or the body of work that matters," she said.</p>	<p>"最重要的事情不是什么艺术生涯或大把钞票，而是拍出的照片集或者说是一生的作品能有意义，"她说。</p>
<p>"Atget is the perfect example," she said, referring to the French photographer Eugène Atget. "He put all the money into his work, but look what he has given us, it's profound and encyclopedic, a life's work. That's what I aspire to at the end of my life, to have that body of work. Not fame, not fortune, not recognition. I have enough right now."</p>	<p>"阿杰特就是完美的例子，"她说。这里谈到的是法国摄影师尤金·阿杰特(Eugène Atget)。“他把所有的钱都花到了工作上，看看他给我们留下了什么，深邃广博，一辈子的作品。我渴望生命终结的时候也能够做到，拿得出这样的作品。不是名声，不是财富，也不是认同感。这些东西我现在拥有的就足够了。”</p>
<p>What she cannot get enough of, however, is something that is endlessly enchanting. The lotus.</p>	<p>不过，让她总觉得不够的是种拥有恒久吸引力的东西：荷花。</p>
<p>In one triptych, the flowers are scattered randomly, and yet there is a sense of order. If you stare long enough, you will discover whole worlds, villages, people, faces, eyes. Shadows become reflections; light sparkles like dabs of paint.</p>	<p>在一组三联拍作品中，荷花随意散布，却又带有某种秩序感。如果长时间盯着看，可以发现整个世界，村庄、人、面部和眼睛。阴影变成了映射；光亮像零星的颜料般闪耀。</p>
<p>"Looking at my lotuses, I want to cry and photograph them until I don't have any film," Ms. Conner said. "And then when I don't have any film, I just want to sit there. It's like being in love. I don't want it to stop. There</p>	<p>"看着我的荷花，我想哭，想拍到没有胶片为止，"康纳说，“等到真没了胶片，我只想坐在那里。跟坠入爱河似的，我不想结束。可以做的事情太多了，我的生命却不够长。”</p>

are so many possibilities. My life isn't long enough."

Iran Offers a Window to the West	西方摄影师驾车穿越伊朗
Earlier this year, Getty Images asked the photographer John Moore if he wanted to see how open Iran's new president was to Western news media. Mr. Moore, a senior staff photographer for Getty, was game. He had been there once – 10 years ago – to cover parliamentary elections. This time, Getty encouraged him to follow his own interests and itinerary. He decided on a road trip.	今年早些时候, Getty Images 问摄影师约翰·穆尔(John Moore)想不想看看伊朗新任总统对西方新闻媒体有多开放。作为 Getty 的高级全职摄影师, 穆尔欣然接受了挑战。在那之前——10 年前——他去过那里一次, 是为了采访议会选举。这一次, Getty 鼓励他根据自己的兴趣和行程安排行动。他决定进行一次公路旅行。
Mr. Moore, who is based in New York, has won numerous awards, including the Robert Capa award from the Overseas Press Club in 2007. Now on the road in Iran, here's his report.	在纽约工作的穆尔获奖无数, 其中包括海外记者俱乐部(Overseas Press Club)2007 年颁发的罗伯特·卡帕(Robert Capa)奖。他现在正在伊朗的公路上, 以下是他的报道。
I couldn't imagine a better place for a road trip than through central Iran. I had been to this country only once before, and then just to Tehran to cover a parliamentary election. I had wanted to return, but was kept busy the last decade with Iraq, Afghanistan and elsewhere before journalist visas to Americans were suspended for four years by then-President Mahmoud Ahmadinejad.	我想不到有哪个地方比穿越伊朗中部更适合公路旅行。我之前只来过这个国家一次, 只是去德黑兰报道议会选举。我曾经想再来这里, 但过去 10 年一直忙于伊拉克、阿富汗和其他地方的事情, 后来, 时任总统马哈茂德·艾哈迈迪内贾德(Mahmoud Ahmadinejad)又暂停向美国人发放记者签证, 这一停就是四年。
With the new Iranian president Hassan Rouhani's pro-Western attitude, a window opened. In fact, the Iranian Mission to the United Nations said my visa would take only two weeks. I thought that sounded too good to be true.	由于伊朗新任总统哈桑·鲁哈尼(Hassan Rouhani)的亲西方态度, 机会来了。实际上, 伊朗驻联合国代表团说我的签证只需要两周就可以下来。我觉得这好得太离谱, 无法相信。
It was.	果然。
Three months later, I had given up waiting. Of course, that's right when I got an email saying that my visa had been approved, but just for one	三个月后, 我已经死心了。当然了, 就是在这时候, 我接到了一封电子邮件, 说我的签证已经被获批, 不过有效期只有一周。我结束了在乌克兰东部的任

<p>For this trip, I wanted to examine daily life outside of Tehran, where I had concentrated only on politics a decade before. Through an agency that facilitates press trips, I scheduled a weeklong road trip passing through some of the most incredible and historic scenery anywhere. I met up in Shiraz with Amir, a translator with a penchant for American idioms, and Mahmoud, a driver who has worked with the international media for 25 years — and who bears a remarkable resemblance to Robert De Niro.</p>	<p>这一次行程, 我想要审视德黑兰之外的伊朗人的日常生活, 10年前, 我在德黑兰只把注意力集中在了政治上。通过一家给新闻采访行程提供便利的代理机构, 我规划了一周长的公路之旅, 期间会途径一些最惊人、最古老的风景。在设拉子(Shiraz), 我偶然遇到了阿米尔(Amir)和穆罕默德(Mahmoud), 前者是一名嗜好美国习语的翻译, 后者是一名已经为国际媒体工作了25年的司机——长相酷似罗伯特·德尼罗(Robert De Niro)。</p>
<p>We started in Shiraz, famous for its Persian culture, poetry and progressive attitudes. Straight off, I was reminded just how nice people here are to visitors. It seems nonintuitive, but, after getting past the initial shock, people on the street are generally delighted to meet Americans. And more important, they enjoy being photographed — which is not the case in most of the Middle East.</p>	<p>我们的旅程始自设拉子, 这座城市因波斯文化、诗歌和进步的态度而得名。我立刻就感觉到了当地人对游客有多友好。这似乎有违我们的直觉, 然而, 街上的人在经过最初的吃惊后, 普遍都对见到美国人感到高兴。更重要的是, 他们很乐于被拍照——大多数中东国家的情况与此正相反。</p>
<p>After a day, we hit the road through the arid mountains toward the northeast and the ancient desert town of Yazd, famous for massive rooftop wind towers, which catch the slightest breeze and funnel it down into homes as a natural air-conditioning system. I realized, sadly, that most attempts at outdoor photography during the hot season are basically fruitless between the hours of 9 a.m. and almost 6 p.m. People simply stay indoors to escape the heat, and the light is brutal. Instead, I concentrated on indoor scenes and then manically worked outside in</p>	<p>一天后, 我们上路了, 穿过干旱的山区, 往东北方向开, 抵达了沙漠古城亚兹德。这里以硕大的屋顶风塔闻名于世。风塔能捕捉到最为轻微的空气波动, 并向下传导到屋内, 成为天然的空调系统。我意识到, 令人遗憾的是, 在炎热季节的上午9点到下午近6点之间, 进行室外拍摄的多数尝试基本都会无果而终。人们只会待在室内避暑, 而且光照实在太强烈。于是, 我把重点放到室内场景上, 然后在傍晚时分出门疯狂工作。接下来, 我们往西北方向长途驾驶, 到达伊朗的历史古都伊斯法罕。这里的中心广场令人赞叹, 面积仅次于北京的天安门广场位列世界第二。清澈如镜的水池、清真寺和欣赏日落</p>

<p>the evening.Next, we made the long drive northwest to Iran’s historic former capital of Isfahan, where the incredible central square is the largest in the world after Tiananmen in Beijing. Its reflective pools, mosques and families enjoying the sunset were a pleasure to photograph. Here, more than anywhere on the trip, I tried to show the joy of life many maintain, despite the tough economic conditions because of international sanctions. Inflation remains sky-high, and the sanctions have only been partly and temporarily eased during nuclear enrichment negotiations between Iran and the West.</p>	<p>的家庭，拍起来令人愉快。在这里，比起此行中的任何其他地方，我更为努力地展示许多民众保有的生命的喜悦，尽管由于国际制裁，经济状况颇为艰难。通胀居高不下，而且制裁仅在伊朗与西方就核浓缩问题进行谈判期间得到暂时的部分放松。</p>
<p>Still, there is a massive new shopping mall partly under construction on the town’s outskirts. From a distance, I photographed a couple having a discussion that turned into an argument. When Amir whispered to me the translation that the man had yelled at her, “Why didn’t you call the police,” we decided to quietly take our leave.</p>	<p>不过，在城郊地区，有一座宏大的新购物中心正在部分施工。从远处，我拍到一对男女说着说着变成了争吵。阿米尔轻声给我翻译，男人冲着女人喊，“你怎么不叫警察？”于是我们决定悄悄离开。</p>
<p>We then drove to Qom, the bastion of conservative Islam in Iran and the former home of Ayatollah Khomeini. Although I wasn’t permitted to enter the holy shrine, I was able to visit Khomeini’s house, which was spartan. Pilgrims to the home prayed in the living room. The cleric in charge offered us each a coconut cookie.I’m now headed to Tehran to cover a big public event commemorating the 25th anniversary of Khomeini’s death. Today on the highway I saw buses bringing in people from all over the country for the event, so it should be quite a spectacle at the Khomeini shrine. Tens of thousands of people are expected to cram around the site in remembrance and mourning of the architect of Iran’s Islamic Revolution and whose portraits are ever-present in every</p>	<p>然后，我们驱车抵达库姆。这里是伊朗伊斯兰教保守派的大本营，也是阿亚图拉霍梅尼(Ayatollah Khomeini)生前的家乡。尽管我并未获准进入圣祠，但我得以参观简朴的霍梅尼故居。前来朝拜的教徒在起居室里做祷告。阿訇给我们每人一块椰蓉饼干。目前，我正在去德黑兰的路上，准备拍摄为纪念霍梅尼逝世 25 周年举办的大型公众集会。今天在公路上，我看到大小巴士搭载着全国各地的民众前往参加活动，因此霍梅尼圣祠的景象应当是蔚为壮观。预计将有数以万计的人们涌到这里，缅怀这位伊朗伊斯兰革命的设计师。在伊朗的每座村庄、小镇和城市里，他的图像随处可见。</p>

Photographers on the Front Lines of the Great War	在一战炮火中诞生的现代新闻摄影
In 1914, as the outbreak of World War I brought mass slaughter to Europe's battlefields, photojournalism evolved rapidly in the muddy trenches, where 19th century tactics met 20th century weapons. Machine guns, airplanes, tanks, flamethrowers, poisonous gas and submarines were widely used for the first time against doomed troops that were sent by their generals into frontal attacks that left millions dead.	1914年第一次世界大战爆发,大规模杀戮降临欧洲战场,19世纪的战术与20世纪的武器在泥泞的战壕中相遇,而新闻摄影也在战场上迅速演进。机枪、飞机、坦克、火焰喷射器、毒气和潜艇首次得到了广泛使用,被将军们送入正面攻击战场的部队注定要以失败告终,数百万人命丧疆场。
This unimaginable carnage was witnessed by photographers who for the first time got close enough to the front to document combat, as well as scenes of soldiers at rest and at play.	这是令人难以想象的杀戮场景,见证它们的摄影师第一次可以如此近距离地置身前线,拍摄下战斗以及士兵休息和玩乐的场面。
"The First World War is the conflict in which the concept of documentary truth first evolved," said Hilary Roberts, the photography curator at the Imperial War Museums in London and a co-author of "The Great War: A Photographic Narrative." "Prior to that, because of the scarcity of press photography in general, picture desk editors from newspapers were quite happy to use photographs which were merely representative or illustrative of a point rather than showing a genuine event itself."	"在一战中,首次出现了'纪实性事实'(documentary truth)这个概念,"希拉里·罗伯茨(Hilary Roberts)说;她是伦敦帝国战争博物馆(Imperial War Museum)的摄影策展人,也是《宏大战争:摄影叙事》(The Great War: A Photographic Narrative)的合著者。"在此之前,由于新闻摄影作品通常很稀少,报社的图片编辑们能使用那种仅仅可以代表、说明状况的图片,而不是真正展示事件本身的照片,也就心满意足了。"

<p>Photography had been in its infancy during the Crimean War in the 1850s and the Civil War in the 1860s, requiring long exposures on plates that had to be developed immediately in huge, mobile darkrooms. The cameras were large and bulky, requiring photographers to shoot landscapes or, if photographing people, to pose them. Photographers were forced to record war before and after battles, and combat was impossible to cover.</p>	<p>在 19 世纪 50 年代的克里米亚战争(Crimean War)和 19 世纪 60 年代的美国内战(Civil War)期间，摄影还处于萌芽阶段，感光底片需要长时间曝光，而且必须立刻在巨大的移动暗房中进行冲洗。当时的相机又大又笨重，摄影师只能用它们来拍摄风景和摆好姿势的人像。战斗进行的场面是无法拍摄的，摄影师不得不在战斗发生之前和之后记录战争。</p>
<p>By the start of World War I, smaller cameras and film formats let professional photographers make images quickly and under difficult light. Eastman Kodak introduced the Brownie in 1900, popularizing amateur photography. The Vest Pocket Kodak, introduced in 1912, soon became the most popular camera carried by soldiers. Although forbidden by some militaries, including Britain's, many soldiers took these cameras to the front.</p>	<p>一战爆发时，尺寸较小的相机和胶片已经出现，因此专业摄影师可以在光线不佳的情况下快速拍摄照片。柯达于 1900 年推出布朗尼相机(Brownie)，令业余摄影得以普及。1912 年面世的袖珍式柯达(Vest Pocket Kodak)很快成为了士兵中最流行的相机。虽然英军和其他一些军队禁止士兵把这些相机带到前线，但很多士兵并未遵守这个禁令。</p>
<p>"Photography seems to have played a substantial role in the personal life of soldiers," said Bodo von Dewitz, an expert on photography during World War I, who recently retired as curator of photography at the Museum Ludwig in Cologne. "It made them proud that they could inform their families with pictures and, more importantly, to document their heroic participation in this war. After 1916, there were strict rules of what to show and what not. But the pictures from the front, sent by soldiers to their families, could not be controlled that much."</p>	<p>"摄影似乎在士兵的个人生活中发挥了重大作用，"博多·冯德威兹德(Bodo von Dewitz)说；他是一战摄影领域的专家，不久前从科隆路德维希博物馆(Museum Ludwig)的摄影策展人职位上退了休。"这让他们感到自豪，因为他们可以用照片让家人了解情况，更重要的是，用照片记录下他们英勇参战的经历。1916 年之后，有一些严格的规定限制哪些画面可以展示，哪些不可以。但是对士兵从前线寄给家人的照片，就无法那么严格控制了。"</p>
<p>Independent photographers were kept far from the front lines, creating a problem for newspapers whose circulation depended on having pictures to illustrate dispatches from the war.</p>	<p>独立摄影师们被远远隔离在前线之外，给那些依赖照片来描绘战地新闻的报社带来了麻烦。</p>

<p>"It was a terribly important element for them when professional press photographs became unavailable in 1914," Ms. Roberts said. "The newspapers of every nation were in a quandary and constantly asserting pressure on the authorities to deal with this situation." The solution reached by the authorities was to appoint official photographers, most of whom had worked for newspapers before joining the military. They used medium-format cameras that produced small glass-plate negatives – the Leica, which popularized the 35-millimeter film format, was still 10 years from being released to the public. The first photographer appointed by Britain was Ernest Brooks, whose debut assignment was to cover the disastrous Gallipoli campaign, a failed attempt by the Allied powers to capture the Ottoman capital, Constantinople.</p>	<p>"1914 年时无法获得专业新闻图片，这是一个极其重要的问题，"罗伯茨说。"每个国家的报社都感到无所适从，为了应对这种情况，他们不断向当局施压。"当局达成的解决办法是任命官方的摄影师，而大多数官方摄影师在参军之前，都曾在报社任职。他们使用的是可以生成小尺寸玻璃板底片的中画幅相机——普及了 35 毫米胶片的徕卡(Leica)相机 10 年之后才会面世。英国任命的第一位摄影师是欧内斯特·布鲁克斯(Ernest Brooks)，他的首个任务是记录惨烈的加里波利战役；在这场战役中，协约国军队试图占领奥斯曼帝国首都君士坦丁堡，却以失败告终。</p>
<p>Mr. Brooks had no reservations about recreating scenes he had witnessed earlier or even posing photographs outright. After being exposed by other journalists for faking photographs, he would not stage photographs again. The next year, 1916, Britain introduced a policy known as Propaganda of the Facts, which banned staged or fake images, noting that they undermined Allied credibility.</p>	<p>布鲁克斯不遗余力重建他早前曾亲眼目睹的战争场面，甚至直接摆拍。他伪造照片的事情被其他记者曝光之后，布鲁克斯就再也没有摆拍过了。次年，即 1916 年，英国出台了名为"事实宣传"(Propaganda of the Facts)的政策，禁止摆拍或伪造照片，声称那破坏了协约国军队的可信度。</p>
<p>Mr. von Dewitz said that many photographs from World War I that have become a part of the historical record do not actually show what the captions purport. "Faked pictures came from maneuvers, showed staged scenes from behind the front or came from movies," he said. These images are still sometimes published to accompany stories about World War I. During the war, questions about whether a</p>	<p>冯德威兹德说，在已经成为历史记录组成部分的一战照片中，有很多实际上与图释并不吻合。"假照片有些是在演习中拍摄的，有些是在后方摆拍的，有些是从电影中截取的，"他说。到现在，这些照片仍然时不时和一战故事一起出现。摄影师的角色是对文字报道加以说明，还是讲述一个无需配文、可以独立存在的视觉故事？哪种程度的摆拍是可以接受的？这些都是一战中首次出现的问题。</p>

<p>photographer's role was to illustrate reporting or to tell a visual story that could stand without words, and to what extent staging photographs was acceptable, were all being addressed for the first time.</p>	
<p>"The answers in many respects informed the job photojournalists do today," Ms. Roberts said. "The same debates still go on in context of a war zone – what may be different about conflicts now and the First World War is the question of whether the war itself is justified."</p>	<p>"从很多方面来说，对这些问题的回答贯穿在了摄影记者如今的工作中，"罗伯茨说。"在有关战区的摄影方面，同样的争论仍然在继续——当前的战争和一战不同的地方可能在于，战争本身是否合理的问题。"</p>
<p>Mr. Brooks, who eventually covered the Western Front, ended the war as a highly decorated photographer and went on to work as an official photographer to the Royal Family. But his career came to an abrupt end because of the emotional toll from his wartime work. Ms. Roberts said she believed that Mr. Brooks suffered from undiagnosed post-traumatic stress disorder, called shell shock at the time.</p>	<p>布鲁克斯后来报道了西线战事，一战结束时，他作为一名备受赞誉的摄影师，成为英国皇室的官方摄影师。但因为战争期间的工作给他带来了情感上的创伤，他的职业生涯戛然而止。罗伯茨说，她认为布鲁克斯遭受了创伤后应激障碍(PTSD)，也就是当时所说的“炮弹休克”(shell shock)，只是没有被诊断出来。</p>
<p>"There were a variety of incidents," Ms. Roberts said. "He was arrested several times for drunkenness, then a scandal and then finally lost all his appointments and went bankrupt."</p>	<p>"他闯下各种祸事，"罗伯茨说。"因为醉酒被逮捕几次，然后又发生了一起丑闻，他最终失去了所有职位，破了产。"</p>
<p>Though Mr. Brooks died in the early years of World War II, today's conflict photographers owe him and his colleagues a great debt.</p>	<p>虽然布鲁克斯在二战爆发的头几年即已过世，如今的战地摄影师却欠了他和他的同事很多很多。</p>
<p>"They really did lay the foundation of war photography today," Ms. Roberts said. "When you look at the technology these photographers had access to, I think it is such a remarkable achievement. I really do wonder whether photographers who are covering the Syrian conflict or conflicts around the world today, if they could go back 100 years and take their present equipment with them – their digital camera and long-range lens and so on and so forth – and document the First World</p>	<p>"他们真的为如今的战地摄影奠定了基础，"罗伯茨说。"看看摄影师现在能够利用的技术，我觉得他们的成就非常了不起。我在想，如今正在记录叙利亚冲突或世界各地其他冲突的摄影师，如果他们能带上如今的设备——数码相机和长焦镜头等等——回到100多年，拍摄一战的照片，我不知道他们拍得能比当年强多少。"</p>

War, I wonder if they could do much better.”

An Alternative World Cup	不被承认的国家，不被承认的世界杯
It was a World Cup full of goals, political intrigue and pressure of an expectant home crowd. Amid equal measures of excitement and agony, penalties decided most of the second round games. In the end, an unlikely champion was crowned.	这场世界杯充满了进球，也充满了政治阴谋，球员们承受着家乡球迷翘首以待的压力。第二轮的大部分比赛都由点球决出胜负，这带来了兴奋，也带来了同样多的痛苦。最后，一支球队出人意料地获得了冠军。
Not to be confused with the World Cup finals now underway in Brazil, this tournament took place last month in the northern Swedish city of Ostersund. As 203 national teams fought a two-and-a-half-year battle across six continents to qualify for Brazil, the Swedish tournament, called the Conifa World Cup, was played by national teams not recognized by FIFA, the sport’s governing body.	不要把它和目前正在巴西进行的世界杯决赛半决赛混为一谈。这场世界杯是上个月在瑞典北部城市厄斯特松德进行的。为了获得前往巴西参赛的资格，来自六大洲的 203 支国家队进行了两年半的争夺；而参与瑞典“独立足球联盟世界杯”(Conifa World Cup)的国家队，却没有得到足球运动的管理机构国际足联(FIFA)的认可。
The participating teams represent a collection of unrecognized states, ethnic groups, islands and “frozen conflict” zones. Some want to raise awareness of their unique culture, while others hope for greater autonomy and perhaps even a nation of their own. And one of the first steps toward that, they believe, is having a national soccer team. The 12-team tournament included Iraqi Kurdistan, a self-governing region in the north of Iraq; Abkhazia and South Ossetia, both separatist states within Georgia; and Darfur, from Sudan.	这些参赛队伍代表了未被承认的国家、民族、岛屿和“冲突冻结”的地区。其中一些是想提升自己独特文化的知名度，另一些则希望获得更大的自治权，甚至自己建国。他们认为，向着那个目标前进的第一步，就是有一支国家足球队。12 支比赛球队中，有伊拉克北部的自治区库尔德斯坦，格鲁吉亚境内的两个分离地区阿布哈兹和南奥塞梯，还有位于苏丹的达尔富尔。
Membership in FIFA can be intensely political. For many teams, membership confers legitimacy and a shot at reaching the World Cup finals, a huge stage from which to wave their nation’s flag.	FIFA 成员资格有时具有强烈的政治性。对于很多球队来说，成员资格赋予了合法性，也提供了进入世界杯决赛的机会，那是一个巨大的舞台，人们可以在那里挥舞本国的国旗。

<p>Nations and a member of FIFA since 1998 — now has a national stadium near Ramallah and has attempted to qualify for four World Cup finals. Other teams, like Kosovo, have been unable to join European soccer’s governing body, UEFA, because of political lobbying from Serbia. When Gibraltar, a British overseas territory on the Iberian Peninsula claimed by Spain, tried to join FIFA, Spain threatened to pull all of its teams — including the powerhouses of Barcelona and Real Madrid — from the European Champions League and international football. Despite the political pressure, Gibraltar became a member of UEFA in 2013 and hopes to join FIFA next. Almost all of the teams in Sweden have little chance of political recognition, and little chance of joining FIFA or any of its six confederations. The Conifa World Cup is the best opportunity for some of them to play international football.</p>	<p>前在拉姆安拉附近建有一座国家体育馆，而且已经四次尝试入围世界杯决赛圈。另一些球队一直无法加入欧洲的足球管理机构欧洲足联(UEFA)，比如科索沃就是因为塞尔维亚的政治游说而未能加入 UEFA。直布罗陀是英国在伊比利亚半岛的海外领土，西班牙一直声称对其拥有主权。当直布罗陀试图加入 FIFA 时，西班牙威胁从欧冠联赛和国际比赛中撤回所有西班牙球队，包括巴塞罗那和皇家马德里这样的强队。尽管遭遇了政治压力，直布罗陀 2013 年仍然成为了 UEFA 成员，并希望接下来加入 FIFA。在瑞典比赛的球队中，几乎每一支球队获得政治认可的机会都很渺茫，也没什么可能加入 FIFA 或六个下属联盟中任何一个。独立足球联盟世界杯是它们中某些球队参加国际比赛的最大机会。</p>
<p>Darfur, playing its first games on a grass field, lost its debut match 20-0, and its second 19-0. In the quarterfinals Abkhazia met South Ossetia in the Georgian frozen conflict zone derby (South Ossetia won on penalties). <p>The match finished 0-0 and, like the 1994 World Cup final between Brazil and Italy, was decided by a penalty shootout. Nice prevailed, but for the players the tournament meant more than merely winning. “This has been about culture and friendship,” Conor Doyle of Ellan Vannin told Isle of Man News. “We showed our culture to the rest of the world. We’ve done our island proud.”</p>	<p>比赛结束时的比分为 0 比 0，就像 1994 年世界杯巴西和意大利的决战一样，靠点球决出了胜负。尼斯赢了，但是对于运动员来说，这次比赛的意义不止于此。“它还与文化和友谊有关，”队长康纳·多伊尔(Conor Doyle)告诉马恩岛新闻(Isle of Man News)。“我们向世界展示了我们的文化，给我们的岛屿增了光。”</p>

The Rickshaw Drivers of Kolkata, India	印度加尔各答的人力车夫
The rickshaws of Kolkata, India, remnants of British imperialism, are among the last in the world, but phasing them out has been far from simple. In 2005, Chief Minister Buddhadeb Bhattacharjee called them an "inhuman practice" and pushed for their eradication. But the All Bengal Rickshaw Union protested the ban, claiming that without alternative employment, the drivers would lose their livelihood. The photographer Dougie Wallace, who has a book coming out on taxis in Mumbai, "Road Wallah," shot the drivers on these pages, many of whom told him they've been working for more than 20 years for less than 500 rupees (\$8) a day. Still, says Shireen Hyrapiet, an instructor at Oregon State University who has interviewed drivers extensively, many young immigrants see pulling a rickshaw "as a means of upward social mobility." A Familiar Destiny to Photograph the New China	华裔女记者放弃优渥生活拍摄中国
Sim Chi Yin had a cushy expat life in Beijing working as a reporter for The Singapore Straits Times, writing long feature stories and sometimes taking photos. The company paid for her education at the London School of Economics in exchange for eight years of employment. She	作为新加坡《海峡时报》(The Straits Times)记者,沈绮颖(Sim Chi Yin)在北京过着惬意的异国生活,写写长篇特写,偶尔拍拍照片。《海峡时报》为她支付了伦敦政治经济学院(London School of Economics)的学费,作为交换条件,她必须为公司工作八年。她拥有医疗保险、养老金和失业保险。

had health insurance, a pension and job security.	
So why did she walk away from that after nine years?	那么，她为何要在九年后离开？
"I wanted to be a photographer but the editors at The Straits Times said I was overqualified," she recalled. "Almost every year I asked to be assigned to the photo desk but they didn't take visual journalism seriously."	"我想作摄影师，但是《海峡时报》的编辑说那是大材小用，"她回忆道。"我几乎每年都会要求担任摄影记者，但他们并不重视视觉报道。"
Ms. Sim — an ethnic-Chinese, middle-class child from Singapore whose family had risen from humble roots — had wanted to be a photographer since she was a teenager. So as grateful as she was to her newspaper, she took a gamble on photography.	沈绮颖——一个来自新加坡华裔中产家庭的孩子，她的家庭属于白手起家——从少年时代开始就希望成为一名摄影师。所以，虽然对她所在的报纸心怀感激，她还是选择在摄影方面孤注一掷。
Her decision, which meant slashing her expenses and moving to a smaller apartment, has paid off: Last month she joined the cooperative photo agency VII as an interim member, after being mentored for the past three years by Marcus Bleasdale as part of VII's mentorship program. "Most importantly, she is great photographer, a great journalist and a really good person who is dedicated to issue oriented storytelling," said Ed Kashi, who is on VII's board.	做出这个决定意味着她需要削减开支，搬到一个面积较小的公寓，但这一切都值得：上个月，她作为临时成员加入合作性图片社 VII。过去三年，她一直在马库斯·布里斯戴尔(Marcus Bleasdale)的指导下学习，属于 VII 导师项目的一部分。VII 董事埃德·卡希(Ed Kashi)说，"最重要的是，她是一个了不起的摄影师，了不起的记者，一个非常好的人，专注于争议性叙事。"
He also acknowledged that VII, like Magnum and other cooperative agencies, have had too few women and people of color as members and that Ms. Sim's background is a welcome change. Ms. Sim, who has freelanced for The New York Times, Time Magazine and the New Yorker, speaks fluent Mandarin.	他也承认，和马格南(Magnum)等许多合作性的图片社一样，VII 的女性和有色人种成员太少，沈绮颖的背景是一个大家乐于见到的改变。沈绮颖曾为《纽约时报》《时代》周刊(Time magazine)和《纽约客》(New Yorker)兼职摄影，普通话说得很流利。
The interim membership is like a two-year trial marriage for both sides, during which Ms. Sim wants to organize group projects and expand the agency's presence in Asia.	对于双方而言，这个临时的成员身份就像是两年的试婚。这段时间，沈绮颖希望能组织一些群体项目，扩大机构在亚洲的影响力。

<p>Chi Yin Sim grew up in Singapore in an ethnic Chinese family that had lived overseas for three generations and almost never spoke of the past. As a teenager she devoted herself to being "a useful person", working with disabled people and volunteering as a Salvation Army Christmas bell-ringer at shopping malls.</p>	<p>沈绮颖在新加坡的一个华裔家庭中长大。这个家族的前三代人一直在海外居住，他们几乎从不提过去。少年时代，她认为自己应该成为“一个有用的人”，她帮助残疾人，自愿在圣诞节去购物中心当救世军摇铃人。</p>
<p>Her parents were not interested in politics or civic engagement. Ms. Sim always felt that her parents didn't understand or approve of her interest in social issues, activism and eventually journalism.</p>	<p>她的父母对政治和公民参与并不感兴趣。沈绮颖总感觉，父母既不理解也不支持她对社会事务、行动主义乃至新闻报道的兴趣。</p>
<p>But she did not fully understand their disapproval at first.</p>	<p>但是最初她并不完全理解他们的反对。</p>
<p>After receiving a masters in Chinese history she delved into her family's past, especially curious about her grandfather, whom no one ever spoke of. Her mother showed her a photo of a man with a box camera slung around his neck. Over the next eight years she discovered he had been a school principal, businessman and eventually the editor of a leftist newspaper in Malaya. She learned that he had been active in Malaya's Chinese community and was arrested and tortured by Japanese occupying forces during World War II. When the British returned, he wrote anti-colonial editorials, which led to his arrest. Given the choice of staying in jail or being deported, he left to his ancestral village in Guangdong province, leaving his family behind temporarily.</p>	<p>在获得了一个中国历史硕士学位后，她开始研究家族过去，她对从未有人提起的祖父尤其感兴趣。母亲给她看了一张照片，上面的男子脖子上挂着一部箱式相机。在接下来的八年时间里，她发现祖父曾是一位校长、商人，而且后来还成为了马来亚左翼报刊的编辑。她得知，他曾经在马来亚的华人社区活动，后来在二战期间，又遭到了日本侵略势力的逮捕和折磨。当英国人回来时，他写了一些反殖民主义的社论文章，并因此遭到逮捕。在入狱和被驱逐之间，他选择了返回自己位于广东省的祖祖辈辈居住的村落，暂时离开家人。</p>
<p>Ms. Sim only learned this hidden family history in full when she visited her relatives in Gaoshang, a farming village in China, in 2011. Her grandfather is revered as a martyr for the revolution: a six-foot tall obelisk marks his burial place. Ms. Sim often wonders what her grandfather would think of the “New China” he fought for. She is “sure that he would be disappointed” with a lot of aspects of it. But she also suspects he would have approved of her interests in journalism and social issues, as she tries to do what she can “to be useful.”	沈绮颖经常思考，祖父究竟会如何看待他为之奋斗的“新中国”。她“肯定他会”对它的很多方面“感到失望”。但是她还认为，祖父肯定会支持她对新闻和社会事务的兴趣，因为她试图做一些“有用的事”。

Female in Gaza	炮火中的加沙新女性
I have been photographing in Gaza for several years, initially to cover the conflict with Israel, but over time returning because I am mesmerized by the women, and their strength.	我在加沙地带从事摄影多年，起初是报道巴以冲突，但随时间推移，我被加沙女性和她们的力量所吸引。
Gaza is a troubled land, and growing up there isn’t easy. It is a 45-square-mile district, isolated by towering concrete blast walls, reams of barbed wire and patrolling soldiers. At night the drones lull you to sleep. If you stand on the beach and look north you can see lights coming from land that you will never be able to touch. Demarcation and surveillance define your existence. Families are tight, and watchful. In a place as small as Gaza it is impossible to be truly free, many women say.	加沙是一块混乱之地，在那里成长并非易事。这块 45 平方英里（约 116.5 平方公里）的地区被高耸的混凝土防爆墙、无数的铁丝网和巡逻士兵隔绝。夜晚，无人机伴你入眠。如果你站在沙滩向北望去，你会看见触不可及之地的灯光。界限和监视定义你的存在。家人凑在一起，总是保持警觉。许多女性说，在加沙这么小的地方，是不可能拥有真正的自由的。
All eyes and everyone you know is monitoring you – your brothers, cousins and neighbors. “I wish I could leave, even for one day, so I can go to a place where no one knows me,” whispered Doaa Abu Abdo, a	所有的眼睛都在盯着你，你认识的每个人都在监视你——无论你的兄弟姐妹，还是邻居。27 岁的制作助理朵阿·阿布·阿卜杜(Doaa Abu Abdo)轻声说到：“我希望，我有一天能离开，哪怕只有一天，去一个没人认识我的地方。”25

Sabah Abu Ghanem, 14, and her sister wake up early to surf the waves on the Gaza beach before attending school. The sisters place first in many competitions inside the strip, but have never left Gaza to compete. In order to leave and enter another country you must be searched, inspected by an airport-style scanner, and lucky, as exit permits and visas to neighboring countries are hard to come by.</p>	<p>岁的哈迪尔·法兹·阿布沙(Hadeel Fawzy Abushar)是一名歌手，在呼唤和平的多场音乐会上表演。她的梦想是能在约旦河西岸城市拉姆安拉唱歌。14岁的沙巴·阿布·加尼姆(Sabah Abu Ghanem)和姐姐总是起得很早，上学前到加沙海滩冲浪。这对姐妹在加沙许多比赛中夺冠，但她们从来没能走出加沙参赛。想要离开，前往另一个国家，你必须接受被机场用的那种扫描仪搜身、检查，同时需要一些运气，因为出境许可和去邻国的签证难以获得。</p>
<p>Despite hardships, Gaza has one of the finest school systems in the Middle East, with nearly universal literacy. Many young women attend one of the several universities, eventually graduating to become writers, engineers and doctors. Many dream of leaving the strip, to explore the world and find themselves on their own, though they also speak of returning to Gaza. "It's my home," they say. <p>“They’re at the complete mercy of these people who see them almost like slaves: ‘You’re my property, you’ll do what I say,’” Mr. McCurry, 64, said. “They go home, and they’re disfigured, and they don’t have money, and they’re psychologically scarred. They end up coming home humiliated, and it becomes like a stigma. In a way, their lives are ruined.”</p>	<p>“她们完全凭任那些人支配，那些人把她们几乎像奴隶那样对待：‘你是我的财产，我让你干什么，你就得干什么。’”64岁的麦柯里说。“她们回到家中后面目全非，她们没有钱，但心理伤痕累累。她们饱受羞辱回到家中，好像干了丢脸的事情。从某种意义上来说，她们的人生被毁掉了。”</p>
<p>It is not necessarily a new story. A Malaysian couple was recently sentenced to be hanged for murdering their Indonesian maid by starving her, the latest in a series of headline-grabbing outrages. Responding to horrific treatment in countries like Saudi Arabia, the International Labor Organization, or ILO, a branch of the United Nations, passed a treaty to protect domestic workers in 2011.</p>	<p>这其实并不是一个新故事。一对马来西亚夫妇最近因谋杀罪被判处绞刑，因为他们饿死了他们雇佣的印尼女佣，这是一系列引人注目的暴行中最新的一例。联合国分支机构国际劳工组织(International Labor Organization, 简称ILO)，为应对比如沙特阿拉伯等国发生的虐待女佣问题，于2011年通过一项条约，以保护从事家务的工人。</p>
<p>Yet the abuses continue, and only 14 countries have ratified the treaty.Mr. McCurry has always had an eye for portraits, for the survivors who make it through war. <p>These new photos are unsettling. In several, the young women show their scars. Some women stare straight at the camera, but not with the defiance shown by other subjects of Mr. McCurry. Instead, their eyes show pain, and almost beg viewers to pay attention to what happened. Mr. McCurry described taking such a portrait as a collaboration with his subject.	有的妇女眼睛直视摄像头，但不以麦柯里拍摄的其他对象的那种蔑视的眼光，而是充满痛苦的眼光，几乎是在恳求观众，希望他们关心发生了的事情。麦柯里把肖像照描述为自己与摄影对象的一次合作。

I find it more direct and more simple and more honest to shoot people looking straight into my lens."	"我觉得拍摄人的最好方法，是直对他们的眼睛，"他说。"眼睛的表情如此丰富，它们如此之深地表达着人的内心.....我觉得，拍摄直视镜头的人是更直接、更简单、更诚实的方法。"
Mr. McCurry, who has spent about 35 years in Asia, came to this project through Karen Emmons, 54, a Bangkok-based journalist who became interested in the abuse of domestic workers about seven years ago, while researching an ILO report in Indonesia. After winning a small grant from the ILO, she enlisted Mr. McCurry to take the photographs, hoping that his skill and stature could win more attention for the women.	在亚洲工作了已约 35 年的麦柯里，是通过凯伦·埃蒙斯(Karen Emmons)接触到这个项目的，54 岁的埃蒙斯是一位驻曼谷的记者，大约七年前，她在印度尼西亚为国际劳工组织的一份报告做研究时，开始感兴趣家务工人受虐待的问题。在得到国际劳工组织的一笔小经费之后，她请了麦柯里来拍照片，希望能通过他的摄影技巧和名声为这些妇女赢得更多的关注。
They visited shelters in Hong Kong and women back in the Philippines, Indonesia and Nepal, spending a week in each place. Ms. Emmons paved the way for Mr. McCurry at each stop, working with local aid groups to find women willing to be photographed.	他们去了香港的庇护所，还采访了返回菲律宾、印度尼西亚和尼泊尔的妇女，在每个地方呆上一周。埃蒙斯在每个地方为麦柯里做准备工作，通过与当地救援组织合作，寻找愿意被拍照的女性。

<p>Poverty and Uncertainty for Widows of Syrian 'Freedom Fighters'</p>	<p>叙利亚“自由战士”的遗孀</p>
<p>When the first "Martyrs' Wives" residence opened in Ramtha, Jordan, in 2012, local residents and Islamic charities embraced the Syrian refugee widows and families who lost husbands fighting the Assad government. About a dozen of these buildings have sprung up near the Syrian border, a testament to the almost 200,000 lives lost in the conflict.</p>	<p>2012 年，当第一批“烈士遗孀”住宅楼在约旦拉姆萨开放时，当地居民和伊斯兰慈善机构纷纷对这些逃难的叙利亚孀妇和家属表示接纳——这些人的丈夫在抗击阿萨德政府的过程中牺牲。叙利亚边境附近出现了十多座这种建筑，是导致近 20 万人丧生的这场冲突的一种见证。</p>

<p>Tanya Habjouqa, a Jordanian-born and Texas-raised photographer, has been documenting the lives of several of these women and their families for the last two years. Along with the reporter Suha Maayeh, she has gained their trust, obtaining a rare, intimate view of these women — who cover themselves totally except for their eyes the few times they venture outside. "They can't leave, they can't show their faces and they can't show their bodies," Ms. Habjouqa said. "These are women that you rarely gain access to but it was so hard to tell their stories visually. It took a lot of banging my head against the wall to figure out what would make them feel safe."</p>	<p>坦娅·哈布朱卡(Tanya Habjouqa)是一名在约旦出生、在美国德克萨斯州长大的摄影师。过去两年，她一直在记录其中几名女性及她们家人的生活。她与记者苏哈·马耶(Suha Maayeh)一起取得了她们的信任，由此才得以罕见地近距离观察这些女子——在斗胆外出时，她们会把自己完全包裹起来，只把双眼露在外面。“她们不能离开，不能露出脸，不能暴露身体，”哈布朱卡说。“几乎无法接近她们，从视觉角度来讲述她们的故事也非常困难。我绞尽脑汁才弄明白怎样才能让她们觉得安全。”</p>
<p>The women are "extremely vulnerable," she said, because the conflict in which their husbands died is no longer considered a revolution but a complex civil war with sectarian and religious overtones.</p>	<p>这些女人“非常脆弱”，她说，因为她们的丈夫为之献身的冲突不再被人当做一场革命，而是成了一场充满派别与宗教含义的复杂内战。</p>
<p>Now the widows rarely go out except to the market, because they fear being preyed upon by local men. Their daughters quit going to school at age 10 or 11 and spend their days sitting at home with little to do. One teenager told Ms Habjouqa that she spent her days "looking at the rug and counting ants."</p>	<p>如今，因为担心遭当地男子侵犯，除了去集市，这些孀妇很少出门。她们的女儿在10或11岁就会辍学，然后待在家里，无所事事。一名少女告诉哈布朱卡，她每天消磨时光的方法就是“盯着地毯数蚂蚁”。</p>
<p>Unable to work, the women live in poverty and are completely reliant on the Islamic charities that run the buildings. There is a strict sundown curfew, and rules for the female residents prohibit high heels, plucking</p>	<p>由于无法工作，这些女人生活贫困，完全依赖于运营这些建筑的伊斯兰慈善机构。日落之后，这里会严格实行宵禁，而且针对女性住户的规定禁止她们穿高跟鞋、修眉毛，甚至嚼口香糖。</p>

eyebrows and even chewing gum.	
Some of the widows chafe under the rules enforced by the Islamic charities, while others accept them as appropriate for their religious beliefs in order to protect their modesty.	有些孀妇对伊斯兰慈善机构执行的规定感到不满，其他人则全盘接纳，认为这些规定符合她们的宗教信仰，是为了维护她们的庄重感。
Almost all of the women would not allow Ms. Habjouqa to photograph their faces, although some agreed that girls younger than 10 could show their faces. Most said that was for religious reasons, but some also did not want the charities that run the buildings to know they had allowed journalists inside. Ms. Habjouqa befriended several of the widows, but had to operate under severe restrictions. In deference to her subjects' safety concerns, Ms. Habjouqa is using only their first initials in her story.	几乎所有女性都不允许哈布朱卡拍摄她们的面部，虽然有些人同意10岁以下的女孩可以把脸露出来。大部分人表示，这是出于宗教原因，但是还有人是因为不想让运营这些建筑的慈善机构知道她们曾让记者进入。哈布朱卡与其中几名孀妇成了朋友，但是不得不在严格的限制下行动。考虑到对方的安全顾虑，哈布朱卡在故事中只用了她们名字的首字母。
The women are different from their chronicler, who is married to a Palestinian lawyer, has two small children and divides her time between Israel and Jordan. Ms. Habjouqa describes herself as much more liberal than her subjects, but adds that they often surprised her.	这些女人与她们的记录者不同。哈布朱卡嫁给了一名巴勒斯坦律师，有两个年幼的孩子，经常往来于以色列与约旦之间。哈布朱卡说，与她的拍摄对象相比，自己的自由主义色彩要浓厚得多，但她还说，她们经常让她吃惊。
"These women are some of the most sexually frank of any women that I have ever encountered in my life," she said, "and they are quite dark and funny."	"她们是我一生中所遇到的在性方面最直白的女人，"她说，"而且她们非常沉郁，也很有趣。"
They are also practical and understand the dangers of their situation. It is common for foreign donors to come by and offer their assistance — and then inquire if they have any teenage daughters available for marriage. While none of the widows have allowed daughters under 15 to be wed, they know that marriage may be the only way out of their current impoverished and vulnerable circumstances. Actually, the	她们也很实际，知道自身处境的危险性。经常有外国捐赠者前来提出给予帮助——然后问她们是否有十多岁的女儿可以出嫁。虽然没有哪个孀妇曾经允许15岁以下的女儿嫁人，但她们知道，婚姻可能是帮她们逃脱目前的贫困和弱势地位的唯一途径。哈布朱卡说，其实，偶尔举行的小型婚礼会为这些女性提供唯一的社交消遣，最常见的礼物就是女式内衣，偶尔会是脱毛工具。

<p>occasional small wedding party supplies the only social distraction for these women, Ms. Habjouqa said, with the most common gifts being lingerie or the occasional hair-removal device.</p>	
<p>In September, one of her teenage subjects who had sworn that she would marry for love agreed to become the second wife of a well-off Saudi. She told Ms. Habjouqa that she had “no other choice but dying slowly in the apartment.”</p>	<p>今年9月，作为她拍摄对象的一名少女同意嫁给一个富裕的沙特阿拉伯人当二老婆——她曾发誓要为爱结婚。她告诉哈布朱卡，自己“没有其他选择，恐怕只能在公寓里慢慢死去”。</p>
<p>Ms. Habjouqa titled the project “Tomorrow There Will Be Apricots” after an Arab proverb that she says is not as hopeful as it may sound.</p>	<p>哈布朱卡给这个系列起名《明天会有杏子吃》(Tomorrow There Will Be Apricots)。这是一则阿拉伯谚语。她说，这句话并不像它听起来那样充满希望。</p>

<p>Photographing the Moments Between War and Peace</p>	<p>一线间，战争与和平</p>
<p>You can’t just flip through James Hill’s new book, “Somewhere Between War and Peace,” for a quick survey of his 20-years-and-counting career. Not only because the images are stark and demanding — but you’re also physically prevented. The pages are cut to different lengths, and the shorter pages carry Mr. Hill’s stories behind the photos. Thumb through, and you’ll land solely on those pictureless, text-only pages.</p>	<p>你无法只靠快速翻阅詹姆斯·希尔(James Hill)的新书《战争与和平之间》来了解他已有20载、而且年头还在累加的职业生涯。这不仅是因为书中的照片鲜明而情感强烈——你实际上也做不到快速翻阅。书页被裁剪成了不同长度，短一些的书页写有希尔照片背后的故事。用拇指顶着拨过这本书，你只会停在那些没有图片、唯有文字的书页上。</p>
<p>To view, much less appreciate, his pictures, you must take your time and pick apart those pages. He asks readers not merely to view, but also to contemplate and absorb. That it’s a tactile experience makes sense. He describes this project in feely terms.</p>	<p>要看——更不用说欣赏——他的照片，你必须慢慢来，挑开那些书页。他请读者不仅要看，还要思忖、汲取。说这是一个触觉体验是有道理的。他用触人心灵的语言描述这个拍摄项目。</p>
<p>“I think journalists and photojournalists experience a lot of raw emotion</p>	<p>“我觉得记者和摄影记者在工作时是要经历很多真情流露的，”他说。“回头再</p>

<p>when they work," he said. "Going back to those emotions is not so simple because the feelings themselves are not so simple."</p>	<p>去感受这些情感并不容易，因为这些情感本身就并不简单。”</p>
<p>Mr. Hill began his career in 1991 after deciding not to follow his father into corporate finance. He took a year to travel — with a camera he would fall in love with — and “find himself.” He was accepted into a photography program in London. “I immediately went out and bought some black clothes,” he wrote.</p>	<p>希尔决定不步父亲后尘从事公司财务之后，于1991年开始了他的职业生涯。他用了一年时间旅行——与一部他心爱的相机一起——并“寻找自己”。他被伦敦的一个摄影课程录取了。“我立刻出门买了几件黑衣服，”他写道。</p>
<p>His book begins and ends with black-and-white pictures of particular personal significance. The first is of a military retiree donning a bowler hat who reminded him of his ex-parachutist World War II veteran father; the last, an image of sublimity — his wife floating in a pool outside Rome, utterly tranquil. In between, there is gorgeous full color, yet even those pictures exude a certain grayness. Ambiguity can confound any project tackling conflict, whether it's the justness of the American wars in Iraq or Afghanistan or the seemingly endless fighting in Nagorno-Karabakh, Georgia, Azerbaijan and other former Soviet republics. Or the moral grayness of charming an arms dealer into sitting for a portrait. Mr. Hill has seen some terrible things and made them beautiful. Each of these images, especially his war coverage, refuses to release Mr. Hill from its grip.</p>	<p>他的书以对他个人具有特别意义的黑白照片开始和完结。第一张是一位戴礼帽的退伍军人，他令希尔想起了他身为前伞兵、二战老兵的父亲；最后一张，是一幅至美画面——他的妻子漂浮在罗马城外的一个泳池中，全然安详。开头结尾之间，是美艳饱和的色彩，但甚至那些照片都散发着灰暗之感。暧昧的特性可以让任何触及冲突的摄影变得扑朔迷离，无论是关于美国在伊拉克或阿富汗的战争的正当性，或是关于在纳戈尔诺-卡拉巴赫、格鲁吉亚、阿塞拜疆和其他前苏联加盟共和国的看似永无休止的战事的正当性。抑或是吸引一位军火商坐下来，为他拍张肖像照这一行为所处的道德灰色地带。希尔目睹过一些可怖的事物，然后把它们变得美丽。这里的每一张照片，特别是他对于战争的报道，都紧紧扼住希尔的心魄。</p>
<p>“I think a lot of photographers find it's difficult to digest what they've been through,” he said. “It's painful for those who have witnessed this violence to relive those moments, and understand also the fine line between being the observer and being the participant in these things.”</p>	<p>“我认为很多摄影师都觉得消化他们所经历的事情很难，”他说。“对那些目睹了这样的暴力的人来说，从那些时刻中解放出来，并理解在这些事情中作为一名旁观者和一名参与者的微妙界限，是痛苦的。”</p>
<p>Yet bearing witness was why photography appealed to him. When it felt</p>	<p>但见证历史正是摄影吸引他的原因。当他觉得是时候将作品集集成书之时，</p>

<p>right to compile a book, Mr. Hill scoured through thousands of photos, looking for pictures that meant the most to him, regardless of the historic occasion or whether he even knew the subject. "The idea wasn't to do a greatest hits," he said. And the text in this project – which took two years to write – was as integral as the images, expanding on the moment or meaning of any given picture.</p>	<p>希尔翻阅了数千张照片，寻找对他意义最为重大的那些，无论拍摄的历史时刻是什么，或拍摄对象是否是他认识的人。“当时的想法不是要做一个最佳照片精选，”他说。这项报道项目中的文字部分——用了两年时间写就——与照片一样不可或缺，文字展开讲述了每张照片捕捉到的时刻，或照片的意义。</p>
<p>"The stories aren't that long," he said, "but in fact it was much harder than I imagined to be precise with my feelings." He drew from his diaries, yet there were occasions when long-ago pictures triggered an elusive memory, where image was sharp but the context hazy. The photo of the young man asleep after the Russian Orthodox Easter stumped Mr. Hill. His diaries didn't help and the contact sheets got him only so far. Still, the mystery itself is important.</p>	<p>“这些故事并没有那么长，”他说，“但事实上，准确描述我的感觉比我想象得要难得多。”他从他的日记中寻找过去，但时有年代久远的照片触发难以言述的回忆，在那些回忆里，图像是鲜明的，而故事背景一片微茫。一张一个男人在俄罗斯东正教复活节后熟睡的照片让希尔满腹疑惑。他的日记和联络簿都没帮上忙。然而，这个谜本身就是重要的。</p>
<p>"His identity remains a mystery, but it does not matter," Mr. Hill wrote. "Sometimes a photograph is only a hint, a souvenir of a forgotten moment – one of the thousands making up the jigsaw of our lives."</p>	<p>“他的身份一直是个谜，但是这没关系，”希尔写道。“有时，一张照片只是一丝提示，一个来自某个被遗忘的时间点——那数千个组成我们人生的拼图的时间点中的一个——的纪念品。</p>
<p>In his introduction, Mr. Hill described his life as a photographer as occupying an emotional limbo, where he uneasily tries for a balance between living life in the present and living with the past. "I am caught between the duty to remember and the desire to erase," he wrote.</p>	<p>在他的导言中，希尔将他作为一名摄影师的生活描述为盘踞于情感的中间地带，在那里，他焦虑地竭力找寻活在当下和背负过去两者间的平衡。“我被困在了记住的义务和遗忘的渴望之间，”他写道。</p>
<p>"Between War and Peace" is full of such divisions, and all the explorations in between. "I talk, in the book, about the reality you experience in war: That it's this fine edge – it's a difficult one to walk on because the pain sits in front of you," he said.</p>	<p>《战争与和平之间》充斥着这样的分裂，以及这中间的种种探索。“在这本书里，我谈论了你在战争中所经历的现实：正是这纤细的边缘——这是一个很难在其上行走的边缘，因为那痛楚就在你面前，”他说。</p>
<p>Recalling that first image of the man in the hat, Mr. Hill expanded on</p>	<p>回忆起那第一张戴帽子的男人的照片，希尔展开叙说了那张照片是如何触动</p>

<p>how that photo spoke to him, how much the man meant to him even though he was a stranger in a crowd, and about his father's completely opposite reaction to trying to make sense of conflict.</p>	<p>他的心灵、那个男人——即使他只是人群中的一个陌生人——对他多么重要，以及他父亲试图理解战争时产生的截然相反的反应。</p>
<p>"It's funny, my father always found it impossible to talk to me about his military career and his generation," Mr. Hill said. "I know he saw a lot of action but something in him always found it too painful or too difficult to talk about with me, and I felt he had a different role. He was a combatant and I was a photographer," yet they both went into their situations with a sense of duty, and both saw unimaginable horrors.</p>	<p>"很好笑，我的父亲一直都无法和我谈起他的军事生涯和他那一代人，"希尔说。"我知道他目睹了许多行动，但是他内心的某种东西总是让他觉得与我谈论起这些太痛苦、或者太难了，我觉得他扮演了一个不同的角色。他曾是一名作战士兵，而我是一个摄影师，"但他们两个都带着一种使命感投身了他们所处的境地，他们两个也都目睹了无法想象的恐怖。</p>
<p>"I respect and understand that it was hard to do this, and that my father was someone very different from me — yet I found a lot more in common with him than I thought," Mr. Hill said. "We're not so far away as we think in this — we're all much more closer in our experiences and together than we imagine."</p>	<p>"我尊重、且明白这样做很难，我的父亲是一个与我非常不同的人——但我发现了我和他比我想的多得多的共同点，"希尔说。"在这件事上，我们不像我们想的那样相距那么远——我们都比我们想象得在经历上更贴近、更沉着。"</p>

<p>Celebrating the Chinese Lion Dance</p>	<p>美国舞狮者：狮身之下的中华情结</p>
<p>Southern Chinese lion dancing comes from an ancient tale: Terrorized by a mythical monster, a horde of villagers descended from the mountains and huddled under an enormous monster of their own in an attempt to repel the beast. Year after year, to the accompaniment of firecracker bursts and drums, the ritual is repeated as protection against evil spirits. At least that's one version.</p>	<p>中国南方的舞狮起源于一个古代传说：由于害怕一只神兽，一群村民从山中下来，挤在一个自制的巨型怪兽身下，试图将神兽赶走。年复一年，舞狮作为一个辟邪的仪式伴随着爆竹和击鼓声上演。至少这是一种说法。</p>
<p>"Everyone tells it differently," said Jason Lam.</p>	<p>"每个人的说法都不一样”，杰森·林(Jason Lam)说道。</p>

Like most lion dancers, he took to the stage during anniversaries, birthdays, store openings and parades for celebrations like the Chinese New Year, Feb. 19 this year. While studying at the International Center of Photography last year, Mr. Lam decided to step outside the lion costume to view the tradition he said serves as a hinge between his Asian ancestry and American upbringing. Friends in San Francisco, where Mr. Lam is from, put him in touch with the Wan Chi Ming Hung Gar Institute in Manhattan. There, he spent nine months documenting a brotherhood of young martial arts enthusiasts and performers expressing their heritage.</p>	<p>念日、生日、店铺开张和庆祝春节等节庆游行时表演。今年的春节在2月19日。在去年于国际摄影中心(International Center of Photography)学习时,杰森·林决定从舞狮的戏服中抽出身来,从其外审视这个传统习俗——他认为舞狮是一条联结着他的亚裔背景和在美成长经历的纽带。杰森·林来自旧金山,那里的朋友把他介绍给了位于曼哈顿的温志明洪拳国术总会(Wan Chi Ming Hung Gar Institute)。在那里,他花了九个月的时间,记录了一群年轻武术爱好者、同时也是一群将自身文化遗产外化的表演者之间的兄弟情谊。</p>
<p>"You're one person at home with a Chinese name and another person outside with an English name," Mr. Lam said. On Mount Everest, Surviving an Earthquake and an Avalanche	摄影师讲述珠穆朗玛峰雪崩险情
Roberto Schmidt, the chief photographer for South Asia for Agence France-Presse, was at the Mount Everest base camp in Nepal when an avalanche triggered by a massive earthquake hit. His dramatic images of the avalanche and its aftermath were published around the world. Mr. Schmidt, 49, recounted his experiences in a phone conversation with James Estrin, which has been edited.	罗伯托·施密特(Roberto Schmidt)是法新社(Agence France-Presse)南亚首席摄影师。当强烈地震引发雪崩时，他正在尼泊尔的珠峰大本营。他所拍摄的雪崩及其后续影响的照片惊心动魄，被发表在了世界各地。49岁的施密特在与詹姆斯·埃斯特林(James Estrin)的电话交谈中回忆了自己的这段经历，以下是经过编辑的谈话内容。
Q. Why were you at the base camp?	问：你为何会在大本营？
A. We had planned to do a couple of stories at the base camp a year after the disastrous avalanche that killed 16 Sherpa guides. Ammu Kannampilly, a reporter who is the bureau chief for the A.F.P. office in	答：一年前那次灾难性的雪崩共导致16名夏尔巴人向导丧生，我们原本打算在大本营制作几个相关报道。记者阿穆·康南皮利(Ammu Kannampilly)是法新社尼泊尔分社社长，她当时和我在一起，也在拍摄视频。地震发生时

<p>Nepal, was with me and also doing video. It was a coincidence that I was there when the earthquake hit.</p>	<p>我恰好在那里，这纯属巧合。</p>
<p>Q. What was that like?</p>	<p>问：当时的情况如何？</p>
<p>A. Unexpected. We had just arrived and I had walked up a little ahead of my colleague Ammu, and we were staying in a tent camp that a trekking company had up there. I got to the main tent – a dining tent – maybe five meters long by two-and-a-half meters wide. I was just relaxing there after the hike up. The base camp is over 5,000 meters high, and for someone who is not used to it, that elevation can be pretty taxing. Ammu came in and was joking with me and then the ground started shaking.</p>	<p>答：完全出人意料。我们刚刚抵达那里，我走在同事阿穆前面一些，我们待在一个徒步旅行公司在那儿设立的帐篷营地里。我去了主帐篷——一个用餐帐篷——它可能5米长，2.5米宽。当时我就在那里进行登山后的放松。大本营的海拔有5000多米，对于那些不适应它的人，这个高度可能会让人非常吃力。阿穆走进来和我开玩笑，然后地面就开始震动。</p>
<p>The funny thing is I thought the tremor was caused by an avalanche. I had no idea that there was an avalanche starting to form and that it was caused by a massive earthquake with the epicenter just west of Kathmandu. We walked out of the tent to see what was happening and then we heard this very loud, deep rumbling noise. Though I am far from an expert mountaineer, I knew something was coming. It was a very cloudy day so you couldn't see anything when you looked up.</p>	<p>有意思的是，我以为震动是由雪崩引起的。我完全不知道雪崩正在形成，而且它是由一场大地震引起的，它的震中就在加德满都西边一点。我们走出帐篷，想看看是什么情况，然后我们就听到了那种巨大的、轰隆隆的声响。尽管我远非专业登山者，也知道即将有事发生。当天阴云密布，抬起头时什么都看不到。</p>
<p>The noise got deeper and stronger and Ammu rushed into the tent to get her camera. I turned to my left and looked up and suddenly out of the clouds came this massive exploding avalanche of snow that looked like a cloud. I just had time to raise my camera and shoot three frames. As I looked through the viewfinder, I thought, "Man, I'm shooting too tight." I then dove into the tent and shouted to Ammu, "Get down, get down, get down!" because this thing was right on top of us. I don't</p>	<p>这种噪音变得越来越深沉而强烈，阿穆冲进帐篷去拿相机。我转向左边，抬起头，大规模的爆炸性雪崩突然冲破云雾。我刚好来得及举起相机，拍了三帧。当我朝取景器里看时，我想，“天呐，我离得太近了。”我连忙躲进帐篷，朝阿穆呼喊“趴下，趴下，趴下！”，因为这东西就在我们头顶。我不记得是趴在地上，还是躲到桌子下面了。</p>

remember hitting the ground or getting under the table.	
There was a sudden wind and then just a crash like a wave. It was like when you're in the ocean and you measure the waves wrong and a wave comes and crashes over you and you're tumbling right-side down, right-side up. You have no idea what's happening.	突然吹来一阵风，雪崩像波浪一样涌来。就像是你在海上的时候，对波浪的大小估算有误，一个浪打来，砸到你头上，让你整个人翻来滚去，根本不知道发生了什么。
I came to rest on my back, but I think a table might have been near my legs protecting me. All I could hear was, "pat, pat, pat," the snow accumulating on top of me. I was in a panic and thinking: "I don't want to die. I'm going to be buried alive. I don't want to die like this."	我最后后背着地，停了下来，我认为我的腿旁边可能有张桌子保护了我。我只能听到“啪啪啪”的声音，雪正在我的头顶堆积。我当时很慌，心想，“我不想死。我要被活埋了。我不想这样死去。”
I'm in complete and utter survival mode and I'm trying to keep things away from my face. And then suddenly there was complete silence – everything was done.	我当时为了保住性命，奋力挣扎，试着不让任何东西遮住我的脸。突然间，四周一片寂静，一切都结束了。
Ammu called, "Roberto, Roberto," and I asked if she was O.K. She said she was, but she was in pain. At that point, two arms reached in, pulled my arm and dragged me up. The Sherpa had taken refuge under a log and was trying to pick us up out of the snow. My left leg was pinned under a chair and there were tons of stuff on top of me. Once I was standing, I could see I was in one piece and could move my arms and my legs. I was conscious and what seemed to me at the time clearheaded and I thought, "I'm alive; I'm good to go."	当时阿穆呼喊道，“罗伯托、罗伯托”，我问她是否还好，她说还好，但她其实处在疼痛之中。那时，两只手伸了过来，抓住我的手臂，把我拉了上来。那个夏尔巴人此前躲在了一根圆木下面，他当时正在试着把我们从雪里拉出来。我的左腿被绊在了一把椅子下面，头顶上有无数的东西。当我站起来时，发现自己基本完好无损，胳膊和腿还能动。我是有意识的，在当时感觉自己似乎头脑清醒，我想，“我还活着；可以开始了。”
Q. That's amazing fortune.	问：这真的太幸运了。
A. What are the odds of one, being at base camp during an earthquake, and, two, surviving an avalanche? Wow. What just happened? Then I realized that I'm on a huge story, I survived and I needed to get to work.	答：第一，在地震期间身处大本营；第二，能在雪崩中活下来，这样的几率有多大？哇，刚才发生了什么？然后我才意识到自己经历了一个重大事件，我活了下来，接着需要开始工作。
I asked Pasang Sherpa, a fantastic man with a big heart, please help me	帕桑·夏尔巴(Pasang Sherpa)是个非常不错的人，心胸宽广，我请求他帮我

<p>look for my camera, and he did. He found it and handed me the camera, which was basically encased in a block of ice. And, oh my God, it was working! So I cleaned it up as best as I could while he was looking for survivors in other tents.</p>	<p>寻找相机，他照办了。他找到了相机，把它递给我，当时相机基本被包裹在一个冰块里。而且，天呐，它还能用！所以我尽力对它进行了清理，他则去其他帐篷寻找幸存者了。</p>
<p>Q. So you're alive and your camera is working. What do you do?</p>	<p>问：你还活着，而且你的相机还能工作。你做了些什么？</p>
<p>A. One of our porters had hurt his leg, it was probably broken, so we took out a sleeping bag and made a makeshift stretcher. As we carried him away I started taking pictures. At one point a rescue guy told me I should stop taking pictures and help out. I said, "Tell me what to do." I ended up helping a little with the very limited knowledge that I have.</p>	<p>答：我们的一个搬运工的腿受了伤，很可能是骨折，所以我们拿出一个睡袋，做了一个临时担架。我们把他抬走后，我开始拍照片。当时有个救援人员跟我讲，我应该停止拍照，去帮忙。我说，“告诉我应该做什么。”最后，我以非常有限的知识帮了一点忙。</p>
<p>I took a man who was completely shellshocked down to a medical tent for people who were less seriously injured. His leg wasn't working and he kept saying that he didn't want to die and that he wanted to see his son. I told him I have a 3-month-old boy and we talked about them as we walked. I left him at the tent and then went back and started taking more pictures.</p>	<p>我把一个完全处于震惊之中的人带到了一个为伤势并非特别严重的人准备的医疗帐篷里。他的腿已经不听使唤，并且一直在说我不想死，想见自己的儿子。我告诉他，我有个3个月大的儿子，我们一边走，一边谈论他们。我把他留在帐篷里，然后回去，拍了更多照片。</p>
<p>Q. It sounds like you were on autopilot.</p>	<p>问：听起来好像你的举动都是下意识的。</p>
<p>A. I knew I was on a big story and I needed to work. I was in shock and it was really difficult to move because we weren't acclimatized to the height. You do the best you can.</p>	<p>答：我知道我经历了一个重大事件，我需要工作。我当时还处于震惊之中，而且行动非常困难，因为我们还不适应那个高度。你只能尽力而为。</p>
<p>Q. How did you get your images out?</p>	<p>问：你是如何把图片发出去的？</p>
<p>A. The weather was really, really bad so I had to wait until the next morning to connect my satellite terminal and phone. The first thing in the morning, choppers started arriving at the base camp to evacuate the critically injured, so I had pictures of that to transmit, too.</p>	<p>答：天气真的非常、非常糟糕，所以我必须等到次日上午才能连上我的卫星终端和电话。上午第一件事，直升机开始抵达大本营来转移那些伤势严重的人，所以我还要传输那些照片。</p>

All of this time there were more aftershocks and you could hear avalanches happening nearby but you couldn't see them.	在这段时间，有很多余震，你能听见附近有雪崩，但你看不见它们。
Q. It sounds terrifying.	问：听起来很可怕。
A. For someone who's not used to that it was pretty scary.	答：对那些不习惯这种情况的人，真的非常可怕。
Q. You've been in some dangerous situations — you've covered war.	问：你原来也曾身处险境——你曾做过战地记者。
A. The thing is not knowing and not understanding very well what's happening.	答：问题是，你不知道，也不是非常理解正在发生的事。
Nature is very powerful and is something you can't control. In war you can think, "Should I get closer or should I not get closer?" It's sort of a gut feeling. You read other people's reactions. There seems to be a little bit of measure of how far you want to push it or not. In a way it feels like you have a little bit of control.	自然的力量非常强大，超出了你的控制范围。在战争中，你还可以思考，“我应不应该再靠近一点，我是否不该靠得更近了？”这是一种直觉。你可以看到别人的反应。似乎你可以在一定程度上做出选择，冒险或不冒险。所以，从某种层面而言，你似乎拥有一点控制权。
In this situation there is nothing. You are just there. You have no control over anything. Everything is happening around you and you just pray that somebody is watching over you and that you will make it through.	在这种情况下，什么都没有。你就是在那里而已。你无法控制任何事。事情发生在你身边，你只能祈祷有人在守护着你，你能顺利扛过一切。
You work as fast as you can, as best as you can and when you have enough you get out. The risks are high and you don't really understand what is happening around you, so once you get enough pictures you just leave.	尽可能快地工作，尽最大努力工作，拍够了后就赶快离开。风险很高，你真的不知道周围发生了什么事情，因此一旦拍完足够的照片就马上离开。
Q. How did you get down?	问：你是怎么下山的？
A. As soon as I knew I had a lot of pictures of the evacuations, I didn't think that staying to get more images was worth the risk. So I transmitted the pictures as quickly as I could — I didn't even check if they had arrived. I closed everything down and we started walking down. After 40 minutes there was an aftershock that was very, very	答：我一发现自己已经拍了很多关于撤离的照片，我就觉得冒险留在那儿拍更多照片并不值得。因此，我尽可能快地传输照片，我甚至都没检查照片是否传到。我关掉了所有器材，开始往下走。40分钟后，发生了一次非常强烈的余震，我能听见另一场雪崩到来的声音。

strong and I could hear another avalanche coming.	
We walked down the mountain, stopped at the first town, had something to eat, then kept on walking to the next town. It was about a four-hour walk. On Tuesday, we got a helicopter ride to Lukla and arrived in Kathmandu on Wednesday.	我们走下山，在路经的第一个小镇停了下来，吃点东西，然后继续上路前往下一个城镇。大约走了四个小时。周二，我们乘坐直升机到了卢卡拉，周三抵达加德满都。
Q. What did you learn from this experience?	问：你从这次经历中学到了什么？
A. I already knew that nature is very, very powerful and you are nothing. We think we control things and we really don't. But this was reinforced.	答：我早就知道大自然非常、非常强大，而我们非常渺小。我们觉得我们能够掌控事物，实际上却做不到。现在，我更是对此深信不疑。
I feel very, very lucky that I was able to be there, survive it and tell the story. And once again, as a journalist I witnessed the cohesiveness of humans in the face of tragedy. Everybody really pulled together. Everyone was helping. It is always comforting to see people coming together to pull through a difficult situation.	我觉得自己非常、非常幸运，能够出现在那里，而且活了下来，可以讲述这些故事。作为一名记者，我再次见证了人类面对灾难时的凝聚力。大家齐心协力，每个人都在帮忙。看到人们一起渡过难关，总能让人感到欣慰。
You are always torn between helping out or taking pictures. It's a constant conflict. What do you do at that moment? What is your call?	你总会陷入帮忙还是拍照的两难境地。这种纠结不会停歇。你在那一刻会怎么做？你的决定是什么？
I think I'm better at taking pictures than in helping people because that's what I know how to do. It's my job. But if people need help, you help as best as you can. I'm not a doctor, but even a kind word to someone or helping out here or there goes a long way. I think it's possible to do both.	与帮助别人相比，我觉得自己更擅长拍照，因为我知道该怎么拍照。这是我的工作。但如果有人需要帮助，就要尽力帮忙。我不是医生，但一句友善的话，或者这里那里帮点小忙，都会大有帮助。我觉得两者兼顾的可能性是存在的。

Great Men (Mostly) Through History	权力的美学：看领袖们喜欢怎样的肖像
In the 19th century, eminent smart guys like the Scottish author Thomas Carlyle popularized the Great Man theory, the idea that history was a shapeless wad of ground beef till a great man came along to	十九世纪的苏格兰作家托马斯·卡莱尔(Thomas Carlyle)等著名的聪明人士曾大力宣扬伟人理论，其主要思想是，历史原本是一团没有形状的牛肉馅，直到出现了一位伟大人物，将其塑造成一个坚实的汉堡包。至少用某种语言

<p>make a sturdy hamburger of it. Or something like that. Carlyle had his contemporary critics, of course, but confronted with images from "Portraits of Power," a fine art photo project by Alejandro Almaraz, he might have reconsidered his theory.</p>	<p>来说是这样。当然，卡莱尔有过同时代的批评者，但面对亚历杭德罗·阿尔玛拉兹(Alejandro Almaraz)艺术摄影项目《权力的肖像》(Portraits of Power)中的图片，卡莱尔也许会重新考虑自己的理论。</p>
<p>Mr. Almaraz, a photographer, teacher and researcher based in Buenos Aires, superimposed pictures of various national leaders within a single frame, a ghostly layer cake of movers and shakers. The individual likenesses of history's notables — those of which monuments and statues are made — are overlaid into sameness. The project comprises mostly men — Margaret Thatcher alone, with her helmet dome of iron-willed hair, stands out — but picking the individual greats out of the composites isn't the point.</p>	<p>阿尔玛拉兹是布宜诺斯艾利斯的一位摄影师、教师兼研究人员，他把各个国家领导人的肖像叠加起来，合成为一个框架中的图片，得到这些呼风唤雨人物的幽灵般的千层饼。这些历史重要人物的个人肖象、这些成为纪念碑和雕塑的个体形象，被叠加成具有高度同一性的图片。这个项目主要由男性构成，只有玛格丽特·撒切尔(Margaret Thatcher)意志坚强的、钢盔般的头发颇为突出，但是，从这些合成中认出具体的某位伟人并不是项目的目的。</p>
<p>Mr. Almaraz noted the sameness in how leaders presented themselves to the people, an "aesthetic of power," he said.</p>	<p>阿尔玛拉兹指出，领导人如何把自己呈现在人民面前的方式具有同一性，这是一种“权力审美”，他说。</p>
<p>"The idea was very simple," Mr. Almaraz said. "I was trying to show how power depicted itself."</p>	<p>"这个计划的想法很简单，"阿尔玛拉兹说。"我在尝试展示权力如何刻画自身。"</p>
<p>To make the images, he plunged into the library with his camera, setting up what he called a "little photo studio." He would copy photographs of some of the harder-to-find portraits — including paintings, if necessary — and some of his finished productions combine dozens of faces. Others, not as many: the overlays of the North Korean Kim dynasty appear relatively easier to read because, unrestrained by term limits, they clung to power far longer. Teeth make an appearance only in latter-day frames — in the 20th century, power is a clenched smile.</p>	<p>为了制作图片，他带着自己的相机一头扎进图书馆，建了一个他称之为“小照相馆”的工作场所。他翻拍了一些不容易找到的肖像，如果有必要的话，还包括了一些画像，他制作的图片有些结合了几十个面孔。有些则没有那么多：朝鲜金氏王朝的肖像叠加看上去比较容易认，因为由于没有任期限制，金家人把持权力的时间长得多。牙齿只是在近代肖像中才出现的——权力在20世纪是紧咬牙齿的微笑。</p>

<p>And so Mr. Almaraz forces the viewer to think of the powerful in the agglomerate, as an anonymous or monolithic group for study by sociologists. Behold the world's leaders' shared traits: 20th-century United States presidents favored a clean-shaven look. They were all white (slide 2). All the presidents of South Africa since apartheid ended have been black. Prime ministers of imperial Japan preferred splashy uniforms; Finnish presidents, suits. North Vietnamese presidential portraits are cropped close and stare right at you, like a terrifying passport photo snapped by a shaking hand. Mexican presidents sit back from the camera and prefer to pose in front of bookshelves.</p>	<p>就这样，阿尔玛拉兹迫使观众从汇集的整体上思考权力，把权力作为一个匿名或单一的社会学研究对象。让我们来看看世界领导人的共同特征吧：20世纪的美国总统喜欢胡子刮净的样子。他们都是白人（幻灯片2）。南非自从结束了种族隔离制度以后，所有的总统都是黑人。大日本帝国的首相喜欢穿耀眼的制服；芬兰总统喜欢穿西装。越南民主共和国主席的肖像有更多的面部、而且眼睛直盯着你，像是用颤抖的手拍下的一张可怕的护照相片。墨西哥总统坐在离相机远点儿的位置上，而且喜欢用书架作背景。</p>
<p>The homogeneity also dictated how Mr. Almaraz grouped images, to a certain extent. "The position of the head, the guy in the background — when these images change, I start a new portrait," he said. "The pictures tell me when I have to finish a series." So within a time frame of, say, the Soviet Union, 1917 to 1991, the leaders of the Communist regime present themselves similarly, and a visual continuity prevails. But presidents of the subsequent Russian Federation strive less for a "fearless leader" look and more of a "Look, we're open, mainstream global politicians in unflashy suits, who invite your business and mean no harm" kind of look (Putin excepted).</p>	<p>同质性在一定程度上也决定了阿尔玛拉兹如何组合图片。“头的位置，背景中的人，如果照片中的这些东西有变化，我就开始制作一张新图片，”他说。“照片决定了我何时结束一个系列。”在一个时间框架内，比如在1917年至1991年的苏联，共产党政权的领导人以类似的方式展示自己，因此形成了一种视觉上的连续性。但苏联之后的俄罗斯联邦总统寻求更多的，不是“无所畏惧的领袖”的形象，而是一种“你看，我们是开放的、身着单调西装的全球主流政治家，我们欢迎你们的企业，我们不会伤害你们”的形象（除了普京）。</p>
<p>Carlyle believed in heroes and in the ability of individual heroes to sculpt history out of an era's raw materials. But from a 21st century perspective, that view seems outdated, and Mr. Almaraz's composites serve to undermine that theory instantly and visually. Many, from some 21st century perspectives, have a cynical view of power, especially any</p>	<p>卡莱尔相信英雄、相信英雄个人用一个时代的原材料塑造历史的能力。但是，从21世纪的角度来看，这种观点似乎已经过时了，阿尔玛拉兹的合成图片具有在瞬间和视觉上挖该理论墙角的作用。许多人以21世纪的角度，对权力持怀疑态度，尤其是对自称能给人们带来好处的权力，所以，这些合成图片中幽灵般的形象暗示了权力的恐怖，就连阿尔玛拉兹都感受到了其令人不</p>

<p>good that it might profess to serve, so the ghostliness of the pictures hints at the menace of power, an unnerving quality that touches even Mr. Almaraz.</p>	<p>安的特征。</p>
<p>"To be honest, it's not the kind of image that I would like to have in my house," he said. "But some of them, I think are very beautiful."</p>	<p>"实话说，这不是那种我想挂在我房间里的图片，"他说。"但我觉得他们中的一些很美。"</p>

<p>many unmarried men work as farmers in rural villages and have little income. And because it's traditional for husbands to make more than their wives, high earning women, like Ms. Xin, have to compete for the attentions of a smaller pool of eligible bachelors who live in the city. Ms. Lech, 24, said she was baffled by the frequent news reports, especially since they didn't humanize the women behind the numbers. They were missing a sense of who these women were, and how they were experiencing single life.</p>	<p>入女性必须为获得城市里少数符合条件的单身汉的关注而竞争。24岁的莱赫表示，频繁的新闻报道让她感到困扰，特别是因为这些报道没有体现数字背后这些女性作为人的属性。它们缺少对这些女性及她们如何过单身生活的认识。</p>
<p>"It wasn't reportage; it wasn't personal," she said. "It was statistics. I felt the word 'shengnu' was really offensive, and I couldn't understand how women could be called leftover and be O.K. with that."</p>	<p>"这不是新闻报道；也没有关注人，"她说。"这是统计数据。我觉得'剩女'这个词是令人反感的，我无法理解女性怎么会被称为剩女，而且还去接受这一称呼。"</p>
<p>Before traveling to Shanghai early last year, Ms. Lech mined Chinese dating sites looking for successful single women who would allow her to document their daily lives. She traveled to Beijing and spent several months living with many of the women she found online and received a grant from Lens Magazine China to continue documenting the story.</p>	<p>在去年早些时候前往上海之前，莱赫在中国的交友网站寻找愿意让她记录日常生活的成功单身女性。她去了北京，并与她在网上找到的很多女性共同生活了几个月。她获得了中国《Lens 视觉》杂志提供的资金，会继续记录这些故事。</p>
<p>The women she followed ranged in professions and interests, each with their own personal narrative about the single life. Zhu Chi, a 34-year-old television host, told Ms. Lech that she didn't want to compromise on a husband less successful than she was. Zhu Meiting, 29, an English teacher in Beijing, said she often lied to her family members about her dating life so they would stop setting her up on blind dates.</p>	<p>她追踪的这些女性的职业和兴趣各异，每个人都有着自己对单身生活的描述。34岁的电视台主持人朱池（音）告诉莱赫，她不想做出妥协，找一个不如自己成功的丈夫。29岁的朱美婷（音）在北京担任英语老师，她表示自己经常向家人撒谎，称自己在恋爱，这样他们就不会安排她相亲了。</p>

To her surprise, Ms. Lech said, many of the women she spoke to didn't mind being called shengnu, rather it was the pressure to be married from their parents and family members that caused the most stress.</p>	<p>们可以自己过上这种生活，不需要为了得到这些而结婚。“让莱希意外的是，她接触的很多女性并不介意被叫作剩女，让她们最为焦虑的，反而是来自父母和亲戚逼婚的压力。</p>
<p>When she traveled home with Ms. Xin, her mother was initially furious with her daughter for allowing Ms. Lech to document her life.</p>	<p>当莱希跟着陈欣回老家时，她母亲一开始非常生气，因为女儿让莱希这样记录她的生活。</p>
<p>"The mother was afraid she would bring shame to her and her neighbors because she was showing the whole world she was not married," Ms. Lech said. "Even though she's a successful woman, she would come back home and be nothing in her mother's eyes because she is a single woman."</p>	<p>"母亲担心女儿会给她和街坊邻居丢脸，因为这样全世界都会知道她还没结婚，"莱希说。"即便她是一个成功的女性，但回到老家，在母亲眼里，她什么都不是，只是个单身女人。"</p>

<p>Traditionally, parents in China have played a major role in their children's married lives, even seeking potential partners at marriage markets. Every weekend, parents from the outskirts of Shanghai gather at the People's Park and post brief ads for their single children. The ads, written in Chinese, are typically straightforward – Good cook. Chinese Adoptees at Home in America	被美国人收养的中国弃儿，他们过着怎样的生活？
Meng Han left China for Montana in the spring of 2014 to study English on a fellowship. Though she lived in a populous university town, she found it difficult to connect with her classmates and teachers.	2014 年春天，获得一项助学金的韩萌（Meng Han，音）离开中国，到蒙大拿州学英语。虽然住在一个人口众多的大学城里，她还是觉得难以跟同学和老师相处。
"I felt very lonely and isolated because all of the people around me were different," she said. "Lots of the people are white and there are very few Asians."	"我觉得非常孤单而且格格不入，因为身边都是和我不同的人，"她说。"这里很多白人，很少亚洲人。"
But just a few months in, she was surprised to meet several Chinese girls at a party organized by her English teacher. The thing is, they were all children, like Anaka, an 8-year-old girl. She sought out Anaka's mother, who explained that she had adopted the child in China's southern Guangdong Province.	但几个月后，在一次英语老师办的派对里，她意外地见到了几个中国女孩。关键在于她们都是小女孩，比如 8 岁的阿娜卡(Anaka)。韩萌找到了阿娜卡的母亲，她说自己是在中国南方的广东省收养这孩子的。
That unexpected discovery tugged at Ms. Han's emotions, since having worked for more than a decade as a newspaper photographer in Beijing, she had seen China's orphanages, where conditions were sometimes terrible. China recently abolished its one-child policy, and yet while the history of cultural preference for boys had once left many orphanages filled with girls, advocates said that parents have also abandoned boys and girls born with disabilities, unable to cope with the medical costs and societal stigma. Ms. Han wondered how the adoptees — now surrounded by "nice toys and nice homes" — felt in their new surroundings. Were they isolated? Did they feel lonely? Did they	这个意外的发现，触发了韩萌的好奇心，因为她在北京作过十多年的摄影记者，见过中国的孤儿院，那里的条件有时很可怕。中国最近取消了一孩政策，但重男轻女的文化曾导致许多孤儿院里全是女孩，据权益倡导人士说，还有的父母会抛弃天生残疾的男孩和女孩，因为他们难以承受医疗费用和社会歧视。韩萌想知道，如今拥有"美好的玩具和家园"的收养儿童在新环境是怎样的感受。他们有被孤立吗？他们感到孤独吗？他们想知道自己的亲生父母吗？在凭借一份新闻学助学金来到马里兰后，这些问题促使她立刻开始了一个摄影计划。

<p>wonder about their birth parents? Those questions led her to undertake a photo project once she got to Maryland on a journalism fellowship.</p>	
<p>"I wanted to tell the Chinese audience how the Chinese adopted live in America," she said, "and what kind of lives they have and what is different."</p>	<p>"我想告诉中国读者，中国收养儿童在美国的生活如何，"她说，"他们是过着怎样的生活，以及这与他们过去有什么不同。"</p>
<p>She sought out families through an online advertisement, and the first response came surprisingly enough from Cheryl Wu, a second-generation Chinese woman who had adopted her daughter from China's Jiangxi Province. Ms. Wu had taught children with special needs in Washington, D.C. "My job is to look after handicapped children," she said, "so I always hoped to adopt a child from a Chinese welfare house and take care of her myself."</p>	<p>她通过网上广告找到收养家庭，出乎意料的是，第一个回应她的是谢丽尔·吴（Cheryl Wu，音），一个第二代中国移民，她在中国江西省收养了女儿。谢丽尔曾在华盛顿教育有特殊需要的孩子。"我的工作照顾残疾儿童，"她说，"所以我一直希望能从中国福利院领养一个孩子，我自己来照顾。"</p>
<p>Ms. Wu introduced Ms. Han to a network of families with adopted children who often got together for parties and other occasions. Over about a year, she met some 30 families in 10 states, some through word of mouth, others when a nonprofit organization wrote about her project in a newsletter, and still more through a school where families brought children to learn Chinese and Chinese dance.</p>	<p>谢丽尔向韩萌介绍了一个收养儿童家庭网络。这些家庭经常在派对或其他场合上会面。大约一年时间里，韩萌认识了在10个州的约30个家庭，有的是通过别人介绍的，有的是因为某非营利组织在一篇新闻稿中报道了她的项目，更多则是通过学校认识的，家人会带孩子去那些学校学中文和中国的舞蹈。</p>
<p>"At the beginning, I felt very appreciative for the American families," Ms. Han said. "Otherwise these children will live in a bad situation in China."</p>	<p>"一开始我就很感谢这些美国家庭，"韩萌说。"如果没有他们，这些孩子在中国的生活状况便会很艰难了。"</p>
<p>Despite their current comfort, she learned of a common complication. "When they were teenagers — 11 years old, or 13 years old, or 14 years old — they always want to think about where they are, why they are here, why they are different," she said. "Where are my birth parents? Why did they give me up? Why did they abandon me on the street?"</p>	<p>虽然这些孩子目前生活安稳，但她也了解到他们中普遍存在的一个问题。"在他们的青少年时期，比如说11、13或是14岁时，他们经常都会想自己在哪里，为什么会在这里，为什么自己跟别人不一样，"她说。"我的亲生父母在哪里？他们为什么抛弃我？为什么把我丢在外面？"</p>

<p>Those questions led to different responses: from taking language and other cultural classes to visiting China when they were old enough.</p>	<p>收养儿童对这些问题的回答各有不同：有些人会报读语言和其他文化课程，另一些人则等到长大后前往中国。</p>
<p>“As adoptees enter adolescence and deal with issues all adolescents deal with, as part of identity development, some want to search for their roots and connect to the first or genetic family,” said Victor Groza, the director of the Child Welfare Fellows Program at the Mandel School of Applied Social Sciences at Case Western Reserve University. “Others want to connect to their culture and are less concerned about the birth family and more about who they are as a cultural person. Others just want to establish who they are in the context of the peer and culture in which they live.”</p>	<p>“在收养儿童进入青春期，并面对所有青少年都会遇到的问题的时候，作为身份认同发展的一部分，一些人希望寻找自己的根源，了解自己的最初或亲生家庭，”凯斯西储大学曼德尔应用社会科学学院(Mandel School of Applied Social Sciences at Case Western Reserve University)儿童福利研究员项目主任维克多·格罗扎(Victor Groza)说。“还有一些人希望能够多了解自己的文化，对自己的亲生家庭没那么关心，而是更注重自己在文化上应如何自处。有些人只想跟从自己生活背景下的同辈和文化建立身份认同。”</p>
<p>Many of the children wish to find their birth parents, a process that is nearly impossible in China, since many were abandoned on the street without paperwork. Nor is there a national system that keeps track of these children or their birth parents. Others may just want to move on. Ms. Han tried to help one of her subjects find her birth parents through the hospital and local police department, but when she located the father, he acknowledged who he was, then drove away in his car.</p>	<p>许多收养儿童希望寻找自己的亲生父母，但鉴于他们很多都是被抛弃的，没有相应的记录，在中国寻亲几乎不可能。中国亦没有全国系统可以追踪记录这些孩子或他们的亲生父母。还有些孩子只是想把这些抛在脑后。韩萌曾试图帮助其中一个，通过医院和当地警方寻找她的亲生父母。但当她找到了这名收养儿童的父亲后，此人承认了自己是父亲，然后就驾车离开了。</p>
<p>Even if it is difficult to accept one’s own birth child later, through her work, Ms. Han has found that in general many Chinese appreciate and feel grateful that these orphans are adopted by Americans.</p>	<p>尽管很难在之后再接受自己的亲生孩子，但韩萌通过这个计划发现，整体来说，很多中国人对美国人收养这些孤儿的举动是心存感激的。</p>
<p>“I also feel so thankful that these children were given better lives by these American families,” Ms. Han said. “On the other hand, I would like to give Chinese adoptees voice. How they feel and how adoption impacts them in their lives. I hope that this project will be a culture</p>	<p>“我也很感谢这些美国家庭给了他们更好的生活，”韩萌说。“另一方面，我还想替这些华裔收养儿童发声，说出他们的感受和收养对他们生活的影响。我希望这个项目能成为一道文化桥梁。即使华裔收养儿童现在是美国公民身份，但仍与中国有着千丝万缕的联系。”</p>

bridge. Even if Chinese adoptees are Americans, they still have some connections to China.”

The Year in Pictures	图片中的 2015，大崩溃的一年
(Watch More Slide Show here.)	(点击这里查看 2015 年 1 至 6 月图片合集)
THIS was the year of the great unraveling, with international orders and borders challenged or broken, with thousands of deaths, vast flows of migrants and terrorist attacks on some of the most cherished symbols of civilization, both Western and Muslim.	今年真是大崩溃的一年，诸多国际秩序和边界受到挑战，或被破坏，有数以千计的死亡事件，大量移民迁徙，还有恐怖分子对一些备受珍视的文明符号进行袭击，这里面既有西方世界的也有穆斯林的。
Palmyra and Paris (twice). Aleppo, Homs, Kobani and even San Bernardino, Calif. The Syrian war grinds on, half the prewar population displaced or gone, and the Islamic State fills a vacuum created by sectarian struggle and Western fatigue.	它们包括巴尔米拉和巴黎（两次）、阿勒颇、霍姆斯、科巴尼，甚至还有加州的圣贝纳迪诺。叙利亚战争依然无休无止，这个国家战前人口的一半已经背井离乡或者死去，伊斯兰国填补了因教派纷争和西方社会倦怠而留下的真空。
The conflict spurred the migrants lapping against the shores of bourgeois Europe, a million or more, huddled in small boats or crammed into airless trucks, abused by human traffickers, thousands dead on the journey, prompting both empathy and backlash.	冲突引发的移民潮涌向资产阶级欧洲的海岸线，有一百万人，甚至更多，挤在一艘艘小船和一辆辆不通风的卡车里，遭受人贩子的虐待，数以千计的人在途中丧生，他们既触发了人们的同情，也引来了强烈抵制情绪。
Just look. The year is here.	看看吧。这就是我们刚刚度过的一年。
The outrages of Boko Haram and the Shabab in Africa. The abuse of the Rohingya minority in Myanmar. The war in Ukraine and the resurgence of the Taliban in Afghanistan. New tensions in the skies over the Baltics and a Russian plane shot down by a NATO country for the first time in decades.	博科哈拉姆和非洲青年党的暴行，缅甸少数民族罗辛亚人遭受的虐待，乌克兰国内冲突，塔利班在阿富汗的再度复苏，波罗的海上空出现的新的紧张关系，以及几十年来首次出现的北约成员国击落一架俄罗斯战机的情况。
The ruins still in Gaza, a year after a brutal and inconclusive war, and Israel hunkering down in a region losing its compass. Even the	一场残酷而无果的战争过去一年后，加沙地带依然遍布废墟，以色列在一个失去方向的地区慢慢煎熬着。就连精力十足的国务卿约翰·克里(John Kerry)

energetic secretary of state, John Kerry, has given up on serious negotiations for Mideast peace.	也放弃了就中东和平问题进行严肃协商。
So much uncertainty, anxiety, anomie, so many civilian victims: A crazed German pilot flew his plane into the French Alps; a Russian plane was destroyed over Sinai by what seemed to have been a bomb; attackers with automatic weapons killed 130 people in Paris in restaurants, a stadium and a concert hall.	这个世界有如此之多的不确定性、焦虑和社会失范，有许许多多平民受害：一名疯狂的德国飞行员将自己驾驶的客机撞向法国境内的阿尔卑斯山；一架俄罗斯客机在西奈半岛上空疑似被炸弹摧毁；持自动武器的数名袭击者在巴黎几家餐厅、一座体育场和一个音乐厅屠杀 130 人。
Even the Earth seemed slightly unhinged — the ice caps melting, sheep stuck in the smog of Beijing, huge snowstorms and floods, a major earthquake in Nepal, one of the world's poorest countries.	甚至地球自身似乎也有些错乱——冰帽在消融，北京深陷雾霾，世界上最贫穷的国家之一尼泊尔发生了数次大雪暴和洪灾，还有一次大地震。
And in the United States, it was a year of anger and protest against police brutality, with racial unrest ripping apart Baltimore and Ferguson, Mo. A massacre of black worshipers in a church in Charleston, S.C. Drought and terror in California, blows to the myth of paradise.	在美国，这是抗议警察暴行的愤怒之年，种族问题引起的骚乱撕裂了巴尔的摩和密苏里州的弗格森市。南卡罗来纳州查尔斯顿市的一座教堂发生屠杀黑人教徒事件。干旱和恐惧困扰着加州，沉重打击了这个传说中的天堂。
Presidential politics took on a carnival atmosphere during the pre-primary season, with an amazing cast of would-be successors to a grayer, grumpier Barack Obama. Bernie Sanders, the sort-of socialist from Vermont by way of Brooklyn, was giving Hillary Clinton a run, at least, for her mounds of campaign money. Donald J. Trump thrilled, amused and horrified, depending on your point of view, with his populist fulminations, his hairdo and his narcissism.	在初选阶段，这次总统竞选有一种杂耍团的气氛，有一众不可思议的候选人，有望接替头发更白、脾气更暴躁的贝拉克·奥巴马成为下任美国总统。来自佛蒙特州的伯尼·桑德斯(Bernie Sanders)因出生于布鲁克林颇有几分社会主义者气质，他成为希拉里·克林顿(Hillary Clinton)的有力竞争者，至少会让对方无法轻易获胜。唐纳德·J·特朗普(Donald J. Trump)是个民粹主义喷子，又有那样的发型和自恋特征，让人感到兴奋、好笑和可怕，到底属于哪一种，取决于你怎么看。
But not all of the memorable events of the year were about loss, violence and terrorism.	但今年值得回忆的事并非都与丧失、暴力和恐怖主义有关。
The changing climate brought a historic if relatively toothless deal to cut carbon emissions and help the poorest countries cope.	在气候变化方面，我们达成了一项减少碳排放和帮助最贫穷国家应对这一问题的历史性协议，尽管它可能较难执行。

<p>The massacre in Charleston helped lower the Confederate flag over the South Carolina State House. The Supreme Court made same-sex marriages legal throughout the land.</p>	<p>在查尔斯顿屠杀事件的助推下，南卡罗来纳州州议会将其邦联旗帜降下。最高法院的一项裁决使得同性婚姻在美国各地变为合法。</p>
<p>The United States and the United Nations Security Council finally reached a deal to limit Iran's nuclear ambitions, promising some sanctions relief and opening a still-uncertain path toward a Syrian settlement.</p>	<p>美国和联合国安全理事会最终达成一项限制伊朗的核武器野心的协议，并承诺减轻制裁，由此还开辟了一条解决叙利亚问题的路径，尽管其中存在不确定性。</p>
<p>In another resolution of a longstanding diplomatic sore, the United States recognized Cuba. And Myanmar's military government seemed at last to recognize the political victory of Daw Aung San Suu Kyi, who stuck to her principles through decades of house arrest.</p>	<p>美国解决了另一个长期存在的外交心病，承认了古巴这个国家。缅甸军政府似乎最终认可了昂山素季在政治上取得的胜利，后者在数十年被软禁期间一直坚守自己的原则。</p>
<p>Meanwhile, American Pharoah won the Triple Crown, Serena Williams nearly won the Grand Slam and the New York Mets nearly (well, sort of nearly) won a World Series.</p>	<p>与此同时，名驹“美国法老”成为了赢得三大重要赛事的三冠王，塞雷娜·威廉姆斯(Serena Williams)差一点就赢得了大满贯，纽约大都会(New York Mets)也差一点（算是吧）赢得棒球联赛年度冠军。</p>

As Mr. Lott was filing his photos at a nearby Starbucks, a woman ordered her coffee and walked out the door. Within seconds, she was mortally wounded by a stray bullet.</p>	<p>动能缓解困扰该市的枪支暴力浪潮。洛特在附近的一家星巴克上传照片期间，一名女子点了咖啡并走出店门。几秒钟后，她被一颗流弹击中身亡。</p>
<p>This was the third person he had seen shot this year.Chicago is going through yet another grim season of gun violence. While this sprawling city of 2.7 million people who live in dozens of neighborhoods is diverse, it is also segregated. That reality is alarmingly reflected by the victims of gun violence, with most bloodletting concentrated on the West and South Sides. The North Side, which I called home for many years, is mostly unaffected by the violence, save for a few pockets. Most neighborhoods see no shootings at all.</p>	<p>这是他今年看到的第三个遭枪击的人。芝加哥正在经历又一个严峻的枪支暴力高发期。这座庞大的城市生活着 270 万人，分布在几十个社区里。这是一个多元却又相互隔离的城市。这种现实体现在了枪支暴力的受害者上，令人担忧。大部分流血事件都集中在西区和南区。我曾住过多年的北区，除了几个小区域外基本不受暴力活动的影响。大部分社区根本不会看到枪击事件。</p>
<p>Mr. Lott, a Chicago native, has been covering crime in the city for The New York Times over the past year, working with the paper's local reporting staff. As things have unfortunately kept getting worse, coverage has expanded.</p>	<p>作为土生土长的芝加哥人，洛特过去一年里一直和报社在当地的报道团队合作，为《纽约时报》报道该市的犯罪问题。随着情况令人遗憾地持续恶化，报道范围扩大了。</p>
<p>The paper set out to cover intensively the many shootings over the Memorial Day weekend, a notoriously violent time in the city. The logistics were complicated: A month earlier, the Chicago bureau staff spent a weekend gathering preliminary data. As we headed into the holiday weekend, we had a dispatcher who listened to scanners 24 hours a day and communicated with the team of reporters and photographers via Slack. We also each listened to the scanners constantly.</p>	<p>《纽约时报》一开始是打算集中报道阵亡将士纪念日那个周末发生的多起枪击事件。这是该市有名的暴力事件多发时段。后勤安排很复杂：一个月前，芝加哥分社的员工用了一个周末收集初步数据。随着那个周末的临近，我们有了调度员，一天 24 小时监听警用频道，并通过 Slack 与记者和摄影师团队保持沟通。我们每个人也一直在听警用频道。</p>

<p>Mr. Lott, Alex Wroblewski, Sam Hodgson, Whitney Curtis and I worked round-the-clock on 12-hour shifts. Mr. Lott and Mr. Wroblewski, who both live in Chicago and have documented this story extensively, worked more or less from dusk to dawn. We put one photographer on the West Side and one on the South Side. About a dozen reporters worked overlapping nine-hour shifts. The challenge was that we were not necessarily covering new ground. The local news media have relentlessly chronicled this story, staffing overnight teams indefinitely to document this tragic cycle of violence. Photographers like Carlos Javier Ortiz and Jon Lowenstein have devoted years to exploring the complicated social aspects in communities affected by gun violence. Our goal was to cover the news, but with an added obligation to search for subtleties, to stop at scenes we might normally just drive past because they lacked visual drama. Or to visit places where shots rang out but no one – fortunately – was hit. To explore the rhythm of events that occur repeatedly, yet are all different in their own nuanced ways.</p>	<p>洛特、亚历克斯·罗布莱夫斯基(Alex Wroblewski)、萨姆·霍奇森(Sam Hodgson)、惠特尼·柯蒂斯(Whitney Curtis)和我全天值守, 12 个小时一班。住在芝加哥的洛特和罗布莱夫斯基全面记录了这次报道, 他们几乎是从黄昏一直工作到黎明。我们在西区和南区分别安排了一名摄影师。大约 12 名记者实行九小时轮班制, 各班次之间有重合。挑战在于, 我们报道的不一定是新领域。当地的新闻媒体一直在报道这个题材, 长期安排夜班团队记录这一不幸的暴力周期变化。卡洛斯·哈维尔·奥尔蒂斯(Carlos Javier Ortiz)和乔恩·洛温斯坦(Jon Lowenstein)等摄影师用了数年时间在受枪支暴力困扰的社区探究复杂的社会因素。我们的目标是报道新闻, 但同时还有一项责任, 那就是寻找微妙之处, 有一些场面因为视觉上缺乏戏剧性, 平常我们可能会略过, 但现在我们要停下来记录它们。或是探访那些响起过枪声但幸运的是无人被击中的地方。去探索那些事件的节奏, 它们反复发生, 但又在细微之处显露它们彼此是截然不同的。</p>

<p>Half a World Away, a Familiar Name</p>	<p>一位美军摄影师, 一段国民党的抗战史</p>
<p>A lot of people know about Syd Greenberg in China. <p>For decades, China's Communist government erased that episode from the collective memory. But efforts by amateur Chinese historians in recent years have shed a new light on that era, with a traveling exhibit culled from 23,000 photos from the United States National Archives.</p>	<p>有几十年的时间，中国共产党政府从人们的集体记忆中抹去了这段历史。但是近年来，中国一些业余历史研究者努力让人们对这个时期增进了一些了解，他们从美国国家档案馆的 2.3 万张相关照片中选取了一些照片，举办了一个巡回展。</p>
<p>"The name Greenberg is quite familiar to me," said Huan Yan, an architect near Hong Kong who helped put together the show, National Memories. <p>"These exhibits tell the Chinese people a bit about their history, which they didn't know about before," said John Easterbrook, the grandson of Gen. Joseph Stilwell, who commanded American troops in the China-Burma-India theater. "After 1949, the role of the Nationalist government and soldiers in defeating Japan was totally submerged. At that point, it was only the Reds who defeated the Japanese. "The captain was shot by a sniper," Philip said.	"那名上尉被狙击手打死了，"菲利普说。
His mission, Philip said, was to document the war effort, using Leicas and 4x5 cameras. Sometimes, they would be out for weeks at a time, unable to get film out. He spent several years there before returning stateside, where he freelanced for newspapers in New York, then worked for a lab.	菲利普说，格林博格的任務就是使用徕卡相机和4x5相机记录这场战争。有时候，他们外出执行任务一去就是几个星期，无法把胶片送出去。他在中缅印战场上度过了数年时间才回到美国。回国后，他曾为纽约的报纸担任自由摄影师，之后为一家冲印室工作。
Starting in the 1950s, after he moved to New Canaan, he helped the local police learn how to take proper mug shots and accident scene photos.	20世纪50年代搬到新迦南后，他开始教当地警察怎样拍好头像照片与事故现场照片。
"He did it for 10 years and never got paid," Philip said. "That's how everybody knew him in town. He took pictures and never asked for money."	"这个工作他做了10年，从来没有报酬，"菲利普说。"所以镇上的人都认识他。他拍照片从来不要钱。"
About two years ago, Mr. Yan and several of his colleagues traveled to the National Archives to assemble the portfolio of pictures at the core of their exhibitions. It was a mission close to him — his grandfather was a Chinese general who had fought alongside General Stilwell.	两年前，晏欢和几个同事来到美国国家档案馆，为展览的核心部分收集照片。这项工作与他本人关系密切——他的外祖父是一位中国将军，曾与史迪威并肩作战。
"The Communists covered this history for more than a half-century," Mr. Yan said. "That's why we appreciate very much the American Signal Corps left us such a rich historical resource. We never saw it. In China, you can't use the archives. The Communists controlled it and buried a lot of secrets."	"半个多世纪以来，共产党一直掩盖了这段历史，"晏欢说。"所以我们非常感谢美军陆军通讯部为我们留下了这样丰富的历史资源。我们从来没见过这些东西。在中国，人们不能使用档案资料。共产党控制着历史档案，并且隐瞒了很多秘密。"
Mr. Yan soon learned from Mr. Easterbrook that Syd Greenberg was still alive. They began to correspond though e-mail. When the first exhibit	晏欢很快从伊斯特布鲁克那里了解到，希德·格林博格还活着。他们开始通过电子邮件联系。第一次展览开幕时，格林博格还送来了一份特别录制的视频

The exhibit, which has been accompanied by books and DVDs, has been in several Chinese cities, and there is discussion about bringing it to the United States. The reaction in China, Mr. Easterbrook said, has been enthusiastic.	该展览还配有书籍和DVD，已经在几个中国城市展出，主办方也在讨论把它搬到美国。伊斯特布鲁克说，展览在中国受到了热情的回应。
"The Chinese people never forget a friend," he said. "It's so true."	"中国人民从来不会忘记朋友，"他说。"这是真的。"
The Greenbergs learned that last year, after Syd's accident. While he was recuperating in the hospital, he started receiving e-mails and postcards. From strangers. From China.	这一点，格林博格一家也体会到了。那是去年希德受伤之后。在医院进行康复治疗期间，他开始收到电子邮件和明信片。都是来自陌生人。来自中国。
"One of our friends, I don't even know who, put out his hospital address," Mr. Yan said. Some Chinese people in the U.S. knew where the hospital was. So they went to the hospital to see him, with Christmas cards and flowers."	"我们的一个朋友，我都不知道是谁，贴出了他医院的地址，"晏欢说。"有些在美国的中国人知道这家医院在什么地方，于是带了圣诞贺卡和鲜花去看望他。"
And when he died, the condolences came from half a world away.	格林博格去世后，慰问的声音也从大洋彼岸传来。
"Everybody knew Mr. Greenberg," Mr. Yan said. "We really respect Mr. Greenberg very much."	"人们都知道格林博格先生，"晏欢说。"我们真的非常尊敬他。"

No Swimming! Rome Braces for Summer of Tourists at Its Fountains	喷泉变泳池，罗马向“新原始人”说不
ROME — On a sweltering Monday afternoon, a beautiful day for a swim, Mario Messina noticed some holidaymakers teetering dangerously close to the turquoise waters and sounded five short blasts of his whistle.	罗马——一个闷热周一下午——这是一个很适合游泳的日子，马里奥·梅西纳(Mario Messina)注意到，一些游客与碧绿的池水过于接近，于用他用哨子发出五声短促的哨响。
"Come down!" Messina said, with an elegant flip of the hand to a woman leaning over the ledge to test the water temperature. "Come down!"	"下来!"梅西纳优雅地伸出手，对一个在池边测试水温的女人说。"下来!"

<p>Despite his Ray Bans, virtuosity with a whistle and sunny Sicilian disposition, Messina is not a seaside lifeguard but a Roman police officer in a pith helmet. He is entrusted to protect the Trevi Fountain, one of the world's most cherished and visited monuments, from the scourge of parched, overheated and advancing tourist armies. And now he has reinforcements.</p>	<p>尽管他戴着雷朋太阳镜，口哨技巧娴熟，具有西西里式的阳光性情，但梅西纳并非海边救生员，而是一个戴着遮阳帽的罗马警察。他的任务是保护许愿池(Trevi Fountain)，避免焦渴、过于热情、数量越来越多的游客大军对这个世界上最受珍爱、参观者最多的历史遗迹之一造成危害。现在他有了增援力量。</p>
<p>Because Summer Is Coming.</p>	<p>因为夏天来了。</p>
<p>Already, the warm weather has brought a menacing whiff of tourists behaving badly. For months, stiff fines failed to stop a fountain-bathing fad in a city blessed with and born of flowing water.</p>	<p>炎热天气把游客不好的一面带了出来。几个月来，在这个喷泉众多、因喷泉而诞生的城市里，严厉的罚款手段并未能阻止人们到喷泉里浸泡的风尚。</p>
<p>On April 12, a man went skinny-dipping in the Trevi Fountain, resulting in a viral web video and a fine of 500 euros (\$530). ("I was here for the naked guy," Messina said, adding that nudity carried a criminal complaint "because it was an obscene act.")</p>	<p>一男子4月12日在许愿池裸泳的视频在网上疯传，他被罚款500欧元(约合人民币3800元)。“那个裸泳者是我处理的，”梅西纳说，裸露是一种“淫秽的行为”，会提起刑事诉讼。</p>
<p>That same month, a 30-year-old Spanish tourist waded into the fountain dressed in a long tunic, a German woman in her 60s took a morning dip, and two Danes received 900-euro fines for mistaking the Fountain of Two Seas at Rome's Piazza Venezia for a foot bath.</p>	<p>同样是4月，一名30岁的西班牙游客穿着长衫走到许愿池中，一个60多岁的德国女子在一天早晨下了水，还有两名丹麦人在罗马威尼斯广场的海之喷泉(Fountain of Two Seas)泡脚而被处以900欧元的罚款。</p>
<p>Then there was May. A 25-year-old Danish woman, perhaps with "La Dolce Vita" visions of Anita Ekberg sloshing in her head, took an evening swim in her nightgown. And two American women, according to Messina, went for a (previously unreported!) swim.</p>	<p>然后是5月。一名25岁的丹麦女子，可能是想效仿电影《甜蜜生活》(La Dolce Vita)的女主角安妮塔·艾克伯格(Anita Ekberg)，在晚上穿着睡衣到喷泉里游泳。根据梅西纳的说法，此外还有两名美国女子在喷泉游泳(之前未见报道)。</p>
<p>And June. A 30-year-old Malaysian man bathed nude in Gian Lorenzo Bernini's baroque Four Rivers Fountain in Piazza Navona and received a 450-euro fine. ("I was hot," he reportedly explained to the police.)</p>	<p>还有6月。一名30岁的马来西亚男子在纳沃纳广场(Piazza Navona)济安·洛伦佐·贝尔尼尼(Gian Lorenzo Bernini)设计的巴洛克风格四河喷泉(Four Rivers Fountain)里裸泳，被罚款450美元(据说他给警察的解释是“我太热</p>

	了”)。
The police also apprehended a Czech artist washing a dirty rag in the Piazza del Popolo’s Fountain of the Lions. Soon after, they fined the British and Romanian parents of two children for allowing them to climb on the lions.	警方还逮捕了一名正在人民广场(Piazza del Popolo)的狮子喷泉(Fountain of the Lions)里洗一块脏布的捷克艺术家。没过多久，因为允许两个孩子在狮子身上爬来爬去，孩子的英国和罗马尼亚家长被警方处以罚款。
The “New Barbarians,” as some papers have taken to calling the tourists, are not limited to Rome. In Florence, officials have taken to hosing down the Duomo Cathedral and other sites to prevent loiterers from sitting and eating on the steps.	一些报纸已经习惯把游客称作“新原始人”。他们不仅仅出没于罗马。在佛罗伦萨，官方经常用水管冲洗圣母百花大教堂(Duomo Cathedral)和其他景点，以防游客坐在台阶上吃东西。
But it is Rome and its fountains that are in the eye of the selfie storm, prompting the city’s embattled mayor, Virginia Raggi, to issue an ordinance.	但处在这场自拍暴风眼的却是罗马和它的喷泉。这促使处境艰难的该市市长弗吉妮亚·拉吉(Virginia Raggi)颁布了一项法令。
Until October, there are harsher fines for eating, drinking or sitting on the fountains, for washing animals or clothes in the fountain water or for throwing anything other than coins into the water of the Trevi Fountain and 36 other fountains of artistic or historic significance around the city.	直到10月，在喷泉吃东西和喝东西、坐在喷泉上、在喷泉里给动物洗澡或洗衣服、朝许愿池和全市其他36座具有重要艺术或历史意义的喷泉扔除硬币外任何东西的行为，都将受到更加严厉的罚款。
“It is unacceptable that someone uses them to go swimming or clean themselves. It’s a historic patrimony that we must safeguard,” Raggi said Monday during what she called a surprise “inspection” of the situation at the Trevi Fountain.	“有人用它们来游泳或洗澡令人难以接受。它是我们必须保护的历史遗产，”拉吉在周一对许愿池进行她所谓的突击“检查”时说道。
Raggi, accompanied by two aides, went unnoticed by the tourists in beachwear and at times had trouble squeezing through the crowd. She said that to a certain degree, the bathing phenomenon had always existed, but that with videos of nude fountain bathing spreading on	在两名助手的陪同下，拉吉费劲地穿过人群，并未被身着沙滩装的游客认出。她说，在某种程度上洗澡现象一直存在，但随着在喷泉里裸泳的视频在社交媒体上传播，她感到“我们确实必须作出更多努力，于是有了我们采取的这些措施”。

<p>social media, she felt “we simply must do something more. And that’s what we have done.”</p>	
<p>Enemies of the mayor, a national figurehead of the anti-establishment Five Star Movement, have added the assault on monuments to the list of Roman woes under her administration, including festering trash on the city sidewalks, unkempt parks that resemble wheat fields and traffic-clogged streets transformed into idling parking lots. When in degraded Rome, they argue, tourists will do as the degraded Romans.</p>	<p>拉吉是反建制的五星运动(Five Star Movement)在全国的名誉领袖。她的政敌把历史遗迹遭受的破坏，列入了在她的领导下罗马所遭受的不幸名单，包括人行道上腐烂的垃圾、像麦田一样乱糟糟的公园，以及街道拥堵变成停车场。他们说，在堕落了罗马，游客会入乡随俗。</p>
<p>But it is hard to pin the tourist nuisance on her. In 1999, Italy felt the need to pass a law to protect city monuments and banned wading in the fountains. In 2012, a previous mayor drafted an ordinance fining tourists as much as \$650 for dripping ice cream, dropping crumbs and lunching on the monuments.</p>	<p>但很难把游客的恶劣行径归罪于拉吉。1999年，意大利觉得有必要通过一项保护该市历史遗迹的法律，禁止游客进入喷泉。2012年，前任市长起草了一项法令，规定对于在历史遗迹把冰激凌和食物碎屑掉在地上，以及在历史遗迹吃饭的游客处以最高650美元的罚款。</p>
<p>Many Romans remember the local folk hero known as D’Artagnan, who for decades waded into the fountain before dawn to fish for the coins that wishful tourists had tossed behind.</p>	<p>很多罗马人都记得当地被称作达塔尼昂的民间英雄。数十年间，此人坚持在黎明前进入喷泉，捞出心有所愿的游客扔的硬币。</p>
<p>Still, Vittorio Avanzini, the publisher of Roman historical guides including “The Fountains of Rome,” insisted that throughout the city’s long history, “it’s never been like this.”</p>	<p>但《罗马的喷泉》(The Fountains of Rome)等罗马历史手册的出版商维托里奥·阿万齐尼(Vittorio Avanzini)坚持认为，纵观罗马的悠久历史，“从来没像这样过”。</p>
<p>To combat the heated hordes, Dario Franceschini, the Italian culture minister, has floated the idea of limiting the number of tourists permitted to view blockbuster monuments at any one time.</p>	<p>为了应对热情的游客，意大利文化部长达里奥·弗兰切斯基尼(Dario Franceschini)提出了在著名历史遗迹限制游客人数的主意。</p>
<p>“You can’t have 50,000 people at the Trevi Fountain — there’s a maximum capacity. These are places to safeguard, fragile places,” Franceschini said.</p>	<p>“不能在许愿池那里聚集五万人，那是最大容量。这些是要保护的地方，是脆弱的地方，”弗兰切斯基尼说。</p>

He welcomed the explosion of tourists from China and other countries eager to visit Italy, but said that the huge numbers created new challenges and argued that new technology allowed for the automatic counting and regulation of the masses. "It's absolutely necessary."	他对迫切想去意大利旅游的中国和其他国家的游客数量急剧增加表示欢迎, 但表示庞大的游客人数带来了新的挑战, 并说新技术考虑到了自动统计和对人群的管理。“绝对有必要。”
As Raggi left the Trevi Fountain to check out the situation at a renaissance fountain in Piazza d'Aracoeli at the foot of the Capitoline Hill, she refused to entertain the limited numbers idea.	在离开许愿池去检查卡比托利欧山(Capitoline Hill)脚下天坛广场(Piazza d'Aracoeli)一处文艺复兴时期的喷泉时, 拉吉拒绝考虑限制游客人数的主意。
"The monuments are for everyone," she said. "And it's fair that everyone who respects the rules can visit them, enjoy their beauty."	"历史遗迹属于每一个人,"她说。“遵守规则的人都能够参观和欣赏它们的美才公平。”

Taking Over a Hong Kong Street for Pleasure, Not Protest	香港人再次占领街道, 这次是为了改善城市体验
HONG KONG — As Dennis Wu sat with hundreds of people in the middle of a busy Hong Kong street recently, the scene felt to him like the pro-democracy protests of 2014 all over again.	香港——当丹尼斯·胡(Dennis Wu)最近与数百人坐在一条拥挤的香港街道中央时, 他感觉 2014 年支持民主的抗议行动的场景仿佛又回来了。
Except that Mr. Wu, an 18-year-old student, and those around him were not looking over their shoulders, worried about a police crackdown. This time they were taking part in a car-free experiment in Hong Kong's Central district, where the protests erupted two years ago and blockaded the area from traffic for weeks.	只不过, 18 岁的学生丹尼斯·胡和他周围的人没有在小心提防, 不用担心警察来镇压。这一次, 他们只是在香港中环参加一项无车实验。两年前, 这里曾经爆发抗议行动, 令该区域的交通中断了数周。
"The only difference is the mood," he recalled.	"唯一的不同之处是气氛,"他回忆道。
Though the protests petered out without achieving their goals, they showed that Central, a busy financial district usually clogged with vehicles, was much more pleasant without traffic. After the initial chaos of the demonstrations subsided, a nearly mile-long stretch of a busy	尽管抗议活动在没能达成目标的情况下逐渐平息, 但他们证明了中环这个通常挤满车辆的繁忙金融区, 在没有车辆通行的情况下要宜人得多。示威行动最初引发的混乱减弱之后, 一段近一英里长的繁忙大道变成了一片充盈着想法与热望的公共空间。

thoroughfare turned into a public space fertile with ideas and aspirations.	
Protesters and their supporters set up makeshift study rooms, libraries and even a roadside organic farm. Office workers took strolls in the tent city, freed from the usual debilitating sound of roaring bus engines and the choking smell of exhaust.	抗议者及其支持者搭起临时的学习室、图书室，甚至还在路边设了一个有机农场。上班族在这个帐篷城里散步，没有往常的巴士引擎的轰鸣，也不用闻呛人的汽车尾气。
Patrick Fung, the chief executive of Clean Air Network, one of the organizers of the car-free experiment, said the demonstrations had inspired residents to rethink Hong Kong's lack of pedestrian-friendly areas.	这次无车实验的组织者之一、健康空气行动(Clean Air Network)首席执行官冯建玮(Patrick Fung)表示，示威行动启发了居民，使他们反思香港缺少适合步行的区域。
"At least during the protests, people did enjoy the freedom of a public space, having their lunch and biking there," Mr. Fung said. "Many of them said the air quality was good, and the commute time between places was improved."	"至少是在抗议期间，人们享受到了公共空间的自由，在那里吃中饭，骑单车，"冯建玮说。"他们中有许多表示，当时的空气质量很好，通勤时间也减少了。"
Last year, his group formed an alliance with several academic and environmental groups to advocate turning the greater part of the Des Voeux Road Central, a main thoroughfare near the 2014 protest sites, into a pedestrian- and tram-only precinct. (The trams run on electricity and have no tailpipe emissions.)	去年，他领导的组织与多个学术和环境团体结成联盟，倡导将靠近2014年抗议活动地址的德辅道中更大一部分区域，改成一个只许行人和有轨电车通行的步行区。(有轨电车靠电力行驶，没有尾气排放。)
Renderings in their proposal depict a version of the road that almost seems too good to be true: grass-lined tram tracks, restaurants with outdoor seating and people relaxing rather than grumbling their way through the crowd.	他们这项提议的建筑效果图中描绘的道路看起来太过完美，几乎令人难以置信：铺在绿地上的电车轨道，有户外座椅的餐厅，神情放松而非在竭力穿过人群的人。
The alliance hopes to replicate the success of pedestrian zones in Times Square in New York; La Rambla in Barcelona, Spain; and Martin	该联盟希望能复制纽约时报广场步行区、西班牙巴塞罗那布兰拉大道和澳大利亚悉尼马丁广场的成功。通过这次试运行，组织者期待通过让公众感受他

<p>Place in Sydney, Australia. By holding a trial run, the organizers hoped to move the needle by giving the public a taste — albeit a limited one — of their vision.</p>	<p>们的设计——尽管规模十分有限——能令情况有所改变。</p>
<p>On a Sunday in late September, one side of a 650-foot stretch of Des Voeux Road Central, lined with banks and cha chaan tengs, or Hong Kong-style diners, was closed to traffic.</p>	<p>在9月末的一个周日，德辅道中一个650英尺长、银行与茶餐厅林立的路段一侧，车辆被禁止通行。</p>
<p>There were music and dance performances, art displays and activities catering to children. But the most popular attraction seemed to be sitting on the artificial grass and chatting, without pressure to move along.</p>	<p>那里有音乐舞蹈表演和艺术展，还有适合孩子参加的活动。但最受欢迎的似乎是坐在人造草坪上聊天，没有继续往前移动的压力。</p>
<p>Many people said that they found the experience refreshing and that they yearned for more public space like this.</p>	<p>许多人表示，他们觉得这种体验很新鲜，渴望有更多这样的公共空间。</p>
<p>“I used to work here — I’m surprised that it’s possible to make this a relaxing place,” said Rachel Chan, who had brought along her 8-year-old daughter. “We’re constantly living in such a stressful, overcrowded environment that it’s refreshing to have more space like this.”</p>	<p>“我以前在附近上班——我很惊讶这里可以变成一个让人放松的地方，”带着八岁的女儿来这里体验的蕾切尔·陈(Rachel Chan)说。“我们的生活经常面对高压、挤迫的环境，有更多这样的地方可以令我感到清新。”</p>
<p>Eric Schuldenfrei, an associate professor at the University of Hong Kong who has developed design concepts for the proposal, said the event allowed the public to use the city streets creatively. He said that was an increasingly common experience in many great cities but lacking in Hong Kong.</p>	<p>香港大学副教授邵达辉(Eric Schuldenfrei)为这项建议提供了设计思路，他表示这项举措能让公众创造性地使用城市街道。他说这是一种在许多大城市越来越常见的体验，而香港则很少见。</p>
<p>“People were not simply moving through the city, but actually using the road in order to meet, have a conversation and participate in each other’s events,” Professor Schuldenfrei said. “As simple as this sounds, it</p>	<p>“人们不只是在城市中穿行，他们实际上是在通过道路相遇、聊天，参加彼此的活动，”邵达辉说。“这听起来可能很简单，但它是香港缺失的一面。”</p>

is an element that has been lost in Hong Kong.”	
Professor Schuldenfrei said that if Hong Kong wanted to attract more tourists, it had to offer them “a range of experiences.”	邵达辉表示，如果香港想吸引更多游客，必须给他们提供“多样的体验”。
“Simply walking on a city street is an experience that is beginning to disappear in Central,” he added.	“单纯走在城市的一条街道上，就是一种已经开始在中环消失的体验，”他接着讲道。
The initiative, known as Very DVRC, after the road’s initials, has also seized on the business and tourism selling points of the plan.	这项名为 Very DVRC 的倡导计划是以德辅道中路的首字母命名，它也利用了这项计划的商业和旅游卖点。
Donald Choi, the managing director of Nan Fung Development, a property developer, said he was on board with the idea.	房地产开放商南丰发展有限董事总经理蔡宏兴(Donald Choi)表示，他支持这项计划。
“I couldn’t imagine a better proposal than this,” he said at a panel discussion last year, when the group unveiled its plan. “It’s something that will generate a lot of interest, a lot of attraction, not only for tourists but also for local residents and users.”	“我想不到比这更好的提议了，”他在健康空气行动组织去年公布这项计划时举行的一场座谈会上说。“这是一件会带来很多好处和吸引力的事情，不只是对游客，也有益于当地居民和使用者。”
Mr. Choi, who works in Central, said the air pollution, the roar of engines and the congested sidewalks made the street so unpleasant that he tried to avoid it by taking an overhead walkway farther away.	蔡宏兴的办公地点就在中环，他表示空气污染、引擎的轰鸣和拥挤的人行道使这条大道令人不快，他会竭力避开它，宁愿走更远一些的天桥。
“People couldn’t even stop in front of shops to look at shop windows,” he said. “You’re constantly pushed. It’s very congested.”	“人们甚至无法在店铺前停下脚步，看看橱窗，”他说。“一直被往前推着。非常拥挤。”
The idea of turning nearly a mile of the road into a permanent pedestrian- and tram-only zone was first proposed in 2000 by the Hong Kong Institute of Planners, a professional organization, but has drawn broader attention in recent years as air pollution and congestion have worsened.	这项将一英里长的道路变成只许行人和电车通行的永久步行区的提议，最早是在 2000 年由专业机构香港规划师学会提出，但最近几年随着空气污染和交通堵塞情况恶化，才引发了更广泛的注意。
In 2014, the Hong Kong government undertook a study of possible solutions, proposing this March to charge drivers for access.	2014 年，香港政府对一些可行的方案进行了研究，今年三月提出向经过此地的司机收费。

Even as the Hong Kong government has acknowledged the proposal's potential to improve air quality, official responses to the plan have not boded well for any immediate change, as the authorities have demanded a detailed feasibility report and traffic analysis.	尽管香港政府承认，该提议有可能改善空气质量，但是从官方对该计划的反应来看，可能不会立刻做出改变，因为当局要求获得详细的可行性报告和交通分析。
Unlike several other smaller areas of the city where the government has temporarily restricted vehicle access — like the steep streets in the Lan Kwai Fong entertainment district — Des Voeux Road Central is home to dozens of bus stations and many intersections.	香港政府在其他几个更小区域进行了临时交通管制，比如兰桂坊娱乐区那些有坡度的街道。但是德辅道中与那些区域不同，这里有数十个公交车站和很多交叉路口。
When asked about the proposal in January, Anthony Cheung Bing-leung, Hong Kong's transport minister, said the proposal would divert vehicles "to nearby roads with more residential flats, which equally cast impact on the air quality of the residential areas concerned and bring about noises."	今年一月，香港运输及房屋局局长张炳良(Anthony Cheung Bing-leung)在被问及该提议时称，它将导致车辆“改经附近较多民居的街道，一样会对有关住宅区的空气质素造成影响及带来噪音。”
Despite the lukewarm official response, Mr. Fung, the head of Clean Air Network, said he was encouraged that 13,000 people had visited the stretch of road that Sunday. His group hopes to build public support for more traffic-free days.	尽管官方的反应不太热情，但是健康空气行动的负责人冯建玮称，那个周日有1.3万人来到这条道路，令他深感鼓舞。他的组织希望为更多无车日建立公众支持。
"We started small, but from here we can double or triple our scale," he said.	"一开始我们的规模比较小，但是我们能扩大到两至三倍的规模，"他说。

Juliana Young Koo, Chinese Immigrant Who Published Her Life Story at 104, Dies at 111	见证世纪风云的民国名媛顾严幼韵
Juliana Young Koo's family began giving birthday parties for her in 1995, when she turned 90. Ten years later, she took the microphone and addressed the crowd.	顾严幼韵(Juliana Young Koo)在 1995 年迎来了自己的 90 岁生日, 她的家人从那一年开始为她办生日派对。十年后, 她拿起麦克风, 向人群发表了演讲。
"I never give speeches, but I decided that at least on my 100th birthday, I should try," she wrote in her autobiography, "My Story" (2009). "I have only one secret: That is, THINK POSITIVELY. Don't dwell on the past; think about how to make the future better."	"我从来没有做过演讲, 但在百岁之时至少应该尝试一次,"她在自传《我的故事》(My Story, 2009 年)中写道。"我只有一个秘密: 乐观。不要纠结于往事, 多花些时间思考如何创造更美好的未来。"
It was advice Mrs. Koo followed again and again — when her first husband was executed by the Japanese in the Philippines; when she became seasick on the ship that brought her to the United States after the war (she said it had almost capsized in a violent storm); and when thieves stole her jewelry after she had moved to New York.	这是顾严幼韵本人一次又一次遵循过的建议——当她的第一任丈夫在菲律宾被日本人处死的时候; 当她在战后载她前往美国的船只上晕船的时候(她说那艘船差一点在暴风雨中倾覆); 当小偷在她搬到纽约后偷走她的珠宝的时候。
She adapted to circumstances as she lived a long, sometimes adventurous, life of travel, good works and glamour, moving in diplomatic circles, attending a swirl of parties, all the while witnessing a century of history.	顾严幼韵是一个擅长适应环境的人, 她那时而带有冒险色彩的漫长一生, 是周游列国、力行慈善、魅力四射的一生, 她曾活跃于外交界, 参加各种派对, 见证一个世纪的历史风云。
By 2012, when she celebrated her 107th birthday, guests marveled that she had been born the year that Theodore Roosevelt began his second term as president, the year the Russo-Japanese War ended, the year Einstein worked out the theory of special relativity.	到 2012 年她迎来自己 107 岁诞辰的时候, 宾客们惊叹于她居然出生于西奥多·罗斯福(Theodore Roosevelt)开始第二届总统任期那一年, 日俄战争结束那一年, 爱因斯坦创立狭义相对论那一年。
Mrs. Koo died on May 24 at her home in Manhattan after a mah-jongg party — the tile game became her passion in later years — and a birthday celebration for her daughter Shirley Young. Mrs. Koo was 111.	顾严幼韵于 5 月 24 日在曼哈顿家中故去, 享年 111 岁。去世前她参加了一场麻将派对——晚年的她热爱搓麻——以及女儿杨雪兰(Shirley Young)的生日派对。

Genevieve Young, another daughter, confirmed her death.	她的另一个女儿杨蕾孟(Genevieve Young)确认了她的死讯。
Mrs. Koo was born Yu-Yun on Sept. 27, 1905, in Tianjin, in northeastern China, according to her autobiography. Her father, Yen Yi-ping, was a businessman.	根据其自传，顾严幼韵于1905年9月27日生于天津，本名严幼韵。她父亲严义彬是一名商人。
She entered the Keen School, run by Methodists, when she was 14. "At missionary schools with English-speaking teachers," she wrote in her autobiography, "one had to have an English name."	她在14岁那年进入由卫理公会信徒运营的中西女中读书。“天津中西女中是所教会学校，有一些外籍老师，”她在自传中表示，“因此学生必须有英文名。”
She added: "The school named me 'Helen,' but there was already a Helen Yen at the school, so I renamed myself 'Juliana.' I can't remember why. I must have read it in a book."	她接着写道：“学校给我起名‘海伦’，但是当时已经有位同学叫‘严海伦’了，因此我给自己选了‘朱莉安娜’。原因记不清了，肯定是我在某本书中见过这个名字。”
She enrolled in Shanghai Baptist College in 1925 and became known as "Miss 84," for the license plate on her car, a number that could be translated as "love and luck" in Chinese, she wrote. But she found the school too strict and transferred to Fudan University, which had just begun to admit women.	她于1935年到上海浸会大学堂求学，因其汽车牌号为84而得名“84号小姐”，这一数字的英文音译成中文是“爱的福”，她写道。但她觉得浸会大学堂管得太严，于是转学到当时刚刚开始招收女生的复旦大学。
Her first husband, Clarence Kuangson Young, was a diplomat who, in the late 1930s, was posted to Paris and then to Manila, as consul general to the Philippines. Mrs. Koo wrote in her autobiography that his "main mission" there was to "raise money from the Chinese community for the war against the Japanese." She pitched in, as honorary chairwoman of the Overseas Chinese Women's Association, organizing drives to collect jewelry that could be sold.	她的第一任丈夫杨光注是一名外交官，在1930年代末被派驻巴黎，后来又马尼拉出任驻菲律宾总领事。顾严幼韵在自传中写道，杨光注的“主要任务”是“在华侨中为中国的抗日战争募集钱款”。她则被推举为中国妇女慰劳自卫抗战将士会菲律宾分会名誉主席，组织开展募捐活动，募集可被变卖的珠宝首饰。
The Japanese arrested her husband and his staff in 1942. Mrs. Koo took in the others' families — cramming more than 25 people into a three-bedroom bungalow.	日本人在1942年逮捕了杨光注及其手下的领事官员。顾严幼韵收留了其他外交官的家眷——一处三居室的平房曾挤进超过25人。

<p>After the war, she was told that the Japanese had executed her husband. The analyst and commentator Paul French wrote in "Through the Looking Glass: China's Foreign Journalists from Opium Wars to Mao" (2009) that Mr. Young had "stuck to his post even after the retreat of General Douglas MacArthur to Australia and the surrender of the American troops."</p>	<p>战后，她被告知日本人已经处死了她的丈夫。分析人士及评论员保罗·法兰奇(Paul French)在《镜里看中国：从鸦片战争到毛泽东时代的驻华外国记者》(Through the Looking Glass: China's Foreign Journalists from Opium Wars to Mao, 2009年)中写道，杨光注“甚至在道格拉斯·麦克阿瑟(Douglas MacArthur)撤退到澳大利亚、美军投降以后，还坚守着岗位”。</p>
<p>"He apparently had the chance to leave with MacArthur's party" but did not, Mr. French wrote.</p>	<p>“他似乎有机会随麦克阿瑟的队伍一起离开”，但却没有这样做。</p>
<p>Mrs. Koo left for California with her children in 1945, intending to settle in San Francisco. But after arriving there, she realized that she knew more people in New York, so she and the children headed east by rail on the Twentieth Century Limited. She soon heard about an opening for a protocol officer at the United Nations, then in its infancy.</p>	<p>顾严幼韵于1945年带着自己的孩子离开马尼拉，赶赴加利福尼亚州，打算在旧金山定居。但抵达那里后，她意识到自己在纽约有更多旧相识，于是和孩子们搭乘20世纪高级快车(20th Century Limited)经铁路东行。她很快就听说了当时刚刚成立的联合国正在招聘礼宾官的消息。</p>
<p>She worked for the United Nations for 13 years, until shortly after she married Dr. V. K. Wellington Koo, who had been the Chinese ambassador to the United States. They moved to the Netherlands after he was appointed to the International Court of Justice in The Hague in 1960. He served until 1967. He died in 1985 at 97.</p>	<p>她为联合国工作了13年，直到与曾任中国驻美大使的顾维钧(V. K. Wellington Koo)博士结婚不久后。顾维钧在1960年被派驻海牙的联合国国际法院(International Court of Justice)，夫妇俩于是移居荷兰。顾维钧在那里任职至1967年。他于1985年去世，享年97岁。</p>
<p>One ritual at Mrs. Koo's birthday parties was the taking of a photograph. As the years passed, there were more faces to fit in: children, grandchildren, great-grandchildren. Mrs. Koo was typically at the center of the frame, flanked by her daughters Genevieve, who is known as Gene and was vice president and editorial director of Bantam Books, and Shirley, a former vice president of General Motors and a founding member and governor of the Committee of 100, a Chinese-American</p>	<p>顾严幼韵生日派对上的一个规定动作是拍照。随着时间的推移，照片上的面孔越来越多：子女，孙辈，重孙辈。顾严幼韵通常居于画面中央，旁边是她的女儿杨蕾孟——又名吉恩(Gene)，曾任班塔姆出版社(Bantam Books)副总裁和总编辑，以及杨雪兰——通用汽车(General Motors)前副总裁、华裔美国人领导团体百人会(Committee of 100)的创始成员和会长。</p>

leadership group.	
Both daughters survive her, with her seven grandchildren; 18 great-grandchildren; four stepchildren; 13 step-grandchildren; 18 step-great-grandchildren; and two step-great-great-grandchildren. A third daughter, Frances Young Tang, who was known as Baby, died.	她身后留下了这两个女儿、七名孙辈、18名重孙辈；还有顾维钧与前妻的4名子女、13名孙辈、18名重孙辈以及2名玄孙辈。她的第三个女儿杨蕙恩(Frances Young)，又名巴比(Baby)，已经故去。
At the party in 2012, Mrs. Koo was still quite spry, and evidently still thinking positively. She danced with Oscar L. Tang, a financier and the widower of her daughter Frances, as the band played "Moon River." Mr. Tang had requested a leisurely tempo, but Mrs. Koo would have none of that. As he recalled, "She said, 'Faster, this one's too slow.'"	在2012年的派对上，顾严幼韵依然精神矍铄，其心态显然也一如既往地乐观。乐队演奏《月亮河》时，她和已故女儿杨蕙恩的丈夫、金融家唐骝千(Oscar L. Tang)翩翩起舞。唐骝千曾要求乐队演奏节拍更舒缓的版本，但顾严幼韵不同意。据唐骝千回忆，“她说，‘选快一点的，这首曲子节拍太慢了。’”

Where Terrorism is Normal (Nigeria) and News (France)	我们为何忽略尼日利亚恐怖袭击
It's heartening to see a growing discussion of the lack of attention that's been paid in recent days to the latest atrocities committed in Nigeria by what The Times recently described and mapped as "Boko Haram, the other Islamic State."	看到关于近日对新近在尼日利亚犯下的暴行缺乏关注的讨论越来越多，非常振奋人心。暴行是近期被时报(The Times)描绘为“博科圣地(Boko Haram)，另一个伊斯兰国”的组织所为。
Incidents in recent days have included deadly attacks involving young girls strapped with bombs. On a grander scale, there has been a massacre in the long-suffering town of Baga, on Lake Chad's shore, although initial reports of more than 2,000 slaughtered by hundreds of Boko Haram militants are being challenged by the Nigerian military, which says the toll is more like 150. The truth will out, of course, as was the case in a military assault on the town in 2013. (Satellite imagery helped clarify what happened, as did Human Rights Watch.)	近日的事件包括身绑炸弹的小女孩参与的致命袭击。再往大看，长久以来饱受摧残的乍得湖(Lake Chad)畔的巴加镇(Baga)发生了一起大屠杀，尽管最初的数百博科圣地武装分子屠杀了逾2000人的消息遭到了尼日利亚军方质疑——其称死亡人数约为150人。真相当然会浮出水面的，就像2013年针对该镇的一次军事袭击发生后一样。(卫星图像和人权观察[Human Rights Watch]协助明确了当时发生了什么。)

<p>In the meantime, Max Fisher at Vox has posted a helpful overview, noting that “the story of the Baga massacre is a story of Boko Haram’s depravity but also of the Nigerian military’s abject failure.”</p>	<p>与此同时，新闻网站 Vox 的马克斯·费希尔(Max Fisher)发布了一个很有帮助的总结，指出“巴加大屠杀的故事是一个博科圣地道德沦丧的故事，但也是一个尼日利亚军方惨败的故事”。</p>
<p>It would be easy to miss the Nigerian developments behind the saturation coverage of the murderous attacks on the Charlie Hebdo office and other targets in France, and the subsequent outpouring of support for the victims.</p>	<p>在关于针对《查理周报》办公室和其他法国目标的凶残袭击及其后对死难者的支持之声的铺天盖地的报道的掩盖之下，错过尼日利亚事件的进展是很容易的。</p>
<p>Why did the world ignore Boko Haram’s Baga attacks? http://t.co/w5krsFHATW #IamNigeria We intervene all over but not in Nigeria. Why not?</p>	<p>为什么世界视博科圣地的巴加袭击而不见? http://t.co/w5krsFHATW #我是尼日利亚 我们到处干预，却没有干预尼日利亚。为什么?</p>
<p>— Ann Wilson-Rawi (@_hannnnah_) 12 Jan 15</p>	<p>——安·威尔逊-拉维(Ann Wilson-Rawi) (@_hannnnah) 2015 年 1 月 12 日。 (该 Twitter 文字请参见左图二)</p>
<p>African journalists, among others, are trying to widen the focus. On the South African website Daily Maverick, Simon Allison wrote a tough piece aptly titled, “I am Charlie, but I am Baga too: On Nigeria’s forgotten massacre.”</p>	<p>非洲记者们，和其他一些记者，一直在努力扩大关注点。西蒙·埃里森(Simon Allison)在南非网站《独行者日报》(Daily Maverick)上写了一篇措辞严厉的文章，该文章贴切地以“我是查理，但我也巴加：关于尼日利亚被遗忘的大屠杀”为题。</p>
<p>But it’s also true that a simple comparison of coverage can miss underlying conditions that make terrorism so perversely normal in one place and exceptional elsewhere, as Matt Schiavenza noted on The Atlantic website yesterday:</p>	<p>但是，简单的对报道进行的比较确实也不能体现出使恐怖主义在一处成为变态的常态、却在其他地方反常的深层条件，如马特·思琪文扎(Matt Schiavenza)昨日在《大西洋月刊》(The Atlantic)网站上指出的那样：</p>
<p>The main difference between France and Nigeria isn’t that the public and the media care about one and not the other. It is, rather, that one country has an effective government and the other does not. The French may not be too fond of President Francois Hollande—his approval ratings last November had plunged to 12 percent—but he</p>	<p>法国和尼日利亚的主要区别不在于公众和媒体在意其中一个，而不在意另一个。其区别在于一个国家有一个有效的政府，而另一个国家没有。法国人可能不那么喜欢弗朗索瓦·奥朗德总统(President Francois Hollande)——他的支持率去年 11 月降至了 12%——但是，他用魄力应对了针对他的国家的两起恐怖袭击。尼日利亚的古德勒克·乔纳森(Goodluck Jonathan)可不是如此。</p>

<p>responded to his country's twin terror attacks with decisiveness. Not so Nigeria's Goodluck Jonathan. Since assuming the presidency in 2010, Jonathan has done little to contain Boko Haram. The group emerged in 2002 and has consolidated control over an area larger than West Virginia. And it's gaining ground. Perversely, the seemingly routine nature of Nigeria's violence may have diminished the perception of its newsworthiness.</p>	<p>自 2010 年开始其总统任期起，乔纳森没有采取过什么措施控制博科圣地。该组织 2002 年出现，并在一片比西弗吉尼亚州面积还大的区域内巩固了控制权。它仍在扩张。变态的是，尼日利亚暴力活动看起来已成常态化的性质或削弱了其新闻价值。</p>
<p>Tipping the balance in Nigeria toward more effective governance is vital if promising trajectories on girl's education (despite Boko Haram's efforts) and agricultural productivity are to be sustained.</p>	<p>如果要继续推进女童教育（尽管博科圣地在搞破坏）和农业生产力，那么促使尼日利亚走向更有效的政府治理是至关重要的。</p>
<p>It's important to note that events in France are still unfolding, including a search for up to six accomplices in the Paris attacks.</p>	<p>值得注意的是，法国的事件还在发展当中，包括对多达六名巴黎袭击事件同谋的追捕。</p>

<p>George Clooney on Sudan's Rape of Darfur</p>	<p>制止苏丹的强奸暴行</p>
<p>In the early 2000s, a brutal conflict in western Sudan between the government and rebels led to the deaths of hundreds of thousands of Darfuris, with millions displaced as refugees. In 2004, the United States declared Sudan's actions a genocide.</p>	<p>21 世纪初，在苏丹西部，政府和反政府武装之间的一场残酷冲突导致数十万达尔富尔人丧生，数百万难民流离失所。2004 年，美国宣布苏丹发生的事情属于种族灭绝。</p>
<p>After that spike in attention and concern, the world has largely forgotten about Darfur. Unfortunately, the government of Sudan has not.</p>	<p>世界对苏丹的重视和关注一度有所激增，之后便在很大程度上忘记了达尔富尔。不幸的是，苏丹政府却没有。</p>
<p>Because Sudan's government routinely blocks journalists from going into the Darfur region and severely restricts access for humanitarian workers, any window into life there is limited. The government has hammered the joint peacekeeping mission of the United Nations and</p>	<p>因为苏丹政府经常阻止记者进入达尔富尔地区，严格限制人道主义工作者的介入，外界对于那里生活情况的了解十分有限。苏丹政府通过关闭位于首都喀土穆的联合国人权办公室，阻挠调查疑似侵犯人权事件的人员，及向维和部队施压，要他们撤出该国，让联合国和非洲联盟的维和特派团陷入沉寂。</p>

<p>African Union into silence about human rights concerns by shutting down the United Nations human rights office in the capital, Khartoum, hampering investigators of alleged human rights abuses and pressuring the peacekeeping force to withdraw.</p>	
<p>Just last week, the regime reportedly convinced the peacekeeping mission to pull out of areas it says are stable, hoping no one takes a closer look. As a result, mass atrocities continue to occur in Darfur with no external witness. This is also the case in Blue Nile and the Nuba Mountains, two southern regions devastated by the government's scorched-earth tactics.</p>	<p>就在上周，据说苏丹政权说服了维和特派团，让他们撤出它所说的局势稳定地区。该政权希望没有人去那里认真调查。这样一来，大规模暴行继续在达尔富尔发生，但却没有外界的见证。在被政府焦土战术摧毁的两个南部地区布鲁尼罗(Blue Nile)和努巴山区(Nuba Mountains)，情况也是一样。</p>
<p>Every once in a while, however, a sliver of evidence emerges. In recent years, citizen journalists and human rights defenders from Darfur and the Nuba Mountains have smuggled out videos showing bombing raids and burning villages. Images captured by our Satellite Sentinel Project confirmed the systematic burning and barrel bombing of at least half a dozen villages in Darfur's eastern Jebel Marra area last year.</p>	<p>但是每过一段时间，就有零星证据出现。近年来，达尔富尔和努巴山区的公民记者和人权捍卫者悄悄送出来一些视频，显示了村庄被轰炸和焚烧的状况。我们的卫星哨兵项目(Satellite Sentinel Project)获得的图像也证实，去年在达尔富尔东部杰贝尔马拉区域，至少有六个村庄遭到了有计划的焚烧和“油桶炸弹”攻击。</p>
<p>To avoid scrutiny, the government has spent millions of dollars provided by Qatar to set up "model villages," where it encourages Darfuris displaced by violence to settle. Human Rights Watch recently documented a chilling incident of mass rape at one of these villages, Tabit.</p>	<p>为了转移注意力，苏丹政府把卡塔尔支援的数千万美元用来打造“示范村”，鼓励因暴力而流离失所的达尔富尔人在这些村子里定居下来。但在其中一个村子塔比特(Tabit)，最近发生了令人心寒的大规模强奸事件，被人权观察组织(Human Rights Watch)记录在案。</p>
<p>After collecting more than 130 witness and survivor testimonies over the phone, its researchers concluded that at least 221 women had been raped by soldiers of the Sudanese Army over a 36-hour period last October. The peacekeepers' attempts to investigate this incident were</p>	<p>通过电话收集了 130 多个证人和幸存者的证词后，该组织的研究人员得出结论，在去年 10 月一段持续 36 小时的时间里，至少有 221 名妇女遭到苏丹军队士兵强奸。维和人员试图调查这一事件，却遭到政府阻扰，政府允许他们短暂进入该镇，在恐吓的气氛中进行谈话。维和特派团泄露的备忘录表明，</p>

<p>obstructed by the government, which allowed them into the town briefly for interviews that were conducted in a climate of intimidation. A leaked memo from the peacekeeping mission shows that Sudanese troops listened in on and even recorded many of the interviews. Since then, the people of Tabit have had their freedom of movement severely curtailed.</p>	<p>有苏丹士兵在旁边偷听，甚至录下了许多的交谈内容。此后，塔比特村民的行动自由就遭到了严重限制。</p>
<p>The army had controlled the town since 2011, with a base on the outskirts, and was not trying to drive the population from their homes to gain territory. The sexual violence has no military objective; rather, it is a tactic of social control, ethnic domination and demographic change. Acting with impunity, government forces victimize the entire community. Racial subordination is also an underlying message, as non-Arab groups are singled out for abuse.</p>	<p>军队自 2011 年后控制了该镇，并在郊区设有一个基地，他们并不是想把人们赶出家园，以便获得土地。性暴力没有军事目的，而是一种社会控制、种族统治和人口改变策略。逍遥法外的政府军对整个社区施暴。这里另一层暗含的讯息和种族等级有关，因为被挑出来施虐对象群体都不是阿拉伯裔。</p>
<p>Human rights courts around the world have found that rapes by army officials or police officers can constitute torture. When issuing its findings about crimes committed in a similar situation in Bosnia, the International Tribunal for the Former Yugoslavia determined that the rapes of women at two camps were acts of torture since sexual violence was used as an instrument of terror. The mass rapes in Tabit follow the same pattern.</p>	<p>世界各地的人权法院都认为，军人和警察实施的强奸可以构成酷刑罪。前南斯拉夫问题国际刑事法庭(International Tribunal for the Former Yugoslavia)就波斯尼亚发生的类似罪行发布调查结果时，将在两个营地强奸妇女的行为判定为酷刑，因为性暴力成了恐怖手段。在塔比特发生的大规模强奸事件也存在相同的模式。</p>
<p>During our own visits to Darfur, the Nuba Mountains and refugee camps in neighboring countries, we have heard story after story like those from Tabit. These “torture rapes” are just one tool in Sudan’s criminal arsenal, which also includes aerial bombing of hospitals and agricultural fields, burning of villages and the denial of food aid.</p>	<p>我们自己前往达尔富尔地区、努巴山区和邻国难民营探访时，也听到过类似于塔比特的事情。在苏丹，这种“酷刑强奸”只是犯罪方式之一，其他还包括空袭医院和农田、焚烧村庄和封锁粮食援助等。</p>

<p>Over time, international outrage has shifted away from Darfur. When change doesn't come fast enough, attention spans are short — especially for places that appear to have no strategic importance. In the last two years, however, Darfur became important to the Sudanese government when major gold reserves were discovered in North Darfur, the region that includes Tabit.</p>	<p>久而久之，国际社会对达尔富尔地区的愤怒情绪已经逐渐消失。当改变来得不够快时，关注的时期是非常短暂的，特别是那些似乎没有战略意义的地方。但在过去两年中，达尔富尔对于苏丹政府来说变得非常重要，因为在北达尔富尔地区发现了大量黄金矿藏，该地区涵盖塔比特。</p>
<p>When South Sudan won its independence in 2011, the part of Sudan left behind lost its biggest source of foreign exchange earnings: oil revenues. So gold has become the new oil for Sudan.</p>	<p>当南苏丹在 2011 年赢得独立时，苏丹的其他地区失去了最大的外汇收入来源：石油收入。因此对于苏丹来说，黄金成了新的石油。</p>
<p>According to the International Monetary Fund, gold sales earned Sudan \$1.17 billion last year. Much of that gold is coming from Darfur and other conflict zones. The government has attempted to consolidate its control over the country's gold mines in part by violent ethnic cleansing.</p>	<p>据国际货币基金组织(International Monetary Fund)透露，苏丹去年的黄金销售收入达到了 11.7 亿美元（约合 71.9 亿元人民币）。其中大部分黄金来自达尔富尔及其他冲突地带。苏丹政府试图通过暴力种族清洗行动等手段加强对该国金矿的控制。</p>
<p>Unfortunately, the United Nations Security Council is too divided to respond with action to the crimes being committed in Darfur and other parts of Sudan. Russia and China, which have commercial links to Khartoum through arms sales and oil deals, are unwilling to apply pressure that might alter the calculations of the Khartoum government. But that doesn't mean the international community is without leverage.</p>	<p>遗憾的是，在应对达尔富尔及苏丹其他地区出现的罪行上，联合国安理会(United Nations Security Council)内部的分歧非常大。俄罗斯和中国与喀土穆存在商业联系——武器销售和石油交易，它们不愿施加可能会改变喀土穆政府策略的压力。但这并不意味着国际社会没有影响力。</p>
<p>First, international banks, gold refiners and associations like the Dubai Multi Commodities Center and the London Bullion Market Association should raise alerts for Sudanese gold and initiate audits to trace it all to its mine of origin to ensure that purchases are not fueling war crimes in Darfur. The gold industry has already adopted a similar approach to</p>	<p>首先，国际银行、黄金精炼厂，以及迪拜多种商品交易中心(Dubai Multi Commodities Center)、伦敦金银市场协会(London Bullion Market Association)等组织应该对苏丹黄金提高警惕，开始进行调查，追踪黄金的来源，以确保购买行为不会加剧达尔富尔地区战争罪行。黄金产业已经对刚果民主共和国的供应商采用了类似的方法。</p>

suppliers in the Democratic Republic of Congo.	
Second, the international community has imposed sanctions unevenly and without sufficient enforcement to have a significant impact. The United States and other countries should expand sanctions and step up enforcement to pressure Sudan to observe human rights and to negotiate for peace. Most important, the next wave of American sanctions should target the facilitators, including Sudanese and international banks, that do business with the regime either directly or through partners.	第二，国际社会没有均衡地施加制裁，也没有足够的执行力度，因此很难产生重大影响。美国和其他国家应该扩大制裁范围，加强实施力度，迫使苏丹关注人权问题，进行和平谈判。最重要的是，美国的下一波制裁应该针对为该政权提供服务和帮助的人和机构，比如直接或通过合作伙伴与该政权做生意的苏丹银行及国际银行。
The “torture rapes” in Tabit are a reminder to the world that the same conditions that led to the United States’ declaration of genocide in Darfur are still firmly in place, with devastating human consequences. We must not forget the survivors, and we must impose deterrent costs on the orchestrators and their enablers.	塔比特发生的“酷刑强奸”提醒世界注意，促使美国宣布达尔富尔存在种族灭绝罪行的情况仍然存在，而且给许多人带来了惨重后果。我们绝不能忘记那些幸存者，我们必须制止主导者和那些帮助他们的人。

Yes, We Were Warned About Ebola	埃博拉疫情早有预警
The conventional wisdom among public health authorities is that the Ebola virus, which killed at least 10,000 people in Liberia, Sierra Leone and Guinea, was a new phenomenon, not seen in West Africa before 2013. (The one exception was an anomalous case in Ivory Coast in 1994, when a Swiss primatologist was infected after performing an autopsy on a chimpanzee.)	在利比里亚、塞拉利昂和几内亚肆虐的埃博拉疫情已经造成至少 1 万人死亡。公共卫生机构的惯常思维是，埃博拉病毒的流行是一种新现象，在 2013 年前没有在非洲西部出现过。（有一个例外，1994 年在科特迪瓦出现过一例反常病例，当时一名瑞士的灵长类动物学家在对黑猩猩的尸体进行解剖后感染了病毒。）
The conventional wisdom is wrong. We were stunned recently when we stumbled across an article by European researchers in Annals of Virology: “The results seem to indicate that Liberia has to be included in	这种惯常思维是错误的。我们最近偶然发现了《病毒学年鉴》(Annals of Virology)上的一篇文章，令我们颇为惊讶：“研究结果似乎说明，需要将利比里亚纳入埃博拉病毒流行区。”文章作者强调，将来，“利比里亚卫生机构

<p>the Ebola virus endemic zone.” In the future, the authors asserted, “medical personnel in Liberian health centers should be aware of the possibility that they may come across active cases and thus be prepared to avoid nosocomial epidemics,” referring to hospital-acquired infection.</p>	<p>的医务人员应该意识到，他们可能会遇到活跃病例，因此应该做好准备，避免疾病在院内传播。”</p>
<p>What triggered our dismay was not the words, but when they were written: The paper was published in 1982.</p>	<p>让我们感到不安的并非文字本身，而是写下这些文字的时间：这篇论文发表于1982年。</p>
<p>As members of a team drafting Liberia’s Ebola recovery plan last month, we systematically reviewed the literature on Ebola surveillance since the virus’s discovery in central Africa in 1976. We learned that the virologists who wrote that report, who were from Germany, had analyzed frozen blood samples taken in 1978 and 1979 from 433 Liberian citizens. They found that 26 (or 6 percent) had antibodies to the Ebola virus.</p>	<p>作为上个月拟定利比里亚后埃博拉时期恢复计划的团队成员，我们系统地查阅了自1976年首次在非洲中部发现这种病毒以来的有关埃博拉疫情监控的文献。我们得知，撰写上述报告的德国病毒学家分析了一些冻存血样——于1978年到1979年间取自433名利比里亚人。他们发现，其中26人（即6%）体内携带埃博拉病毒抗体。</p>
<p>Three other studies published in 1986 documented Ebola antibody prevalence rates of 10.6, 13.4 and 14 percent, respectively, in northwestern Liberia, not far from its borders with Sierra Leone and Guinea. These articles, along with other forgotten reports from the 1980s on antibody prevalence in neighboring Sierra Leone and Guinea, suggest the possibility of what some call “sanctuary sites,” or persistent, if latent, Ebola infection in humans.</p>	<p>另有三篇发表于1986年的论文显示，在利比里亚西北部，距离该国与塞拉利昂及几内亚边境不远的地方，埃博拉抗体的携带率分别为10.6%、13.4%和14%。上述文章，以及那些发表于20世纪80年代的被遗忘的有关邻国塞拉利昂和几内亚的埃博拉抗体携带率的报告都说明，可能存在一些人所说的“避难所”，也就是持续携带潜藏的埃博拉病毒的人体。</p>
<p>There is an adage in public health: “The road to inaction is paved with research papers.” In a twist of fate, the same laboratory that confirmed the first positive Ebola test results in Guinea last year, the Pasteur Institute, was the publisher of Annals of Virology. Yet the institute’s April</p>	<p>公共卫生领域有一条格言：“通往无所作为的道路上铺满了研究报告。”命运弄人的是，去年确认几内亚第一例检测结果为阳性的埃博拉病例的实验室——巴斯德研究所(Pasteur Institute)——正是《病毒学年鉴》的出版方。然而，这家研究所在2014年4月发表的报告称，“该分区并未被认为是埃博拉</p>

<p>2014 report said, "This subregion was not considered to be an area in which EBOV was endemic" (using the medical term for the Ebola virus).</p>	<p>病毒的流行区。”</p>
<p>Part of the problem is that none of these articles were co-written by a Liberian scientist. The investigators collected their samples, returned home and published the startling results in European medical journals. Few Liberians were then trained in laboratory or epidemiological methods. Even today, downloading one of the papers would cost a physician here \$45, about half a week's salary.</p>	<p>造成这一问题的部分原因在于，这些论文都不是由利比里亚科学家合写的。研究人员采集样本，带回去，然后在欧洲的医学期刊上公布惊人的研究结果。那时候，几乎没有利比亚里人受到实验室或流行病学研究方法的培训。就算到了今天，利比里亚的医生下载一篇论文可能要花费 45 美元（约合 280 元人民币），几乎相当于半周的薪水。</p>
<p>The story is not an unusual one. As it happened, the subjects in the 1986 antibody studies worked on the world's largest rubber plantation (which then supplied 40 percent of the latex used in the United States). During the current outbreak of Ebola, we saw rubber trees stretch as far as the eye could see from clinics in rural Margibi County – clinics shuttered after nurses died after supplies of latex gloves and other protective gear ran out. The way this part of Liberia was trawled for vital medical knowledge thus mirrored the way the West extracted the rubber it needed.</p>	<p>这个故事并不罕见。事实上，1986 年开展的抗体研究的受试对象是世界上最大的橡胶园的工作人员（当时美国使用的 40% 的乳胶产自该橡胶园）。在最近这轮埃博拉疫情爆发期间，从马及比县的那些诊所——橡胶手套及其他防护装备的缺乏导致护士死亡后，诊所被关闭——看去，橡胶树不断延伸，一望无际。我们在利比里亚的这个地区获取重要医疗信息的方式，与西方国家获取他们所需的橡胶的方式别无二致。</p>
<p>Sierra Leone's and Liberia's recent histories of civil conflict made it difficult to confirm an outbreak of the disease. Public health laboratories were not functioning in either country; it was months before Ebola was identified as the culprit pathogen. That made it impossible for the region's few doctors and nurses to deliver effective care.</p>	<p>塞拉利昂和利比里亚近期进行的内战使得医护人员难以确认疫情的爆发。这两个国家的公共卫生实验室均未良好运转；拖了好几个月的时间埃博拉病毒才被确定为罪魁祸首。因此，该地区本已稀缺的医生和护士无法进行有效的医疗服务。</p>
<p>In all recognized Ebola epidemics to date, the disease has been transmitted primarily in the course of caring for the sick or burying the dead – hence the 1982 warning about transmission within hospitals</p>	<p>在迄今为止所有被确认的埃博拉疫情中，这种疾病都主要是在护理患者或掩埋尸体的过程中传播的。所以，1982 年的论文提醒人们注意医院和诊所内部的感染。情况正如德国科学家所预测的那样：利比里亚捉襟见肘的卫生设</p>

<p>and clinics. It was just as the German scientists had predicted: Liberia's under-resourced health facilities became the fault lines along which Ebola erupted across the country and the wider region.</p>	<p>施成为了软肋。埃博拉沿着它们向全国乃至更广阔的地区扩散。</p>
<p>To our knowledge, no senior official now serving in Liberia's Ministry of Health had ever heard of the antibody studies' findings. Nor had top officials in the international organizations so valiantly supporting the Ebola response in Liberia, including United Nations agencies and foreign medical teams.</p>	<p>据我们所知，利比里亚卫生部在职的高级官员中，没人听说过前述抗体研究的发现。在利比里亚勇敢地支持抗击埃博拉活动的国际组织，包括联合国机构和外国医疗团队，它们的高层官员也没听说过。</p>
<p>When the history of this epidemic is written, it will chronicle the myriad ways that – from Guéckédou and Monrovia, to Geneva and Dallas – we were not prepared. But none of us can in good conscience say there was no warning.</p>	<p>如果有人撰写这种传染病的历史，我们缺乏准备的无数个地方都会被计入其中，从盖凯杜和蒙罗维亚，到日内瓦和达拉斯。但我们谁都不能凭良心说没有过警告。</p>
<p>Ebola was here already. Understaffed and underequipped hospitals and clinics were sure to intensify, rather than stop, a major outbreak. And among its primary victims would be health care professionals. Had the virologists' findings been linked to long-term efforts to train Liberians to conduct research, to identify and stop epidemics, and to deliver quality medical care, the outcome might have been different.</p>	<p>埃博拉病毒早就来到了这里。人手不足、设备匮乏的医院和诊所肯定会加剧，而非阻止一场大规模的疫情爆发。主要受害者将包括医护专业人士。如果那些病毒学家的发现，能和训练利比里亚人开展研究、辨认并阻止疫情、提供优质医疗护理的长期行动结合在一起，结果或许会有所不同。</p>
<p>We all had friends and co-workers fall ill during this epidemic. But the fates of the afflicted reflect grotesque disparities. Of the 10 Americans infected with Ebola, all were airlifted to specialist hospitals with excellent clinical care in the United States. Nine have recovered, and the 10th is, we pray, well on his way to a full recovery. At the start of the last major chain of transmission recorded in urban Liberia, last month, 11 of 11 people in one cluster perished.</p>	<p>我们都有朋友或同事在这场疫情中病倒。但被传染者的命运却反映出了奇特的悬殊差异。10名感染了埃博拉的美国人，全都被用飞机送到了美国的专科医院，那里有极好的临床护理。其中九人已康复，我们祈祷剩下那名患者也能尽快地完全康复。而上月，利比里亚城市地区有记载的最后一次大规模连锁传染刚刚开始，其中一个集体病例中的11人就全部死亡。</p>

<p>A lasting legacy of this terrifying health crisis must be a new architecture for global health delivery, with a strong focus on building local capacity to respond effectively to such crises. Equity must be an indispensable goal in protecting from threats like Ebola, and in the quality of care delivered when prevention fails. Only then can we leave behind the rubber plantation model of international health and draw on the science that must inform these endeavors.</p>	<p>这场骇人的卫生危机的持久影响之一，是必须为全球卫生救护建立新的架构，着重建设当地有效应对这类危机的能力。在预防埃博拉等威胁，以及预防失败后提供的医护服务的质量方面，公平必须成为一个不可或缺的目标。只有这样，我们才能丢弃国际卫生的橡胶种植园模式，利用必须与这些努力联系在一起的相关科学研究。</p>

<p>Holding Your Breath in India</p>	<p>在印度，屏住呼吸</p>
<p>NEW DELHI — FOR weeks the breathing of my 8-year-old son, Bram, had become more labored, his medicinal inhaler increasingly vital. And then, one terrifying night nine months after we moved to this megacity, Bram's inhaler stopped working and his gasping became panicked.</p>	<p>新德里——在接连几周的时间里，我八岁的儿子布拉姆(Bram)的呼吸变得越来越吃力，他的药用吸入器也变得越来越重要。然后，在我们搬到这个大都市九个月后的一个可怕夜晚，布拉姆的吸入器不再管用，他开始喘不过气来。</p>
<p>My wife called a friend, who recommended a private hospital miles away. I carried Bram to the car while my wife brought his older brother. India's traffic is among the world's most chaotic, and New Delhi's streets are crammed with trucks at night, when road signs become largely ornamental. We undertook one of the most frightening journeys of our lives, with my wife in the back seat cradling Bram's head.</p>	<p>我妻子打电话给一个朋友，她推荐了一家数英里之外的私立医院。我把布拉姆抱进车，我妻子带着布拉姆的哥哥也上了车。印度是世界上交通最混乱的地区之一，新德里夜间的街道上挤满了卡车，交通标志基本上是摆设。妻子在后座上揽着布拉姆的头，那是我们这辈子最可怕的旅程之一。</p>
<p>When we arrived, doctors infused him with steroids (and refused to provide further treatment until a \$1,000 charge on my credit card went through). A week later, Bram was able to return home.</p>	<p>我们到达医院后，医生给布拉姆输了类固醇（并且拒绝提供进一步的治疗，直至我用信用卡支付的1000美元到账）。一周后，布莱姆才得以回家。</p>
<p>When I became a South Asia correspondent for The New York Times three years ago, my wife and I were both excited and prepared for difficulties — insistent beggars, endemic dengue and summertime</p>	<p>三年前，当我成为《纽约时报》的南亚通讯员时，妻子和我感到很兴奋，同时也做好了迎接困难的准备——纠缠不休的乞丐，四处肆虐的登革热，高达华氏120度的夏季温度。但我们全然没有料到，这个城市对我们的孩子会有</p>

<p>temperatures that reach 120 degrees. But we had little inkling just how dangerous this city would be for our boys.</p>	<p>多么危险。</p>
<p>We gradually learned that Delhi's true menace came from its air, water, food and flies. These perils sicken, disable and kill millions in India annually, making for one of the worst public health disasters in the world. Delhi, we discovered, is quietly suffering from a dire pediatric respiratory crisis, with a recent study showing that nearly half of the city's 4.4 million schoolchildren have irreversible lung damage from the poisonous air.</p>	<p>我们逐渐了解到，德里真正危险的地方是它的空气、水、食物和苍蝇。在印度，这些危险因素每年导致数以百万计的人患病、残疾和丧生，这是世界上最严重的公共卫生灾难之一。我们发现，德里正悄无声息地遭遇着一场可怕的小儿呼吸道疾病危机，最近的一项研究显示，在该市 440 万学龄儿童中，有将近一半因有毒的空气遭受了不可逆转的肺部损伤。</p>
<p>For most Indians, these are inescapable horrors. But there are thousands of others who have chosen to live here, including some trying to save the world, others hoping to describe it and still others intent on getting their own small piece of it. It is an eclectic community of expatriates and millionaires, including car executives from Detroit, tech geeks from the Bay Area, cancer researchers from Maryland and diplomats from Dublin. Over the last year, often over chai and samosas at local dhabas or whiskey and chicken tikka at glittering embassy parties, we have obsessively discussed whether we are pursuing our careers at our children's expense.</p>	<p>对于大多数印度人而言，这些恐怖之处是不可避免的。但也有数以千计的人们选择居住在这里，其中就包括一些试图拯救世界的人，一些希望讲述这里的故事的人，还有一些热衷于在这里拥有一片自己的小天地的人。这是外籍人士和富豪组成的混杂社区，他们中有来自底特律的汽车高管，湾区的科技业人士，马里兰州的癌症研究人员，以及都柏林的外交官。过去一年里，我们在本地饭馆品尝印度奶茶及三角饼时，或者在五颜六色的使馆派对上享受威士忌和鸡肉串时，常常着了魔似地讨论一个话题：我们是否罔顾孩子的利益，来追求自己的事业？</p>
<p>Foreigners have lived in Delhi for centuries, of course, but the air and the mounting research into its effects have become so frightening that some feel it is unethical for those who have a choice to willingly raise children here. Similar discussions are doubtless underway in Beijing and other Asian megacities, but it is in Delhi — among the most populous, polluted, unsanitary and bacterially unsafe cities on earth — where the</p>	<p>当然，数百年来一直有外国人在德里居住，但空气和越来越多的关于其影响的研究已经变得如此触目惊心，以至于有些人觉得，如果有人有选择的机会，却情愿在这里抚养孩子，那是不道德的。类似的讨论无疑也正在北京等亚洲大城市展开，但在德里——地球上人口最稠密，污染最严重，最不卫生，病菌肆虐最甚的城市之一——这个问题似乎最为紧迫。世界卫生组织的资料显示，该城市的空气污染程度超过北京的两倍。（世界上 25 个污染最严重的城</p>

<p>new calculus seems most urgent. The city's air is more than twice as polluted as Beijing's, according to the World Health Organization. <p>So many of our friends have decided to leave that the American Embassy School — this city's great expat institution — is facing a steep drop in admissions next fall. My pastor, who ministers to a largely expat parish here, told me he feared he would lose 60 percent of his congregants this summer.</p>	<p>因此，我们的很多朋友都决定离开。美国使馆学校(American Embassy School)是德里一家很棒的外籍生学校，今年秋天它面临着生源的急剧下降。我的牧师负责这里一个主要由外籍人员构成的教区，他告诉我，他担心今年夏天自己会失去 60% 的教众。</p>
<p>We nearly left two years ago, after Bram's first hospitalization. Even after his breathing stabilized, tests showed that he had lost half his lung function. On our doctor's advice, we placed him on routine steroid therapy and decided that as long as his breathing did not worsen again, we could stay in Delhi.</p>	<p>两年前，在布拉姆的首次住院之后，我们也几乎离开了这里。但他的呼吸状况稳定下来后，测试结果显示他已经失去了一半的肺功能。在医生的建议下，我们让他进行常规的类固醇治疗，并决定只要他的呼吸状况没有再次恶化，我们可以就留在德里。</p>
<p>Or at least I decided that. My wife seriously considered flying home immediately, and at the end of a summer visit to the United States with the kids months later, sobbed for hours on the return flight to Delhi.</p>	<p>或者至少我决定这么做。我妻子当时就认真考虑过立即飞回家去；而且在数个月后，当我们与孩子结束了回美国探访的夏季行程，在回德里的返程航班上，她抽泣了好几个小时。</p>
<p>But after our second year here, Bram seemed fine. His earlier difficulties, though, led me to call some leading air pollution experts. The conversations were sobering.</p>	<p>不过，我们在这里度过了第二年之后，布莱姆显得一切安好。但是鉴于他之前遇到的状况，我和一些顶尖的空气污染专家通了电话。我们之间的交谈发人深省。</p>
<p>"Knowing that I was putting my kids in a place that compromised their health for their lifetimes would be very difficult given all of the scientific evidence," said W. James Gauderman, a professor of preventive medicine at the University of Southern California. He is the co-author of a landmark 2004 study showing that children raised in parts of Los</p>	<p>"考虑到有各种科学证据，知道自己让孩子住在某个地方，可能损害他们一生的健康，会让我非常难受，"南加州大学的预防医学教授 W·詹姆斯·高德曼 (W. James Gauderman) 说。他是 2004 年一份具有里程碑意义的研究的合著者，该研究显示，在洛杉矶部分地区——污染程度远低于德里——长大的儿童，遭受了明显的、可能是永久性的肺功能损失。另一项研究发现，如果</p>

<p>Angeles — where pollution levels are a fraction of Delhi's — face significant and probably permanent losses of lung function. Even children who move to less polluted places during childhood never seem to entirely recover from earlier high pollution exposures, another study found.</p>	<p>孩子早年在高污染环境中生活，即使在儿童时期搬迁到了污染较低的地方，他们似乎也无法完全恢复健康。</p>
<p>Sarath Guttikunda, one of India's top pollution researchers, who moved to Goa, on the west coast of India, to protect his two young children, was unequivocal: "If you have the option to live elsewhere, you should not raise children in Delhi."</p>	<p>为了保护两个年幼的孩子，印度最顶尖的污染研究人员之一萨拉斯·古提昆塔 (Sarath Guttikunda) 举家搬迁到了印度西海岸的果阿。他明确地说：“如果你可以在别处居住，就不该在德里抚养子女。”</p>
<p>These and other experts told me that reduced lung capacity in adults is a highly accurate predictor of early death and disability — perhaps more than elevated blood pressure or cholesterol. So by permanently damaging their lungs in Delhi, our children may not live as long.</p>	<p>他们和其他专家告诉我，成人肺活量不足，对于预测早逝和残疾来说准确度非常高——可能高于血压或胆固醇升高。因此，由于在德里遭受了永久性的肺损坏，我的孩子的寿命可能缩短了。</p>
<p>And then there are nascent areas of research suggesting that pollution can lower children's I.Q., hurt their test scores and increase the risks of autism, epilepsy, diabetes and even adult-onset diseases like multiple sclerosis.</p>	<p>在一些方兴未艾的领域，研究表明：污染可能会让儿童智商降低，影响他们的考试成绩，并增加罹患自闭症、癫痫、糖尿病的风险，甚至像多发性硬化症等成年后才发作的疾病，患病风险也会提高。</p>
<p>C. Arden Pope III, a professor of economics at Brigham Young University and a leading expert on the health consequences of air pollution, noted that accurate pollution monitors have existed only since the 1980s. "If Delhi's readings aren't the highest ever, they're among the highest ever," he said. "Certainly no city in the United States, including Los Angeles, has ever come close."</p>	<p>杨百翰大学 (Brigham Young University) 的经济学家 C·阿登·波普三世 (C. Arden Pope III) 是研究空气污染对健康的影响的权威专家，他指出，准确的污染监测仪器直到 20 世纪 80 年代才出现。“就算德里的读数值不是有史以来最高的，也是有史以来最高之一，”他说。“包括洛杉矶在内的任何美国城市肯定都与那样高的读数值相距甚远。”</p>
<p>That means the extent of the damage Delhi is doing to our children can only be guessed, he said. Several medical ethicists said it would be</p>	<p>这意味着，我孩子在德里遭受的损害严重程度只能靠猜测，他说。几位医学伦理学家称，送一群孩子到德里去，并监测他们的健康状况，这样的临床试</p>

<p>impossible to get approval for a clinical trial to send a group of children to Delhi to monitor their health. "Not a chance," said Adil E. Shamoo, editor in chief of Accountability in Research and a bioethicist at the University of Maryland School of Medicine. "It's O.K. to survey people already there, but moving children into harm's way? No."</p>	<p>验是不可能得到批准的。“绝对不可能，”《研究中的问责》(Accountability in Research)的主编、马里兰医学院(Maryland School of Medicine)的生物伦理学家阿迪尔·E·萨莫(Adil E. Shamoo)说。“调查已经在那里的人是可以的；但把孩子搬迁到有危害的地方？不行。”</p>
<p>And children are by no means the only ones harmed. Many adults suffer near-constant headaches, sore throats, coughs and fatigue. Arvind Kejriwal, Delhi's chief minister, had to leave the city for 10 days in March to cure a chronic cough.</p>	<p>受到危害的不仅是孩子。很多成年人几乎常年头痛、喉咙痛、咳嗽，以及疲劳乏力。今年3月，德里首席部长阿尔温德·凯杰里沃(Arvind Kejriwal)为了治疗慢性咳嗽，不得不离开了这里十天。</p>
<p>It's not just the air that inflicts harm. At least 600 million Indians, half the total population, defecate outdoors, and most of the effluent, even from toilets, is dumped untreated into rivers and streams. Still, I never thought this would come home to my family quite as dramatically as it did.</p>	<p>危害健康的不仅是空气。至少有六亿印度人在户外排便，占总人口数量的一半，而大部分的污水，甚至来自厕所的污水，都未经处理就倾倒入江河。但是，我从来没有想过，它们会戏剧性地来到我的家中。</p>
<p>We live in a four-year-old, five-story apartment building that my wife chose because its relatively new windows could help shut out Delhi's appalling nighttime air. Its cookie-cutter design — by the same developer who built dozens of others in the neighborhood — gave us confidence that things would function, by no means assured for new construction here.</p>	<p>我们住在一栋四年前修建的五层公寓楼里，我的妻子选择这里是因为它配备了相对较新的窗户，有助于将德里的可怕夜间空气隔绝在外。公寓楼平凡无奇的设计——同一家开发商在附近修建了数十栋这样的建筑——给了我们信心，觉得它的设施会运行良好；不是所有德里的新建筑都能保证这一点的。</p>
<p>About six months after we moved in, one of our neighbors reported that her tap water suddenly smelled like sewage. Then the smell hit another neighbor and another. It turned out that the developer had dug open channels for sewage that had gradually seeped into each apartment's buried water tank. When we pulled up the floor tiles on the</p>	<p>搬进去大约半年后的一天，一名邻居说她的自来水突然散发污水味道。然后邻居们一个接一个遇到这种情况。原来是开发商把下水道挖开了，污水逐渐渗透到每间公寓埋在地下的水箱里。当我们揭开一楼的地砖时，褐色污泥似乎到处都是。</p>

<p>ground floor, brown sludge seemed to be everywhere.</p>	
<p>I was in the shower when this sewage mixture arrived in our apartment. Sounds horrible, but I shrugged and toweled off because that smell is such a frequent presence here.</p>	<p>混合了污水的自来水抵达我们公寓时，我正在淋浴。这听起来很可怕，但我只是耸耸肩，擦干了身体，因为那种味道在这里经常都能闻到。</p>
<p>For much of the year, the Yamuna River would have almost no flow through Delhi if not for raw sewage. Add in the packs of stray dogs, monkeys and cattle even in urban areas, and fresh excretions are nearly ubiquitous. Insects alight on these excretions and then on people or their food, sickening them.</p>	<p>如果不是未经处理的污水倾倒入亚穆纳河，那么在一年中的很多时候，这条河在德里几乎是断流的。再加上德里城区中也时常看到的一群群流浪狗、猴子和牛，新的排泄物几乎随处可见。昆虫在这些排泄物上落足，然后再在人类或他们的食物上停留，传染疾病。</p>
<p>Most piped water here is contaminated. Poor sanitation may be a crucial reason nearly half of India's children are stunted.</p>	<p>这里的大多数自来水都遭受了污染。恶劣的卫生条件，可能是近一半印度儿童发育迟缓的一个关键原因。</p>
<p>The list of health threats sounds harrowing when considered together, but life goes on and can be quite nice here. Our apartment building eventually installed aboveground water tanks. My children's school and travel in the region are terrific, and many expats are far more influential here than they would be in their home countries.</p>	<p>综合考虑这些威胁健康的因素，你会感到痛心疾首，但这里的生活还在继续，而且也可以过得相当不错。我们的公寓楼最终把水箱安装在了地面上。我孩子的学校和在该地区进行的旅行都很棒。很多外国人在这里拥有了比在本国远远更大的影响力。</p>
<p>Yet one afternoon this spring, someone in our neighborhood burned something toxic, and an astringent cloud spread around our block. My wife was out walking with a friend, and their eyes became teary and their throats began to close. They bolted back inside our apartment where they found Bram gasping again, for the first time in two years. In some places in Delhi, the levels of fine particles that cause the most lung damage, called PM2.5, routinely exceed 1,000 in winter in part because small trash and other fires are so common, according to scientists. In Beijing, PM2.5 levels that exceed 500 make international</p>	<p>然而，今年春天的一个下午，有人在居民区里焚烧有毒物质，气味酸涩的浓烟在我们的街区蔓延。我妻子和一位朋友当时在外面散步，她们被呛出了眼泪，感觉快要窒息。于是狂奔回我们的公寓，结果发现布拉姆又在喘息，这还是两年里的第一次。在德里有些地方，名为 PM 2.5 的细颗粒物的水平导致了非常严重的肺损伤，在冬季，该数值经常超过 1000，科学家表示，部分原因是对小件垃圾和其他东西的焚烧在这里极为普遍。在北京，PM 2.5 水平超过 500 会成为国际头条新闻；而在这里，比北京高出一倍的污染水平基本上被人们无视。</p>

headlines; here, levels twice that high are largely ignored.	
But Bram notices.	但布拉姆注意到了。
He spent the next five days at home, with my wife giving him heavy doses of inhaled steroids through a mask. He has a quiet sadness during these crises, perhaps because they force him to accept the idea that his health is more fragile than that of his brother or friends.	接下来的五天里，他一直待在家里，我妻子让他透过口罩服用了大量吸入性类固醇。在这些危机期间，他有一种静默的忧伤，因为他要被迫接受，自己的健康比哥哥或朋友更脆弱。
Before coming to Delhi, Bram had had a couple of breathing episodes that doctors assured us he would most likely outgrow. Now he has full-blown asthma and must take powerful daily medications.	来德里之前，布拉姆也出过几次呼吸方面的问题。医生曾向我们保证，布拉姆很有可能会随着年龄的增长而摆脱那些问题。但现在，他真的得了哮喘病，每天都必须服用强效药物。
Would he have developed asthma if we had stayed in the United States? Pediatric asthma is far more likely to start and worsen in polluted locales. The sidelines at kids' soccer games here are littered with inhalers.	如果我们留在美国，他还会得哮喘吗？在受污染的地方，小儿哮喘发病和恶化的可能性要大得多。在这里的足球场外，散落着许多吸入器。
Ruth R. Faden, director of the Johns Hopkins Berman Institute of Bioethics, said children have a special claim to protection. "First, because they are so dependent on us for their well-being, and second because deprivations in childhood have such an outsize effect," she said.	约翰·霍普金斯大学伯曼生物伦理学研究所(Johns Hopkins Berman Institute of Bioethics)主任鲁斯·R·费登(Ruth R. Faden)说，孩子特别需要保护。“首先，因为他们的健康很依赖我们，其次因为童年时期健康受损的影响非常大，”她说。
There is a growing expatriate literature, mostly out of China, describing the horrors of air pollution, the dangers to children and the increasingly desperate measures taken for protection. These accounts mostly end with the writers deciding to remain despite the horrors.	外籍人士撰写的相关文章越来越多。它们大多来自中国，描写了对空气污染的恐惧、对孩子的危害以及所采取的越来越夸张的保护措施。在这些文章的结尾，虽心怀恐惧，但作者大多还是决定留下。
Not this one. We are moving back to Washington this week.	但本文不同。我们将于这周返回华盛顿。
The boys are excited. Aden, 12, wants a skateboard and bicycle, accouterments of freedom in a place he is allowed to wander by	孩子们很兴奋。12岁的亚丁(Aden)想要滑板和自行车。在一个允许他独自闲逛的地方，那是享受自由的装备。他弟弟的愿望则可能更难实现。

himself. His younger brother's wish may be harder to realize.	
"My asthma will go away," Bram said recently. "I hope so, anyway."	"我的哮喘会消失,"布拉姆前不久说。"总之,希望如此。"

Starvation as a Product of War	南苏丹内战带来的饥荒
AWEIL, South Sudan — One gauge of the famine looming in South Sudan is that people are simply collapsing from hunger.	南苏丹阿韦勒——南苏丹距离饥荒越来越近,我们看到的是,人们正因饥饿瘫倒在地。
As I was driving into this city, a woman was lying inert on the road. She was Nyanjok Garang, and she said she hadn't eaten for three days. She had set out to look for work, maybe washing clothes, in hopes of keeping her two children alive. After a day of fruitless walking she had collapsed.	开车进入一座城市的时候,我看到一个女人一动不动躺在路上。她是妮安焦克·格兰(Nyanjok Garang),已经三天没有进食。她本打算出来找工作,也许是给人洗衣服,好养活她的两个孩子。经过一天徒劳无功的寻找,她倒下了。
"My children are hungry," she said. "I'm hungry. There's not even a cent left to buy bread." Her husband is a soldier in the government forces fighting in South Sudan's civil war, but she doesn't even know if he is still alive. So she left her children with a neighbor and set out in hopes of finding work — "and then I blacked out."	"我的孩子很饿,"她说。"我也饿。家里一分钱也不剩了,没钱买吃的。"她的丈夫是政府军士兵,正在参加南苏丹内战,但此刻连是死是活都不知道。因此,她把孩子留给邻居,出来试着找工作——"然后就晕过去了。"
A horrific famine enveloped what is now South Sudan in 1988, and there are some signs that this year could see a repeat. As in 1988, weather has led to poor harvests on top of civil war that has made it difficult to plant crops and move food around the country.	1988年这里曾被一场可怕的饥荒吞噬,当时南苏丹尚未独立。种种迹象表明,今年可能会是那场惨剧的重演。一如当年,恶劣的天气导致庄稼歉收,同时内战又给粮食的栽种以及食物的运输造成了困难。
President Obama will be focusing on the South Sudan civil war in his trip starting Thursday night to Kenya and Ethiopia, both neighbors to South Sudan. The war is not only a military crisis but also a humanitarian catastrophe, which makes it all the more important to step up efforts to bring about peace.	在周四晚间开始的肯尼亚和埃塞俄比亚之行中,奥巴马总统将把这两个国家的邻国南苏丹的内战作为重点。这场战争不只是军事危机,也是人道灾难,因此就特别有必要付出更大努力,来实现和平。

<p>You might think that what's needed to end a famine is food. Actually, what's essential above all is an international push of intensive diplomacy and targeted sanctions to reach a compromise peace deal and end the civil war. Yes, Obama has plenty on his plate already, but no other country has the leverage America does. And in peace, South Sudan can care for itself. But as long as the war continues, South Sudanese will face starvation — especially women and girls.</p>	<p>你也许会以为，结束一场饥荒的应该是食物。实际上，当务之急是通过积极的外交行动和针对性制裁措施来形成国际压力，从而达成各方妥协的和平协议，结束内战。是的，奥巴马要应付的事情已经不少，但没有哪个国家具备美国的影响力。一旦有了和平，南苏丹能照顾好自己。然而只要战争这样继续下去，南苏丹人只能继续面对饥饿——尤其是女人和女孩。</p>
<p>The gender dynamics of hunger are obvious: In Aweil, the hospital ward is full of skeletal women and girls, looking like concentration camp survivors. That's because (as in many places around the world) when food is insufficient, families allocate it to men and boys, and women and girls disproportionately starve.</p>	<p>饥荒中的性别差异十分明显：在阿韦勒，医院病房里全是女人和女孩，她们骨瘦如柴，仿佛集中营的幸存者。这是因为（和全世界许多地方一样）当食物出现匮乏时，各家各户会优先分配给男人和男孩，因此女人和女孩的饥饿状况会格外严重。</p>
<p>One 15-year-old girl in the hospital, Rebecca Athian, was so malnourished that her bones pushed through her skin and she had a measure of anemia (a hemoglobin level of 3) that in the West is pretty much unheard-of. Yet the hospital was now forced to discharge her to make way for new patients.</p>	<p>医院里有位叫丽贝卡·阿西安(Rebecca Athian)的15岁女孩，她的营养不良已经导致皮肤被骨头顶破，贫血的严重程度更是在西方闻所未闻（血红蛋白水平为3）。然而为了腾出地方给新的病患，医院现在被迫要让她出院。</p>
<p>Rebecca has already lost two siblings in the last year, and although the causes of death were never fully determined, it's a good guess that they were malnutrition-related. Her mother would like to marry Rebecca off, because it would then be her husband's duty to feed her and keep her alive. But she says Rebecca has been raped, so men are unwilling to marry her.</p>	<p>丽贝卡在去年已经失去了两个兄弟姐妹，他们的死因至今不能完全确定，但跟营养不良相关的可能性是很大的。她的母亲希望把她嫁出去，这样就可以让她的丈夫为食物负责，让她活下去。但是她说丽贝卡被强奸过，男人不愿意娶她。</p>

<p>Dr. Dut was 11 years old during that famine, and he remembers some relatives starving to death. His family fled to Khartoum, where he thrived in school and attended medical school. But he is frustrated because what patients often need now isn't so much medical care, but rather food and peace.</p>	<p>在那场饥荒中，达特医生只有 11 岁，他还记得有一些亲戚被饿死。他们举家逃往喀土穆，他在那里的学校成绩很好，上了医学院。让他深感沮丧的是，病患需要的往往不是医疗，而是食物与和平。</p>
<p>To see starving children is particularly wrenching. They show no emotions: They do not cry or smile or frown, but simply gaze blankly, their bodies unwilling to waste a calorie on emotion when every iota of energy must go to keep major organs functioning.</p>	<p>最为痛心的是看到挨饿的孩子。从他们脸上看不到情绪：不哭，不笑，也没有不满，只有直愣愣的呆滞目光，他们的身体不愿意在感情上浪费哪怕一个卡路里，仅存的能量需要用来维持体内主要器官的运转。</p>
<p>It's striking that this area of South Sudan is not directly affected by fighting; it's calm here. But the hunger is still war-related, for the conflict is keeping food and supplies out. The road from the capital, Juba, has been blocked by fighting, and disputes with Sudan have closed the border to the north. So this area is cut off, prices are skyrocketing, jobs are disappearing, and ordinary workers can't afford to buy food.</p>	<p>令人惊讶的是，这个地区并没有受到战争的直接影响；这里很平静。但是饥饿是跟战争有关的，冲突导致食物和给养无法进入。通往首都朱巴的道路被战斗切断，和苏丹的争执导致北部边境关闭。所以这个区域是被隔绝的，物价在飞涨，就业机会越来越少，普通工人已经买不起食物。</p>
<p>The only certainty is that it will get worse in the coming months, and the women and girls who die will be war casualties. "Those who are dying of gunshots," Dr. Dut notes, "are fewer than those who are dying</p>	<p>唯一确定的是，未来几个月情况还会变得更糟，死去的女人和女孩将属于战争伤亡人员。"死于饥饿的人，"达特医生说，"会比死于战斗的多。"</p>

Breast Milk, an Education, and a Giant Baby	母乳、教育和两个印度孩子的命运
LUCKNOW, India — That’s Mishty Yadav on the right. At 28 months, she looked huge in her mother’s arms, as if she spent nights on a gold throne dipping cookies into buffalo milk.	印度勒克瑙——右边的是米什蒂·亚达夫(Mishty Yadav)。她28个月大，在母亲怀里看起来体格硕大，仿佛夜里都是坐在黄金宝座上吃着饼干蘸牛奶。
But it turns out the reason she caught my eye was because, in contrast to so many children, Mishty is healthy. And here in the Indian state of Uttar Pradesh, where the majority of children under the age of five are malnourished and stunted, what looks normal starts to change.	不过，后来我发现，她之所以引起了我的关注，是因为她很健康，与太多的孩子不一样。这里是印度北方邦，多数五岁以下的婴幼儿营养不良、发育迟缓。什么叫做正常，也就有了变化。
In rural villages like this one a normal child looks like 5-year-old Shanvi Yadav, there on the left — very small and very thin.	在这样的乡村里，“正常”孩子长得像左边的五岁大的莎薇·亚达夫(Shanvi Yadav)一样——又瘦又小。
So Mishty is barely half Shanvi’s age but may weigh even more than her. They live about 100 feet from each other, but their opportunities to grow up healthy, both physically and mentally, are vastly different. When I met them and spoke to their families, I was struck by how early child-rearing practices were likely to result in dramatically different life trajectories for the two kids. When most mothers in these villages care for their children, they do so based on traditional practices. And tradition, even when misinformed, can be hard to go against.	因此，尽管米什蒂刚到莎薇一半的年纪，体重却可能比她还大。她们住的地方相距大约百尺，身心健康成长的几率却有着天壤之别。当我认识她们并与其家人谈话之后，我深有感触：早期育儿实践很可能让这两个孩子走上截然不同的生活轨迹。这些乡村里的母亲养育孩子的时候，多数人遵循的是传统做法。而传统，即便是谬误，也会很难抗拒。
When Nicholas Kristof asked one mother in Jalim Kheda whether or not she was giving water to her month-old infant, she said she was not. Only breast milk. Hearing this, her mother-in-law and neighbors started scolding her for not giving the child water. Many villagers provide infants with water when it is hot to cool them off.	在贾里姆凯达，纪思道(Nicholas Kristof)询问了一位母亲是否给她一个月大的婴儿喂水。答案是否定的，她只喂母乳。听闻此言，她的婆婆和邻居开始训斥她没有让孩子喝水。天热的时候，许多村民会用给婴儿喂水的办法来给他们降温。

<p>"Anything the baby is taking that is not breast milk [such as water] is replacing breast milk," says Shawn Baker, head of nutrition for the Bill and Melinda Gates Foundation. "And breast milk has been designed over several million years of evolution to be the perfect nutrition. It's perfectly synchronized to the infant's needs."</p>	<p>"婴儿摄入的任何除母乳之外的东西（比如水），都是在挤占母乳的空间，"比尔及梅琳达·盖茨基金会(Bill and Melinda Gates Foundation)的营养议题总监肖恩·贝克(Shawn Baker)说。"经过几百万年的进化，母乳是最佳营养品。它与婴儿的需求完美契合。"</p>
<p>As peer pressure weighed on the mother, she finally gave in and said she would start giving her baby water. The influence of tradition is strong, and in many cases, unhealthy. A nutritionist with us hurriedly told the mom that she was on the right path and not to give water.</p>	<p>周围的压力落到了这位母亲身上，她最终投降，表示自己会开始给孩子喂水。传统的影响力是强大的，在很多情况下却并不健康。与我们同行的一名营养专家匆忙告诉她，她是对的，别给孩子喝水。</p>
<p>One of the best ways to break out of the cycle of misinformation is through education. That's what Nisha Yadav, who earned a bachelor's degree, credits for knowing how to raise Mishty.</p>	<p>打破这种谬误的一种最佳办法是教育。米什蒂的母亲尼莎·亚达夫(Nisha Yadav)拥有学士学位。正是因为教育，她懂得如何抚养自己的孩子。</p>
<p>When Nisha was pregnant with Mishty, she went to a private clinic to receive prenatal care. Every day she took iron and folic acid tablets as well as multivitamins. Iron tablets are key during pregnancy to prevent the mother from becoming anemic.</p>	<p>当尼莎怀着米什蒂的时候，她去了一家私人诊所来接受产前护理。每天她都要吃铁片和叶酸片，以及多种维生素。铁片是预防母亲在怀孕期间贫血的关键。</p>
<p>Mishty was born at a private hospital in Lucknow and started breast-feeding shortly after. Exclusive breast-feeding lasted six months, upon which complementary feeding was introduced. Nisha breast-fed for the recommended two years before stopping.</p>	<p>米什蒂在勒克瑙的一家私人医院出生，并且很快就开始了母乳喂养。纯母乳喂养持续了六个月，然后添加了辅食。尼莎根据推荐让母乳喂养持续了两年，最后才断奶。</p>
<p>Just down the road is a different story.</p>	<p>就在路的另一端，则是不一样的故事。</p>
<p>Babli Yadav, Shanvi's mother, was taken out of school after eighth grade to help earn for the household. When Babli was pregnant, she was given iron and folic acid tablets but she didn't take them because they made her feel nauseous.</p>	<p>莎薇的妈妈芭布里·亚达夫(Babli Yadav)在八年级后被迫辍学弥补家用。当芭布里怀孕的时候，她收到了铁片和叶酸片，但是没有吃，因为这些让她感到恶心。</p>

<p>Shanvi was born at home and breast-feeding didn't begin until day 10. There is a myth that the mother's milk should not be given during the first few days.</p>	<p>莎薇是在家里出生的，直到第 10 天才开始母乳喂养。当地有个错误观念，认为母亲在刚生下孩子的那几天是不能母乳喂养的。</p>
<p>"There's a very strong tradition of giving honey or giving something before being given the breast," says Baker. "But the early milk is incredibly rich in maternal antibodies. Everything the mother has been protected against is being transferred to protect the infant."</p>	<p>"这里有一个很强的传统，在母乳喂养之前，要先给孩子蜂蜜或者其他的东西，"贝克说。"但初乳有着非常丰富的母源抗体。所有保护母亲的东西都会转移到婴儿身上。"</p>
<p>When Babli transitioned to breast-feeding, it was irregular, and eventually stopped after one year. Babli says their diet is poor.</p>	<p>当芭布里转为母乳喂养后，也不是很经常，并且最终在一年之后就停止了。芭布里说他们的饮食很差。</p>
<p>You can see the physical manifestation of malnutrition in the photo. But physical health is not the only concern. Studies show that cognitive development is severely hampered in malnourished children. They drop out of school earlier and are at a greater risk of dying.</p>	<p>你可以从照片中看到营养不良的切实表现。不过，身体健康并不是唯一的问题。研究表明，营养不良儿童的认知能力发育会受到严重阻碍。他们辍学较早，死亡的风险也更大。</p>
<p>On this trip I have been fascinated by the tension between factual knowledge and tradition. It has given me an appreciation for how difficult health interventions can be. Simply transmitting knowledge is very unlikely to change behavior. But looking at these two kids, you see the stakes.</p>	<p>在这次旅行中，事实知识和传统之间的冲突深深地吸引了我。这让我了解到健康干预可能会有多么的困难。单纯地传播知识好像并不能改变习惯。但看着这两个孩子，你就会看到其中的利害关系。</p>

<p>Half the Kids in This Part of India Are Stunted</p>	<p>为什么亿万印度儿童营养不良？</p>
<p>Lucknow, India — I'm on my annual win-a-trip journey, in which I take a university student with me on a reporting trip. I'm traipsing through Indian villages with the winner, Austin Meyer of Stanford University, to tackle one of the world's great whodunits: Why are hundreds of millions of children here stunted physically and mentally?</p>	<p>印度勒克瑙——我踏上了今年的“与纪思道同行”旅途，带着一位大学生参加采访活动。我带着这次的幸运儿——斯坦福大学的奥斯汀·迈耶(Austin Meyer)——漫步穿过一座印度村庄，希望能解开世界上最大的悬念之一：为什么这里的亿万儿童身心发育迟缓？</p>

<p>India is a vigorous democracy that has sent an orbiter to Mars. Yet its children are more likely to starve than children in far poorer nations in Africa.</p>	<p>印度是一个朝气蓬勃的民主国家, 已经向火星发射了一个轨道飞行器。然而, 它的儿童比那些远比它更贫穷的非洲国家的儿童更有可能挨饿。</p>
<p>In a remarkable failure of democracy, India is the epicenter of global malnutrition: 39 percent of Indian children are stunted from poor nutrition, according to government figures (other estimates are higher). Stunting is worse in India than in Burkina Faso or Haiti, worse than in Bangladesh or North Korea.</p>	<p>这是民主制度的一大失败。印度处于全球营养不良的震中位置: 政府数据显示 (其它估计数据更高), 39%的印度儿童因营养不良而发育迟缓。印度儿童发育不良的情况比布基纳法索、海地、孟加拉国和朝鲜的情况更糟糕。</p>
<p>Here in Uttar Pradesh, a vast state of 200 million people in India's north, the malnutrition is even more horrifying. By the government's own reckoning, a slight majority of children under age 5 in this state are stunted — worse than in any country in Africa save Burundi, according to figures in the 2015 Global Nutrition Report.</p>	<p>在北方邦, 印度北部一个有着2亿人口的大邦, 营养不良的情况更是令人咋舌。根据政府自己的估算, 该邦5岁以下的儿童多数发育不良。根据2015年全球营养报告的数据, 那里的情况比除布隆迪之外的任何一个非洲国家都要差。</p>
<p>The greatest cost of stunting isn't stature but brain power. Repeated studies have found that malnutrition early in life reduces intelligence in ways that can never be regained. The brains of stunted children don't develop properly — you see the difference in brain scans — which is perhaps why stunted children on average drop out of school early.</p>	<p>发育迟缓最大的代价不是身高, 而是智力。反复的研究已经发现, 早年的营养不良会妨碍智力发展, 而且无法恢复。发育不良儿童的大脑发育会不正常——脑部扫描会让你看到区别——这也许是因为发育不良儿童平均辍学较早。</p>
<p>"We're not focused on stunting because we fear kids will be too short," said Shawn Baker, a nutrition expert at the Bill and Melinda Gates Foundation, who accompanied me on visits to rural areas here. "We're focused on stunting because it's a proxy for cognitive development, and because kids are at risk of dying."</p>	<p>"我们关注发育迟缓不是因为我们担心孩子们长得太矮," 比尔和梅林达·盖茨基金会(Bill and Melinda Gates Foundation)营养专家肖恩·贝克(Shawn Baker)说道, 他陪同我参观这里的农村地区。"我们关注发育迟缓, 因为它是认知发展的体现, 因为孩子正处于死亡的风险。"</p>
<p>The win-a-trip journey is a chance to spotlight issues that aren't sexy but matter most. And when hundreds of millions of children are</p>	<p>"与纪思道同行"之旅是让公众关注不怎么有趣但最要紧问题的机会。当数以亿计的儿童毫无必要地面临营养不良困境且终生发展遭到妨碍时, 这应该成</p>

unnecessarily malnourished, holding them back all their lives, that should be a global priority.	为一个全球性的优先处理事项。
Now a couple of bold new theories are emerging to explain why India does so poorly in child nutrition.	现在一些大胆的新理论不断涌现来解释印度为什么在儿童营养方面做得如此之差。
The first is that the low status of women leads to maternal nutrition in India that is much worse than previously believed. Women often eat last in Indian households – and 42 percent of Indian women are underweight before pregnancy, according to Diane Coffey, a Princeton University economist. Then during pregnancy, Indian women gain only half the recommended weight.	首先，印度女性的地位低导致产妇营养比以前认为的糟糕许多。印度家庭中女性往往最后吃饭。根据普林斯顿大学经济学家戴安娜·科菲，42%的印度女性在怀孕前体重过轻。然后在怀孕期间，印度妇女只能增加一半的推荐体重。
“The average woman in India ends pregnancy weighing less than the average woman in sub-Saharan Africa begins pregnancy,” Coffey writes in the Proceedings of the National Academy of Sciences.	“印度普通女性结束妊娠时的体重低于撒哈拉以南非洲地区普通女性开始妊娠时的体重”，科菲在《美国国家科学院院刊》(Proceedings of National Academy of Sciences)上写道。
The upshot is that many children are malnourished in the uterus and never recover.	结果是许多儿童在子宫中就营养不良，而且再也无法恢复。
The second new theory is poor sanitation, particularly open defecation. About half of Indians defecate outside without using toilets. The result is that children pick up parasites and chronic infections that impair the ability of the intestines to absorb nutrients – and 117,000 Indian children die each year from diarrhea, according to Unicef.	第二个新的理论是卫生条件差，特别是露天排便。大约有一半的印度人露天排便而不使用厕所。其结果是孩子们会感染损害肠道养分吸收能力的寄生虫和慢性感染。根据联合国儿童基金会，每年有 11.7 万名印度儿童死于腹泻。
That may explain an anomaly: Infant mortality is lower for Indian Muslims than for Hindus, even though Muslims are poorer. One reason may be that Muslim villagers are more likely to use outhouses.	这也许可以解释一种异常现象：印度穆斯林的婴儿死亡率比印度教徒要低，尽管穆斯林更为贫穷。一个原因可能是穆斯林村民更可能使用屋外厕所。
This is a life-or-death matter. Governments invest in tanks and fighter aircraft to defend their people, when the greater threat to their citizens	这是一个生死攸关的问题。政府投资坦克和战斗机来保卫自己的人民，但他们人民的更大威胁来自于自己的粪便。

<p>comes from their own poop.</p>	
<p>Still, few recognize the risk. Worldwide, far more people have access to mobile phones than to toilets. That's because phones are seen as the higher priority. In the villages that Austin and I visited, villagers routinely had mobile phones, but very few had outhouses. Even fewer used them: It's easy for aid groups to build latrines, harder to get people to use them.</p>	<p>尽管如此，很少有人认识到这种风险。在世界范围内，能够使用手机的人比能有机会上厕所的还要多。这是因为电话被视为拥有更大的重要性。在奥斯汀和我参观的村庄，村民通常都有手机，但很少有屋外厕所。使用它们的人则更少：援助组织建造厕所很容易，但让人们去使用却很难。</p>
<p>One woman we met, Sahliha Bano, is a villager with an 11-month-old girl named Munni, who is acutely malnourished. The family doesn't have a toilet (few in the village do).</p>	<p>我们遇到了一个名叫莎莉罕·巴诺(Sahliha Bano)的女人，她有一个 11 个月大名叫莫妮(Munni)的女儿，严重营养不良。这个家庭没有厕所（村里很少家庭有）。</p>
<p>Bano herself reflected other factors sometimes associated with malnutrition. She is illiterate and was married at about 14, and Munni is her sixth child. Bano rejects birth control because she believes it is against God's wishes.</p>	<p>巴诺本人体现了与营养不良有关的其他因素。她是文盲，约 14 岁时结婚，而莫妮是她的第六个孩子。巴诺拒绝节育，因为她认为这违背神祇的意愿。</p>
<p>These are complex issues, but if Afghanistan and Bangladesh can make great progress (along with Indian states like Kerala), so can all of India. Manmohan Singh, India's former prime minister, called child malnutrition "a national shame" — but there's still no political will to address it.</p>	<p>这些都是复杂的问题，但如果阿富汗和孟加拉国能取得巨大的进步（以及一些印度的邦，如喀拉拉邦），那么印度这个国家也可以。印度前总理曼莫汉·辛格称儿童营养不良为“一个国家的耻辱”，但该国还是没有解决这个问题的政治意愿。</p>
<p>Instead, in a political move to win support from religious groups that object to eating fertilized eggs, the state of Madhya Pradesh recently rejected the idea of serving eggs in child-feeding programs. The result will be more children added to the hundreds of millions held back unnecessarily for the rest of their lives — as a great nation weakens itself.</p>	<p>相反，在一项为赢得反对吃受精鸡蛋的宗教团体支持的政治举措中，中央邦最近拒绝了在儿童哺育计划中提供鸡蛋的构想。其结果将是更多的孩子加入到数以亿计余生都受到毫无必要的负面影响的人群行列中——一个伟大的民族正在削弱自身。</p>

<p>Story Approval by Drug Lord? Times Editors Discuss Rolling Stone Case</p>	<p>让毒枭预审稿件？时报编辑怎么看</p>
<p>With the media world abuzz over Sean Penn’s Rolling Stone interview with Joaquín Guzmán Loera, the Mexican drug kingpin known as El Chapo — and the journalism ethics involved in that interview — I wasn’t surprised at a question I got on Twitter over the weekend.</p>	<p>媒体界正在热烈讨论西恩·潘(Sean Penn)为《滚石》杂志(Rolling Stone)采访墨西哥大毒枭、绰号“矮子”(El Chapo)的乔奎因·古兹曼·洛埃拉(Joaquín Guzmán Loera)一事，以及由此引发的新闻伦理问题，所以我并不奇怪，自己在周末期间会在 Twitter 上收到如下问题。</p>
<p>Josh Weinberger, who describes himself as a writer, editor, thinker and ruminator, put it this way:</p>	<p>自称是作家、编辑、思想家和沉思者的乔希·温伯格(Josh Weinberger)问道：《纽约时报》到底会不会同意接受这样的条款？</p>
<p>I answered him confidently: “In a word, no.” After all, granting a source that kind of control over a story could seriously compromise the story’s integrity and a news organization’s all-important independence. From my point of view, it is clearly outside the norms of generally agreed-upon journalistic ethics.</p>	<p>我很有把握地回答他：“简单讲，不会。”毕竟，给信源审核一篇报道内容的权利，有可能会严重损害故事的真实完整，也会损害一家新闻机构最为重要的独立性。在我看来，这显然超出了我们普遍认同的新闻道德范畴。</p>
<p>But I don’t make policy at The Times, or speak for the paper. And, after reading a number of journalists’ views on this — somewhat less black and white than my single word — I decided to ask The Times’s executive editor, Dean Baquet, and its standards editor, Philip B. Corbett, how they would have handled this situation.</p>	<p>但我不是时报的决策者，也无权代表时报说话。在阅读了不少记者对这件事的看法之后——好像并不像我写的“不会”那么黑白分明——我决定问问时报的主编迪恩·巴奎(Dean Baquet)和规范编辑菲利普·B·科比特(Philip B. Corbett)，了解一下他们会如何应对这种情况。</p>
<p>Both were clear: The Times would not agree to prepublication approval. And, by phone, both provided me with thoughtful answers that may be of interest to Times readers.</p>	<p>两人的观点都非常明确：时报不会同意让采访对象预审稿件。在电话中，二人都有引人深思的回答，时报的读者想必也有兴趣了解。</p>
<p>Mr. Baquet said flatly, “It’s hard for me to imagine giving a drug lord preapproval.” He added that he didn’t believe in preapproval in any case, but that in a situation in which a reporter, for example, was trying to do a story on a vulnerable person, someone “with no power or guile”</p>	<p>巴奎斩钉截铁地讲，“我很难想象让一个大毒枭预审我们的稿件。”他还说，在任何情况下，他都不认同预先审稿，但如果是有时候，比如记者试图报道一个属于弱势群体的人，对方“没有权力、为人厚道”，对媒体的运作一无所知，“提出这样的要求，我也不会那么愤慨。”</p>

who was not at all press-savvy, "I wouldn't be outraged at the question."	
In this situation, it would be an easy call: "Yes, I would have walked away from the interview," if preapproval were the prerequisite.	但是在这种时候，答案仍很简单：“是的”，如果采访对象必须预审稿件，“我会放弃这个采访机会。”
Mr. Corbett agreed that "we don't give prepublication approval to anyone." He said that the magazine world may — and probably does — have different standards and practices for sources' approval. Some glossy magazines give celebrities the right to approve photographs or cover images as part of negotiations, he noted.	科比特也表示，“我们不会给任何人预先审稿的权力。”他表示，在这方面的标准和信源审稿的具体操作上，杂志界或许有所不同——很有可能也的确如此。他指出，一些时尚杂志会给名人预审照片或封面照的权利，这属于双方商谈的条件。
And even in Times interviews, "there are all kinds of negotiations." For example, in some cases, The Times will agree to an embargo on an article that governs when it may be published.	就算是时报的采访，“也要进行各种协商。”比如，在有些情况下，时报会同意在特定的时间才发布某篇报道。
Under some circumstances, Mr. Corbett said, reporters may agree to read quotations back to sources — not with the understanding that they will be changed, but so that there can be an opportunity to discuss inaccuracies or misperceptions. The Times has a policy banning after-the-fact "quote approval," which was once a common practice.	科比特还表示，有些情况下，记者可能会给信源看报道中采用的引语——这里的共识是，此举不是为了让对方修改内容，而是为了能有机会就其中的不准确和误解之处进行商讨。时报有一项政策，禁止信源事后“审核引语”——这曾是业界的通行做法。
Mr. Corbett agreed that the interview was "a great get." (And there is no doubt that it's generated extraordinary readership for Rolling Stone.) And given Mr. Guzmán's obviously strong desire to tell his story, Mr. Corbett said, there might have been an opportunity to negotiate better terms.	科比特也认同，这个采访机会“抓得不错”。（它无疑给《滚石》杂志带来了非常多的读者。）但科比特还说，考虑到古兹曼明显有非常强烈的倾诉欲望，本该有机会协商出更好的条件。
Although Mr. Corbett was talking only about what The Times would do, and was not criticizing Rolling Stone, he did wonder whether the terms might have been improved with some pushback.	尽管科比特只是在谈论面对这种情况时报会怎么做，而非批评《滚石》杂志，但他的确好奇，在协商过程中，《滚石》杂志如若向对方施压的话，是否可以争取到更有利的条件。
After all, he said, Mr. Guzmán clearly "wanted to get his story out, and	毕竟，古兹曼明显“很想做这个报道，他为此冒了巨大的风险，”他说。

<p>he was taking huge risks to do so.”</p>	
<p>Update: Over the weekend, I also posed the question on Facebook. A number of people in the news business responded. Here are some samples.</p>	<p>更新：周末期间，我把这个问题发到了 Facebook 上。不少新闻界人士也对它进行了回应。以下是部分回答。</p>
<p>Raju Narisetti, senior vice president for strategy at NewsCorp: “If outcomes matter then the story got what nobody has been able to get ever—a full confession from Guzmán. The more interesting question for me, looking ahead, is will Sean Penn agree to testify in a court as to what he heard Guzmán confess to.”</p>	<p>新闻集团(NewsCorp)负责战略的高级副总裁拉朱·纳尔斯提(Raju Narisetti): “如果说结果也很重要的话, 这篇报道拿到了任何人都拿不到的东西——古兹曼的彻底坦白。我更感兴趣的问题是, 下一步, 西恩·潘会不会同意在法庭上作证, 讲述古兹曼向他坦白的内容。”</p>
<p>Richard Tofel, president of ProPublica: “I can’t even understand what the argument in favor of giving pre-approval would be. We just don’t do that. Is the argument that big enough stories should become exceptions to ethical rules?”</p>	<p>ProPublica 总裁理查德·托费尔(Richard Tofel): “我完全无从想象, 他们会用什么样的理由来支持预审稿件。我们肯定不会这么做。他们的理由是不是, 只要报道足够重要, 就应该有例外, 不受新闻伦理的约束?”</p>
<p>James Asher, until recently Washington bureau chief of McClatchy News; soon to join Injustice Watch: Everything we know about El Chapo comes through the eyes of police and other law enforcement types. Not saying he’s anything like an angel, but terror isn’t his only weapon. And know more about him in a non-cop way is part of knowing what makes him tick....(Pre-approval) makes me uncomfortable but not because a non-journalist was involved. But I’d rather see the interview and judge it rather than just be dependent on the official version of El Chapo.</p>	<p>直到最近还在担任麦克拉奇报业(McClatchy News)华盛顿分社社长、即将加入 Injustice Watch 的詹姆斯·阿舍(James Asher): 我们了解的“矮子”, 都来自警方及其他执法部门的描述。我倒不是说他是天使般的人物, 但制造恐怖肯定不是他唯一的武器。要搞清楚他何以成为他, 需要以一种非警察办案的方式对他进行更多了解.....(预审稿件)这一点, 我也觉得不舒服, 但不是因为有一个非新闻界的人士牵涉其中。不过, 我还是宁愿有机会看到这个采访, 然后对它做出评判, 而不是完全依赖官方提供的有关“矮子”的信息。</p>
<p>Sarah Ellison, contributing editor at Vanity Fair: No journalist I know would jump at the chance to give El Chapo pre-publication approval. I’d love to hear from any who would.</p>	<p>《名利场》(Vanity Fair)特约编辑莎拉·埃利森(Sarah Ellison): 我认识的记者都不会为了获得这个采访机会而让“矮子”预先审稿。我倒是想听听那些愿意这么做的记者的说法。</p>

<p>William Grueskin, a professor at Columbia Journalism School: "Once you agree to pre-approval, the story is lost. It doesn't matter whether your source actually edits it or not; the thought invariably despoils the story, like Justice Frankfurter's reference to the fruit of the poisonous tree."</p>	<p>哥伦比亚新闻学院教授威廉·格鲁斯金(William Grueskin): "一旦你同意采访对象预先审稿,这篇报道就完了。不管你的信源是不是真的对稿件进行了编辑;这种想法都难免会毁掉报道本身,就像弗兰克福特大法官讲过的'毒树之果'原则一样。"</p>

<p>The Sexual Misery of the Arab World</p>	<p>阿拉伯世界缺一场性革命</p>
<p>ORAN, Algeria — AFTER Tahrir came Cologne. After the square came sex. The Arab revolutions of 2011 aroused enthusiasm at first, but passions have since waned. Those movements have come to look imperfect, even ugly: For one thing, they have failed to touch ideas, culture, religion or social norms, especially the norms relating to sex. Revolution doesn't mean modernity.</p>	<p>阿尔及利亚奥兰——解放广场之后,发生了科隆事件。广场运动过后,出现了性的问题。2011年的阿拉伯革命起初的确激起了一股热情,但后来,激情消逝了。这些运动变得看上去没那么完美,甚至显现出丑陋:首先,它们未能触及思想、文化、宗教或社会准则,特别是和性有关的准则。革命并不意味着现代化。</p>
<p>The attacks on Western women by Arab migrants in Cologne, Germany, on New Year's Eve evoked the harassment of women in Tahrir Square itself during the heady days of the Egyptian revolution. The reminder has led people in the West to realize that one of the great miseries plaguing much of the so-called Arab world, and the Muslim world more generally, is its sick relationship with women. In some places, women are veiled, stoned and killed; at a minimum, they are blamed for sowing disorder in the ideal society. In response, some European countries have taken to producing guides of good conduct to refugees and migrants.</p>	<p>新年前夜,德国科隆的阿拉伯移民袭击了西方女性。这让人们回想起,在埃及革命如火如荼的日子里,解放广场上的女性遭受骚扰的情形。此事提醒了西方民众,促使他们意识到,困扰"阿拉伯世界"及更广大的穆斯林世界的很多地区的一大问题,是那里与女性的病态关系。在一些地方,女性要佩戴面纱,会遭遇石刑、被处死。她们最少也会被归咎于在理想社会里埋下混乱的种子。对此,一些欧洲国家甚至制作了面向难民和移民的良好品行指南。</p>
<p>Sex is a complex taboo, arising, in places like Algeria, Tunisia, Syria or Yemen, out of the ambient conservatism's patriarchal culture, the</p>	<p>性是一个复杂的禁忌。在阿尔及利亚、突尼斯、叙利亚或也门等地,这一禁忌源自无处不在的保守主义男权文化、伊斯兰派严厉的新法规和该地区形态</p>

<p>Islamists' new, rigorist codes and the discreet puritanism of the region's various socialisms. That makes a good combination for obstructing desire or guilt-tripping and marginalizing those who feel any. And it's a far cry from the delicious licentiousness of the writings of the Muslim golden age, like Sheikh Nafzawi's "The Perfumed Garden of Sensual Delight," which tackled eroticism and the Kama Sutra without any hang-ups.</p>	<p>各异的社会主义推崇的清心寡欲。一方面是遏制欲望，另一方面是让那些有丝毫的欲望人背负罪恶感并被边缘化，而这一禁忌让二者实现了完美的结合。它和穆斯林黄金时代那些充满诱人性爱描写的著作相去甚远，比如谢赫纳夫扎维(Sheikh Nafzawi)撰写的《芳香四溢的感官乐园》(The Perfumed Garden of Sensual Delight)不加掩饰地描绘了情欲，并直白地给出了性爱指南。</p>
<p>Today sex is a great paradox in many countries of the Arab world: One acts as though it doesn't exist, and yet it determines everything that's unspoken. Denied, it weighs on the mind by its very concealment. Although women are veiled, they are at the center of our connections, exchanges and concerns.</p>	<p>眼下，在阿拉伯世界的很多国家，性是一个严重的悖论：人们表现得好像它不存在似的，但它却主宰着未说出口的一切。尽管遭到否认，却也正是它的隐秘影响着大家的思想。女性佩戴了面纱，但她们却是我们联络、交流和担忧的核心。</p>
<p>Women are a recurrent theme in daily discourse, because the stakes they personify — for manliness, honor, family values — are great. In some countries, they are allowed access to the public sphere only if they renounce their bodies: To let them go uncovered would be to uncover the desire that the Islamist, the conservative and the idle youth feel and want to deny. Women are seen as a source of destabilization — short skirts trigger earthquakes, some say — and are respected only when defined by a property relationship, as the wife of X or the daughter of Y.</p>	<p>女性主题常会出现在日常讨论中，因为在男子气概、荣誉和家庭价值方面，她们代表着重要的意义。在一些国家，她们只有唾弃自己的身体，才能获准进入公共领域：让她们暴露一部分身体，就是让伊斯兰派、保守派和无所事事的年轻人感受到却又想否认的欲望裸露在外。女性被视作祸水——有人说短裙会引发地震——只有用一种财产关系来定义她们，贴上某人的妻子或某人的女儿的标签，她们才会得到尊重。</p>
<p>These contradictions create unbearable tensions. Desire has no outlet, no outcome; the couple is no longer a space of intimacy, but a concern of the whole group. The sexual misery that results can descend into absurdity and hysteria. Here, too, one hopes to experience love, but the</p>	<p>这些矛盾造就了难以忍受的张力。欲望无处发泄，也无法产生好的结果。伴侣不再属于亲密关系的范畴，而是整个群体关心的对象。由此导致的性苦闷可能会逐渐发展到荒唐可笑、歇斯底里的程度。在这里，人们也希望体验到爱，但获得爱的途径——邂逅、诱惑、调情——却被阻止了：女性被盯得死</p>

<p>mechanisms of love — encounters, seduction, flirting — are prevented: Women are watched, we obsess over their virginity, the morality police patrols. Some even pay surgeons to repair broken hymens.</p>	<p>死的，我们执着于她们的贞洁，还有道德警察巡逻。一些人甚至出钱让医生修补破裂的处女膜。</p>
<p>In some of Allah’s lands, the war on women and on couples has the air of an inquisition. During the summer in Algeria, brigades of Salafists and local youths worked up by the speeches of radical imams and Islamist TV preachers go out to monitor female bodies, especially those of women bathers at the beach. The police hound couples, even married ones, in public spaces. Gardens are off-limits to strolling lovers. Benches are sawed in half to prevent people from sitting close together.</p>	<p>在信奉安拉的部分地区，对女性和出双入对者发起的战争给人一种宗教裁判所的感觉。在阿尔及利亚的夏季，会有成群的萨拉菲派及当地年轻人受到伊玛目和电视上的伊斯兰派传道者的鼓动，去监视女性的身体，特别是那些去海边游泳的女性。警方会在公共场所盘查出双入对的人，即便是已婚夫妇。情侣无法在花园散步。长凳被从中间锯开，以防止有人坐得太近。</p>
<p>One result is that people fantasize about the trappings of another world: either the West, with its display of immodesty and lust, or the Muslim paradise and its virgins.</p>	<p>这么做的后果之一是，人们会幻想另一个世界的温柔乡：要么是放浪形骸的西方，要么是穆斯林天堂和那里的处女。</p>
<p>It’s a choice perfectly illustrated by the offerings of the Arab media. Theologians are all the rage on television and so are the Lebanese singers and dancers of “Silicone Valley,” who peddle the promise of their unattainable bodies and impossible sex. Clothing is also given to extremes: At one end is the burqa, the orthodox full-body covering; at the other is the hijab moutabaraj (“the veil that reveals”), which combines a head scarf with slim-fit jeans or tight pants. On the beach, the burqini confronts the bikini.</p>	<p>阿拉伯媒体呈现的节目就很好地说明了这种选择。电视上，神学家与黎巴嫩“硅胶谷”(Silicone Valley, 硅胶谷是美国色情行业的先驱地，取名有戏谑“硅谷”之意——译注)的歌手和舞者同样大行其道。后者四处宣扬不切实际的体型和性爱构成的幻象。女性的服饰也走向了两极：一头是遮盖全身的正统布尔卡长袍，另一头是那种可以展现曼妙身姿的希贾布，即用头巾搭配修身牛仔裤或紧身短裤。海滩上，几乎覆盖全身的“布基尼”和比基尼形成了鲜明对比。</p>
<p>Sex therapists are few in the Muslim world, and their advice is rarely heeded. So Islamists have a de facto monopoly on talk about the body, sex and love. With the Internet and religious TV shows, some of their speeches have taken monstrous forms, devolving into a kind of</p>	<p>在穆斯林世界，性治疗师少之又少，他们的建议也几乎没人理会。因此，讨论身体、性和爱实际上成了伊斯兰派的专利。有了互联网和宗教电视节目，他们的一些演讲呈现出骇人的形式，沦为一种色情伊斯兰主义。宗教机构发布了荒唐的圣令：禁止赤身裸体地做爱；禁止女性接触香蕉；只有对方是其</p>

<p>Sex is everywhere.</p>	<p>性无处不在。</p>
<p>Especially after death.</p>	<p>特别是在人死后。</p>
<p>Orgasms are acceptable only after marriage — and subject to religious diktats that extinguish desire — or after death. Paradise and its virgins are a pet topic of preachers, who present these otherworldly delights as rewards to those who dwell in the lands of sexual misery. Dreaming about such prospects, suicide bombers surrender to a terrifying, surrealistic logic: The path to orgasm runs through death, not love.</p>	<p>只有在婚后——受制于浇灭欲望的宗教规定——或是死后，性高潮才是可以接受的。天堂和天堂里的处女是备受传道者青睐的话题。他们把这些后世的欢乐，描述成对那些饱受性苦闷折磨的人的回报。怀有这种梦想和希望的自杀式炸弹袭击者接受了一种骇人的超现实逻辑：通向性高潮的必经之路是死亡而非爱情。</p>
<p>The West has long found comfort in exoticism, which exonerates differences. Orientalism has a way of normalizing cultural variations and of excusing any abuses: Scheherazade, the harem and belly dancing exempted some Westerners from considering the plight of Muslim women. But today, with the latest influx of migrants from the Middle East and Africa, the pathological relationship that some Arab countries have with women is bursting onto the scene in Europe.</p>	<p>西方长期用异域风情的说辞来寻找慰藉。它可以一切差异免受责备。东方主义有办法让各种文化变体正常化，并为一切虐待行为开脱：《一千零一夜》中的舍赫拉查达(Scheherazade)、闺房内的女眷和肚皮舞，使一些西方人不再考虑穆斯林女性面临的困境。但如今，随着中东和非洲移民最近的涌入，一些阿拉伯国家与女性的病态关系在欧洲突然显现出来。</p>
<p>What long seemed like the foreign spectacles of faraway places now feels like a clash of cultures playing out on the West's very soil. Differences once defused by distance and a sense of superiority have become an imminent threat. People in the West are discovering, with anxiety and fear, that sex in the Muslim world is sick, and that the disease is spreading to their own lands.</p>	<p>长久以来看着像是远在异国他乡的陌生景象，现在却感觉像是一场正在西方的领土上展开的文化冲突。一度被距离和优越感稀释的差异，变成了迫在眉睫的威胁。西方民众满心焦虑和担忧地发现，穆斯林世界的性是病态的，而且这种病正在向自己的国家蔓延。</p>

Obama's Last Tango	奥巴马最后的探戈
WASHINGTON — BARACK OBAMA is tangoing into history, and there's something perfect about that.	华盛顿——贝拉克·奥巴马正跳着探戈退出历史舞台。从某种意义上说，这种做法十分适合他。
The tango has been described as vertical solitude. And this president is all about vertical solitude.	探戈一直被描述为一种直上直下的孤独舞蹈。这位总统则完全是直上直下、孑然一身的代名词。
Republicans are frothing and comics are tweaking about the baseball diplomacy in Cuba and the tango diplomacy in Argentina, juxtaposed with the terrorist attack and manhunt in Brussels.	他在古巴搞的棒球外交和在阿根廷搞的探戈外交，恰好遭遇布鲁塞尔的恐怖袭击及大搜捕。此事激起了共和党人的怒火，还沦为漫画作者编派的对象。
Comedy Central's Larry Wilmore mocked Obama's "spring break world tour." He chided the president for doing the wave with Raúl Castro and remarked on Obama's sinuous, take-charge tango partner. "O.K., Republicans, now he's leading from behind," Wilmore said. Rush Limbaugh accused the president of flamenco dancing and "doing the tango with women not even his wife."	喜剧中心(Comedy Central)的拉里·威尔莫(Larry Wilmore)戏谑，这是奥巴马的“春假世界巡演”。他谴责了总统和劳尔·卡斯特罗(Raúl Castro)一起做人浪，评论了总统的那位身形袅娜、起主导作用的探戈舞伴。“对，共和党人，他正在后方发挥领导作用，”威尔莫说。拉什·林博(Rush Limbaugh)指责奥巴马大跳弗拉门戈舞，而且“跟他跳探戈的女人甚至不是他妻子”。
Yes, that outrageous sin of being polite to your foreign hosts at a state dinner.	没错，在国宴上对外国的东道主彬彬有礼是十恶不赦的罪过。
Barack Obama started off as a man self-consciously alone on stage and that's how he is exiting. He is, for better and worse, too cool for school. His identity is defined by his desire to rise above the fray. Unfortunately, he is in politics, which is the fray.	上台伊始，贝拉克·奥巴马就是一个刻意追求孤单的人。现在要下台了，他还是这样。不管好坏，他自命不凡。他最重要的特点是渴望超越争斗。但遗憾的是，他身处政坛。政治本身就意味着争斗。

<p>Obama shot to prominence at the 2004 Democratic National Convention with a rousing speech about boldly moving past our barriers — red and blue, black and white. But those divisions are more pronounced than ever. So now he brings people together and gets things done when he can, like importing modernity to Cuba and inveigling China on climate change.</p>	<p>2004年，奥巴马在民主党全国大会上发表了一番激动人心的演讲，一举成名。他在讲话中呼吁大胆越过各种障碍，包括红蓝之间的政党之争，以及黑白之间的种族矛盾。但眼下，这些分歧比任何时候都更显著。因此，他如今选择在能力范围内把人团结在一起，完成一些事情，比如向古巴输出现代化并在气候变化问题上诱导中国采取行动。</p>
<p>The president has a bristling resistance to what he sees as cheap emotion. (See: flag pin, 2008.) That has led him, time after time, to respond belatedly or bloodlessly in moments when Americans are alarmed, wanting solace and solutions.</p>	<p>奥巴马总统强烈排斥他眼中的那些肤浅情感。(参见2008年的国旗胸针事件。)这导致的后果是，在美国人感到惊慌，想要得到安慰和解决方案之时，他一次又一次地做出姗姗来迟或缺乏激情的回应。</p>
<p>The Christmas bomber; the BP oil spill; James Foley beheaded by ISIS, the Paris attacks, the San Bernardino attacks, and now Brussels, which he discussed rationally and briefly with ESPN at the baseball game, wearing cool \$485 Oliver Peoples sunglasses beside a cool Derek Jeter.</p>	<p>奥巴马治下发生了圣诞节炸弹事件、BP漏油事件、詹姆斯·福利(James Foley)被伊斯兰国(ISIS)斩首、巴黎袭击、圣贝纳迪诺袭击，以及现在的布鲁塞尔袭击。在那场棒球比赛现场，奥巴马就布鲁塞尔事件与ESPN进行了短暂的理性讨论。当时，他戴着售价485美元的奥利弗皮普尔斯(Oliver Peoples)品牌的炫酷太阳镜，身旁是酷酷的明星球员德瑞克·基特(Derek Jeter)。</p>
<p>He feels that fanatics who are not an existential threat to us want to disrupt our lives and we should not let them; that more people die slipping in their bathtubs than in terrorist attacks.</p>	<p>他觉得，不威胁我们存亡的那部分极端分子一心想扰乱我们的生活，我们不应该让他们得逞。他还认为，在浴缸里摔倒溺亡的人，比死于恐怖袭击的人更多。</p>
<p>That anthropological detachment — the failure to viscerally connect and vigorously persuade, the lip-curling at needy lawmakers, jittery Americans or anyone else who does not see things as he does — may keep him from being a Mount Rushmore president.</p>	<p>他的这种对人的冷漠——不能发自内心地理解他人并积极予以说服，对那些贫穷的议员、不安的美国民众或任何与他意见相左的人撇嘴——大概会导致他无法跻身在拉什莫尔山上有自己雕像的伟大总统之列。</p>
<p>Obama went to a baseball game with Raúl Castro just 15 months into their working relationship. It took him six years, with his trade bill — one</p>	<p>才建立工作关系15个月，奥巴马便和劳尔·卡斯特罗一同观看棒球比赛。奥巴马上台六年后才首次带着一些白宫自酿的啤酒观看国会棒球赛。而当时的</p>

<p>of his top foreign policy initiatives — on the line, to go to the congressional baseball game, toting some White House home brew.</p>	<p>背景是，贸易法案——他极为重视的一项外交议题——处境危险。</p>
<p>If he were up for re-election, the president probably would have forced himself to appear more emotionally responsive to the terrorist attacks, urged on by his staff.</p>	<p>如果要谋求连任，奥巴马总统可能会在幕僚的力劝之下，强迫自己对恐怖袭击表现出更富含感情的回应。</p>
<p>But he clearly feels liberated in the homestretch, relishing what he can do alone, venting privately about world leaders, lawmakers and pundits who have not risen to his lofty standards. Once he read about F.D.R.'s legislative prowess. Lately, he has been buffing up on Teddy Roosevelt blowing a raspberry at Congress and expanding executive power.</p>	<p>但他显然觉得，在执政末期自己解放了。他享受着能孤身做到的事情，并在私下里发泄对未能达到他的高标准的世界领导人、议员和专家的不满。他曾经阅读的是有关富兰克林·德拉诺·罗斯福在立法方面如何运用高超技巧的文章。最近，他却一直在效仿泰迪·罗斯福，对国会冷嘲热讽的同时扩大行政权。</p>
<p>I traveled with the president to Havana to watch as he did the logical thing, bypassing the inane and antiquated congressional embargo to help move Cuba past its sepia arrested development.</p>	<p>这一次，我随奥巴马一同出访哈瓦那，亲眼看着他完成这件遵从理性的事情：避开国会空洞过时的贸易禁运，帮助古巴走出它严重受阻的过时的发展阶段。</p>
<p>There was a muted excitement in repressed Havana around the low-risk trip, a precursor to opening the Cuba wing in the Obama presidential library.</p>	<p>在受到压抑的哈瓦那，这场低风险的访问引发了低调的兴奋。可以想见，奥巴马的总统图书馆里会开设古巴馆。</p>
<p>Obama, with his elegant family along, deftly maneuvered in the chaos of communism, charming the 84-year-old Raúl Castro even though the White House did not know which bits of historic pageantry the Cuban would play along with.</p>	<p>和举止高雅的家人一道，奥巴马在共产主义的混乱中娴熟地挥洒自我，试图迷住 84 岁的劳尔·卡斯特罗。不过白宫并不知道，古巴方面会安排哪些具有历史象征意义的活动。</p>
<p>After months of intense negotiations, the dictator told the president at the last minute that he would do a news conference — the first anyone could remember in Cuba. But clearly Castro had not been briefed that the two American journalists' multipart questions would include tart ones for him. Standing at a lectern flanked by plush burgundy drapes</p>	<p>在进行了数月紧张谈判后，身为独裁者的卡斯特罗在最后一刻对奥巴马总统表示，他会举行一场新闻发布会。这在古巴近些年的历史上属于首次。但显然，没人告诉卡斯特罗，两名美国记者提出的分为几部分的问题，会包括他认为尖酸刻薄的内容。在革命宫(Revolutionary Palace)里，发言台的两侧是紫色的长毛绒布帘，上面装饰着浮凸的金色“RP”字样。其实，“革命宫”这</p>

<p>When the Cubans bobbed a photo op at the José Martí memorial in Revolutionary Square, President Obama took over and directed the group to its picture in front of a Che Guevara mural.</p>	<p>当古方人员在革命广场上的何塞·马蒂(José Martí)纪念碑旁拍照出现失误时，奥巴马接过了这项任务，并指挥那群人去一幅画着切·格瓦拉(Che Guevara)的壁画前面拍了一张照片。</p>
<p>He was a long way from 2008, when a Fox TV channel in Houston blew up a story about an Obama volunteer who had the unpatriotic temerity to have a Cuban flag with a picture of Che at her desk.</p>	<p>如今的奥巴马，已与2008年时大不相同。当时，休斯顿的一个Fox电视频道(Fox TV)爆出，一名支持奥巴马的志愿者不爱国，行事鲁莽，在自己桌上放着一面印有切·格瓦拉照片的古巴旗帜。</p>
<p>Conservatives then were trying to smear Obama as a socialist. Now many Democratic voters, especially young ones, are disappointed that Obama wasn’t liberal enough and are gravitating toward a real socialist rather than the president’s preferred successor.</p>	<p>那时，保守派试图把他抹黑成社会主义者。如今，很多民主党选民，特别是年轻选民，对奥巴马不够自由派感到失望，并倾向于迎来一位真正的社会主义者，而非奥巴马中意的接替者。</p>
<p>Obama is trying to untangle the Gordian knots in a Middle East shattered by his predecessor; it was W.’s unwarranted invasion of Iraq that unwittingly created ISIS, as the veteran war correspondent Michael Ware points out in his new movie, “Only the Dead.”</p>	<p>奥巴马正试图解开前任在支离破碎的中东制造的难题。正如资深战地记者迈克尔·韦尔(Michael Ware)在他新推出的电影《唯有亡者》(Only the Dead)中所指出的那样，正是乔治·W·布什未经授权出兵伊拉克，在无意中造就了伊斯兰国(ISIS)。</p>
<p>While Republicans who would succeed Obama talked loco last week — Ted Cruz vowed to carpet-bomb ISIS and Donald Trump refused to rule out nuclear strikes — Obama’s military leaders announced that they had killed two top ISIS leaders.</p>	<p>上周，可能会接替奥巴马的共和党人言论疯狂。特德·克鲁兹(Ted Cruz)发誓要对伊斯兰国进行地毯式轰炸，唐纳德·特朗普(Donald Trump)则不愿排除核打击的可能。而奥巴马手下的军队高层宣布，他们已击毙了伊斯兰国的两名高级头目。</p>

<p>The Playgrounds of Pakistan</p>	<p>在巴基斯坦，被恐怖主义摧毁的童年</p>
<p>Not far from the house where I grew up in Karachi, Pakistan, there was a children's amusement park. It sat on top of a hill, its slides and swings beckoning children from the houses below. As summer vacations dragged on, my brother and I would hear the gleeful screams of other children, and we begged my mother to take us. It wasn't an easy sell. "The swings are so rickety," she would say one day. "Aren't you afraid you will fall out of the spinning wheel?" she would say on another. We were a little afraid, but we ached to go. That park was the only one we knew, and if it was shabby, its toy horses and pretend cars worn and weary, it still held the promise of exhilaration.</p>	<p>我小时候生活在巴基斯坦卡拉奇，家的房子附近有座儿童乐园。它位于一座小山的山顶，里面的滑梯和秋千，总是能把孩子们从山下的房子里吸引过去。在悠长的暑假里，我和哥哥能听见其他孩子兴奋的尖叫声，我们央求妈妈带我们去玩。但这不是件容易的事。“那些秋千一点都不结实，”某一天她会说。另一天她又可能说：“你们不怕从转盘上掉下来吗？”我们有点儿害怕，但还是巴望着去那里。那是我们所知道的唯一一个儿童乐园，即便它有些寒酸，里边的玩具马和玩具车都破破烂烂，但它看起来依然可以带给人快乐。</p>
<p>Like children everywhere, we were drawn to being a little scared. That, after all, is the pull of the amusement park: small thrills ordered and anticipated, and then conquered, fear confronted and overcome. When we did get to go, our hearts pumped wildly at the crazy height of a swing, our breath raced as our bodies were flung about; all of it made us wild with joy. Like everywhere, there were small dangers: grim grown men who sat at the periphery, watching giggling children with beady eyes; boarded-up or broken rides, like ominous warnings of thrills gone wrong; beggars who beseeched us for the coins we clenched in our fists. But the heedlessness of childhood worked its wonders; the swings and the slides blurred them into the background.</p>	<p>像其他地方的孩子一样，一点点惊吓反而会吸引我们。毕竟，那才是儿童乐园的迷人之处：预定、期待然后克服小小的紧张感，面对并战胜恐惧。等到我们真的走进儿童乐园的时候，秋千荡到高处，我们的心脏猛烈跳动，身体荡来荡去，我们的呼吸变得急促；所有这些都让我们欣喜若狂。像其他地方一样，这里也有一些小小的危险：阴森的成年男性坐在远处，眼珠滴溜溜乱转，密切关注咯咯直笑的孩子；被木板封住的或者破损的游乐设施，像在发出不祥的警告——寻求刺激会出岔子；还有一些乞丐向我们讨要攥在手心里的硬币。但童年特有的漫不经心发挥了作用；秋千和滑梯让我们把危险抛在脑后。</p>
<p>The children who died in Gulshan-e-Iqbal Park in Lahore on Sunday would have been riding those familiar crests of feeling: the wild joy of being high up or spun around mixing suddenly, grotesquely with the</p>	<p>周日死在拉合尔古尔珊伊克巴公园(Gulshan-e-Iqbal Park)的那些孩子，应该体验到了那种熟悉的极其强烈的感觉：荡至高处或快速旋转的狂喜，突然非常荒诞地和死亡这种可怕的结局产生了联系。当天至少有 72 人遇难，其</p>

<p>grim finality of death. Twenty-nine of the at least 72 dead were children, all of them, presumably, engaging in the child's pastime of facing fear and surviving it. In the footage of the aftermath, their bloodied clothes and toys are strewn about; a green plastic toy car sits untouched in the rubble.</p>	<p>中包括 29 名儿童。可以想见，所有这些孩子当时都正沉迷于面对恐惧和战胜恐惧的游戏。事发后我们在镜头里看到，他们血迹斑斑的衣裳和玩具扔得到处都是；一辆绿色的塑料玩具车孤零零地停在废墟里。</p>
<p>Their deaths are a stern rebuke to the country that failed them and to the world that turns away from them. The lurking men of the playgrounds of my childhood are no longer predictable villains, the deviants and kidnappers who feature in the cautionary tales told to children around the world. They are assassins, their hearts harnessed with explosives, their bodies bundled with bombs. The mothers refusing their children a trip to the amusement park will now tell them not about a rickety swing but about a bombing. Even the resilience of the very young cannot dream that away; the shadow of terror encroaches on childhood.</p>	<p>他们的死亡，是对有负于他们的这个国家和毫不关心他们的这个世界的强烈谴责。眼下，游乐场里的潜伏者已经不是我小时候见过的那种预料之中的坏人，不是全世界的小孩都从警世故事里听到过的不轨之徒或绑匪。他们是杀手，他们的心底埋藏着炸药，他们的身体上绑着炸弹。现在，妈妈们拒绝带孩子去游乐园时不会说秋千不结实，而是说那里可能会发生爆炸。即便是孩子们那种强大的适应能力也无法将这种现实化成梦幻；恐怖主义的阴影笼罩了孩子的童年。</p>
<p>For much of the world, the deaths of Pakistani children are forgettable. They are, after all, the progeny of poor distant others destined to perish in ever more alarming ways. It may not be said, but it is believed that they are complicit in their own deaths, guilty somehow — even at 2 or 4 or 6 years of age — of belonging to a nation that the world has appointed as its own boogeyman, a repository of all its vilest trepidations. In December 2014, Taliban militants gunned down more than 140 people at a school in Peshawar, a vast majority of them students. A former American ambassador, speaking of his government's lack of desire to help the Pakistani government fight extremists, put it</p>	<p>对世界上的很多人而言，巴基斯坦儿童的死亡很容易被遗忘。毕竟，他们是远方那些跟自己不相干的穷人的后代，注定要以不断变得更加惊人的方式死去。有人或许没说出口，但却相信他们自有取死之处，相信他们即便只有 2 岁、4 岁或者 6 岁，也会有罪，只因为他们来自这个国家，而世人认为他们的祖国是恐惧之源，充满最令人厌弃的恐怖。2014 年 12 月，塔利班激进分子在白沙瓦的一所学校枪杀了 140 多人，遇难者大多是学生。谈及美国政府缺乏帮助巴基斯坦对抗极端分子的意愿时，一位前美国大使直白地说：“巴基斯坦已经把华盛顿方面折腾疯了。”</p>

succinctly: "There is great Pakistan fatigue in Washington."	
<p>In the media, too, it seems. Two days after Sunday's attack, Lahore has disappeared from the top headlines. Pakistan's pain has already been extinguished from the global news cycle, its catastrophe a news item and not — as in Paris or Brussels — a news event. The world has many demands on its meager stores of empathy. The children's names, their pictures, the terrain of the park where they fell to bits will never be familiar to a mourning world. Efforts to make the dead children of Pakistan real and innocent, worthy of a tear and not just a tweet, start, sputter and fizzle.</p>	<p>在媒体上似乎也能看到这种情况。周日的袭击事件发生两天后，拉合尔就无法登上头条了。巴基斯坦的痛苦已经被人从全球新闻循环中清除了，它遭受的灾难是一条新闻，但却无法和巴黎或者布鲁塞尔的恐怖袭击相比，成不了爆炸性新闻。世人吝于付出同情心，而可以打动世人的事件又是如此之多。表达哀悼的人永远不会知道孩子们的名字，不会看到他们的照片，不会了解那个夺走他们生命的游乐场的地形。我们需要做点什么，让死去的孩子变得真实，让人感受到他们的无辜，让世人明白值得为他们的死落泪，而不仅仅是发一条推特，震惊，指责，然后遗忘。</p>
<p>The playgrounds of Pakistan have fallen silent for the moment as the country buries its dead children. As I think of them, my ears ring with the sounds carried down by the wind from the playground on the hill. We wished to go when we couldn't, but even that longing for the playground has now been denied to Pakistani children. What children ache to do when they stand on top of a slide or swing high in the air is simply to face their fear and vanquish it. In this the dead children of Lahore are braver than their country, braver than the world, braver than all of us who are scared but cannot confront our fears.</p>	<p>在巴基斯坦埋葬死去的孩子之际，这个国家的所有游乐场都陷入了沉寂。当我想起他们的时候，耳畔仿佛传来了山顶那个游乐场里的声音。想当年，越是去不了我们越想去；但现在，巴基斯坦儿童连向往游乐场的权利都被剥夺了。孩子们站在滑梯顶端或者高高荡起的秋千上时，所渴望的只是面对恐惧和战胜恐惧。从这个意义上说，拉合尔那些死去的孩子比他们的祖国，比这个世界，比我们这些感到恐惧但却无法面对恐惧的人都更勇敢。</p>

<p>Paradise, the New Muslim Utopia</p>	<p>死后的天堂，穆斯林的新乌托邦</p>
<p>Future writing project: a topography of paradise in the medieval Muslim imagination. But not only medieval, for among Muslims today paradise is also at the center of political discourse, sermons and the contemporary imagination. Paradise as a goal for the individual or the</p>	<p>将来的写作任务：描述中世纪时穆斯林想象中的天堂。但不仅仅是中世纪，因为在现如今的穆斯林中，天堂也是政治讨论、布道和当代想象的核心。在人们所说的阿拉伯世界里，天堂作为个人或穆斯林这个群体的目标，逐渐取代了战后去殖民化许诺的发展、稳定和财富的梦想。如今，人们只会想象死</p>

<p>group has gradually replaced the dreams of development, stability and wealth promised by postwar decolonization in the so-called Arab world. These days, one imagines happy tomorrows only after death, not before.</p>	<p>后，而非在世时的美好未来。</p>
<p>“Paradise decks itself in delights,” an editorial writer mused in an Algerian Islamist newspaper during the most recent Ramadan, the month of fasting. The declaration was followed by descriptions of the charms, the delights, the joys that await the faithful after death. This fantasy of paradise, amply depicted as a place of pleasures, with sex and wine, golden adornments and silk apparel, is the opposite of earthly life — and of the frustrations experienced in Arab countries afflicted by economic failures, wars and bloody dictatorships.</p>	<p>在上个斋月期间，一名社论作者在阿尔及利亚的一份伊斯兰派报纸上若有所思地写道，“天堂用欢乐装饰自己。”紧接着，作者描述了那些等着忠实的信徒死后去享受的美妙、欢乐和喜悦。根据大量描述，人们幻想中的天堂是一个充满快乐、可以纵情享受性爱 and 美酒、穿金戴银的地方。那里和尘世的生活，和深受经济衰退、战争和血腥独裁统治之痛的阿拉伯国家所经历的沮丧截然相反。</p>
<p>Firdaus (a remote ancestor of the word “paradise,” derived from the Persian) was promised by the Quran and has been abundantly described in religious literature for centuries. But in recent years, paradise has also become the country dreamed of by the poor, the unemployed, the believer — and the jihadist, thanks to certain religious elites who promote it as a means of recruitment.</p>	<p>《古兰经》(Quran)许诺了 Firdaus (“paradise”一词在很久之前的原型，源自波斯语)。千百年来，宗教文献对其进行了大量的描述。但最近几年，天堂也成了穷人、失业者和信徒梦想的国度，并且因为某些宗教精英将其作为一种招兵买马的工具来进行宣传，它也成为了圣战主义者的梦想。</p>
<p>This is a fascinating renewal of the concept of happiness that was dominant a half-century ago. Back then, the countries of the Maghreb and the Middle East — born out of decolonization often violently wrested from occupying forces that had imposed on them war, poverty and misery — advocated for a vision of the future based on independence, egalitarianism, development, wealth creation, justice and coexistence.</p>	<p>这是半个世纪前那种占统治地位的幸福概念，以一种别开生面的形式再次兴起。那时，马格里布和中东地区的国家——通常是通过暴力手段，摆脱了迫使它们经受战争、贫穷和痛苦的占领者，实现去殖民化并由此建国——倡导建立一个以独立、平等主义、发展、财富创造、公平及和平共处为基础的未来的愿景。</p>

<p>That vision of utopia within human reach, which was taken up by the socialist or communist elites and even some monarchies, was a shared political dream, and it gave legitimacy to those new regimes in the eyes of both their own peoples and foreign governments. Decolonization was the era of grand slogans about the advancement of peoples and modernization through massive infrastructure projects.</p>	<p>这种乌托邦只在咫尺之遥的愿景受到了社会主义或共产主义精英乃至一些君主的追捧，是一个共同的政治梦想。在自己的民众和外国政府眼里，这个愿景让那些新政权有了合法性。去殖民化是一个充满各种改善民生和通过大型基础设施项目实现现代化的宏伟口号的时代。</p>
<p>But that dream has aged badly, because of the bloody-mindedness of those authoritarian regimes and the political failures of the left in the Arab world.</p>	<p>但因为那些威权主义政权的残暴倾向和阿拉伯世界的左派在政治上的失败，这个梦想日渐黯淡。</p>
<p>Today, one has to be a Muslim – by faith, culture or place of residence – in order to experience the full weight of the new post-mortem utopia of the Islamosphere circulating on the internet and the media. It conditions people’s imaginations, political speech, coffee-shop daydreams and the desperation of the younger generations. Paradise has come back into fashion, described in mind-boggling detail by preachers, imams and Islamist fantasy literature.</p>	<p>如今，人们必须是穆斯林——不管是根据信仰，文化还是居住地来判断——才能体会在互联网和媒体上流传的这种伊斯兰世界的新兴来世乌托邦的全部影响。它决定着人们的想象、政治言论、咖啡馆里的白日梦和年轻一代的绝望。天堂重新流行起来，成了传道者、伊玛目和伊斯兰派奇幻文学的描述对象，详细程度令人难以置信。</p>
<p>Its main selling point: women, who are promised in vast numbers as a reward for the righteous. The women of paradise, the houris, are beautiful, submissive, languorous virgins. The idea of them feeds a barely believable form of erotico-Islamism that drives jihadists and gets other men to fantasize about escaping the sexual misery of everyday life. Suicide bombers or misogynists, they share the same dream.</p>	<p>它的主要卖点是：女性。它许诺，向正直的人们赐予大量女性作为回报。天堂里的女性，即 houris，是漂亮、顺从、恬静的处女。天堂里有她们这一点催生了一种令人难以相信的性爱伊斯兰主义。它鼓舞着圣战主义者，并促使其他男性幻想着摆脱日常生活中的性苦闷。不管是自杀式炸弹袭击者还是厌恶女性的人，他们都做着同一个美梦。</p>
<p>What about the women allowed into the eternal garden? If men can have dozens of virgins, what of the women, especially considering the machismo of those earthbound dream-makers? The preachers’</p>	<p>获许进入那个永恒乐园的女性呢？如果男性可以拥有几十个处女，那么女性呢，特别是考虑到尘世里那些造梦者的大男子主义？传道者的回答可能会引人发笑：女性在天堂里的回报是永远做丈夫幸福的妻子，两人注定会以 33</p>

<p>responses can be amusing: The woman's heavenly reward is to be her husband's happy wife throughout eternity, the two of them destined to enjoy perpetual conjugal felicity, at the symbolic age of 33 and in good health. And if the woman is divorced? A preacher replies that she will be remarried to a dead man who was also divorced.</p>	<p>岁的象征性年龄和健康的身体, 享受永恒的幸福婚姻。如果是离异女性呢? 一名传道者回答说, 她会再婚, 嫁给一个同样离过婚的过世男性。</p>
<p>Curiously, this dream of a Muslim paradise finds itself confronted with another dream at once antagonistic and similar: the West. Generating passion or hatred for the Muslim believer and the jihadist alike, the West and its indulgences represent another facet of the post-mortem Muslim paradise. One dreams of going there, whether as migrant or as martyr. One dreams of going to the West and of living and dying there, or of subjugating and destroying it.</p>	<p>奇怪的是, 这个穆斯林天堂的梦想会发现自己面对着另一个既对抗, 又相似的梦想: 西方。西方和它的各种放纵激起的热爱或厌恶既针对穆斯林信众, 也针对圣战主义者。它们代表着来世穆斯林天堂的另一个方面。人们梦想着去西方, 不管是以移民, 还是以殉道者的身份。人们梦想着去西方, 在那里生老病死, 或是征服并摧毁那里。</p>
<p>The new Muslim utopia weighs heavily on today's Arab world. What motivates the masses, gives sense to their despair, lightens the weight of the world and compensates for sorrow no longer is the promise of a rich and happy country, as was the case after decolonization; it's a vision of paradise in the afterlife. But this fantasy of eternal bliss also causes uneasiness: For however much one wishes to ignore this, the fact remains that in order to get to heaven, one first has to die.</p>	<p>这个新的穆斯林乌托邦对今天的阿拉伯世界影响重大。调动民众积极性、让他们的绝望变得有意义、减轻现世的压力、弥补悲伤的不再像去殖民化结束后那样, 是建立一个富裕、幸福的国家的希望, 而是来世进入天堂的愿景。但这个永享幸福的梦想也会引起不安: 因为不管人们多么希望忽视它, 要想进天堂先得死去这一点依然是不争的事实。</p>

<p>Hong Kong and the Realities of China's Rise</p>	<p>香港, 孤独地反抗</p>
<p>I returned to my native Hong Kong in 1998 after more than two decades of working as a reporter in New York City. I was hired to start a journalism program at the University of Hong Kong, my alma mater,</p>	<p>1998年, 在纽约当了20多年记者后, 我回到自己出生的地方香港。我受雇在母校香港大学开办一个新闻课程, 训练新一代记者, 以讲述香港、中国和亚洲的故事。这是一项重大却又及时的任务。</p>

<p>and train a new generation of reporters to tell the stories of Hong Kong, China and Asia. It was a big and timely beat.</p>	
<p>Hong Kong was handed over to China after 156 years of British rule 10 months before I returned. In an ingenious stroke designed to reassure the international community and Hong Kong people, China's paramount leader, Deng Xiaoping, devised the "one country, two systems" arrangement: Beijing would assume sovereignty, but Hong Kong would keep its rule of law and capitalist ways for 50 years.</p>	<p>在我回来的 10 个月前，被英国统治了 156 年的香港被移交给中国。中国最高领导人邓小平提出了“一国两制”的安排：北京将享有主权，但香港的法治和资本主义制度可保持 50 年。这神来之笔的目的是打消国际社会和香港民众顾虑。</p>
<p>The political rules were written to ensure that pro-Beijing forces would control the local legislature, known as LegCo, and Hong Kongers were willing to accept an imperfect system in the hope that a more accountable government would evolve. Many were heartened in 1998 when, in the first post-handover LegCo election, the Democratic Party won 13 of the 50 seats and became the dominant opposition.</p>	<p>这些政治规则的制定是为确保亲北京的力量能够控制香港的立法机构立法会，而香港民众会愿意接受一个不完美的制度，是寄望将来能成长起一个更具责任心的政府。1998 年，当民主党在移交后的首届立法会选举中赢得 50 个席位中的 13 个，成为占优的反对党时，很多人欢欣鼓舞。</p>
<p>As I caught up with friends from my college days, I shared their excitement about the city's future. Many veteran activists cherished the idea that cosmopolitan Hong Kong, where people enjoyed freedom of expression, could inspire democratic change in mainland China.</p>	<p>和大学时代的朋友叙旧闲聊时，我和他们一样，对这座城市的未来感到兴奋。不少资深活动人士的想法是，民众享有言论自由的国际化大都市香港可能会激励内地的民主变革。</p>
<p>Fast forward to 2016. Another LegCo election took place earlier this month, four days after I retired as director of the Journalism and Media Studies Center at the University of Hong Kong. In a rebuke of Beijing, voters elected six candidates who ran on platforms calling for self-determination. The new legislators, all under age 40, see "one country, two systems" as a sham. They are taunting Beijing, which regards such talk as treasonous.</p>	<p>快进到 2016 年。本月早些时候，我从香港大学新闻及传媒研究中心 (Journalism and Media Studies Center) 总监的位置上退休。四天后，香港又举行了一次立法会选举。选民选出了六名以呼吁自决为竞选纲领的候选人，这是在向北京发难。新当选的立法会议员均不到 40 岁，都认为“一国两制”形同虚设。他们在嘲弄北京，而北京则认为这类言论是对国家的背叛。</p>

<p>The election results portend greater political stasis and polarization in Hong Kong. The calls for independence, as unlikely and impractical as that is, reflect growing resentment for how Beijing and its local representatives have governed the city and intervened in its affairs. Discontent is especially high among the youth.</p>	<p>选举结果预示着香港陷入了更严重的政治停滞和两极化。尽管独立不切实际，也不太可能实现，但独立的呼声反映出，在对这座城市的治理以及对其事务的干预上，北京和它在当地的代表所采用的方式正引发越来越大的不满。这种情绪在年轻人中特别严重。</p>
<p>People are also angry about skyrocketing rents, a sharp disparity between rich and poor, and naked cronyism. Hong Kong's inequality rating is among the worst in the world. In 2014, The Economist put the city at the top of a global index of cronyism.</p>	<p>民众还不满足于高企的房租、悬殊的贫富差距和赤裸裸的裙带主义。香港的不平等情况在全世界数一数二。2014年，《经济学人》(The Economist)将香港列为全球裙带主义指数榜单的第一位。</p>
<p>The repression on the mainland, particularly since President Xi Jinping came to power in 2012, is another source of worry for Hong Kongers. Lawyers, journalists, activists and other dissidents have been arrested and paraded on state television to confess their "crimes." And the long arm of Beijing seems to have extended to Hong Kong: Local booksellers were kidnapped and interrogated on the mainland about publications that Beijing found offensive. Beijing is also gaining more control over city institutions like the news media.</p>	<p>内地发生的镇压活动是另一个让香港民众感到担忧的根源，特别是中国国家主席习近平2012年上台后。律师、记者、活动人士和其他异见人士被捕，并在官方的电视节目上示众，供认自己的“罪行”。而且，北京无处不在的触手似乎已经伸到了香港：因为一些被北京认为有冒犯之意的出版物，香港多名书商遭到绑架，并被带至内地接受审讯。北京对香港的新闻媒体等机构的控制也日渐增强。</p>
<p>To many Hong Kongers, the result of the Umbrella Movement two years ago was the last straw. For 79 days, thousands of people camped out in the streets asking for broader representation and genuine universal suffrage. They received no concessions from Beijing.</p>	<p>在不少香港民众看来，两年前的雨伞运动的结果就是最后那根稻草。在79天时间里，成千上万人在街头露宿，要求得到更广泛的代表和真普选。他们未能获得北京的让步。</p>
<p>But the LegCo insurgents and their supporters in the general public are increasingly fighting a lonely battle as powerful forces around the world are scrambling to appease Beijing. In recent decades, the fortunes of the mainland and Hong Kong have turned.</p>	<p>但随着世界各地的强大力量都争相取悦北京，立法会里的反抗者及支持他们的民众显得越来越孤独。最近几十年，内地和香港的境况发生了反转。</p>

<p>China, once Hong Kong's poor cousin, has become the world's second largest economy. Multinationals bend over backward to please Beijing and gain access to the world's largest consumer market. When China's top internet regulator visited Mark Zuckerberg in Silicon Valley, the Facebook chief made sure to display on his desk a book of President Xi Jinping's collected speeches. Bloomberg self-censored an exposé of one of China's richest men in order to protect its data terminal business in China. Harvard University later set up a research center in Shanghai with major funding from the same tycoon.</p>	<p>内地曾是香港的穷亲戚，现在却成了全球第二大经济体。为了取悦北京并获准进入全球最大的消费市场，跨国公司卑躬屈膝。当中国的最高互联网监管官员在硅谷拜访 Facebook 首席执行官马克·扎克伯格(Mark Zuckerberg)时，他处心积虑地在桌上摆了一本习近平主席的讲话辑选。为了保护自己在中国的业务终端业务，彭博(Bloomberg)对一篇调查性报道进行了自我审查。该报道涉及中国的一名顶级富豪。后来，哈佛大学在上海成立了一个研究中心，主要资金正是来自这名大亨。</p>
<p>China has become an indispensable player in world politics, and sometimes throws its weight around, as in the South China Sea. It is also building an alternative world order: The Shanghai Cooperation Organization, the Asian Infrastructure Investment Bank and the One Belt, One Road plan to network more than 60 countries spanning vast stretches of Asia, the Middle East and Europe are China-led efforts to offer balance to the United States.</p>	<p>中国已经成了世界政治不可或缺的参与者。它有时会四处显示自己的影响力，比如在南海。同时，中国正在打造另一种世界秩序：上海合作组织(Shanghai Cooperation Organization)、亚洲基础设施投资银行(Asian Infrastructure Investment Bank)和旨在将 60 多个国家联系起来，覆盖亚洲、中东和欧洲大片地区的“一带一路”计划，都是中国为制衡美国而领导的行动。</p>
<p>Meanwhile, Hong Kong has lost some of its luster. Once the gateway to China, it now contends with Shanghai as the mainland's top financial center. Its container port is losing ground to Shenzhen. Its economy is more dependent on the mainland.</p>	<p>与此同时，香港却失去了一些光彩。曾是通往中国的门户的香港，现在却要 和内地最大的金融中心上海竞争。香港的集装箱港口也正在被深圳赶上。香港经济对内地的依赖增加。</p>
<p>Although it's the young rebels who caught international attention in recent years, many Hong Kongers believe the city needs to seek accommodation with Beijing. These include people who appreciate how China has lifted hundreds of millions from poverty, while modernizing the country. There are also many Hong Kongers who</p>	<p>尽管最近几年，年轻的反抗者引起了国际社会的关注，但不少香港人认为，香港需要争取与北京达成和解。他们中有些人对内地让数亿人摆脱贫困，同时也让国家实现了现代化持欣赏态度。还有很多香港人因为个人、职业和生意原因而与内地的往来日渐增加。在最近的一项民调中，超过一半的香港市民对独立的诉求表达了一定程度的反对，有的则强烈反对。</p>

enjoy growing personal, professional and business ties with China. In a recent poll, more than half of Hong Kong residents felt somewhat or strongly against the calls for independence.	
The fact is that the fate of Hong Kong has always been linked to China, an integral part of its destiny because of history, culture and geography.	事实是，香港的命运永远和内地连在一起。因为历史、文化和地理方面的原因，这是其命运不可或缺的一部分。
Independence is not an option for Hong Kong.	香港没有独立的可能。
Like the rest of the world, Hong Kong people will have to cope with the reality of a rising and more powerful China.	和世界其他地方一样，香港民众不得不接受内地日渐崛起，变得更加强大这个现实。
My students will have to be prepared to tell stories of Hong Kong that have become darker and more complicated. They will have to navigate the tangled relations among Hong Kong, mainland China and the rest of the world. As citizens, they will have to struggle with the fact that Hong Kong might just be a pawn in the big global game among corporate interests and the great powers.	我的学生将不得不准备好讲述已变得更黑暗、更复杂的香港故事。他们将不得不在香港、内地和世界其他地方之间相互交织的关系中穿行。作为市民，他们将不得不尽力接受一个事实，即在这场企业利益和世界大国之间展开的全球大博弈中，香港可能只是一枚棋子。

Peres: 93 Years Young	93岁的佩雷斯依旧年轻
When I heard the news that Shimon Peres, the last of Israel's greatest generation of founding leaders, had died I found myself ruminating about what was so special about this man whom I had had the pleasure of knowing for almost 35 years. It took me a second to articulate it. Peres was almost unique among the Arab and Israeli leaders I've covered as a reporter in the Middle East in two crucial respects: He could stand in the other guy's shoes, and he was determined to let the future bury the past and not let the past bury the future.	听说以色列开国元勋那一代伟人当中的最后一位——希蒙·佩雷斯(Shimon Peres)——离开人世，我陷入了沉思，我有幸与他相交近35年，此人究竟有何特别之处。很快，答案就摆在了面前。在我担任驻中东记者期间报道过的阿拉伯与以色列领导人里，佩雷斯在两个重要方面堪称独一无二：他能够设身处地理解他人；他下定决心让未来埋葬过去，而不是反过来。

<p>You don't meet many leaders in the Middle East anymore about whom you could say either thing. Most have become so hard-bitten that they have completely lost their ability to empathize with anyone other than their own tribe, and most have become so cynical that they use Peres's aspiration about one day birthing "a new Middle East" as a laugh line.</p>	<p>我们很难再在中东遇到可以得到其中任何一条评价的领导人。多数人历经磨难，完全失去了同情自身族群之外任何人的能力，多数人还疑心重重，将佩雷斯想要有朝一日催生“一个新中东”的抱负引为笑谈。</p>
<p>Peres was not naïve. He is generally recognized as the architect of Israel's nuclear weapons program — after he became director general of the Ministry of Defense at age 29! He held many different cabinet positions over the years, including prime minister, before becoming president. He knew that the Middle East was not Scandinavia — that Israel faced merciless enemies and that the Jews could carve out and sustain their own state in such a region only if they, too, were merciless when they had to be. But he doggedly refused to let the story end there.</p>	<p>佩雷斯并非天真。外界普遍认为，他是以色列核武计划的奠基人——在他 29 岁即担任国防部办公厅主任之后！他在不少内阁职位上待过，包括出任总理，最后成为以色列总统。他心知肚明，中东不是斯堪的纳维亚——以色列面临的敌人冷酷无情，犹太人要想在这一地区建国并维持下去，必须在必要的时刻也冷酷无情。然而，他坚决拒绝让故事停留在这里。</p>
<p>The physicist Amory Lovins likes to say when people ask him if he is an optimist or a pessimist: "I am neither — because they are just two different forms of fatalism." The optimist says things have to get to better, and the pessimist says things have to get worse. "I believe in applied hope," says Lovins. Things can get better, but you have to make them so. That perfectly describes Shimon Peres's approach to politics and life.</p>	<p>当被问到自己信奉悲观主义还是乐观主义的时候，物理学家艾默里·洛文斯 (Amory Lovins) 总爱回答，“两者皆非——因为它们不过是两种不同形式的听天由命。”乐天派声称凡事必会好转，悲观派则声称必会变糟。“我相信创造出希望，”洛文斯说。事情的确可以好转，但事在人为。这恰好体现出希蒙·佩雷斯的政治观与人生观。</p>
<p>Peres believed in applied hope, and he never stopped applying it. He had no respect for the pessimists. It was partly because he was onto their shtick. That is, he knew their pessimism often was a cover for a right-wing political agenda that wanted to keep the conflict frozen where it was, that wanted to believe that nothing that Israel said or did</p>	<p>佩雷斯相信，能创造出希望，自己也从未停止创造。他对持悲观论调的人全无好感，一部分原因是他很了解他们的把戏。他明白这帮人的悲观往往是右翼政治议程的幌子，意在让冲突永远延续下去，想要认定以色列的言行绝不会影响对方，因此以色列绝不当在和平议题上采取任何主动。</p>

<p>could ever influence the other side, so Israel should never take any initiative for peace.</p>	
<p>And it was partly because he had lived the miracle of the Jewish people over the last century — saw how they had built a modern, high-tech state out of the ashes of the Holocaust and knew that if that wasn't a proof case for the power of applied hope then nothing was.</p>	<p>另一部分原因是他亲身经历了犹太人在过去一个世纪创造的奇迹，见证了他们在大屠杀的灰烬之上怎样建立起一个现代化的高科技国家，明白没有任何其他事情能够比这更好地证明创造希望的强大力量。</p>
<p>I have always had a soft spot for leaders who are able to change late in life. And Peres was one such person. The man who in earlier incarnations had been responsible for building so many of Israel's walls came to believe that its true security could be achieved only by webs — it could come only if Israel could be woven into a web of relationships with the Palestinians and with its Arab neighbors.</p>	<p>能在晚年求变的那些领导人，总是能打动我，佩雷斯即为其中一员。他的前半生要为以色列建起的诸多壁垒负责，后来却认定真正的安全只有通过结网才能办到——只有当以色列可以融入与巴勒斯坦及阿拉伯邻国的关系网中，这种安全才会实现。</p>
<p>That is what inspired him to partner with Yitzhak Rabin and Yasir Arafat to forge the Oslo Peace Accords. But that treaty came unstuck because Arafat wasn't really committed to giving up the armed struggle and later Israeli leaders weren't really committed to giving up settlements in the West Bank and Gaza — settlements that Peres's own Labor Party had had a hand in originating and then lost control over.</p>	<p>正是这种信念，激励佩雷斯与伊扎克·拉宾(Yitzhak Rabin)和亚西尔·阿拉法特(Yasir Arafat)一齐打造了《奥斯陆协议》(Oslo Accords)。然而，阿拉法特并不愿放弃武装斗争，而以色列领导人随后也不愿放弃约旦河西岸与加沙地带的定居点——佩雷斯所在的工党参与催生了定居点计划，后来又对其失去控制。于是，协议逐渐解体。</p>
<p>In recent years, Peres discussed with me several times what he might do to revive the Saudi peace initiative — for full peace between Arab states and Israel in return for full withdrawal from the West Bank, Gaza and East Jerusalem — which King Abdullah first unveiled in this column in 2002. But none of the sparks we tried to light ever grew into a flame. Too many people had become invested in the idea that there must not be, and could never be, a new Middle East.</p>	<p>近年里，佩雷斯数次与我探讨，他也许可以做些什么来重启沙特和平计划。这是沙特已故国王阿卜杜拉(King Abdullah)在2002年的本专栏中首次提出的计划，内容涉及让以色列从约旦河西岸、加沙地带及东耶路撒冷全面撤出，来换取阿拉伯国家与以色列之间的全面和平。不过，我们试图激起的星星之火都未能呈燎原之势。太多人变得执迷于一个概念：新中东绝不应该实现，也永远不可能实现。</p>

<p>No matter, Peres was never deterred, never flagged in his desire to apply hope — if it couldn't be full peace then let it be a joint water project, solar project or internet project.</p>	<p>尽管如此，佩雷斯从未退却，从未消减创造希望的热切追求——假如没法实现全面和平，那就先合作进行一个供水项目、太阳能项目或互联网项目。</p>
<p>He was the youngest 93-year-old you ever met.</p>	<p>他是世人见过的最年轻的 93 岁老人。</p>
<p>Indeed, my teacher and friend Dov Seidman, the C.E.O. of LRN, which helps business and other leaders navigate ethical issues, took his 8-year-old son, Lev, to Israel for his first time in August, and told me this story.</p>	<p>多夫·塞德曼(Dov Seidman)与我亦师亦友，在协助包括商界精英在内的领导人处理伦理问题的 LRN 公司担任首席执行官。塞德曼今年 8 月带着 8 岁的儿子莱夫(Lev)去体验他的首次以色列之旅，后来告诉我一个故事。</p>
<p>"I wanted Lev's first experience of Israel to be an indelible one," recalled Seidman, "so on his first day — just a few weeks ago, last August 31 — I brought him to meet someone who I believed truly personified the hope, strength, and spirit of Israel — with all of its dreams, ideals, and tensions — President Shimon Peres. Little did I know that it would be one of his last meetings."</p>	<p>"我希望莱夫与以色列的第一次接触能留下难以磨灭的印象，"塞德曼回忆道，"所以他去的头一天——就在几周前，刚刚过去的 8 月 31 号——我便带着他去拜访了某个人。我相信这个人真正体现了以色列的希望、力量和精神，身上带有它所有的梦想、理念与冲突。这个人就是希蒙·佩雷斯总统。当时我基本不知道，这是他最后几次与人见面。"</p>
<p>Peres, Seidman added, "was gracious enough to meet with my son and wife and me at the Peres Center for Peace in Tel Aviv. We talked about the power and potential of humanity to surprise, evolve and inspire. At one point Peres turned to my son and said, "Elephants, they're like computers. They have the biggest memories. They remember everything. But they have no imagination. That's what's special about being human."</p>	<p>塞德曼还说，佩雷斯"十分慷慨地在特拉维夫的佩雷斯和平中心(Peres Center for Peace)接见了我的儿子和我们夫妻。我们谈了权力问题，还有人类让人惊叹、演进和鼓舞他人的潜能。有那么一会儿，佩雷斯转头对我儿子说，'大象呢，就跟电脑一样。它们有最惊人的记忆，记得每一件事，但它们没有想象力。那才是让人类特殊的地方。"</p>
<p>At one point, though, Seidman said, he asked Peres to share with his son, "how, after 93 years of life, he stayed so young."</p>	<p>不过，塞德曼表示，他当时还请佩雷斯与他的儿子分享，"过了 93 年之后，怎么还能保持这么年轻。"</p>
<p>"Lev," Peres said, "every day I wake up and I count my achievements." Seidman then interjected, "And son, President Peres has had countless</p>	<p>"莱夫，"佩雷斯回答，"每天我起床的时候，都会数数自己的成就。"塞德曼此时插话，"儿子，佩雷斯总统有无数的卓越成就。"两人一齐笑起来。</p>

extraordinary achievements." They both laughed.	
But Peres wasn't done. He continued telling Lev, "And then I count the dreams I have in my head. As long as I have more dreams in my head than achievements, I am young."	然而，佩雷斯的话还没有说完。他接下来告诉莱夫，“然后我会数数脑袋里的梦想。只要我脑子里的梦想比成就要多，我就还年轻。”

Stop Pretending You're Not Rich	别再假装你不是有钱人
When I was growing up, my mother would sometimes threaten my brother and me with elocution lessons. It is no secret that how you talk matters a lot in a class-saturated society like the United Kingdom. Peterborough, our increasingly diverse hometown, was prosperous enough, but not upscale. Six in 10 of the city's residents voted for Brexit — a useful inverse poshness indicator. (In Thursday's general election, Peterborough returned a Labour MP for the first time since 2001.)	小时候，母亲有时会威胁说，要我和兄弟去上演讲课。在英国这样充斥着阶级意识的社会里，一个人的言谈方式很重要，已经不是什么秘密。我们的家乡在彼得伯勒，这里越来越多元化，相当繁荣，但还不够上档次。这个城市的居民中有 60% 投票赞成脱欧——这是个有用的反上流社会指标。（在周四的大选中，彼得伯勒自 2001 年以来首次选出了一位工党议员。）
Our mother, from a rural working-class background herself, wanted us to be able to rise up the class ladder, unencumbered by the wrong accent. The elocution lessons never materialized, but we did have to attend ballroom dancing lessons on Saturday mornings. She didn't want us to put a foot wrong there, either.	我们的母亲出身乡村工薪阶层，她希望我们能在阶级的台阶上攀登，别让不体面的口音拖了后腿。演讲课未能成真，但是我们周六早上必须去上交际舞课。她也不希望我们在这方面行差走错。
As it turned out, my brother and I did just fine, in no small part because of the stable, loving, middle-class home in which we were raised. Any lingering working-class traces in my own accent were wiped away by three disinfected years at Oxford. My wife claims they resurface when I	后来，我们兄弟俩干得不错，主要是因为我们出身于一个稳定、有爱心的中产阶级家庭。在牛津度过了脱胎换骨般的三年之后，我口音中任何残留的工薪阶层痕迹都被抹去了。妻子说它们在我喝酒之后还会重新浮现出来，但她不知道自己在说什么——她是美国人。

<p>drink, but she doesn't know what she's talking about — she's American.</p>	
<p>I always found the class consciousness of Britain depressing. It is one of the reasons we brought our British-born sons to America. Here, class is quaint, something to observe in wonder through imported TV shows like "Downton Abbey" or "The Crown."</p>	<p>我总觉得英国的阶级意识令人沮丧。这也是我们带着英国出生的儿子们来到美国的原因之一。在美国，阶级是一种陈旧老式的东西，是《唐顿庄园》(Downton Abbey)或《王冠》(The Crown)这样的进口电视剧里才能看到的奇观。</p>
<p>So imagine my horror at discovering that the United States is more calcified by class than Britain, especially toward the top. The big difference is that most of the people on the highest rung in America are in denial about their privilege. The American myth of meritocracy allows them to attribute their position to their brilliance and diligence, rather than to luck or a rigged system. At least posh people in England have the decency to feel guilty.</p>	<p>所以，试想当我发现美国的阶层固化比英国还要严重时有多么惊恐吧，在美国，顶层的固化尤为严重。这里和英国最大的区别是，美国处于顶层的大多数人都否认自己有特权。美国唯才是举的鬼话令他们将自己所处的位置归功于他们的优秀和勤勉，而非运气或者受到操纵的制度。英国的上流社会人士最起码还会感到内疚。</p>
<p>In Britain, it is politically impossible to be prime minister and send your children to the equivalent of a private high school. Even Old Etonian David Cameron couldn't do it. In the United States, the most liberal politician can pay for a lavish education in the private sector. Some of my most progressive friends send their children to \$30,000-a-year high schools. The surprise is not that they do it. It is that they do it without so much as a murmur of moral disquiet.</p>	<p>在英国，首相把子女送进相当于美国私立高中水准的学校，这在政治上是不可能的。即使是伊顿老校友戴维·卡梅隆(David Cameron)也不能这样做。在美国，最铁杆的自由派政治家也支付奢侈的教育费用，把子女送去私立学校。我的一些最进步的朋友把他们的孩子送到每年3万美元学费的高中。让人惊讶的不是他们这样做，而是他们这样做了，却没有任何一丝道德上的不安。</p>
<p>Beneath a veneer of classlessness, the American class reproduction machine operates with ruthless efficiency. In particular, the upper middle class is solidifying. This favored fifth at the top of the income distribution, with an average annual household income of \$200,000, has been separating from the 80 percent below. Collectively, this top fifth has seen a \$4 trillion-plus increase in pretax income since 1979,</p>	<p>在无阶级的虚饰之下，美国的阶级复制机器以无情的效率高速运转。中上阶层固化的情况尤为严重。在收入分配中居于顶端的五分之一人口的平均家庭年收入达到20万美元，他们同其后80%的人完全隔绝开来。总体而言，自从1979年以来，这前五分之一人口的税前收入增加了4万亿美元以上，而其他所有人的税前收入却只增长了3万亿美元多一点。在这4万亿美元中，其中一些收益落入顶端1%的人群。但是大多数都由其下的19%得到。</p>

<p>compared to just over \$3 trillion for everyone else. Some of those gains went to the top 1 percent. But most went to the 19 percent just beneath them.</p>	
<p>The rhetoric of “We are the 99 percent” has in fact been dangerously self-serving, allowing people with healthy six-figure incomes to convince themselves that they are somehow in the same economic boat as ordinary Americans, and that it is just the so-called super rich who are to blame for inequality.</p>	<p>“我们都是 99%”这种说辞实际上是危险而自私的，让拥有不低的六位数收入的人可以说服自己，某种程度上，他们在经济方面和普通美国人是同处一条船上的，而且只有那些所谓的超级富豪才需要为不平等现象担责。</p>
<p>Politicians and policy wonks worry about the persistence of poverty across generations, but affluence is inherited more strongly. Most disturbing, we now know how firmly class positions are being transmitted across generations. Most of the children born into households in the top 20 percent will stay there or drop only as far as the next quintile. As Gary Solon, one of the leading scholars of social mobility, put it recently, “Rather than a poverty trap, there seems instead to be more stickiness at the other end: a ‘wealth trap,’ if you will.”</p>	<p>政治人物和政策专家担心，贫困会持续代代相传，但是富裕的遗传因子要更加强。最令人不安的是，我们现在知道，阶级位置正在稳固地传递给下一代。处于顶端 20%的家庭中的大多数孩子会继续留在这个位置，至多下降到前 40%的位置。正如研究社会流动问题的重要学者之一加里·索伦(Gary Solon)最近提出的：“与其说存在贫困陷阱，不如说另一端变得更有黏性：一个‘财富陷阱’，如果你愿意这样说的话。”</p>
<p>There’s a kind of class double-think going on here. On the one hand, upper-middle-class Americans believe they are operating in a meritocracy (a belief that allows them to feel entitled to their winnings); on the other hand, they constantly engage in antimeritocratic behavior in order to give their own children a leg up. To the extent that there is any ethical deliberation, it usually results in a justification along the lines of “Well, maybe it’s wrong, but everyone’s doing it.”</p>	<p>这里存在一种关于阶级的双重思想。一方面，中上阶层的美国人认为他们是在实行唯才是举的制度（这种信念让他们相信，他们有权得到自己所赢得的一切）；另一方面，他们不断反对着唯才是举的做法，以便让自己的子女享有优势。这种双重思想已经到了这样的地步，如果说存在任何道德思考的话，最后通常会出现这样的辩解：“好吧，这可能是错的，但所有人都在这么干。”</p>
<p>The United States is the only nation in the world, for example, where it</p>	<p>比如说，在美国，如果你的父母碰巧上过某所大学，那么你上这个大学就更</p>

<p>is easier to get into college if one of your parents happened to go there. Oxford and Cambridge ditched legacy preferences in the middle of the last century. The existence of such an unfair hereditary practice in 21st-century America is startling in itself. But I have been more shocked by the way that even supposedly liberal members of the upper middle class seem to have no qualms about benefiting from it.</p>	<p>容易，在全世界，美国是唯一一个有这种做法的国家。牛津和剑桥在上世纪中叶就已抛弃了对校友子女的喜好。21世纪的美国存在这种不公平的世袭现象本身就很令人吃惊了。但是，中上阶层那些本应是自由派的人士在从中受益之时，对此似乎也是完全心安理得，这一点令我更为惊讶。</p>
<p>The upper middle class is also doing lots right, not least when it comes to creating a stable family environment and being engaged parents. These are behaviors we want to spread, not stop. Nobody should feel bad for working hard to raise their kids well.</p>	<p>中上阶层在很多方面做得很好，特别是在创造稳定的家庭环境与成为负责任的家长方面。这种行为我们需要发扬，而不是去制止。努力工作，好好养育子女，没有人应当为此感到愧疚。</p>
<p>Things turn ugly, however, when the upper middle class starts to rig markets in its own favor, to the detriment of others. Take housing, perhaps the most significant example. Exclusionary zoning practices allow the upper middle class to live in enclaves. Gated communities, in effect, even if the gates are not visible. Since schools typically draw from their surrounding area, the physical separation of upper-middle-class neighborhoods is replicated in the classroom. Good schools make the area more desirable, further inflating the value of our houses. The federal tax system gives us a handout, through the mortgage-interest deduction, to help us purchase these pricey homes. For the upper middle classes, regardless of their professed political preferences, zoning, wealth, tax deductions and educational opportunity reinforce one another in a virtuous cycle.</p>	<p>但是，当中上阶层开始为了自身利益操纵市场并损害他人利益的时候，事情就变得丑陋。住房或许是最重要的例子。排外的分区制度允许中上阶层生活在一个封闭的小区域内。这个小区域实际上相当于一个门禁森严的社区，就算看不到门的存在。由于学校通常是从周边地区收取生源，所以中上阶层社区的物理隔离也被复制到了教室里。好学校令这个地段更加炙手可热，进一步增加了房屋的价值。联邦税收制度又给了我们不劳而获之财，可以通过减免按揭利率来购买这些昂贵的房屋。对于中上阶层而言，无论他们自诩的政治偏好如何，分区制度、财富、扣税与教育机会一环一环地相互加强，形成了对他们有利的良性循环。</p>
<p>It takes a brave politician to question the privileges enjoyed by the upper middle class. Recently, there have been failed attempts to make</p>	<p>要质疑中上阶层所享有的特权，需要政界人士的勇气。最近，在西雅图这样的自由派城市，以及像加利福尼亚和马萨诸塞这样的州里，试图令分区法变</p>

<p>zoning laws more inclusive in supposedly liberal cities like Seattle and states like California and Massachusetts. The handout on mortgage interest appears to be an indestructible deduction (unlike in Britain, where the equivalent tax break was phased out under both Conservative and Labour governments by 2000).</p>	<p>得更具包容性的努力都遭到了失败。减免按揭利率这笔不劳而获之财似乎是一项不可动摇的优惠（不同于英国，到2000年，保守党和工党政府都已逐步淘汰了类似的税收减免政策）。</p>
<p>Or look at 529 college savings plans, another boondoggle. These are tax-exempt vehicles for putting money aside for educational expenses. Thanks to legislation signed by George W. Bush in 2001, any capital gains in these plans are free of all federal taxes. Most states also allow savings up to a certain level to be deducted from state income tax. Almost all the benefits of 529 plans go to upper-middle-class families. But when President Obama proposed to end the federal tax break in 2015, uproar ensued, and not just from Republicans. Liberal democrats representing affluent districts killed the idea stone dead.</p>	<p>或者看看529大学储蓄计划，这也是一项毫无意义的措施。它是一组为储备教育经费而制定的免税措施。由于乔治·W·布什在2001年签署的法律，这些计划的任何资本收益都不必缴纳联邦税款。大多数州还对一定金额以下的储蓄减免州所得税。529计划的所有收益几乎都流向中上层家庭。但是2015年奥巴马总统提议结束联邦税收减免时激起了一片骚动，它们不仅仅来自共和党人。最后是代表富裕地区的自由派民主党人士彻底毙掉了这个提议。</p>
<p>Progressive policies, whether on zoning or school admissions or tax reform, all too often run into the wall of upper-middle-class opposition. Self-interest is natural enough. But the people who make up the American upper middle class don't just want to keep their advantages; armed with their faith in a classless, meritocratic society, they think they deserve them. The strong whiff of entitlement coming from the top 20 percent has not been lost on everyone else.</p>	<p>无论是分区制度、入学规则，抑或税收改革，进步政策常常遭到中上阶层的反对。自利原则是非常自然的。但是，构成美国中上层的人不仅要保持自己的优势，他们还坚信自己生活在一个无阶级的、唯才是举的社会，他们认为一切都是他们应得的。收入位于前20%的阶层那种理所当然的强烈感觉也是其他一些人能够感受到的。</p>
<p>I see now that English class consciousness has an important silver lining. At least there we know that class is a real fact of social life. Posh Brits are more likely to see that their position is at least in part the result of good fortune. For Americans to solve the problem of their deepening</p>	<p>我现在看到，在英国，强烈的阶级意识中还存有一线希望，这一点是非常重要的。至少我们知道阶级是社会生活中的现实。英国上流社会人士更有可能认识到，他们的位置至少部分是源自幸运。对于美国人来说，要解决阶级鸿沟不断深化的问题，我们必须首先承认这些鸿沟的存在，以及我们都是维护</p>

class divisions, we will have to start by admitting their existence and our complicity in maintaining them. We need to raise our consciousness about class. And yes, I am looking at you.	这些鸿沟的共谋者。我们需要提升自己的阶级意识。是的，我说的就是你。

A God of the Bullring Made Human	“斗牛之神”何塞：用玩命战胜死亡
MEXICO CITY — It was not long after the first trumpets on Sunday that José Tomás found himself in familiar territory: inches from the vicious horns of a fighting bull, so close they nearly brushed up against the pink silk of his traje de luces, or suit of lights.	墨西哥城——周日，第一串号角吹响后不久，何塞·托马斯(José Tomás)置身于一个熟悉的场景：距离斗牛锋利的牛角只有几英寸，牛角几乎碰到了他身上的粉色丝质斗牛士服。
Careful not to twitch a muscle, which could have been a trigger for the bull to attack him, Tomás stood firm in this dangerous position and alone at the center of the Plaza México, the biggest bullring in the world. Tomás’s cultish followers are called Tomasistas, and the bullring was filled with more than 45,000 spectators, the largest draw for a matador in recent memory.	托马斯小心翼翼，避免任何肌肉颤动，因为这会引发牛的攻击。托马斯坚定地站稳这个危险的位置，独自一人矗立在世界上最大的斗牛场墨西哥广场(Plaza México)的中心。他的狂热粉丝被称为“托马斯教徒”(Tomasistas)。斗牛场里挤满了逾 4.5 万名观众，是近些年来最具吸引力的斗牛盛会。
All of them were eager to witness the Great One before he decided to retire or before another horn wound ended his career for him.	他们都渴望，在这位伟大的斗牛士决定退休或又一处牛角造成的伤口终结其职业生涯之前，亲眼目睹他的风采。
Tomás, 40, was not like other matadors. He was the embodiment of mystery — in and out of the ring. For years, he has refused to give interviews or to appear on television. You had to see him live to see him at all, and he performed so infrequently, usually once or twice a year, that tickets sold out within hours.	现年 40 岁的托马斯跟其他斗牛士不同。他是神秘的化身，斗牛场内外都是如此。多年来，他拒绝接受采访或出现在电视节目中。你得到现场才能看到他。托马斯很少表演，通常一年出场一两次，所以票在几个小时内就会售罄。
His mastery, though, was not only in his marketing. Tomás’s performances were savage ballets, a blend of elegance, fearlessness,	但他的精妙之处不仅在于这种营销方式。托马斯的表演就像是野性的芭蕾，融合了优雅、无畏、时机选择和献祭的元素。他似乎决意贴身越过公牛，挑

timing and sacrifice. He seemed determined to pass bulls ever closer to his body, pushing the boundaries of how close a man could get.	战这种距离的极限。
"He's a mystic," Allen Josephs, a professor of literature and Spanish studies at the University of West Florida who has written extensively about matadors and bulls, said in a recent interview for the magazine True.Ink. "We want the great matador to bring the animal in closer and closer and closer. It's playing with death. Why do we play with death? Because by playing with death, in some ways, we overcome it."	"他是一个迷,"西佛罗里达大学(University of West Florida)文学与西班牙研究教授阿伦·约瑟夫斯(Allen Josephs)最近接受 True.Ink 杂志采访时说。"我们希望这位伟大的斗牛士距离公牛近一点,近一点,再近一点。这是在玩命。我们为什么要玩命?因为在某种程度上,我们通过玩命来战胜死亡。"约瑟夫斯写过与斗牛士和公牛有关的大量文章。
By overcoming death, Tomás represented a kind of immortality, and now here he was, swinging the red muleta behind his back, the red furls of the wool cloth slicing through air heavy with cigar smoke as the 1,150-pound Bellotero, his first bull of the afternoon, gazed at his tiny waist. Finally, Tomás made a pass, and the crowd exploded.	通过战胜死亡,托马斯体现了一种永生。此时此刻在这儿,他摆动身后的红布,毛织布料的红色卷边划过弥漫着雪茄烟雾的空中,重达 1150 磅的公牛贝罗特罗(Bellotero)正盯着他的细腰。这是当天下午他遇到的第一头牛。终于,托马斯做了一次成功的闪躲,观众爆发出欢呼声。
Olé!	哦嘞!
Then another pass.	又一次闪躲。
Olé!	哦嘞!
Then he got too close. A horn caught the inside of Tomás's leg. He crashed to the sand, and the crowd shrieked as the bull's horns tore away at the back of his thighs.	然而接下来,他离得太近了。一只牛角刺入托马斯的腿部。他重重地倒在沙地中,牛角挑破了他的大腿后侧,观众们尖声叫喊。
As a teenager in a suburb of Madrid, where the bullfighting schools are perhaps the most competitive in Spain, Tomás struggled to attract attention from the bullring promoters, managers and financiers who bankroll young matadors. He moved to Mexico to attract attention and perfected a style of bullfighting so dangerous he has nearly been killed.	马德里的斗牛学校或许是全西班牙竞争最激烈的地方。青少年时期,来自西班牙马德里郊区的托马斯在那里难以吸引到斗牛赛事筹办人、经理及为年轻斗牛士提供资金的投资者的注意。他来到墨西哥以吸引关注,磨练出了一种极其危险的斗牛风格,并差点因此丧命。
In 2010, Tomás had just finished an effortless natural, or left-handed	2010年,托马斯在墨西哥阿瓜斯卡连特斯刚刚毫不费力地完成左转闪躲后,

<p>pass, in Aguascalientes, Mexico, when a bull plunged his horn into Tomás's thigh, punctured the femoral artery and drained much of the blood from his body. For a while, it was unclear whether Tomás would survive.</p>	<p>一头牛将角顶入了托马斯的大腿，刺穿他的股动脉，致使大量血液从他的身体流出。有那么一段时间，托马斯能否活下来都是个未知数。</p>
<p>"When your mind has gotten used to the fact that you will die and then you don't, life turns a different color," said Antonio Barrera, a matador who sustained countless goings and nearly bled to death as a teenager with an injury similar to the one Tomás sustained in Aguascalientes. In 2012, Barrera spoke in "Gored," a coming documentary that captures his final bullfight, about how overcoming death had allowed him to perform with abandon.</p>	<p>"当你的意识习惯了你将死亡的事实，后来却没死，生命就有了不同的色彩，"斗牛士安东尼奥·巴拉雷(Antonio Barrera)说。巴拉雷无数次被刺伤，青少年时期有一次因为伤势过重差点流血致死，与托马斯在阿瓜斯卡连特斯所受的伤类似。2012年，巴拉雷在即将推出的纪录片《刺伤》(Gored)中出镜，讲述了战胜死亡的经历如何使他可以纵情表演。这部纪录片呈现了他最后一场斗牛表演。</p>
<p>"For me, the bull is like a god," Barrera said. "The wild bull has a lot of values the human being admires: to be fierce, to be impetuous, to have a breed, to have self-esteem, to fight for what you want, to fight for your life. That's why you consider him a god, and why in many cultures he has been considered a god."</p>	<p>"对我来说，斗牛就像神一样，"巴拉雷说。"野牛具有很多人类欣赏的品质：凶猛、冲动、有血统、有自尊，为自己想要的东西而战，为生命而战。因此我认为它们是神，而且在很多文化中，公牛也被奉为神。"</p>
<p>In the Plaza México on Sunday, as Tomás lay crumpled in the sand, helpers lured Bellotero away. But not for long. Only a few passes later, Tomás was on the ground again, as the bull hooked his horns underneath the jacket of Tomás's suit and trampled him. Somehow, the horns missed him, and Tomás went on to register a remarkable performance. His derechazos, or right-hand passes, were long and smooth, and his left-hand passes were timed perfectly.</p>	<p>周日，在墨西哥广场，当托马斯倒在沙地上时，助手们将贝罗特罗引开。但这并没有持续很长时间。短短几次闪躲之后，托马斯再次上场，牛角勾住了托马斯斗牛士服的上衣，并踩到了他。不过，牛角没有碰触到他，托马斯继续呈现精彩表演。他右转闪躲公牛的动作缓慢且平稳，而左转的时机非常完美。</p>
<p>He then placed the sword cleanly, and earned an ear, or trophy, though the audience was clamoring for two ears, an honor akin to a triumph</p>	<p>他后来干净利索地将剑瞄准斗牛，赢得了一只牛耳作为战利品，不过观众们高声要求赢得两只耳朵。那样的话，享有胜利荣耀的托马斯会被人从广场中</p>

<p>that would allow him to be carried from the plaza on shoulders.</p>	<p>抬出。</p>
<p>Oddly, it was hard to find any animal rights activists, who have developed a presence in Mexico City, often shouting through their bullhorns that something as cruel as the bullfight should be abolished in places that still hold them: the south of France; Spain, outside of Barcelona; Portugal; Peru; Mexico; Colombia; Ecuador; Guatemala; and Venezuela.</p>	<p>奇怪的是，这里很难找到倡导动物权益的活动人士。他们已经出现在了墨西哥城，经常利用扬声器喊话，宣声那些仍然存在像斗牛这么残忍的行为的地方应该取消相关活动：法国南部、西班牙巴塞罗那郊外、葡萄牙、秘鲁、墨西哥、哥伦比亚、厄瓜多尔和委内瑞拉。</p>
<p>The bullfight here, featuring Tomás and Joselito Adame, a Mexican matador, was the biggest of the winter season, if not the coming year. Before the gates opened, front-row seats were being resold on websites for nearly \$8,000 each.</p>	<p>这场以托马斯和墨西哥斗牛士约瑟利托·阿达梅(Joselito Adame)为主角的表演，就算不是2016年最盛大的斗牛赛事，也堪称这个冬季之最。表演开始之前，前排座位的转卖价格在网炒到了8000美元一张。</p>
<p>Bullfighting may have taken a financial beating in recent years — from protests, prohibitions, the struggles of the Spanish economy — but Tomás has been considered a kind of savior amid the dwindling spectacle, a lone figure who, through his bravery and art, can still inspire a new generation of enthusiasts.</p>	<p>最近几年，斗牛业可谓承受了一些财务上的打击——遭遇抗议、禁令，加之西班牙经济出现困难——但托马斯一直被看作是挽狂澜于既倒的某种救世主，凭借勇敢和不凡的技艺，仍能以一人之力激发新一代观众的热情。</p>
<p>But inside the stadium, as the sun fell and the house lights came on, Tomás struggled. His second bull lacked strength, and despite the engineering of some breathtaking passes, he missed and struggled with his sword, killing poorly.</p>	<p>然而，周日在斗牛场内，太阳落山以后，灯光亮起，托马斯陷入挣扎。他面对的第二头牛缺乏力度，尽管也制造了一些非常惊险的闪避，但他剑使得艰难，有时落空，刺杀技巧并不高超。</p>
<p>And with his last bull, he never had a chance. Once the chute swung open and the animal emerged, the frustrated crowd whistled in protest. The bull, despite its speed, was too small, they felt. A substitute bull was called in. This bull was also small, and lacked strength, and Tomás had no choice but to kill it quickly and register his most disappointing</p>	<p>至于最后一头牛，他压根没有机会展现什么技艺。滑道打开，牛一进场，不满的观众就开始吹口哨抗议。他们觉得那头牛尽管速度还行，但体型太小。于是又换了一头。但这头牛体型也小，而且力量也不够，托马斯没办法，只好很快杀死了它，让这场表演成了他多年来最令人失望的一场。</p>

performance in years.	
Adame then seized the moment. With the final bull of the day, he executed all the tricks to win the laggard crowd over. He dropped to his knees, spun the capes like pinwheels and got so close he touched the horns with his fingers.	然后，阿达梅抓住了这个时机。在对付当天最后一头牛时，他使出浑身解数来赢得场上失望观众的心。他双膝着地，像五彩转轮一样抖弄他的斗篷，让牛靠得非常近，乃至用手指碰到了它的两只角。
He even attempted a dangerous style of killing called recibiendo, placing the sword as the bull charged into him rather than jumping over the horns. The move capped a performance that lacked Tomás's poetry but earned Adame a triumphant two ears for excitement. Adame, not Tomás, was carried through the streets as fans reached out to touch his hand, his suit of lights — any part of him. It was as if they were touching a saint.	他甚至还尝试做一种名为“待战”的非常危险的刺杀动作，即在斗牛向他冲过来时进行刺杀，而不是等到跳到牛背后。以这个刺杀动作结束的这场演出，尽管缺乏托马斯那种优雅，但因为非常刺激，也让阿达梅获得了带走两枚牛耳的嘉奖。演出结束后，是阿达梅，而非托马斯，被抬着穿过街道，粉丝们纷纷伸手想要触碰他的手、他的战衣——乃至他身上任何部分——就像是在触碰一个圣人。
Back at his hotel, Tomás emerged to have a late dinner with his handlers. He wore dark jeans, black shoes, a flamenco-style scarf. He was asked how he felt.	回到酒店以后，托马斯和经纪人一起出来吃拖了很久的晚餐。他穿着黑色的牛仔裤和黑色鞋子，配一条弗拉明戈舞风格的围巾。他被问到感觉如何。
"What can one do?" he said in Spanish, shaking his head. He looked sullen and deflated and very much like a typical matador after a rough afternoon — no longer the mysterious god of the bulls so many people had come to see.	"你能怎么办?"他摇着头用西班牙语说。他看起来闷闷不乐，有点泄气，非常像一个度过了一个艰难下午的普通斗牛士——不再是那么多人争相来膜拜的神秘的斗牛之神。

<p>In New York, a Falling Market for Trophy Homes in the Sky</p>	<p>纽约超豪华房地产大幅降价</p>
<p>NEW YORK — New York City’s ultraluxury real estate frenzy — with its sky-piercing condominium towers and \$100 million price tags — has finally come to an end.</p>	<p>纽约——纽约城中以直冲云霄的公寓楼和标价高达 1 亿美元的价签为特征的超豪华房地产狂潮,终于告一段落了。</p>
<p>Even with every conceivable amenity, the eight- and nine-digit prices attached to trophy homes with helicopter views and high-end finishes never bore much relation to actual value. Rather, a class of superrich investors primarily drove the market, choosing high-priced real estate as their asset of choice, because it was less volatile than other investments and they could use shell companies to hide their identities.</p>	<p>那些拥有居高临下的视野和高档装潢,能够彰显身份地位的住宅,售价动辄高达八九位数,即便配套设施应有尽有,其价位也与实际价值相去甚远。这个市场主要是被一群超级富豪投资者炒热的,他们把高价位房地产作为资产配置的首选,因为相较于其他投资,其波动性不那么大,而且他们可以利用空壳公司隐藏自己的身份。</p>
<p>But today a four-year construction boom aimed at buyers willing to spend \$10 million or more has flooded the top of the market just as</p>	<p>但现在,为迎合乐于出价 1000 万美元或更多钱的买家而延续了四年的建筑热潮,已经让市场处于极度供过于求的状态。与此同时,富有的投资者因为</p>

<p>It's not just the volatility of financial markets that has big spenders sitting on their wallets. Other global trends that have put the lid on high-end spending include China's tightened restrictions on capital outflows, uncertainty surrounding Britain's decision to leave the European Union, lower oil prices curbing wealth in the Middle East, and tax increases and other measures that have driven up property transaction costs in some countries.</p>	<p>大富豪们之所捂紧钱包，不仅仅是因为金融市场剧烈动荡。其他一些全球性趋势也让高端消费受到了遏制，比如：中国收紧了对资本外流的限制；英国决定脱欧带来了不确定性；较低的油价束缚了中东地区的财富；在一些国家里，提高税率等举措加大了房地产交易成本。</p>
<p>As the volume of sales at the uppermost level has dwindled, some sellers have made drastic price cuts and some projects have been delayed.</p>	<p>由于超高端项目的销量出现萎缩，一些卖家已经大幅降低了售价，一些项目则被推迟了。</p>

<p>In and around West 57th Street, known as Billionaires' Row, "it's not just slow — it's come to a complete halt," said Dolly Lenz, a broker to the superrich. She attributed the lack of activity along the Midtown corridor to oversupply, little differentiation among glassy ultraluxury units and peak pricing. "That's a death knell," she said.</p>	<p>西 57 街俗称亿万富豪街，在这条街上及其周围，“销售不仅仅是在放缓，而是完全停滞了，”为超富人群服务的经纪人多莉·伦茨(Dolly Lenz)说。她认为，这段曼哈顿中城走廊地带之所以死气沉沉，是因为供给过剩，带玻璃幕墙的超豪华公寓单元高度同质化，而且定价实在太高。“这简直就是敲响了丧钟，”她说。</p>

<p>New York is not alone. After the global financial crisis hit in 2008, investors turned to high-end real estate around the world as a safe place to park their millions. But since the middle of 2014, prime property values have dropped in Paris, Singapore, London, Moscow and Dubai, said Yolande Barnes, director of world research at Savills, a global real estate firm. "These cities have acted as a store of wealth," said Barnes, who sees the current decline in values as "an inevitable setback that you get after a long bull run."</p>	<p>并非只有纽约出现了这种情况。全球金融危机于 2008 年来袭后，投资者开始把世界各地的高端房地产当成他们可观财富的避难所。但全球性房地产机构第一太平戴维斯(Savills)全球研究部负责人约兰德·巴尔内斯(Yolande Barnes)说，自从 2014 年年中以来，在巴黎、新加坡、伦敦、莫斯科和迪拜，最优质的房地产的价格都有所下降。“这些城市汇聚着大量财富，”巴尔内斯说。他把当前的价格下挫视为“长期上涨之后不可不免的回落”。</p>
<p>Though the market still has a long way to go before fire-sale pricing sets in, the declines may indicate that a ceiling has been reached. And even as sales over \$10 million drop off in Manhattan, the bulk of the market remains robust, with competition particularly heated for homes priced for less than \$3 million.</p>	<p>尽管当前的定价远远不能以清仓大甩卖来形容，但降价或许意味着价格已经触碰到了天花板。在曼哈顿，当售价 1000 万美元以上的房产销量出现下降的时候，市场的整体表现却颇为强劲，标价低于 300 万美元的住宅尤为抢手。</p>

<p>In the Miami area, 216 homes and condos priced at \$10 million were on the market at the end of June, a 43 percent jump from a year ago, according to data compiled by Esslinger-Wooten-Maxwell Realtors. <p>"The global misperception was that the demand would be endless," said Jonathan J. Miller, president of Miller Samuel, a real estate appraisal</p>	<p>“全世界都误以为需求永远不会枯竭，”房地产评估公司米勒-萨缪尔(Miller Samuel)的总裁乔纳森·J·米勒(Jonathan J. Miller) 说。“事实却是，市场并不</p>

Developers who cling to their original asking prices are either rejiggering their product or casting a wider net to reach buyers. At the Woolworth Building in downtown Manhattan, where the top floors are being converted to condos, ornate interiors are being toned down in favor of a more contemporary look to appeal to a wider pool of buyers.	固守原有要价的开发商，不是正改造自己的产品，就是在广泛撒网，寻找买家。在曼哈顿下城，伍尔沃斯大厦(Woolworth Building)的上部正被改造成共管公寓，为了吸引更多卖家，华丽的内部装潢被刻意淡化，取而代之的是更为现代的面貌。
To find buyers for Le Palais Royal, a \$159 million mansion in Hillsboro Beach, Florida, that has \$7 million worth of 22-karat gold leaf and a 27-foot waterfall, Joseph Leone, the developer, has flown to London, Los Angeles, Dubai and Singapore to put together a team of brokers to sell the property rather than hiring just one firm. "I believe clients are looking for something unique," Leone said. "They are still here, but you need to change your strategy. You need to be creative."	位于佛罗里达州希尔斯波罗海滩的皇家宫殿(Le Palais Royal)是一座标价1.59亿美元的豪宅，以价值700万美元的22k金箔做装饰，还配有一道27英尺高的瀑布。为了给皇家宫殿找到买主，开发商约瑟夫·里昂(Joseph Leone)飞往伦敦、洛杉矶、迪拜、新加坡等地，组建起销售该房产的经纪人团队，而非只雇佣一个经纪公司。"我相信客户正在寻找某种独一无二的东西，"里昂说。"他们还在那里，但你需要改变自己的策略。你需要有创意。"
While prices at the high end continue to set records, that's largely because many of the deals that are closing now involve contracts that were signed as long as 18 months ago, when many of the buildings were still under construction and the market was stronger.	高端房产的价格还在创新高，但那主要是因为，许多现在才完成的交易，合同最早可能在18个月以前就签好了。那时候，许多建筑还处于施工阶段，市场也更坚挺一些。
Developers insist that sales at the top are continuing, just at a slower pace than in recent years.	开发商们坚称，高端市场的销售还在继续，只是速度不像近些年那样快。
Miller of Miller Samuel was less optimistic.	米勒-萨缪尔评估公司的米勒没那么乐观。
"It takes a while for sellers, whether in new development or resales, to capitulate to sudden changes in the market," he said. "It's not that there aren't any buyers at this level. It's that there aren't buyers willing to pay 2014 prices."	"无论是新房还是二手房的卖家，都要花一点儿时间才能接受市场的突然变化，"他说。"在这个阶段不是说没有任何买家。只不过没有买家愿意接受2014年的价格。"

House-Hunting in Hong Kong With the App That Sees Dead People	香港搜房 App 帮你识别“闹鬼凶宅”
HONG KONG — Ship Street is quintessentially Hong Kong, even serving as the backdrop to several local movies.	香港——船街拥有典型的香港风情，甚至成为了几部当地电影的背景。
There is a well-preserved three-story building from the 1920s, now a cigar lounge. Next door is a towering glass-and-steel apartment complex. There is a New York-style pizzeria, a pastry shop and a mom-and-pop hardware store.	这里有一栋 1920 年代的三层楼建筑，保存完好，现在是一个雪茄馆。隔壁是一座高耸的钢铁玻璃结构住宅综合体。街上还有一家纽约风格的比萨饼店、一家糕点店和一家卖五金的夫妻店。
But when viewed through a smartphone camera, Ship Street can look downright creepy.	但是，当你用智能手机摄像头看它时，船街可能会让人毛骨悚然。
Building on the success of Pokémon Go, a local company has created a smartphone app that superimposes property listings on street views. Point your phone at a building and the units for rent or sale pop up, complete with prices.	一家本地公司受《精灵宝可梦 Go》(PokémonGo)成功的启发，开发了一个智能手机应用，将房产信息叠加在街景上。把你的手机对准一栋建筑物，就会弹出正在出租或出售的住宅单位，以及相应的价格。
But on occasion, cartoon ghosts appear next to an apartment tower, representing an unnatural or unexplained death that took place there.	但有时，卡通幽灵会出现在公寓楼旁边，代表在那里发生过不正常或不明原因的死亡事件。
In Hong Kong, this is a big deal. Many people believe that living in a place where someone committed suicide or, worse, was murdered, brings all sorts of bad fortune. Those units, even years after such a death occurred, are discounted around 20 percent, sometimes 50 percent if the death was particularly gruesome.	在香港，这很重要。很多香港人认为，住在有人自杀甚至被谋杀的地方，会带来各种各样的坏运气。即使在死亡事件发生后的几年，凶宅的价格也会比市价低大约 20%，如果凶案特别可怕，有时甚至会低 50%。
Real estate is a topic that dominates dinner conversations, newspaper headlines and career choices here. Asif Ghafoor, a transplant from London whose company, Spacious, created the search tool, said Hong Kongers looking for a place to live asked the same questions as people	房地产是饭桌闲聊、报纸头条和职业选择的重要主题。阿西夫·加福尔(Asif Ghafoor)从伦敦搬来香港，他的公司千居(Spacious)创建了这个搜索工具。加福尔说，像其他地方的人一样，寻找住所的香港人也会问同样的问题：位置在地铁附近吗？景色如何？有健身房吗？该应用有所有这些条件的过滤

anywhere: Is it near the subway? How is the view? Is there a gym? The app has filters for all of those things.	器。
But there is one other question that Mr. Ghafoor found to be just as important, if not more so: Is it haunted?	但加富尔发现,还有一个问题就算不是更重要,也和前面提到的一样受重视,那就是:闹鬼吗?
On and around Ship Street, in the Wan Chai neighborhood of Hong Kong, terse captions under the ghosts tell a sad tale.	在湾仔船街及其附近,卡通幽灵下方的简短标题讲述着悲伤的故事。
In one complex, "a man in his 60s jumped off the building." At another: "Single male burnt charcoal," referring to carbon monoxide poisoning, a common method of suicide here.	在其中一片建筑楼里,"六旬老人跳楼自杀"。另一条写道:"单身男子烧炭亡",这是指一氧化碳中毒,在这里是一种常见的自杀方式。
Mr. Ghafoor said the captions mirrored, as closely as possible, deaths that had been reported in local newspapers or by the police. Most of the ghosts seem to refer to suicides; Hong Kong has one of the lowest homicide rates in the world.	加富尔表示,这些标题尽可能接近地反应了当地报纸或警方通报的死亡事故。大多数鬼魂似乎都与自杀有关;香港是世界上杀人率最低的地方之一。
But Ship Street is also where the city's highest-profile murders occurred in recent years: the killings of two Indonesian women by a British banker in the fall of 2014, on the 31st floor of the glass-and-steel J Residence.	但船街也是这个城市近年来最引人注目的谋杀事件的发生地:2014年秋,两名印度尼西亚女子被一名英国银行家在他位于嘉荟轩(J Residence)31层的公寓内杀害。
Mr. Ghafoor said that, on average, 1 to 2 percent of apartments for sale have had an "incident," and that as a result, they sell at a discount of up to 20 percent.	加富尔表示,平均1%到2%的在售公寓发生过"事故",结果是它们的售价打折多达20%。
For Jin Peh, a feng shui teacher and the author of "Feng Shui: A Hong Kong Perspective," a property below market price is a bad sign rather than a bargain. He recommends avoiding living where an unnatural death has occurred. In general, the principles of feng shui relate to the flow of energies in nature. An unnatural death can cause excess	在《风水:一种香港视角》(Feng Shui: A Hong Kong Perspective)一书的作者、风水师白谨(Jin Peh,音)看来,低于市场价的房产是个不好的迹象,而非意味着一桩好买卖。他建议避免住在曾经发生过非自然死亡事故的房屋内。一般而言,风水的原则与自然界的能量流动有关。白谨在接受电话采访时表示,非自然死亡事故会带来过多的负能量。

<p>negative energy, Mr. Peh said in a telephone interview.</p>	
<p>The consequences of this depend on your personal beliefs, he said, but for traditional Chinese, the worst-case scenario is becoming “possessed” by the spirit or ghost. He recalled friends of friends who started hearing voices shortly after moving into an apartment. The voices told them to jump from the building – which is how the previous occupant ended his life.</p>	<p>他说，事件造成的后果取决于你的个人信仰，但对传统中国人来说，最糟糕的情况是被幽灵或鬼魂附体。他记得朋友的朋友在搬进一套公寓后不久开始听到一些声音。那些声音让他从这栋楼跳下去——之前那位住户就是这样结束了自己的生命。</p>
<p>“Maybe they are just being delusional,” Mr. Peh said, “but they hear voices trying to persuade them to repeat the same mistake.”</p>	<p>“或许他们只是产生了幻觉，”白谨说。“但他们听到有声音在劝他们重复同样的错误。”</p>
<p>In less extreme cases, the tenants’ well-being will suffer: They will become more prone to emotional issues, mood swings and depression, he said.</p>	<p>在一些相对不那么极端的情况下，房客的健康可能会受损：他说他们会变得更容易出现感情问题、情绪波动和抑郁。</p>
<p>Sometimes, the circumstances surrounding a death are so grim that it affects the value of entire floors or buildings.</p>	<p>有时，一起死亡事故的情况如此可怕，会影响整层楼或整栋楼的价格。</p>
<p>For 13 years, the site of Hong Kong’s gruesome “Hello Kitty” murder remained abandoned. In 1999, Fan Man-ye, a nightclub hostess, was kidnapped by three men and held hostage in an apartment in a multistory building. The men tortured her for more than a month until she died. Her body was dismembered, and her skull was found inside a giant Hello Kitty doll.</p>	<p>尽管事情已经过去13年，但恐怖的“Hello Kitty”藏尸案的发生地依然废弃着。1999年，夜总会女招待樊敏仪被三名男子绑架，关在一座高层建筑内的一套公寓里。三名男子折磨了她一个多月，直到她死亡。她的尸体遭到肢解，颅骨被藏在一个巨大的Hello Kitty玩偶中。</p>
<p>The perpetrators were sentenced to life in prison. The apartment was vacant for years. No one would rent it. No one would buy it. They said it was haunted. In 2012, the entire building was finally demolished.</p>	<p>三名罪犯被判终生监禁。这套公寓空置了多年，没人敢租住，也没人敢买它。他们说怕它会闹鬼。2012年，整栋楼最终被拆除。</p>
<p>Mr. Ghafoor said that while there was no hard and fast rule that real estate agents must tell prospective buyers or renters about unnatural</p>	<p>加富尔表示，没有硬性规则要求房产中介必须告知潜在买家或租户房子里是否发生过非自然死亡事件，但地方监管机构有一套行为准则，要求中介对待</p>

<p>deaths, the local regulator has a code of conduct that says agents must serve their clients with "honesty, fidelity and integrity."</p>	<p>客户必须“诚实、守信和正直”。</p>
<p>Real estate companies keep close tabs on supposedly haunted properties. One site, Squarefoot.com, maintains a macabre list. Banks are reluctant to provide mortgages for such properties, meaning sellers have to find buyers willing to pay cash. That makes the discount almost self-fulfilling: All-cash transactions command a discount here because of the small number of people who don't need a mortgage.</p>	<p>房地产公司密切关注据称为凶宅的房屋。Squarefoot.com 这个网站就列出了一份令人毛骨悚然的名单。银行不愿为这类房屋提供抵押贷款，这意味着卖家必须找愿意付现金的买主。这导致打折几乎是必然的：在这里，全现金交易要求打折出售，因为不需要抵押贷款的人较少。</p>
<p>For those who are not superstitious – real estate agents point to expatriates and young people – moving into a “haunted” home can take some of the sting out of buying or renting in Hong Kong, the city with the least affordable housing in the world.</p>	<p>对那些不迷信的人——房地产中介指的是外籍人士和年轻人——来说，搬进“闹鬼”的房屋能减轻在香港买房或租房的一些痛苦。香港是全球房价最贵的城市。</p>
<p>"I've started looking and found it's insanely expensive in this city," says Harry Edwards, 27, a lawyer who recently moved to Hong Kong from Australia. On a recent day, he was wandering around the trendy neighborhood of Sheung Wan, trying out the Spacious app. He said he didn't subscribe to superstitions "whatsoever."</p>	<p>“我已经开始看房了，发现这座城市的房价高得离谱，”27岁的律师哈里·爱德华兹(Harry Edwards)说。他最近刚从澳大利亚搬来香港。前不久的一天，他一边在潮流地区上环闲逛，一边试用千居那款应用。他说自己不相信迷信“这类东西”。</p>
<p>"I actually think it would be great to say, 'I live in a haunted house,' " he said.</p>	<p>“我真觉得说‘我住在一栋鬼屋里’听起来很了不起，”他说。</p>
<p>There are many to choose from. A quick wave of the app in Hong Kong's North Point neighborhood reveals a world of tragedy. The little white ghosts pop up next to many of the area's towering apartment complexes.</p>	<p>有很多房屋可供选择。在香港北角地区快速挥一挥该应用，便会发现那里发生过大量悲剧。在该地区很多高耸的公寓楼旁边都会弹出白色的幽灵。</p>
<p>In one, a part-time tennis trainer "killed and stabbed his wife after an argument, jumped off the building." In another: "Female drowned</p>	<p>在其中一处房屋里，一名兼职网球教练“在和妻子发生争执后将其刺死，后跳楼自杀。”在另一套房子里：“女子头浸浴缸自杀亡”。隔壁：“老年男子跳</p>

herself in bathtub." Next door: "Old male jumped off the building."	楼亡。”
Even some people who might benefit from higher home prices acknowledge the power of superstition here.	即便一些可能会从更高的房价中获益的人也承认迷信在这里的力量。
After more than 30 years in the real estate business, Lily Wong, a local agent, knows that most Chinese clients are not interested in even looking at haunted apartments. "They wouldn't rent, they wouldn't buy," she said.	当地的房地产中介莉莉·黄(Lily Wong)已投身房地产行业 30 多年。她知道,大部分中国客户对凶宅连看看都不感兴趣。“他们不会租,不会买,”她说。
She counts herself among that group. "I can't stay in a flat that they said is haunted," she said. "It's so creepy."	她把自己也归入这个群体。“我不能住在一套他们说闹鬼的公寓里,”她说。“太吓人了。”

Model Apartments Where Designers Run Wild	纽约公寓室内设计, 因为疯狂所以难忘
Compared with the tastefully neutral interiors of so many new condominium buildings, the latest model unit to open at 432 Park Avenue comes as a jolt.	与许多新建共管公寓高雅、素净的内部装潢相比,即将在公园大道 432 号亮相的这套新样板公寓会让人大吃一惊。
The living room fireplace is finished in Venetian plaster incised with an Art Deco-inspired pattern and gold lines by Callidus Guild. The dining table is lit by a long chandelier of glass spikes by Jason Koharik. A random arrangement of tubular Apparatus light fixtures in various metal finishes and sizes punctuates a long hallway like stalagmites.	客厅的壁炉刷了威尼斯彩泥,上面雕刻着装饰派风格的图案以及 Callidus Guild 的金线。餐桌上方挂着一盏带有玻璃穗的 Jason Koharik 长枝形吊灯。门厅上方是一组 Apparatus 的管状灯,各种金属饰面都有,大小不一地随意组合着,看起来犹如石笋。
One bedroom has azure Calico wallpaper that appears to be finished with a torn edge and long silvery drips. The master bedroom has a wall-spanning oak-and-velvet asymmetrical headboard with geometric shapes inspired by the paintings of Frank Stella.	其中一间卧室装饰着蔚蓝色的粗布墙纸,似乎故意造成边缘撕裂的效果,还有长长的银色滴液状装饰。主卧被一块天鹅绒和橡木材质的不对称床头板占据了大片墙面,其几何形状设计的灵感来自弗兰克·斯特拉(Frank Stella)的绘画作品。
Conceived by Kelly Behun, an interior designer with a history of creating provocative art-filled rooms, the \$40 million apartment	这套位于 92 层的公寓标价 4000 万美元(不含家具),由向来喜欢使用大量极具挑衅性的艺术作品的室内设计师凯利·贝胡恩(Kelly Behun)设计。

(without the furniture), on the 92nd floor, borders on the outrageous.	
"It was important for me that it not just be your typical model apartment," Ms. Behun said. "I understand how they try to speak down the middle to a more common denominator, because you don't want to offend. But that wasn't interesting to me."	"对我来说，不要仅仅设计成典型的样板公寓是很重要的，"贝胡恩说。"我知道他们想尽量低调一些，扩大受众群的范围，因为你不想冒犯。但那么做对我来说没什么意思。"
It also wasn't of interest to the developers.	那也不是开发商的兴趣所在。
"We really wanted to stand out," said Jill Cremer, the vice president of marketing for Macklowe Properties, which developed the building with CIM Group. "We were ready for someone like Kelly to come and respect the architecture, but also bring an unconventional, unique style."	"我们真的想脱颖而出，"麦克罗威地产(Macklowe Properties)市场副总裁吉尔·克里默(Jill Cremer)说，该公司与 CIM 集团(CIM Group)一起开发了这座公寓楼。"我们准备好了欢迎凯利这样的人来既尊重建筑本身，也带来不落俗套、独一无二的风格。"
Ms. Cremer and her colleagues aren't alone. As developers face a glut of newly constructed apartments, both condominium and rental, some are turning to interior designers and letting them run wild with model units in an effort to differentiate their buildings from the rest.	不是只有克里默和她的同事这么想。随着市场进入新建公寓供过于求的状态——不管是共管公寓，还是租赁公寓——有些开发商开始请室内设计师在样板公寓设计上充分发挥创意，以求让自己的公寓与其他的有所不同。
Newly built inventory for sale in New York was up 19.6 percent in the first quarter of 2017, compared with the same period last year, according to the appraisal company Miller Samuel. At the same time, Citi Habitats New Developments expects 15,291 new market-rate rental apartments to become available this year in Manhattan and Brooklyn, following just 8,774 units last year.	据房地产评估公司米勒-塞缪尔(Miller Samuel)统计，纽约 2017 年一季度的在售新建公寓数量比去年同期增加了 19.6%。与此同时，花旗居屋新开发(Citi Habitats New Developments)预计今年曼哈顿和布鲁克林市场会出现 15291 套新的市价出租公寓，而在去年，这个数字只有 8774。
"There's a lot of competition," said Jonathan J. Miller, the president of Miller Samuel. "So getting eyeballs on those projects is important."	"竞争非常激烈，"米勒-塞缪尔总裁乔纳森·J·米勒(Jonathan J. Miller)说。"所以让这些项目吸引眼球是很重要的。"

<p>The development company DDG has been partnering with New York’s cutting-edge contemporary design stores to furnish its model units. The \$2.435 million apartment used as a model unit at the Standish at 171 Columbia Heights in Brooklyn was designed by Matter, and includes a spidery copper pendant lamp with a pink-and-aqua glass shade by Bec Brittain, primitive oak dining stools and a table by Jamie Gray, and layered pink and turquoise living room curtains.</p>	<p>DDG 开发公司在与纽约先锋的当代设计商店合作，装修自己的样板公寓。这套作为样板的价值 243.5 万美元的公寓，位于布鲁克林哥伦比亚高低 171 号的斯坦迪什(Standish)公寓楼内，它是由 Matter 设计，室内装饰着一盏 Bec Brittain 蜘蛛状铜吊灯，带有粉色和浅绿色玻璃灯罩，几张原始风格的橡木餐凳和一张 Jamie Gray 餐桌，客厅挂着多层的粉色和蓝绿色窗帘。</p>
<p>At XOCO 325, at 325 West Broadway in Manhattan, DDG invited Colony, a cooperative showroom for emerging designers, to outfit a \$17.5 million penthouse. The resulting design includes textile wall hangings by Hiroko Takeda, a snaking 13-foot-long chandelier by Allied Maker and bold geometric tables by Fort Standard and Erickson Aesthetics.</p>	<p>对于曼哈顿西百老汇 325 号的地产 XOCO 325，DDG 邀请新锐设计师联合工作室 Colony 装修了一套价值 1750 万美元的顶层公寓。最后的设计包括 Hiroko Takeda 的布艺墙面挂饰，Allied Maker 的 13 英尺长蛇形吊灯，以及 Fort Standard 和 Erickson Aesthetics 的大胆几何形餐桌。</p>
<p>“We try to push the envelope on design,” said Joseph A. McMillan Jr.,</p>	<p>“我们努力在设计上取得突破，”DDG 的主席兼首席执行官小约瑟夫·A·麦克米</p>

<p>For homeowners who have frequently been told they should rid their homes of personality in order to sell, model units with such expressive design elements may seem counterintuitive. Indeed, some real estate professionals urge caution.</p>	<p>很多业主经常被告知,为了方便将来出售,应该避免让自己的房子太有个性,所以具有如此鲜明设计元素的样板间似乎与这种常理相悖。的确,有些地产专业人士提醒人们保持警惕。</p>
<p>"From a marketing perspective, there's certainly something intriguing about bringing out a very aggressive design from a well-known or up-and-coming interior designer," said Stephen G. Kliegerman, the president of Halstead Property Development Marketing. "On the other side of that coin is the conversation about not being so specific as to potentially turn off a buyer who might not be as creative, imaginative or liberal."</p>	<p>"从市场销售的角度讲,推出著名或新锐室内设计师的大胆设计肯定具有一定的吸引力,"哈尔斯泰德地产开发营销公司(Halstead Property Development Marketing)的总裁斯蒂芬·G·克利格曼(Stephen G. Kliegerman)说。"另一方面,人们也在谈论不要这么有个性,因为可能会失去不喜欢这么有创意、想象力或自由的买家。"</p>
<p>To appeal to the largest pool of buyers, he said, "we recommend that developers use fine, elegant, but more neutral palettes."</p>	<p>他表示,为了吸引最广泛的买家,"我们建议开发商使用悦目、优雅、但更中性的色调。"</p>
<p>However, with so many properties on the market, some designers and developers say spirited model units can help make buildings more memorable.</p>	<p>不过,有些设计师和开发商表示,市面上有这么多地产项目,令人耳目一新的样板间可能会给人留下更深刻的印象。</p>
<p>"Through color and personality, and non-vanilla spaces, we're setting the things for people to remember," said Dan Mazzarini, a partner in the interior design firm BHDM, which designed five model apartments at the Ashland. The 585-unit rental building at 250 Ashland Place in Brooklyn offers studio to three-bedroom apartments ranging from \$2,675 to \$7,500 a month.</p>	<p>"我们利用色彩和个性,以及充满新意的空间,营造出一些能让人们记住的东西,"室内设计公司 BHDM 的合伙人丹·马萨里尼(Dan Mazzarini)说,该公司为阿什兰(Ashland)设计了五处样板间。这座租住式大楼位于布鲁克林阿什兰区 250 号,有 585 个单位,提供从单间到三居室公寓在内的各种房间,租金从每月 2675 美元至 7500 美元不等。</p>
<p>One of the model units has dazzling colors and patterns, including walls</p>	<p>其中一个样板间具有令人眼花缭乱的色彩和图案,墙壁上有错视画派彩绘镶</p>

with painted trompe l'oeil paneling, powder-blue ceilings and counter stools, and a purple pink tie-dye rug.	板, 天花板和吧台凳是浅灰蓝色的, 还有一条粉紫色的扎染地毯。
"When renters are going around to all these new buildings, they're seeing maybe 10 units a day and it's hard to remember, from one white apartment to another, which they liked and why," Mr. Mazzarini said. "So we built these memory points — it's the unit with the pink rug, or the 12-foot sofa, or the hats on the wall."	"租房者到处参观所有这些新建筑的时候, 每天可能会看 10 个套房, 他们从一个白色的公寓走进另一个白色的公寓, 很难记住自己到底喜欢哪个, 为什么喜欢," 马萨里尼说。"所以我们建立了这些记忆点——这个套房有粉红色地毯, 或者有 12 英尺的沙发, 或者是墙上挂着帽子。"
The interior designer Ken Fulk had a similar objective for three model units at Henry Hall, a 225-unit rental at 515 West 38th Street. From the Imperial Companies, the building has apartments ranging from studios starting at \$3,350 a month to two-bedrooms starting at \$6,995. Mr. Fulk equipped a studio with a four-poster bed with multicolor zigzag bed curtains installed in an alcove with matching wallpaper.	室内设计师肯·富尔克(Ken Fulk)在为亨利庄园(Henry Hall)设计三个样板间时也追求类似目标, 这座租住式大楼位于西 38 街 515 号, 有 225 个套房。它属于帝国公司(Imperial Companies), 其中有每月 3350 美元的单间公寓, 也有每月最低 6995 美元的两居室。富尔克为一个单间公寓样板间配备了一张四柱大床, 壁龛上装了多色锯齿图案床帷, 还有配套的壁纸。
"Some people will love it, some people will hate it," Mr. Fulk said. "But even if you don't like it, you'll remember it."	"有些人会喜欢它, 有些人会讨厌它," 富尔克说。"但即使你不喜欢, 还是会记住它。"
Eric Birnbaum, a partner at Imperial Companies, added: "We wanted to take a position and create a brand. If you're doing it right, in our minds, you're going to offend certain people. But others will really like it."	帝国公司的合伙人埃里克·比恩鲍姆(Eric Birnbaum)补充说: "我们想要站稳一席之地, 创造一个品牌。我们觉得, 如果你做得正确, 不免会冒犯某些人。但其他人真的会喜欢它。"

Apple Disrupts Silicon Valley With Another Eye-Catcher: Its New Home CUPERTINO, Calif. — Things change when a spaceship comes to town.	当苹果的"太空船"来到硅谷小城 加利福尼亚州库比蒂诺——当太空船来到城里, 很多事情都变了。
Tourists stroll by, whipping out their iPhones to get a photo. New businesses move in. And real estate prices go up even more.	游客们在这里流连, 拿出 iPhone 拍照。许多生意进驻。房价进一步高涨。
Apple's new home in Cupertino — the centerpiece being a \$5 billion, four-story, 2.8 million-square-foot ring that can be seen from space and	苹果公司在库比蒂诺的新家——核心建筑是耗资 50 亿美元, 面积 280 万平方英尺(约合 26 万平方米)的四层高环状建筑, 可以从太空中看到, 当地

<p>But the development of the headquarters, a 175-acre area officially called Apple Park, has already helped transform the surrounding area.</p>	<p>但是苹果总部的修建已经推动了周边地区的变化。它占地 175 英亩 (约合 71 公顷), 正式名称是苹果园(Apple Park)。</p>
<p>In Sunnyvale, a town just across the street, 95 development projects are in the planning stages. The city manager, Deanna J. Santana, said she had never seen such action before. In Cupertino, a Main Street Cupertino living and dining complex opened in early 2016. This downtown enclave includes the Lofts, a 120-unit apartment community opening this fall; small shops; and numerous restaurants and cafes.</p>	<p>森尼韦尔城(Sunnyvale)和苹果园隔街相望, 那里有 95 个开发项目正处于规划阶段。该城经理迪安娜·J·桑塔娜(Deanna J. <p>Other local businesses are also gearing up in anticipation. A Residence Inn at Main Street Cupertino, expected to open in September, has been slightly customized to meet the needs of Apple employees. Guests will have access to Macs and high-speed internet connections, said Mark Lynn, a partner with Sand Hill Hotel Management, which operates the hotel and consulted with Apple about what its employees need at a hotel.</p>	<p>其他本地企业也在做准备。位于主街库比蒂诺的居家酒店(Residence Inn)预计在今年 9 月开业, 它进行过稍微的定制, 以满足苹果员工的需求。该酒店的经营方沙丘酒店管理公司(Sand Hill Hotel Management) 向苹果咨询过其员工对酒店有什么需求, 公司合伙人马克·林恩(Mark Lynn)说, 酒店客人有 Mac 可用, 还有高速网络连接。</p>
<p>“All the things we have, lined up with what they needed,” Lynn said. “They will represent a large part of our business.”</p>	<p>“我们所有事情都与他们的需求相一致,” 林恩说。“他们会在我们业务中占很大比重。”</p>
<p>Tech companies are nothing new for Cupertino. Apple has called the city home for decades, and Hewlett-Packard had a campus in Apple’s new spot, employing 9,000 people. The surrounding towns have been remade as well in the last decade, as giant tech companies have</p>	<p>对于库比蒂诺而言, 科技公司并不新鲜。苹果公司把这个城市当成家已经几十年了, 苹果新总部的所在地曾是普惠的一个园区, 当时雇佣了 9000 人。在过去的十年里, 随着科技巨头改变周边城镇的面貌, 硅谷已经成为了全美房价最贵的地方之一。</p>

transformed Silicon Valley's real estate into some of the most expensive in the country.	
But city officials and residents say this project is like nothing they've seen before. It is even bringing tourists.	但城市官员和居民说，他们以前没有见过这样的项目。它甚至招来了游客。
Onlookers snap pictures of the spaceship from the streets. TV helicopters circle above. Amateur photographers ask residents if they can stand on driveways to operate their drones, hoping to get a closer look at Apple Park.	游客们在街头拍摄太空船的照片。电视台的直升机在它的上方转圈。业余摄影师问居民是否可以站在他们的车道上操作无人机，以便能更近一点看看苹果园。
"I just say, 'Hey, go ahead,'" said Ron Nielsen, who lives in Birdland, a Sunnyvale neighborhood across the street from the spaceship. "Why not?"	"我只能说，'好的，可以'，为什么不呢？"罗恩·尼尔森(Ron Nielsen)说。他住在森尼韦尔的伯德兰德社区，就在太空船的街对面。
Drone operators want that coveted aerial shot while pedestrians want to get an eyeful of the curved glass building before the headquarters become hidden by a man-made forest.	无人机操作者要的是令人垂涎的航拍镜头，而行人想要趁着苹果总部被人造森林隐藏之前，看看那栋弯曲的玻璃建筑物。
The campus is one of the last major projects started by Steve Jobs, the visionary co-founder of Apple, who died six years ago. Just a few months before his death, he went before the Cupertino City Council and laid out his vision for a futuristic circular house of glass that would foster creativity and collaboration. Two years later, the council unanimously approved the plans for the campus.	这个园区是史蒂夫·乔布斯(Steve Jobs)在世时最后开启的重大项目之一，他是苹果富有远见的联合创始人，于六年前去世。在他去世的数月之前，乔布斯去了库比蒂诺市议会，提出要修建一个未来主义的玻璃环形建筑物，希望它可以促进创造力和协作。两年后，市议会一致批准了这个园区的修建计划。
The main center features the spaceship ring, the Steve Jobs Theater, a 100,000-square-foot gym and a visitors center in a woodland setting with two miles of running and walking paths. An orchard, a meadow and a pond are inside the ring.	园区的核心建筑包括那个太空船、史蒂夫·乔布斯剧院，一个10万平方英尺（9290平方米）的健身房，以及一个游客中心，它们坐落在一个拥有两英里跑步和步行道的林地中。还有一个果园、一片草地，在环形建筑物里有一个水池。
Many of the public views will soon be going away. Apple Park will	不久之后，很多景观就会从公众眼前消失了。苹果园最终将种上9000棵树，

<p>eventually have 9,000 trees, filling in much of the big open spaces. The public will instead have access to a visitors center with a cafe, a store and rooftop observation views.</p>	<p>填补大部分的开放空间。公众倒是可以进入游客中心，那里有咖啡厅、商店和屋顶观景台。</p>
<p>"It will be a separate glass structure and be set in an old-growth olive tree grove," said Dan Whisenhunt, Apple's vice president of real estate and development.</p>	<p>"这将是一栋单独的玻璃建筑，坐落在一片古老的橄榄树林中。"苹果公司房地产开发部副总裁丹·惠森亨特(Dan Whisenhunt)表示。</p>
<p>Not all of these changes have thrilled everyone. Residents of Birdland, an 877-home neighborhood, have been particularly vocal. They have complained about early-morning construction rigs that beep and rumble along major streets, unpredictable road closings, unsightly green sheeted barriers and construction potholes that result in punctured tires.</p>	<p>并非所有的变化都让每个人兴奋。住着 877 户人家的伯德兰德的居民们怨声尤其大。他们抱怨建筑钻机早晨在主街上轰鸣，道路出人意料地遭到封闭，绿色隔离板条很难看，以及建筑坑洞导致轮胎被扎破。</p>
<p>When her car was covered with construction dust, Sheri Nielsen, Nielsen's wife, contacted Apple. The company sent carwash certificates.</p>	<p>尼尔森的妻子谢丽·尼尔森(Sheri Nielsen)在车子被建筑灰尘覆盖之后，联系了苹果公司。公司送了洗车证给她。</p>
<p>Whisenhunt said the company strove to answer every complaint it received, "and if the issue is serious enough, I will personally visit to see what is going on."</p>	<p>惠森亨特表示，公司力求回应收到的所有投诉，“如果问题严重，我会亲自上门去看看怎么回事。”</p>
<p>In the design phase, he said, Apple hosted more than 110 community gatherings for feedback. Birdland was addressed in late 2012 and early 2013 and was given information about what would be happening over the next three years of construction. Apple published community mailers five times and sent them to 26,000 households.</p>	<p>他表示，在设计阶段，苹果举办了 110 多次社区见面会，征求大家的意见。和伯德兰德社区的见面会是在 2012 年底和 2013 年初召开的，他们向居民提供了在未来三年内将要发生什么情况的信息。苹果向 2.6 万个家庭发送了 5 次社区邮件。</p>
<p>The price of property in the neighborhood has also become a source of some worry. Sunnyvale and Cupertino, like many other Silicon Valley towns, have had an extended real estate boom, as the tech industry has</p>	<p>社区的房价也引起了一些担忧。就像硅谷其他很多城镇一样，森尼韦尔和库比蒂诺也随着科技产业的扩张出现了房地产业的繁荣。房地产经纪人和居民表示，苹果的新园区计划发布之后，该地区的房价真的就开始上涨了。</p>

expanded. Prices in the area really started to rise, real estate agents and residents said, after Apple released its plans.	
A three-bedroom, two-bathroom, 1,400-square-foot ranch-style house that cost \$750,000 in 2011 has doubled in price. Since Apple said it was moving into the former Hewlett-Packard site, prices have moved up 15 to 20 percent year after year, said Art Maryon, a local real estate agent. Today, bidders usually offer 20 to 25 percent over the asking price.	2011年时, 75万美元可以在这里买到牧场风格1400平方英尺(约合130平方米)的三室二卫房子, 现在的价格翻了一番。当地房地产经纪人阿特·马里恩(Art Maryon)说, 自从苹果公司表示要搬到惠普的旧址之后, 这里房价的年涨幅达到了15%至20%。如今, 买家的出价通常会比要价高20%至25%。
Birdland is already drawing Apple employees, replacing homeowners who have cashed out to move to quieter regions. Those who remain are realizing that life will not be the same when all 12,000 of the Apple workers go in and come out on a daily basis. People in the neighborhood dread the increased traffic and expect workers to park in front of their homes since there will be fewer available spaces in the company garage.	伯德兰德已经在吸引苹果员工迁入了, 他们买下这里的二手房, 原来的房主收钱离开, 搬到更安静的地区去。留在这里的人都意识到, 当全部1.2万名苹果员工每天在附近进出的时候, 他们的生活将不同于以往。该社区的人担心交通量会增加, 而且估计苹果员工们会把车停在自己的家门前, 因为公司车库的停车位比较少。

Lonely Giant of the Taipei Skyline Is About to Get Some Company	“孤独巨人”台北101不再孤单
TAIPEI — The Taipei 101 building, which was for five years the world’s tallest, has towered over the Taiwanese capital for more than a decade.	台北——台北101大楼已经在台湾的首都耸立了十多年。它曾占据世界第一高楼的位置五年时间。
Very much a build-it-and-they-will-come venture, the 1,666.7-foot tower was erected in one of the city’s least built-up areas, Xinyi District, as a symbol of a modern and ambitious Taiwan.	在建立之初, 这座1666.7英尺(约合508米)高的大楼可以说就是一种冒险, 赌的是建好了就会有人来参观。它建在台北建筑密度最低之一的信义区, 是雄心勃勃的现代台湾的一个象征。
Thirteen years later, Xinyi is Taipei’s center for finance, business, offices and shopping. And in a sign that Taipei 101 has accomplished its mission of attraction, other skyscrapers are finally rising next door, altering the skyline of an otherwise surprisingly low-rise city.	13年后, 信义区已是台北的金融、商业、办公和购物中心。有迹象表明, 台北101完成了吸引入气的任务, 它的周边终于开始矗立起更多摩天大楼, 由此改变了这个楼层奇低的城市的天际线。

<p>The first of the new buildings, the 48-story, 892-foot Nan Shan Plaza, is scheduled for completion at the end of this year. Already topped out, the high-rise, and its neighbors to come, will stand roughly half the height of Taipei 101, which will remain the district's dominant edifice for the foreseeable future.</p>	<p>最先出现的新大楼是预计将于今年底完工的南山广场，它高 892 英尺（约合 272 米），有 48 层。这座已经封顶的建筑及其周围即将拔地而起的大厦，只有台北 101 一半高。在可预见的未来，台北 101 依然是信义区最宏伟的大楼。</p>
<p>The project takes its name from Nan Shan Life Insurance. Nan Shan won rights to a 50-year lease of the former site of Taipei World Trade Center's Hall 2 with an \$894 million bid. To date, Nan Shan has spent more than \$1.6 billion on the project, the company said.</p>	<p>南山广场的名字取自南山人寿保险公司。此前，南山以 8.94 亿美元的价格竞标成功，获得了这片之前为台北世贸二馆的地块 50 年的租赁权。南山公司表示，迄今为止南山已经在这个项目上投入了 16 亿美元。</p>
<p>"Xinyi" is a Chinese word roughly analogous to "good faith," which shaped the project's design goal of expressing thanks to Taiwan. The main building, an elongated triangle, is intended to represent two hands pressed together as a gesture of thanks and prayer for Taiwan's continued good fortune, said the project's architect, Yasuhiro Sube, of the Tokyo-based Mitsubishi Jisho Sekkei.</p>	<p>"信义"在中文里的意思接近"good faith"（真诚），该建筑向台湾表达谢意的设计目标由此而来。该项目的建筑师、来自东京三菱地所设计公司的须部恭浩(Yasuhiro Sube)表示，主建筑是细长三角形，象征着双手合十，表达谢意和为台湾祈福。</p>
<p>Mr. Sube said he also had chess pieces in mind as he drew up the building, with Taipei 101 as king and Nan Shan Plaza as queen.</p>	<p>须部恭浩还提到，在设计这座建筑时，他也想到了国际象棋棋子，台北 101 是王，南山广场则是王后。</p>
<p>"The biggest challenge was already having Taipei 101 next door — if we were going to build its queen, then we would have to harmonize our design to do so," Mr. Sube said. "Additionally there was the concept of giving thanks, which required us to consider how to use the external form of the building to convey this."</p>	<p>"最大的挑战是旁边已经有台北 101 了——如果我们要建与之相配的大楼，必须让二者相协调，"须部恭浩说。"此外还要有表示感谢的含义，我们就需要考虑如何用建筑的外部形态传达出这种含义。"</p>
<p>At street level, Nan Shan Plaza complements its surroundings. It bookends the pedestrian- and bike-friendly retail zone stretching between it and Taipei 101, which, just a stone's throw to its west, has its</p>	<p>就街道层面而言，南山广场与周边环境形成了很好的互补。这栋大楼挡在它和台北 101 之间那片对行人和自行车友善的零售区的一侧。西面近在咫尺的台北 101 自带繁荣的购物中心，台湾第一家苹果商店就在那里。北边一个街</p>

A block north is the Taipei City Hall subway station, which is dominated by the Breeze Songgao and Shin Kong Mitsukoshi mall complexes, brimming with global and domestic restaurants and lifestyle brands.</p>	<p>区远的地方是台北市政厅地铁站，那里主要有微风松高和新光三越两个大商场，里面满是全球和本地的餐厅与生活方式品牌店。</p>
<p>Given Nan Shan Plaza's prime location, rents inside are not cheap by Taipei standards, but remain a fraction of the cost of prime office space in Shanghai, Singapore or Hong Kong. Depending on the floor and view, rent can run between \$3.50 and \$4.20 per square foot. Rather than work with an agent, Nan Shan Life is handling rentals itself.</p>	<p>考虑到南山广场的重要位置，里面的租金以台北的标准衡量是不会低的，但依然远低于上海、新加坡或香港重要写字楼的租金。依据楼层和景观的不同，南山广场的租金可能会在每平方英尺 3.5-4.2 美元之间。南山人寿没有聘请中介公司，而是自己处理租赁事务。</p>
<p>"We believe the office building is best suited for national or regional headquarters," said Jason Chen, assistant vice president of Nan Shan's real estate department. "We're currently in talks with several financial institutions, I.T. companies and global professional services companies."</p>	<p>"我们觉得这座写字楼最适合公司设立全国或区域总部，"南山人寿房地产部门的助理副总裁陈志成(Jason Chen)说。"我们正在与几家金融机构、IT 公司和全球职业服务公司展开商谈。"</p>
<p>Mr. Chen and his colleagues are tasked with filling Nan Shan Plaza's 570,000 square feet of commercial space, including a mall at its base and a dining area on the 46th through 48th floors. There is also 1.13 million square feet of office space between the sixth and 43rd floors. Tenants will begin moving in during the third quarter of 2018, he said.</p>	<p>陈志成和他的同事背负着将南山广场 57 万平方英尺（约合 5.3 万平方米）的商用空间出租出去的任务，其中包括底部的购物中心和 46-48 层的用餐区。在 6 层和 43 层之间，还有 113 万平方英尺（约合 10.5 万平方米）的办公空间。他表示，租户会在 2018 年第三季度陆续入驻。</p>
<p>Andrew Huang, associate director at the Taipei office of the real estate consultancy Knight Frank, which is not involved in leasing at Nan Shan Plaza, said Xinyi should benefit from the new supply of office space.</p>	<p>房地产顾问公司莱坊(Knight Frank)驻台北办事处副总监安德鲁·黄(Andrew Huang)表示，信义区将会受益于这些新涌现的办公空间。莱坊与南山广场的出租业务没有关联。</p>
<p>"Many people are concerned that there will be an oversupply problem, due to the addition of so much new supply, including a million square feet of office space," Mr. Huang said. "But Nan Shan has been preleasing since last year, and their rental prices are not as high as we'd expected."</p>	<p>"考虑到出来这么多新的办公空间，许多人担心会出现供应过剩的问题，"安德鲁·黄说。"但南山从去年就开始预售，他们的租金并没有我们预想的那么高。"</p>

<p>The Nan Shan team's initial success in signing the Executive Centre, a serviced office provider, and an international accountancy would help attract more tenants, he added.</p>	<p>他还表示，南山的团队获得了初步成功，签下了服务式办公室供应商执行中心(Executive Centre)以及一个国际会计师事务所，这有助于吸引更多的租户。</p>
<p>If all goes well, the next addition to the Xinyi skyline will be the 51-story, 919-foot Taipei Sky Tower just north of Nan Shan Plaza, and the 52-story, 873.8-foot Fubon Group Xinyi Headquarters to its northeast.</p>	<p>如果一切顺利，接下来，信义的天际线边还会出现一座 51 层的台北天空大厦，它就在南山广场的北边，高 919 英尺（约合 280 米），广场东北边则会出现一座 52 层的富邦信义总部，高 873.8 英尺（约合 266 米）。</p>
<p>The Taipei Sky Tower, designed by Antonio Citterio Patricia Viel, is planned for completion in 2020. The project, developed by the Taipei-based real estate private equity investment company Riant Capital Limited, will feature two hotels, both of which are expected to be international brands.</p>	<p>由 Antonio Citterio Patricia Viel 设计的台北天空大厦计划将于 2020 年竣工。这个项目是由台北房地产私募股权投资企业英属维京群岛商子乐投资股份有限公司(Riant Capital Limited)开发的，将有两家酒店入驻，预计都是国际酒店品牌。</p>
<p>The Fubon Group Xinyi Headquarters design is a collaboration by the Renzo Piano Building Workshop — the firm behind The New York Times Building and the Whitney Museum in New York, and the Shard in London — and the Taiwanese architect Kris Yao's firm, Kris Yao Artech, which designed the Southern Branch of Taiwan's National Palace Museum. The building's namesake is a prominent financial services group that also owns one of the country's four pro baseball teams, the Fubon Guardians.</p>	<p>富邦信义总部是由伦佐·皮亚诺建筑工作坊(Renzo Piano Building Workshop)以及台湾建筑师姚仁喜(Kris Yao)的公司大元建筑工场(Kris Yao Artech)联合设计的，前者设计过纽约时报大厦、纽约惠特尼博物馆(Whitney Museum)以及伦敦碎片大厦(Shard)，后者设计了台湾故宫博物馆的南部院区。该大厦的名字来自于一个著名的金融服务集团，它还拥有该国四个职业棒球队之一富邦悍将棒球队(Fubon Guardians)。</p>
<p>The arrival of Taipei Sky Tower and Fubon Xinyi Headquarters is unlikely to hurt the office space market, Mr. Huang said. Fubon, for instance, is moving many of its operations from older buildings in nearby Neihu District.</p>	<p>安德鲁·黄说，台北天空大厦和富邦信义总部的修建不太可能对办公楼市场产生危害。例如，富邦正在把很多业务从附近内湖区的旧楼搬到这里来。</p>

A Surge in Sales to Foreign Buyers	美房产市场海外买家激增，中国人是主力
The United States home market saw a surge of foreign buyers in the last year, according to a new survey by the National Association of Realtors.	据全美房地产经纪人协会(National Association of Realtors)所做的一项新调查显示，去年，美国本土市场见证了外国买家的激增。
From April 2016 to March 2017, foreign buyers, both United States residents and nonresidents, spent \$153 billion on residential real estate here, a 49 percent increase over the same period a year earlier. (These purchases made up about 10 percent of the total spent on existing homes, compared with 7 percent the previous year.)	2016 年 4 月至 2017 年 3 月，外国买家，包括美国居民和非居民，在购买美国的住宅房地产上支出了 1530 亿美元（约合 1 万亿元人民币），同比增加 49%。（这些交易大约占现有房屋成交总额的 10%，前一年这个比例是 7%。）
The majority of sales to foreign buyers took place in five states: Florida, California and Texas accounted for 46 percent of the total, with New Jersey and Arizona following at 4 percent each.	买方为外国人的交易大部分发生在五个州：佛罗里达、加利福尼亚和德克萨斯占总成交额的 46%，新泽西和亚利桑那各占 4%。
Chinese buyers spent the most — \$31.7 billion — up from \$27.3 billion the previous year. But the greatest increase in spending was by Canadians, who bought \$19 billion worth of United States real estate, more than twice the \$8.9 billion they spent a year earlier. Buyers from the United Kingdom, Mexico and India also ranked among the biggest spenders, both this year and last.	中国买家支出最多，从前一年的 273 亿美元增加到了 317 亿美元。但支出增长最大的是加拿大人，他们购买了价值 190 亿美元的美国房地产，是一年前的 89 亿美元的两倍多。继去年之后，来自英国、墨西哥和印度的买家今年连续位居购买大户之列。

Chimpanzees in Liberia, Used in New York Blood Center Research, Face Uncertain Future	实验用非洲黑猩猩遭美国研究机构抛弃

<p>After about 30 years of using a colony of chimpanzees in Liberia for biomedical research, which ended 10 years ago, the New York Blood Center has now withdrawn all funding for them, prompting animal welfare groups to urge the center to reconsider its decision.</p>	<p>在利用利比里亚的一群黑猩猩进行了大约 30 年的生物医学研究后，纽约血液中心(New York Blood Center)撤消了对它们的所有资助，促使多家动物福利团体要求该中心重新考虑其决定。该研究项目已于 10 年前终止。</p>

The cost of caring for and feeding the chimps is about \$30,000 a month.</p>	<p>"纽约血液中心遗弃了这 66 只黑猩猩，让它们听天由命，"该协会会长韦恩·帕赛尔(Wayne Pacelle)说。照料和饲养这些黑猩猩的费用为每月 3 万美元(约合 18.6 万元人民币)左右。</p>

<p>A brief statement from the center said it had withdrawn support after "a long period of unproductive discussions with the Liberian government about their responsibilities in this regard, during which time we incurred millions of dollars of costs."</p>	<p>该中心发表简短声明称，在决定撤消资助之前，"与利比里亚政府就他们在此事上的责任进行了长期的无效讨论，在此期间，我们承担了数百万美元的费用。"</p>

Ms. O'Neill said the center "never had any obligation for care for the chimps, contractual or otherwise."	奥尼尔表示, 该中心“从来都没有照料这些黑猩猩的任何责任, 无论是合同义务, 还是其他协议。”
The news site Front Page Africa first reported on the uncertain fate of the chimps last week.	新闻网站“非洲头版”(Front Page Africa)上周首先对这群黑猩猩未知的命运进行了报道。
Fatorma K. Bolay, director of the Liberian Institute for Biomedical Research in Charlesville, which cares for the chimpanzees – who live uncaged on six mangrove islands – said that the institute cannot afford to pay for their food and care.	在查尔斯维尔的利比里亚生物医学研究所(Liberian Institute for Biomedical Research)担任所长的法蒂玛·K·博莱(Fatorma K. Bolay)表示, 该机构负担不起这群黑猩猩的食物和照料费用。目前这个研究所正在照料这批自由居住在六座红树林岛上的黑猩猩。
He said the humane society has been paying for food and repairs since March 6, when funding from the blood center stopped, but that caretakers are working for free.	博莱博士称, 在血液中心停止提供资助后, 人道协会从3月6日开始承担食物及修理所需的费用, 但护理员都是在免费工作。
"Why would they walk away from the animals?" Dr. Bolay said about the blood center's funding withdrawal. "We have to find a solution to take care of these animals."	“他们为何要抛弃这些动物?”提到血液中心的撤资决定时, 博莱问道。“我们需要想出办法来照料它们。”
The history of the research center, called Vilab II, dates back to 1974, when the blood center contracted with the institute to do research primarily on the hepatitis virus, which survives in blood and posed a threat to the safety of the supply of donated blood. Around this time, the United States banned importation of chimpanzees caught in the wild.	Vilab II 研究中心的历史可以追溯到1974年。当时纽约血液中心与该所签订合同, 主要开展有关肝炎病毒的研究。这一病毒存活在血液中, 对捐献血液的供应安全造成威胁。就在那个时间点前后, 美国开始禁止引进在野外捕捉的黑猩猩。
By 2005, the blood center had stopped research on the chimps and started trying to make arrangements for their long-term care. A 2014 Vice documentary, Island of the Apes, chronicled the history of the lab and the islands on which the chimps now live.	到2005年, 血液中心停止了有关这群黑猩猩的研究, 开始尝试安排长期照料它们的事宜。Vice 媒体公司2014年推出的纪录片《黑猩猩之岛》(Island of the Apes)记录了这座实验室及黑猩猩目前所居住的岛屿的发展历史。

Prince, director of the Vilab II project for the blood center, wrote an article in the American Society of Primatologists Bulletin in December 2005, seeking a foundation to take over care of the chimps. Dr. Prince wrote that the blood center “recognizes its responsibility to provide an endowment to fund the Sanctuary for the lifetime care of the chimpanzees.”</p>	<p>承诺。血液中心的 Vilab II 项目负责人阿尔弗雷德·M·普林斯(Alfred M Prince)于 2005 年 12 月在《美国灵长目动物学家协会通报》(American Society of Primatologists Bulletin)发表文章，寻找基金会来接管照料黑猩猩的工作。普林斯写道，血液中心“承认有责任提供资金来维持为黑猩猩提供终身照料的保护区。”</p>
<p>But Ms. O’Neill said in an email that this was Dr. Prince’s opinion and was “not authorized or approved” by the blood center. She added that the center “did not ever establish any endowment for animal care, chimpanzees included.”</p>	<p>不过，奥尼尔在邮件中表示，这是普林斯个人的观点，“未经”血液中心的“授权或认可”。她还表示，中心“从未设立照料动物的专项资金，黑猩猩也不例外”。</p>
<p>In 2007, the blood center withdrew its staff from the institute in Liberia, but continued to support the chimpanzees. In January, Dr. Bolay said the blood center informed the institute that March 5 would be the last day of support. Previous negotiations about the chimps’ future had broken down, Dr. Bolay said.</p>	<p>2007 年，纽约血液中心撤出了派驻利比里亚这座研究所的工作人员，但继续为黑猩猩提供资金。博莱在今年 1 月表示，血液中心告知研究所，3 月 5 日将是他们提供资助的最后一天。博莱称，之前有关这群黑猩猩未来命运的谈判以破裂告终。</p>
<p>The humane society hired Agnes Souchal, general manager of the Sanaga-Yong Chimpanzee Rescue Center in Cameroon, to assess the state of the chimpanzees. Zika Outbreak Could Be an Omen of the Global Warming Threat	兹卡病毒大流行拉响全球变暖的警报
The global public health emergency involving deformed babies emerged in 2015, the hottest year in the historical record, with an outbreak in Brazil of a disease transmitted by heat-loving mosquitoes. Can that be a coincidence?	2015 年, 全球出现了涉及婴儿畸形的公共卫生紧急情况。这一年也是有历史记录以来最热的一年。这种由喜热的蚊子所传播的疾病在巴西爆发, 是否可能只是巧合?
Scientists say it will take them years to figure that out, and pointed to other factors that may have played a larger role in starting the crisis. But these same experts added that the Zika epidemic, as well as the related spread of a disease called dengue that is sickening as many as 100 million people a year and killing thousands, should be interpreted as warnings.	科学家称, 要确定是否属于巧合需要进行多年的研究。他们指出这次危机可能另有原因。但是, 这些专家还补充说, 兹卡的疫情以及与之相关的登革热的传播应该被视为一种警告。后者一年最多能感染 1 亿人, 并造成数以千计的人们死亡。
Over the coming decades, global warming is likely to increase the range and speed the life cycle of the particular mosquitoes carrying these viruses, encouraging their spread deeper into temperate countries like the United States.	在未来几十年, 全球变暖可能造成那些携带这些病毒的特殊种类的蚊子的活动范围扩大和生命周期加快, 进而促使这些疫病向美国等温带国家扩展。

<p>Recent research suggests that under a worst-case scenario, involving continued high global emissions coupled with fast population growth, the number of people exposed to the principal mosquito could more than double, to as many as 8 billion or 9 billion by late this century from roughly 4 billion today.</p>	<p>近期的研究表明，最糟糕的一种情况是，随着全球温室气体的大量排放和人口的高速增长，有可能接触这种蚊子的人口将翻番，目前是 40 亿左右，到本世纪末将多达 80 亿或 90 亿。</p>
<p>“As we get continued warming, it’s going to become more difficult to control mosquitoes,” said Andrew Monaghan, who is studying the interaction of climate and health at the National Center for Atmospheric Research in Boulder, Colo. “The warmer it is, the faster they can develop from egg to adult, and the faster they can incubate viruses.”</p>	<p>“随着全球变暖，控制蚊子将越来越困难。”安德鲁·莫纳甘(Andrew Monaghan)说。安德鲁在科罗拉多州博尔德的美国国家大气研究中心(National Center for Atmospheric Research)研究气候与健康的关系。“天气越热，蚊子从孵化到成年的速度就越快，病毒繁殖的速度也就越快。”</p>
<p>Already, climate change is suspected — though not proven — to have been a factor in a string of disease outbreaks afflicting both people and animals. These include the spread of malaria into the highlands of eastern Africa, the rising incidence of Lyme disease in North America, and the spread of a serious livestock ailment called bluetongue into parts of Europe that were once too cold for it to thrive.</p>	<p>人们怀疑，气候变化是人畜感染一系列疾病的一个原因，尽管这一点尚未得到证实。这些疾病包括东非高原地区的疟疾，北美莱姆病的发病率升高，欧洲部分地区的牲畜出现的严重的蓝舌病疫情，那些地区之前因为太冷，很少出现这些疾病。</p>
<p>In interviews, experts noted that no epidemic was ever the result of a single variable.</p>	<p>在访谈中，专家指出没有任何一种传染病是仅由一个变量引起的。</p>
<p>Instead, epidemics always involve interactions among genes, ecology, climate and human behavior, presenting profound difficulties for scientists trying to tease apart the contributing factors. “The complexity is enormous,” said Walter J. Tabachnick, a professor with the Florida Medical Entomology Laboratory, a unit of the University of Florida in Vero Beach.</p>	<p>相反，传染病常常涉及基因、生态、气候、人类行为等多种因素的互动，所以科学家很难把单个因素分离出来。“原因极为复杂。”佛罗里达大学(University of Florida)位于维罗比奇(Vero Beach)的佛罗里达医学昆虫学实验室的教授瓦尔特·塔巴奇尼克(Walter J. Tabachnick)说。</p>

<p>The epidemics of Zika and dengue are cases in point. The viruses are being transmitted largely by the yellow fever mosquito, <i>Aedes aegypti</i>. That creature adapted long ago to live in human settlements, and developed a concomitant taste for human blood.</p>	<p>兹卡和登革热就是典型的例子。这些病毒主要是由感染黄热病的伊蚊传播。这种生物早已适应了人类聚居地生存，并因此喜好人类的血液。</p>
<p>Cities in the tropics, the climate zone most favorable to the mosquito, have undergone explosive growth: Humanity passed a milestone a few years ago when more than half the population had moved to urban areas. But spending on health care and on basic public health infrastructure, like water pipes and sewers, has not kept pace. Mosquito control has also faltered in recent decades.</p>	<p>热带是最适合蚊子生存的气候带，而那里的城市正在经历迅猛的增长：几年前人类就跨过了一个里程碑：一半以上的人口已迁居到城市地区。但是公共医疗和公共卫生基础设施的投入，比如水管和下水设施，仍是滞后的。近几十年对蚊子的控制也出现了放松。</p>
<p>The mosquito lays its eggs in containers of water, of a sort that are especially common in the huge slums of Latin American cities. With unreliable access to piped water, people there store water in rooftop cisterns, buckets and the like. Old tires and other debris can also become mosquito habitat.</p>	<p>蚊子在盛水的容器中产卵，这种容器在拉丁美洲城市的大型贫民窟中尤其常见。由于没有可靠的管道用水，那里的人们会把水存放在屋顶的水箱、水桶和类似的容器中。旧轮胎和其他垃圾也可能成为蚊子的栖息地。</p>
<p>Water storage near homes is commonplace in areas where Zika has spread rapidly, like the cities of Recife and Salvador in northeastern Brazil, and where dengue experienced a surge in 2015, like São Paulo, Brazil's largest state.</p>	<p>在兹卡病毒迅速传播的区域，比如巴西东北部城市累西腓和萨尔瓦多，以及2015年出现登革热病例激增的巴西最大州圣保罗，都有在民宅附近存水的习惯。</p>
<p>Altogether, dengue killed at least 839 people in Brazil in 2015, a 40 percent increase from the previous year. Worldwide, dengue is killing more than 20,000 people a year.</p>	<p>2015年，巴西共有至少839人死于登革热，比上一年增加40%。而全世界一年有超过2万人死于登革热。多名专家在访谈中称，疾病爆发的一个主要原因很可能是城市化、人口增长和跨国旅行造成受风险人口增加。他们认为气候变化只是压垮骆驼的最后一根稻草。</p>
<p>Several experts said in interviews that a main reason for the disease outbreaks was most likely the expansion of the number of people at</p>	<p>多名专家在采访中称，疾病爆发的一个主要原因很可能是随着城市化、人口增长和跨国旅行，面临风险的人群扩大了。他们认为在已经有重重危险的局</p>

<p>While they do not understand to what degree rising temperatures and other weather shifts may have contributed to the outbreaks, they do understand some of the potential mechanisms.</p>	<p>虽然他们并不知道气温升高和其他气候变化因素，对疫情爆发的作用有多大，但是他们明白其中一些潜在的机制。</p>
<p>The mosquitoes mostly live on flower nectar, but the female of the species needs a meal of human blood to have enough protein to lay her eggs. If she bites a person infected with dengue, Zika or any of several other diseases, she picks up the virus.</p>	<p>蚊子大多以花蜜为生，但是雌性蚊子为了产卵，需要吸人血来提供充足的蛋白质。如果它叮了已感染登革热、兹卡或其他几种病的人，它就携带了该种病毒。</p>
<p>The virus has to reproduce in the mosquito for a certain period before it can be transmitted to another person in a subsequent bite. The higher the air temperature, the shorter that incubation period. Moreover, up to a point, higher temperatures cause the mosquitoes to mature faster.</p>	<p>病毒需要在蚊子的体内繁殖一段时间，才能在下一次叮咬时传播给他人。温度越高，病毒繁殖所需的时间就越短。而且在某个限度以内，温度越高，蚊子的成熟就越快。</p>
<p>With rising temperatures, "You're actually speeding up the whole reproductive cycle of the mosquitoes," said Charles B. Beard, who heads a unit in Fort Collins, Colo., studying insect-borne diseases for the Centers for Disease Control and Prevention in Atlanta. "You get larger populations, with more generations of mosquitoes, in a warmer, wetter climate. You have this kind of amplification of the risk."</p>	<p>温度上升"实际上会加速蚊子的整个繁殖周期，"查尔斯·B·彼尔德(Charles B. Beard)说，"人口增加了，在更潮湿、更炎热的气候里，存活的蚊子世代也增多了，这就放大了风险。"彼尔德领导着一个位于科罗拉多州科林斯堡的团队，为亚特兰大的疾病控制与预防中心(Centers for Disease Control and Prevention in Atlanta)进行昆虫传播疾病研究。</p>
<p>In principle, the risk from continued global warming applies not just to temperate countries, but to cities at high altitude in tropical countries. Researchers are keeping a close eye on Mexico City, for instance.</p>	<p>理论上，全球持续变暖所带来的风险，不仅涉及温带国家，还涉及热带国家的高海拔城市。比如，研究人员正在密切关注墨西哥城。</p>

But temperatures are rising, and the mosquitoes have recently been detected in low numbers near Mexico City.	但是随着气温的升高，墨西哥城附近最近发现了少量的蚊子。
"The mosquito is just down the hill, literally," Dr. Monaghan said. "I think all the potential is there to have virus transmission if climatic conditions become a bit more suitable."	"蚊子已经来到山脚下了，"莫纳甘博士说。"我觉得只要气候条件再合适一点，病毒就有可能开始传播。"

Do Earthquakes in Japan and Ecuador Signal an Epidemic? Scientists Say No	一天两场大地震，这预示着什么？
Earthquakes of magnitudes exceeding 7.0 struck Japan and Ecuador just hours apart on Saturday. Are the two somehow related?	星期六，超过七级的大地震先后袭击日本与厄瓜多尔，相隔仅几个小时。这两场地震之间有关联吗？
No. The two quakes occurred about 9,000 miles apart. That's far too distant for there to be any connection between them.	没有。两场地震的发生地相隔约9000英里（约合1.5万公里）。这个距离太遥远了，之间不可能产生任何关联。
Large earthquakes can, and usually do, lead to more quakes — but only in the same region, along or near the same fault. These are called aftershocks. Sometimes a large quake can be linked to a smaller quake that occurred earlier, called a foreshock. In the case of the Japanese quake, seismologists believe that several magnitude-6 quakes in the same region on the previous day were foreshocks to the Saturday event.	大型地震有可能也通常会引发更多地震，但只是在同一个区域，沿着同一断层，或是在同一断层附近。这叫做“余震”。有时候大地震和较早的小型地震有关，这些小地震被称为“前震”。在这次日本地震中，地震学家认为，同一地区在周六地震之前的几天，发生了几次震级为六级的前震。
But the two earthquakes are similar in some ways, aren't they?	但是两场地震在某些方面非常相像，对不对？
Not really. The magnitude-7.8 quake in Ecuador was what would be considered a classic megathrust event, a type that was first identified	两者并不像。厄瓜多尔的地震是7.8级，可被视为典型的“大型逆冲区”(megathrust)地震，这种地震最早是美国地质调查局(United States

<p>through the work of George Plafker, a United States Geological Survey geologist, on the great Alaskan earthquake of 1964. A megathrust quake occurs in the boundary zone where one of the planet's tectonic plates is sliding under another, a process called subduction.</p>	<p>Geological Survey)的地质学者乔治·普拉夫克(George Plafker)在研究 1964 年的阿拉斯加大地震期间发现的。大型逆冲区地震发生在地壳构造的边缘地带，在这里，地球的一个地壳板块下降到另一个板块之下，这种过程在地质上称为“潜没”(subduction)。</p>
<p>In the case of the Ecuadorean quake, the Nazca, a heavy oceanic plate, is sliding under the South American, a lighter continental plate, at a rate of about two inches a year. Strain builds up at the boundary, which is then released suddenly in the form of an earthquake. Because the boundary area is usually large, megathrust quakes are the most powerful and include the two strongest quakes ever measured by instruments: the magnitude-9.2 1964 Alaskan quake and one in coastal Chile in 1960 of magnitude 9.5.</p>	<p>厄瓜多尔地震的情况是这样的，沉重的大洋板块纳斯卡(Nazca)正在以每年两英寸（约为 5 厘米）的速度，滑向较轻的大陆板块南美板块之下。因此板块边界便逐渐积聚起张力，并突然以地震的形式释放出来。因为板块边缘地带一般范围很大，大型逆冲区地震通常都很强烈，迄今仪器测到的两场最大地震都是这种类型的地震，一场是 1964 年 9.2 级的阿拉斯加地震，另一场是 1960 年 9.5 级的智利海岸大地震。</p>
<p>Although there have been plenty of megathrust earthquakes in Japan — including the 2011 Tohoku quake, which led to the Fukushima nuclear disaster — the earthquake on Saturday on the island of Kyushu in southwest Japan was not the megathrust type. Rather, according to the geological survey, the earthquake occurred at shallow depth along a different kind of fault — called a strike-slip — in the top of the Eurasia plate, above any subduction zone.</p>	<p>尽管日本也发生过多次大型逆冲区地震——其中就包括 2011 年导致了福岛核事故的日本东北大地震——但周六在日本西南部九州岛发生的地震却不是这种类型。根据地质勘测，这场地震不在任何潜没区内，而是发生在欧亚板块之上另一种较浅的断层，称为“走向滑动断层”(strike-slip)。</p>
<p>O.K., but two 7.0-plus quakes in the same day — does that mean earthquake activity is increasing?</p>	<p>好吧，不过同一天发生两场七级以上的地震，这是不是意味着地震在增加呢？</p>
<p>No. The geological survey, which monitors earthquakes around the world, says the average number of quakes per year is remarkably consistent. For earthquakes between magnitude 7.0 and 7.9, there have been some years with more than 20 and others with fewer than 10, but</p>	<p>不是。监控全球所有地震的地理勘测表明，每年地震的平均数字是相当稳定的。在某些年份，全年会发生 20 多起震级在 7.0 至 7.9 之间的地震，在某些年份，这样规模的地震不到 10 起，但根据这项勘测，平均数是每年 15 起。这意味着，平均每个月都会有一场以上这样的地震，所以两场地震是有可能</p>

<p>the average, according to the survey, is about 15. That means that there is more than one per month, on average, and by chance, sometimes two quakes occur on the same day. (Also by chance, the world sometimes goes a month or longer without a 7.0-plus quake, as it did between July 27 and Sept. 16 last year.)</p>	<p>在同一天发生的（偶尔，也会有一个月乃至更长的时间里，地球上完全没有7.0级以上的地震，比如去年的7月27日至9月16日）。</p>
<p>Sometimes it seems that earthquakes are increasing in frequency because, as instrumentation improves and more people occupy more parts of the world, more quakes make the news. The two earthquakes on Saturday both occurred in heavily populated areas with media and communication networks, so word got out quickly and easily. If one had occurred in the middle of the ocean, few people would have noticed.</p>	<p>有时候，地震的频率似乎在增加，这是因为随着探测工具的进步，以及人们在世界的各个角落定居，地震日益成为新闻。周六的两场地震都发生在人口密集、拥有媒体和通讯网络的地区，所以消息传播起来就格外容易和快捷。如果地震发生在大洋之中，就不会有什么人注意到。</p>

<p>There was Popeye, adopted by sailors at an Ecuadorean naval base. There was Lonesome George, last of his line, who spent years shunning the females with whom he shared a pen.</p>	<p>已经去世的一只是被厄瓜多尔某海军基地的水手收养过的卜派(Popeye)。另一只叫孤独乔治(Lonesome George)，是其所属亚种最后的血脉，曾在很多年时间里躲避跟自己同住一个屋檐下的雌性象龟。</p>
<p>And there is Diego, an ancient male who is quite the opposite of George.</p>	<p>活着的有迭戈(Diego)，一只与乔治截然相反的年长雄性象龟。</p>

<p>Then came Diego, returned to the Galápagos in 1977 from the San Diego Zoo.</p>	<p>然后迭戈横空出世，于 1977 年从圣地亚哥动物园(San Diego Zoo)重返加拉帕戈斯。</p>
<p>“He’ll keep reproducing until death,” said Freddy Villalva, who watches over Diego and many of his descendants at a breeding center at this research facility, situated on a rocky volcanic shoreline. The tortoises typically live more than 100 years.</p>	<p>“他会一直繁衍后代，直到死亡来临，”在这个研究站的一个繁殖中心里看顾迭戈及其很多后代的弗雷迪·维拉尔瓦(Freddy Villalva)说。研究站位于布满岩石的火山海岸线上。这些象龟通常能活到 100 多岁。</p>
<p>The tales of Diego and George demonstrate just how much the Galápagos — a province of Ecuador — have served as the world’s laboratory of evolution. So often here, the fate of an entire species, evolved over millions of years, can hinge on whether just one or two individual animals survive from one day to the next.</p>	<p>迭戈和乔治的故事表明，加拉帕戈斯虽然只是厄瓜多尔的一个省份，却在很大程度上充当着全世界的进化实验室。这里常常出现的情况是：某个经过千百万年进化而来的物种的命运，全然取决于一两只动物能否日复一日地活下去。</p>
<p>Diego, and his offspring, are part of one of the most high-profile efforts to keep Galápagos tortoise populations thriving. The tortoise, estimated to be perhaps a century old, is one of the main drivers of a remarkable recovery of the hoodensis species — now more than 1,000 strong on their native island of Española, one of the dozen Galápagos islands.</p>	<p>迭戈及其后代，是旨在让加拉帕戈斯象龟族群欣欣向荣的一项备受瞩目的努力的组成部分。这只象龟据估计可能已有百岁高龄，是其所属象龟亚种实现不可思议的复兴的主要驱动力之一——目前，超过 1000 只加拉帕戈斯象龟在其原生栖息地艾斯潘诺拉岛上茁壮生长着。艾斯潘诺拉岛和其他十几个岛屿一起构成了加拉帕戈斯群岛。</p>
<p>His story stands in contrast to Lonesome George, who was perhaps the most famous Galápagos resident when he died in 2012, at about 100 years old. His species, <i>Chelonoidis abingdonii</i>, now lives only on T-shirts and postcards because George, found in 1971 by a snail biologist on the island of Pinta, never produced any offspring in captivity.</p>	<p>迭戈的故事与孤独乔治的故事形成了鲜明的对比。年纪约为 100 岁的孤独乔治在 2012 年死去时，可能是加拉帕戈斯最有名的居民。他所属的亚种——平塔岛象龟，目前只存在于 T 恤衫和明信片上，因为被一名研究蜗牛的生物学家于 1971 年在平塔岛上发现的乔治，被圈养后从未繁殖过任何后代。</p>
<p>An estimated 11 of about 115 known animal species have gone extinct</p>	<p>据估计，自从科学家开始建立关于加拉帕戈斯的记录以来，约 115 个已知动</p>

<p>since scientists began keeping records on the Galápagos. But the establishment of a national park, and the efforts of scientists, mean that extinctions are now a rarity. Which is why the death of George was such a blow.</p>	<p>物种当中有 11 个已经灭绝。但由于当局开办了一个国家公园，科学家们也在进行种种努力，现如今，物种灭绝已鲜有发生。正因为如此，乔治之死才会成为非常沉重的打击。</p>
<p>Scientists did all they could to coax more abingdonii out of George and his mates. Only when George had died did an autopsy reveal it wasn't lack of potency that impeded his reproduction, but a more anatomical ailment affecting his reproductive organ.</p>	<p>科学家曾竭尽所能地撮合乔治和他的交配对象，想让他们繁殖出更多平塔岛象龟。但直到乔治死去时，人们通过尸体解剖才发现，妨碍其繁衍后代的并不是活力的匮乏，而是让其生殖器官受到影响的一种与身体结构更为相关的疾病。</p>
<p>"We don't like to talk about it," said James P. Gibbs, a professor of vertebrate conservation biology at the State University of New York College of Environmental Science and Forestry in Syracuse, and one of the world's experts on the tortoises, only half joking.</p>	<p>"我们不愿意谈论这个，"纽约州立大学环境科学与林业科学学院(State University of New York College of Environmental Science and Forestry in Syracuse)脊椎动物保育生物学教授、象龟研究权威詹姆斯·P·吉布斯 (James P. Gibbs)半开玩笑地说。</p>
<p>Dr. Gibbs had returned to the Galápagos that week from upstate New York to bring the stuffed remains of George and several expensive air-conditioning units and UV filters that would preserve the reptile in perpetuity in a mausoleum of sorts on one of the islands.</p>	<p>那一周，吉布斯从纽约州北部返回加拉帕戈斯，带回了乔治已被制成标本的遗骸，还有好几台昂贵的空调机组和紫外线滤波器，可以用来在其中一座岛屿上建造一个类似陵墓的地方，将这只爬行动物永久地保存起来。</p>
<p>Both George and Diego had shells much smaller than many other species, and long necks to reach the few cactuses growing on their wind-swept island. In a way, those small shells were a curse on both their houses: Abingdonii and hoodensis were easy prey for the buccaneers and whalers who poured onto their islands in previous centuries and saw only defenseless, slow-moving meals that could easily be carted away.</p>	<p>乔治和迭戈都有比其他许多亚种小得多的龟壳，还有长长的脖子，可以触及它们所在狂风肆虐的岛屿上生长的为数不多的仙人掌。从某种程度上讲，这种小龟壳对这两个亚种而言都是一种诅咒：平塔岛象龟和艾斯潘诺拉岛象龟很容易被海盗和捕鲸人捕获，这些人在前几个世纪大批来到它们所在的岛屿，结果只看到这种没有防御能力、行动缓慢而且可以轻松运走的“食物”。</p>
<p>Nor did it help that the giant tortoises of the Galápagos can survive for up to a year in the hull of a ship, meaning they provided a near-endless</p>	<p>加拉帕戈斯的巨型象龟可以在船舱中存活一年，这种能力也没起到好作用，因为这意味着把它们成百上千地叠放在船只的甲板下，就可以获得几乎取之</p>

supply of fresh meat as they were stacked below decks by the hundreds. They were even tossed overboard when a ship needed to lose ballast for a quick getaway.	不尽的鲜肉供应。而当一艘船需要减轻重量好迅速溜走时，这些陆龟又会被抛下船。
Among those who dined on giant tortoise flesh: Charles Darwin.	食用过这种巨型象龟肉的人包括：查尔斯·达尔文(Charles Darwin)。
"We lived entirely on tortoise meat, the breastplate roasted ... with flesh on it, is very good; and the young tortoises make excellent soup," Darwin wrote in 1839, near the peak of the tortoise plunder in which some 200,000 were killed or carried away from the islands.	"我们完全依靠龟来获取肉食，"把龟的腹甲在火上烤一烤.....连着肉一块，味道很不错；幼龟可以熬成美味的龟汤，"达尔文在 1839 年写道，时间接近这些象龟遭劫掠的高峰时期——当时有 20 万只象龟被杀或被带离群岛。
In the end, finches led him to the theory of evolution, not tortoises.	到最后，却是雀科鸣禽让达尔文发现了进化论，而不是象龟。
"He may have eaten his best specimens," Dr. Gibbs said.	"他或许把自己的最佳样本给吃掉了，"吉布斯说。
The recovery of Diego's hoodensis species also brings up a quandary, one that perplexed Darwin during his adventures in the Galápagos more than a century ago, when he studied the fauna.	迭戈所属的亚种艾斯潘诺拉岛象龟的复兴也带来了一种让人左右为难的窘境——当达尔文于一个多世纪之前在加拉帕戈斯探险、研究动物群时，也曾被这个问题难住。
As Diego produces more offspring, and as those he has produced reproduce with one another, the entire hoodensis species could begin to look like Diego.	随着迭戈繁殖出更多后代，随着他的后代相互交配繁殖，整个艾斯潘诺拉岛象龟亚种可能会开始长得和迭戈一样。
Evolutionary scientists call this process the bottleneck effect — when survivors' genes come to dominate the gene pool as populations rebound. It's particularly true on islands like Española, where tortoises from other lines will not breed with Diego's kin.	进化科学家称这个过程为瓶颈效应——在种群数量回升之时，幸存者的基因开始主导整个基因库。在诸如艾斯潘诺拉岛这样的岛屿上，情况尤其如此。在那里，其他亚种的象龟不会与迭戈那个亚种繁殖后代。
Tortoise experts were divided on what risk that presents for hoodensis on a recent afternoon. Dr. Gibbs called it a "dangerous zone," where little genetic diversity could mean susceptibility to a dangerous disease or changes in habitat because of climate change.	在最近的一个下午，象龟专家们就这会给艾斯潘诺拉岛象龟造成什么危险产生了分歧。吉布斯称之为"危险地带"，因为基因多样性太少可能意味着容易遭受某种危险疾病或气候变化引起的环境变化的影响。
But Linda Cayot of the Galápagos Conservancy dissented, saying island	但加拉帕戈斯自然资源管理委员会(Galápagos Conservancy)的琳达·卡约

species on the Galápagos have a long history of being decimated to just a few survivors that rebounded without incident — like a population of giant tortoises that chose to live in the caldera of a volcano. After the volcano exploded 100,000 years ago, the tortoises bounced back and returned to the caldera.	(Linda Cayot)表示异议,称加拉帕戈斯的海岛物种有着被大批毁灭至只有少数存活、之后又平安无事地实现数量回升的悠久历史——比如一群选择生活在一座火山的破火山口的巨型象龟。在这座火山于10万年前爆发之后,这些象龟的数量逐渐回升,而且返回了破火山口。
"Every species came from a bottleneck," Dr. Cayot said. "It's what happens in the Galápagos."	"每个物种都是绝处逢生,"卡约说。"在加拉帕戈斯,情况就是这样。"

Asia's Illegal Wildlife Trade Makes Tigers a Farm-to-Table Meal	亚洲老虎农场把濒危动物端上餐桌
BOKEO PROVINCE, Laos — The tiger paced back and forth in its cage, groaning mournfully. A second big cat slept soundly in the corner, while a third stared blankly at the bars.	老挝博胶省——一只老虎在笼子里走来走去,痛苦地低吟着。另一只在角落里沉睡,还有一只无神地盯着栅栏。
Next to this cage was another containing three more tigers, and after that three more cages: a line of small pens, each holding at least one cat. Most likely, none had long to live.	旁边还有一个笼子,里面也关着三只老虎,后面还有三个笼子:一排小围栏,每个都至少关着一只老虎。它们多半都活不了多久。
The tigers were property of the Kings Romans Group, which operates a casino here, along with hotels, a shooting range, a cockfighting and bullfighting ring, a Chinatown-themed shopping center, and this shabby zoo.	这些老虎是金木棉集团(Kings Romans Group)的财产,该集团在此地经营着一家赌场、多家酒店、一个射击场、一座斗鸡和斗牛场、一个唐人街主题的购物中心,还有这个破旧的动物园。

At an international conference on the endangered species trade last fall, Laotian government officials acknowledged a growing problem with wildlife farms and committed themselves to closing down the country's tiger farms. So far, little has changed.	在去年秋天召开的一场有关濒危物种交易的国际会议上，泰国政府官员曾经承认本国的野生动物农场问题日益加重，还承诺会关掉老虎农场。截至目前，几乎没有发生任何改变。

Treaty Limits Breeding	条约限制养殖
According to the Convention on the International Trade in Endangered Species, or Cites, a treaty to which China and all Southeast Asian nations are signers, tigers are to be bred only for conservation — not for their parts, and not on a commercial scale that does not benefit wild tigers.	中国和所有东南亚国家都签署了《濒危野生动植物国际贸易公约》(Convention on the International Trade in Endangered Species, 简称 Cites)。依据该公约，各国只能进行以保护为目的的老虎养殖——而不是为获取它们的器官——而且不能以无益于野生老虎的商业化规模运营。

"Farming tigers for trade confuses consumers and stimulates demand," said Grace Ge Gabriel, Asia regional director of the International Fund for Animal Welfare.	"以贸易为目的的老虎养殖，会迷惑消费者和刺激需求，"国际爱护动物基金会(International Fund for Animal Welfare)亚洲地区总代表葛芮(Grace Ge Gabriel)说。
In 2016, Tiger Temple in Thailand made headlines when monks there were accused of abusing tigers and selling them into the illegal wildlife trade. Eventually, 40 dead cubs were discovered in a freezer, along with pelts and other wildlife products.	2016年，泰国虎庙里的僧人被指虐待老虎，并将它们拿到非法野生动物交易网络中售卖，因此成为头条新闻。最终，警方在庙内的一个冷冻柜里查出了40只死虎崽，以及虎爪等野生动物产品。
Thailand has some 1,450 tigers in captivity, the majority of which are kept at popular attractions like Tiger Temple, where tourists pay to take photographs and play with cubs and young adults.	泰国现在圈养着约1450只老虎，其中绝大多数生活在虎庙等热门景点。在那里，游客会花钱拍照，与虎崽和年轻成年虎玩耍。
When the tigers reach sexual maturity and can no longer be handled safely, they often disappear, sold on the black market for up to \$50,000, according to Karl Ammann, a Kenya-based investigative filmmaker who is making a documentary about the tiger farming industry.	据在肯尼亚生活的调查纪录片创作人卡尔·安曼(Karl Ammann)透露，当老虎达到性成熟阶段，对付起来不再安全的时候，往往就会失踪，以高达5万美元的价格在黑市上出售。安曼正在拍摄一部有关老虎农场行业的纪录片。
Conservationists also have accused tiger farms in China — two of which are supported by government investment — of illegal activity.	环保人士也指控中国的老虎农场存在非法行为——其中有两个农场获得了政府的投资。
Chinese law permits some tiger skins to be traded legally, although tiger bone has been banned since 1993. But in 2013 Banks of the Environmental Investigation Agency and her colleagues found that farms were stockpiling tiger bones to make wine and that skins from wild tigers were sold as being from captive-bred tigers.	中国法律允许一些虎皮的合法交易，但自1993年以来就禁止买卖虎骨。然而，环境调查署的班克斯及其同事在2013年发现，有农场在储备虎骨用以酿造虎酒，还有野生老虎的皮被当作圈养虎的皮在出售。

Past violators often re-enter the wildlife farming business. Construction has already begun on a zoo next door to Tiger Temple. Vuong Tien Manh, deputy director of Vietnam's Cites management authority, said in an email that Vietnam had seized a number of frozen tigers and tiger bones over the past five years, most of which were suspected to have originated from Laos.	越南城市管理局副局长王仙孟（Vuong Tien Manh，音）在一封邮件中表示，在过去五年里，越南截获了大量冷冻老虎和虎骨，他们怀疑其中大多数最早都来自老挝。
He added that Vietnam's policies did not permit commercial breeding of tigers, but the country has some 130 tigers in captivity. All tiger farms are strictly monitored, Manh said, no matter who the owners are.	他还表示，越南警方不允许进行老虎商业养殖，但这个国家圈养着约 130 只老虎。王仙孟表示，所有的虎场都受到严格的监控，不管其所有人是谁。
Bear Bile Collected	收集熊胆汁
Though tigers are the most contentious of Asia's farmed wildlife, they are by no means the only species caught up in the industry.	尽管老虎是亚洲最具争议性的被圈养野生动物，但它们绝不是被这个行业盯上的唯一一个物种。
An estimated 10,000 bears are legally kept on Chinese farms for their bile, an ingredient in traditional medicine that is collected through a tube permanently implanted in the animals' gall bladders, or through a hole in their abdomens.	据估计，中国有大约一万头熊被合法地圈养着，以供抽取胆汁，这是一种中药成分，往往通过一条永久植入动物胆囊的管子，或在熊的腹部扎一个孔来收集。
Countless other species — crocodiles, porcupines, pythons, deer and more — are also farmed throughout China and Southeast Asia.	还有无数其他物种——鳄鱼、豪猪、蟒、鹿等——也在亚洲和东南亚各国的农场里圈养着。
Some proponents, including government officials, believe that such facilities should be legal and encouraged, arguing that they relieve	包括政府官员在内，一些倡导者认为应该将这类设施列为合法并予以鼓励，称以圈养动物满足需求，可以减少捕猎野生动物的压力。

<p>Others say there is no evidence to back this assertion. "I can't think of any species in Southeast Asia that benefits from commercial captive breeding," said Chris Shepherd, the Southeast Asia regional director for Traffic, a nonprofit wildlife trade-monitoring group.</p>	<p>也有人表示，没有证据可以支持这种论断。“我想不出东南亚有哪个物种从商业圈养中受益的，”监测野生动物贸易的非营利组织 Traffic 的东南亚地区主任克里斯·谢泼德(Chris Shepherd)说。</p>

<p>"There just isn't the capacity within these countries to manage a legal trade in a watertight way," Robertson said.</p>	<p>"这些国家根本没有严格控制合法贸易的能力，"罗伯森说。</p>
<p>"Laundering" of animals as farmed that were actually caught in the wild is a frequent practice. Though modern wildlife farming emerged in the 1990s and has only grown in popularity, wild populations of farmed species have continued to plummet, Shepherd said.	谢泼德说，现代野生动物农场是在1990年代出现的，而且变得越来越流行，但被养殖的那些物种的野生种群规模却不断大幅萎缩。
Tigers are effectively extinct in Cambodia, Laos and Vietnam, while just seven to 50 remain in the wild in China.	老虎在柬埔寨、老挝和越南实际上已经绝种了，在中国也只有7至50只仍然生活在野外。
"No matter how many tigers are farmed, we still have wild tigers getting killed," he said.	"不论养殖了多少老虎，仍有野生老虎被杀害，"他说。
What Becomes of the Tigers?	老虎会迎来怎样的命运？
Heeding these arguments, Laotian government representatives attending a major Cites meeting last September announced their intention to end tiger farming in their country.	注意到这些观点以后，老挝政府的代表于去年9月参加一场Cites大会时宣布，他们有意为本国的老虎养殖画上句号。
International nongovernmental organizations are advising Laotian authorities on how to carry through with that announcement, but there has been no progress to date.	一些国际非政府组织就如何执行这一计划给老挝当局提出了建议，但此事至今还没有任何进展。
Even if the authorities move forward with shutting down the farms, what to do with the country's 700-plus captive tigers is a challenge. Euthanizing them would bring unwanted media attention, but releasing them into the wild is not an option. There's not much prey, and the tigers lack survival skills and have no fear of humans.	即便当局采取行动关闭这些农场，如何处置该国的700余只圈养老虎也是一个挑战。为其实施安乐死会招来不必要的媒体关注，但把它们放到野外也不是办法。野外没有太多猎物，而且这些老虎缺少生存技巧，也不害怕人类。

Yet keeping them is a burden; it costs thousands of dollars a year to feed a single tiger, Banks said, and tigers can live up to 20 years.	继续养着他们则会是一项沉重的负担；班克斯说，单是饲养一只老虎，一年就要花费数千美元，何况老虎的寿命可以长达 20 年。
In 2002, Vietnam faced a similar dilemma when it made bear farming and bile sales illegal. Fifteen years later, around 1,200 bears still live with their original owners.	越南在 2002 年宣布养殖熊和销售胆汁为非法行为时，面临着类似的窘境。五年后，约 1200 只熊仍和他们最初的主人生活在一起。
Many are kept in horrific conditions — in cages scarcely larger than their bodies, suffering from rampant disease and lacking adequate food and water — and their bile continues to be collected illegally.	很多熊的生存环境极为恶劣——被关在比它们的身体大不了多少的笼子里，忍受着疾病的肆虐以及食物和水的匮乏——人类还继续非法采集着它们的胆汁。
Animals Asia runs a rehabilitation center near Hanoi that houses 160 bears rescued from the trade, but the center has permission to keep only 200 animals. Even if that cap were eliminated, however, the group lacks the funds and space to care for all of Vietnam’s remaining captive bears.	亚洲动物基金会在河内附近经营着一家康复中心，里边安置着从这一行业中营救出来的 160 只熊，但该中心只获准安置 200 只动物。不过，即便数量上限被废除，这个组织也缺少用于照料越南其余所有养殖熊的资金和空间。
“Obviously, we can’t do this all ourselves,” said Tuan Bendixsen, Animals Asia’s Vietnam director. “The government must take responsibility for their wildlife.”	“显然，我们无法独自做这件事，”亚洲动物基金会越南总监团·本迪森(Tuan Bendixsen)说。“政府必须对本国的野生动物负起责任。”
As Laos ponders how to responsibly close its tiger farms, China is moving in the opposite direction. Since 1992, it has been petitioning Cites to permit trade in farmed tiger products.	在老挝考虑如何合理地关闭老虎农场之际，中国正向相反的方向迈进。自 1992 年以来，它一直请求 Cites 组织允许交易养殖老虎制品。
When Chinese representatives lobbied for this change once again at the most recent Cites meeting, the proposal was turned down.	中方代表在最近一次 Cites 会议上再次为推动这种改变而游说，但提议遭到否决。
Conservationists believe that international pressure may be crucial to persuading Asian governments to close tiger, bear and other wildlife farms, but that strategy’s effectiveness is compromised by an awkward fact: An estimated 5,000 tigers are held in backyards, petting zoos and	保育人士认为，施加国际压力或许可以推动亚洲各国政府关闭老虎、熊以及其他野生动物农场，但这种策略的效力会因一个尴尬的事实而打折扣：全美的民宅后院、宠物园乃至公路服务区里，关着约 5000 只老虎。

Too Hot to Fly? Climate Change May Take a Toll on Air Travel	航班取消了？可能是炎热天气惹的祸
In recent days, American Airlines has been forced to cancel more than 40 flights in Phoenix. The reason: With daytime highs hovering around 120 degrees, it was simply too hot for some smaller jets to take off. Hotter air is thinner air, which makes it more difficult — and sometimes impossible — for planes to generate enough lift.	最近几天，美国航空公司(American Airlines)被迫取消了菲尼克斯的 40 多个航班。原因是：白天的最高气温徘徊在 120 华氏度（约 49 摄氏度）左右，有些小型飞机因为太热无法起飞。空气越热就越稀薄，导致飞机更难——有时是不可能——产生足够的升力。
As the global climate changes, disruptions like these are likely to become more frequent, researchers say, potentially making air travel costlier and less predictable with a greater risk of injury to travelers from increased turbulence.	研究人员表示，由于全球气候变化，类似的服务中断很可能会变得更频繁，可能会使空中旅行更加昂贵，更不可预测，不断增多的颠簸会给乘客带来更大的受伤风险。
“We tend to ignore the atmosphere and just think that the plane is flying through empty space, but of course, it’s not,” said Paul D. Williams, a professor in the Department of Meteorology at the University of Reading in Britain who studies climate change and its effect on aviation. “Airplanes do not fly through a vacuum. The atmosphere is being modified by climate change.”	“我们往往忽视大气，认为飞机是在空的空间里飞行，实际情况当然不是这样的，”英国雷丁大学(University of Reading)气象学系教授保罗·D·威廉姆斯(Paul D. Williams)说。他专门研究气候变化及其对飞行的影响。“飞机不是在真空中飞行。而大气层正在被气候变化所改变。”
The problem in Phoenix primarily affected smaller jets operated by American’s regional partner airlines. “When you get in excess of 118 or higher, you’re not able to take off or land,” said Ross Feinstein, a spokesman for American Airlines, referring to the smaller aircraft.	菲尼克斯的问题主要影响了美国的区域性合作航空公司运营的小型飞机。“如果气温超过 118 华氏度，飞机就无法起飞或降落，”美国航空公司的发言人罗斯·范斯坦(Ross Feinstein)说。他指的是小型飞机。
Bigger jets like Boeing 737s and Airbus A320s have higher operating thresholds (126 and 127 degrees, respectively), he said. All three of those maximum temperatures are specific to the Phoenix airport; aircraft	他说，波音 737s 和空客 A320s 等大型飞机的运行门槛更高（分别是 126 和 127 华氏度）。这三个最高温度都是仅针对菲尼克斯机场而言的。飞机的最高运行温度取决于很多因素，包括机场海拔。

have different maximum operating temperatures depending on a variety of factors, including airport elevation.	
But even though bigger planes weren't affected, he said, American decided to give passengers on any flight to or from Phoenix the option to change their trips.	不过他说, 尽管大型飞机不受影响, 美国航空公司还是决定给予搭乘任何航班前往或离开菲尼克斯的乘客更改行程的权利。
Overall, that means more than 350 flights were potentially affected by the hot weather in Phoenix.	总体来说, 那意味着超过 350 个航班可能受到了菲尼克斯炎热天气的影响。
Robert Mann, the president of airline industry analysis firm R.W. Mann & Co., said that although airlines were working to become more efficient now, they were not doing much to prepare for the longer-term effects of climate change.	从事民航产业分析的 R·W·曼公司(R.W. Mann & Co.)的总裁罗伯特·曼(Robert Mann)表示, 虽然现在航空公司正努力提高效率, 但他们并没有为气候变化的更长期影响做很多准备。
"In a world where they're focused on near-term issues, the glacial rate of environmental change is not within their fleet-planning horizon," he said.	"他们把注意力放在较近的问题上, 环境变化的缓慢速度不在他们规划航班的视野范围内," 他说。
Feinstein of American Airlines referred questions about the effect of climate change on flying to an industry trade group, Airlines for America. The trade group provided its Earth Day statement describing its members' efforts to become more environmentally friendly by using more fuel-efficient engines and modifying planes to be more aerodynamic.	美国航空公司的范斯坦把关于气候变化对飞行影响的问题推给了行会组织美国航空运输协会(Airlines for America)。该组织展示了自己的地球日声明, 称其成员正在努力对环境更友好, 使用燃油效率更高的发动机, 并改造飞机, 使其更符合空气动力学。
Aviation is a major producer of carbon dioxide, responsible for about 2 percent of human-made emissions each year.	航空业是二氧化碳的主要制造者, 每年人为排放量的约 2%来自该行业。
Researchers are just beginning to explore how climate change affects aviation and planes' ability to fly. Because there is so little data available and so many factors at play — aircraft design, airport size and location,	研究人员刚开始探索气候变化如何影响航空业以及飞机的飞行能力。由于数据很少, 牵扯到很多因素——飞机的设计、机场大小和位置、乘客和货物的重量等——很难把任何服务中断都归因于全球变暖。

<p>the weight of passengers and cargo, to name just a few — it can be hard to attribute any one service disruption to global warming.</p>	
<p>Depending on their locations, airports may experience the effects differently. High-altitude airports like Denver have thinner air by nature, so lift is even more affected by higher temperatures.</p>	<p>由于地理位置不同，不同的机场受到的影响也可能各不相同。丹佛机场等海拔机场本身空气就比较稀薄，所以更高的温度对那里飞机起飞的影响更大。</p>
<p>La Guardia Airport in New York could also be affected, even though it is at sea level. La Guardia has a short runway relative to other major commercial airports, and on particularly hot days that can be a problem: Planes might not have enough distance to achieve the speed and lift needed to get airborne.</p>	<p>纽约的拉瓜迪亚机场(La Guardia)也可能会受到影响，尽管它的海拔几乎为零。与其他主要的商业机场相比，拉瓜迪亚机场的跑道较短，在特别炎热的日子里，那可能会是一个问题：飞机可能没有足够的距离起跑，以达到升空所需的速度和升力。</p>
<p>“Typically in the hotter days of the summer, you may have to bump payload, which includes cargo and/or passengers,” said David Wilhelm, a senior dispatch manager at Southwest Airlines. Reducing weight allows a plane to take off with less lift.</p>	<p>“通常，在夏季比较炎热的日子里，你可能必须降低载量，包括货物和/或乘客，”西南航空公司(Southwest Airlines)的高级调度经理戴维·威廉(David Wilhelm)说。减轻重量能让一架飞机以更低的升力起飞。</p>
<p>La Guardia, because of its short runway, already forces many planes to reduce their weight, regardless of the weather. A Boeing 737, for example, has to cut its maximum payload by 1,000 pounds for a successful departure. That restriction increases on hotter days, up to 15,000 pounds when the temperature hits 91.4 degrees.</p>	<p>由于跑道较短，拉瓜迪亚机场已经迫使很多飞机减轻重量——不管天气情况如何。比如，波音 737 要想成功起飞，必须将最大载量减少 1000 磅。天气越热，限制越多，气温达到 91.4 华氏度时，需要减轻的重量提高至 1.5 万磅。</p>
<p>Restrictions like these are determined by individual airports and airlines, and not by a standardized industry regulation. American Airlines consults National Weather Service data and plugs it into a formula to calculate air density to determine if conditions at a given airport are suitable for takeoffs and landings.</p>	<p>此类限制由各机场和航空公司决定，而不是根据标准化的行业规定。美国航空公司把国家气象局(National Weather Service)的数据输入一个公式，算出空气密度，以决定某个机场的气象条件是否适合起飞和降落。</p>
<p>In 2015, Radley Horton, a research scientist at Columbia University’s</p>	<p>2015 年，哥伦比亚大学(Columbia University)地球研究所(Earth Institute)</p>

<p>Earth Institute, published a joint study with a Ph.D. student, Ethan Coffel, on the effect of extreme heat on aviation. The conclusion: "We can say with confidence that there will be more weight-restricted days, and larger weight restrictions," he said.</p>	<p>的研究科学家拉德利·霍顿(Radley Horton)与博士研究生伊桑·科菲尔(Ethan Coffel)联合发表了一项关于极端高温对飞行的影响的研究。结论是：“我们可以胸有成竹地说，以后会出现更多限制重量的日子，而且对重量的限制力度也会更大。”</p>
<p>Already, since the 1980s, airports have seen an increasing number of weight-restricted summer days, their research found.</p>	<p>他们的研究发现，从 20 世纪 80 年代起，机场在夏季限制重量的日子越来越多。</p>
<p>"One thing that's become abundantly clear," Horton added, "is this is an underexplored area."</p>	<p>"有一件事已经变得非常明显，"霍顿还说，"那就是，人们对这个领域的探索还不够。"</p>
<p>The study examined conditions at four airports: La Guardia; Ronald Reagan Washington National Airport, which also has relatively shorter runways; Phoenix Sky Harbor International Airport; and Denver International Airport. Some airports, like Denver, could counteract rising temperatures by extending their runways. That option is less workable for a location like La Guardia, however, as it is hemmed in by New York City on one side and the East River on the other.</p>	<p>这项研究调查了四个机场的情况：拉瓜迪亚机场；华盛顿罗纳德里根国家机场(Ronald Reagan National Airport)，它的跑道也相对较短；菲尼克斯天港国际机场(Phoenix Sky Harbor International Airport)；以及丹佛国际机场。有些机场，比如丹佛国际机场，可以通过延长跑道对抗温度的上升。不过，这个方法在拉瓜迪亚这样的机场行不通，因为它的一边是纽约市，另一边是东河，已被团团围住。</p>
<p>As global temperatures continue to rise, some of the heaviest planes on the longest flights may eventually be unable to depart during the hottest part of summer days, Horton said. Like an ocean liner waiting for the right tide to leave port, airplanes may be grounded until the air is cool and dense enough for takeoff at full capacity.</p>	<p>霍顿表示，随着全球气温继续上升，在夏季最炎热的日子里，最远程航班的一些最重的飞机可能最终无法起飞。就像远洋客轮要等合适的潮汐离港一样，飞机也可能被困在地上，直到空气变凉，密度变大，足以让飞机在最大载量下起飞。</p>
<p>He also pointed out that a no-fly window of even a few hours at a particular airport could have a ripple effect across airline operations while further squeezing airlines' already tight profit margins.</p>	<p>他还指出，在某个机场哪怕停飞数小时，都会对航空公司的运营产生连锁反应，进一步压缩航空公司本已非常有限的盈利空间。</p>
<p>With forecasts predicting record-breaking temperatures in Phoenix on Tuesday — and some flights being canceled pre-emptively — many</p>	<p>周二，天气预报预测菲尼克斯会出现破纪录的高温，有些航班已经提前取消了，很多乘客彻底离开了机场。安检线上几乎没人在等待。航站楼里空空荡荡</p>

passengers stayed away from the airport entirely. Security lines had almost no wait. The terminals were so empty, one traveler was spotted riding his bike through the airport.	的，人们甚至看见一名旅行者骑着自行车穿过机场。
Allison Thomas, a 28-year-old college student, said she had endured three flight cancellations as she tried to return home to Seattle.	28岁的大学生艾莉森·托马斯(Allison Thomas)表示，她想返回西雅图的家，她已经忍受了三次航班取消。
"I'm so tired!" she said, but added that she felt lucky that she had family in town. "Other people had to go to hotels."	"我累死了!"她说。不过她说自己还算幸运，在城里有个家。"其他人只能去住酒店。"
After her third cancellation, Thomas finally gave up. She decided to drive to San Diego to try to catch a flight there — despite the risk that planes might not take off there, either.	第三次取消后，托马斯最终放弃了。她决定开车前往圣迭戈，想在那里赶上一个航班——尽管那里的飞机也有可能无法起飞。

An Iceberg the Size of Delaware Just Broke Off a Major Antarctic Ice Shelf	南极洲巨型冰山断裂，冰雪大陆形状永久改变
A chunk of floating ice that weighs more than a trillion metric tons broke away from the Antarctic Peninsula, producing one of the largest icebergs ever recorded and providing a glimpse of how the Antarctic ice sheet might ultimately start to fall apart.	一块重量超过1万亿吨的巨大浮冰从南极半岛断裂，形成了有记录以来的最大冰山之一，也为南极冰架最终也许会怎样崩解提供了一瞥。
A crack more than 120 miles long had developed over several years in a floating ice shelf called Larsen C, and scientists who have been monitoring it confirmed on Wednesday that the huge iceberg had finally broken free.	名为拉森C的冰架在几年的时间里已经逐渐现出一条长达120英里(约合193公里)的大裂缝，一直在监测这条裂缝的科学家周三证实，巨大的冰山终于从冰架断裂出来。
There is no scientific consensus over whether global warming is to blame. But the landscape of the Antarctic Peninsula has been fundamentally changed, according to Project Midas, a research team from Swansea University and Aberystwyth University in Britain that had	全球变暖是否是这次断裂的罪魁祸首，目前科学上尚无共识。但来自英国斯旺西大学(Swansea University)和阿伯斯威斯特大学(Aberystwyth University)的迈达斯计划(Project Midas)研究小组说，南极半岛的形状已经彻底改变，该小组自2014年起，一直在监测这条裂缝。

<p>been monitoring the rift since 2014.</p>	
<p>"The remaining shelf will be at its smallest ever known size," said Adrian Luckman, a lead researcher for Project Midas. "This is a big change. Maps will need to be redrawn."</p>	<p>"剩下的冰架将处于有记录以来的已知最小规模，"迈达斯计划的首席研究员艾德里安·拉克曼(Adrian Luckman)说。"这是一个极大的变化。需要重新绘制地图。"</p>
<p>Larsen C, like two smaller ice shelves that collapsed before it, was holding back relatively little land ice, and it is not expected to contribute much to the rise of the sea. But in other parts of Antarctica, similar shelves are holding back enormous amounts of ice, and scientists fear that their future collapse could dump enough ice into the ocean to raise the sea level by many feet. How fast this could happen is unclear.</p>	<p>与此前崩解的两个较小冰架一样，拉森 C 冰架几乎没有阻挡多少陆上冰，所以其崩解预计不会对海平面的上升产生多大影响。但在南极的其他地区，类似的冰架正阻挡着大量的冰川，科学家们担心，这些冰架的未来崩解可能会将足够多的冰倾入海洋，从而导致海平面上升 1 米以上。这种情况可能多么快地发生目前尚不清楚。</p>
<p>In the late 20th century, the Antarctic Peninsula, which juts out from the main body of Antarctica and points toward South America, was one of the fastest-warming places in the world. That warming had slowed or perhaps reversed slightly in the 21st century, but scientists believe the ice is still catching up to the higher temperatures.</p>	<p>20 世纪末，从南极主体向南美洲方向伸出的南极半岛是世界上温度增长最快的地区之一。虽然这种变暖已经在 21 世纪放缓或可能略有逆转，但科学家认为，冰的温度尚未达到半岛地区的更高温度。</p>
<p>Some climate scientists believe the warming in the region was at least in part a consequence of human-caused climate change, while others have disputed that, seeing a large role for natural variability — and noting that icebergs have been breaking away from ice shelves for many millions of years. But the two camps agree that the breakup of ice shelves in the peninsula region may be a preview of what is in store for the main part of Antarctica as the world continues heating up as a result of human activity.</p>	<p>一些气候科学家认为，该地区的变暖至少部分是人为气候变化的结果，但也有一些气候科学家对这种观点持异议，认为自然的多变性在其中起着更大的作用，他们指出，冰山从冰架上脱离的事情在数百万年间时有发生。但是，这两个阵营的人都一致认为，半岛地区冰架的断裂，可能预示了等待着南极主体的未来，因为地球由于人类活动在不断升温。</p>
<p>"While it might not be caused by global warming, it's at least a natural laboratory to study how breakups will occur at other ice shelves to</p>	<p>在美国宇航局领导极地研究项目的托马斯·P·瓦格纳(Thomas P. Wagner)说："虽然这可能不是全球变暖造成的，但它至少为研究其他冰架将如何崩</p>

<p>improve the theoretical basis for our projections of future sea level rise," said Thomas P. Wagner, who leads NASA's efforts to study the polar regions.</p>	<p>解提供了一个自然实验室，有助于改进我们预测未来海平面上升的理论基础。”</p>
<p>In frigid regions, ice shelves form as the long rivers of ice called glaciers flow from land into the sea. The result is a bit like a clog in a drain pipe, slowing the flow of the glaciers feeding them. When an ice shelf collapses, the glaciers behind it can accelerate, as though the drain pipe had suddenly cleared.</p>	<p>在寒冷地区，名为冰川的长冰河从陆地流入海洋形成了冰架。其结果有点像排水管发生了堵塞，减慢了供给冰架的冰川的流速。当冰架出现崩解时，其后面的冰川的滑动可能会加速，就好像排水管突然畅通了。</p>
<p>At the remaining part of Larsen C, the edge is now much closer to a line that scientists call the compressive arch, which is critical for structural support. If the front retreats past that line, the northernmost part of the shelf could collapse within months.</p>	<p>拉森 C 冰架剩余部分的边缘现在与科学家称之为“褶皱弧”的界线更接近了，褶皱弧对结构稳定性至关重要。如果冰川的前沿退到了这条线的后边，那么冰架的最北部分可能会在几个月内崩解。</p>
<p>"At that point in time, the glaciers will react," said Eric Rignot, a climate scientist at the University of California, Irvine, who has done extensive research on polar ice. "If the ice shelf breaks apart, it will remove a buttressing force on the glaciers that flow into it. The glaciers will feel less resistance to flow, effectively removing a cork in front of them."</p>	<p>“到那时，冰川会有所反应，”加州大学尔湾分校的气候科学家埃里克·里格诺特(Eric Rignot)说，他对极地冰做过广泛的研究。“如果冰架破碎，它将消除对流入其中的冰川的支撑。冰川流动的阻力会变得更小，等于是把挡在它前面的塞子拿掉了。”</p>
<p>Scientists also fear that two crucial anchor points will be lost.</p>	<p>科学家们也担心将会失去两个关键的固定点。</p>
<p>According to Dr. Rignot, the stability of the whole ice shelf is threatened, as the shelf front thins.</p>	<p>里格诺特说，随着冰架的前部变薄，整个冰架的稳定性受到威胁。</p>
<p>"You have these two anchors on the side of Larsen C that play a critical role in holding the ice shelf where it is," he said. "If the shelf is getting thinner, it will be more breakable, and it will lose contact with the ice rises."</p>	<p>“拉森 C 冰架这边有这两个固定点，它们对把冰架保持在现有位置上起着关键作用，”他说。“如果冰架变得越来越薄，就更容易断裂，并会失去与冰隆的接触。”</p>
<p>Ice rises are islands that are overridden by the ice shelf, allowing them</p>	<p>冰隆是冰架覆盖下的岛屿，它们能承担更多的冰架重量。科学家尚未确定鲍</p>

to shoulder more of the weight of the shelf. Scientists have yet to determine the extent of thinning around the Bawden and Gipps ice rises, though Dr. Rignot noted that the Bawden ice rise was more vulnerable.	登冰隆和吉普斯冰隆周围的变薄程度，但里格诺特指出，鲍登冰隆已经更加脆弱。
"We're not even sure how it's hanging on there," he said. "But if you take away Bawden, the whole shelf will feel it."	"我们就连目前那里的什么东西在支撑着冰架都不确定，"他说。"但如果没有鲍登的话，整个冰架都会感觉到。"
The Antarctic Peninsula may be a canary in a coal mine.	南极半岛可能是煤矿里的金丝雀。
The collapse of the peninsula's ice shelves can be interpreted as fulfilling a prophecy made in 1978 by a renowned geologist named John H. Mercer of Ohio State University. In a classic paper, Dr. Mercer warned that the western part of Antarctica was so vulnerable to human-induced climate warming as to pose a "threat of disaster" from rising seas.	南极半岛冰架的崩解可以被解释为俄亥俄州立大学著名地质学家约翰·H·默瑟(John H. Mercer)1978年所做预言的兑现。默瑟在一篇经典论文中警告说，南极西部对人类造成的气候变暖如此之脆弱，以至于该地区构成对海平面上升所致"灾难的威胁"。
He said that humanity would know the calamity had begun when ice shelves started breaking up along the peninsula, with the breakups moving progressively southward.	他说，当冰架开始沿着半岛崩解、而且崩解逐步向南扩展时，人类将会知道灾难已经到来。
The Larsen A ice shelf broke up over several years starting in 1995; the Larsen B underwent a dramatic collapse in 2002; and now, scientists fear, the calving of the giant iceberg could be the first stage in the breakup of Larsen C.	拉森 A 冰架已从 1995 年开始在几年的时间里崩解了。拉森 B 冰架在 2002 年发生了突然的崩溃。现在，科学家们担心，巨大冰山的脱落可能是拉森 C 冰架崩解的第一个阶段。
"As climate warming progresses farther south," Dr. Rignot said, "it will affect larger and larger ice shelves, holding back bigger and bigger glaciers, so that their collapse will contribute more to sea-level rise."	里格诺特说，"随着气候变暖进一步向南发展，受其影响的冰架将越来越大，挡在这些冰架后面的冰川也越来越大，因此，这些冰架的崩解将对海平面的上升有更大的影响。"

Arks of the Apocalypse	末日方舟：为濒临消亡的万物留念

<p>It was a freakishly warm evening last October when a maintenance worker first discovered the water — torrents of it, rushing into the entrance tunnel of the Svalbard Global Seed Vault, a storage facility dug some 400 feet into the side of a mountain on a Norwegian island near the North Pole. A storm was dumping rain at a time of year when the temperature was usually well below freezing; because the water had short-circuited the electrical system, the electric pumps on site were useless. This subterranean safe house holds more than 5,000 species of essential food crops, including hundreds of thousands of varieties of wheat and rice. It was supposed to be an impenetrable, modern-day Noah's Ark for plants, a life raft against climate change and catastrophe. Local firefighters helped pump out the tunnel until the temperature dropped and the water froze. Townspeople from the village at the mountain's base then brought their own shovels and axes and broke apart the ice sheet by hand.</p>	<p>去年10月一个异常温暖的夜晚，北极附近的一个挪威小岛上，一名维修工人最先发现了那些水。湍急的水流竞相涌入斯瓦尔巴全球种子库(Svalbard Global Seed Vault)的入口隧道，这个存储设施位于一座山侧面下挖大约400英尺处（约合120米）。在温度通常远低于冰点的时节，一场风暴带来了倾盆大雨；由于被水泡过的电力系统发生短路，现场的电力抽水机成了无用之物。此处藏身地下的安全屋内储存着超过5000种重要粮食作物的种子，其中包括数十万个变种的麦和稻。它应该是一个坚不可摧的所在，是为植物打造的当代诺亚方舟，是抵御气候变化和灾难的救生筏。当地的消防人员帮助把水抽出隧道，直至温度下降，水结成冰。随后，山脚下的村民带着铲子和斧头赶过来，人工凿碎冰层。</p>
<p>A few Norwegian radio stations and newspapers reported the incident at the time, but it received little international attention until May, when it was becoming clear that President Donald Trump was likely to pull the United States out of the Paris climate agreement. Suddenly the tidings from Svalbard were everywhere, in multiple languages, with headlines like "World's 'Doomsday' Seed Vault Has Been Breached by Climate Change." It didn't matter that the flood happened seven months earlier, or that the seeds remained safe and dry. We had just lived through the third consecutive year of the highest global temperatures on record and the lowest levels of Arctic ice; vast swaths</p>	<p>此事当时被几家挪威广播电台和报纸报道过，但基本没获得国际社会的关注，直到今年5月，也就是世人日益认清唐纳德·特朗普总统可能会让美国退出巴黎气候协定的时候。突然间，来自斯瓦尔巴的消息随处可见，标题则是“气候变化让地球的‘末日’种子库受损”之类。虽然种子库进水是七个月前的事，种子很安全，保持着干燥，但这已经不重要了。重要的是，刚刚过去的一年里，全球气温连续第三年创造新高，北极冰层覆盖范围连续第三年创造新低，大片大片的永久冻土不断融化，科学家不久前还宣布，约60%的灵长类物种有灭绝的危险。所有这些事实似乎都表明这个星球的未来越来越无望。而现在，又出现了一个小小的寓言，预示着我们设法保存身边哪怕一点点大自然赐予之物的努力，也有可能遭到失败。</p>

<p>of permafrost were melting; scientists had recently announced that some 60% of primate species were threatened with extinction. All these facts felt like signposts to an increasingly hopeless future for the planet. And now, here was a minifable suggesting that our attempts to preserve even mere traces of the bounty around us might fall apart, too.</p>	
<p>The seed vault is perhaps the best-known project in a growing global campaign to cache endangered phenomena for safekeeping. Fortunately — the leak snafu notwithstanding — scientists, governments and even private companies have become quite good over the last decade at these efforts to bank nature. The San Diego Zoo’s Frozen Zoo cryogenically preserves living cell cultures, sperm, eggs and embryos for some 1,000 species in liquid nitrogen. Inside the National Ice Core Laboratory, in Lakewood, Colorado, a massive freezer contains roughly 62,000 feet’s worth of rods of ice from rapidly melting glaciers and ice sheets in Antarctica, Greenland and North America. The Smithsonian’s National Zoo in Washington maintains the world’s largest collection of frozen exotic-animal milk, from mammals large (orcas) and small (critically endangered fruit bats), in order to help researchers figure out how to nourish the most vulnerable members of any species: babies. An international project called Amphibian Ark engages in ex situ conservation by relocating amphibians, the most endangered class of animal, indoors for safekeeping and sperm collection.</p>	<p>在一场日益扩大、旨在贮藏起濒危的一切并加以妥善照管的全球性行动中，斯瓦尔巴全球种子库或许是最著名的项目。幸运的是——尽管出了进水这种纰漏——在过去十年间，科学界、各国政府乃至私人企业已经变得非常善于从事这种帮自然做备份的工作。圣迭戈动物园(San Diego Zoo)的冷冻动物园(Frozen Zoo)，把大约 1000 个物种的活体细胞培养物、精子、卵子和胚胎低温保存在液态氮中。科罗拉多州莱克伍德的 国家冰芯实验室(National Ice Core Laboratory)中，一个巨大的冰柜内盛放着总共将近 6.2 万英尺的冰柱，来自南极洲、格陵兰岛和北美州那些正在融化的冰川和冰盖。华盛顿的国家动物园(Smithsonian’s National Zoo)，是世界上保有冷冻的野生动物乳汁最多的地方，有的乳汁来自大型哺乳动物（逆戟鲸），也有的来自小型哺乳动物（极度濒危的果蝠），旨在帮助研究人员弄清如何培育任何物种最脆弱的成员——幼崽。一个名为“两栖动物方舟”(Amphibian Ark)的项目致力于进行迁地保育，把动物当中最为濒危的两栖动物迁入室内，进行保护和采精。</p>

Some anthropologists believe their discipline emerged when Europeans began to experience a sort of nostalgia for the native populations they had wiped out with their diseases and guns. That feeling sent them scurrying off to gather up ethnographies, dying languages and sometimes even living subjects. Zisis Kozlakidis, the president of the International Society for Biological and Environmental Repositories, an organization that represents some 1,300 biobanks containing specimens like viruses and the reproductive cells of clouded leopards, told me a collecting rush is underway, which he likened to an international space race. "There is," he said, "a very intense feeling that we're losing biodiversity quicker than we can understand it."</p>	<p>为欧洲人开始对自己用传染病和枪炮消灭掉的土著产生了某种怀旧之情。这种情绪驱使他们加紧收集人种志、正在消亡的语言,有时甚至是活着的人种。国际生物和环境储存库协会(International Society for Biological and Environmental Repositories)的成员包括约 1300 个生物样本库,收藏有各种病毒乃至云豹的生殖细胞等样本。该协会主席齐西斯·科兹拉基迪斯(Zisis Kozlakidis)在接受采访时对我说,目前正出现一股收藏热潮,他将之比作国际空间竞赛。他说,“人们强烈地感觉到,不等理解其中的意义,我们就开始快速地失去生物多样性。”</p>
<p>A GROWING CONSENSUS among scientists holds that we now live in the Anthropocene, an epoch defined by humanity's impact on planetary ecosystems. We are responsible for the current die-off of species, not some asteroid or volcanic eruption. The changes go far beyond animal disappearance: We've altered the composition of the atmosphere, shifted the chemistry of the oceans. In mere decades we've managed to distort a biological, chemical and physical reality that was relatively constant for millennia. And now, in the face of these unfathomable transformations, we are trying desperately to hang onto and preserve what remains. Academics have even taken to studying the psychology of this human response — one such book, for example, is titled "The Anthropology of Extinction: Essays on Culture and Species Death." In certain ways, our environmental banks are</p>	<p>科学家们日益达成一个共识,那就是,我们现在生活在人类纪,这个时代的特点就是人类对地球生态系统的影响。是我们造成了目前那些生物的消亡,而非小行星或火山爆发。变化远不止动物的消亡,我们改变了大气的构成和海洋的化学成分。在区区数十年时间里,我们扭曲了几千年来相对稳定的生物、化学和物理现实。现在,面临难以捉摸的转变,我们在竭力守住和保护剩下的东西。学术界甚至开始研究人类产生这种反应的心理,比如,有一本书名叫《灭绝人类学:关于文化和物种死亡的文章》(The Anthropology of Extinction: Essays on Culture and Species Death)。从某些角度讲,我们的环境标本库就是人类纪的珍奇屋,在这个正在消逝的地质时刻,它们对这个世界惊人的壮美献上敬意。</p>
